TRICO BANCSHARES ANNOUNCES RECORD QUARTERLY EARNINGS

Chico, CA - April 21, 2004. TriCo Bancshares (NASDAQ: TCBK), parent company of Tri Counties Bank, today announced record quarterly earnings of \$4,777,000 for the quarter ended March 31, 2004. This represents a 32.2% increase when compared with earnings of \$3,613,000 for the quarter ended March 31, 2003. Diluted earnings per share for the quarter ended March 31, 2004 increased 18.0% to \$0.59 from \$0.50 for the quarter ended March 31, 2003. (Adjusting for the 2-for-1 stock split announced on March 11, 2004, payable on April 30, 2004 to shareholders of record on April 9, 2004, the diluted earnings per share for the quarters ended March 31, 2004 and 2003 are \$0.29 and \$0.25, respectively.) Total assets of the Company increased \$274 million (23.3%) to \$1.450 billion at March 31, 2004 versus \$1.177 billion at March 31, 2003. Total loans of the Company increased \$300 million (43.3%) to \$994 million at March 31, 2004 versus \$694 million at March 31, 2003. Total deposits of the Company increased \$207 million (20.0%) to \$1.240 billion at March 31, 2004 versus \$1.033 billion at March 31, 2003.

Included in the results for the quarter ended March 31, 2004 was the effect of the Company's acquisition of North State National Bank on April 4, 2003. On April 4, 2003, North State National Bank had assets of \$140 million, loans totaling \$77 million, and deposits totaling \$126 million. Richard Smith, President and Chief Executive Officer commented, "We are very pleased with the performance of our company during the quarter ended March 31, 2004. We continue to see good loan demand, particularly in the consumer sector, while the credit quality of our loan portfolio remains high. We are also encouraged by our ability to grow noninterest income despite a slowdown in the mortgage refinance market. While the slowdown in mortgage refinancing has decreased our gain on sale of loan revenue it has also increased the value of, and the revenue from, our servicing those loans that we sold over the last few years. In addition, the continued expansion of our franchise has allowed us to increase our sale of nondeposit investment products, and add households that increase our source of low cost deposits, and service charge and fee revenue. We will continue to execute our growth strategy throughout the Central Valley of California as evidenced by the opening this week of our full service branch in the Raley's supermarket at 2900 Geer Road in Turlock, California."

The increase in earnings for the quarter ended March 31, 2004 over the year-ago quarter was due to a \$3,664,000 (27.7%) increase in net interest income to \$16,898,000, and a \$359,000 (6.7%) increase in noninterest income to \$5,755,000. The increase in net interest income was due to a \$291 million

## Edgar Filing: TRICO BANCSHARES / - Form 8-K

(42.8%) increase in average loan balances to \$971 million, and an 18 basis point increase in fully tax-equivalent net interest margin to 5.35% in the quarter ended March 31, 2004 compared to the year-ago quarter. The \$359,000 increase in noninterest income was mainly due to a \$581,000 (16.6%) increase in service charges and fees, a \$94,000 (21.0%) increase in commission on sale of nondeposit investment products, and a \$192,000 increase in other noninterest income. These contributing factors were partially offset by a \$508,000 (44.8%) decrease in gain on sale of loans. The decrease in gain on sale of loans was due to the slowdown in the residential mortgage refinance market that started during the second half of 2003. The increase in service charges and fees is mainly due to increases in the number of deposit households, ATM surcharge and card interchange fee revenue, and mortgage servicing fee revenue. The increase in other noninterest income is mainly due to a higher level of increase in cash value of life insurance due to additional life insurance that was purchased during the first half of 2003.

The increases in net interest income and noninterest income were partially offset by a \$500,000 (333%) increase in provision for loan losses to \$650,000, and a \$1,695,000 (13.4%) increase in noninterest expense to \$14,346,000 in the quarter ended March 31, 2004 versus the year-ago quarter. The increase in provision for loan losses is mainly due to loan growth as loan quality remains high and loan charge-offs remain low. During the quarter ended March 31, 2004, net loan charge-offs as a percentage of average outstanding loans was 0.05% on an annualized basis. As of March 31, 2004, nonperforming loans net of government guarantees and the allowance for loan losses were 0.53% and 1.44%, respectively, of outstanding loans. The increase in noninterest expense was mainly due to salary expense related to the addition of a branch in Chico through the North State acquisition (April 2003), de-novo branches in Roseville (November 2003) and Folsom (December 2003), regular salary increases, and incentive compensation related to the loan and deposit growth.

As previously announced on March 11, 2004, the Board of Directors of TriCo Bancshares approved a two-for-one stock split of its common stock at its meeting held on March 11, 2004. The stock split will be effected in the form of a stock dividend and will entitle each stockholder of record at the close of business on April 9, 2004 to receive one additional share for every share of TriCo common stock held on that date. Shares resulting from the split will be distributed on April 30, 2004. As of March 11, 2004, the Company had 7,817,761 common shares outstanding.

Also at its meeting on March 11, 2004, the Board of Directors of TriCo Bancshares approved an increase in the maximum number of shares to be repurchased under the Company's stock repurchase plan originally announced on July 31, 2003 from 250,000 to 500,000 to be effective on April 9, 2004, solely to conform with the two-for-one stock split noted above. The 250,000 shares originally authorized for repurchase under this plan represented approximately 3.2% of the Company's approximately 7,852,000 common shares outstanding as of July 31, 2003. This plan has no stated expiration date for the repurchases, which may occur from time to time as market conditions allow. As of April 21, 2004, the Company had purchased 111,300 shares under this plan, which leaves 138,700 shares available for repurchase under the plan. As a result of the 2-for-1 stock split on April 30, 2004, assuming no additional shares are repurchased between April 21, 2004 and April 30, 2004, there will be 277,400 shares available for repurchase under the plan.

In addition to the historical information contained herein, this press release contains certain forward-looking statements. The reader of this press release should understand that all such forward-looking statements are subject to various uncertainties and risks that could affect their outcome. The Company's actual results could differ materially from those suggested by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, variances in the actual versus
