COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee has furnished the following report on executive compensation in the fiscal year ended December 31, 2004.

EXECUTIVE COMPENSATION COMPENSATION PHILOSOPHY

The Compensation Committee is primarily responsible for MacDermid's overall executive compensation policy of compensating MacDermid's officers competitively with those of comparable companies, rewarding exceptional performance where appropriate and providing incentive for future performance through cash incentive payments and equity incentives. In the fiscal year ended December 31, 2004, MacDermid's executive compensation generally had three basic components: annual base salary, short-term cash incentive bonus and equity incentives (long term compensation).

In establishing levels of annual salary, incentive bonus and equity incentives, the Committee generally considers, in order of emphasis, the following factors: (i) MacDermid's performance, or in certain cases group performance, relative to Committee expectations, (ii) the performance and achievements of MacDermid's executives, individually, and collectively, (iii) the responsibilities of each executive, (iv) the compensation practices of peer companies, and (v) the level of cash compensation and equity incentives required to attract and hold qualified executives.

The Committee uses a comparative group of specialty chemical companies (the "Comparator Group") to serve as a factor for determining the appropriate cash and equity incentive components of the program. The companies in the Comparator Group are selected based upon their similarity to MacDermid, relative complexity, and scope. Earnings trends, return on equity and other performance measures are compared. The size and composition of the Comparator Group may change from year to year but the Comparator Group is generally the same as or similar to the Standard & Poors Specialty Chemical Index used in the Performance Equity Plan. The Comparator Group is different from the specialty chemical index used in the comparative stock performance graph.

Before considering the compensation factors discussed above, the Committee targets annual base compensation at a level which, together with incentive bonuses, would provide cash compensation to individual executives at below median market compensation levels for poor corporate or unit performance, at median market compensation levels for good performance, and above median market compensation levels for excellent performance.

Base Salary and Annual Bonus Compensation -----

Executives, other than the Chief Executive Officer, received base salaries and were eligible to receive performance based bonuses. Base salaries were set by the Committee in accordance with the above noted considerations. Primarily base salaries were determined by considering the executive's qualifications and responsibilities as well as the market based compensation practices of peer

Edgar Filing: MACDERMID INC - Form DEF 14A

companies. Executives were also eligible to receive performance bonuses based primarily upon their individual and collective performance as well as the performance of the business units each primarily affects, in comparison to goals which have been pre-established by the Committee early in the fiscal year. The financial goals established by the Committee in determining performance bonuses use the operating profit and owner earnings of the business units most affected by each executive. Thus for this fiscal year the goals established by the Committee have encouraged executives to maximize the operating profit and owner earnings generated by the business units applicable to each executive. Bonuses were paid to the executives based upon the meeting of these pre-established financial goals. Performance bonuses ranged from 0% to 79% of base salary as a function of applicable financial performance in relation to the pre-established financial goals.

Going forward for 2005, the Compensation Committee has determined that it is appropriate for the President to be paid in accordance with a plan similar to, but not the same as, the Executive Compensation Plan. Under this which is new plan, which will take effect in 2005, the President will not receive a salary. Instead, the President will be paid performance based compensation tied directly, through a predetermined formula, to the operating profit and operating profit growth of the Company.

Long Term Equity Compensation

During the fiscal year ended December 31, 2004, MacDermid's executives were eligible to receive equity incentives (Stock Options or Restricted Stock Awards) under the MacDermid Special Stock Purchase Plan (the "Special Stock Purchase Plan"), the MacDermid, Incorporated 1995 Equity Incentive Plan (the "Equity Incentive Plan"), the MacDermid Stock Option Plan dated July 6, 1998 (the "Stock Option Plan"), and the 2001 Key Executive Performance Equity Plan (the "Performance Equity Plan") (the Special Stock Purchase Plan, Equity Incentive Plan, Stock Option Plan, and the Performance Equity Plan, collectively referred to as the "Plans").

The Committee administers the Plans, and awards equity incentives to executives and other employees of MacDermid. The purpose of awarding equity incentives under the Plans is to enable MacDermid to attract, retain and motivate its employees to exert their best efforts to enhance shareholder value by giving them the ability to participate in the long-term growth of MacDermid. The Committee generally considers the same factors in establishing the amounts of equity awards for MacDermid's executive officers as those listed above. The amounts of the awards are based upon the relative position of each executive officer within MacDermid and individual performance independent of the terms and amount of awards previously granted. The Compensation Committee has a stated policy of not re-pricing options after issuance.

"Stock Option Plan" - No Options Awarded this Fiscal Year.

Stock options awarded under the Stock Option Plan are in the form of options to purchase a specified number of shares of MacDermid common stock at an exercise price which is set at a premium over the market price on the date of grant. The actual premium is set by the Compensation Committee. The period for exercising an option will begin four years after the date of grant and will end ten years after the date of grant. Vesting requirements, if any, are established by the Committee. Unless determined otherwise by the Compensation Committee, the exercise period will automatically terminate ninety (90) days after the grantee ceases to be employed by the Company on a full time basis, for any reason. During the fiscal year no options were granted under the Stock Option Plan.

Edgar Filing: MACDERMID INC - Form DEF 14A

"Special Stock Purchase Plan" - No Options Awarded this Fiscal Year.

Stock Options awarded under the Special Stock Purchase Plan are in the form of options to purchase a specified number of restricted shares of MacDermid Common Stock at an exercise price at least 66.6% of the market price of the Common Stock on the date of award. The options are generally exercisable only during the four-year period beginning on the date of award. However, at the 1996 Annual Meeting of Shareholders, the shareholders approved amendments to the Special Stock Purchase Plan which may extend the foregoing exercise period under certain conditions. The shares of Common Stock acquired upon any exercise are treated as restricted stock for a period of four years commencing on the date of exercise. Such shares may not be sold during such period (other than to MacDermid at the exercise price) and must be resold to MacDermid at the exercise price if the participant's employment with MacDermid is terminated during such period, except in the case of death, retirement, permanent disability or involuntary termination without cause. Such restrictions may, however, be waived by the Committee in its discretion from time to time. An amendment to the Special Stock Purchase Plan which would extend the exercise period for certain options is presented with this Proxy. No options were granted under the Special Stock Purchase Plan during the fiscal year.

"Equity Incentive Plan" - No Restricted Shares Awarded to Executives this Fiscal

Year.

Restricted stock awards issued under the Equity Incentive Plan generally consist of shares of MacDermid Common Stock with vesting requirements and restrictions on transfer. The restricted stock awards may not be sold or transferred for a period of time. The restricted stock is forfeited to MacDermid if the participant's employment with MacDermid is terminated during the restricted period, except in the case of death, permanent disability, involuntary termination without cause or retirement. Such restrictions may, however, be waived by the Committee in its discretion from time to time. An aggregate of 1,812 shares of restricted stock were issued to non-employee Directors during 2004 under the Equity Incentive Plan, and no restricted stock was issued to executive officers under the Equity Incentive Plan during 2004 under the Equity Incentive Plan.

"Performance Equity Plan" -183,000 Options Awarded to Named Officers this Fiscal

Year.

Options to purchase MacDermid common shares pursuant to the terms of the Performance Equity Plan are issued at fair market value at the time of the grant, adjusted annually for the first six (6) years after grant based upon the comparative performance of the S&P Specialty Chemicals Index in relation to the Company's share performance. The options generally vest at the end of a four (4) year period. The number of options which vest may be increased or decreased based upon MacDermid's cumulative owner earnings and/or earnings per share during the four year vesting period in relation to targets set by the Committee at the time of the award. The exercise period generally begins upon vesting and ends 10 years from the date of grant. During the fiscal year the Committee awarded options to purchase 100,000; 42,000; 20,000; 20,000; and 1,000 shares of MacDermid common stock to Messrs. Leever, Largan, Bolingbroke, Cordani, and Monteiro respectively, under the Performance Equity Plan.

The Committee believes that the Plans allow executive officers to participate in the enhancement of shareholder value. The Committee has also adopted a stock retention policy (the "Policy") that is designed to encourage MacDermid executives to hold the shares of common stock which arise from the exercise of options under the Plans. The Policy provides that no covered executive shall be entitled to receive additional option grants or restricted share grants unless such executive has retained at least 75% of the aggregate of all common stock that arose from the exercise of options/restricted share grants

Edgar Filing: MACDERMID INC - Form DEF 14A

previously provided to the executive after deduction for payment of applicable taxes and the exercise price. The Committee has retained discretion to waive compliance with the policy in exceptional circumstances. The Committee believes that participation in the Plans, as augmented by the Policy, encourages executives to concentrate on long-term shareholder value growth.

CHIEF EXECUTIVE OFFICER COMPENSATION

Compensation for Daniel H. Leever, MacDermid's Chairman and Chief Executive Officer, was determined in accordance with the MacDermid, Incorporated Executive Compensation Plan, the material terms of which were approved by the Company's shareholders at the 1998 Annual Meeting of Shareholders. Under the plan, no base salary is paid to Mr. Leever. The amount of performance based short-term annual compensation which was paid to Mr. Leever during the last fiscal year was based directly and solely upon the following factors: (i) earnings per share, and (ii) the two-year average of earnings per share growth. Compensation under the plan was equal to the sum of two components. The first component was determined by multiplying a base amount of \$6,615 by the number of cents per share the Company has earned for the fiscal year up to \$1.00. The second component was determined by multiplying the same base amount by the number of cents per share earned by the Company during the fiscal year above \$1.00, further multiplied by a factor of from 0 to 2.5, which factor is determined based upon the two year average of earnings per share growth. In determining earnings, the Committee uses its discretion in including or excluding one time or extraordinary gains or losses. Mr. Leever's annual performance based compensation was determined and paid in accordance with the provisions noted above.

Mr. Leever received options to purchase 100,000 shares of MacDermid common stock pursuant to the terms of the Performance Equity Plan during the last fiscal year.

The Company is subject to Internal Revenue Code Section 162(m), which could limit the deductibility of certain compensation payments to its executive officers. The Company intends to comply with the requirements of Section 162(m); however, it also weighs the burdens of such compliance against the benefits to be obtained by the Company and may pay compensation that is not fully deductible if it determines that such payments are in the Company's best interests. During this fiscal year, all compensation paid to the Company's executive officers was fully deducted by the Company.

Respectfully submitted by,

THE COMPENSATION COMMITTEE

T. Quinn Spitzer, Jr. (Chairman)
Donald G. Ogilvie
James C. Smith
Joseph M. Silvestri
Robert L. Ecklin
