CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)

1. BASIS OF PRESENTATION

The consolidated financial statements include the accounts of RemedyTemp, Inc. and its wholly-owned subsidiaries (collectively, the "Company"). All significant intercompany transactions and balances have been eliminated.

The accompanying consolidated balance sheet at December 31, 2000, and the consolidated statements of income and of cash flows are unaudited. These statements have been prepared on the same basis as the Company's audited consolidated financial statements and in the opinion of management reflect all adjustments, which are only of a normal recurring nature, necessary for a fair presentation of the consolidated financial position and results of operations for such periods. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Form 10-K as filed with the Securities and Exchange Commission on December 27, 2000.

3. REPURCHASE OF LICENSED OFFICES

On December 31, 2000, the Company acquired one licensed office in New Jersey. Results of operations for the acquired licensed office is recorded in accordance with the Company's licensed revenue recognition policy until the acquisition date. Subsequent to the acquisition date, the direct office revenue recognition policy is utilized. Had the results of operations for the licensed offices been shown as of the beginning of the current and prior year fiscal periods, the consolidated results would not be significantly different. This acquisition is accounted for under the purchase accounting method. The combined purchase price was allocated primarily to goodwill and is being amortized over an estimated life of twenty years.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In addition to historical information, management's discussion and analysis includes certain forward-looking statements made by RemedyTemp Inc. that involve material risks and uncertainties and are subject to change based on factors beyond the control of the company (certain of such statements are identified by use of words such as "anticipate," "believe," "estimate," "intend," "expect" or "future"). Accordingly, the company's actual results may differ materially from those expressed or implied in any such forward-looking statements as a result of various factors, including without limitation, the impact of a special charge related to a write-off of a large client's account receivable, changes in general or local economic conditions, the availability of sufficient personnel, the company's ability to attract and retain clients and franchisees/licensees, implementation of the company's new IT systems, the company's ability to attain cost reductions and other factors described in the company's filings with the Securities and Exchange Commission regarding risks affecting the company's financial condition and results of operations. The company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

RESULTS OF OPERATIONS

For the Three Fiscal Months Ended December 31, 2000 Compared to the Three Fiscal Months Ended January 2, 2000

Total revenues decreased 0.4% or \$0.6 million to \$149.5 million for the three fiscal months ended December 31, 2000 from \$150.1 million for the three fiscal months ended January 2, 2000. Direct revenues increased 0.5% to \$83.4 million from \$83.0 million and licensed revenues decreased 1.5% to \$65.1 million from \$66.1 million for the three fiscal months ended December 31, 2000 and January 2, 2000. Total revenues decreased as a result of increases in direct revenues stemming from fulfillment, distribution and customer care support services provided by new clients, offset by decreases in license revenues due to decreased growth in revenues from existing customers. The decrease in license revenues from these customers was offset by increase in permanent placement billings, whereby the Company receives a fee for placing a temporary in a permanent position. There were no significant changes in the mix between direct, licensed and royalty revenues. The Company's future revenue increases depend significantly on the Company's ability to continue to attract new clients, retain existing clients, open new offices and manage newly opened offices to maturity.

Total cost of direct and licensed sales, which consists of wages and other expenses related to the temporary associates, decreased 1.5% or \$1.8 million to \$114.8 million for the three fiscal months ended December 31, 2000 from \$116.6 million for the three fiscal months ended January 2, 2000. This decrease resulted from decreased revenue growth and lower payroll costs. Total cost of direct and licensed sales as a percentage of revenues was 76.8% for the three fiscal months ended December 31, 2000 compared to 77.7% for the three fiscal months ended January 2, 2000. Many factors, including increased wage costs or other employment expenses, could adversely affect the Company's cost of direct and licensed sales.

Edgar Filing: REMEDYTEMP INC - Form 10-Q

Licensees' share of gross profit represents the net payments to licensees based upon a percentage of gross profit generated by the licensed operation. The percentage of gross profit earned by the licensee generally is based on the number of hours billed. In general, pursuant to terms of the Company's franchise agreement for licensed offices executed prior to March 31, 1999, the Company's share of gross profit cannot be less than 7.5% of the licensed operation sales, with the exception of national accounts on which the Company's fee is reduced to compensate for lower gross margins. For franchise agreements for licensed offices executed on or after April 1, 1999, the Company's share of gross profit cannot be less than 8.75% of the licensed operation's sales, with the exception of national accounts on which the Company's fee is reduced to compensate for lower gross margins. Licensees' share of gross profit increased 3.4% or \$0.3 million to \$11.0 million for the three fiscal months ended December 31, 2000 from \$10.7 million for the three fiscal months ended January 2, 2000 due to higher license margins resulting from increased permanent placement billings in the current quarter. Permanent placement billings have higher gross margins than temporary placement billings.

Selling and administrative expenses increased 16.2% or \$2.5 million to \$18.0 million for the three fiscal months ended December 31, 2000 from \$15.5 million for the three fiscal months ended January 2, 2000. This increase can be attributed to costs associated with the implementation and ongoing support of the Company's new information system, and a non-recurring \$1.9 million charge to provide for a large account receivable account deemed uncollectible.

7

8

REMEDYTEMP, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Selling and administrative expenses as a percentage of total revenues were 12.1% for the three fiscal months ended December 31, 2000 as compared to 10.3% for the three fiscal months ended January 2, 2000. There can be no assurance that selling and administrative expenses will not increase in the future, both in absolute terms and as a percentage of total revenues. Increases in these expenses could adversely affect the Company's profitability.

Depreciation and amortization increased 29.1% or \$0.3 million to \$1.4 million for the three fiscal months ended December 31, 2000 from \$1.1 million for the three fiscal months ended January 2, 2000. This results from the increased depreciation expense of the Company's new back office information system, which was placed in service in October 2000.

Income from operations decreased 33.2% or \$2.1 million to \$4.2 million for the three fiscal months ended December 31, 2000 from \$6.3 million for the three fiscal months ended January 2, 2000 due to the factors described above. Income from operations as a percentage of revenues was 2.8% for the three fiscal months ended December 31, 2000 compared to 4.2% for the three fiscal months ended January 2, 2000.

Net income decreased 26.9% or \$1.0 million to \$2.9 million for the three fiscal months ended December 31, 2000 from \$3.9 million for the three fiscal months ended January 2, 2000 due to the factors described above. Interest expense decreased as a result of no line of credit borrowings during the current quarter. Additionally, the Company reduced its effective tax rate as a result of expected Work Opportunity and Welfare to Work Tax Credits. As a percentage of

Edgar Filing: REMEDYTEMP INC - Form 10-Q

total revenues, net income was 1.9% for the three fiscal months ended December 31, 2000 compared to 2.6% for the three fiscal months ended January 2, 2000.

LIQUIDITY AND CAPITAL RESOURCES

Cash provided by operating activities was \$1.1 million for the three fiscal months ended December 31, 2000 and \$2.0 million for the three fiscal months ended January 2, 2000. The overall decrease in cash from operating activities results primarily from the timing of vendor and income tax payments, offset by lower cash outflows in the current year quarter for payroll and related costs, as well as licensees' share of gross profit.

Cash used for purchases of fixed assets was \$0.6 million for the three fiscal months ended December 31, 2000 and \$2.1 million for the three fiscal months ended January 2, 2000. The decrease in capital expenditures results from the completion of the Company's information system implementation in October 2000. During the next twelve months, the Company anticipates capital expenditures associated with direct office openings and further investments in the Company's computer-based technologies to approximate \$5.0 million.

On December 31, 2000, the Company acquired one licensed office in New Jersey (see Note 3 to the consolidated financial statements). In the prior fiscal year, the Company repurchased six licensed offices in Virginia during the comparative first quarter. Results of operations for the acquired licensed offices are recorded in accordance with the Company's licensed revenue recognition policy until the acquisition date. Subsequent to the acquisition date, the direct office revenue recognition policy is utilized. Had the results of operations for the licensed offices been shown as of the beginning of the current and prior year fiscal periods, the consolidated results would not be significantly different. These acquisitions were accounted for under the purchase accounting method. The combined purchase price was allocated primarily to goodwill and is being amortized over an estimated life of twenty years. The Company is contemplating the continued selective repurchase of licensed and franchised offices in certain territories with the intent of expanding the Company's market presence in such regions.

The Company has a revolving line of credit agreement with Bank of America providing for aggregate borrowings and letters of credit of \$40.0 million. The Company has no borrowings outstanding as of December 31, 2000. The line of credit is unsecured and expires on February 28, 2002. The agreement governing the line of credit requires the Company to maintain certain financial ratios and comply with certain restrictive covenants. The Company is in compliance with these covenants.

9

REMEDYTEMP, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

The Company may continue evaluating certain strategic acquisitions. Such acquisitions may have an impact on liquidity depending on the size of the acquisition.

The Company believes that its current and expected levels of working capital and line of credit are adequate to support present operations and to fund future growth and business opportunities.

Edgar Filing: REMEDYTEMP INC - Form 10-Q

SEASONALITY

The Company's quarterly operating results are affected by the number of billing days in the quarter and the seasonality of its clients' businesses. The first fiscal quarter has historically been strong as a result of manufacturing and retail emphasis on holiday sales. Historically, the second fiscal quarter shows a decline in comparable revenues from the first fiscal quarter. Revenue growth has historically accelerated in each of the third and fourth fiscal quarters as manufacturers, retailers and service businesses increase their level of business activity.
