About the Board of Directors and Its Committees

As of the date of this Proxy Statement, First National Lincoln Corporation had a Board comprised of ten directors. During 2004 there were 12 regular Board meetings, three special Board meetings and one Annual Meeting. All directors attended at least 75% of Board meetings and meetings held by Committees of which they were members in 2004, and the aggregate attendance at Board and Committee meetings by all members of the Board of Directors in 2004 was in excess of 90%. All Directors are expected to attend the Annual Meeting of Shareholders, and all Directors were in attendance at the 2004 Annual Meeting.

There are four standing committees of the Company's Board of Directors: Audit, Options, Nominating and Compensation.

Audit Committee. The members of the Company's Audit Committee are David B. Soule, Jr., Chairman, Randy A. Nelson and Mark N. Rosborough. This committee met five times during 2004. The Company's Audit Committee receives and reviews reports on examinations and accounting audits of the Company, and works to ensure the adequacy of operating practices, procedures and controls. The Company's Board of Directors has adopted a written charter for the Company's Audit Committee, which was published in the Company's 2004 Annual Proxy Statement. The 2004 report of the Audit Committee can be found on page 21 of this document.

Options Committee. The members of the Company's Options Committee are Stuart G. Smith-Chair, Carl S. Poole, Jr., Mark N. Rosborough and Bruce B. Tindal. This committee did not meet during 2004. The Company's Options Committee is responsible for administering the 1995 Stock Option Plan which provides for grants of incentive stock options to purchase Company common stock.

Nominating Committee. The members of the Company's Nominating Committee are Stuart G. Smith-Chair, Carl S. Poole, Jr. and Mark N. Rosborough. This committee met once during 2004. The Company's Nominating Committee is responsible for the nomination of Board of Director members, establishing the tenure and the retirement policies for members of the Board of Directors and reviewing the Board of Directors' overall effectiveness. Each of the members of the Nominating Committee is independent as defined under the listing standards of the Nasdaq stock market.

Compensation Committee. The Company's Compensation Committee is a standing committee of the Bank's Board of Directors since all executive compensation is paid by the Bank. The Committee consists of Stuart G. Smith-Chair, Carl S. Poole, Jr., Mark N. Rosborough and Bruce B. Tindal. This committee met twice during 2004. None of the members of this committee served on a similar committee for any other company. The function of this committee is to establish the compensation of the Chief Executive Officer and to review the compensation of other senior executive officers.

In addition to the Compensation Committee, there are five other standing committees of the Bank's Board of Directors: Executive, Audit, Asset/Liability, Trust and Directors' Loan. Certain members of management also serve on some committees of the Bank.

Director Independence

The Board reviewed the independence of the Company's directors in February 2005 on the basis of the standards adopted by the Nasdaq. In this review, the Board considered transactions and relationships between each director, and any member of his or her immediate family and of the Company or the Bank and between certain entities in which any director or any immediate family member has certain interests, on the one hand, and the Company or the Bank, on the other hand. The purpose of this review was to determine which of such transactions or relationships were inconsistent with a determination that the director is independent under the Nasdaq rules.

As a result of the review, the Board affirmatively determined that as of February 2005 all of the directors are independent of the Company, the Bank and under the Nasdaq rules with the exception of President Daigneault, EVP McKim and Chairman Gregory. During 2004, however, it was the determination of the Board that Chairman Gregory was independent of the Company under the Nasdaq rules.

Director Compensation

In 2004, each of the outside directors of the Bank, with the exception of the Chairman of the Board, received a director's fee in the amount of \$600 for each meeting attended and \$300 for each meeting attended of a committee of which the director is a member. The Chairman of the Board received an annual fee of \$25,000. The Chairman of the Executive Committee as well as the Chairman of the Audit Committee also received a stipend of \$6,000 in addition to meeting fees paid for meetings attended. In addition to the above referenced fees, each of the outside directors was reimbursed for 85% of the cost of his or her health insurance premiums. This reimbursement amount is equivalent to the average rate provided to employees of the Company. Certain Board members were also paid fees for appraisals, consulting services and legal services, and such fees are on terms no more favorable to the recipient than are generally paid by the Bank for such services to other providers in the area. Fees and health insurance premiums paid by the Bank to its Directors as a group totaled \$186,455 in 2004, but no fees are paid to Directors of the Company. President Daigneault and EVP. McKim, who are the only directors who are also employees of the Company, receive no additional compensation for serving on the Board of Directors of the Company or the Bank.

Report of Compensation Committee on Executive Compensation

The Compensation Committee consists of four independent members of the Board of Directors. This Committee has the responsibility for conducting the annual performance evaluation of the Chief Executive Officer. The Committee is also responsible for determining the compensation of the Chief Executive Officer and approving the compensation of the other senior executive officers of the Company and Bank.

The Company is committed to providing competitive compensation packages to attract and retain quality high performance executives who can and do make major contributions to the Company's overall success. The compensation package generally includes base salary, cash bonuses, stock option grants and other benefits which the Committee may deem appropriate to remain competitive and reward an executive officer for high performance.

Base salaries:

The amount of base compensation potentially payable to the Chief Executive Officer and other senior executive officers is determined by reviewing independent salary surveys of compensation of executives for similar financial institutions located primarily in the New England region. Base salaries are targeted at market levels taking into consideration the executive's level of responsibility, experience, knowledge, leadership and attainment of performance goals and objectives.

Annual Performance Compensation:

In 1994, the Company instituted a formal performance-based compensation program called Stakeholder Performance Compensation for Stakeholders. The objective of the program is to align the performance of all employees with the Company's short term and long term objectives. In 2004, total cash payout under this Stakeholder Performance Compensation program was 19.00% of the participating employees' base salaries paid to all eligible employees.

The performance compensation program's overall objective is to maximize the long-term viability of the Company and increase shareholder value. It addresses this by tying the performance payout to multiple goals which include profitability, growth, productivity and loan quality. The guiding principle is to reach a balance of profitability, growth, productivity and loan quality which should collectively have a positive impact on maximizing long-term shareholder value. The Committee believes that this performance based program provides a reward for high levels of current performance without sacrificing the achievement of long-term goals. Each year specific key performance indicators are chosen along with company wide financial performance trigger levels. In 2004 some of the indicators were: loan volume, deposit volume, nonperforming loan levels, past due loan percentages, non-interest income, Investment Division revenues, net interest income and the efficiency ratio. Since its introduction in 1994, in the opinion of Management, the Board and this Committee, the program has been successful in meeting its objectives as measured by the Company's exceptional performance over the last ten years.

In addition to this Stakeholder bonus program, the Committee, with the approval of the Board of Directors, may also establish a discretionary bonus fund. The CEO working in conjunction with the Compensation Committee may grant additional cash bonuses to selected executive officers and employees in recognition of their outstanding performance during the year. The Chief Executive Officer is excluded for eligibility under this particular discretionary bonus fund. The Compensation Committee may from time to time grant the Chief Executive Officer a cash bonus in addition to the formal Stakeholder Performance Compensation program based upon the CEO surpassing previously established performance goals or work accomplishments above and beyond the stakeholder program.

Compensation of Chief Executive Officer

As previously noted, the amount of base salary potentially payable to the Chief Executive Officer is determined by reviewing independent salary surveys of CEOs of similar financial institutions located primarily in New England. The Committee takes into consideration the actual salaries paid to CEOs of these banks in relationship to the performance of the Company in comparison to the selected peer group.

The Chief Executive Officer and the Board of Directors at the beginning of each year agree to a set of performance objectives for the Bank as a whole and the CEO individually. Throughout the year the attainment of the performance objectives is carefully monitored and evaluated and all employees are well aware of how the Bank is performing and whether the goals are being met. These performance objectives are a combination of Company financial targets such as attainment of certain profitability levels, return on equity, and increases in earnings per share. In addition, goals are set for asset growth as well as loan quality targets. Goals are also set for non-financial performance items such as implementation of strategic plan initiatives and compliance with regulatory matters.

For the year ended December 31, 2004, the Company posted outstanding performance results with a 14.6% increase in net income and a return on average equity of 17.10%. In addition to these strong earning results the Chief Executive Officer also did an excellent job at meeting all of his other performance objectives. In 2003, the Company posted comparable performance results with a 14.1% increase in net income and a return on average equity of 16.39%.

In 2004 the independent directors of the Board also hired an outside consultant to review the compensation package of the CEO. The consultant provided the independent directors a comprehensive report addressing all aspects of the compensation package for the CEO. Based on the review of the information provided by the independent consultant as well as the review of base salaries of CEOs of peer group companies and taking into consideration the record performance of the Company, the Chief Executive Officer's base salary for 2004 was set at \$275,000

Under the Performance Compensation program for all employees the Chief Executive Officer also earned the same Stakeholder bonus of 19.00% paid to all employees which calculated on his base salary amounted to \$52,250. During 2004 the Company posted another year of record earnings with net income increasing \$1.1 million or 14.6% over the prior year. In addition, loan growth was exceptional and loan quality remained very good with loan losses being at record lows as well. During the course of the year the Company was presented an opportunity to participate in negotiations for a potential merger. In recognition of the CEO working effectively with the Board in negotiating a Definitive Agreement for the merger with FNB Bankshares and obtaining all required regulatory and shareholder approvals as well as the excellent year of record earnings, this committee awarded the CEO an additional \$75,000 cash bonus. These two bonus amounts comprise the total disclosed as Bonus in the compensation table.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

During 2004, Directors Gregory, Blanchard, Poole and Smith served as members of the Compensation Committee. No member of the Committee was, or ever has been, an officer or employee of the Company or the Bank. All Committee members are customers of and engage in transactions with the Bank in the ordinary course of business. As described in the section entitled "Certain Relationships and Related Transactions", all loans to such individuals were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and, in the opinion of Management, did not involve more than the normal risk of collectability or present other unfavorable features.

Executive Compensation

The table below sets forth the cash compensation and certain other compensation paid to the President & Chief Executive Officer as well as the Executive Vice President & Chief Financial Officer, the Executive Vice President & Senior Loan Officer and the Senior Vice President & Senior Operations Officer during 2004, 2003 and 2002. (1) Bonuses are listed in the year earned and normally accrued. Such bonuses may be paid in the following year. The 2003 bonus figure for President Daigneault includes a \$30,000 discretionary bonus that was awarded and paid in 2004 after the Compensation Committee reviewed the final results for 2003 and evaluated the CEO's performance in meeting his individual goals. This was in addition to the 2003 stakeholder bonus.

(2) (a) Amounts shown include contributions paid by the Company to the respective accounts of the named Executive Officers in the 401(k) Plan. In 2004 the Company and the Bank contributed to the Bank's 401(k) Plan a matching amount for the salary deferred by Messrs. Daigneault, Ward, Wootton and Vietze equal to 3.0% of their respective earnings and a profit-sharing component of 2.5% for 2004 and 2003, and 3.0% for 2002, of their respective earnings, which were subject to IRS regulations limiting the maximum amount of an officer's earnings eligible for matching or profit-sharing 401(k) contributions to \$200,000. These percentages were equivalent to the 401(k) Plan match and profit sharing contributions made for all eligible employees.

(b) This figure also recognizes the value to the officers of a Company-owned vehicle to Messrs. Daigneault, Ward and Wootton which were \$4,600, \$5,200 and \$5,200 respectively for 2004.

(c) Also included in 2004 is the economic value of split dollar life insurance benefits provided to Messrs. Daigneault, Ward and Vietze under the Life Insurance Endorsement Split Dollar Plan agreement for Bank Owned Life Insurance. This value was \$767 for Mr. Daigneault, \$529 for Mr. Ward, and \$564 for Mr. Vietze.

Stock Option Plan

In April 1995, the stockholders approved a Stock Option Plan. The purpose of the Stock Option Plan is to encourage the retention of key employees by facilitating their purchase of a stock interest in the Company and to align their interest with those of the shareholders. The 1995 Stock Option Plan provides for grants of options to purchase Company common stock and is administered by an Options Committee, which consists of four outside directors. During 2004, no stock options were granted under the 1995 Stock Option Plan. The following table sets forth the status of the Stock Option Plan as of December 31, 2004:

Long-Term Compensation

Long-term compensation may be distinguished from annual compensation by the time frame for which performance results are measured to determine awards. While annual compensation covers a calendar year, long-term compensation is provided through the Company's stock option plan, which covers a period of two to ten years. The following table sets forth information with respect to the named executives and all other employees concerning grants of stock options during 2004:

(1) The dollar gains under these columns result from calculations assuming 5% and 10% growth rates compounded over a 10-year period as set by the Securities and Exchange Commission and are not intended to forecast future price appreciation of the Company's common stock. The gains reflect a future value based upon growth at these prescribed rates. The values have not been discounted to present value. It is important to note that options have value to the listed executive and to all option recipients only if the stock price advances beyond the exercise price shown on the table during the effective option period.

(2) Under the Stock Option Plan, the exercise price may not be less than the fair market value of the common stock on the date the option is granted.

Description of the Company's Benefit Plans

Overview

The Company has reserved 480,000 shares of its common stock to be made available to directors and employees who elect to participate in the directors' deferral, employee stock purchase or 401(k) savings and investment plans. As of December 31, 2004, 373,992 shares had been issued pursuant to these plans, leaving 106,008 shares available for future issuance. The issuance price is based on the market price of the stock at issuance date. All shares issued under the 401(k) savings and investment plans are issued pursuant to an exemption from registration under the Securities Act of 1933, as amended (the Securities Act), contained in Section 3(a)(11) thereof and Rule 147 promulgated thereunder. During the period ending nine months after the date of issuance of these shares, these shares may be transferred only to residents of the State of Maine. Each certificate issued for these plan shares bears a legend referring to this restriction.

Shares issued under the employee stock purchase plan prior to September 11, 1998, were issued pursuant to exemptions from registration under Section 3(a)(11) and Rule 147 of the Securities Act. Shares issued under the employee stock purchase plan on or after September 11, 1998, have been issued pursuant to a registration statement filed under the Securities Act. The members of the Board of Directors and certain officers of the Company, who may be deemed to be affiliates, may resell shares of the Company's common stock purchased or acquired under this plan only in accordance with certain restrictions imposed by the Securities Act and Rule 144 promulgated thereunder.

401(K) Plan

The Bank's 401(k) Plan (The First National Bank of Damariscotta Savings and Investment Plan) is the Bank's sole retirement plan, and was modified in 1996 after termination of the Bank's traditional defined benefit pension plan. It is available to any employee who has attained the age of 21 and completed six months of continuous service. Employees may contribute up to 50.0% of their compensation (in 2005, not to exceed \$14,000 if under age 50 and \$18,000 if over age 50), and the Bank may provide a match of up to 3.0% of compensation. Subject to a vote of the Board of Directors, the Bank may also make a profit-sharing contribution to the Plan, and in 2004 this contribution equaled 2.5% of each eligible employee's compensation. The 401(k) Plan is administered by a special committee appointed by the Board of Directors.

Employee contributions are 100% vested at all times, while employer contributions are vested over a five-year period. Upon termination of employment for any reason, a plan participant may receive his or her contribution account and earnings allocated to it, as well as the vested

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

portion of his or her employer-matching account and earnings allocated to it. Non-vested amounts are forfeited and are used by the Bank to help defray plan administration expenses incurred by the Bank. The Bank paid \$100,000 in matching contributions and

Proxy Statement Page 17

\$120,000 in profit-sharing contributions to this plan in 2004. Plan participants may direct the trustees of the 401(k) Plan to purchase specific assets for their accounts from a selection which includes seven mutual funds as well as the Company's stock. As of December 31, 2004, 199,232 shares of the Company's stock had been purchased by the 401(k) Plan at the direction of plan participants.

Stock Purchase Plan

The Bank instituted an employee and director stock purchase plan effective February 1, 1987, and the Board of Directors has allocated 240,000 shares of stock to be available for purchase under this plan. Employees who have been employed by the Bank for three consecutive calendar months are eligible to purchase shares on a quarterly basis through payroll deduction. The price per share for shares sold pursuant to the plan is defined as the closing price on the day the shares are purchased. As of December 31, 2004, 174,760 shares of the Company's stock had been purchased pursuant to the plan.

Employee Benefits

The Bank provides all full-time employees with group life, health and long-term-disability insurance through the Independent Bankers Employee Benefits Trust of Maine. A Flexible Benefits Plan is available to all full-time employees after satisfying eligibility requirements and to part-time employees scheduled to work 20 or more hours a week.

Supplemental Executive Retirement Plan

The Bank also sponsors an un-funded, non-qualified supplemental retirement plan for certain executive officers. The plan provides supplemental retirement benefits payable in installments over 20 years upon retirement or death. The costs for this plan are recognized over the service lives of the participating executive officers. The projected retirement benefit for Mr. Daigneault, assuming he remains employed by the Bank until normal retirement age of 65, is \$169,329 per year, with such payments beginning in the year 2017. The projected retirement benefit for Mr. Ward, assuming he remains employed by the Bank until normal retirement age of 65, is \$61,127 per year, with such payments beginning in the year 2018. The projected retirement benefit for Mr. Vietze, assuming he remains employed by the Bank until normal retirement age of 65, is \$39,235 per year, with such payments beginning in the year 2006. The benefits are capped at the above amounts and are subject to being substantially less should the named executive officer not remain employed until the normal retirement age of 65. The Plan also contains a restrictive covenant that may result in the executive officer forfeiting all accrued benefits should he accept employment with a competing financial institution within five years after his termination of employment with the Company. The expense for all participants in this supplemental plan was \$147,000 in 2004, \$135,000 in 2003 and \$112,000 in 2002. As of December 31, 2004 and 2003, the accrued liability of this plan was \$839,000 and \$709,000, respectively.

Stock Option Plan

On December 15, 1994, the Company's board of directors adopted a Stock Option Plan (the Option Plan) for the benefit of officers and other full-time employees of the Company and the Bank. This plan was approved by the Company's shareholders at the 1995 Annual Meeting. Under the Option Plan, 600,000 shares (subject to adjustment to reflect stock splits and similar events) are reserved from the authorized but unissued common stock of the Company for future issuance by the Company for exercise of stock options granted to certain key employees of the Company and the Bank from time to time. The purpose of the Option Plan is to encourage the retention of such key employees by facilitating their purchase of a stock interest in the Company. The Option Plan is intended to provide for the granting of incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the Code) to employees of the Company or the Bank.

The Option Plan is administered by the Options Committee of the Company's board of directors, which is comprised solely of directors who are ineligible to receive grants of stock options under the Option Plan and who have not received grants of options within the 12 months preceding their appointment to the Options Committee. The Options Committee selects the employees of the Bank and the Company to whom options are to be granted and designates the number of options to be granted. The Option Plan may be amended only by the vote of the holders of a majority of the Company's outstanding common stock if such amendment would

increase the number of shares available for issuance under the Option Plan, change the eligibility criteria for grants of options under the Option Plan, change the minimum option exercise price or increase the maximum term of options. Other amendments may be effected by the Options Committee.

Employees selected by the Options Committee receive, at no cost to them, options under the Option Plan. The option exercise prices are equal to or exceed the fair market value of the shares on the date of the grant, and no option is exercisable after the expiration of ten years from the date it is granted. The fair market value of the shares is determined by the Options Committee as specified in the Option Plan. The optionee cannot transfer or assign any option other than by will or in accordance with the laws of descent and distribution, and the option may be exercised only by the employee during the employee's lifetime. After an employee's death, options may be exercised by the employee's estate or heirs up to one year following the date of death. Code Section 422 limits option grants by providing that during the term of the Option Plan, no grant may be made to any employee owning more than 10% of the Company's outstanding shares unless the exercise price is at least 110% of the underlying shares' fair market value and such option is not exercisable more than five years following the option grant. The aggregate fair market value of the stock for which any employee may be granted incentive stock options which are first exercisable in any calendar year may generally not exceed \$100,000.

While generally no options may be exercisable before the second anniversary of the grant date, in the event of a change in control involving the Company all options (other than those held by officers or directors of the Company or the Bank for less than six months) shall become immediately exercisable. Also, an employee whose employment is terminated in connection with or within two years after such a change in control event shall be entitled to exercise all options for up to three months following the date of termination; provided that options held by officers or directors shall not be exercisable until six months after the grant date. Employees whose services are terminated, other than following a change in control as described above, shall thereupon forfeit any options held; provided, however, that following termination due to disability an employee shall be entitled to exercise options for up to one year (provided, further, that officers may exercise only with respect to options held for at least six months).

The Company receives no monetary consideration for the granting of incentive stock options. Upon the exercise of options, the Company receives payment in cash from optionees in exchange for shares issued. No federal income tax consequences are incurred by the Company at the time incentive stock options are granted or exercised, unless the optionee incurs liability for ordinary income tax treatment upon exercise of the option, as discussed below, in which event the Company would be entitled to a deduction equal to the optionee's ordinary income attributable to the options. Provided the employee holds the shares received on exercise of a stock option for the longer of two years after the option was granted or one year after it was exercised, the optionee will realize capital gains income (or loss) in the year of sale in an amount equal to the difference between the sale price and the option exercise price paid for shares. If the employee sells the shares prior to the expiration of the period, the employee realizes ordinary income in the year of disposition equal to the difference between the fair market value of the shares on the date of exercise and the exercise price and capital gains income (or loss) equal to the difference (if any) between the sale price of the shares and the fair market value of the shares on the date of exercise.

In addition to the tax consequences discussed above, the excess of the option price over the fair market value of the optioned stock at the time of option exercise is required to be treated by an incentive optionee as an item of tax preference for purposes of the alternative minimum tax.
