NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and include all adjustments that, in the opinion of management, are necessary for a fair presentation of the results of the periods presented. All such adjustments are considered of a normal recurring nature. Quarterly results of operations are not necessarily indicative of annual results.

Certain financial information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended January 28, 2006 and the notes thereto contained in our Annual Report on Form 10-K for the year ended January 28, 2006.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates and assumptions.

We have also experienced, and expect to continue to experience, significant variability in sales and net income from quarter to quarter. Therefore, the results of the interim periods presented herein are not necessarily indicative of the results to be expected for any other interim period or the full year.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Stock-Based Compensation

On January 29, 2006, we adopted the provisions of SFAS No. 123(R), *Share-Based Payment* which revises SFAS No. 123, *Accounting for Stock-Based Compensation*, and supersedes APB Opinion 25, *Accounting for Stock Issued to Employees*. SFAS No. 123(R) requires us to recognize expense related to the fair value of our stock-based compensation awards, including employee stock options.

Prior to the adoption of SFAS No. 123(R), we accounted for stock-based compensation awards using the intrinsic value method of APB Opinion 25. Accordingly, we did not recognize compensation expense in our statement of income for options we granted that had an exercise price equal to the market value of the underlying common stock on the date of grant. However, we did record compensation expense related to restricted stock units based on the market value of our stock at the date of grant. As required by SFAS No. 123, we also provided certain pro forma disclosures for stock-based awards as if the fair-value-based approach of SFAS No. 123 had been applied.

We have elected to use the modified prospective transition method as permitted by SFAS No. 123(R) and, therefore, have not restated our financial results for prior periods. Under this transition method, we have applied the provisions of SFAS No. 123(R) to new awards and to

Edgar Filing: BOOKS A MILLION INC - Form 10-Q

awards modified, repurchased or cancelled after January 29, 2006. In addition, we will recognize compensation cost for the portion of awards for which the requisite service has not been rendered (unvested awards) that are outstanding as of January 29, 2006, as the remaining service is rendered. The compensation cost we record for these awards will be based on their grant-date fair value as calculated for the pro forma disclosures required by SFAS No. 123.

Our pre-tax compensation cost for stock-based employee compensation was \$1,082,000 (\$668,000 net of taxes) and \$287,000 (\$177,000 net of taxes) for the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively. As a result of the adoption of SFAS No. 123(R), our financial results were lower than under our previous accounting method for share-based compensation by the following amounts:

	Thirteen Weeks	Thirty-Nine Weeks
	Ended	Ended
	October 28, 2006	October 28, 2006
Income from continuing operations before income taxes	\$148,000	\$443,000
Income from continuing operations	\$92,000	\$274,000
Net income	\$92,000	\$274,000
Basic and diluted net earnings per common share	\$0.01	\$0.02

BOOKS-A-MILLION, INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

Prior to the adoption of SFAS No. 123(R), we presented all tax benefits resulting from the exercise of stock options as operating cash flows in the Consolidated Statements of Cash Flows. SFAS No. 123(R) requires that cash flows from the exercise of stock options resulting from tax benefits in excess of recognized cumulative compensation cost (excess tax benefits) be classified as financing cash flows. For the thirteen and thirty-nine weeks ended October 28, 2006, \$435,000 and \$2,570,000 of such excess tax benefits were classified as financing cash flows, respectively.

Stock Option Plan

In April 1999, the Company adopted the Stock Option Plan which provided for option grants to executive officers, directors, and key employees. Upon the approval of the 2005 Incentive Award Plan by the Company's stockholders at the Company's annual meeting held in June 2005, the board determined that no more awards would be made under the Stock Option Plan. Options previously issued under the Stock Option Plan remain valid. All options granted prior to January 9, 2001 vested over a five-year period and expired on the sixth anniversary of the date of grant, and all options granted on and after January 9, 2001 vest over a three-year period and expire on the tenth anniversary of the date of grant. All options have exercise prices equal to the fair market value of the common stock on the date of grant. A summary of the status of the Stock Option Plan is as follows (*shares in thousands*):

	Thirty-Nine Weeks Ended October 28, 2006	
	Shares	Weighted Average Exercise Price

Options forfeited	(2)	\$5.67
Options outstanding at end of period	274	\$5.07
Options exercisable at end of period	199	\$4.56

The total intrinsic value of stock options exercised during the thirty-nine weeks ended October 28, 2006 was \$6,828,000.

The following table summarizes information about stock options granted pursuant to the Stock Option Plan that are outstanding and exercisable under the Stock Option Plan at October 28, 2006 (*shares in thousands*):

2005 Incentive Award Plan

On June 1, 2005, the stockholders of the Company approved the adoption of the Books-A-Million, Inc. 2005 Incentive Award Plan (the 2005 Plan) for a total of 300,000 shares. On June 8, 2006, the stockholders of the Company approved an additional 300,000 shares to be awarded under the Plan. An aggregate of 600,000 shares of common stock may be awarded under the 2005 Plan. From June 1, 2005 through July 29, 2006, awards under the 2005 Plan consisted solely of awards of restricted stock.

There are two types of restricted stock awards to employees. The first type of restricted stock award is career based shares. Career based shares are completely unvested until the last day of the fifth fiscal year after the date of the grant whereupon such career based shares vest in full if the employee who received the grant is then employed by the Company. The compensation expense for these shares is recognized ratably over the five-year requisite service period. The second type of restricted stock award is performance based shares. Performance based shares are earned based on the achievement of certain performance goals for the fiscal year in which they are granted. If the performance goals are met, the performance based shares vest in 50% increments at the end of the first and second fiscal years after the fiscal year in which they were granted if the employee who received the grant is then employed by the Company. Compensation expense for these shares is recognized ratably over the period beginning on the date the Company determines that it is probable the performance goals will be achieved and ending on the last day of the vesting period.

Additionally, there are annual restricted stock grants to directors. Each director who has served at least eleven consecutive months as of the Company's annual meeting of stockholders receives a restricted stock grant, which shares of restricted stock vest in one-third increments on each of the first, second and third anniversaries of the grant date. The expense related to the directors' grants is recognized ratably over the three-year vesting period.

Executive Incentive Plan

The Company maintains an Executive Incentive Plan (the Incentive Plan); however, no new grants after the fiscal 2006 performance period are being awarded under the Incentive Plan. The Incentive Plan provides for awards to certain executive officers of either cash or shares of restricted stock. The Company has always issued awards in the form of restricted stock. Issuance of awards under the Incentive Plan is based on the Company achieving pre-established performance goals during a three consecutive fiscal year performance period. Awards issued under the Incentive Plan for a particular performance period vest on the third anniversary of the last day of such performance period if the recipient remains employed by the Company on such vesting date. Awards under the Incentive Plan are expensed ratably over the period from the date that the issuance of such awards becomes probable through the end of the restriction period. The final grant for the Incentive Plan was awarded in March 2006. There will be no future awards under the Incentive Plan.

Restricted Stock Table

Other Information

As of October 28, 2006, we have \$2,826,000 of total unrecognized compensation cost related to non-vested awards granted under our various share-based plans, which we expect to recognize over the following fiscal years:

Fiscal Year	Stock-based Compensation Expense
2007	\$ 579,000
2008	\$1,093,000
2009	\$ 719,000
2010	\$ 251,000
2011	\$ 184,000
Total	\$2,826,000

We received cash from options exercised during the first thirty-nine weeks of fiscal years 2007 and 2006 of \$1,673,000 and \$2,636,000, respectively. The impact of these cash receipts is included in financing activities in the accompanying Condensed Consolidated Statements of Cash Flows.

The number of shares of common stock currently reserved under the 2005 Plan for stock-based compensation programs as of October 28, 2006 is 353,000 shares.

2. Net Income Per Share

Basic net income per share (EPS) is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock are exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. Diluted EPS has been computed based on the weighted average number of shares outstanding including the effect of outstanding stock options and restricted stock, if dilutive, in each respective thirteen and thirty-nine week period. A reconciliation of the weighted average shares for basic and diluted EPS is as follows:

For the Thirteen Weeks Ended

4. Derivative and Hedging Activities

The Company is subject to interest rate fluctuations involving its credit facilities and debt related to an industrial development revenue bond (the Bond). However, the Company has used fixed interest rate hedges in the past to manage a portion of this exposure. The Company entered into a \$7.5 million interest rate swap in May 1996 that expired on June 7, 2006 and effectively fixed the interest rate on the Bond during that period at 8.73% (the Bond Hedge). The Company did not replace the Bond Hedge when it expired.

Prior to its expiration, the Bond Hedge was reported as a liability in the accompanying condensed consolidated balance sheets at a fair value of \$0 and \$61,000 as of October 28, 2006 and January 28, 2006, respectively. For the thirteen weeks ended October 28, 2006 and October 29, 2005, respectively, adjustment gains of \$0 (net of tax provision of \$0) and \$21,000 (net of tax provision of \$12,000), and in the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively, adjustment gains of \$7,000 (net of tax provision of \$4,000) and \$130,000 (net of tax provision of \$85,000) were recorded as unrealized gains in accumulated other comprehensive income (loss) and are detailed in Note 5.

5. Comprehensive Income (Loss)

Comprehensive income (loss) is net income plus certain other items that are recorded directly to stockholders' equity. The only such items currently applicable to the Company are the unrealized gains on the hedges explained in Note 4, as follows:

6. Commitments and Contingencies

The Company is a party to various legal proceedings incidental to its business. In the opinion of management, after consultation with legal counsel, the ultimate liability, if any, with respect to those proceedings is not presently expected to materially affect the financial position, results of operations or cash flows of the Company.

From time to time, the Company enters into agreements that require the Company to indemnify parties against third party claims under certain circumstances. Generally these agreements relate to: (a) agreements with vendors and suppliers under which the Company may provide customary indemnification to its vendors and suppliers in respect of actions they take at the Company's request or otherwise on its behalf; (b) agreements with vendors who publish books or manufacture merchandise specifically for the Company to indemnify vendors against trademark

and copyright infringement claims concerning the books published or merchandise manufactured on behalf of the Company; (c) real estate leases, under which the Company may agree to indemnify the lessors from claims arising from the Company's use of the property; and (d) agreements with the Company's directors, officers and employees, under which the Company may agree to indemnify such persons for liabilities arising out of their relationship with the Company. The Company has Directors and Officers Liability Insurance, which, subject to the policy's conditions, provides coverage for indemnification amounts payable by the Company with respect to its directors and officers up to specified limits and subject to certain deductibles.

The nature and terms of these indemnities vary. The events or circumstances that would require the Company to perform under these indemnities are transaction and circumstance specific. Generally, the Company's maximum liability under such indemnities is not explicitly stated, and, therefore, the overall maximum amount of the Company's obligations cannot be reasonably estimated. Historically, the Company has not incurred significant costs related to performance under these types of indemnities. No liabilities have been recorded for these

obligations on the Company's balance sheet at October 28, 2006 and January 28, 2006 as such liabilities are considered *de minimis*.

The Company is subject to potential ongoing sales and use tax audits, income tax audits and other tax issues for both its retail and internet segments. It is the policy of the Company to estimate any potential tax contingency liabilities based on various factors such as ongoing state and federal tax audits, historical results of audits at the state or federal level and specific tax issues. Accruals for potential tax contingencies are recorded by the Company when it is deemed to be probable that a liability will be incurred and the liability can be reasonably estimated.

The Company has two reportable segments, retail trade and electronic commerce trade. The retail trade segment is a strategic business segment that is engaged in the retail trade of mostly book merchandise and includes the Company's distribution center operations, which predominantly supplies merchandise to the Company's retail stores. The electronic commerce trade segment is a strategic business segment that transacts business over the internet and is managed separately due to divergent technology and marketing requirements.

The accounting policies of the segments are substantially the same as those described in the Company's Fiscal 2006 Annual Report on Form 10-K. The Company evaluates performance of the segments based on net income from operations before interest and income taxes. Certain intersegment cost allocations have been made based upon consolidated and segment revenues.

9. Recent Accounting Pronouncements

In February 2006 the Financial Accounting Standards Board (FASB) issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments an amendment of FASB Statements No. 133 and 140* (SFAS No. 155). SFAS No. 155 provides entities with relief from having to separately determine the fair value of an embedded derivative that would otherwise be required to be bifurcated from its host contract in accordance with SFAS No. 133. It will also allow an entity to make an irrevocable election to measure such a hybrid financial instrument at fair value in its entirety, with changes in fair value recognized in earnings. SFAS No. 155 is effective for all instruments acquired, issued or subject to a re-measurement (new basis) event occurring after the beginning of an entity's first fiscal year that begins after September 15, 2006. The adoption of SFAS No. 155 is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In March 2006 FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets an amendment of FASB Statement No. 140* (SFAS No. 156). SFAS No. 156 requires an entity to recognize a servicing asset or servicing liability at fair value each time it undertakes an obligation to service a financial asset by entering into a servicing contract under certain situations. The Company is required to adopt SFAS No. 156 as of the beginning of its fiscal year that begins after September 15, 2006. The adoption of SFAS No. 156 is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In June 2006 FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. The interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The interpretation is effective for fiscal years beginning after December 15, 2006. The Company has not yet determined the impact of the adoption of FIN 48 on its financial statements.

In September 2006, FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 was issued to provide increased consistency and comparability in fair value measurements. Specifically, SFAS No. 157 creates a significant definition of fair value emphasizing fair value as a market-based measurement. The Company is required to adopt SFAS No. 157 as of the beginning of its fiscal year that begins after November 15, 2007. The adoption of SFAS No. 157 is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In September 2006, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin No. 108 *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108), in which the Staff provides guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of assessing materiality. The Company will adopt SAB 108 as of January 31, 2007, as required. The cumulative effect, if any, of applying the provisions of SAB 108 will be reported as an adjustment to retained earnings. The adoption of SAB 108 is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

10. Debt

The Company's current credit facility allows for unsecured borrowing up to \$100 million. In July 2006, the Company amended and extended its credit facility to provide for better pricing terms and an extension of the maturity date to July 1, 2011.

In August 2006, the Company obtained two amendments to its credit agreement. These were the fourth and fifth amendments, respectively. The fourth amendment increased the limit on unsecured indebtedness, exclusive of the credit facility. The fifth amendment revised certain debt covenants and allowed the Company to purchase an increased amount of its own stock.

The Company also has \$7.2 million of outstanding borrowings under loans made pursuant to an industrial development revenue bond (the Bond), which is secured by certain property. The Bond has a maturity date of December 1, 2019 with a purchase provision obligating the Company to repurchase the Bond on May 30, 2007, unless extended by the bondholder. As of December 5, 2006 the Company has obtained a commitment letter from a bank to purchase the Bond from the existing bondholder, and it is expected that the new bondholder will extend the date of the Company's purchase obligation of the Bond until July 1, 2011.

11. Discontinued Operations

Discontinued operations represent the fiscal 2007 closure of one retail store in a Georgia market and the fiscal 2006 closure of two retail stores in markets located in Tennessee and West Virginia where the Company does not expect another of its existing stores to absorb the closed stores customers. For the thirteen week periods ended October 28, 2006 and October 29, 2005, these stores had net sales of \$0 and \$351,000, respectively, and pretax operating losses of \$12,000 and \$31,000, respectively. Store closing costs were \$0 for the thirteen weeks ended October 28, 2006 and October 29, 2005. For the thirty-nine week periods ended October 28, 2006 and October 29, 2005, these stores had net sales of \$139,000 and \$1.2 million, respectively, and pretax operating losses of \$89,000 and \$86,000, respectively. Also included in the loss on discontinued operations are store closing costs of \$9,000 and \$20,000 for the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively. Expenses relating to store closings when the store is not classified as a discontinued operation are reported in operating, selling and administrative expenses. If the store is closed and another store is in the same market and the cash flows are expected to be materially recovered, the store is not considered a discontinued operation.

12. Stock Repurchase Programs

On June 8, 2006, the Board approved a new stock repurchase program. The program authorized the repurchase of up to \$10 million in shares of the Company's common stock, but no specific number of shares was approved. This stock repurchase program replaced the program that was in effect from March, 2004 through June, 2006.

Edgar Filing: BOOKS A MILLION INC - Form 10-Q

On August 23, 2006, the Board approved an additional stock repurchase program. This program authorized the repurchase of up to \$25 million in shares of the Company's common stock. This program is in addition to the previous program to repurchase up to \$10 million in shares of common stock that began in June, 2006.

13. Insurance Gain

For the thirteen weeks ended October 28, 2006 and October 29, 2005, the Company recognized insurance gains of \$86,000 and \$770,000, net of taxes, related to insurance recoveries for hurricane damage suffered at certain stores in the third quarter of fiscal 2005 and fiscal 2006. The insurance recovery amounts were finalized with the insurance company during the third quarter of fiscal 2006 (for stores damaged by hurricanes in fiscal 2005) and 2007 (for stores damaged by hurricanes in fiscal 2006), and therefore the gains were recorded in the respective periods.

General

We were founded in 1917 and currently operate 208 retail bookstores, including 178 superstores, concentrated in the southeastern United States.

Our growth strategy is focused on opening superstores in new and existing market areas, particularly in the Southeast. In addition to opening new stores, management intends to continue its practice of reviewing the profitability trends and prospects of existing stores and closing or relocating under-performing stores or converting stores to different formats.

Comparable store sales are determined each fiscal quarter during the year based on all stores that have been open at least 12 full months as of the first day of the fiscal quarter. Any stores closed during a fiscal quarter are excluded from comparable store sales as of the first day of the quarter in which they close.

CONDITION AND RESULTS OF OPERATIONS

The following table sets forth net sales data for the thirteen weeks and the thirty-nine weeks ended October 28, 2006 and October 29, 2005:

Segment Information (in thousands)

Net Sales	Thirteen Weeks Ended				Thirty-Nine Weeks Ended			
	October 28, 2006	October 29, 2005	\$ Change	% Change	October 28, 2006	October 29, 2005	\$ Change	% Change

Net Sales	\$110,692	\$107,638	3,054	2.8%	\$345,648	\$341,958	\$3,690	1.1%

For the thirteen weeks ended October 28, 2006, the 3.3% increase in net sales for the retail trade segment was primarily due to higher comparable store sales this year. Comparable store sales in the thirteen weeks ended October 28, 2006 increased 2.3% when compared with the same thirteen week period for the prior year. For the thirty-nine weeks ended October 28, 2006, the increase in net sales for the retail trade segment was primarily due to new stores opened during fiscal 2007. Comparable store sales increased 0.2% for the thirty-nine weeks ended October 28, 2006 when compared with the same thirty-nine week period for the prior year. The increase in comparable store sales for the thirteen and thirty-nine week periods was primarily due to higher sales in the book department. The book sales increase was driven by strong sales in categories such as Political, Adventure, Pets and Inspirational. The decrease in net sales for the electronic commerce segment for the thirteen-week period was primarily due to lower business-to-business sales volume. The decrease in net sales for the electronic commerce segment for the thirty-nine week period was primarily due to sales of *Harry Potter and the Half Blood Prince* during fiscal 2006, which were not replaced in fiscal 2007. .

Gross profit increased \$1.0 million, or 3.6%, to \$29.1 million in the thirteen weeks ended October 28, 2006 when compared with \$28.1 million in the same thirteen week period for the prior year. For the thirty-nine weeks ended October 28, 2006, gross profit increased \$3.0 million, or 3.2%, to \$96.6 million from \$93.6 million in the same period last year. Gross profit as a percentage of net sales for the thirteen weeks ended October 28, 2006 was 26.3% versus 26.2% in the same period last year. Gross profit as a percentage of sales for the thirty-nine weeks ended October 28, 2006 was 28.0% versus 27.4% in the same period last year. The increase in gross profit as a percentage of net sales for the thirty-nine week period was primarily due to fewer promotional markdowns, including promotional markdowns related to sales of *Harry Potter and the Half Blood Prince*, in the thirty-nine week period versus the corresponding periods for the previous year.

Operating, selling and administrative expenses were \$26.2 million in the thirteen-week period ended October 28, 2006 compared to \$26.4 million in the same period last year. Operating, selling and administrative expenses as a percentage of net sales for the thirteen weeks ended October 28, 2006 decreased to 23.6% from 24.6% in the same period last year. The decrease in operating, selling and administrative expenses stated as a percentage of net sales for the thirteen-week period was primarily due to sales leverage from increased comparable store sales, as well as lower costs incurred for professional fees associated with Sarbanes-Oxley compliance work in the current year. For the thirty-nine weeks

Edgar Filing: BOOKS A MILLION INC - Form 10-Q

ended October 28, 2006, operating, selling and administrative expenses were \$80.0 million compared to \$78.7 million in the same period last year. Operating, selling and administrative expenses as a percentage of net sales for the thirty-nine weeks ended October 28, 2006 increased slightly to 23.1% from 23.0% in the same period last year. The increase in operating, selling and administrative expenses for the thirty-nine week period was primarily due to increased expense related to higher stock-based compensation expense partially offset by lower costs incurred for professional fees associated with Sarbanes-Oxley compliance work in the current year.

Depreciation and amortization decreased 12.8% to \$3.4 million in the thirteen week period ended October 28, 2006, compared to \$3.9 million in the same period last year. In the thirty-nine week period ended October 28, 2006, depreciation and amortization decreased 12.6% to \$10.4 million from \$11.9 million in the same period last year. The decrease in depreciation and amortization expense was due to the impact of certain assets becoming fully depreciated during the prior year. The higher capital expenditures in previous years was due to more new store openings and a more aggressive remodel program in the prior years.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL

CONDITION AND RESULTS OF OPERATIONS

The following table sets forth operating income data for the thirteen weeks and the thirty-nine weeks ended October 28, 2006 and October 29, 2005:

Operating Income (Loss)	<u>Thirteen Weeks Ended</u>				<u>Twenty-Nine Weeks Ended</u>			
	October 28, 2006	October 29, 2005	\$ Change	% Change	October 28, 2006	October 29, 2005	\$ Change	% Change
Retail Trade	\$(672)	\$(1,398)	\$726	51.9%	\$5,757	\$3,862	\$1,895	49.1%
Electronic Commerce Trade	454	478	(24)	(5.0%)	1,077	650	427	65.7%
Intersegment Elimination of Certain Costs	(84)	(86)	2	2.3%	(415)	(188)	(227)	(120.7%)
Total Operating Income	\$(302)	\$(1,006)	\$704	70.0%	\$6,419	\$4,324	\$2,095	48.5%

The improvement in operating results for the retail trade segment for the thirteen week period was due to higher net sales coupled with slightly better margins and lower operating expenses and depreciation. This improvement was partially offset by higher insurance gains in the prior year period. The slight decline in operating results for the electronic commerce segment for the thirteen week period was due to lower net sales which were partially offset by lower costs incurred for shipping and warehouse handling.

The improvement in operating results for the retail trade segment for the thirty-nine week period was partially due to improved gross profit as a percentage of sales due to lower discounts versus last year, which included the discounts related to sales of *Harry Potter and the Half Blood Prince*, as well as to lower depreciation expense due to capital expenditures made in prior years becoming fully depreciated in the current period. Even though net sales for the electronic commerce segment for the thirty-nine week period ended October 28, 2006 decreased slightly, operating income for the electronic commerce segment increased compared with the same period last year primarily due to lower costs incurred for shipping and warehouse handling.

Interest expense was \$64,000 in the thirteen weeks ended October 28, 2006 versus \$0.4 million in the same period last year and \$0.2 million in the thirty-nine weeks ended October 28, 2006 versus \$1.2 million in the same period last year. The decrease was primarily due to lower average debt balances compared with the prior year.

Discontinued operations represent the fiscal 2007 closure of one retail store in a Georgia market and the fiscal 2006 closure of two retail stores in markets located in Tennessee and West Virginia where the Company does not expect another of its existing stores to absorb the closed stores customers. For the thirteen-week periods ended October 28, 2006 and October 29, 2005, these stores had net sales of \$0 and \$351,000, respectively, and pretax operating losses of \$12,000 and \$31,000, respectively. Store closing costs were \$0 for the thirteen weeks ended October 28, 2006 and October 29, 2005. For the thirty-nine week periods ended October 28, 2006 and October 29, 2005, these stores had net sales of \$139,000 and \$1.2 million, respectively, and pretax operating losses of \$89,000 and \$86,000, respectively. Also included in the loss on discontinued operations are store closing costs of \$9,000 and \$20,000 for the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively. Expenses relating to store closings when the store is not classified as a discontinued operation are reported in operating, selling and administrative expenses. If the store is closed and another store is in the same market and the cash flows are expected to be materially recovered, the store is not considered a discontinued operation.

Liquidity and Capital Resources

The Company's primary sources of liquidity are cash flows from operations, including credit terms from vendors, and borrowings under its credit facility. The Company has an unsecured revolving credit facility that allows borrowings up to \$100 million, for which no principal repayments are due until the facility expires in July 2011. The credit facility has certain financial and non-financial covenants, the most restrictive of which is the maintenance of a minimum fixed charge coverage ratio. The Company is in compliance with all of the covenants, including attaining the minimum fixed charge coverage ratio, as of October 28, 2006. As of October 28, 2006 and January 28, 2006, there was no outstanding debt under this credit facility. The maximum and average outstanding balances during the thirteen weeks ended October 28, 2006 were \$1.1 million and \$53,000, respectively, compared to \$18.5

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL**CONDITION AND RESULTS OF OPERATIONS**

million and \$11.2 million, respectively for the same period in the prior year. The maximum and average outstanding balances during the thirty-nine weeks ended October 28, 2006 were \$1.7 million and \$25,000, respectively, compared to \$23.7 million and \$11.7 million, respectively for the same period in the prior year. The decrease in the maximum and average outstanding balances from the prior year was due to the pay down of debt during fiscal 2006 with cash provided by operating activities.

Additionally, as of October 28, 2006 and January 28, 2006, the Company has \$7.2 million in aggregate outstanding borrowings under the Bond which is a variable rate industrial revenue bond secured by certain property. The Bond has a maturity date of December 1, 2019, with a purchase provision obligating the Company to repurchase the Bond on May 30, 2007, unless extended by the bondholder. Such an extension may be renewed annually by the bondholder, at the Company's request, to a date not more than five years from the renewal date. As of December 5, 2006 the Company has obtained a commitment letter from a bank to purchase the Bond from the existing bondholder, and it is expected that the new bondholder will extend the date of the Company's purchase obligation of the Bond until July 1, 2011.

Financial Position

Inventory balances were \$229.0 million as of October 28, 2006 compared to \$204.8 million as of January 28, 2006. The inventory increase was due to seasonal fluctuations in inventory. Inventory levels generally are lowest at the end of the fiscal year due to large post holiday returns to vendors. Accrued expenses were \$40.4 million as of October 28, 2006 compared to \$45.5 million as of January 28, 2006. Accrued expenses decreased primarily due to payment of fiscal 2006 management bonuses in the first quarter of fiscal 2007, redemption of gift cards sold to customers during the fourth quarter and lower capital expenditure accruals.

Guarantees

From time to time, the Company enters into agreements that require the Company to indemnify parties against third party claims under certain circumstances. Generally these agreements relate to: (a) agreements with vendors and suppliers under which the Company may provide customary indemnification to its vendors and suppliers in respect of actions they take at the Company's request or otherwise on its behalf; (b) agreements with vendors who publish books or manufacture merchandise specifically for the Company to indemnify vendors against trademark and copyright infringement claims concerning the books published or merchandise manufactured on behalf of the Company; (c) real estate leases, under which the Company may agree to indemnify the lessors from claims arising from the Company's use of the property; and (d) agreements with the Company's directors, officers and employees, under which the Company may agree to indemnify such persons for liabilities arising out of their relationship with the Company. The Company has Directors and Officers Liability Insurance, which, subject to the policy's conditions, provides coverage for indemnification amounts payable by the Company with respect to its directors and officers up to specified limits and subject to certain deductibles.

The nature and terms of these indemnities vary. The events or circumstances that would require the Company to perform under these indemnities are transaction and circumstance specific. Generally, the Company's maximum liability under such indemnities is not explicitly stated, and, therefore, the overall maximum amount of the Company's obligations cannot be reasonably estimated. Historically, the Company has not incurred significant costs related to performance under these types of indemnities. No liabilities have been recorded for these

CONDITION AND RESULTS OF OPERATIONS

obligations on the Company's balance sheet at October 28, 2006 and January 28, 2006 as such liabilities are considered *de minimis*.

The Company is subject to potential ongoing sales and use tax audits, income tax audits and other tax issues for both its retail and internet segments. It is the policy of the Company to estimate any potential tax contingency liabilities based on various factors such as ongoing state and federal tax audits, historical results of audits at the state or federal level and specific tax issues. Accruals for potential tax contingencies are recorded by the Company when it is deemed to be probable that a liability will be incurred.

Off Balance Sheet Arrangements

The Company does not have off balance sheet transactions that have or are reasonably likely to have a current or future material effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Cash Flows

Operating activities used cash of \$5.2 million and \$7.2 million in the thirty-nine week periods ended October 28, 2006 and October 29, 2005, respectively, and included the following effects:

Cash used for inventories in the thirty-nine week periods ended October 28, 2006 and October 29, 2005 was \$24.2 million and \$16.6 million, respectively. Cash used for inventories for the thirty-nine week periods were due to normal seasonal fluctuations in inventory levels. The increased use of cash for inventories from the prior year was due to the opening of seven new stores during fiscal 2007.

Cash provided by accounts payable in the thirty-nine week periods ended October 28, 2006 and October 29, 2005 was \$11.1 million and \$2.8 million, respectively. The change versus the prior year was due to the timing of payments for merchandise purchases from vendors.

Depreciation and amortization expenses were \$10.4 million and \$11.9 million, respectively in the thirty-nine week periods ended October 28, 2006 and October 29, 2005. The decrease in depreciation and amortization expense was due to the impact of certain assets becoming fully depreciated during the prior year.

Cash flows used in investing activities reflected a \$11.6 million and \$9.5 million net use of cash for the thirty-nine week periods ended October 28, 2006 and October 29, 2005, respectively. Cash was used primarily to fund capital expenditures for new stores, store relocations, renovation and improvements to existing stores, and investments in management information systems.

Cash flows provided by (used in) financing activities were \$(7.1) million and \$5.2 million in the thirty-nine week periods ended October 28, 2006 and October 29, 2005, respectively. Financing activities used cash in fiscal 2007 primarily to purchase the Company's common stock (\$7.5 million) and for dividend payments (\$4.0 million), partially offset by proceeds from option exercises (\$1.8 million) and related tax benefits (\$2.6 million). Financing activities provided cash in fiscal 2006 from net borrowings under credit facilities (\$7.2 million), proceeds from option exercises (\$2.7 million) and related tax benefits (\$0.4 million) partially offset by purchases of the Company's common stock (\$2.7 million) and for dividend payments (\$2.4 million).

Outlook

During the thirty-nine weeks ended October 28, 2006, the Company opened seven stores, relocated two stores, remodeled five stores and closed four stores. During the remainder of fiscal 2007, the Company expects to open two stores, complete remodels on approximately one to two stores and close two to three stores. The Company's capital expenditures totaled \$11.6 million in the thirty-nine week period ended October 28, 2006. Management estimates that capital expenditures for the remainder of fiscal 2007 will be approximately \$8.3 million, and that such amounts will be used primarily for opening new stores, relocating existing stores, renovating and improving existing stores, upgrading and expanding warehouse distribution facilities, and investing in management information systems. Management believes that existing cash on hand and net cash from operating activities, together with borrowings under the Company's credit facilities, will be adequate to finance the Company's planned capital expenditures and to meet the Company's working capital requirements for the remainder of fiscal 2007.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL

CONDITION AND RESULTS OF OPERATIONS

Related Party Activities

Charles C. Anderson, a former director of the Company, Terry C. Anderson, a director of the Company, and Clyde B. Anderson, a director and officer of the Company, have controlling ownership interests in other entities with which the Company conducts business. The Company utilizes import sourcing and consolidation services from Anco Far East Importers, LTD (Anco Far East), an affiliate through common ownership. The total paid to Anco Far East was \$1,884,000 and \$1,768,000 during the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively. These amounts paid to Anco Far East primarily included the actual cost of the product as well as fees for sourcing and consolidation services. All costs other than the sourcing and consolidation service fees were passed through from other vendors. Anco Far East fees, net of the passed-through costs, were \$132,000 and \$124,000 during the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively.

The Company sold books to Anderson Media in the amounts of \$838,000 and \$239,000 during the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively. During the thirty-nine weeks ended October 28, 2006 and October 29, 2005, the Company provided \$0 and \$7,000, respectively, of internet services to Magazines.com. The Company provided internet services to American Promotional Events, an affiliate through common ownership, of \$61,000 and \$69,000 during the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively.

The Company leases its principal executive offices from a trust, which was established for the benefit of the grandchildren of Mr. Charles C. Anderson, a former member of the Board of Directors. The Company leases the building on a month-to-month basis. During the thirty-nine weeks ended October 28, 2006 and October 29, 2005, the Company paid rent of \$103,000 in each period to the trust under this lease. Anderson & Anderson LLC ("A&A"), an affiliate through common ownership, also leases three buildings to the Company on a month-to-month basis. During the thirty-nine weeks ended October 28, 2006 and October 29, 2005, the Company paid A&A a total of \$336,000 and \$333,000, respectively, in connection with such leases. Total minimum future rental payments under all of these leases are \$0 at October 28, 2006. The Company subleases certain property to Hibbett Sporting Goods, Inc. ("Hibbett"), a sporting goods retailer in the southeastern United States. The Company's Executive Chairman, Clyde B. Anderson, is a member of Hibbett's board of directors. During the thirty-nine weeks ended October 28, 2006 and October 29, 2005, the Company received \$143,000 and \$157,000 in rent payments from Hibbett.

The Company shares ownership of a plane, which the Company uses in the operation of its business, with an affiliated company. The Company rents the plane to affiliated companies at rates that cover all of the variable cost, and a portion of the fixed cost of the plane. The total amounts received from affiliated companies for use of the plane during the thirty-nine weeks ended October 28, 2006 and October 29, 2005, was \$284,000 and \$238,000, respectively. The Company also occasionally rents a plane from A&A as well. The amounts paid to A&A for plane

Edgar Filing: BOOKS A MILLION INC - Form 10-Q

rental were \$9,000 and \$35,000 for the thirty-nine weeks ended October 28, 2006 and October 29, 2005, respectively.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is subject to interest rate fluctuations involving its credit facilities and debt related to the Bond. In prior periods, the Company used fixed interest rate hedges to manage this exposure. The Company entered into a \$7.5 million interest rate swap in May 1996 that expired on June 7, 2006 and effectively fixed the interest rate on the Bond during that period at 8.73% (the Bond Hedge). The Company did not replace the Bond Hedge when it expired.

To illustrate the sensitivity of the results of operations to changes in interest rates on its debt, the Company estimates that a 66% increase in LIBOR rates would have increased interest expense by approximately \$64,000 for the thirteen weeks ended October 28, 2006 due to average debt of \$7,253,000. The average debt under the credit agreement was \$53,000. The average debt under the Bond was \$7.2 million. Likewise, a 66% decrease in LIBOR rates would have decreased interest expense by \$64,000 for the thirteen weeks ended October 28, 2006. This hypothetical change in LIBOR rates was calculated based on the fluctuation in LIBOR in 2002, which was the maximum LIBOR fluctuation in the last ten years.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

We are committed to maintaining disclosure controls and procedures designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer, Chief Financial Officer and the Board of Directors, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures and implementing controls and procedures based on the application of management's judgment.

As required by Rule 13a-15 under the Exchange Act, management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based upon their evaluation and subject to the foregoing, the Chief Executive Officer and the Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective at the reasonable assurance level.

(b) Changes in Internal Control over Financial Reporting

We regularly review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities, and migrating processes.

There were no changes in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1: Legal Proceedings

The Company is a party to various legal proceedings incidental to its business. In the opinion of management, after consultation with legal counsel, the ultimate liability, if any, with respect to those proceedings is not presently expected to materially affect the financial position, results of operations or cash flows of the Company.
