Director nominees submitted by stockholders are subject to the same review process as director nominees submitted from other sources, such as other Board members or senior management.

The Nominating and Corporate Governance Committee considers a number of factors when reviewing potential nominees for the Board. The factors which are considered by the Nominating and Corporate Governance Committee include the following: the candidate’s ability and willingness to commit adequate time to Board and committee matters; the fit of the candidate’s skills and personality with those of other directors and potential directors in building a Board that is effective, collegial and responsive to our needs; the candidate’s personal and professional integrity, ethics and values; the candidate’s experience in corporate management, such as serving as an officer or former officer of a publicly-held company; the candidate’s experience in our industry and with relevant social policy concerns; the candidate’s experience as a Board member of another publicly-held company; whether the candidate would be “independent” under applicable standards; whether the candidate has practical and mature business judgment; and the candidate’s academic expertise in an area of our operations. In addition to the factors set forth above, the Nominating and Corporate Governance Committee also strives to create diversity in perspective, background and experience in the Board as a whole.

In identifying, evaluating and selecting future potential director nominees for election at each annual meeting of stockholders and nominees for directors to be elected by the Board to fill vacancies and newly created directorships, the Nominating and Corporate Governance Committee engages in a selection process. In identifying potential nominees, the Nominating and Corporate Governance Committee will consider as potential director nominees candidates recommended by various sources, including any member of the Board, any of our stockholders or senior management. In appropriate circumstances, the Nominating and Corporate Governance Committee may also hire a search firm to help locate qualified candidates. Once potential nominees are identified, they are initially reviewed by the Chairman of the Nominating and Corporate Governance Committee, or in the Chairman’s absence, any other member of the Nominating and Corporate Governance Committee delegated to initially review director candidates. The reviewing member of the Nominating and Corporate Governance Committee will make an initial determination in his or her own independent business judgment as to the qualifications and fit of such director candidates based

on the criteria set forth above. If the reviewing member determines that it is appropriate to proceed, the Chief Executive Officer and at least one member of the Nominating and Corporate Governance Committee will interview the prospective director candidate(s). The full Nominating and Corporate Governance Committee may interview the candidates as well. The Nominating and Corporate Governance Committee will provide informal progress updates to the Board and will meet to consider and recommend final director candidates to the entire Board. Our Board determines which candidates are nominated or elected to fill a vacancy.

A copy of the Code of Business Conduct and Ethics will be provided to any person, without charge, upon request to (702) 835-6300 or to Investor Relations, Spectrum Pharmaceuticals, Inc., 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052. Stock Ownership Policy

We adopted a Stock Ownership Policy that applies to our Chief Executive Officer and our non-employee directors, effective as of April 1, 2015, to further align the interests of such individuals with those of our stockholders. Under the policy, the Chief Executive Officer and non-employee directors must hold and maintain, directly or indirectly (including through equity incentive plans), shares of our common stock (including vested “in-the-money” options) equivalent to at least five times his or her annual base cash salary or three times the annual cash Board retainer fee (excluding any additional fees paid for committee assignments and service as the lead director or committee chair, if any), as applicable. The current Chief Executive Officer and non-employee directors have five years from the effective date of the policy (April 1, 2020) to reach the required ownership level, and any newly appointed or elected persons will have five years from the date on which he or she is appointed or elected to reach the required ownership level. Furthermore, within one year of his or her initial appointment or election, each such person must own and maintain some shares of our capital stock. Individuals who do not hold the required number of shares will be required to hold all shares received as an equity grant, net of shares sold or withheld to pay the exercise price of stock options or to pay withholding taxes. A copy of the Stock Ownership Policy is posted on our website at www.sppirx.com.

Anti-Hedging Policy

We have adopted an anti-hedging policy that prohibits any of our or our subsidiaries’ directors, officers or other employees from, at any time, directly or indirectly, engaging in any kind of hedging transaction that could reduce or limit such person’s holdings, ownership or interest in or to any of our shares of common stock or other securities, including without limitation outstanding stock options, deferred share units, restricted share units, or other compensation awards the value of which are derived from, referenced to or based on the value or market price of our securities. Prohibited transactions include the purchase by a director, officer or other employee of financial

instruments, including, without limitation, prepaid variable forward contracts, instruments for short sale or purchase or sale of call or put options, equity swaps, collars, or units of exchangeable funds, that are

15

designed to or that may reasonably be expected to have the effect of hedging or offsetting a decrease in the market value of any of our securities. A copy of the anti-hedging policy is posted on our website at www.sppirx.com.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our executive officers and directors, and persons who beneficially own more than ten percent of our common stock, to file initial reports of ownership and reports of changes in ownership with the SEC. Executive officers, directors and persons who beneficially own more than ten percent of our common stock are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely upon our review of the copies of reporting forms furnished to us, and written representations that no other reports were required, we believe that all filing requirements under Section 16(a) of the Exchange Act applicable to our directors, officers and any persons holding 10% or more of our common stock with respect to our fiscal year ended December 31, 2017 were satisfied on a timely basis.

This section is divided into the following parts:

Name	Title
Joseph W. Turgeon (1)	President and Chief Executive Officer (Principal Executive Officer)
Kurt A. Gustafson	Executive Vice President and Chief Financial Officer (Principal Financial Officer)
Thomas J. Riga (2)	Executive Vice President, Chief Operating Officer and Chief Commercial Officer
Rajesh C. Shrotriya, M.D. (3)	Former Chief Executive Officer and Chairman of the Board

(3) On December 17, 2017, Dr. Shrotriya’s employment was terminated and he also ceased serving as Chairman of the Board, though remains a member of the Board through the expiration of his term.

Compensation Governance Best Practices

We maintain strong governance standards with respect to our executive compensation programs. Our practices include the following:

- Independent Compensation Consultant. The Committee engages an independent compensation consultant.
- Annual Compensation Risk Assessment. We perform an annual compensation risk assessment to identify any elements of compensation that carry elevated levels of risk.

• **Stock Ownership Guidelines.** We maintain a stock ownership requirement for our Chief Executive Officer and non-employee directors.

• **Annual Peer Group Review.** We evaluate our peer group annually for purposes of our executive compensation review.

• **Anti-hedging Policy.** We prohibit any director, officer or other employee from engaging in any kind of hedging transaction.

• **No Excessive Perquisites.** We provide only limited perquisites to our executive officers that are intended to facilitate them in the performance of their duties.

• **No In-the-Money Options.** We do not grant options with an exercise price less than the fair market value of our common stock on the date of grant.

• **No Guaranteed Bonuses.** Our executive officers' bonuses are performance-based and 100% at risk.

Compensation Philosophy and Objectives

Compensation Philosophy

The Committee's executive compensation philosophy is to attract and retain professionals of the highest caliber with highly sought-after skill sets, who are capable of leading us in fulfilling our ambitious business objectives. The Committee understands that competition for attracting talent in the pharmaceutical industry is very intense, and that such competition is local, national, and even international in scope.

As a result, the Committee seeks to design executive compensation packages that encourage exceptional candidates to make the decision to join and stay with us over other potential employers, including pharmaceutical, biotechnology, and other life sciences companies that may be larger and better known than us. As a result, the Committee seeks to implement this compensation philosophy by offering compensation opportunities that significantly reward executives for advancing our financial and strategic goals.

Compensation Objectives

When reviewing and approving our executive compensation program, the Committee is guided by the following five compensation objectives:

1. **Attract the right executives:**

Attract exceptional and accomplished executives with the relevant experience and skills that are required to direct our strategic objectives;

2. **Motivate the right executives:**

Provide a total compensation package that is highly competitive within the life sciences industry and, more specifically, within our peer group companies;

3. **Have a portion of executive compensation be at-risk based on performance:**

Condition a portion of potential total compensation on the achievement of Company and individual performance targets;

4. Align the financial interests of our executives and stockholders:

Provide a portion of total compensation through the grant of restricted stock awards and stock options, as well as performance-based units tied to relative total stockholder return, to more directly align the long-term interests of our executive officers with those of our stockholders; and

5. Retain the right executives:

Provide for time-based vesting of restricted stock and stock option awards to encourage our executive officers to remain with us over time.

Quantitative and Qualitative Performance Indicators

The Committee takes into account quantitative indicators such as financial metrics, as well as qualitative indicators of Company and individual performance in determining the level and structure of compensation for each of the named executive officers. Qualitative factors are intended to identify and reward achievements that the Committee believes are preparatory steps in our achievement of meaningful growth and may include, among other things, the (i) completion of the acquisition of commercial or clinical-phase drugs at an advantageous cost structure, (ii) advancement of product candidates through clinical trials, (iii) obtaining regulatory approvals in the U.S. and abroad, and (iv) fostering a high-performance culture throughout the organization.

The Committee believes that our success depends on these quantitative and qualitative performance indicators. As a result, the Committee seeks to ensure that the compensation of our named executive officers is aligned with the achievement of each. The specific performance indicators for purposes of compensation paid in 2017 are discussed below. For additional information, see “Compensation Discussion and Analysis - Key Elements of Executive Compensation - Annual Cash Bonuses.”

Principal Compensation Elements

In furtherance of the Committee’s compensation philosophy, the Committee believes that using a combination of three principal compensation elements - base salary, annual cash bonus, and equity incentive awards - appropriately delivers on our executive compensation objectives. The Committee also uses other compensation elements, including standard benefits and perquisites, as well as change of control benefits for certain executives, which it views as necessary components of a competitive and effective program.

Mix of Compensation Elements

In assessing the “total compensation” opportunity for each named executive officer, and determining the value or amount paid with respect to each compensation element, the Committee generally seeks to weight the compensation mix heavily towards performance-based compensation (annual cash bonuses and equity awards), which we refer to as “at-risk” compensation, and seeks to limit the level of “guaranteed” compensation, such as cash compensation (base salary, benefits, and perquisites). In doing so, the Committee is mindful of the appropriate mix between guaranteed pay and at-risk pay so as to mitigate the potential for excessive risk taking.

The Committee also strives to provide a significant proportion of the total compensation opportunity in the form of non-cash (such as restricted stock, options and performance-based units) rather than cash components. The Committee does so to allow the named executive officers to be financially rewarded for exceptional Company performance that the Committee believes will advance our business objectives, and to further align the interests of the named executive officers with those of our stockholders.

However, in order to promote flexibility to appropriately award our key executives, the Committee has not established any formal policies for allocating between at-risk and guaranteed compensation, or cash and non-cash compensation. For additional information, see “Compensation Discussion and Analysis — Key Elements of Executive Compensation.”

Governance of Executive Compensation Program

Role of Compensation Committee in Determining Executive Compensation

The Committee was appointed by the Board, and consists entirely of directors who are “independent directors” under the applicable NASDAQ Listing Rules, who are free from any relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment as a member of the Committee. The Committee is responsible for, among other things:

- reviewing and approving the compensation of our named executive officers;
 - approving individual and Company performance targets that relate to the payment of annual cash bonuses and the grant of equity awards, assessing achievement with respect to the targets, and approving the payments or grants made to our named executive officers;
- administering our cash incentive plans, equity incentive plans, profit sharing plans, deferred compensation plans and similar programs (if any), and approving awards under such plans to our named executive officers;
- reviewing and approving offer letters, employment agreements, severance agreements, change of control agreements and other similar compensatory arrangements with our named executive officers;
- reviewing and discussing the Compensation Discussion and Analysis section of our annual proxy statement with management, including the related executive compensation information, and determining whether to recommend to the Board that such section be included in this report; and
- preparing and approving the Report of the Committee for inclusion in this report.

In performing its duties, the Committee, in its discretion, may retain or replace any independent counsel, compensation consultants or other outside expert or advisor that the Committee believes necessary or advisable, and the Committee has the sole authority to approve the compensation of such persons. The Committee held two meetings during 2017 and acted by unanimous written consent three times.

Role of Executive Officers in Determining Executive Compensation

While our Chief Executive Officer discusses his compensation recommendations with the Committee for other named executive officers, he does not participate in any Committee deliberation or determination with respect to his own compensation. The determination of the amount of compensation paid to the Chief Executive Officer is made by the Committee.

The Committee considers recommendations of our Chief Executive Officer when assessing individual performance of the other named executive officers. However, the determination of the amount of any cash or equity incentive awards payable to the other named executive officers is made by the Committee. The other named executive officers and other senior management personnel also are generally not present at meetings of the Committee and do not participate in its discussions regarding executive compensation decisions.

Compensation Consultant and Peer Group Data

In the first quarter of 2017, the Committee re-engaged with its independent executive compensation firm, Exequity, to conduct an updated competitive review of our executive compensation program, which included an evaluation of our peer group

20

companies. Specifically, the Committee tasked Exequity with identifying and selecting a comparably sized, industry-affiliated peer group of companies operating within the biotechnology or pharmaceutical industries.

The peer group that Exequity selected and which the Committee approved, included the following 21 publicly traded pharmaceutical companies which we refer to as our “Peer Group”:

AMAG Pharmaceuticals, Inc.	Enanta Pharmaceuticals, Inc.
Albany Molecular Research, Inc.	Ariad Pharmaceuticals, Inc.
Genomic Health, Inc.	Fluidigm Corporation
Luminex Corporation	Harvard Bioscience, Inc.
Amphastar Pharmaceuticals, Inc.	Vanda Pharmaceuticals Inc.
Mimedx Group, Inc.	Infinity Pharmaceuticals, Inc.
Pernix Therapeutics Holdings, Inc.	VIVUS, Inc.
SciClone Pharmaceuticals, Inc.	Merrimack Pharmaceuticals, Inc.
Supernus Pharmaceuticals, Inc.	NewLink Genetics Corporation
Halozyme Therapeutics, Inc.	Eagle Pharmaceuticals, Inc.
Sucampo Pharmaceuticals, Inc.	

Exequity was tasked with reviewing and compiling data on the executive compensation practices of the Peer Group and to provide the Committee guidance on compensation practices. Exequity then presented recommendations to the Committee for a new long-term incentive compensation program for the named executive officers. Exequity’s report was presented to the Committee in the first quarter of 2017. The Committee reviewed and discussed the findings and recommendations at length.

The Exequity report was used by the Committee to review and understand the level of total compensation, and the level and mix of base salaries, annual cash bonuses, annual and long-term equity incentive awards, and other benefits and perquisites provided to executives of companies within the Peer Group. The Committee reviewed compensation data from the Peer Group in an effort to obtain an understanding of current comparative compensation practices and as one of several components in making its executive compensation decisions. The Committee references the Peer Group data in order to ensure that our compensation program is competitive and appropriate. The Committee concluded that its named executive officers are reasonably compensated with an appropriate mix of guaranteed and at-risk pay in light of competitive pay practices of our Peer Group and our 2017 performance.

Key Elements of Executive Compensation

The principal elements of compensation for our named executive officers include:

• Base Salary

Annual Cash Bonus

Equity Incentive Awards (Restricted Stock, Stock Options and Performance-Based Units)

Benefits and Perquisites

Payments upon Termination of Employment or Change in Control

We believe our “pay for performance” philosophy attracts, retains and motivates our named executive officers to be fully aligned with the interests of our stockholders, as well as our short and long-term strategic objectives.

21

Base Salary

We provide base salaries to attract and retain executives with the proper experiences and skill sets required to assist us in achieving our specific business objectives. Base salaries provide a guaranteed base level of compensation that comprises a standard element of executive compensation packages within our industry.

The base salaries of our named executive officers are established as part of an annual compensation review undertaken by the Committee. Base salaries for a particular fiscal year are generally established either at the end of the prior year or the beginning of the current year (in which case they are generally retroactive to the beginning of the year). Base salaries are intended to reflect the scope of each executive's responsibilities, as well as their qualifications, breadth of experience, functional expertise, recent individual performance, impact on our results and overall performance.

The base salaries approved by the Committee for our named executive officers in 2016 and 2017 were as follows:

Executive	Base Salary	
	2016	2017
Joseph W. Turgeon	\$600,000	\$600,000
Kurt A. Gustafson	\$500,000	\$500,000
Thomas J. Riga ⁽¹⁾	—	\$420,000
Rajesh C. Shrotriya, M.D.	\$945,000	\$945,000

(1) On December 17, 2017, Mr. Riga was appointed as our Executive Vice President, Chief Operating Officer and Chief Commercial Officer (he was then serving as our Chief Commercial Officer), though was not a named executive officer until December 17, 2017.

The base salary in 2017 for Mr. Turgeon was based on his role as President and Chief Operating Officer, which was his position for almost the entire year. Similarly, the 2017 base salary for Mr. Riga was based on his role as Chief Commercial Officer. In January 2018, the Committee increased Mr. Turgeon's base salary to \$750,000 to reflect his new role as President and Chief Executive Officer. At that same time, Mr. Riga's base salary was increased to \$500,000 to reflect his new role as Executive Vice President, Chief Operating Officer and Chief Commercial Officer.

Annual Cash Bonuses

As discussed above, the Committee believes it is important to tie a meaningful portion of the total compensation potential for the named executive officers to the achievement of specified quantitative and qualitative Company performance targets, as well as individual performance targets. The achievement of these targets advances our specific business objectives and result in long-term stockholder value. The Committee also seeks to limit guaranteed pay in favor of pay that is at-risk while encouraging retention. One compensation component that the Committee uses to address these objectives is annual cash bonuses that are earned based on the achievement of pre-established Company and individual performance targets and which are subject to the executive's continued employment through the date of payment.

In determining the amount of the annual cash bonus amount to award to our Chief Executive Officer and our other named executive officers, the Committee evaluates specified performance targets, but retains the discretion to consider additional qualitative factors beyond the achievement of the applicable criteria. We believe this provides our Committee with the flexibility to reward our executives for their performance when considered in the context of our dynamic industry and provides them with the incentive to pursue strategic objectives in addition to our pre-established goals.

Notably, while the annual cash bonuses paid by us have components of a non-equity incentive plan award since they are based, to a large extent, on actual performance with respect to pre-determined performance metrics, they also have a discretionary component to them because the actual targeted amount, as well as the precise correlation between the achievement of the performance targets and the annual cash bonus amount, is not pre-established and communicated by the Committee. For this reason, and in accordance with SEC rules, the annual cash bonus amounts are disclosed as “bonuses” in the Summary Compensation Table (rather than as “non-equity incentive plan awards”). For additional information on amounts actually awarded, see “Summary Compensation Table” later in this report.

Chief Executive Officers. The 2017 target bonus opportunity for Dr. Rajesh C. Shrotriya, our former Chief Executive Officer, and Mr. Joseph W. Turgeon, our Chief Executive Officer (beginning December 17, 2017), was set as a percentage of salary and was unchanged from 2016, as follows:

Executive	Target
Joseph W. Turgeon	60% of base salary*

Rajesh C. Shrotriya, M.D. 100% of base salary

* For Mr. Turgeon, this target was based on his role during 2017 as our President and Chief Operating Officer.

The bonus for 2017 business achievements was determined by the Committee in March 2018, based on an assessment of the following objectives: (i) revenues, (ii) cash and debt management, (iii) clinical development of two products, (iv) opportunistic licensing arrangements, (v) favorable settlement of on-going stockholder litigation, and (vi) the achievement of a year-end stock price target.

The Committee determined that substantially all of these goals were met on a weighted-basis, as summarized in the tables below:

2017 Key Strategic Goals

(100% maximum achievement)

1. Revenue / Cash Goals:

Achievement of an annual product revenue target of \$110 million (inclusive of \$20 million for EVOMELA), and achievement of a year-end cash balance target of \$90 million

Achieved and Exceeded:

Total revenue - \$128 million

Product revenue - \$116 million

EVOMELA revenue - \$35 million

December 31, 2017 cash and equivalents - \$228 million

2. ROLONTIS

development: Completion of clinical enrollment targets for Phase 3 studies of ROLONTIS

Achieved and Exceeded:

A pivotal Phase 3 study (ADVANCE Study, or SPI-GCF-301) was initiated in the first quarter of 2016 to evaluate ROLONTIS as a treatment for chemotherapy-induced neutropenia. The ADVANCE study has completed enrollment with 406 patients and we announced on February 5, 2018 that the top line result of this study met the primary endpoint of non-inferiority in Duration of Severe Neutropenia between ROLONTIS and pegfilgrastim, with a similar adverse profile between the two study arms.

Achieved and Exceeded:

In March 2016, we initiated a Phase 2 breast cancer trial for POZIOTINIB. The Phase 2 study is an open-label study that will enroll approximately 75 patients with HER2 positive metastatic breast cancer, who have failed at least two HER2 directed therapies. In collaboration with The University of Texas MD Anderson Cancer Center, an investigator-sponsored Phase 2 trial is currently enrolling in NSCLC patients with EGFR or HER2 exon 20 mutations. The study yielded preliminary results demonstrating evidence of significant antitumor activity in NSCLC patients with EGFR exon 20 mutations, with interim data presented at the World Conference on Lung Cancer in October 2017 showing an unconfirmed Objective Response Rate of 73% in 11 treated patients. Based on feedback from the FDA, we have initiated an additional multi-center study in patients with EGFR or HER2 exon 20 insertion mutations, and gastric cancer indications are being conducted in South Korea by Hanmi and the Korean National OncoVenture.

3. POZIOTINIB

development: Advancement of clinical enrollment targets for POZIOTINIB in the treatment of certain lung and breast cancer types

4. Achievement of

opportunistic in/out-license arrangements

Not Achieved

5. Achievement of a target stock price by December 31, 2017

Achieved and Exceeded: Our stock price at year-end 2017 and 2016 was \$18.95 and \$4.43, respectively, representing a 328% increase.

2017 Supplemental Goals
(25% maximum achievement)

- | | |
|--|--|
| 6. Extension and/or opportunistic re-purchase of our December 2018 Senior Convertible Notes | Achieved: In October 2017, we completed an open market purchase of our 2018 Convertible Notes, aggregating 69,472 note units (equivalent to \$69.5 million principal value) for \$27.3 million in cash and 5.4 million newly-issued shares of our common stock, then worth \$73 million. Accordingly, as of December 31, 2017, \$40.6 million in principal of our 2018 Convertible Notes remains outstanding. Concurrent with this open market purchase, we also unwound a portion of the previously sold warrants and previously purchased call options that were part of our Conversion Hedge for aggregate net proceeds of \$5.8 million. |
| 7. Successful resolution of stockholder litigation | Achieved: We previously responded to complaints that alleged breaches of fiduciary duty based on conduct relating to a March 12, 2013 press release concerning sales of our product FUSILEV. The complaints sought compensatory damages, corporate governance reforms, restitution and disgorgement of defendants' alleged profits, and costs and fees. On April 11, 2017, the parties executed a Stipulation and Agreement of Settlement covering the consolidated Federal Derivative Actions and consolidated State derivative Actions. Pursuant to the Agreement of Settlement, we (through our insurers) agreed to pay \$530,000 for plaintiffs' attorneys' fees and expenses. The Stipulation and Agreement of Settlement was filed with the Eighth Judicial District Court of the State of Nevada in and for Clark County on April 13, 2017. On May 18, 2017, the Court entered an order preliminarily approving the Agreement of Settlement. On August 1, 2017, the Court entered an order finally approving the Agreement of Settlement and dismissing the derivative actions against all named Defendants with prejudice. |
| 8. Achievement of an annual revenue target for EVOMELA | Achieved and Exceeded: See Goal no. 1 above. |
| 9. Achievement of certain data and enrollment targets for POZIOTINIB | Achieved and Exceeded: See Goal no. 3 above. |
| 10. Achievement of accelerated approval status by the FDA for POZIOTINIB in the treatment of certain lung cancer types | Achieved and Exceeded: See Goal no. 3 above. |

As a result of the achievement of the goals described above, the Committee determined a 2017 annual cash bonus award for our Chief Executive Officers, paid in March 2018, in the amount set forth in the table below:

Name	2017 Target Cash Bonus (as a Percentage of 2017 Base Salary)	2017 Actual Cash Bonus
Joseph W. Turgeon	\$360,000 (60%)	\$342,000
Rajesh C. Shrotriya, M.D.	\$945,000 (100%)	\$863,316

Other Named Executive Officers. In determining the 2017 annual cash bonus awards for our other named executive officers, the Committee took into account our performance with respect to the same financial and strategic performance goals discussed above for our Chief Executive Officers, as well as the individual performance of each of the other named executive officers. The Committee also considered the recommendations of Mr. Turgeon as our Chief Executive Officer in order to form a meaningful and comprehensive assessment of the capabilities and contributions of each of our named executive officers.

The other named executive officers' 2017 target bonus opportunities were set at the same percentage of salary as in 2016 and the target payouts were based on their 2017 salary as of the last day of the fiscal year (Chief Operating Officer 50% and Chief Financial Officer 50%). The Committee determined 2017 annual cash bonus awards for the other named executive officers (paid in March 2018) in the amounts set forth in the table below. Mr. Riga was paid above target based on his new increased responsibilities and performance in 2017.

Name	2017 Target Cash Bonus (as a Percentage of 2017 Base Salary)	2017 Actual Cash Bonus
Kurt A. Gustafson	\$250,000 (50%)	\$237,500

Equity Incentive Awards

In furtherance of the Committee's compensation philosophy, the Committee believes it is important to provide a significant portion of the named executive officers' total compensation opportunity through the grant of equity incentive awards in order to further align the interests of our named executive officers with those of our stockholders. Furthermore, the Committee believes granting equity incentive awards that vest over time encourage executives to remain with us. In order to accomplish these objectives, the Committee has historically granted the named executive officers a combination of options and restricted stock each year.

Following engagement with our stockholders in 2016 regarding our executive compensation program, at the recommendation of our independent executive compensation firm, Exequity, the Committee revised its long-term equity incentive compensation program to include the grant of performance-based units effective for 2017. Under the terms of the revised program:

• Award sizes will be determined annually based on competitive benchmarking data; and

One third of the target annual grant value will be in the form of performance-based units (the "TSR Performance-Based Units") tied to our relative total stockholder return ("TSR") performance, one third of the value will be in stock options which will vest over time, and one third of the value will be in restricted stock which will vest over time.

Additional information on the 2017 grants can be found under the "Grants of Plan-Based Awards in 2017" table later in this report.

Stock Options. As noted, one-third of the equity award value for 2017 was made in the form of stock options granted under the 2009 Incentive Award Plan, as amended (the "2009 Plan"), which was previously approved by our Board and stockholders. In accordance with the terms of the 2009 Plan, the exercise price of stock options granted pursuant to the 2009 Plan is set at the

closing price of our common stock on the date immediately prior to the date of grant. We believe that stock options are an important element of total named executive officer compensation principally because stock options:

- Are consistent with our philosophy of aligning the interests of our named executive officers with those of our stockholders, because value is created for the executives only if the share price of our common stock increases during the stock option term, which in turn leads to increased stockholder value; and
- Helps to retain executives through the use of time-based vesting provisions that provide for vesting over several years.

Restricted Stock. As noted, one-third of the equity award value for 2017 was made in the form of time-vesting restricted stock granted under the 2009 Plan. We believe restricted stock is an important element of total named executive officer compensation because restricted stock:

- Results in immediate value to the recipients while still providing incentive to maximize the value of our stock; and
- Helps to retain executives through the use of time-based vesting provisions that provide for vesting over several years.

Performance-Based Units. As noted, one-third of the equity award value for 2017 was made in the form of performance-based units granted under the 2009 Plan. We believe that performance-based units are an important element of total named executive officer compensation because they provide equity incentives linked to our performance rather than being based solely on continued employment. The principal terms of such performance-based units include:

The number of TSR Performance-Based Units earned will be tied to our TSR as compared to the TSR of the peer group measured over a two-year performance period (2017-2018). To earn at least the target number of TSR Performance-Based Units, our relative TSR ranking for the two-year performance period must be at or above the 50th percentile of the peer group. If our relative TSR ranking is below the 30th percentile of the peer group, no TSR Performance-Based Units will be earned. If our relative TSR ranking is at the 30th percentile of the peer group, then 25% of the target number of TSR Performance-Based Units will be earned. If our relative TSR ranking is at or above the 80th percentile of the peer group, a maximum of 200% of the target number of TSR Performance-Based Units will be earned. For relative TSRs between the 30th percentile and the 50th percentile, or between the 50th percentile and the 80th percentile, the number of TSR Performance-Based Units earned will be determined by means of linear interpolation.

- TSR Performance-Based Units tied to our relative TSR performance will be earned, if at all, following the end of the two-year performance period.

If a Change in Control (as defined in the 2009 Plan) occurs prior to the end of the two-year performance period, and the TSR Performance-Based Units are not assumed by the acquirer, they will become immediately vested based on our actual TSR ranking as compared to the peer group for the shortened performance period. Further, in the case of our Chief Executive Officer, if, prior to the end of the two-year performance period, he is terminated by us without Cause, terminates his employment for Good Reason or is terminated for death or Disability (as such terms are defined in his employment agreement), then the greater of (i) the target number of TSR Performance-Based Units and (ii) the number of TSR Performance-Based Units that would otherwise have vested for the shortened performance period based on our actual TSR ranking as compared to the peer group during such period, will become immediately vested.

Benefits and Perquisites

The named executive officers are eligible to receive benefits that are generally available to each of our full-time employees, including health insurance, long-term disability insurance, life insurance and vacation pay. As with other employees, the named executive officers are required to make contributions to us to offset a portion of the cost of certain benefit plans.

We also maintain a 401(k) Plan and an Employee Stock Purchase Plan, each of which are generally available to all employees. The 401(k) Plan provides matching employee contributions in shares of our common stock up to applicable limits. The Employee Stock Purchase Plan provides employees with the opportunity to purchase our common stock through accumulated payroll deductions, at a 15% discount to the lesser of (i) the market price of the stock at the beginning of the designated period, and (ii) the market price of the stock at the end of the period. These plans are designed to encourage employees to save for retirement and to encourage ownership of shares of our common stock. We believe they provide an additional incentive for our employees to contribute towards our continued success and align the interests of our employees with those of our stockholders.

In addition, our Board approved the Nonqualified Deferred Compensation Plan (the "Plan") in 2011. The Plan is administered by the Committee and is intended to be an unfunded plan. The Plan is maintained primarily to provide deferred compensation benefits for a select group of our employees, including our named executive officers. Under the Plan, we provide participants with the opportunity to make annual elections to defer up to a specified amount or percentage of their eligible cash compensation, as established by the Committee (in 2017, eligible participants could defer up to 75% of base salary and up to 100% of bonus). In addition, we have the option, but not the obligation, to make discretionary or matching cash contributions to employees under the Plan. During 2017, we matched each participant's contributions to the Plan up to 10% of the participant's eligible compensation. For additional information, see "Nonqualified Deferred Compensation Plan" later in this report.

Employment and Change in Control Agreements

We entered into an employment agreement with Dr. Shrotriya in 2008, as later amended, that provides for the payment of certain benefits upon separation of employment from us under specified circumstances. The benefits provided are designed to protect earned benefits in the case that he is terminated without cause or as a result of a change in control of the Company, and to encourage him to act in the best interests of the stockholders at all times during the course of a change in control transaction or other significant event involving our Company. As a result of his termination of employment without cause in December 2017, severance benefits under the employment agreement became payable. The amount of severance benefits accrued in 2017 as a result of his termination is included in the Summary Compensation Table.

Each of our other named executive officers, including Mr. Turgeon, were parties to a Change in Control Severance Agreement at fiscal year end December 31, 2017 that provides certain severance benefits to such named executive officers if, during the term of such agreements, and within 12 months after a change in control has occurred, the named executive officer's employment is terminated by the Company other than for cause or the named executive officer resigns for good reason. Additionally, each of the named executive officers are entitled to an acceleration of vesting of our matching contribution pursuant to the Plan.

We entered into new employment agreements with Messrs. Turgeon, Gustafson and Riga in April 2018 which supersede the prior Change in Control Severance Agreements. These new agreements provide for the payment of certain benefits upon separation of employment from us under specified circumstances. The benefits provided are designed to protect earned benefits in the case that they are terminated without cause or as a result of a change in control of the Company or in the case of death or disability, and to encourage them to act in the best interests of the stockholders at all times during the course of a change in control transaction or other significant event involving our Company.

For additional information, see “Employment, Severance and Change in Control Agreements” later in this report.

Impact of Accounting and Tax Considerations on Compensation

Equity-Based Compensation

28

The fair value of equity-based compensation, which includes options, restricted shares and performance-based units, is measured in accordance with authoritative accounting guidance. We measure compensation cost for all equity-based awards at fair value on the date of grant and recognize compensation expense over the service period over which the awards are expected to vest.

Section 162(m)

Internal Revenue Code Section 162(m) limits the deductibility of compensation in excess of \$1 million paid to any one named executive officer in any calendar year. Under the tax rules in effect before 2018, compensation that qualified as “performance-based” under Section 162(m) was deductible without regard to this \$1 million limit. However, the Tax Cuts and Jobs Act, which was signed into law December 22, 2017, eliminated this performance-based compensation exception effective January 1, 2018, subject to a special rule that “grandfathers” certain awards and arrangements that were in effect on or before November 2, 2017. As a result, compensation that is paid on or after January 1, 2018 may not be fully deductible, depending on the application of the special grandfather rules. Moreover, from and after January 1, 2018, compensation awarded in excess of \$1 million to our named executive officers generally will not be deductible. While the Tax Cuts and Jobs Act will limit the deductibility of compensation paid to the named executive officers, the Committee will-consistent with its past practice-design compensation programs that are intended to be in the best long-term interests of Spectrum and our stockholders, with deductibility of compensation being one of a variety of considerations taken into account.

Section 280G and Section 4999

Sections 280G and 4999 of the Code relate to a 20% excise tax that may be levied on a payment made to an executive as a result of a change in control if the payment equals or exceeds three times the executive’s base earnings (as defined by the applicable section). Dr. Shrotriya’s employment agreement from 2008 provided that we would compensate him for any excise taxes that might arise upon a change in control of the Company, but as a result of his termination of employment in December, those provisions no longer apply. We do not currently provide similar tax protection to our other named executive officers.

(1) The amounts in this column reflect the base salary for each year. The 2017 amount related to Dr. Shrotriya is pro-rated through his termination date of December 17, 2017.

(2) The amounts in this column for 2017 reflect the annual cash bonuses paid in March 2018 with respect to 2017 achievements. For additional information, see “Compensation Discussion and Analysis — Key Elements of Executive Compensation — Annual Cash Bonuses.” The bonus paid to Dr. Shrotriya of \$863,316 is based on 95% achievement and pro-rated through his termination date of December 17, 2017.

(3) The amounts in this column reflect the aggregate grant date fair value of the awards granted in each respective year in accordance with FASB ASC Topic 718. For fair value assumptions refer to Note 6 to our financial statements included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2017, as filed with the SEC on March 7, 2018.

For Messrs. Turgeon and Gustafson and Dr. Shrotriya, the amounts shown for 2017 reflect, among other items, the performance unit awards (“PUAs”), in the form of restricted stock units, granted to the NEOs in March 2017 in accordance with our revised long-term incentive program that are subject to our achievement of performance goals

established by the Committee for the performance period beginning January 1, 2017 and ending December 31, 2018, as follows: Mr. Turgeon, \$432,993; Mr. Gustafson, \$325,623; and Dr. Shrotriya, \$651,116. The value of the 2017 PUAs was \$6.49 per award. These PUAs were valued under a Monte-Carlo simulation model, which considered the “market conditions” for the relative total shareholder return (“rTSR”) versus a designated peer group. The variable number of restricted stock units to be issued upon the December 31, 2018 measurement of rTSR was also considered in this independent valuation.

At maximum achievement levels, the grant date fair values of these awards would be as follows: Mr. Turgeon, \$865,986; Mr. Gustafson, \$651,246; and Dr. Shrotriya, \$1,302,232. For additional information, see “Compensation Discussion and Analysis — Key Elements of Executive Compensation — Equity Incentive Awards.”

(4) 2017 amounts reflect: automobile allowances paid to each of Dr. Shrotriya and Messrs. Turgeon, Gustafson and Riga in the amounts of \$57,046, \$13,800 and \$12,000, and \$13,800 respectively; annual 401(k) matching contributions of \$10,800 for each of Dr. Shrotriya and Messrs. Gustafson and Riga; premiums paid on healthcare and life insurance policies, which are benefits that are offered to all employees; and matching contributions paid by us to match employee deferrals under the Plan, as detailed in footnote (5) below. Perquisites and other personal benefits are valued on the basis of the aggregate incremental cost to us.

(5) The matching contributions paid by us in 2017 to match named executive officer deferrals under the Plan (up to 10% of eligible compensation) are as follows: Mr. Turgeon — \$30,000; Mr. Gustafson — \$73,500; Mr. Riga— \$64,208; and Dr. Shrotriya — \$185,063. These amounts are also reported in the column entitled “Company Contributions in 2017” in the “Nonqualified Deferred Compensation Table” below.

(6) The amount for our former Chief Executive Officer also includes the economic benefit of \$12,213 for fiscal year 2017 related to life insurance policies covering his life and having as beneficiary his estate or other beneficiaries.

(7) The amount for our former Chief Executive Officer includes severance and one time expenses incurred upon his termination on December 17, 2017 including: two years of current base salary, two years of bonus achievement (\$945,000 target bonus multiplied by 95% bonus achievement multiplied by two years), two years of auto allowance, and a one-time payout of accrued vacation.

(8) The amounts in 2016 and 2015 are not applicable to Mr. Riga as he was not a named executive officer until 2017.

(9) The positions are those in effect as of year-end. As discussed above, Mr. Turgeon was appointed President and Chief Executive Officer and Mr. Riga was appointed Executive Vice President, Chief Operating Officer and Chief Commercial Officer on December 17, 2017 in connection with the termination of employment of Dr. Shrotriya.

Grants of Plan-Based Awards in 2017

The following table provides information about equity incentive awards granted to the named executive officers in 2017 (no “non-equity incentive plan” awards were granted in 2017). The amounts reflected in the column entitled “Grant Date Fair Value of Stock and Option Awards” are estimated values on the date of grant based on the applicable SEC rules, do not represent any cash payments or proceeds actually received by the named executive officers, and may be materially different from the amounts ultimately realized by the named executive officers upon the vesting and sale of the underlying shares.

These awards vest as to 100% if our relative TSR ranking measured over a two-year performance period is at or above at least the 50th percentile and vest as to 200% if our relative TSR ranking over such period is at or above at least the 80th percentile. These awards do not vest to the extent that our relative TSR ranking over such period is below the 30th percentile. If our relative TSR ranking is at the 30th percentile of the peer group, then 25% of the target number of TSR Performance-Based Units will be earned. For relative TSR's between the 30th percentile and the 50th percentile, or between the 50th percentile and the 80th percentile, the vesting will be determined by means of linear interpolation.

Options Exercised and Stock Vested in 2017

The following table provides information regarding the number of shares acquired upon exercise of options and vesting of restricted stock in 2017 and the resulting value deemed to have been realized by the named executive officers. However, the

37

amounts reflected in the table do not represent cash payments to or proceeds received by the named executive officers. The shares acquired by the named executive officers, less any shares forfeited to pay for taxes, were retained by the named executive officers. The actual values that may be realized by the named executive officers in connection with these awards may be materially different from these amounts when ultimately realized upon sale of the shares.

Nonqualified Deferred Compensation Plan

In order to enhance our ability to attract and retain qualified employees, our Board has approved the Plan, which is intended to comply with the requirements of Section 409A of the Code. The Plan is administered by the Committee, and is intended to be an unfunded plan which is maintained primarily to provide deferred compensation benefits for a select group of our employees including the named executive officers. Under the Plan, we will provide the participants with the opportunity to make annual elections to defer up to a specified amount or percentage of their eligible cash compensation, as established by the administrator, and we have the option, but not the obligation, to make discretionary or matching cash contributions.

The Plan provides eligible participants the opportunity to defer up to 75% of base salary and up to 100% of bonus. We have the option, but not the obligation, to make discretionary or matching cash contributions. Deferral accounts will be credited with a rate of return (positive or negative) based on the performance of the deemed investment options selected by the participant. The value of the accounts may increase or decrease depending upon the performance of the selected investment options. For each annual deferral, the participant may designate a specific distribution date prior to separation from service (called an “In-Service” distribution account) or distribution upon separation from service. In-Service distribution account(s) are paid in the month following the month selected by the participant in the elected year that is at least three years after the plan year to which the deferral election relates.

In 2017, we matched participants’ deferrals up to 10% of eligible compensation. Our match generally vests three years after the date of deferral. However, contributions become 100% vested upon the occurrence of the earliest of: (i) retirement; (ii) death of the participant; (iii) disability of the participant; and (iv) change of control of the Company, each as defined in the Plan.

The following table summarizes activity under the Plan in 2017:

(2)

These amounts were also reported in the column entitled “All Other Compensation” in the Summary Compensation Table, and were not paid in addition to such amounts.

\$30,000, \$73,500, 64,208 and \$185,063 of the amounts reflected in the “Balance as of 12/31/17” column for each of (3) Messrs. Turgeon, Gustafson, Riga and Dr. Shrotriya, respectively, were reported in the column entitled “All Other Compensation” in the Summary Compensation Table in previous years.

Employment, Severance and Change in Control Agreements

We have entered into employment arrangements and Change in Control Severance Agreements with our named executive officers. The terms of the various agreements are discussed below.

We entered into an employment agreement with Dr. Shrotriya on January 2, 2008, as amended April 17, 2014. The employment agreement included severance benefits triggered by a termination of employment without cause, which occurred on December 17, 2017. The severance benefits for a termination without cause are the right to receive (a) a lump sum payment equivalent to the aggregate of two years' cash compensation (base salary, cash bonus and the vehicle allowance paid to Dr. Shrotriya pursuant to Dr. Shrotriya's employment agreement); (b) Company-paid continued coverage for Dr. Shrotriya and his eligible dependents under our existing health and benefit plans for two years; and (c) immediate vesting of all options, restricted shares and other equity-based awards granted to Dr. Shrotriya. Dr. Shrotriya will have three years to exercise all vested equity based awards. The value of these benefits as of December 17, 2017, including the value of all unvested equity awards that became vested on that date, was \$5.6 million.

In March 2014, we entered into a Change in Control Severance Agreement, referred to as the Severance Agreement, with each of our named executive officers. Under each Severance Agreement, severance benefits are payable to the eligible officer if, during the term of the Severance Agreement, and within 12 months after a Change in Control (as defined in the Severance Agreement) has occurred, the eligible officer's employment is terminated by us other than for Cause or the eligible officer resigns for Good Reason (each as defined in the Severance Agreement). Severance benefits under the Severance Agreement include: (i) the continuation of current base salary for a period of 12 months following termination of employment (24 months in the case of Mr. Turgeon, in accordance with his first amendment entered into in February 2015), and (ii) the payment of accrued benefits. Additionally, pursuant to the terms of Mr. Turgeon's second amendment entered into in August 2015, his severance benefits also include (x) any earned and accrued but unpaid bonus with respect to fiscal years prior to the year of termination, and (y) a lump sum payment equal to one hundred twenty percent (120%) of his annual base salary. The purpose of the Severance Agreements is, among other things, to provide the eligible officers with enhanced financial security and sufficient incentive and encouragement to remain in our employ prior to and during the completion of a Change in Control.

In April 2018, we entered into new employment agreements with Messrs. Turgeon, Gustafson and Riga which superseded the prior Change in Control Severance Agreements (the "Employment Agreements"). Under the terms of the Employment Agreements, if any executive is terminated by the Company for Cause (as defined in the Employment Agreements), or if any executive terminates his employment without Good Reason (as defined in the Employment Agreements), in each case, other than following a Change of Control (as defined in the Employment Agreements), such executive will be entitled to any unpaid base salary and benefits accrued through the date of termination.

If any executive is terminated by the Company without Cause, or if any executive terminates his employment with Good Reason, in each case, other than following a Change of Control, such executive will be entitled to receive any unpaid base salary and benefits accrued through the date of termination, as well as a lump sum payment equal to two years of base salary and two times the previous year's bonus, as well as 18 months of Company-paid continued coverage for such executive and his dependents under the Company's existing health and benefit plans. Such executive will also immediately vest in all options, restricted stock and other equity incentive compensation, and will vest in his performance-based awards pro rata based on the target award for such performance-based awards and the number of days he was employed by the Company during the applicable performance period, irrespective of actual performance.

If any executive is terminated by the Company without Cause, or if any executive terminates his employment with Good Reason, in each case, within 12 months following a Change of Control, such executive will be entitled to receive any unpaid base salary and benefits accrued through the date of termination, as well as two years of base salary (to be paid on a monthly basis over

40

a 24-month period following termination) and a lump sum payment equal to two times the previous year's bonus, as well as 18 months of Company-paid continued coverage for such executive and his dependents under the Company's existing health and benefit plans. Such executive will also vest in all options, restricted stock and other equity incentive compensation immediately upon consummation of the Change of Control, and will vest in his performance-based awards pro rata based on the target award for such performance-based awards and the number of days he was employed by the Company before the Change of Control during the applicable performance period, irrespective of actual performance.

All severance payments due to an executive's termination without Cause or with Good Reason are subject to the execution and delivery of a general waiver and release of claims within 90 days of termination.

Compensation and Benefits

Pursuant to the terms of each employment arrangement, the named executive officers will receive an annual base salary as stated in the definitive document, subject to adjustment by the Committee. Mr. Turgeon is eligible for a performance bonus of up to 70% of his base salary. Each of Messrs. Riga and Gustafson are eligible for a performance bonus of up to 50% of his base salary. The employment arrangements also provide for certain additional equity awards for each of the named executive officers. Our Committee may, in its sole discretion, award bonuses of cash, stock, or stock options from time to time to each of the named executive officers.

Under the employment arrangements, each named executive officer is entitled to receive additional employment benefits, including the right to participate in certain incentive plans, life, medical and dental benefits, and other standard benefits.

For additional information, see "Summary Compensation Table" earlier in this report.

Termination

As discussed above, each of the named executive officer's employment arrangement is "at-will" for no specified term, and may be terminated by the named executive officer or us at any time for any reason or for no reason.

Potential Payments upon Termination or Following a Change in Control

The table below reflects the amount of compensation to be paid to or earned by each of our named executive officers in the event of the termination of such executive's employment with us under different circumstances. The table describes, for each named executive officer, the amount of compensation payable upon (i) resignation without reason, (ii) death, (iii) disability, (iv) involuntary termination without cause, or resignation for good reason, (v) involuntary termination for cause or (vi) termination following a change in control of the Company (other than for cause or without good reason). Where applicable, the amounts shown assume that the termination was effective as of the last trading day of 2017, and use the closing price per share of our common stock on such date of \$18.95. The amounts set forth in the table only reflect estimates of the amounts that would actually be paid out in connection with a particular termination event. The actual amounts to be paid out with respect to any particular termination can only be determined at the time of an executive's termination.

Annual Grants

In June 2017, each of our non-employee directors was granted options to purchase 20,000 shares of our common stock at an exercise price of \$6.48 per share, the closing price of our common stock on the date immediately prior to the date of grant, subject to the terms of the 2009 Plan. The options vest as to 25% of the shares on the date of grant, and the remaining shares vest in three equal installments on each anniversary of the date of grant, subject to each director's continued service through such date. In addition, each non-employee director was also issued 10,000 shares of restricted stock under the 2009 Plan. The restricted stock will vest 100% on June 13, 2018, subject to each director's continued service through such date.

The following table shows compensation for our non-employee directors for the fiscal year ended December 31, 2017. Directors who were employees did not receive any compensation for their service as directors.

All of our directors, including our President and Chief Executive Officer, are subject to a stock ownership policy as described in more detail under the section entitled “Corporate Governance-Stock Ownership Policy.”

Risk Assessment of Compensation Policies and Practices

The Committee has considered the concept of risk as it relates to our executive compensation program. The Committee believes that, for the reasons set forth below, although the majority of compensation provided to our named executive officers is at-risk, our executive compensation programs do not encourage excessive risk taking and encourage our executive officers to remain focused on appropriate short-term and long-term financial and strategic goals that are tied to the creation of long-term value for our stockholders.

Our executive compensation program consists of an appropriate mix of guaranteed pay (salary, benefits and perquisites) and at-risk pay (annual cash bonuses and equity incentive awards) and the Committee reviews this mix annually. The guaranteed portion is designed to provide a minimum compensation base that is necessary to attract and retain executives, as well as to provide meaningful income to the executives regardless of stock price performance so that executives do not feel pressured to focus exclusively on stock price performance and other financial performance targets to the detriment of other important business metrics.

Our program establishes appropriate financial and strategic performance goals that are designed to advance our business objectives and encourage the creation of long-term value for our stockholders (as opposed to just short-term increases in our stock price). These performance goals reflect a mix of Company financial and strategic goals, and individual performance goals, so as not to place too much emphasis on any particular type of objective at the expense of others.

Our program encourages executive retention through both time-based and performance-based vesting provisions of our equity incentive awards. Our restricted stock and stock option equity awards generally vest over three or four years after their initial grant. Our performance-based unit awards vest based upon a measurement of our relative TSR

over a two-year measurement period.

45

A significant portion of our equity incentive awards are granted in the form of stock options and performance-based units, which are only valuable if our stock price increases over time. This serves to align the interests of our executives with those of our stockholders.

The Committee retains ultimate oversight over the compensation of our named executive officers and maintains the ability to use discretion where appropriate.

Our internal controls and procedures, as well as our codes of conduct and ethics, also help mitigate risks associated with our executive compensation program.

Based on these considerations, the Committee has concluded that any risks arising from our executive compensation program are not reasonably likely to have a material adverse effect on us and do not encourage or place incentives on excessive or inappropriate risk-taking by our named executive officers or other employees.

Chief Executive Officer vs. Median Employee Pay Ratio

Presented below is the ratio of annual total compensation of Mr. Joseph W. Turgeon, our Chief Executive Officer, to the annual total compensation of our median employee (excluding our Chief Executive Officer), which we believe was calculated in a manner consistent with Item 402(u) of Regulation S-K under the Exchange Act.

Annual total compensation for the fiscal year ended December 31, 2017 was \$2,350,385 for our Chief Executive Officer and \$163,390 for our median employee. These amounts were determined in accordance with SEC rules and included (as applicable): (i) base salary or hourly wages, (ii) cash bonuses, (iii) commissions, (iv) stock-based compensation, (v) matching contributions under our nonqualified deferred compensation plan, and (vi) taxable fringe benefits. As calculated in this manner, the ratio of our Chief Executive Officer's total compensation to our median employee's total compensation for 2017 is approximately 14 to 1.

In identifying our median compensated employee, we used the W-2 "Box 1" amount for each U.S. employee for the year ended December 31, 2017. Comparable cash elements of compensation in non-U.S. jurisdictions were also used for 14 non-resident employees in India. All compensation amounts were annualized for permanent employees who did not work for the entire year, such as new hires and employees on paid or unpaid leaves of absence.

We selected the median employee from among 222 full-time and part-time workers who were employed as of December 31, 2017 (as permitted by Item 402(u) of Regulation S-K, we excluded three Canadian employees pursuant to the de minimis exemption for foreign employees). The CEO pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules based on the methodologies and assumptions described above. SEC rules for identifying the median employee and determining the CEO pay ratio permit companies to employ a wide range of methodologies, estimates and assumptions. As a result, the CEO pay ratios reported by other companies, which may have employed other permitted methodologies or assumptions and which may have a significantly different work force structure from ours, are likely not comparable to our CEO pay ratio.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Equity Compensation Plan Information

The following table summarizes all of our equity compensation plans, including those approved by stockholders and those not approved by stockholders, as of December 31, 2017.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants or Rights (a)	Weighted-average Exercise Price of Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders ⁽¹⁾⁽²⁾	13,857,213	\$6.89	14,582,888
Equity compensation plans not approved by security holders ⁽³⁾	445,000	\$6.78	—
Employee Stock Purchase Plan approved by security holders	—	—	8,968,654
Total	14,302,213	\$6.84	23,551,542

We currently have two stock incentive plans: the 2003 Amended and Restated Incentive Award Plan (the “2003 Plan”), and the 2009 Plan, each of which have been approved by our Board and stockholders. Subsequent to the (1) adoption of the 2009 Plan, no new options have been granted pursuant the 2003 Plan, however awards outstanding under the 2003 Plan continued to be governed by its terms, and our Board may not grant additional awards under the 2003 Plan.

The Board and the stockholders initially approved 10,000,000 shares of common stock available for issuance under the 2009 Plan. Beginning on January 1, 2010, and on each January 1st thereafter during the term of the 2009 Plan, (2) the number of shares of common stock available for issuance under the 2009 Plan will increase by the greater of (i) 2,500,000 and (ii) a number of shares such that the total number of shares of common stock available for issuance under the 2009 Plan will equal 30% of the number of shares of common stock then issued and outstanding. As of April 2, 2018, a total of 103,935,398 shares were authorized for issuance under the 2009 Plan.

The amount in column (a) reflects the number of shares of our common stock that are issuable upon exercise of (3) warrants issued to certain non-employees under plans approved by our Board that are not required to be approved by our stockholders pursuant to the NASDAQ Listing Rules.

Security Ownership of Certain Beneficial Owners, Executive Officers and Directors

Based on information publicly filed and provided to us by certain holders, the following table shows the amount of our common stock beneficially owned as of April 2, 2018 (unless otherwise indicated) by holders of more than 5% of the outstanding shares of common stock, other than with respect to Dr. Rajesh C. Shrotriya (our former Chairman and Chief Executive Officer) whose ownership is included in the second table below. Beneficial ownership is determined

in accordance with the rules of the SEC and generally includes voting and/or investment power with respect to our common stock, unless footnoted to the contrary. Under these rules, shares of common stock subject to any option, warrant or right that is exercisable or convertible within 60 days of April 2, 2018 are deemed beneficially owned and outstanding for computing the percentage ownership of the individual or entity holding such securities, but are not considered outstanding for computing the percentage ownership of any other person.
