#### TRICO BANCSHARES ANNOUNCES QUARTERLY EARNINGS

CHICO, Calif. – (July 29, 2010) – TriCo Bancshares (NASDAQ: TCBK) (the "Company"), parent company of Tri Counties Bank (the "Bank"), today announced quarterly earnings of \$1,320,000 for the quarter ended June 30, 2010. This represents a decrease of \$1,192,000 (48%) when compared with earnings of \$2,512,000 for the quarter ended June 30, 2009. Diluted earnings per share for the quarter ended June 30, 2010 decreased 50% to \$0.08 compared to \$0.16 for the quarter ended June 30, 2009. Diluted earnings per share for the six months ended June 30, 2010 and 2009 were \$0.18 and \$0.34, respectively, on earnings of \$2,878,000 and \$5,394,000, respectively.

Total assets of the Company increased \$136,804,000 (6.6%) to \$2,224,645,000 at June 30, 2010 from \$2,087,841,000 at June 30, 2009. Total loans of the Company decreased \$47,142,000 (3.0%) to \$1,505,093,000 at June 30, 2010 from \$1,552,235,000 at June 30, 2009. Total deposits of the Company increased \$152,564,000 (8.8%) to \$1,889,949,000 at June 30, 2010 from \$1,737,385,000 at June 30, 2009.

Included in the Company's results for the three and six month periods ended June 30, 2010 is the acquisition by Tri Counties Bank of the banking operations of Granite Community Bank ("Granite"), Granite Bay, California from the FDIC under a whole bank purchase and assumption agreement with loss sharing on May 28, 2010. With this acquisition, Tri Counties Bank added one traditional bank branch in each of Granite Bay, Roseville and Auburn, California. This acquisition is consistent with the Company's community banking expansion strategy and provides further opportunity to fill in the Company's market presence in the greater Sacramento, California market. Additional information regarding the Granite acquisition is presented near the end of this announcement.

The following is a summary of the components of fully taxable equivalent ("FTE") net income for the periods indicated (dollars in thousands):

	Three months ended June 30,				
	2010		2009		
Net Interest Income (FTE	\$ 22,245		\$23,288		
Provision for loan losses	(10,000	)	(7,850)		
Noninterest income	8,104		7,996		
Noninterest expense	(18,408	)	(19,344)		
Provision for income taxes					
(FTE)	(621	)	(1,578		
Net income	\$1,320		\$2,512		

For the three months ended June 30, 2010, net income was \$1,320,000, or \$0.08 per diluted share, as compared to net income of \$2,512,000, or \$0.16 per diluted share for the three months ended June 30, 2009. The decrease in net income for the three months ended June 30, 2010 compared to the same period of the prior year was the result of decreased net interest income, and increased provision for loan losses that were partially offset by increased noninterest income and decreased noninterest expense. Noninterest income for the three month period ended June 30, 2010 includes a bargain purchase gain on acquisition of \$232,000 relating to the acquisition of Granite. The Bank assumed certain assets and liabilities of Granite on May 28, 2010, and the results of the acquired operations are

included in the Company's financial results starting on May 28, 2010.

Net interest income (FTE) for the three months ended June 30, 2010 was \$22,245,000, a decrease of \$1,043,000 or 4.5% compared to the same period in 2009. The results for the three month period ended June 30, 2010 as compared to the same period in 2009 are attributable to a change in the mix of interest-earning assets, with average loan balances decreasing and other categories of lower yielding assets increasing. Net interest margin (net interest income as a percentage of average interest-earning assets) on a fully tax-equivalent basis was 4.41% for the three months ended June 30, 2010, a decrease of 41 basis points as compared to the same period in 2009. The decrease in net interest margin for the three months ended June 30, 2010 as compared to same period in 2009 was mainly due to a lower average yield earned on loans and a change in the mix of interest-earning assets away from loans and towards lower yielding interest-earning cash at the Federal Reserve Bank combined with continued deposit growth despite extremely low rates being offered by the Company for those deposits. The Company is attempting to balance new customer acquisition and deposit growth with the opportunities it has, in the current economic environment, to invest or loan that deposit growth without undue risk and in a profitable manner.

The following table details the components of the net interest income and net interest margin on a fully tax-equivalent (FTE) basis for the quarters ended June 30, 2010 and 2009:

The provision for loan losses was \$10,000,000 for the three months ended June 30, 2010, compared to \$7,850,000 for the same period in 2009. The increases in the provision for loan losses for the three month period ended June 30, 2010 as compared to the same period in 2009 were primarily the result of changes in the make-up of the loan portfolio and the Bank's loss factors in reaction to increased losses in the construction, commercial real estate, commercial & industrial (C&I), home equity and auto indirect loan portfolios. Management re-evaluates its loss ratios and assumptions quarterly and makes changes as appropriate based upon, among other things, changes in loss rates experienced, collateral support for underlying loans, changes and trends in the economy, and changes in the loan mix.

Noninterest income for the three months ended June 30, 2010 was \$8,104,000, an increase of \$108,000, or 1%, as compared to the same period in 2009. The following table presents the key components of noninterest income for the three months ended June 30, 2010 and 2009:

	Three months Change Change ended June 30,				
(Dollars in	30,		Amount F	Percent	
thousands)	2010 2	2009			
Service charges on deposit accounts	\$4,443	\$4,136	\$307	7%

Change in value of mortgage servicing rights	(569)	271		(310%)	
Gain on sale of loans	577	948	(371)	(39%)	
Commissions on sale of nondeposit investment products	362	492	(130)	(26%)	
Increase in cash value of life insurance	426	270	156	58%	
Gain (loss) on disposition of foreclosed assets	310	(4)	314		
Bargain purchase gain on acquisition	232	0	232		
Other noninterest income	114	108	6	6%	
Total noninterest income	\$8,1045	57,996	\$108	1%	

The increase in service charges in the three months ended June 30, 2010 over the same period in 2009 is mainly due to an increase in nonsufficient funds per item fees that took effect in April 2009. ATM fees and interchange revenue increased due to increased customer point-of-sale transactions that are the result of incentives for such usage. Other service fees increase mainly due to increased loan servicing fees from higher balances of loans being serviced. Change in value of mortgage servicing rights decreased primarily due to decreased residential mortgage rates that are expected to increase the pace of future mortgage refinancing that in turn adversely effect the value of mortgage servicing rights. Gain on sale of loans decreased due to decreased mortgage refinancing when compared to prior year similar periods. The improvement in increase in cash value of life insurance is due to increased earnings rates from such insurance policies.

Noninterest expense for the three months ended June 30, 2010 was \$18,408,000, a decrease of \$936,000, or 5%, as compared to the same period in 2009. The following table presents the key components of noninterest expense for the three months ended June 30, 2010 and 2009:

Salaries and related benefits decreased \$84,000, or 1% in the three months ending June 30, 2010, as compared to the same period in the prior year. The increase was due to a two percent increase in average full time equivalent staff, primarily in new branches and loan collection functions, and annual salary merit increases that were substantially offset by reduced incentive compensation in all product lines. The May 28, 2010 acquisition of Granite added \$80,000 to salaries and benefits expense through June 30, 2010.

Occupancy and equipment expenses increased for the three months ended June 30, 2010, as compared to the same period in the prior year, primarily due to four new branch openings, one each in the third and fourth quarters of 2009 and one each in the first and second quarters of 2010, and three branches and one admin facility acquired in the Granite acquisition on May 28, 2010. The decrease in provision for losses – unfunded commitments was due to reduced estimates of future uses of such commitments and reduced estimates of loss rates on such future commitments. The increase in professional fees is mainly due to legal fees related to loan collection efforts. The May 28, 2010 acquisition of Granite added expenses totaling \$77,000 in various categories other noninterest expense through June 30, 2010.

The effective tax rate for the three months ended June 30, 2010 was 27.9% and reflects a decrease from 36.4% for the three months ended June 30, 2009. The provision for income taxes for all periods presented is primarily attributable to the respective level of earnings and the incidence of allowable deductions, particularly from increase in cash value of life insurance, tax-exempt loans and state and municipal securities.

The assets acquired and liabilities assumed in the Granite acquisition have been accounted for under the acquisition method of accounting (formerly the purchase method). The acquired loan portfolio and foreclosed assets are referred to as "covered loans" and "covered foreclosed assets", respectively, and are presented as separate line items in the Company's consolidated balance sheet. Collectively these balances are referred to as "covered assets".

The Company did not immediately acquire all the real estate, banking facilities, furniture or equipment of Granite as part of the purchase and assumption agreement. However, the Bank has the option to purchase or lease the real estate and furniture and equipment from the FDIC. The term of this option expires 90 days from the acquisition dates, unless extended by the FDIC. Acquisition costs of the real estate and furniture and equipment that the Bank may purchase from the FDIC will be based on current appraisals and determined at a later date.

The operations of Granite are included in the Company's operating results from May 28, 2010, and added revenue of \$595,000, including a bargain purchase gain of \$232,000, and noninterest expense of \$157,000, that resulted in a contribution to net income after-tax of \$254,000 for the second quarter of 2010. Such operating results are not necessarily indicative of future operating results. Granite's results of operations prior to the acquisition are not included in the Company's operating results. The assets acquired and liabilities assumed in the Granite acquisition, both tangible and intangible, were recorded on the Company's balance sheet at their estimated fair values on the acquisition date as follows (in thousands):

	May 28,
Asset acquired:	2010
Cash and cash equivalents	\$18,764
Investment securities	3,650
Covered loans	64,802
Premises and equipment	17
Core deposit intangible	562
Covered foreclosed assets	4,629
FDIC indemnification asset	7,466
Other assets	392
Total assets acquired	\$100,282

Liabilities assumed:

Deposits 95,001
Other borrowings 5,000
Other liabilities 49
Total liabilities assumed 100,050

Net assets acquired/bargain

purchase gain \$232

The fair value amounts for assets acquired and liabilities assumed in the Granite acquisition are subject to change for up to one year after the closing date of the acquisition as additional information relating to closing date fair values becomes available. The amounts are also subject to adjustments based upon final settlement with the FDIC. In addition, the tax treatment of FDIC assisted acquisitions is complex and subject to interpretations that may result in future adjustments of deferred taxes as of the acquisition date.
