AND

RULES 43, 45 AND 54

OF

THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

FOR APPROVAL OF

DOMINION MONEY POOL

Item 1. Description of Proposed Transactions.

This Application-Declaration of Dominion Resources, Inc. ("DRI"), a registered holding company under the Public Utility Holding Company Act of 1935 (the "Act"), seeks authority for the formation and operation of a money pool for itself and its nonutility subsidiaries ("Subsidiaries") excluding Consolidated Natural Gas Company ("CNG") and its subsidiaries. The Subsidiaries consist of the following companies: Dominion Energy, Inc., Elwood Energy, LLC, Dominion Reserves, Inc., Dominion Ohio ES, Inc., Dominion Resources Services, Inc., Dominion Alliance Holdings, Inc., Elwood II Holdings, LLC, Elwood III Holdings, LLC, Kincaid Generation, LLC, DT Services, Inc. and Dominion Metering Services, Inc.

On January 28, 2000, CNG was merged into a wholly-owned subsidiary of DRI. This merger ("Merger") was approved by the Securities and Exchange Commission (the "Commission") on December 15, 1999, HCAR No. 27113 (the "Merger Order"). Management of DRI and its subsidiaries have been integrating operations and financing activities of DRI and CNG subsequent to the Merger.

By orders dated June 12 and July 16, 1986 (HCAR Nos. 24128 and 24150), as amended by orders dated May 27, 1987 (HCAR No. 24399), February 14, 1990 (HCAR No. 25040), May 13, 1991 (HCAR No. 25311), April 8, 1994 (HCAR No. 26021), and July 18, 1997 (HCAR No. 26742), the Commission permitted the application-declaration of CNG and its subsidiaries to become effective, thereby authorizing the establishment of the Consolidated Natural Gas System Money Pool ("CNG Money Pool"). Consolidated Natural Gas Service Company, Inc. ("CNG

1

Services") until January 1, 2001 both administered and participated in the CNG Money Pool. The CNG Money Pool, subsequent to the merger of CNG Services into Dominion Resources Services, Inc. ("DRI Services") on January 1, 2001, is now administered by DRI Services. After satisfaction of the borrowing needs of the CNG subsidiary companies authorized to participate in the CNG Money Pool, DRI Services, as agent for the pool, invests excess funds and allocates

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form U-1/A

the earnings among those participant companies providing such excess funds.

DRI now seeks to form and operate through December 31, 2004 a DRI money pool ("DRI Money Pool") in which DRI and existing and future nonutility subsidiaries of DRI, (except CNG and subsidiaries of CNG), ("DRI Subsidiaries") would participate. The CNG Money Pool would continue to function as a vehicle for short-term financing for the CNG system as currently authorized by the Commission. Additional subsidiaries of DRI may become participants in the DRI Money Pool through post-effective amendment filings.

Participants will invest their surplus funds in the DRI Money Pool, and the DRI Subsidiaries will borrow funds from the DRI Money Pool. DRI Money Pool borrowings by the DRI Subsidiaries are exempt transactions under Rule 52 promulgated under the Act. DRI will not borrow from the DRI Money Pool, but will be the ultimate provider of funds to the DRI Money Pool as needed. DRI will obtain the funds to invest in the Money Pool (i) from internally generated funds, (ii) under Commission orders dated December 15, 1999 or May 24, 2001, HCAR Nos. 27112 and 27406, respectively, and/or (iii) any other current financing authorizations or exemptions that may be available to DRI. DRI Services will administer the Money Pool on an "at cost" basis.

The purpose of the DRI Money Pool would be similar to that of the CNG Money Pool, that is to provide the DRI Subsidiary participants with internal and external funds and to invest surplus funds of DRI and the Subsidiaries in short-term money market instruments. The DRI Money Pool will offer the DRI Subsidiaries lower short-term borrowing costs due to the elimination of banking fees, a mechanism to earn a higher return on interest from surplus funds that are loaned to other DRI Subsidiaries, and decreased reliance on external funding sources.

Proceeds of any short-term borrowings from the DRI Money Pool by the DRI Subsidiaries may be used (i) for the interim financing of construction and capital expenditure programs, (ii) for working capital needs, (iii) for the repayment or refinancing of debt, (iv) to meet unexpected contingencies, payment and timing differences and cash requirement, (v) to otherwise finance the borrower's own business, and (vi) for other lawful general purposes.

The daily interest rate on loans from the DRI Money Pool and on all deposits of cash in the money pool will equal the effective weighted average rate of interest on DRI's outstanding commercial paper and/or revolving credit borrowings. If no such DRI borrowings are outstanding on the date of any outstanding loan, then the interest rate will be the Federal Funds' effective rate of interest as quoted daily by the Federal Reserve Bank of New York. The rate to be used for weekends and holidays will be the rate on the prior business day.

Funds not required by the DRI Money Pool to make loans (with the exception of funds required to satisfy the DRI Money Pool's liquidity needs) would ordinarily be invested in one or more short-term investments including: (i) obligations issued or guaranteed by the U.S.

government and/or its agencies and instrumentalities, (ii) commercial paper, (iii) certificates of deposits, (iv) bankers' acceptances, (v) repurchase agreements, (vi) tax exempt notes, and (vii) other investments that are permitted by Section 9(c) of the Act and Rule 40.

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form U-1/A

The interest income and investment income earned on loans and investments of surplus funds would be allocated among the participants in the DRI Money Pool in accordance with the proportion each participant's contribution of funds bears to the total amount of funds in the DRI Money Pool.

Each participant receiving a loan through the DRI Money Pool would be required to repay the principal amount of the loan, together with all interest accrued thereon, on demand. Interest on outstanding loans would be paid to the DRI Money Pool monthly. All loans made through the DRI Money Pool could be repaid by the borrower without premium or penalty.

All terms and conditions governing the operations of, and the participation by DRI and the DRI Subsidiaries in, the DRI Money Pool will be contained in a written agreement. A form of this agreement is filed as Exhibit A.

DRI meets all of the conditions of Rule 53(a), except for Rule 53(a)(1), and none of the adverse conditions specified in Rule 53(b) exist. At September 30, 2001, DRI's aggregate investment, as defined in Rule 53(a)(1), in EWGs and FUCOs was approximately \$3.412 billion. This amount exceeds the 50% "safe harbor" limitation contained in the rule. DRI's consolidated retained earnings as of September 30, 2001 were \$1.213 billion. However, DRI has requested that the Commission authorize DRI to invest up to 100% of its consolidated retained earnings plus \$8 billion in EWGs and FUCOs. See Commission order dated May 24, 2001, HCAR No. 27406. The Commission in the May 24 order retained jurisdiction over \$6 billion of the amount requested. DRI's current EWG and FUCO investment should not prohibit the proposed transactions for which authority is requested herein.

DRI's consolidated capitalization as of September 30, 2001 consisted of 33.4% common equity, 6.4% preferred equity and 60.2% debt. Further, DRI's interests in EWGs and FUCOs have contributed positively to its consolidated earnings.

It is requested that Rule 24 Certificates of Notification for DRI Money Pool transactions be filed on a calendar quarterly basis as part of the quarterly Rule 24 filings reporting on other system financing transactions made by DRI under File Nos. 70-9517, 70-9555 and 70-9679. Such combined filings of financing would save the cost of separate filings and obviate the need to look in separate places for reporting on system-wide financial transactions of a similar nature.

3

Item 2. Fees, Commissions and Expenses.

The fees, commissions and expenses to be paid or incurred, directly or indirectly, in connection with seeking the authorizations herein requested are estimated to be \$30,000. This amount includes payments to be made to counsel and Dominion Resources Services, Inc.

Item 3. Applicable Statutory Provisions.

Sections 12(b) and 12(f) of the Act and Rules 43, 45 and 54 under the Act are or may be directly or indirectly applicable to the proposed transactions for which authorization is sought in this Application-Declaration.

In addition to the citations with respect to the CNG Money Pool given

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form U-1/A

above, system-wide money pools have been authorized for other registered holding company systems. See The National Grid Group plc, HCAR No. 27154 (March 15, 2000); National Fuel Gas Company, HCAR No. 26847 (March 20, 1998); and Connectiv, Inc., HCAR No. 26833 (February 26, 1998).

Item 4. Regulatory Approvals.

No other state commission and no other Federal commission has jurisdiction of the proposed transactions.

4

Item 5. Procedure.

It is respectfully requested that the Commission issue and publish as soon as possible a notice with respect to the filing of this Application-Declaration.

It is submitted that a recommended decision by a hearing or other responsible officer of the Commission is not needed for approval of the proposed transaction. The Division of Investment Management may assist in the preparation of the Commission's decision. There should be no waiting period between the issuance of the Commission's order and the date on which it is to become effective.

Item 6. Exhibits and Financial Statements

(a) Exhibits

- A Form of DRI Money Pool agreement.
- F-1 Legal opinion.
(To be filed by amendment)
- H Proposed form of Federal Register notice.

(b) Financial Statements

Financial statements are not submitted with respect to the authorizations requested herein due to the nature and immaterial effect thereof on DRI's financial statements on a consolidated basis. However, DRI will furnish any financial information that the Commission shall request.

Item 7. Information as to Environmental Effects.

The authorizations requested herein do not involve a "major federal action" nor "significantly affect the quality of the human environment" as those terms are used in Section 10(2)(C) of the National Environmental Policy Act, 42 U.S.C. Section 4321, et seq. The only federal actions pertain to the Commission's approval of this Application-Declaration seeking authorization to engage in certain financing and managerial activities under the 1935 Act. No federal agency is preparing an environmental impact statement with respect to this matter.

The applicants seek authority to form and operate through December 31, 2004 a DRI money pool ("DRI Money Pool") in which DRI and the DRI Subsidiaries would participate. A CNG Money Pool would continue to function as a vehicle for short-term financing for the CNG system as currently authorized by the Commission.

Participants will invest their surplus funds in the DRI Money Pool, and the DRI Subsidiaries will borrow funds from the DRI Money Pool. DRI will not borrow from the DRI Money Pool, but will be the ultimate provider of funds to the DRI Money Pool as needed. Dominion Resources Services, Inc. will administer the Money Pool on an "at cost" basis.

13

The purpose of the DRI Money Pool would be similar to that of the CNG Money Pool, that is to provide the DRI Subsidiaries with internal and external funds and to invest surplus funds of DRI and the DRI Subsidiaries in short-term money market instruments. The DRI Money Pool will offer the DRI Subsidiaries lower short-term borrowing costs due to the elimination of banking fees, a mechanism to earn a higher return on interest from surplus funds that are loaned to other DRI Subsidiaries, and decreased reliance on external funding sources.

Funds not required by the DRI Money Pool to make loans (with the exception of funds required to satisfy the DRI Money Pool's liquidity needs) would ordinarily be invested in one or more short-term investments including: (i) obligations issued or guaranteed by the U.S. government and/or its agencies and instrumentalities, (ii) commercial paper, (iii) certificates of deposits, (iv) bankers' acceptances, (v) repurchase agreements, (vi) tax exempt notes, and (vii) other investments that are permitted by Section 9(c) of the Act and Rule 40.

The daily interest rate on loans from the DRI Money Pool and on all deposits of cash in the money pool will equal the effective weighted average rate of interest on DRI's outstanding commercial paper and/or revolving credit borrowings. If no such DRI borrowings are outstanding on the date of any outstanding loan, then the interest rate will be the Federal Funds's effective rate of interest as quoted daily by the Federal Reserve Bank of New York. The rate to be used for weekends and holidays will be the rate on the prior business day.

The interest income and investment income earned on loans and investments of surplus funds would be allocated among the participants in the DRI Money Pool in accordance with the proportion each participant's contribution of funds bears to the total amount of funds in the DRI Money Pool.

Each participant receiving a loan through the DRI Money Pool would be required to repay the principal amount of the loan, together with all interest accrued thereon, on demand. Interest on outstanding loans would be paid to the DRI Money Pool monthly. All loans made through the DRI Money Pool could be repaid by the borrower without premium or penalty.

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form U-1/A

All terms and conditions governing the operations of, and the participation by DRI and the DRI Subsidiaries in, the DRI Money Pool will be contained in a written agreement.
