EXPLANATORY NOTE

Ionics, Incorporated (the Company) is filing this Amendment No. 1 to Form 10-K to amend its Annual Report on Form 10-K for the year ended December 31, 2002 to correct an inadvertent typographical error in Item 14, "Controls and Procedures."

The Company hereby amends the following item:

1. Item 14 of Part III is amended so that the first three words of the last paragraph of Item 14 shall read, "In March 2003". A copy of the corrected and amended Item 14 follows:

-1-

ITEM 14. CONTROLS AND PROCEDURES

As part of the Company's continuing efforts to ensure that information required to be disclosed by the Company in its Securities and Exchange Commission filings is appropriately accumulated and disseminated to allow timely decisions regarding required disclosure, the Company has been taking various actions to strengthen its system of internal controls and disclosure controls and procedures. Such actions were also taken to enhance the processes by which the Company manages its various divisions and subsidiaries, because managing a large number of relatively small, locally managed businesses around the world presents significant challenges.

Prior to the evaluation of the Company's disclosure controls and procedures made in connection with the filing of its Quarterly Report on Form 10-Q for the periods ended September 30, 2002, the Company made changes in its internal controls and took other actions designed to enhance the Company's internal controls, which consisted of the following:

- o the hiring of new personnel including, two new segment controllers in April and July of 2002, three new divisional controllers in May and September of 2002, a corporate director of accounting in July 2002, and a new consolidation accountant in September 2002, to enhance the quality of its accounting capabilities;
- o the replacement of the senior operating executive at the Company's French subsidiary and the reassignment of much of the operational responsibility for that subsidiary to the Company's Italian subsidiary;
- o the implementation of a new financial consolidation software package (which became operational in September 2002);
- o the implementation of a centralized bid and proposal review and approval

Edgar Filing: IONICS INC - Form 10-K/A

- o process at the beginning of 2002;
- o the expansion of the internal audit function through the use of outside resources beginning in March 2002;
- o the formalization of certain accounting and information technology policies and procedures at various times throughout the year;
- o the hiring of a Director of Project Management in October 2002 to oversee project-related procedures and to train project managers at locations to enable them to better comply with Company goals, policies and procedures; and
- o the institution of procedures requiring written quarterly certifications and representations from the head of each business group and the local controller of each business location.

Since that evaluation in November 2002, the Company has made additional changes in its internal controls and taken other actions designed to enhance the Company's internal controls, which consisted of the following:

- o the formation of a disclosure committee to oversee the effectiveness of the Company's disclosure controls and procedures;
- o in furtherance of the centralized bid and proposal review and approval process, the establishment of formal, systematic procedures for reviewing all major commercial projects being undertaken by the Company, including monthly participation by senior management;
- o the finalization of a project database to facilitate the tracking and analysis of project performance throughout the Company in December 2002;
- o the hiring of a senior financial manager into a newly created position as European Controller in December 2002, who is responsible for providing financial oversight and control for the Equipment Business Group's European operations; and
- o the conduct of a conference, and other educational activities, for the Company's segment and divisional controllers and corporate accounting staff, which included programs regarding, among other topics, inter-company transactions, key policies under U.S. generally accepted accounting principles (e.g., SAB 101, SOP 81-1), the Sarbanes-Oxley Act of 2002, internal controls, U.S. regulation of international transactions, and key responsibilities of the local controllers.

In connection with the audit of its financial statements for 2002, the Company was advised by its independent auditor that certain of its internal controls had deficiencies and material control weaknesses. Consequently, and with the goal of further improving the quality and timeliness of the information available to management, the Company is continuing to implement measures designed to address those deficiencies and weaknesses as follows:

- o to evaluate and strengthen its financial and accounting staff and their knowledge and understanding of key policies under U.S. generally accepted accounting principles and of their responsibilities;
- o to improve monitoring controls to assure the prevention or detection of material accounting errors on a timely basis;
- o to reduce the time necessary to collect and report financial and operating data by improving the timing and accuracy of forecasting and emphasizing more frequent reviews of the Company's balance sheets and reconciliation of intercompany balances;
- o to continue to update its accounting policies and procedures.

-2-

In March 2003, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's "disclosure controls and procedures." The SEC defines "disclosure

Edgar Filing: IONICS INC - Form 10-K/A

controls and procedures" as a company's controls and other procedures that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Based on their evaluation of the Company's disclosure controls and procedures, the Company's Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) concluded that the Company's disclosure controls and procedures were substantially effective for these purposes as of the date of the evaluation.

-3-

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this amendment to be signed on its behalf by the undersigned, thereunto duly authorized.
