CSP receives delisting notification from nasdaq and Updates Status of 2005 10-K Filing

BILLERICA, MA, February 27, 2006 - CSP Inc. (NASDAQ:CSPIE), a provider of IT Solutions, systems integration services and dense cluster computing systems, announced today that on February 22, 2006 it received a letter from the Nasdaq National Market notifying the Company that because the Company had failed to file with Nasdaq its quarterly report on Form 10-Q for the quarterly period ended December 31, 2005, as required by Marketplace Rule 4310(c)(14), its securities are subject to delisting from the Nasdaq Stock Market.

The Company had a hearing with Nasdaq on February 16, 2006 concerning Nasdaq's prior notice of delisting, which notice we reported on Form 8-K, filed on January 23, 2006. Nasdaq advised us that the results of the hearing will be released to the Company in three to four weeks, and that the delisting action is stayed pending those results.

The delay in the filing of the Form 10-Q for the first quarter of fiscal year 2006 is related to fact that the Company's 2005 Form 10-K has not yet been filed, due to the pending restatement of the consolidated balance sheet as of September 30, 2004 and statements of cash flows for the fiscal years ended September 30, 2004 and 2003. During the evaluation of the cash flow statements, certain investments, which were highly liquid and had maturities of three months or less, were identified as items that should have been reported as cash and cash equivalents at September 30, 2004 and 2003. The Company is therefore in the process of determining the impact of these restatements on the cash and cash equivalents and investments for those periods.

The Company is diligently working to complete its 2005 Form 10-K, however we are still unable to predict the filing date for the 2005 Form 10-K.

The Company is still assessing the need for a restatement of the balance sheets for the 2005 and 2004 quarters for the classification of certain cash and cash equivalents and investments, as well as determining the restatement of the statements of cash flows for the 2005 and 2004 quarters.
