PROXY STATEMENT

WHO IS ENTITLED TO VOTE AT THE ANNUAL MEETING?

Shareholders who own common shares as of March 7, 2002 may vote at the meeting. There were 25,502,070 shares of common stock outstanding on that date. Each share has one vote except for the election of directors.

WHEN ARE THE ENCLOSED SOLICITATION MATERIALS FIRST GIVEN TO SHAREHOLDERS?

The Notice of Annual Meeting was first sent to shareholders on Friday, March 15, 2002. The enclosed annual report and proxy voting form, together with this Notice of Annual Meeting and Proxy Statement, were sent, or given, to shareholders on Friday, March 29, 2002.

WHAT IS A QUORUM OF SHAREHOLDERS, AND HOW MANY VOTES DOES IT TAKE TO ELECT DIRECTORS AND PASS THE PROPOSAL TO AMEND THE COMPANY'S ARTICLES OF INCORPORATION?

A quorum is the presence at the Annual Meeting in person or by proxy of shareholders entitled to cast a majority of all the votes entitled to be cast. Since there were 25,502,070 shares of common stock outstanding on March 7, 2002, a quorum is 12,751,036. Broker non-votes, abstentions and withhold-authority votes COUNT for purposes of determining a quorum. We must have a quorum to conduct the meeting. If a quorum of shareholders is present at the meeting, we need a plurality of all the votes cast to elect each director and a simple majority of all votes cast to pass the Preferred Stock proposal. Broker non-votes, abstentions and withhold-authority votes DO NOT COUNT as votes cast.

HOW DO I VOTE?

You must be present, or represented by proxy, at the Annual Meeting in order to vote your shares. Since many of our shareholders are unable to attend

Edgar Filing: SOUTHWESTERN ENERGY CO - Form PRE 14C

the meeting in person, we send proxy cards to all of our shareholders.

IF MY SHARES ARE HELD IN "STREET NAME" BY MY BROKER, WILL MY BROKER VOTE FOR ME?

If you do not return your proxy card, your broker has discretion to vote for the election of directors. Your broker does not, however, have discretion to vote for the proposal to authorize Preferred Stock.

Preliminary Proxy - CONFIDENTIAL

WHAT IS A PROXY?

A proxy is a person you appoint to vote on your behalf. When you vote, you will be designating Kenneth R. Mourton and Charles E. Scharlau as your proxies. We solicit proxies so that all common shares may be voted at the Annual Meeting. You must complete and return the enclosed proxy card.

HOW WILL MY PROXY VOTE MY SHARES?

Your proxies will vote according to the instructions on your proxy card. If you complete and return your proxy card but do not indicate your vote on the matters, your proxies will vote "FOR" the six directors and "FOR" the proposal to authorize Preferred Stock. Also your proxy card will give your proxies authority to vote, using their best judgment, on any other business that properly comes before the meeting.

HOW DO I VOTE USING MY PROXY CARD?

There are three steps.

1. a. Proposal No. 1

The names of six directors to serve for the next year are listed on your proxy card.

To vote for all six directors, you check the box marked "FOR." To withhold your vote from all six directors, (not vote for or against the directors) mark the box "WITHHELD."

To vote for some of the directors and not others, mark the "FOR" box, and write in the name(s) of the director(s) you wish to withhold your vote from on the line provided. To exercise cumulative voting (the number of shares owned multiplied by the number of directors to be elected) mark the "FOR" box and write in how many votes you wish to cast for each director on the line provided.

b. Proposal No. 2

The proposal to amend the Company's Amended and Restated Articles of Incorporation to provide for authorization of up to 10,000,000 shares of Preferred Stock is listed on your proxy card.

To vote for the proposal, you check the box marked "FOR". If you are opposed to the proposal, check the box "AGAINST". If you are unsure how to vote, check the box marked "ABSTAIN".

2

Preliminary Proxy - CONFIDENTIAL

2. Sign and date your proxy card. IF YOU DO NOT SIGN AND DATE YOUR PROXY CARD, YOUR VOTES CANNOT BE COUNTED. EACH PROPERLY EXECUTED PROXY WILL

Edgar Filing: SOUTHWESTERN ENERGY CO - Form PRE 14C

BE VOTED IN THE MANNER DIRECTED. IF NO DIRECTION IS MADE, EACH SUCH PROXY WILL BE VOTED "FOR" THE ELECTION OF DIRECTORS AND "FOR" THE PROPOSAL TO AUTHORIZE PREFERRED STOCK.

3. Mail your proxy card in the pre-addressed, postage-paid envelope.

CAN I VOTE BY PROXY EVEN IF I PLAN TO ATTEND THE ANNUAL MEETING?

Yes. If you vote by proxy, you do not need to fill out a ballot at the Annual Meeting unless you want to change your vote.

WHO IS SOLICITING MY PROXY, HOW IS IT BEING SOLICITED, AND WHO PAYS THE COSTS?

Southwestern Energy Company, on behalf of the Board of Directors, through its directors, officers and employees, is soliciting proxies primarily by mail. However, proxies may also be solicited in person, by telephone or facsimile. Morrow & Co., Inc., a proxy solicitation firm, will be assisting us for a fee of approximately \$15,000 plus out-of-pocket expenses. Southwestern Energy Company pays the cost of soliciting proxies.

COMPENSATION COMMITTEE REPORT

Compensation Philosophy

In determining the compensation of the Chief Executive Officer (the "CEO") and the other executive officers of the Company and its subsidiaries, the Compensation Committee makes recommendations to the Board of Directors, and final compensation decisions are made by the full Board. The Compensation Committee believes that compensation should:

- relate to the value created for shareholders by being directly tied to the financial performance and condition of the Company and the particular executive officer's contribution thereto;
- reward individuals who help the Company achieve its short-term and long-term objectives and thereby contribute significantly to the success of the Company;
- help to attract and retain the most qualified individuals in the natural gas and oil and gas producing industries by being competitive with compensation paid to persons having similar responsibilities and duties in other companies in the same and closely related industries; and

9

Preliminary Proxy - CONFIDENTIAL

- reflect the qualifications, skills, experience, and responsibilities of the particular executive officer.

In determining executive compensation, the Company uses peer group comparisons for each of the three components of compensation described below (i.e., base salary, incentive compensation plan (bonus) and stock incentive plan). The industry group indices shown in the performance chart reported in this Proxy Statement include a number of the companies that are used for compensation analysis. Compensation packages are targeted to the median of the range of compensation paid by comparable companies. Executive compensation paid by the Company during 2001 generally corresponded to the 50th to 75th percentile of compensation paid by comparable companies. The Compensation Committee also takes into account the Company's financial and operating performance as compared with the industry mean and the individual performance of the Company's executives as compared to the Compensation Committee's expectations of performance for top level executives in general. The Compensation Committee also seeks the advice of outside compensation consultants on its compensation policies and receives evaluations from the appropriate level of management concerning the performance of executives within their range of reporting responsibilities.

Changes made to the Internal Revenue Code in 1993 could potentially limit the ability of the Company to deduct, for federal income tax purposes, certain compensation in excess of \$1,000,000 per year paid to individuals named in the summary compensation table. The Company believes that some of the compensation paid to the CEO exceeded the \$1,000,000 limit during 2001. The Company is currently reviewing ways to maximize the deductibility of compensation payments without compromising the Company's or the Compensation Committee's flexibility in designing effective compensation plans that can meet the Company's objectives

Edgar Filing: SOUTHWESTERN ENERGY CO - Form PRE 14C

and respond quickly to marketplace needs. Although the Compensation Committee will from time to time review the advisability of making changes in compensation plans to reflect changes in government-mandated policies, it will not do so unless it feels that such changes are in the best interest of the Company and/or its shareholders.

Components of Compensation

Base Salary. In establishing the base salaries of the CEO and the other executive officers, the Compensation Committee examines competitive peer group surveys and data in order to determine whether the total compensation package is competitive with compensation offered by other companies in the natural gas and oil and gas producing industries which are similar in terms of the complexity of their operations and which offer the most direct competition for competent executives. In addition, the Compensation Committee considers the particular executive's performance, responsibilities, qualifications, and experience in the oil and gas industry and the diverse skills required to expand the exploration and production segment of its operations while maintaining satisfactory performance in the highly regulated gas distribution segment.

The Compensation Committee recognizes that changes in base salary affect other elements of compensation including: (i) awards under the Company's Incentive Compensation Plan, (ii)

10

Preliminary Proxy - CONFIDENTIAL

pension benefits, (iii) Company matching portions of 401(k) and Nonqualified Plan contributions, and (iv) life insurance and disability benefits. As such, adjustments to base salary are only made after consideration of the impact to the executive's entire package.

Incentive Compensation Plan. The Company maintains an Incentive Compensation Plan (the "Incentive Plan") applicable to executives with responsibility for the Company's major business segments. The Incentive Plan is designed to help the Company attract and retain qualified employees, to further link the financial interest and objectives of employees with those of the Company and to foster accountability and teamwork throughout the Company. As such, the Incentive Plan is designed to encourage and reward the achievement of (1) cash flow targets, (2) a defined reserve replacement ratio, (3) target returns on capital investment, (4) a favorable return on equity as compared to the Company's peer group, (5) goals for production, reserve addition, and return on capital invested in the exploration and production group, (6) an adequate financial return in its utility segment while maximizing utility throughput, and (7) gas marketing margins. These criteria are deemed by the Compensation Committee to be critical to increasing shareholder value, and the applicability of each of these criteria in determining awards to any particular executive depends on the responsibilities of that executive.

Each participant in the Incentive Plan is assigned target, minimum, and maximum total award levels expressed as a percentage of their base salary. A portion of each award under the Incentive Plan for the CEO and executive officers is an organizational performance award based upon the achievement of the individual corporate financial objectives specified for the executive. If the actual level achieved for a specified corporate performance measure is not at least equal to the predetermined minimum level, then the proportionate award represented by the performance measure will not be paid. An additional portion is discretionary based on a subjective evaluation of the executive's individual performance by the Compensation Committee. Awards under the Incentive Plan are payable in cash, restricted common stock of the Company, or a combination of cash and restricted common stock.

Edgar Filing: SOUTHWESTERN ENERGY CO - Form PRE 14C

In 2001, the organizational performance awards which could be paid based on attainment of the corporate performance measures specified for each of the executives ranged from 18.75% to 60% of base salary at target, 9.4% to 35% of base salary at minimum, and 30% to 105% of base salary at maximum. When the organizational performance award is added to the discretionary awards, which are based upon the executive's individual performance, the combined award could achieve a total bonus ranging from 31.25% to 100% of base salary at target.

For 2001, awards under the Incentive Plan for the CEO and certain of the named executive officers were set to be determined by the following performance thresholds as compared to predetermined criteria established by the Compensation Committee: (1) cash flow per share, (2) reserve replacement ratio, (3) return on capital investment, and (4) return on equity. Because these factors were weighted equally, a proportionate award is earned for each identified factor where performance reaches the pre-established levels. In 2001, the cash flow per share, reserve replacement, return on capital investment and return on equity performance levels were surpassed. The Compensation Committee based the discretionary awards for these executives on a subjective

11

Preliminary Proxy - CONFIDENTIAL

evaluation of the executive's performance. Discretionary awards may be influenced by the performance of individual business segments, but are primarily intended to provide an incentive to recognize exceptional performance by an individual.

Stock Incentive Plan. The CEO and other executive officers are also eligible to participate in the Company's 2000 Stock Incentive Plan (the "Stock Plan"). The Stock Plan is designed to attract and retain key employees by enabling them to acquire a proprietary interest in the Company and by tying rewards to shareholder interests. The Stock Plan provides for the granting of restricted stock, phantom stock, or options to purchase common stock of the Company and stock appreciation rights in such amounts as determined by the Compensation Committee on a discretionary basis. Grants relating to 2001 performance were made at a price equal to the "Fair Market Value" (as defined in the Stock Plan) of the Company's common stock on the date of the grant. The Stock Plan allows for the granting of cash bonuses in connection with awards of restricted stock and stock bonuses when a participant is required to recognize income for federal or state income tax purposes with respect to such awards. The number of shares of the \$.10 par value common stock of the Company which may be issued under the Stock Plan cannot exceed 1,250,000, subject to adjustment in the event of any change in the outstanding common stock of the Company by reason of any stock split, stock dividend, recapitalization, reclassification, merger, consolidation, combination, or exchange of shares, or any other similar event. The 2000 Stock Incentive Plan replaced the 1993 Stock Plan.

In determining the options granted to key employees under the Stock Plan, the Compensation Committee considers a number of factors in addition to considering the goals of attracting and retaining such employees and tying their rewards to shareholder interests. The number of options and restricted shares awarded in fiscal 2001 were based partially upon an analysis of the value of long-term incentive plan awards made by the Company's competitive peer group. The Compensation Committee also evaluated the performance of the Company, the performance and responsibility of the particular employee, and the desirability of providing a particular employee with an adequate incentive to stay with the Company.

Mr. Korell's base salary was \$433,000 for 2001, and has remained at \$433,000 for 2002. Mr. Korell had a targeted annual bonus award of 100% of base salary, with minimum and maximum awards of 30% and 140%, respectively, depending upon the achievement of corporate performance measures. Of these awards, a

Edgar Filing: SOUTHWESTERN ENERGY CO - Form PRE 14C

portion is an organizational performance award based upon the achievement of the corporate financial objectives as described under the subheading, "Incentive Compensation Plan" above, and a portion is discretionary based on a subjective evaluation of Mr. Korell's performance by the Compensation Committee and the Board of Directors and may be influenced by the performance of individual business segments. The Company's attainment of the performance measures in 2001, plus the discretionary component resulted in Mr. Korell being awarded a bonus of \$536,000, or 124% of his base salary.

12

Preliminary Proxy - CONFIDENTIAL

In addition to the factors described above, in determining the salary and other forms of compensation for Mr. Korell, the Compensation Committee took into consideration Mr. Korell's substantial experience and standing in the industry.

PROPOSAL NO. 2

PROPOSAL TO AMEND THE COMPANY'S AMENDED AND RESTATED
ARTICLES OF INCORPORATION TO PROVIDE FOR AUTHORITY
TO ISSUE PREFERRED STOCK

The Board of Directors ("Board") recommends that the shareholders approve an amendment to the Amended and Restated Articles of Incorporation of the Company ("Articles") authorizing a new class of capital stock as preferred stock, with \$.01 par value ("Preferred Stock"). The proposed amendment to the Articles gives the Board the authority to issue up to 10,000,000 shares of Preferred Stock in such series and in such amounts as the Board may, from time to time, determine. Under the Company's current Articles, the Company does not have any shares of capital stock designated as Preferred Stock.

19

Preliminary Proxy - CONFIDENTIAL

If the proposed amendment is approved by the shareholders, the Board will have the authority to issue one or more series of Preferred Stock to those persons and for such consideration as it may determine in its discretion, without further action by the shareholders, except such shareholder action as may be required by law or contractual arrangements. The proposed amendment, if adopted, will also provide significant flexibility to the Board in structuring the terms of Preferred Stock that may be issued by the Company.

The Board will have the right to establish, for each series of Preferred Stock issued from time to time, the series' designation and number of shares; dividend rights and rates; voting, conversion and redemption rights, if any; liquidation rights; powers, preferences and relative, participating, optional or other special rights, if any; and any qualifications, limitations or restrictions on those rights. The Company will amend its Articles to add the 10,000,000 shares of Preferred Stock to the Company's total authorized capital stock. The shares of Preferred Stock may be issued with conversion rights which could adversely affect the voting power of holders of common stock. The text of the proposed amendment is attached as Appendix A to this Proxy Statement.

The Company currently has no plans to issue any shares of the Preferred Stock nor does the Company have any commitments, arrangements, understandings or agreements which would require the issuance of shares of the Preferred Stock contemplated by the amendment. The Company believes that the availability of Preferred Stock will provide the Company with increased flexibility in connection with future financing and similar corporate transactions. Because, except as discussed below, the Preferred Stock may be issued without further action by shareholders, the Company will be able to respond quickly to corporate opportunities and changing market conditions. If shareholder approval were required before a series of Preferred Stock could be issued, a delay of several months would be likely. Changes in market conditions during this time could result in terms proposed to and approved by shareholders that, when the process ends, are no longer acceptable to investors. Additionally, obtaining shareholder approval involves significant expense, which will be saved if the Preferred Stock is pre-authorized. If the proposed amendment is approved, shares of Preferred Stock could be issued by action of the Board at any time and for any purpose, subject to the Articles and other applicable requirements without further approval or action by shareholders.

Edgar Filing: SOUTHWESTERN ENERGY CO - Form PRE 14C

The amendment to the Articles does not, by itself, change any of the current rights of holders of the Company's common stock. However, any Preferred Stock which ultimately is issued would have preference over the common stock upon liquidation and in the payment of dividends and could have special voting rights (for instance, in the event required dividends are not paid) and other rights that take precedence over those of the common stock. Accordingly, the issuance of Preferred Stock could decrease the amount of earnings and assets allocable or available for distribution to holders of the Company's common stock and adversely affect other rights and preferences, including voting rights, of the common stock.

20

Preliminary Proxy - CONFIDENTIAL Possible Anti-Takeover Effect of Proposal

The Board does not believe that the establishment of the class of Preferred Stock will have a significant impact on any attempt to gain control of the Company. It is possible, however, that the availability of authorized but unissued shares of Preferred Stock could discourage third parties from attempting to gain such control since the Board could authorize the issuance of shares of Preferred Stock with conversion rights in a private placement or otherwise to one or more persons. Such an issuance of shares could dilute the voting power of a person attempting to acquire control of the Company, increase the cost of acquiring such control or otherwise hinder such efforts.

Adoption of Amendment by Shareholders

The affirmative vote of a majority of the shares of common stock of the Company in attendance or represented at the meeting is required for adoption of the proposed amendment to the Articles authorizing the Preferred Stock.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE ADOPTION OF THE PROPOSED AMENDMENT TO THE ARTICLES AUTHORIZING THE PREFERRED STOCK.

AGREEMENTS CONCERNING EMPLOYMENT AND CHANGES IN CONTROL

Effective February 17, 1999, the Company entered into amended Severance Agreements with Messrs. Korell and Kerley that replaced substantially similar severance agreements which were currently in place. The Company entered into Severance Agreements with Messrs. Lane and Charles Stevens on January 15, 2001 and February 17, 1999, respectively. The Severance Agreements provide that if, within three years, after a "change in control" of the Company, the officer's employment is terminated by the Company without cause, Messrs. Korell, Kerley and Lane are entitled to a payment equal to the product of 2.99 and the officer's "base amount," while Mr. Stevens is entitled to a payment equal to the product of 2.0 times his "base amount." "Base amount" is defined as base salary as of the executive's termination date plus the maximum bonus opportunity available to the executive under the Incentive Compensation Plan. In addition, the officer will be entitled to continued participation in certain insurance plans and fringe benefits from the date of the termination of employment until the earliest of (a) the expiration of three years, (b) death, or (c) the date he is afforded a comparable benefit at comparable cost by a subsequent employer.

The named executives are also entitled to the severance benefits described above if within three years after a "change in control" they voluntarily terminate employment with the Company for "good reason."

21

Preliminary Proxy - CONFIDENTIAL

Edgar Filing: SOUTHWESTERN ENERGY CO - Form PRE 14C

For purposes of the severance agreements, a "change in control" includes (i) the acquisition by any person (other than, in certain cases, an employee of the Company) of 15% or more of the Company's voting securities, (ii) approval by the Company's shareholders of an agreement to merge or consolidate the Company with another corporation (other than certain corporations controlled by or under common control with the Company), (iii) certain changes in the composition of the Board of Directors of the Company, (iv) any change in control which would be required to be reported to the shareholders of the Company in a proxy statement and (v) a determination by a majority of the Board of Directors that there has been a "change in control" or that there will be a "change in control" upon the occurrence of certain specified events and such events occur. "Good reason" includes (i) a reduction in the employee's employment status or responsibilities, (ii) a reduction in the employee's base salary, (iii) a change in the employee's principal work location, and (iv) certain adverse changes in the Company's incentive or other benefit plans.

Effective March 1, 2001, the Company entered into an agreement with Mr. Alan Stevens regarding his part-time employment. Under the agreement, Mr. Stevens is paid an annual salary of \$77,500, he remains a participant in the Company's Incentive Compensation Plan, and his options and restricted stock continue to vest pursuant to the existing agreements. Mr. Stevens' agreement is currently set to expire on December 31, 2002. Mr. Stevens also has a severance agreement which provides for compensation at two times his annual salary should his employment be terminated by the Company without cause after a "change in control."

The Company's 2000 Stock Incentive Plan and 1993 Stock Incentive Plan provide that all outstanding stock options and all limited, tandem, and stand-alone stock appreciation rights become exercisable immediately upon a "change in control." The Stock Plans also provide that all shares of restricted and phantom stock which have not previously vested or been cancelled or forfeited shall vest immediately upon a "change in control." For purposes of the Stock Plan, a "change in control" has the same meaning contained in the Company's Severance Agreements as defined above.

The Company's Incentive Compensation Plan adopted in 1993 provides that all restrictions on shares of restricted stock granted pursuant to the Incentive Plan shall lapse upon a "change in control," as defined in the Company's Severance Agreements. This plan also provides that upon a participant's termination of employment under certain conditions on or after a "change in control" all determined but unpaid Incentive Awards shall be paid immediately, and any undetermined awards shall be determined and paid based on projected performance factors calculated in accordance with the plan.

PENSION PLANS

Prior to January 1, 1998, the Company maintained a traditional defined benefit plan (the "Pension Plan") with benefits payable based upon average final compensation and years of service. Effective January 1, 1998, the Company amended its Pension Plan to become a "cash

22

Preliminary Proxy - CONFIDENTIAL

balance" plan on a prospective basis for its non-bargaining employees. A cash balance plan provides benefits based upon a fixed percentage of an employee's annual compensation.

Employees who were participants in the Pension Plan as of January 1, 1998 are entitled to annual benefits payable upon retirement based upon current remuneration and years of service through December 31, 1997 as follows:

(1) The Internal Revenue Code (the "Code") limits both the amount of compensation that may be used for purposes of calculating a participant's Pension Plan benefit and the maximum annual benefit payable to a participant under the Pension Plan. For the 2001 plan year, (i) a participant's compensation in excess of \$170,000 is disregarded for purposes of determining average compensation and (ii) the maximum annual Pension Plan benefit permitted under the Code is \$140,000. The numbers presented in the table disregard these limitations because the Company's Supplemental Retirement Plan ("SERP"), discussed below, provides participants with a supplemental retirement benefit to compensate them for the limitation on benefits imposed by the Code.

The Company's Pension Plan provides for defined benefits to eligible officers and employees in the event of retirement at a specified age based on number of years of service through

December 31, 1997 and average monthly compensation during the five years of highest pay in the last ten years before terminating.

Under the cash balance provisions of the Pension Plan, which became effective January 1, 1998, each participant has a hypothetical account, for recordkeeping purposes only, to which credits are allocated annually based upon a percentage of the participant's remuneration. The applicable percentage is equal to 6% plus an additional percentage for participants in the Pension Plan as of January 1, 1998. The additional percentage is based upon a participant's age, and is designed to approximate any lost benefits due to the change to a cash balance plan. The additional percentage is equal to 6.3% for Mr. Korell, 3.7% for Mr. Kerley, and 4.3% for Mr. Charles Stevens.

All balances in the cash balance account also earn a fixed rate of interest which is credited annually. The interest rate for a particular year is the annual rate of interest of the 30-year treasury securities for November of the prior year. Interest is credited as long as the participant's balance remains in the Pension Plan.

At retirement or termination of employment, the vested amount credited to a participant is payable to the participant in the form of a lump sum or in lifetime monthly payments. The estimated annual benefit payable upon retirement related to the cash balance provisions of the Pension Plan and SERP at December 31, 2001, is \$78,227 for Mr. Korell, \$108,458 for Mr. Kerley, \$59,648 for Mr. Lane, \$34,080 for Mr. Charles Stevens, and \$16,118 for Mr. Alan Stevens. These projections are based on the following assumptions; (1) participant remains employed until age 65; (2) the 2001 remuneration remains constant; and (3) interest credit of 6.00% for all years.

On May 31, 1989, the Company adopted a Supplemental Retirement Plan which provides benefits equal to the amount which would be payable under the Pension Plan in the absence of certain limitations of the Code, less the amount actually paid under the Pension Plan. In the event of a "change in control" as defined under "Agreements Concerning Employment and Changes in Control," the benefits of a participant then employed by the Company would be determined as if the participant had credit for three additional years of service.

The remuneration covered by the Pension Plan includes wages and salaries but excludes Incentive Awards, bonuses, and fees. The benefit amounts listed above are not subject to any deductions for Social Security benefits or other offset amounts.
