

AMERICAN INTERNATIONAL GROUP INC
Form 10-Q
August 03, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934**

For the quarterly period ended June 30, 2018

Commission File Number 1-8787

American International Group, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

13-2592361

(I.R.S. Employer
Identification No.)

175 Water Street, New York, New York

(Address of principal executive offices)

10038

(Zip Code)

Registrant's telephone number, including area code: (212) 770-7000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer	Non-accelerated filer	Smaller reporting company	Emerging growth company
		(Do not check if a smaller reporting company)		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 30, 2018, there were 888,446,269 shares outstanding of the registrant’s common stock.

AMERICAN INTERNATIONAL GROUP, INC.

TABLE OF CONTENTS

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 1. Basis of Presentation**

1. Basis of Presentation

American International Group, Inc. (AIG) is a leading global insurance organization serving customers in more than 80 countries and jurisdictions. AIG companies serve commercial and individual customers through one of the most extensive worldwide property casualty networks of any insurer. In addition, AIG companies are leading providers of life insurance and retirement services in the United States. AIG Common Stock, par value \$2.50 per share (AIG Common Stock), is listed on the New York Stock Exchange (NYSE: AIG) and the Tokyo Stock Exchange. Unless the context indicates otherwise, the terms “AIG,” “we,” “us” or “our” mean American International Group, Inc. and its consolidated subsidiaries and the term “AIG Parent” means American International Group, Inc. and not any of its consolidated subsidiaries.

These unaudited Condensed Consolidated Financial Statements do not include all disclosures that are normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP) and should be read in conjunction with the audited Consolidated Financial Statements and the related notes included in our Annual Report on Form 10-K for the year ended December 31, 2017 (the 2017 Annual Report). The condensed consolidated financial information as of December 31, 2017 included herein has been derived from the audited Consolidated Financial Statements in the 2017 Annual Report.

Certain of our foreign subsidiaries included in the Condensed Consolidated Financial Statements report on different fiscal-period bases. The effect on our consolidated financial condition and results of operations of all material events occurring at these subsidiaries through the date of each of the periods presented in these Condensed Consolidated Financial Statements has been considered for adjustment and/or disclosure. In the opinion of management, these Condensed Consolidated Financial Statements contain normal recurring adjustments, including eliminations of material intercompany accounts and transactions, necessary for a fair statement of the results presented herein.

Interim-period operating results may not be indicative of the operating results for a full year. We evaluated the need to recognize or disclose events that occurred subsequent to June 30, 2018 and prior to the issuance of these Condensed Consolidated Financial Statements.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the application of accounting policies that often involve a significant degree of judgment. Accounting policies that we believe are most dependent on the application of estimates and assumptions are considered our critical accounting estimates and are related to the determination of:

- liability for unpaid losses and loss adjustment expenses (loss reserves);
- reinsurance assets;
- valuation of future policy benefit liabilities and timing and extent of loss recognition;
- valuation of liabilities for guaranteed benefit features of variable annuity products;
- estimated gross profits to value deferred policy acquisition costs for investment-oriented products;
- impairment charges, including other-than-temporary impairments on available for sale securities, impairments on other invested assets, including investments in life settlements, and goodwill impairment;
- allowances for loan losses;

- liability for legal contingencies;
- fair value measurements of certain financial assets and liabilities; and
- income tax assets and liabilities, including recoverability of our net deferred tax asset and the predictability of future tax operating profitability of the character necessary to realize the net deferred tax asset and provisional estimates associated with the Tax Act.

These accounting estimates require the use of assumptions about matters, some of which are highly uncertain at the time of estimation. To the extent actual experience differs from the assumptions used, our consolidated financial condition, results of operations and cash flows could be materially affected.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 1. Basis of Presentation****OUT OF PERIOD ADJUSTMENTS**

For the three- and six-month periods ended June 30, 2018, our results included out of period adjustments relating to prior periods that increased Net income attributable to AIG by \$116 million and \$191 million, respectively, and increased Income from continuing operations before income taxes by \$148 million and \$257 million, respectively. The out of period adjustments are primarily related to earned premium on certain multi-year insurance policies related to earlier accident years and adjustments to universal life benefit reserves.

We determined that these adjustments were not material to the current quarter or to any previously reported quarterly or annual financial statements.

2. Summary of Significant Accounting Policies**Accounting Standards Adopted During 2018****Revenue Recognition**

In May 2014, the FASB issued an accounting standard that supersedes most existing revenue recognition guidance. The standard excludes from its scope the accounting for insurance contracts, leases, financial instruments, and certain other agreements that are governed under other GAAP guidance, but could affect the revenue recognition for certain of our other activities.

We adopted the standard using the modified retrospective approach on its required effective date of January 1, 2018. Our analysis of revenues indicated that substantially all of our revenues were from sources excluded from the scope of the standard. For those revenue sources within the scope of the standard, there were no material changes in the timing or measurement of revenues based upon the guidance. As substantially all of our revenue sources were excluded from the scope of the standard, the adoption of the standard did not have a material effect on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Recognition and Measurement of Financial Assets and Financial Liabilities

In January 2016, the FASB issued an accounting standard that will require equity investments that do not follow the equity method of accounting or are not subject to consolidation to be measured at fair value with changes in fair value recognized in earnings, while financial liabilities for which fair value option accounting has been elected, changes in fair value due to instrument-specific credit risk will be presented separately in other comprehensive income. The standard allows the election to record equity investments without readily determinable fair values at cost, less impairment, adjusted for subsequent observable price changes with changes in the carrying value of the equity investments recorded in earnings. The standard also updates certain fair value disclosure requirements for financial instruments carried at amortized cost.

We adopted the standard on its effective date of January 1, 2018 using the modified retrospective approach. The impact of the adoption is primarily related to the reclassification of unrealized gains of equity securities resulting in a net decrease to beginning Accumulated other comprehensive income and a corresponding net increase to beginning Retained earnings of \$824 million.

Classification of Certain Cash Receipts and Cash Payments

In August 2016, the FASB issued an accounting standard that addresses diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The amendments provide clarity on the treatment of eight specifically defined types of cash inflows and outflows.

We adopted the standard retrospectively on its effective date of January 1, 2018. The standard addresses presentation in the statement of cash flows only and did not have a material impact on our reported consolidated financial condition, results of operations or required disclosures.

Intra-Entity Transfers of Assets Other than Inventory

In October 2016, the FASB issued an accounting standard that will require an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs, rather than when the asset is sold to a third party.

We adopted the standard on its effective date of January 1, 2018 using a modified retrospective approach. The adoption of this standard did not have a material impact on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

TABLE OF CONTENTS

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 2. Summary of Significant Accounting Policies**

Restricted Cash

In November 2016, the FASB issued an accounting standard that provides guidance on the presentation of restricted cash in the Statement of Cash Flows. Entities will be required to explain the changes during a reporting period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents in the statement of cash flows.

We adopted the standard retrospectively on its effective date of January 1, 2018. The standard addresses presentation of restricted cash in the Statement of Cash Flows only and had no effect on our reported consolidated financial condition, results of operations or required disclosures.

Gains and Losses from the Derecognition of Nonfinancial Assets

In February 2017, the FASB issued an accounting standard that clarifies the scope of the derecognition guidance for the sale, transfer and derecognition of non-financial assets to noncustomers that aligns with the new revenue recognition principles. The standard also adds new accounting for partial sales of nonfinancial assets (including real estate) that requires an entity to derecognize a nonfinancial asset when it 1) ceases to have a controlling financial interest in the legal entity that holds the asset based on the consolidation model and 2) transfers control of the asset based on the revenue recognition model.

We adopted this standard on its effective date of January 1, 2018 under the modified retrospective approach. Based on our evaluation, the standard did not have a material impact on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Improving the Presentation of Net Periodic Pension and Postretirement Benefit Cost

In March 2017, the FASB issued an accounting standard that requires entities to report the service cost component of net periodic pension and postretirement benefit costs in the same line item as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net periodic benefit costs are required to be separately presented in the income statement. The amendments also allow only the service cost component to be eligible for capitalization when applicable.

We adopted this standard on its effective date of January 1, 2018. The standard primarily addresses the presentation of the service cost component of net periodic benefit costs in the income statement. AIG's U.S. pension plans are frozen and no longer accrue benefits, which are reflected as service costs. Therefore, the standard did not have a material effect on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Modification of Share-Based Payment Awards

In May 2017, the FASB issued an accounting standard that provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting.

We prospectively adopted this standard on its effective date of January 1, 2018 and the standard did not have a material effect on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income

In February 2018, the FASB issued an accounting standard that allows the optional reclassification of stranded tax effects within accumulated other comprehensive income to retained earnings that arise due to the enactment of the Tax Cuts and Jobs Act of 2017 (Tax Act). The amount of the reclassification would reflect the effect of the change in the U.S. federal corporate income tax rate on the gross deferred tax amounts and related valuation allowances, if any, at the date of enactment of the Tax Act and other income tax effects of the Tax Act on items remaining in accumulated other comprehensive income.

We adopted the standard effective January 1, 2018. The impact of the adoption of the standard resulted in an increase to beginning Accumulated other comprehensive income and a corresponding decrease to beginning Retained earnings of \$248 million. *For more information on the adoption of the Tax Act, see Note 14.*

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 2. Summary of Significant Accounting Policies****Future Application of Accounting Standards****Leases**

In February 2016, the FASB issued an accounting standard that will require lessees with lease terms of more than 12 months to recognize a right of use asset and a corresponding lease liability on their balance sheets. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating leases or finance leases.

We plan to adopt the standard on its effective date of January 1, 2019 using a modified retrospective approach. We are currently quantifying the expected recognition on our balance sheet for a right to use asset and a lease liability as required by the standard. We do not expect the impact of the standard to have a material effect on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Financial Instruments - Credit Losses

In June 2016, the FASB issued an accounting standard that will change how entities account for credit losses for most financial assets, trade receivables and reinsurance receivables. The standard will replace the existing incurred loss impairment model with a new “current expected credit loss model” that generally will result in earlier recognition of credit losses. The standard will apply to financial assets subject to credit losses, including loans measured at amortized cost, reinsurance receivables and certain off-balance sheet credit exposures. Additionally, the impairment of available-for-sale debt securities, including purchased credit deteriorated securities, are subject to the new guidance and will be measured in a similar manner, except that losses will be recognized as allowances rather than reductions in the amortized cost of the securities. The standard will also require additional information to be disclosed in the footnotes.

The standard is effective on January 1, 2020, with early adoption permitted on January 1, 2019. We are continuing to develop our implementation plan to adopt the standard and are assessing the impact of the standard on our reported consolidated financial condition, results of operations, cash flows and required disclosures. While we expect an increase in our allowances for credit losses for the financial instruments within scope of the standard, given the objective of the new standard, the amount of any change will be dependent on our portfolios’ composition and quality at the adoption date as well as economic conditions and forecasts at that time.

Simplifying the Test for Goodwill Impairment

In January 2017, the FASB issued an accounting standard that eliminates the requirement to calculate the implied fair value of goodwill, through a hypothetical purchase price allocation, to measure a goodwill impairment charge. Instead, entities will record an impairment charge based on the excess of a reporting unit’s carrying amount over its fair value not to exceed the total amount of goodwill allocated to that reporting unit. An entity should also consider income tax effects from tax deductible goodwill on the

carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable.

The standard is effective on January 1, 2020, with early adoption permitted. We are evaluating the timing of our adoption. Any impact of the standard will be dependent on the market conditions of the reporting units at the time of adoption.

Premium Amortization on Purchased Callable Debt Securities

In March 2017, the FASB issued an accounting standard that shortens the amortization period for certain callable debt securities held at a premium by requiring the premium to be amortized to the earliest call date. The standard does not require an accounting change for securities held at a discount, which continue to be amortized to maturity.

We plan to adopt the standard retrospectively on its effective date, January 1, 2019. We do not expect the standard to have a material impact on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Derivatives and Hedging

In August 2017, the FASB issued an accounting standard that improves and expands hedge accounting for both financial and commodity risks. The provisions of the amendment are intended to better align the accounting with an entity's risk management activities, enhance the transparency on how the economic results are presented in the financial statements and the footnote, and simplify the application of hedge accounting treatment.

The standard is effective on January 1, 2019, with early adoption permitted. We are evaluating the timing of adoption and are assessing the impact of the standard on our reported consolidated financial condition, results of operations, cash flows and required disclosures.

3. Segment Information

We report our results of operations consistent with the manner in which our chief operating decision makers review the business to assess performance and allocate resources, as follows.

General Insurance

General Insurance business is presented as two operating segments:

- **North America** — consists of insurance businesses in the United States, Canada and Bermuda.
- **International** — consists of insurance businesses in Japan, the United Kingdom, Europe, Asia Pacific, Latin America, Puerto Rico, Australia, the Middle East and Africa.

Results are presented before internal reinsurance transactions. North America and International operating segments consist of the following products:

- Commercial Lines — consists of Liability, Financial Lines, Property and Special Risks.
- Personal Insurance — consists of Personal Lines and Accident and Health.

Life and Retirement

Life and Retirement business is presented as four operating segments:

- **Individual Retirement** — consists of fixed annuities, fixed index annuities, variable annuities and retail mutual funds.
- **Group Retirement** — consists of group mutual funds, group fixed annuities, group variable annuities, individual annuity and investment products, financial planning and advisory services.
- **Life Insurance** — primary products in the U.S. include term life and universal life insurance. International operations include distribution of life and health products in the UK and Ireland.
- **Institutional Markets** — consists of stable value wrap products, structured settlement and pension risk transfer annuities, corporate- and bank-owned life insurance and guaranteed investment contracts (GICs).

Other Operations

Other Operations category consists of:

- Income from assets held by AIG Parent and other corporate subsidiaries.

- General operating expenses not attributable to specific reporting segments.
- Interest expense.
- **Blackboard** —a data-enabled, digital subsidiary that provides the commercial insurance industry with alternative solutions using digital technology, data analytics and automation.
- **Fuji Life** — consists of term insurance, life insurance, endowment policies and annuities. The sale of this business was completed on April 30, 2017.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 3. Segment Information****Legacy Portfolio**

Legacy Portfolio represents exited or discontinued product lines, policy forms or distribution channels. Effective February 2018, our Bermuda domiciled composite reinsurer, DSA Reinsurance Company, Ltd. (DSA Re) is included in our Legacy Portfolio.

- **Legacy Life and Retirement Run-Off Lines** - Reserves consist of certain structured settlements, pension risk transfer annuities and single premium immediate annuities written prior to April 2012. Also includes exposures to whole life, long-term care and exited accident & health product lines.
- **Legacy General Insurance Run-Off Lines** - Reserves consist of excess workers' compensation, environmental exposures and exposures to other products within General Insurance that are no longer actively marketed. Also includes the remaining reserves in Eaglestone Reinsurance Company (Eaglestone).
- **Legacy Investments** - Includes investment classes that we have placed into run-off including holdings in direct investments as well as investments in global capital markets and global real estate.

We evaluate segment performance based on adjusted revenues and adjusted pre-tax income (loss). Adjusted revenues and adjusted pre-tax income (loss) are derived by excluding certain items from total revenues and net income (loss) attributable to AIG, respectively. *For the items excluded from adjusted revenues and adjusted pre-tax income (loss) see the table below.*

The following table presents AIG's continuing operations by operating segment:

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****4. Fair Value Measurements****Fair Value Measurements on a Recurring Basis**

Assets and liabilities recorded at fair value in the Condensed Consolidated Balance Sheets are measured and classified in accordance with a fair value hierarchy consisting of three “levels” based on the observability of valuation inputs:

- **Level 1:** Fair value measurements based on quoted prices (unadjusted) in active markets that we have the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. We do not adjust the quoted price for such instruments.
- **Level 2:** Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals.
- **Level 3:** Fair value measurements based on valuation techniques that use significant inputs that are unobservable. Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability. Therefore, we must make certain assumptions about the inputs a hypothetical market participant would use to value that asset or liability.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****Assets and Liabilities Measured at Fair Value on a Recurring Basis**

The following table presents information about assets and liabilities measured at fair value on a recurring basis and indicates the level of the fair value measurement based on the observability of the inputs used:

(a) Represents netting of derivative exposures covered by qualifying master netting agreements.

(b) As a result of the adoption of the Recognition and Measurement of Financial Assets and Financial Liabilities standard on January 1, 2018 (Financial Instruments Recognition and Measurement Standard), equity securities are no longer classified and accounted for as available for sale securities.

(c) Excludes investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent), which totaled \$5.5 billion and \$6.0 billion as of June 30, 2018 and December 31, 2017, respectively.

ITEM 1 | [Notes to Condensed Consolidated Financial Statements \(unaudited\)](#) | [4. Fair Value Measurements](#)**Transfers of Level 1 and Level 2 Assets and Liabilities**

Our policy is to record transfers of assets and liabilities between Level 1 and Level 2 at their fair values as of the end of each reporting period, consistent with the date of the determination of fair value. Assets are transferred out of Level 1 when they are no longer transacted with sufficient frequency and volume in an active market. Conversely, assets are transferred from Level 2 to Level 1 when transaction volume and frequency are indicative of an active market.

There were no transfers of securities issued by non-U.S. government entities from Level 1 to Level 2 in the three-month period ended June 30, 2018. During the six-month period ended June 30, 2018, we transferred \$16 million of securities issued by non-U.S. government entities from Level 1 to Level 2, because they are no longer considered actively traded. For similar reasons, during the three- and six-month periods ended June 30, 2018, we transferred \$490 million and \$681 million, respectively, of securities issued by the U.S. government and government sponsored entities from Level 1 to Level 2. We had no material transfers from Level 2 to Level 1 during the three- and six-month periods ended June 30, 2018.

There were no transfers of securities issued by non-U.S. government entities from Level 1 to Level 2 in the three-month period ended June 30, 2017. During the six-month period ended June 30, 2017, we transferred \$53 million of securities issued by non-U.S. government entities from Level 1 to Level 2, because they are no longer considered actively traded. For similar reasons, during the three- and six-month periods ended June 30, 2017, we transferred \$50 million and \$113 million, respectively, of securities issued by the U.S. government and government sponsored entities from Level 1 to Level 2. Additionally, we transferred \$126 million of preferred stock from Level 1 to Level 2 during the three- and six-month periods ended June 30, 2017. We had no material transfers from Level 2 to Level 1 during the three- and six-month periods ended June 30, 2017.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****Changes in Level 3 Recurring Fair Value Measurements**

The following tables present changes during the three- and six-month periods ended June 30, 2018 and 2017 in Level 3 assets and liabilities measured at fair value on a recurring basis, and the realized and unrealized gains (losses) related to the Level 3 assets and liabilities in the Condensed Consolidated Balance Sheets at June 30, 2018 and 2017:

(a) There were no issuances during the three- and six-month periods ended June 30, 2018 and 2017, respectively.

(b) Includes GIAs, notes, bonds, loans and mortgages payable.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements**

Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3 in the tables above. As a result, the unrealized gains (losses) on instruments held at June 30, 2018 and 2017 may include changes in fair value that were attributable to both observable (e.g., changes in market interest rates) and unobservable inputs (e.g., changes in unobservable long-dated volatilities).

Transfers of Level 3 Assets and Liabilities

We record transfers of assets and liabilities into or out of Level 3 classification at their fair values as of the end of each reporting period, consistent with the date of the determination of fair value. The Net realized and unrealized gains (losses) included in income or Other comprehensive income (loss) as shown in the table above excludes \$24 million of net gains related to assets and liabilities transferred into Level 3 during the six-month period ended June 30, 2018 and includes \$22 million of net losses related to assets and liabilities transferred out of Level 3 in both the three- and six-month periods ended June 30, 2018.

The Net realized and unrealized gains (losses) included in income or Other comprehensive income (loss) as shown in the table above excludes \$1 million of net gains and \$8 million of net losses related to assets and liabilities transferred into Level 3 during the three- and six-month periods ended June 30, 2017, respectively, and includes \$7 million of net losses related to assets and liabilities transferred out of Level 3 in both the three- and six-month periods ended June 30, 2017.

Transfers of Level 3 Assets

During the three- and six-month periods ended June 30, 2018 and 2017, transfers into Level 3 assets primarily included certain investments in private placement corporate debt, RMBS, CMBS and CDO/ABS. Transfers of private placement corporate debt and certain ABS into Level 3 assets were primarily the result of limited market pricing information that required us to determine fair value for these securities based on inputs that are adjusted to better reflect our own assumptions regarding the characteristics of a specific security or associated market liquidity. The transfers of investments in RMBS, CMBS and CDO and certain ABS into Level 3 assets were due to decreases in market transparency and liquidity for individual security types.

During the three- and six-month periods ended June 30, 2018 and 2017, transfers out of Level 3 assets primarily included private placement and other corporate debt, CMBS, RMBS, CDO/ABS and certain investments in municipal securities. Transfers of certain investments in municipal securities, corporate debt, RMBS, CMBS and CDO/ABS out of Level 3 assets were based on consideration of market liquidity as well as related transparency of pricing and associated observable inputs for these investments. Transfers of certain investments in private placement corporate debt and certain ABS out of Level 3 assets were primarily the result of using observable pricing information that reflects the fair value of those securities without the need for adjustment based on our own assumptions regarding the characteristics of a specific security or the current liquidity in the market.

Transfers of Level 3 Liabilities

There were no significant transfers of derivative or other liabilities into or out of Level 3 for the three- and six-month periods ended June 30, 2018 and 2017.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****QUANTITATIVE INFORMATION ABOUT LEVEL 3 FAIR VALUE MEASUREMENTS**

The table below presents information about the significant unobservable inputs used for recurring fair value measurements for certain Level 3 instruments, and includes only those instruments for which information about the inputs is reasonably available to us, such as data from independent third-party valuation service providers and from internal valuation models. Because input information from third-parties with respect to certain Level 3 instruments (primarily CDO/ABS) may not be reasonably available to us, balances shown below may not equal total amounts reported for such Level 3 assets and liabilities:

<i>(in millions)</i>	Fair Value at June 30, 2018	Valuation Technique	Unobservable Input ^(b)	Range (Weighted Average)
Assets:				
Obligations of states, municipalities and political subdivisions	\$ 1,521	Discounted cash flow	Yield	3.93% - 4.54% (4.24%)

(a) Information received from third-party valuation service providers. The ranges of the unobservable inputs for constant prepayment rate, loss severity and constant default rate relate to each of the individual underlying mortgage loans that comprise the entire portfolio of securities in the RMBS and CDO securitization vehicles and not necessarily to the securitization vehicle bonds (tranches) purchased by us. The ranges of these inputs do not directly correlate to changes in the fair values of the tranches purchased by us, because there are other factors relevant to the fair values of specific tranches owned by us including, but not limited to, purchase price, position in the waterfall, senior versus subordinated position and attachment points.

(b) Represents discount rates, estimates and assumptions that we believe would be used by market participants when valuing these assets and liabilities.

(c) Mortality inputs are shown as multipliers of the 2012 Individual Annuity Mortality Basic table.

The ranges of reported inputs for Obligations of states, municipalities and political subdivisions, Corporate debt, RMBS, CDO/ABS, and CMBS valued using a discounted cash flow technique consist of one standard deviation in either direction from the value weighted average. The preceding table does not give effect to our risk management practices that might offset risks inherent in these Level 3 assets and liabilities.

Sensitivity to Changes in Unobservable Inputs

We consider unobservable inputs to be those for which market data is not available and that are developed using the best information available to us about the assumptions that market participants would use when pricing the asset or liability. Relevant inputs vary depending on the nature of the instrument being measured at fair value. The following paragraphs provide a general description of sensitivities of significant unobservable inputs along with interrelationships between and among the significant unobservable inputs and their impact on the fair value measurements. The effect of a change in a particular assumption in the sensitivity analysis below is considered independently of changes in any other assumptions. In practice, simultaneous changes in assumptions may not always have a linear effect on the inputs discussed below. Interrelationships may also exist between observable and unobservable inputs. Such relationships have not been included in the discussion below. For each of the individual relationships described below, the inverse relationship would also generally apply.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****Obligations of States, Municipalities and Political Subdivisions**

The significant unobservable input used in the fair value measurement of certain investments in obligations of states, municipalities and political subdivisions is yield. In general, increases in the yield would decrease the fair value of investments in obligations of states, municipalities and political subdivisions.

Corporate Debt

Corporate debt securities included in Level 3 are primarily private placement issuances that are not traded in active markets or that are subject to transfer restrictions. Fair value measurements consider illiquidity and non-transferability. When observable price quotations are not available, fair value is determined based on discounted cash flow models using discount rates based on credit spreads, yields or price levels of publicly traded debt of the issuer or other comparable securities, considering illiquidity and structure. The significant unobservable input used in the fair value measurement of corporate debt is the yield. The yield is affected by the market movements in credit spreads and U.S. Treasury yields. In addition, the migration in credit quality of a given security generally has a corresponding effect on the fair value measurement of the security. For example, a downward migration of credit quality would increase spreads. Holding U.S. Treasury rates constant, an increase in corporate credit spreads would decrease the fair value of corporate debt.

RMBS and CDO/ABS

The significant unobservable inputs used in fair value measurements of RMBS and certain CDO/ABS valued by third party valuation service providers are constant prepayment rates (CPR), loss severity, constant default rates (CDR) and yield. A change in the assumptions used for the probability of default will generally be accompanied by a corresponding change in the assumption used for the loss severity and an inverse change in the assumption used for prepayment rates. In general, increases in CPR, loss severity, CDR and yield, in isolation, would result in a decrease in the fair value measurement. Changes in fair value based on variations in assumptions generally cannot be extrapolated because the relationship between the directional change of each input is not usually linear.

CMBS

The significant unobservable input used in fair value measurements for CMBS is the yield. Prepayment assumptions for each mortgage pool are factored into the yield. CMBS generally feature a lower degree of prepayment risk than RMBS because commercial mortgages generally contain a penalty for prepayment. In general, increases in the yield would decrease the fair value of CMBS.

Embedded derivatives within Policyholder contract deposits

Embedded derivatives reported within Policyholder contract deposits include GMWB within variable annuity products and interest crediting rates based on market indices within index annuities, indexed life and GICs.

For any given contract, assumptions for unobservable inputs vary throughout the period over which cash flows are projected for purposes of valuing the embedded derivative. The following unobservable inputs are used for valuing embedded derivatives measured at fair value:

- Long-term equity volatilities represent equity volatility beyond the period for which observable equity volatilities are available. Increases in assumed volatility will generally increase the fair value of both the projected cash flows from rider fees as well as the projected cash flows related to benefit payments. Therefore, the net change in the fair value of the liability may be either a decrease or an increase, depending on the relative changes in projected rider fees and projected benefit payments.
- Equity / interest rate correlation estimates the relationship between changes in equity returns and interest rates in the economic scenario generator used to value our GMWB embedded derivatives. In general, a higher positive correlation assumes that equity markets and interest rates move in a more correlated fashion, which generally increases the fair value of the liability.
- Base lapse rate assumptions are determined by company experience and are adjusted at the contract level using a dynamic lapse function, which reduces the base lapse rate when the contract is in-the-money (when the contract holder's guaranteed value, as estimated by the company, is worth more than their underlying account value). Lapse rates are also generally assumed to be lower in periods when a surrender charge applies. Increases in assumed lapse rates will generally decrease the fair value of the liability, as fewer policyholders would persist to collect guaranteed withdrawal amounts.
- Mortality rate assumptions, which vary by age and gender, are based on company experience and include a mortality improvement assumption. Increases in assumed mortality rates will decrease the fair value of the liability, while lower mortality rate assumptions will generally increase the fair value of the liability, because guaranteed payments will be made for a longer period of time.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements**

- Utilization assumptions estimate the timing when policyholders with a GMWB will elect to utilize their benefit and begin taking withdrawals. The assumptions may vary by the type of guarantee, tax-qualified status, the contract's withdrawal history and the age of the policyholder. Utilization assumptions are based on company experience, which includes partial withdrawal behavior. Increases in assumed utilization rates will generally increase the fair value of the liability.
- Option budget estimates the expected long-term cost of options used to hedge exposures associated with equity price changes. The level of option budgets determines future costs of the options, which impacts the growth in account value and the valuation of embedded derivatives.

Investments in Certain Entities Carried at Fair Value Using Net Asset Value Per Share

The following table includes information related to our investments in certain other invested assets, including private equity funds, hedge funds and other alternative investments that calculate net asset value per share (or its equivalent). For these investments, which are measured at fair value on a recurring basis, we use the net asset value per share to measure fair value.

		June 30, 2018		December 31, 2017	
		Fair Value	Unfunded	Fair Value	Unfunded
	Investment Category Includes	Using NAV	Commitments	Using NAV	Commitments
		Per Share		Per Share	
		(or its equivalent)		(or its equivalent)	
(in millions)					
Investment Category					
Private equity funds:					
Leveraged buyout	Debt and/or equity investments made as part of a transaction in which assets of mature companies are acquired from the current shareholders, typically with the use of financial leverage	\$ 1,244	\$ 787	\$ 1,243	\$ 706
Real Estate / Infrastructure	Investments in real estate properties and infrastructure positions, including power plants and other energy generating facilities	209	140	210	187

Venture capital	Early-stage, high-potential, growth companies expected to generate a return through an eventual realization event, such as an initial public offering or sale of the company	146	122	134	73
Distressed	Securities of companies that are in default, under bankruptcy protection, or troubled	106	91	113	42
Other	Includes multi-strategy, mezzanine and other strategies	546	167	428	219
Total private equity funds		2,251	1,307	2,128	1,227
Hedge funds:					
Event-driven	Securities of companies undergoing material structural changes, including mergers, acquisitions and other reorganizations	893	-	1,128	-
Long-short	Securities that the manager believes are undervalued, with corresponding short positions to hedge market risk	1,084	-	1,233	-
Macro	Investments that take long and short positions in financial instruments based on a top-down view of certain economic and capital market conditions	966	-	1,011	-
Distressed	Securities of companies that are in default, under bankruptcy protection or troubled	136	8	266	8
Other	Includes investments held in funds that are less liquid, as well as other strategies which allow for broader allocation between public and private investments	197	2	231	4
Total hedge funds		3,276	10	3,869	12
Total		\$ 5,527	\$ 1,317	\$ 5,997	\$ 1,239

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements**

Private equity fund investments included above are not redeemable, because distributions from the funds will be received when underlying investments of the funds are liquidated. Private equity funds are generally expected to have 10-year lives at their inception, but these lives may be extended at the fund manager's discretion, typically in one or two-year increments. At June 30, 2018, assuming average original expected lives of 10 years for the funds, 50 percent of the total fair value using net asset value per share (or its equivalent) presented above would have expected remaining lives of three years or less, 24 percent between four and six years and 26 percent between seven and 10 years.

The hedge fund investments included above, which are carried at fair value, are generally redeemable monthly (30 percent), quarterly (38 percent), semi-annually (9 percent) and annually (23 percent), with redemption notices ranging from one day to 180 days. At June 30, 2018, investments representing approximately 54 percent of the total fair value of these hedge fund investments had partial contractual redemption restrictions. These partial redemption restrictions are generally related to one or more investments held in the hedge funds that the fund manager deemed to be illiquid. The majority of these contractual restrictions, which may have been put in place at the fund's inception or thereafter, have pre-defined end dates. The majority of these restrictions are generally expected to be lifted by the end of 2018.

Fair Value Option

The following table presents the gains or losses recorded related to the eligible instruments for which we elected the fair value option:

<i>(in millions)</i>	Gain (Loss) Three Months Ended June 30,		Gain (Loss) Six Months Ended June 30,	
	2018	2017	2018	2017
Assets:				
Bond and equity securities	\$ 129	\$ 450	\$ 152	\$ 799
Alternative investments ^(a)	96	96	224	277
Liabilities:				
Long-term debt ^(b)	16	(33)	68	(48)
Other liabilities	-	(1)	-	(1)
Total gain	\$ 241	\$ 512	\$ 444	\$ 1,027

(a) Includes certain hedge funds, private equity funds and other investment partnerships.

(b) Includes GIAs, notes, bonds and mortgages payable.

We recognized a loss of \$3 million and an immaterial gain during the three- and six-month periods ended June 30, 2017, respectively, attributable to the observable effect of changes in credit spreads on our own liabilities for which the fair value option was elected. We calculate the effect of these credit spread changes using discounted cash flow techniques that incorporate current market interest rates, our observable credit spreads on these liabilities and other factors that mitigate the risk of nonperformance such as cash

collateral posted.

As a result of the adoption of the Financial Instruments Recognition and Measurement Standard on January 1, 2018, we are required to record unrealized gains and losses attributable to the observable effect of changes in credit spreads on our liabilities for which the fair value option was elected in Other Comprehensive Income. An unrealized loss of \$1 million and an unrealized gain of \$1 million were recognized in Other Comprehensive Income for the three- and six-month periods ended June 30, 2018, respectively.

The following table presents the difference between fair values and the aggregate contractual principal amounts of mortgage and other loans receivable and long-term debt for which the fair value option was elected:

<i>(in millions)</i>	June 30, 2018			December 31, 2017		
	Fair Value	Outstanding Principal Amount	Difference	Fair Value	Outstanding Principal Amount	Difference
Assets:						
Mortgage and other loans receivable	\$ -	\$ -	\$ -	\$ 5	\$ 5	\$ -
Liabilities:						
Long-term debt*	\$ 2,615	\$ 2,114	\$ 501	\$ 2,888	\$ 2,280	\$ 608

* Includes GIAs, notes, bonds, loans and mortgages payable.

ITEM 1 | Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements

FAIR VALUE MEASUREMENTS ON A NON-RECURRING BASIS

The following table presents assets measured at fair value on a non-recurring basis at the time of impairment and the related impairment charges recorded during the periods presented:

(in millions)	Assets at Fair Value				Impairment Charges*			
	Non-Recurring Basis				Three Months Ended June 30,		Six Months Ended June 30,	
	Level 1	Level 2	Level 3	Total	2018	2017	2018	2017

Mutual funds	1	-	-	-	1	
Total equity securities available for sale	137	21	-	-	137	1,000
Total	\$31,657	726	\$15,127	655	\$46,784	1,000

(a) As a result of the adoption of the Financial Instruments Recognition and Measurement Standard on January 1, 2018, equity securities are no longer classified and accounted for as available for sale securities.

At June 30, 2018, we held 14,992 individual fixed maturity securities, that were in an unrealized loss position, of which 1,961 individual fixed maturity securities were in a continuous unrealized loss position for 12 months or more. We did not recognize the unrealized losses in earnings on these fixed maturity securities at June 30, 2018 because we neither intend to sell the securities nor do we believe that it is more likely than not that we will be required to sell these securities before recovery of their amortized cost basis. For fixed maturity securities with significant declines, we performed fundamental credit analyses on a security-by-security basis, which included consideration of credit enhancements, expected defaults on underlying collateral, review of relevant industry analyst reports and forecasts and other available market data.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments****Contractual Maturities of Fixed Maturity Securities Available for Sale**

The following table presents the amortized cost and fair value of fixed maturity securities available for sale by contractual maturity:

<i>(in millions)</i>	Total Fixed Maturity Securities Available for Sale		Fixed Maturity Securities in a Loss Position Available for Sale	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
June 30, 2018				
Due in one year or less	\$ 7,562	\$ 7,718	\$ 1,913	\$ 1,903
Due after one year through five years	45,336	46,295	13,526	13,181
Due after five years through ten years	42,634	42,293	27,391	26,097
Due after ten years	64,552	66,653	30,202	28,600
Mortgage-backed, asset-backed and collateralized	62,996	65,714	27,756	26,954
Total	\$ 223,080	\$ 228,673	\$ 100,788	\$ 96,735
December 31, 2017				
Due in one year or less	\$ 7,932	\$ 8,071	\$ 1,526	\$ 1,515
Due after one year through five years	47,179	49,093	7,764	7,571
Due after five years through ten years	42,617	43,944	11,559	11,143
Due after ten years	63,550	70,027	9,705	9,342
Mortgage-backed, asset-backed and collateralized	64,183	67,857	17,453	17,076
Total	\$ 225,461	\$ 238,992	\$ 48,007	\$ 46,647

Actual maturities may differ from contractual maturities because certain borrowers have the right to call or prepay certain obligations with or without call or prepayment penalties.

The following table presents the gross realized gains and gross realized losses from sales or maturities of our available for sale securities:

<i>(in millions)</i>	Three Months Ended June 30,				Six Months Ended June 30,			
	2018		2017		2018		2017	
	Gross Realized Gains	Gross Realized Losses	Gross Realized Gains	Gross Realized Losses	Gross Realized Gains	Gross Realized Losses	Gross Realized Gains	Gross Realized Losses
Fixed maturity securities	\$ 100	\$ 113	\$ 211	\$ 46	\$ 170	\$ 173	\$ 544	\$ 224
Equity securities	-	-	83	2	16	-	100	18
Total	\$ 100	\$ 113	\$ 294	\$ 48	\$ 186	\$ 173	\$ 644	\$ 242

For the three- and six-month periods ended June 30, 2018, the aggregate fair value of available for sale securities sold was \$6.6 billion and \$12.1 billion, respectively, which resulted in net realized capital gains (losses) of \$(13) million and \$13 million, respectively.

For the three- and six-month periods ended June 30, 2017, the aggregate fair value of available for sale securities sold was \$7.6 billion and \$23.4 billion, respectively, which resulted in net realized capital gains of

\$246 million and \$402 million, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments****Other Securities Measured at Fair Value**

The following table presents the fair value of other securities measured at fair value based on our election of the fair value option:

<i>(in millions)</i>	June 30, 2018		December 31, 2017	
	Fair Value	Percent of Total	Fair Value	Percent of Total
Fixed maturity securities:				
U.S. government and government sponsored entities	\$ 2,662	20 %	\$ 2,802	21%
Non-U.S. governments	51	-	57	1
Corporate debt	1,747	13	1,909	14
Mortgage-backed, asset-backed and collateralized:				
RMBS	1,720	13	1,885	14

CDO/ABS and other collateralized*	5,183	39	5,560	42
Total mortgage-backed, asset-backed and collateralized	7,314	55	8,004	60
Total fixed maturity securities	11,774	88	12,772	96
Equity securities	1,675	12	589	4
Total	\$ 13,449	100 %	\$ 13,361	100%

* Includes \$205 million and \$251 million of U.S. government agency-backed ABS at June 30, 2018 and December 31, 2017, respectively.

Other Invested Assets

The following table summarizes the carrying amounts of other invested assets:

<i>(in millions)</i>	June 30, 2018	December 31, 2017
Alternative investments ^{(a) (b)}	\$ 10,492	\$ 11,308
Investment real estate ^(c)	8,879	8,258
All other investments	1,277	1,256
Total	\$ 20,648	\$ 20,822

(a) At June 30, 2018, included hedge funds of \$5.0 billion, private equity funds of \$5.0 billion, and affordable housing partnerships of \$463 million. At December 31, 2017, included hedge funds of \$5.8 billion, private equity funds of \$5.0 billion, and affordable housing partnerships of \$543 million.

(b) At June 30, 2018, approximately 60 percent and 23 percent of our hedge fund portfolio is available for redemption in 2018 and 2019, respectively, the remaining 17 percent will be available for redemption between 2020 and 2027.

(c) Net of accumulated depreciation of \$594 million and \$515 million at June 30, 2018 and December 31, 2017, respectively.

Net Investment Income

The following table presents the components of Net investment income:

<i>(in millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Available for sale fixed maturity securities, including short-term investments	\$2,536	\$2,607	\$5,146	\$5,274
Other fixed maturity securities	(10)	221	(31)	355
Equity securities ^(a)	3	12	(29)	17
Interest on mortgage and other loans	447	399	897	792
Alternative investments ^(b)	171	371	508	819
Real estate	30	31	61	80
Other investments	14	100	24	216
Total investment income	3,191	3,741	6,576	7,553
Investment expenses	126	128	250	254
Net investment income	\$3,065	\$3,613	\$6,326	\$7,299

(a) Upon the adoption of the Financial Instruments Recognition and Measurement Standard on January 1, 2018, the change in fair value of all equity securities is included in Net investment income.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments**

(b) Includes income from hedge funds, private equity funds and affordable housing partnerships. Hedge funds for which we elected the fair value option are recorded as of the balance sheet date. Other hedge funds are generally reported on a one-month lag, while private equity funds are generally reported on a one-quarter lag.

Net Realized Capital Gains and Losses

The following table presents the components of Net realized capital gains (losses):

<i>(in millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Sales of fixed maturity securities	\$ (13)	\$ 165	\$ (3)	\$ 320

AIG | Second Quarter 2018 Form 10-Q 37

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments****Evaluating Investments for Other-Than-Temporary Impairments**

For a discussion of our policy for evaluating investments for other-than-temporary impairments see Note 6 to the Consolidated Financial Statements in the 2017 Annual Report.

Credit Impairments

The following table presents a rollforward of the cumulative credit losses in other-than-temporary impairments recognized in earnings for available for sale fixed maturity securities:

<i>(in millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
Balance, beginning of period	\$ 358	\$ 946	\$ 526	\$ 1,098
Increases due to:				
Credit impairments on new securities subject to impairment losses	3	41	17	58
Additional credit impairments on previously impaired securities	28	7	45	37
Reductions due to:				
Credit impaired securities fully disposed for which there was no prior intent or requirement to sell	(80)	(44)	(131)	(55)
Accretion on securities previously impaired due to credit*	(121)	(188)	(269)	(376)
Balance, end of period	\$ 188	\$ 762	\$ 188	\$ 762

* Represents both accretion recognized due to changes in cash flows expected to be collected over the remaining expected term of the credit impaired securities and the accretion due to the passage of time.

Purchased Credit Impaired (PCI) Securities

We purchase certain RMBS securities that have experienced deterioration in credit quality since their issuance. We determine whether it is probable at acquisition that we will not collect all contractually required payments for these PCI securities, including both principal and interest. At acquisition, the timing and amount of the undiscounted future cash flows expected to be received on each PCI security is determined based on our best estimate using key assumptions, such as interest rates, default rates and prepayment speeds. At acquisition, the difference between the undiscounted expected future cash flows of the PCI securities and the recorded investment in the securities represents the initial accretable yield, which is accreted into Net investment income over their remaining lives on an effective yield basis. Additionally, the difference between the contractually required payments on the PCI securities and the undiscounted expected future cash flows represents the non-accretable difference at acquisition. The accretable yield and the non-accretable difference will change over time, based on actual payments received and changes in estimates of undiscounted expected future cash flows, which are discussed further below.

On a quarterly basis, the undiscounted expected future cash flows associated with PCI securities are re-evaluated based on updates to key assumptions. Declines in undiscounted expected future cash flows due to further credit deterioration as well as changes in the expected timing of the cash flows can result in the recognition of an other-than-temporary impairment charge, as PCI securities are subject to our policy for evaluating investments for other-than-temporary impairment. Changes to undiscounted expected future cash flows due solely to the changes in the contractual benchmark interest rates on variable rate PCI securities will change the accretable yield prospectively. Significant increases in undiscounted expected future cash flows for reasons other than interest rate changes are recognized prospectively as adjustments to the accretable yield.

The following tables present information on our PCI securities, which are included in bonds available for sale:

<i>(in millions)</i>	At Date of Acquisition
Contractually required payments (principal and interest)	\$ 36,659
Cash flows expected to be collected*	30,085
Recorded investment in acquired securities	20,304

* Represents undiscounted expected cash flows, including both principal and interest.

Pledged Investments				

Secured Financing and Similar Arrangements

We enter into secured financing transactions whereby certain securities are sold under agreements to repurchase (repurchase agreements), in which we transfer securities in exchange for cash, with an agreement by us to repurchase the same or substantially similar securities. Our secured financing transactions also include those that involve the transfer of securities to financial institutions in exchange for cash (securities lending agreements). In all of these secured financing transactions, the securities transferred by us (pledged collateral) may be sold or repledged by the counterparties. These agreements are recorded at their contracted amounts plus accrued interest, other than those that are accounted for at fair value.

Pledged collateral levels are monitored daily and are generally maintained at an agreed-upon percentage of the fair value of the amounts borrowed during the life of the transactions. In the event of a decline in the fair value of the pledged collateral under these secured financing transactions, we may be required to transfer cash or additional securities as pledged collateral under these agreements. At the termination of the transactions, we and our counterparties are obligated to return the amounts borrowed and the securities transferred, respectively.

The following table presents the fair value of securities pledged to counterparties under secured financing transactions, including repurchase and securities lending agreements:

<i>(in millions)</i>	June 30, 2018	December 31, 2017
Fixed maturity securities available for sale	\$ 1,804	\$ 2,911
Other bond securities, at fair value	132	1,585

At June 30, 2018 and December 31, 2017, amounts borrowed under repurchase and securities lending agreements totaled \$2.0 billion and \$4.5 billion, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments**

The following table presents the fair value of securities pledged under our repurchase agreements by collateral type and by remaining contractual maturity:

<i>(in millions)</i>	Remaining Contractual Maturity of the Agreements					Total

--------------	----	---	----	-----	----	-------	----	---	----	---	----	-------

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments**

We also enter into agreements in which securities are purchased by us under agreements to resell (reverse repurchase agreements), which are accounted for as secured financing transactions and reported as short-term investments or other assets, depending on their terms. These agreements are recorded at their contracted resale amounts plus accrued interest, other than those that are accounted for at fair value. In all reverse repurchase transactions, we take possession of or obtain a security interest in the related securities, and we have the right to sell or repledge this collateral received.

The following table presents information on the fair value of securities pledged to us under reverse repurchase agreements:

<i>(in millions)</i>		June 30, 2018	December 31, 2017
Securities collateral pledged to us	\$	5,667	\$ 2,227
Amount sold or repledged by us	\$	113	\$ 46

At June 30, 2018 and December 31, 2017, amounts loaned under reverse repurchase agreements totaled \$5.8 billion and \$2.2 billion, respectively.

We do not currently offset any secured financing transactions. All such transactions are collateralized and margined daily consistent with market standards and subject to enforceable master netting arrangements with rights of set off.

Insurance – Statutory and Other Deposits

The total carrying value of cash and securities deposited by our insurance subsidiaries under requirements of regulatory authorities or other insurance-related arrangements, including certain annuity-related obligations and certain reinsurance treaties, was \$4.1 billion and \$4.9 billion at June 30, 2018 and December 31, 2017, respectively.

Other Pledges and Restrictions

Certain of our subsidiaries are members of Federal Home Loan Banks (FHLBs) and such membership requires the members to own stock in these FHLBs. We owned an aggregate of \$189 million and \$93 million of stock in FHLBs at June 30, 2018 and December 31, 2017, respectively. In addition, our subsidiaries have pledged securities available for sale and residential loans associated with borrowings and funding agreements from FHLBs, with a fair value of \$4.1 billion and \$2.0 billion, respectively, at June 30, 2018 and \$2.7 billion and \$471 million, respectively, at December 31, 2017.

Certain GIAs have provisions that require collateral to be posted or payments to be made by us upon a downgrade of our long-term debt ratings. The actual amount of collateral required to be posted to the counterparties in the event of such downgrades, and the aggregate amount of payments that we could be required to make, depend on market conditions, the fair value of outstanding affected transactions and other factors prevailing at and after the time of the downgrade. The fair value of securities pledged as collateral with respect to these obligations was approximately \$1.9 billion and \$2.0 billion at June 30, 2018 and December 31, 2017, respectively. This collateral primarily consists of securities of the U.S. government

and government sponsored entities and generally cannot be repledged or resold by the counterparties.

Investments held in escrow accounts or otherwise subject to restriction as to their use were \$236 million and \$255 million, comprised of bonds available for sale and short term investments at June 30, 2018 and December 31, 2017, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 6. Lending Activities****6. Lending Activities**

The following table presents the composition of Mortgage and other loans receivable, net:

<i>(in millions)</i>	June 30, 2018	December 31, 2017
Commercial mortgages*	\$ 30,888	\$ 28,596
Residential mortgages	6,200	5,398
Life insurance policy loans	2,192	2,295
Commercial loans, other loans and notes receivable	1,054	1,056
Total mortgage and other loans receivable	40,334	37,345
Allowance for credit losses	(356)	(322)
Mortgage and other loans receivable, net	\$ 39,978	\$ 37,023

* Commercial mortgages primarily represent loans for apartments, offices and retail properties, with exposures in New York and California representing the largest geographic concentrations (aggregating approximately 22 percent and 11 percent, respectively, at June 30, 2018, and 23 percent and 12 percent, respectively, at December 31, 2017).

Credit Quality of Commercial Mortgages

The following table presents debt service coverage ratios and loan-to-value ratios for commercial mortgages:

<i>(in millions)</i>	Debt Service Coverage Ratios ^(a)			Total
	>1.20X	1.00X - 1.20X	<1.00X	
June 30, 2018				
Loan-to-Value Ratios^(b)				
Less than 65%	\$ 18,043	\$ 2,554	\$ 305	\$ 20,902
65% to 75%	7,515	202	220	7,937
76% to 80%	1,154	23	-	1,177
Greater than 80%	614	203	55	872
Total commercial mortgages	\$ 27,326	\$ 2,982	\$ 580	\$ 30,888
December 31, 2017				
Loan-to-Value Ratios^(b)				
Less than 65%	\$ 18,000	\$ 1,525	\$ 351	\$ 19,876
65% to 75%	6,038	193	184	6,415
76% to 80%	569	40	-	609
Greater than 80%	1,416	206	74	1,696
Total commercial mortgages	\$ 26,023	\$ 1,964	\$ 609	\$ 28,596

(a) The debt service coverage ratio compares a property's net operating income to its debt service payments, including principal and interest. Our weighted average debt service coverage ratio was 2.0X and

2.1X at June 30, 2018 and December 31, 2017, respectively.

(b) The loan-to-value ratio compares the current unpaid principal balance of the loan to the estimated fair value of the underlying property collateralizing the loan. Our weighted average loan-to-value ratio was 58 percent and 57 percent at June 30, 2018, and December 31, 2017, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 6. Lending Activities**

(a) Loans that have been modified in troubled debt restructurings and are performing according to their restructured terms. For additional discussion of troubled debt restructurings see Note 7 to the Consolidated Financial Statements in the 2017 Annual Report.

(b) Does not reflect allowance for credit losses.

(c) Our commercial mortgage loan portfolio is current as to payments of principal and interest, for both periods presented. There were no significant amounts of nonperforming commercial mortgages (defined as those loans where payment of contractual principal or interest is more than 90 days past due) during any of the periods presented.

Allowance for Credit Losses

For a discussion of our accounting policy for evaluating Mortgage and other loans receivable for impairment see Note 7 to the Consolidated Financial Statements in the 2017 Annual Report

The following table presents a rollforward of the changes in the allowance for losses on Mortgage and other loans receivable:

Six Months Ended June 30, (in millions)	2018			2017		
	Commercial Mortgages	Other Loans	Total	Commercial Mortgages	Other Loans	Total
Allowance, beginning of year	\$ 247	\$ 75	\$ 322	\$ 194	\$ 103	\$ 297
Loans charged off	(16)	-	(16)	(5)	(2)	(7)
Recoveries of loans previously charged off	-	-	-	-	-	-
Net charge-offs	(16)	-	(16)	(5)	(2)	(7)
Provision for loan losses	51	(1)	50	37	(20)	17
Other	-	-	-	-	-	-
Allowance, end of period	\$ 282 *	\$ 74	\$ 356	\$ 226 *	\$ 81	\$ 307

* Of the total allowance, \$5 million and \$35 million relate to individually assessed credit losses on \$60 million and \$289 million of commercial mortgages at June 30, 2018 and 2017, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 6. Lending Activities**

There were no loans modified in troubled debt restructurings during the six-month period ended June 30, 2018. During the six-month period ended June 30, 2017, loans with a carrying value of \$21 million were modified in troubled debt restructurings.

7. Variable Interest Entities

We enter into various arrangements with variable interest entities (VIEs) in the normal course of business and consolidate the VIEs when we determine we are the primary beneficiary. This analysis includes a review of the VIE's capital structure, related contractual relationships and terms, nature of the VIE's operations and purpose, nature of the VIE's interests issued and our involvement with the entity. When assessing the need to consolidate a VIE, we evaluate the design of the VIE as well as the related risks the entity was designed to expose the variable interest holders to.

The primary beneficiary is the entity that has both (1) the power to direct the activities of the VIE that most significantly affect the entity's economic performance and (2) the obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE. While also considering these factors, the consolidation conclusion depends on the breadth of our decision-making ability and our ability to influence activities that significantly affect the economic performance of the VIE.

Balance Sheet Classification and Exposure to Loss

The following table presents the total assets and total liabilities associated with our variable interests in consolidated VIEs, as classified in the Condensed Consolidated Balance Sheets:

<i>(in millions)</i>	Real Estate and Investment Entities ^(d)	Securitization Vehicles ^(e)	Affordable Housing Partnerships	Other	Total
June 30, 2018

Total assets^(b)	\$	1,667	\$ 18,127	\$	3,437	\$ 23,344

Liabilities:

Long-term debt	\$	680	\$ 1,624	\$ 1,825	5	\$ 4,134
Other ^(c)		144	244	181	26	595
Total liabilities	\$	824	\$ 1,868	\$ 2,006	31	\$ 4,729

(a) Comprised primarily of Short-term investments and Other assets at June 30, 2018 and December 31, 2017.

(b) The assets of each VIE can be used only to settle specific obligations of that VIE.

(c) Comprised primarily of Other liabilities at June 30, 2018 and December 31, 2017.

(d) At June 30, 2018 and December 31, 2017, off-balance sheet exposure primarily consisting of commitments to real estate and investment entities was \$237 million and \$86 million, respectively.

(e) At June 30, 2018 and December 31, 2017, \$16.4 billion and \$17.6 billion, respectively, of the total assets of consolidated securitization vehicles were owed to AIG Parent or its subsidiaries.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 7. Variable Interest Entities**

We calculate our maximum exposure to loss to be (i) the amount invested in the debt or equity of the VIE, (ii) the notional amount of VIE assets or liabilities where we have also provided credit protection to the VIE with the VIE as the referenced obligation, and (iii) other commitments and guarantees to the VIE. Interest holders in VIEs sponsored by us generally have recourse only to the assets and cash flows of the VIEs and do not have recourse to us, except in limited circumstances when we have provided a guarantee to the VIE's interest holders.

The following table presents total assets of unconsolidated VIEs in which we hold a variable interest, as well as our maximum exposure to loss associated with these VIEs:

<i>(in millions)</i>	Total VIE Assets	Maximum Exposure to Loss		Total
		On-Balance Sheet ^(b)	Off-Balance Sheet	
June 30, 2018				
Real estate and investment entities ^(a)	\$ 348,774	\$ 8,426	\$ 1,946	\$ 10,372
Affordable housing partnerships	4,094	641	-	641
Other	2,800	293	1,219	1,512
Total	\$ 355,668	\$ 9,360	\$ 3,165	\$ 12,525
December 31, 2017				
Real estate and investment entities ^(a)	\$ 380,030	\$ 9,253	\$ 2,043	\$ 11,296
Affordable housing partnerships	4,468	725	-	725
Other	2,703	254	1,205	1,459
Total	\$ 387,201	\$ 10,232	\$ 3,248	\$ 13,480

(a) Comprised primarily of hedge funds and private equity funds.

(b) At June 30, 2018 and December 31, 2017, \$9.0 billion and \$9.8 billion, respectively, of our total unconsolidated VIE assets were recorded as Other invested assets.

(c) These amounts represent our estimate of the maximum exposure to loss under certain insurance policies issued to VIEs if a hypothetical loss occurred to the extent of the full amount of the insured value. Our insurance policies cover defined risks and our estimate of liability is included in our insurance reserves on the balance sheet.

For additional information on VIEs see Note 10 to the Consolidated Financial Statements in the 2017 Annual Report.

8. Derivatives and Hedge Accounting

We use derivatives and other financial instruments as part of our financial risk management programs and as part of our investment operations.

For a discussion of our accounting policies and procedures regarding derivatives and hedge accounting see Note 11 to the Consolidated Financial Statements in the 2017 Annual Report.

Our businesses use derivatives and other instruments as part of their financial risk management. Interest rate derivatives (such as interest rate swaps) are used to manage interest rate risk associated with embedded derivatives contained in insurance contract liabilities, fixed maturity securities, outstanding medium and long term notes as well as other interest rate sensitive assets and liabilities. Foreign exchange derivatives (principally foreign exchange forwards and options) are used to economically mitigate risk associated with non U.S. dollar denominated debt, net capital exposures, and foreign currency transactions. Equity derivatives are used to mitigate financial risk embedded in certain insurance liabilities. We use credit derivatives to manage our credit exposures. The derivatives are effective economic hedges of the exposures that they are meant to offset.

In addition to hedging activities, we also enter into derivative instruments with respect to investment operations, which may include, among other things, CDSs and purchases of investments with embedded derivatives, such as equity linked notes and convertible bonds.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 8. Derivatives and Hedge Accounting**

The following table presents the notional amounts of our derivatives and the fair value of derivative assets and liabilities in the Condensed Consolidated Balance Sheets:

	June 30, 2018				December 31, 2017

(a) Fair value amounts are shown before the effects of counterparty netting adjustments and offsetting cash collateral.

(b) As of June 30, 2018 and December 31, 2017, included CDSs on super senior multi-sector CDOs with a net notional amount of \$640 million and \$685 million (fair value liability of \$241 million and \$254 million), respectively. The net notional amount represents the maximum exposure to loss on the portfolio. As of June 30, 2018 and December 31, 2017, there were no super senior corporate debt/CLOs remaining.

(c) Consists primarily of stable value wraps and contracts with multiple underlying exposures.

(d) Represents netting of derivative exposures covered by a qualifying master netting agreement.

(e) Represents cash collateral posted and received that is eligible for netting.

(f) Freestanding derivatives only, excludes embedded derivatives. Derivative instrument assets and liabilities are recorded in Other Assets and Liabilities, respectively. Fair value of assets related to bifurcated embedded derivatives was zero at both June 30, 2018 and December 31, 2017. Fair value of

liabilities related to bifurcated embedded derivatives was \$3.5 billion and \$4.1 billion, respectively, at June 30, 2018 and December 31, 2017. A bifurcated embedded derivative is generally presented with the host contract in the Condensed Consolidated Balance Sheets. Embedded derivatives are primarily related to guarantee features in variable annuity products, which include equity and interest rate components.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 8. Derivatives and Hedge Accounting****Collateral**

We engage in derivative transactions that are not subject to a clearing requirement directly with unaffiliated third parties, in most cases, under International Swaps and Derivatives Association, Inc. (ISDA) Master Agreements. Many of the ISDA Master Agreements also include Credit Support Annex (CSA) provisions, which provide for collateral postings that may vary at various ratings and threshold levels. We attempt to reduce our risk with certain counterparties by entering into agreements that enable collateral to be obtained from a counterparty on an upfront or contingent basis. We minimize the risk that counterparties might be unable to fulfill their contractual obligations by monitoring counterparty credit exposure and collateral value and generally requiring additional collateral to be posted upon the occurrence of certain events or circumstances. In addition, certain derivative transactions have provisions that require collateral to be posted upon a downgrade of our long term debt ratings or give the counterparty the right to terminate the transaction. In the case of some of the derivative transactions, upon a downgrade of our long term debt ratings, as an alternative to posting collateral and subject to certain conditions, we may assign the transaction to an obligor with higher debt ratings or arrange for a substitute guarantee of our obligations by an obligor with higher debt ratings or take other similar action. The actual amount of collateral required to be posted to counterparties in the event of such downgrades, or the aggregate amount of payments that we could be required to make, depends on market conditions, the fair value of outstanding affected transactions and other factors prevailing at and after the time of the downgrade.

Collateral posted by us to third parties for derivative transactions was \$2.2 billion and \$2.9 billion at June 30, 2018 and December 31, 2017, respectively. In the case of collateral posted under derivative transactions that are not subject to clearing, this collateral can generally be repledged or resold by the counterparties. Collateral provided to us from third parties for derivative transactions was \$1.7 billion and \$1.3 billion at June 30, 2018 and December 31, 2017, respectively. In the case of collateral provided to us under derivative transactions that are not subject to clearing, we generally can repledge or resell collateral.

Offsetting

We have elected to present all derivative receivables and derivative payables, and the related cash collateral received and paid, on a net basis on our Condensed Consolidated Balance Sheets when a legally enforceable ISDA Master Agreement exists between us and our derivative counterparty. An ISDA Master Agreement is an agreement governing multiple derivative transactions between two counterparties. The ISDA Master Agreement generally provides for the net settlement of all, or a specified group, of these derivative transactions, as well as transferred collateral, through a single payment, and in a single currency, as applicable. The net settlement provisions apply in the event of a default on, or affecting any, one derivative transaction or a termination event affecting all, or a specified group of, derivative transactions governed by the ISDA Master Agreement.

Hedge Accounting

We designated certain derivatives entered into with third parties as fair value hedges of available for sale investment securities held by our insurance subsidiaries. The fair value hedges include foreign currency forwards and cross currency swaps designated as hedges of the change in fair value of foreign currency denominated available for sale securities attributable to changes in foreign exchange rates. We also designated certain interest rate swaps entered into with third parties as fair value hedges of fixed rate GICs attributable to changes in benchmark interest rates.

We use foreign currency denominated debt and cross-currency swaps as hedging instruments in net investment hedge relationships to mitigate the foreign exchange risk associated with our non-U.S. dollar functional currency foreign subsidiaries. For net investment hedge relationships where issued debt is used as a hedging instrument, we assess the hedge effectiveness and measure the amount of ineffectiveness based on changes in spot rates. For net investment hedge relationships that use derivatives as hedging instruments, we assess hedge effectiveness and measure hedge ineffectiveness using changes in forward rates. For the three- and six-month periods ended June 30, 2018, we recognized a gain of \$119 million and a loss of \$1 million, respectively, and for the three- and six-month periods ended June 30, 2017, we recognized losses of \$6 million and \$48 million, respectively, included in Change in foreign currency translation adjustment in Other comprehensive income related to the net investment hedge relationships.

A qualitative methodology is utilized to assess hedge effectiveness for net investment hedges, while regression analysis is employed for all other hedges.

Credit Risk-Related Contingent Features

We estimate that at June 30, 2018, based on our outstanding financial derivative transactions, a downgrade of our long-term senior debt ratings to BBB or BBB– by Standard & Poor’s Financial Services LLC, a subsidiary of S&P Global Inc., and/or a downgrade to Baa2 or Baa3 by Moody’s Investors’ Service, Inc. would permit counterparties to make additional collateral calls and permit certain counterparties to elect early termination of contracts, resulting in corresponding collateral postings and termination payments in the total amount of up to approximately \$58 million. The aggregate fair value of our derivatives that were in a net liability position and that contain such credit risk-related contingencies which can be triggered below our long-term senior debt ratings of BBB+ or Baa1 was approximately \$461 million and \$572 million at June 30, 2018 and December 31, 2017, respectively. The aggregate fair value of assets posted as collateral under these contracts at June 30, 2018 and December 31, 2017, was approximately \$505 million and \$676 million, respectively.

Hybrid Securities with Embedded Credit Derivatives

We invest in hybrid securities (such as credit linked notes) with the intent of generating income, and not specifically to acquire exposure to embedded derivative risk. As is the case with our other investments in

RMBS, CMBS, CDOs and ABS, our investments in these hybrid securities are exposed to losses only up to the amount of our initial investment in the hybrid security. Other than our initial investment in the hybrid securities, we have no further obligation to make payments on the embedded credit derivatives in the related hybrid securities.

We elect to account for our investments in these hybrid securities with embedded written credit derivatives at fair value, with changes in fair value recognized in Net investment income and Other income. Our investments in these hybrid securities are reported as Other bond securities in the Condensed Consolidated Balance Sheets. The fair values of these hybrid securities were \$4.1 billion and \$4.4 billion at June 30, 2018 and December 31, 2017, respectively. These securities have par amounts of \$8.8 billion and \$9.1 billion at June 30, 2018 and December 31, 2017, respectively, and have remaining stated maturity dates that extend to 2052.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 9. Insurance Liabilities****9. Insurance Liabilities****Liability for Unpaid Losses and Loss Adjustment Expenses (Loss Reserves)**

Loss reserves represent the accumulation of estimates of unpaid claims, including estimates for claims incurred but not reported (IBNR) and loss adjustment expenses (LAE), less applicable discount. We regularly review and update the methods used to determine loss reserve estimates. Any adjustments resulting from this review are reflected currently in pre-tax income, except to the extent it impacts a deferred gain under a retroactive reinsurance agreement in which case the ceded portion would be amortized into pre-tax income in subsequent periods. Because these estimates are subject to the outcome of future events, changes in estimates are common given that loss trends vary and time is often required for changes in trends to be recognized and confirmed. Reserve changes that increase previous estimates of ultimate cost are referred to as unfavorable or adverse development or reserve strengthening. Reserve changes that decrease previous estimates of ultimate cost are referred to as favorable development.

Our gross loss reserves before reinsurance and discount are net of contractual deductible recoverable amounts due from policyholders of approximately \$12.9 billion and \$12.6 billion at June 30, 2018 and December 31, 2017, respectively. These recoverable amounts are related to certain policies with high deductibles (in excess of high dollar amounts retained by the insured through self-insured retentions, deductibles, retrospective programs, or captive arrangements, each referred to generically as “deductibles”), primarily for U.S. commercial casualty business. With respect to the deductible portion of the claim, we manage and pay the entire claim on behalf of the insured and are reimbursed by the insured for the deductible portion of the claim. Thus, these recoverable amounts represent a credit exposure to us. At June 30, 2018 and December 31, 2017, we held collateral of approximately \$9.4 billion and \$9.5 billion, respectively, for these deductible recoverable amounts, consisting primarily of letters of credit and funded trust agreements.

The following table presents the roll-forward of activity in Loss Reserves:

	Three Months Ended		Six M
	June 30,		
	2018	2017	2
<i>(in millions)</i>			
Liability for unpaid loss and loss adjustment expenses, beginning of period	\$ 78,098	\$ 76,050	\$ 78,
Reinsurance recoverable	(27,211)	(26,920)	(26,7
Net Liability for unpaid loss and loss adjustment expenses, beginning of period	50,887	49,130	51,
Losses and loss adjustment expenses incurred:			
Current year	4,452	4,209	9,

Prior years, discount charge (benefit)	9	260	(
Prior years, amortization of deferred gain on retroactive reinsurance ^(a)	(69)	(82)	(
Total losses and loss adjustment expenses incurred	4,366	4,778	8,

Losses and loss adjustment expenses paid:

Current year	(910)	(1,137)	(1,5)
Prior years	(4,635)	(4,252)	(9,4)
Total losses and loss adjustment expenses paid	(5,545)	(5,389)	(10,9)

Other changes:

Foreign exchange effect	(431)	463	(4)
Retroactive reinsurance adjustment (net of discount) ^(b)	30	(299)	(269)
Reclassified to liabilities held for sale ^(c)	-	79	79
Total other changes	(401)	243	(157)

Liability for unpaid loss and loss adjustment expenses, end of period:

Net liability for unpaid losses and loss adjustment expenses	49,307	48,762	49,307
Reinsurance recoverable	27,406	27,660	27,406
Total	\$ 76,713	\$ 76,422	\$ 76,713

(a) Includes \$8 million and \$10 million for the retroactive reinsurance agreement with NICO covering U.S. asbestos exposures for the three-month periods ended June 30, 2018 and 2017, respectively, and \$13 million for both six-month periods ended June 30, 2018 and 2017.

(b) Includes discount on retroactive reinsurance of \$(20) million and \$(108) million for the three-month periods ended June 30, 2018 and 2017, respectively, and \$108 million and \$1.5 billion for the six-month periods ended June 30, 2018 and 2017, respectively.

(c) Represents change in loss reserves included in our sale of certain of our insurance operations to Fairfax Financial Holdings Limited (Fairfax) for the three- and six-month periods ended June 30, 2017. Upon consummation of the sale, we retained a portion of these reserves through reinsurance arrangements.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 9. Insurance Liabilities**

On January 20, 2017, we entered into an adverse development reinsurance agreement with National Indemnity Company (NICO), a subsidiary of Berkshire Hathaway Inc. (Berkshire), under which we transferred to NICO 80 percent of the reserve risk on substantially all of our U.S. Commercial long-tail exposures for accident years 2015 and prior. Under this agreement, we ceded to NICO 80 percent of the paid losses on subject business paid on or after January 1, 2016 in excess of \$25 billion of net paid losses, up to an aggregate limit of \$25 billion. At NICO's 80 percent share, NICO's limit of liability under the contract is \$20 billion. We account for this transaction as retroactive reinsurance. We paid total consideration, including interest, of \$10.2 billion. The consideration was placed into a collateral trust account as security for NICO's claim payment obligations, and Berkshire has provided a parental guarantee to secure the obligations of NICO under the agreement. The total paid claims subject to the agreement as of June 30, 2018 were below the attachment point.

Discounting of Loss Reserves

At June 30, 2018, the loss reserves reflect a net loss reserve discount of \$2.0 billion, including tabular and non-tabular calculations based upon the following assumptions:

Certain asbestos claims are discounted when allowed by the regulator and when payments are fixed and determinable, based on the investment yields of the companies and the payout pattern for the claims. At December 31, 2016, the discount for asbestos reserves was fully amortized.

The tabular workers' compensation discount is calculated based on a 3.5 percent interest rate and the mortality rate used in the 2007 U.S. Life Table.

The non-tabular workers' compensation discount is calculated separately for companies domiciled in New York and Pennsylvania, and follows the statutory regulations (prescribed or permitted) for each state. For New York companies, the discount is based on a 5 percent interest rate and the companies' own payout patterns. For the Pennsylvania companies, the statute specifies discount factors for accident years 2001 and prior, which are based on a 6 percent interest rate and an industry payout pattern. For accident years 2002 and subsequent, the discount is based on the payout patterns and investment yields of the companies.

In 2013, our Pennsylvania regulator approved use of a consistent discount rate (U.S. Treasury rate plus a liquidity premium) to all of our workers' compensation reserves in our Pennsylvania-domiciled companies, as well as our use of updated payout patterns specific to our primary and excess workers compensation portfolios.

The discount consists of \$622 million of tabular discount and \$1.3 billion of non-tabular discount for workers' compensation. During the six-month periods ended June 30, 2018 and 2017, the benefit/(charge) from changes in discount of \$219 million and \$(235) million, respectively, were recorded as part of the policyholder benefits and losses incurred in the Consolidated Statement of Income.

The following table presents the components of the loss reserve discount discussed above:

<i>(in millions)</i>	June 30, 2018			December 31, 2017		
	North America Commercial Insurance	Legacy Portfolio	Total	North America Commercial Insurance	Legacy Portfolio	Total
U.S. workers' compensation	\$ 2,638	\$ 964	\$ 3,602	\$ 2,465	\$ 918	\$ 3,383
Retroactive reinsurance	(1,647)	-	(1,647)	(1,539)	-	(1,539)
Total reserve discount*	\$ 991	\$ 964	\$ 1,955	\$ 926	\$ 918	\$ 1,844

* Excludes \$170 million and \$173 million of discount related to certain long tail liabilities in the United Kingdom at June 30, 2018 and December 31, 2017, respectively.

ITEM 1 | Notes to Condensed Consolidated Financial Statements (unaudited) | 9. Insurance Liabilities

The following tables present the net loss reserve discount benefit (charge):

Three Months Ended June 30,	2018			2017		
	North America Commercial Insurance	Legacy Portfolio	Total	North America Commercial Insurance	Legacy Portfolio	Total
<i>(in millions)</i>						
Current accident year	\$ 23	\$ -	\$ 23	\$ 29	\$ -	\$ 29
Accretion and other adjustments to prior year discount	(133)	(12)	(145)	(57)	(43)	(100)
Effect of interest rate changes	96	40	136	(128)	(61)	(189)
Net reserve discount benefit (charge)	(14)	28	14	(156)	(104)	(260)
Change in discount on loss reserves ceded under retroactive reinsurance	20	-	20	108	-	108
Net change in total reserve discount^(a)	\$ 6	\$ 28	\$ 34	\$ (48)	\$ (104)	\$ (152)

Six Months Ended June 30,	2018			2017		
	North America Commercial Insurance	Legacy Portfolio	Total	North America Commercial Insurance	Legacy Portfolio	Total
<i>(in millions)</i>						
Current accident year	\$ 42	\$ -	\$ 42	\$ 61	\$ -	\$ 61
Accretion and other adjustments to prior year discount	(88)	(30)	(118)	(105)	(59)	(164)
Effect of interest rate changes	219	76	295	(89)	(43)	(132)
Net reserve discount benefit (charge)	173	46	219	(133)	(102)	(235)
Change in discount on loss reserves ceded under retroactive reinsurance	(108)	-	(108)	(1,547)	-	(1,547)
Net change in total reserve discount^(b)	\$ 65	\$ 46	\$ 111	\$ (1,680)	\$ (102)	\$ (1,782)

(a) Excludes \$7 million and \$4 million of discount related to certain long tail liabilities in the United Kingdom for the three-month periods ended June 30, 2018 and 2017, respectively.

(b) Excludes \$3 million and \$(4) million of discount related to certain long tail liabilities in the United Kingdom for the six-month periods ended June 30, 2018 and 2017, respectively.

During the six-month period ended June 30, 2018 effective interest rates increased due to an increase in the forward yield curve component of the discount rates reflecting an increase in U.S. Treasury rates along with changes in payout pattern assumptions. This resulted in an increase in the loss reserve discount by

\$295 million in the six-month period ended June 30, 2018.

During the six-month period ended June 30, 2017 effective interest rates decreased due to a decrease in the forward yield curve component of the discount rates reflecting a decrease in U.S. Treasury rates along with changes in payout pattern assumptions. This resulted in a decrease in the loss reserve discount by \$132 million in the six-month period ended June 30, 2017.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 10. Contingencies, Commitments and Guarantees****10. Contingencies, Commitments and Guarantees**

In the normal course of business, various contingent liabilities and commitments are entered into by AIG and our subsidiaries. In addition, AIG Parent guarantees various obligations of certain subsidiaries.

Although AIG cannot currently quantify its ultimate liability for unresolved litigation and investigation matters, including those referred to below, it is possible that such liability could have a material adverse effect on AIG's consolidated financial condition or its consolidated results of operations or consolidated cash flows for an individual reporting period.

Legal Contingencies

Overview. In the normal course of business, AIG and our subsidiaries are, like others in the insurance and financial services industries in general, subject to regulatory and government investigations and actions, and litigation and other forms of dispute resolution in a large number of proceedings pending in various domestic and foreign jurisdictions. Certain of these matters involve potentially significant risk of loss due to potential for significant jury awards and settlements, punitive damages or other penalties. Many of these matters are also highly complex and seek recovery on behalf of a class or similarly large number of plaintiffs. It is therefore inherently difficult to predict the size or scope of potential future losses arising from these matters. In our insurance and reinsurance operations, litigation and arbitration concerning the scope of coverage under insurance and reinsurance contracts, and litigation and arbitration in which our subsidiaries defend or indemnify their insureds under insurance contracts, are generally considered in the establishment of our loss reserves. Separate and apart from the foregoing matters involving insurance and reinsurance coverage, AIG, our subsidiaries and their respective officers and directors are subject to a variety of additional types of legal proceedings brought by holders of AIG securities, customers, employees and others, alleging, among other things, breach of contractual or fiduciary duties, bad faith and violations of federal and state statutes and regulations. With respect to these other categories of matters not arising out of claims for insurance or reinsurance coverage, we establish reserves for loss contingencies when it is probable that a loss will be incurred and the amount of the loss can be reasonably estimated. In many instances, we are unable to determine whether a loss is probable or to reasonably estimate the amount of such a loss and, therefore, the potential future losses arising from legal proceedings may exceed the amount of liabilities that we have recorded in our financial statements covering these matters. While such potential future charges could be material, based on information currently known to management, management does not believe, other than may be discussed below, that any such charges are likely to have a material adverse effect on our financial position or results of operation.

Additionally, from time to time, various regulatory and governmental agencies review the transactions and practices of AIG and our subsidiaries in connection with industry-wide and other inquiries into, among other matters, the business practices of current and former operating insurance subsidiaries. We have cooperated, and will continue to cooperate, in producing documents and other information in response to such requests.

Tax Litigation

We are party to pending tax litigation before the Southern District of New York. *For additional information see Note 14 to the Condensed Consolidated Financial Statements.*

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 10. Contingencies, Commitments and Guarantees****Other Commitments**

In the normal course of business, we enter into commitments to invest in limited partnerships, private equity funds and hedge funds and to purchase and develop real estate in the U.S. and abroad. These commitments totaled \$3.3 billion at June 30, 2018.

Guarantees**Subsidiaries**

We have issued unconditional guarantees with respect to the prompt payment, when due, of all present and future payment obligations and liabilities of AIG Financial Products Corp. and related subsidiaries (collectively AIGFP) and of AIG Markets arising from transactions entered into by AIG Markets.

In connection with AIGFP's business activities, AIGFP has issued, in a limited number of transactions, standby letters of credit or similar facilities to equity investors of structured leasing transactions in an amount equal to the termination value owing to the equity investor by the lessee in the event of a lessee default (the equity termination value). The total amount outstanding at June 30, 2018 was \$85 million. In those transactions, AIGFP has agreed to pay such amount if the lessee fails to pay. The amount payable by AIGFP is, in certain cases, partially offset by amounts payable under other instruments typically equal to the present value of scheduled payments to be made by AIGFP. In the event that AIGFP is required to make a payment to the equity investor, the lessee is unconditionally obligated to reimburse AIGFP. To the extent that the equity investor is paid the equity termination value from the standby letter of credit and/or other sources, including payments by the lessee, AIGFP takes an assignment of the equity investor's rights under the lease of the underlying property. Because the obligations of the lessee under the lease transactions are generally economically defeased, lessee bankruptcy is the most likely circumstance in which AIGFP would be required to pay without reimbursement.

AIG Parent files a consolidated federal income tax return with certain subsidiaries and acts as an agent for the consolidated tax group when making payments to the Internal Revenue Service (IRS). AIG Parent and its subsidiaries have adopted, pursuant to a written agreement, a method of allocating consolidated federal income taxes. Under an Amended and Restated Tax Payment Allocation Agreement dated June 6, 2011 between AIG Parent and one of its Bermuda-domiciled insurance subsidiaries, AIG Life of Bermuda, Ltd. (AIGB), AIG Parent has agreed to indemnify AIGB for any tax liability (including interest and penalties) resulting from adjustments made by the IRS or other appropriate authorities to taxable income, special deductions or credits in connection with investments made by AIGB in certain affiliated entities.

Asset Dispositions

We are subject to financial guarantees and indemnity arrangements in connection with the completed sales of businesses pursuant to our asset disposition plan. The various arrangements may be triggered by, among other things, declines in asset values, the occurrence of specified business contingencies, the

realization of contingent liabilities, developments in litigation or breaches of representations, warranties or covenants provided by us. These arrangements are typically subject to various time limitations, defined by the contract or by operation of law, such as statutes of limitation. In some cases, the maximum potential obligation is subject to contractual limitations, while in other cases such limitations are not specified or are not applicable.

We are unable to develop a reasonable estimate of the maximum potential payout under certain of these arrangements. Overall, we believe that it is unlikely we will have to make any material payments related to completed sales under these arrangements, and no material liabilities related to these arrangements have been recorded in the Condensed Consolidated Balance Sheets.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 11. Equity**

11. Equity

Shares Outstanding

The following table presents a rollforward of outstanding shares:

Six Months Ended June 30, 2018	Common Stock Issued	Treasury Stock	Common Stock Outstanding
Shares, beginning of year	1,906,671,492	(1,007,626,835)	899,044,657
Shares issued	-	4,047,626	4,047,626
Shares repurchased	-	(11,878,250)	(11,878,250)
Shares, end of period	1,906,671,492	(1,015,457,459)	891,214,033
Dividends			

Dividends are payable on AIG Common Stock only when, as and if declared by our Board of Directors in its discretion, from funds legally available for this purpose. In considering whether to pay a dividend on or purchase shares of AIG Common Stock, our Board of Directors considers a number of factors, including, but not limited to: the capital resources available to support our insurance operations and business strategies, AIG's funding capacity and capital resources in comparison to internal benchmarks, expectations for capital generation, rating agency expectations for capital, regulatory standards for capital and capital distributions, and such other factors as our Board of Directors may deem relevant.

The following table presents record date, payment date and dividends paid per share on AIG Common Stock:

Record Date	Payment Date	Dividends Paid Per Share
June 14, 2018	June 28, 2018	0.32
March 15, 2018	March 29, 2018	0.32
June 14, 2017	June 28, 2017	0.32
March 15, 2017	March 29, 2017	0.32

For a discussion of restrictions on payments of dividends to AIG Parent by its subsidiaries see Note 19 to the Consolidated Financial Statements in the 2017 Annual Report.

Repurchase of AIG Common Stock

The following table presents repurchases of AIG Common Stock and warrants to purchase shares of AIG Common Stock:

Six Months Ended June 30, <i>(in millions)</i>		2018	2017
Aggregate repurchases of common stock	\$	646	\$ 6,000
Total number of common shares repurchased		12	95

Aggregate repurchases of warrants	\$	4	\$	-
Total number of warrants repurchased*		-		-

* For the six-month period ended June 30, 2018, we repurchased 266,453 warrants to purchase shares of AIG Common Stock.

Our Board of Directors has authorized the repurchase of shares of AIG Common Stock and warrants to purchase shares of AIG Common Stock through a series of actions. On May 3, 2017, our Board of Directors authorized an additional increase of \$2.5 billion to its previous share repurchase authorization. As of June 30, 2018, approximately \$1.6 billion remained under our share repurchase authorization. Shares may be repurchased from time to time in the open market, private purchases, through forward, derivative, accelerated repurchase or automatic repurchase transactions or otherwise (including through the purchase of warrants). Certain of our share repurchases have been and may from time to time be effected through Exchange Act Rule 10b5-1 repurchase plans.

The timing of any future repurchases will depend on market conditions, our business and strategic plans, financial condition, results of operations, liquidity and other factors.

* These Accumulated other comprehensive income components are included in the computation of net periodic pension cost. See Note 13 to the Condensed Consolidated Financial Statements.

ITEM 1 | Notes to Condensed Consolidated Financial Statements (unaudited) | 12. Earnings Per Share (EPS)

12. Earnings Per Share (EPS)

The basic EPS computation is based on the weighted average number of common shares outstanding, adjusted to reflect all stock dividends and stock splits. The diluted EPS computation is based on those shares used in the basic EPS computation plus shares that would have been outstanding assuming issuance of common shares for all dilutive potential common shares outstanding and adjusted to reflect all stock dividends and stock splits.

The following table presents the computation of basic and diluted EPS:

<i>(dollars in millions, except per share data)</i>	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
Numerator for EPS:				
Income from continuing operations	\$ 931	\$ 1,110	\$ 1,881	\$ 2,321
Less: Net income (loss) from continuing operations attributable to noncontrolling interests	(6)	(12)	5	14
Income attributable to AIG common shareholders from continuing operations	937	1,122	1,876	2,307
Income (loss) from discontinued operations, net of income tax expense	-	8	(1)	8
Net income attributable to AIG common shareholders	\$ 937	\$ 1,130	\$ 1,875	\$ 2,315
Denominator for EPS:				
Weighted average shares outstanding — basic	903,215,488	925,751,084	905,566,733	953,109,915
Dilutive shares	13,356,993	22,497,687	15,335,987	23,517,737
Weighted average shares outstanding — diluted ^(a)	916,572,481	948,248,771	920,902,720	976,627,652
Income per common share attributable to AIG:				
Basic:				
Income from continuing operations	\$ 1.04	\$ 1.21	\$ 2.07	\$ 2.42
Income from discontinued operations	\$ -	\$ 0.01	\$ -	\$ 0.01
Net income attributable to AIG	\$ 1.04	\$ 1.22	\$ 2.07	\$ 2.43
Diluted:				
Income from continuing operations	\$ 1.02	\$ 1.18	\$ 2.04	\$ 2.36
Income from discontinued operations	\$ -	\$ 0.01	\$ -	\$ 0.01
Net income attributable to AIG	\$ 1.02	\$ 1.19	\$ 2.04	\$ 2.37

(a) Dilutive shares included our share based employee compensation plans and a weighted average portion of the warrants issued to AIG shareholders as part of AIG's recapitalization in January 2011. The

number of shares excluded from diluted shares outstanding was 5.2 million and 4.2 million for the three- and six-month periods ended June 30, 2018, respectively, and 1.9 million and 1.8 million for the three- and six-month periods ended June 30, 2017, respectively, because the effect of including those shares in the calculation would have been anti-dilutive.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 13. Employee Benefits****13. Employee Benefits**

We sponsor various defined benefit pension plans, post-retirement medical and life insurance plans for eligible employees and retirees in the U.S. and certain non-U.S. countries.

The following table presents the components of net periodic benefit cost with respect to pensions and other postretirement benefits:

<i>(in millions)</i>	Pension			Postretirement		
	U.S. Plans	Non-U.S. Plans	Total	U.S. Plans	Non-U.S. Plans	Total
Three Months Ended June 30, 2018

For the six-month period ended June 30, 2018, we did not make any contributions to the U.S. AIG Retirement Plan.

14. Income Taxes**U.S. Tax Reform Overview**

On December 22, 2017, the U.S. enacted Public Law 115-97, known informally as the Tax Cuts and Jobs Act (the Tax Act). The Tax Act reduced the statutory rate of U.S. federal corporate income tax to 21 percent and enacted numerous other changes impacting AIG and the insurance industry.

During December 2017, the SEC staff issued Staff Accounting Bulletin 118 (SAB 118), which provided guidance on accounting for the tax effects of the Tax Act. SAB 118 addressed situations where accounting for certain income tax effects of the Tax Act under ASC 740 may be incomplete upon issuance of an entity's financial statements and provides a one-year measurement period from the enactment date to complete the accounting under ASC 740. In accordance with SAB 118, a company was required to reflect the following:

- Income tax effects of those aspects of the Tax Act for which accounting under ASC 740 is complete
- Provisional estimate of income tax effects of the Tax Act to the extent accounting is incomplete but a reasonable estimate is determinable
- If a provisional estimate cannot be determined, ASC 740 should still be applied on the basis of tax law provisions that were in effect immediately before the enactment of the Tax Act.

At December 31, 2017, we originally recorded a provisional estimate of income tax effects of the Tax Act of \$6.7 billion, including a tax charge of \$6.7 billion attributable to the reduction in the U.S. corporate income tax rate and tax benefit of \$38 million related to the deemed repatriation tax. During the period ended June 30, 2018, we have not recorded any material adjustments to these provisional amounts. We continue to refine our analysis and calculations, which could impact the provisional estimates previously recorded. Accordingly, as of June 30, 2018, we have not fully completed our accounting for the tax effects of the Tax Act.

The Tax Act includes provisions for Global Intangible Low-Taxed Income (GILTI) under which taxes on foreign income are imposed on the excess of a deemed return on tangible assets of certain foreign subsidiaries and for Base Erosion and Anti-Abuse Tax (BEAT) under which taxes are imposed on certain base eroding payments to affiliated foreign companies. There are substantial uncertainties in the interpretation of BEAT and GILTI and formal guidance from the U.S. tax authority is still pending. Depending on the content of such guidance, changes to the interpretations and assumptions made by us, and/or actions we may take, it is possible that the impact from BEAT or GILTI could change amounts recorded, possibly materially. Consistent with accounting guidance, we treat BEAT as a period tax charge in the period the tax is incurred and have made an accounting policy election to treat GILTI taxes in a similar manner.

Tax effects for which a reasonable estimate can be determined

Deemed Repatriation Tax

The Tax Act requires companies to pay a one-time transition tax, net of tax credits related to applicable foreign taxes paid, on previously untaxed current and accumulated earnings and profits (E&P) of certain of our foreign subsidiaries. In the determination of the deemed repatriation tax, we reviewed estimated post-1986 E&P of certain material relevant foreign subsidiaries, and any related non-U.S. income tax paid on such earnings. We originally recorded a provisional estimated tax benefit of \$38 million at December 31, 2017. While the IRS has issued some guidance on the calculation of the deemed repatriation tax, there are still certain aspects of the calculation that require further clarification. We are continuing to gather additional information to more precisely compute the amount of deemed repatriation tax. As we continue to refine our analysis, we will refine our calculations of the one-time transition tax, which could impact the provisional estimate previously recorded.

Other Provisions

The Tax Act modified computations of insurance reserves for both life and general insurance companies. For life insurance companies, tax reserves are now computed with reference to NAIC reserves. For general insurance companies, the Tax Act extends the discount period for certain long-tail lines of business from 10 years to 24 years and increases the discount rate, replacing the applicable federal rate for a higher-yield corporate bond rate, and eliminates the election allowing companies to use their historical loss payment patterns for loss reserve discounting. Adjustments related to the differences in insurance reserves balances computed under the old tax law versus the Tax Act have to be taken into income over eight years by both life and general insurance companies. At December 31, 2017, we recorded provisional estimates with respect to such items. As of June 30, 2018, these estimates remain provisional.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 14. Income Taxes****Provisions Impacting Projections of Taxable Income and Valuation Allowance Considerations**

Certain provisions of the Tax Act impact our projections of future taxable income used in analyzing realizability of our U.S. tax attribute deferred tax asset. As discussed above, there are specific insurance industry provisions, including changes in computations of insurance reserves, amortization of specified policy acquisition expenses, and treatment of separate account dividends received deduction. Provisional estimates have been included in our future taxable income projections for these insurance industry specific provisions to reflect application of the new tax law.

Because we have made provisional estimates related to the impact of certain aspects of the Tax Act on our future taxable income, corresponding determination of the need for a valuation allowance is also provisional. Generally, the Tax Act provisions result in an increase in our taxable income and, thus, accelerate utilization of our tax attribute deferred tax asset. Accordingly, we do not currently anticipate that our reliance on provisional estimates would have a material impact on our determination of the realizability of our deferred tax assets.

In all cases, we will continue to refine our calculations as additional analysis is completed. Our estimates may also be impacted as additional guidance from taxing authorities is issued.

Tax effects for which no estimate can be determined

Our accounting for the following elements of the Tax Act is incomplete and we continued accounting for them in accordance with ASC 740 on the basis of the tax laws in effect before enactment of the Tax Act.

The Tax Act may affect the results in certain investments and partnerships in which we are a non-controlling interest owner. The information needed to determine a provisional estimate is not currently available (such as for interest deduction limitations in those entities and the changed definition of a U.S. Shareholder). Accordingly, no provisional estimates were recorded.

At December 31, 2017, due to minimal formal guidance issued from state and local jurisdictions, provisional estimates were not recorded for the impact of any state and local corporate income tax implications of the Tax Act. Guidance from state and local jurisdictions has varied and most have not formally passed law specific to the treatment of the Tax Act. While we have not identified any material impact at this point in time, we continue to review any guidance issued by those states that have passed tax legislation related to the Tax Act and continue to work through the state and local corporate income tax implications of the Tax Act. We expect further guidance throughout 2018 and the impact, if any, will be recorded when the related guidance is issued.

Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income

In February 2018, the FASB issued an accounting standard that allows the optional reclassification of stranded tax effects within accumulated other comprehensive income (AOCI) that arise due to the enactment of the Tax Act to retained earnings. We elected to early adopt the standard for the three-month

period ended March 31, 2018. As a result of adopting this standard, we reclassified \$248 million from AOCI to retained earnings. The amount reclassified includes stranded effects related to the change in the U.S. federal corporate income tax rate on the gross temporary differences and related valuation allowances. The effect of the Tax Act on gross temporary differences related to AOCI is provisional. As we finalize the accounting for tax effects of the Tax Act on these items, additional reclassification adjustments may be recorded in future periods.

We use an item-by-item approach to release the stranded or disproportionate income tax effects in AOCI related to our available-for-sale securities. Under this approach, a portion of the disproportionate tax effects is assigned to each individual security lot at the date the amount becomes lodged. When the individual securities are sold, mature, or are otherwise impaired on an other-than-temporary basis, the assigned portion of the disproportionate tax effect is reclassified from AOCI to income from continuing operations.

Interim Tax Calculation Method

We use the estimated annual effective tax rate method in computing our interim tax provision. Certain items, including those deemed to be unusual, infrequent or that cannot be reliably estimated, are excluded from the estimated annual effective tax rate. In these cases, the actual tax expense or benefit is reported in the same period as the related item. Certain tax effects are also not reflected in the estimated annual effective tax rate, primarily certain changes in the realizability of deferred tax assets and uncertain tax positions, and are recorded in the period in which the change occurs. While certain impacts of the Tax Act are included in our annual effective tax rate, we continue to refine our calculations as additional information becomes available, which may result in changes to the estimated annual effective tax rate.

Interim Tax Expense (Benefit)

For the three-month period ended June 30, 2018, the effective tax rate on income from continuing operations was 25.6 percent. The effective tax rate on income from continuing operations differs from the statutory tax rate of 21 percent primarily due to tax charges related to income in our foreign operations taxed at statutory tax rates higher than 21 percent, additional U.S. taxes imposed on

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 14. Income Taxes**

income of our foreign subsidiaries under international provisions of the Tax Act, valuation allowance activity related to certain foreign subsidiaries and state jurisdictions and non-deductible transfer pricing charges, partially offset by tax benefits associated with tax exempt income, and reclassifications from accumulated other comprehensive income to income from continuing operations related to the disposal of available for sale securities.

For the six-month period ended June 30, 2018, the effective tax rate on income from continuing operations was 24.1 percent. The effective tax rate on income from continuing operations differs from the statutory tax rate of 21 percent primarily due to tax charges related to income in our foreign operations taxed at statutory tax rates higher than 21 percent, additional U.S. taxes imposed on income of our foreign subsidiaries under international provisions of the Tax Act, valuation allowance activity related to certain foreign subsidiaries and state jurisdictions and non-deductible transfer pricing charges, partially offset by tax benefits associated with tax exempt income, reclassifications from accumulated other comprehensive income to income from continuing operations related to the disposal of available for sale securities and excess tax deductions related to share based compensation payments recorded through the income statement.

For the three-month period ended June 30, 2017, the effective tax rate on income from continuing operations was 33.4 percent. The effective tax rate on income from continuing operations differs from the statutory tax rate of 35 percent primarily due to tax benefits associated with tax exempt income and reclassifications from accumulated other comprehensive income to income from continuing operations related to the disposal of available for sale securities, partially offset by tax charges related to increases in uncertain tax positions associated with the impact of settlement discussions with the IRS related to certain open tax issues.

For the six-month period ended June 30, 2017, the effective tax rate on income from continuing operations was 31.6 percent. The effective tax rate on income from continuing operations differs from the statutory tax rate of 35 percent primarily due to tax benefits associated with tax exempt income, reclassifications from accumulated other comprehensive income to income from continuing operations related to the disposal of available for sale securities and excess tax deductions related to share based compensation payments recorded through the income statement, partially offset by tax charges related to increases in uncertain tax positions associated with the impact of settlement discussions with the IRS related to certain open tax issues.

As a result of the Tax Act, the majority of accumulated foreign earnings that were previously untaxed are subject to a one-time deemed repatriation tax. Going forward, certain foreign earnings of our foreign affiliates will be exempt from U.S. tax upon repatriation. Notwithstanding the changes, U.S. tax on foreign exchange gain or loss and certain non-U.S. withholding taxes will continue to be applicable upon future repatriations of foreign earnings. For the six-month period ended June 30, 2018, we still consider our foreign earnings with respect to certain operations in Canada, South Africa, the Far East, Latin America, Bermuda as well as the European, Asia Pacific and Middle East regions to be indefinitely reinvested. These earnings relate to ongoing operations and have been reinvested in active business operations. Deferred taxes, if necessary, have been provided on earnings of non-U.S. affiliates whose earnings are not indefinitely reinvested.

Assessment of Deferred Tax Asset Valuation Allowance

The evaluation of the recoverability of our deferred tax asset and the need for a valuation allowance requires us to weigh all positive and negative evidence to reach a conclusion that it is more likely than not that all or some portion of the deferred tax asset will not be realized. The weight given to the evidence is commensurate with the extent to which it can be objectively verified. The more negative evidence that exists, the more positive evidence is necessary and the more difficult it is to support a conclusion that a valuation allowance is not needed.

Our framework for assessing the recoverability of the deferred tax asset requires us to consider all available evidence, including:

- the nature, frequency, and amount of cumulative financial reporting income and losses in recent years;
- the sustainability of recent operating profitability of our subsidiaries;
- the predictability of future operating profitability of the character necessary to realize the net deferred tax asset;
- the carryforward period for the net operating loss, capital loss and foreign tax credit carryforwards, including the effect of reversing taxable temporary differences; and
- prudent and feasible actions and tax planning strategies that would be implemented, if necessary, to protect against the loss of the deferred tax asset.

In performing our assessment of the recoverability of the deferred tax asset under this framework, we consider tax laws governing the utilization of the net operating loss, capital loss and foreign tax credit carryforwards in each applicable jurisdiction. Under U.S. tax law, a company generally must use its net operating loss carryforwards before it can use its foreign tax credit carryforwards, even though the carryforward period for the foreign tax credit is shorter than for the net operating loss. Our U.S. federal consolidated income tax group includes both life companies and non-life companies. While the U.S. taxable income of our non-life companies can be offset by our net operating loss carryforwards, only a portion (no more than 35 percent) of the U.S. taxable income of our life

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 14. Income Taxes**

companies can be offset by those net operating loss carryforwards. The remaining tax liability of our life companies can be offset by the foreign tax credit carryforwards. Accordingly, we utilize both the net operating loss and foreign tax credit carryforwards concurrently which enables us to realize our tax attributes prior to expiration. As of June 30, 2018, based on all available evidence, it is more likely than not that the U.S. net operating loss and foreign tax credit carryforwards will be utilized prior to expiration and, thus, no valuation allowance has been established.

Estimates of future taxable income, including income generated from prudent and feasible actions and tax planning strategies could change in the near term, perhaps materially, which may require us to consider any potential impact to our assessment of the recoverability of the deferred tax asset. Such potential impact could be material to our consolidated financial condition or results of operations for an individual reporting period.

For the three- and six-month periods ended June 30, 2018, recent changes in market conditions, including rising interest rates, impacted the unrealized tax gains and losses in the U.S. Life Insurance Companies' available for sale securities portfolio, resulting in a deferred tax asset related to net unrealized tax capital losses. The deferred tax asset relates to the unrealized losses for which the carryforward period has not yet begun, and as such, when assessing its recoverability, we consider our ability and intent to hold the underlying securities to recovery, as well as carryback capacity of such losses, to the extent they were to become realized. As of June 30, 2018, based on all available evidence, we concluded no valuation allowance is necessary in the U.S. Life Insurance Companies' available for sale securities portfolio.

For the three- and six-month periods ended June 30, 2018, recent changes in market conditions, including rising interest rates, impacted the unrealized tax gains and losses in the U.S. Non-Life Companies' available for sale securities portfolio, resulting in a decrease to the deferred tax liability related to net unrealized tax capital gains. As of June 30, 2018, we continue to be in an overall unrealized tax gain position with respect to the U.S. Non-Life Companies' available for sale securities portfolio and thus concluded no valuation allowance is necessary in the U.S. Non-Life Companies' available for sale securities portfolio.

For the three- and six-month periods ended June 30, 2018, we recognized net increases of \$7 million and \$37 million, respectively, in our deferred tax asset valuation allowance associated with certain foreign subsidiaries and state jurisdictions, primarily attributable to current year activity.

Tax Examinations and Litigation

On August 1, 2012, we filed a motion for partial summary judgment related to the disallowance of foreign tax credits associated with cross border financing transactions in the Southern District of New York. The Southern District of New York denied our summary judgment motion and upon AIG's appeal, the U.S. Court of Appeals for the Second Circuit (the Second Circuit) affirmed the denial. AIG's petition for certiorari to the U.S. Supreme Court from the decision of the Second Circuit was denied on March 7, 2016. As a result, the case has been remanded back to the Southern District of New York for a jury trial.

In January 2018, the parties reached non-binding agreements in principle on issues presented in the dispute and are currently reviewing the computations reflecting the settlement terms. The resolution is not final and is subject to various reviews. The litigation has been stayed pending the outcome of the review process. We can provide no assurance regarding the outcome of any such litigation or whether binding compromised settlements with the parties will ultimately be reached. We currently believe that we have adequate reserves for the potential liabilities that may result from these matters.

Accounting for Uncertainty in Income Taxes

At both June 30, 2018 and December 31, 2017, our unrecognized tax benefits, excluding interest and penalties were \$4.7 billion. At June 30, 2018 and December 31, 2017, our unrecognized tax benefits related to tax positions that, if recognized, would not affect the effective tax rate because they relate to such factors as the timing, rather than the permissibility, of the deduction were \$45 million and \$28 million, respectively. Accordingly, at both June 30, 2018 and December 31, 2017, the amounts of unrecognized tax benefits that, if recognized, would favorably affect the effective tax rate were \$4.7 billion.

Interest and penalties related to unrecognized tax benefits are recognized in income tax expense. At June 30, 2018 and December 31, 2017, we had accrued liabilities of \$2.1 billion and \$2.0 billion, respectively, for the payment of interest (net of the federal benefit) and penalties. For the six-month periods ended June 30, 2018 and 2017, we accrued expense (benefit) of \$100 million and \$75 million, respectively, for the payment of interest and penalties.

We believe it is reasonably possible that our unrecognized tax benefits could decrease within the next 12 months by as much as \$3.9 billion, principally as a result of potential resolutions or settlements of prior years' tax items. The prior years' tax items include unrecognized tax benefits related to the deductibility of certain expenses and matters related to cross border financing transactions.

16. Subsequent Events**ACQUISITION OF BUSINESS**

On July 18, 2018, we completed our acquisition of Validus Holdings, Ltd. (Validus), a leading provider of reinsurance, primary insurance, and asset management services, for approximately \$5.5 billion in cash. We are completing our valuation of the assets acquired and liabilities assumed as well as the related goodwill and other intangible assets. The results of Validus following the date of the acquisition will be included in our General Insurance segment starting in the third quarter of 2018.

SALE OF NON-CONTROLLING INTEREST IN DSA RE

DSA Re was formed during the first quarter of 2018 in connection with a series of affiliated reinsurance transactions related to our Legacy Portfolio. Those reinsurance transactions were designed to consolidate most of our Legacy Insurance Run-Off Lines into a single legal entity. As of June 30, 2018, the affiliated transactions included the cession of approximately \$31 billion of reserves from our Legacy Life and Retirement Run-Off Lines and approximately \$5 billion of reserves from our Legacy General Insurance Run-Off Lines related to business written by multiple wholly-owned AIG subsidiaries.

On July 31, 2018, we entered into a membership interest purchase agreement with Fortitude Group Holdings, LLC (Fortitude), a wholly-owned subsidiary of AIG, and TC Group Cayman Investment Holdings, L.P. (TCG), an affiliate of The Carlyle Group L.P. We formed Fortitude to act as a holding company for DSA Re. Subject to the satisfaction or waiver of certain conditions in the purchase agreement, TCG will purchase a 19.9 percent ownership interest in Fortitude. Following the closing of the transaction, Fortitude will own 100 percent of the outstanding common shares of DSA Re and AIG will have an 80.1 percent ownership interest in Fortitude.

Dividends Declared

On August 2, 2018, our Board of Directors declared a cash dividend on AIG Common Stock of \$0.32 per share, payable on September 28, 2018 to shareholders of record on September 17, 2018.

TABLE OF CONTENTSITEM 2 | [Management's Discussion and Analysis of Financial Condition and Results of Operations](#)[Glossary and Acronyms of Selected Insurance Terms and References](#)

Throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A), we use certain terms and abbreviations, which are summarized in the Glossary and Acronyms.

American International Group, Inc. (AIG) has incorporated into this discussion a number of cross-references to additional information included throughout this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2017 (the 2017 Annual Report) to assist readers seeking additional information related to a particular subject.

In this Quarterly Report on Form 10-Q, unless otherwise mentioned or unless the context indicates otherwise, we use the terms "AIG," the "Company," "we," "us" and "our" to refer to American International Group, Inc., a Delaware corporation, and its consolidated subsidiaries. We use the term "AIG Parent" to refer solely to American International Group, Inc., and not to any of its consolidated subsidiaries.

[Cautionary Statement Regarding Forward-Looking Information](#)

This Quarterly Report on Form 10-Q and other publicly available documents may include, and officers and representatives of AIG may from time to time make and discuss, projections, goals, assumptions and statements that may constitute "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These projections, goals, assumptions and statements are not historical facts but instead represent only a belief regarding future events, many of which, by their nature, are inherently uncertain and outside our control. These projections, goals, assumptions and statements include statements preceded by, followed by or including words such as "will," "believe," "anticipate," "expect," "intend," "plan," "focused on achieving," "view," "target," "goal" or "estimate." These projections, goals, assumptions and statements may relate to future actions, prospective services or products, future performance or results of current and anticipated services or products, sales efforts, expenses, the outcome of contingencies such as legal proceedings, anticipated organizational, business or regulatory changes, anticipated sales, monetization and/or acquisitions of businesses or assets or successful integration of acquired businesses, management succession and retention plans, exposure to risk, trends in operations and financial results.

It is possible that our actual results and financial condition will differ, possibly materially, from the results and financial condition indicated in these projections, goals, assumptions and statements. Factors that could cause our actual results to differ, possibly materially, from those in the specific projections, goals, assumptions and statements include:

- changes in market and industry conditions;
- negative impacts on customers, business partners and other stakeholders;
- the occurrence of catastrophic events, both natural and man-made;
- disruptions in the availability of our electronic data systems or those of third parties;
- our ability to successfully manage Legacy portfolios;
- concentrations in our investment portfolios;
- actions by credit rating agencies;

- our ability to successfully reorganize our businesses, as well as improve profitability, without negatively impacting client relationships or our competitive position;
 - our ability to successfully dispose of, monetize and/or acquire businesses or assets or successfully integrate acquired businesses;
 - changes in judgments concerning insurance underwriting and insurance liabilities;
 - changes in judgments concerning potential cost saving opportunities;
 - the impact of potential information technology, cybersecurity or data security breaches, including as a result of cyber-attacks or security vulnerabilities;
 - the requirements, which may change from time to time, of the global regulatory framework to which we are subject, including as a global systemically important insurer (G-SII);
 - significant legal, regulatory or governmental proceedings;
 - changes in judgments concerning the recognition of deferred tax assets; and
 - such other factors discussed in:
 - Part I, Item 2. MD&A and Part II, Item 1A. Risk Factors of this Quarterly Report on Form 10-Q;
 - Part I, Item 2. MD&A of the Quarterly Report on Form 10-Q
- for the quarterly period ended March 31, 2018; and
- Part I, Item 1A. Risk Factors and Part II, Item 7. MD&A of the 2017 Annual Report.

We are not under any obligation (and expressly disclaim any obligation) to update or alter any projections, goals, assumptions or other statements, whether written or oral, that may be made from time to time, whether as a result of new information, future events or otherwise.

TABLE OF CONTENTSITEM 2 | **Use of Non-GAAP Measures****Use of Non-GAAP Measures**

Throughout this MD&A, we present our financial condition and results of operations in the way we believe will be most meaningful and representative of our business results. Some of the measurements we use are “non GAAP financial measures” under Securities and Exchange Commission rules and regulations. GAAP is the acronym for “generally accepted accounting principles” in the United States. The non GAAP financial measures we present may not be comparable to similarly named measures reported by other companies.

Book value per common share, excluding accumulated other comprehensive income (AOCI) and Book value per common share, excluding AOCI and deferred tax assets (DTA) (Adjusted book value per common share) are used to show the amount of our net worth on a per-share basis. We believe these measures are useful to investors because they eliminate items that can fluctuate significantly from period to period, including changes in fair value of our available for sale securities portfolio, foreign currency translation adjustments and U.S. tax attribute deferred tax assets. These measures also eliminate the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. We exclude deferred tax assets representing U.S. tax attributes related to net operating loss carryforwards and foreign tax credits as they have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As net operating loss carryforwards and foreign tax credits are utilized, the portion of the DTA utilized is included in these book value per common share metrics. Book value per common share excluding AOCI, is derived by dividing total AIG shareholders’ equity, excluding AOCI, by total common shares outstanding. Adjusted book value per common share is derived by dividing total AIG shareholders’ equity, excluding AOCI and DTA (Adjusted Shareholders’ Equity), by total common shares outstanding. The reconciliation to book value per common share, the most comparable GAAP measure, is presented in the Executive Summary section of this MD&A.

Return on equity – Adjusted after-tax income excluding AOCI and DTA (Adjusted return on equity) is used to show the rate of return on shareholders’ equity. We believe this measure is useful to investors because it eliminates items that can fluctuate significantly from period to period, including changes in fair value of our available for sale securities portfolio, foreign currency translation adjustments and U.S. tax attribute deferred tax assets. This measure also eliminates the asymmetrical impact resulting from changes in fair value of our available for sale securities portfolio wherein there is largely no offsetting impact for certain related insurance liabilities. We exclude deferred tax assets representing U.S. tax attributes related to net operating loss carryforwards and foreign tax credits as they have not yet been utilized. Amounts for interim periods are estimates based on projections of full-year attribute utilization. As net operating loss carryforwards and foreign tax credits are utilized, the portion of the DTA utilized is included in Adjusted return on equity. Adjusted return on equity is derived by dividing actual or annualized adjusted after-tax income attributable to AIG by average Adjusted Shareholders’ Equity. The reconciliation to return on equity, the most comparable GAAP measure, is presented in the Executive Summary section of this MD&A.

Adjusted after-tax income attributable to AIG is derived by excluding the tax effected adjusted pre-tax income (APTI) adjustments described below and the following tax items from net income attributable to AIG:

- deferred income tax valuation allowance releases and charges;
- changes in uncertain tax positions and other tax items related to legacy matters having no relevance to our current businesses or operating performance; and
- net tax charge related to the enactment of the Tax Cuts and Jobs Act (Tax Act).

We use the following operating performance measures because we believe they enhance the understanding of the underlying profitability of continuing operations and trends of our business segments. We believe they also allow for more meaningful comparisons with our insurance competitors. When we use these measures, reconciliations to the most comparable GAAP measure are provided on a consolidated basis in the Consolidated Results of Operations section of this MD&A.

Adjusted revenues exclude Net realized capital gains (losses), income from non-operating litigation settlements (included in Other income for GAAP purposes) and changes in fair value of securities used to hedge guaranteed living benefits (included in Net investment income for GAAP purposes). Adjusted revenues is a GAAP measure for our operating segments.
