Independent Auditors' Report
Referred to Interim Individual Financial Statements
As of June 30, 2004

To the Shareholders and Directors of
Cristalerias de Chile S.A.:

1. We have revised the general balance sheets of Cristalerias de Chile S.A. as of June 30, 2004 and 2003 and the corresponding statements of income and cash flows for the six months periods ended on those dates. These financial statements and their corresponding notes are the responsibility of Cristalerias de Chile S.A.'s management. The Ratio Analysis and Relevant Events attached are not part of these financial statements; therefore this report does not extend to them.
2. We have effected our revisions in accordance with audit norms established in Chile for a revision of interim financial information. A revision of interim financial information consists mainly in applying analytic revision procedures of the financial statements and effect inquiries to the responsible financial and accounting personnel. The extent of this revision is substantially lower than an audit effected according to generally accepted accounting principles in Chile, in which case the objective is to express an opinion on financial statements as a whole.

Edgar Filing: GLASSWORKS OF CHILE - Form 6-K

Consequently, the interim financial statements as of June 30 2004 and 2003 have not been audited and, therefore, we are not in condition for expressing, nor we express an opinion.

3. The referred interim financial statements have been prepared to reflect the individual financial situation of Cristalerias de Chile S.A., based on criteria described in Note 2 b), prior to consolidation, line by line, of subsidiaries detailed in Note 14's financial statements. Consequently, for an adequate interpretation, these individual interim financial statements must be read and analyzed together with the consolidated interim financial statements of Cristalerias de Chile S.A. and subsidiaries, which are required by the generally accepted accountinbg principles in Chile. This report is presented solely to inform and be used by the Board and Management of Cristalerias de Chile S.A. and by the Chilean Securities and Insurance Commission (SVS).
4. Based on our revision of the interim financial statements as of June 30, 2004 and 2003, we have no knowledge of significant adjustments needed to be made to them in order for them to be in accordance with principles described in Note 2 b).

The main trends observed in the indicators of the first half of 2004 are the following:

LIQUIDITY INDICES

Despite an increase in current assets with respect to December 2003, liquidity indices decrease slightly due to higher provisions and notes payable.

INDEBTEDNESS INDICES

The indebtedness index remains almost unvaried for the analyzed period.

Indebtedness with banks, which corresponds to syndicated loan of US\$50 million, shows a slight increase in Chilean peso terms, due to the variation of the exchange rate that passed from Ch\$ 593,80 in December 2003 to Ch\$ 636,30 as of June 30, 2004.

The interest expenses coverage ratio shows an increase with respect to the previous year, due to higher net income during the first half of 2004.

ACTIVITY INDICES

Inventory turnover and permanence deteriorated slightly due to an increase in stock of finished products. This is the result of stationarity of the glass demand.

RESULTS

The operating result shows an increase with respect to June 2003 due to lower costs of sales.

Likewise, the non-operating result shows a decrease of the loss as a result of the positive exchange differences balance registered during the present semester.

PROFITABILITY INDICES

Profitability and equity indices show an increase with respect to March and December 2003, due to a higher net income during the present fiscal year.

On the other hand, return on dividends shows a decrease with respect to the previous year, due to a lower dividends distributed during the last 12 months.

2. DIFFERENCE BETWEEN BOOK VALUE AND MARKET VALUE OF MAIN ASSETS.

The financial statements of the company have been prepared according to generally accepted accounting principles and general and specific norms of the Securities and Insurance Commission, which is the agency that regulates the Company. The valuation of the assets includes adjustment for currency devaluation, reserves, and technical revaluations. We believe the foregoing is a reasonable way to value the Company's permanent investments.

As of June 30, 2004, there were financial investments in stocks recorded according to their purchase price of Th Ch\$ 4,188 million, whose market value on the same date was Th Ch\$ 5,410 million.

3. RESULTS AS OF JUNE 2004

3a. Individual Result

The Company had non-consolidated sales of Ch\$ 33,298 million, compared to Ch\$ 33,524 million in the previous fiscal year. Volumes sold increased by 7.4%, reaching 120,393 tons., mainly due to higher sales of bottles for wine, the returnable beer and food markets; partially compensated by lower sales to the non-returnable beer, liquor and soft drinks markets. Average prices declined by 7.5%, mainly explained by the strong decrease in the US\$/Peso exchange rate that passed from Ch\$ 723,66 per dollar on average during the first semester of 2003 to Ch\$ 608,22 per dollar on average during the first semester of 2004. Operating income reached Ch\$ 10,135 million, 4.6% over 2003.

Non-operating result was a Ch\$ 1,449 million loss, which compares to a Ch\$ 5,986 million loss in 2003. The former is mainly explained by an income from exchange differences of Ch\$ 1,391 million in 2004, compared to a Ch\$ 3,617 million loss in 2003. During 2004 a higher loss in Cristalchile Comunicaciones (owner of 50% of Metropolis -Intercom) is registered and a lower income in Envases CMF. The former was partially compensated by higher income in CIECSA and Vina Santa Rita.

3b. Result in Subsidiaries

Santa Rita's net income reached Ch\$ 3,553 million, 23.3% over 2003. In the local market, prices increased by 10.0% in real terms, while volumes increased by 9.5%. Sales in this market increased by 20.4% reaching Ch\$ 17,383 million. During the period, export volume sales increased by 6.6%, representing 50.2% of total revenues, in the amount of US\$ 30.0 million (US\$ 26.8 million in 2003). Operating income reached Ch\$4,149 million compared with Ch\$ 4,997 million in 2003, fundamentally due to higher costs of musts and a decrease of the Peso/US\$ exchange rate that affects export returns. Santa Rita's average price in dollars per case for the export market reached US\$ 34.1 (US\$ 32.4 in 2003), while the average price for the industry was US\$ 24.3 per case (US\$ 23.7 in 2003). Santa Rita

had a Ch\$ 364 million non-operating income, compared to a Ch\$ 1,385 million loss in 2003, mainly due to a income from exchange differences of Ch\$ 965 million compared with Ch\$ 740 million loss in 2003.

Red Televisiva Megavision, CIECSA's main subsidiary, registered a Ch\$1,125 million operating income, compared with an Ch\$ 814 million operating income in 2003. MEGA reached the first place in audience with an audience viewership

Edgar Filing: GLASSWORKS OF CHILE - Form 6-K

share of 25.4% during the period(1) (22.7% in 2003). Net sales increased by 8.3% reaching Ch\$ 12,341 million, due to an increase in live programming, which has resulted in higher audience levels. MEGA had an Ch\$ 811 million net income (Ch\$ 210 million income in 2003). CIECSA's net income was Ch\$ 927 million, compared to Ch\$ 75 million income the previous year.

Envases CMF S.A. registered a Ch\$ 298 million net income in 2004 compared with a Ch\$1,226 million net income in 2003. This is mainly explained by the non-operating result, which during 2003 registered a net income from price level restatement and exchange differences of Ch\$ 435 million, compared to a Ch\$ 205 million loss during the present period. Sales reached Ch\$ 14,941 million during the period compared with Ch\$ 16,375 million in 2003. Volume sales decreased by 4.1%, reaching 10,557 tons, due to a decline in pre forms exports and lower sales of one-way formats; while average prices decreased by 5.1% influenced by the decrease of the Peso/US\$ rate of exchange. As a result the aforementioned operating income reached Ch\$ 1,191 million, compared with Ch\$ 1,615 million in 2003.

In the cable TV area, Cristalchile Comunicaciones S.A. (99.99% owned by Cristalerías), is the owner of 50% of Cordillera Comunicaciones Ltda., which in turn is the owner of Metropolis-Intercom S.A. During 2004, Metropolis-Intercom S.A. registered sales of Ch\$ 22,186 million, compared with Ch\$ 22,408 million in 2003. Metropolis-Intercom had a net loss of Ch\$ 5,962 million, compared with a net loss of Ch\$ 4,845 million in 2003. This lower result is mainly due to a one-time Ch\$ 775 million charge, that affects the non-operating result of the company. Metropolis-Intercom's EBITDA reached Ch\$3,192 million during the period (Ch\$ 2,944 million in 2003). The latter includes a depreciation charge of Ch\$ 7,338 million (Ch\$ 6,672 million in 2003) corresponding to the HFC network acquired in July 2000. The company ended the period with 223,820 basic subscribers (237,324 in 2003), 28,970 premium service subscribers (33,440 in 2003), 38,503 broadband internet subscribers (31,5% over 2003) and 9,255 IP telephony subscribers.

As a result of the above mentioned and a negative goodwill amortization charge through Cordillera Comunicaciones of Ch\$ 2,088 million during the year (Ch\$ 2,095 million in 2003), Cristalchile Comunicaciones recorded a net loss of Ch\$ 4,041 million (net loss of Ch\$3,468 million in 2003).

INVESTMENTS

(1) Measured between 6:30 A.M. and 1:30 A.M. (i.e:19 hours a day) from Monday through Sunday.

On June 23, 2004, Cristalerías de Chile announced that it will invest US\$210 million in a development plan that will allow it to duplicate its glass production installed capacity - from 300 thousand tons per year to 600 thousand tons per year- and adequately attend the increasing demand of its customers.

The initiative, that would be materialized in a term of up to 10 years, was approved unanimously by the Board and contemplates materialization in successive stages, according to market needs.

The first stage of the development plan considers the construction of a new plant, equipped with 4 new fabrication lines and a furnace with production

Edgar Filing: GLASSWORKS OF CHILE - Form 6-K

capacity of 360 tons per day, that supposes US\$ 110 million investment and that would be financed by a combination of internal resources and credits. Start up of operations is scheduled for 2006 and will allow to increase the present production capacity by 35%.

Following stages of the expansion imply adding 7 fabrication lines and 2 furnaces with production capacities over 400 tons per day.

4. CASH FLOW STATEMENT

As of June 30, 2004 a total net positive flow of Ch\$ 9,119 million was generated, which is explained by a positive flow generated by operating activities of Ch\$ 18,827 million, which was decreased by a negative financing flow of Ch\$2,595 million and a negative flow of investment activities for Ch\$7,113 million.

The operating flow corresponds basically to the collection of sales and financial interests and other income received that were reduced in part by payment to suppliers, taxes and financial interests.

The negative financing flow is especially explained by the payment of dividends.

The investment flow is mainly explained by the incorporation of fixed assets for Ch\$ 3,356 million, and loans granted to related companies for Ch\$ 3,805 million.

The above mentioned results in an increase in the final balance of cash and cash equivalent, which passed from Ch\$ 60,480 million as of December 31, 2003 to Ch\$ 69,016 million as of June 30, 2004.

According to the current regulations of the SVS and the Association of Accountants of Chile, time deposits and agreements with due date of less than 90 days have been considered as cash and cash equivalent.

5. RISKS ANALYSIS

a. Interest rates

The Company is exposed to the risk of fluctuations in interest rates on its long-term debt, corresponding to a US\$50 million loan, which was negotiated annual rate of Libor plus 0.8% percentage points. In addition, the Company issued bonds in two series for a total equivalent to UF 4.1 million, for a period of 6 and 21 years, and which pay a fixed rate of 4.75% and 5.8% respectively (the actual placement rate was 5.3% and 6.5% respectively).

As of June 30, 2004, the Company had available funds in the amount of Ch\$67,545 million, invested at different terms in financial instruments such as time deposits, bonds, fixed rate mutual funds and agreements with resale commitment. That amount does not include Ch\$ 8,539 million in bonds with maturity on September 15, 2005, and an investment in shares for Ch\$ 4,186 million.

Currently the Company does not use secondary financial instruments to reduce risk in the event of fluctuations in interest rates. This policy will be studied permanently to evaluate the alternatives offered by the market.

Edgar Filing: GLASSWORKS OF CHILE - Form 6-K

b. Exchange rate

The Company maintains liabilities in dollars of US\$64.7 million, which represent 11.3% of its assets, and which include a balance of a long-term syndicated loan of US\$50 million.

As of June 30, the Company has investments in dollars of US\$54.9 million in time deposits, bonds and fixed rate mutual funds. In addition, also has investments in EUROS 37.5 million in fixed rate and fixed rent instruments. Likewise it also has Dollar purchase future contracts of US\$37.6 million which are compensated by sale future contracts of US\$ 60.6 million.

On the other hand, approximately 35% of the Company's revenues are adjustment by the exchange rate variation. Costs in foreign currency represent approximately 27% of the total costs.

Independent Auditors' Report
Referred to Interim Consolidated Financial Statements
As of June 30, 2004

To the Shareholders and Directors of
Cristalerias de Chile S.A.:

Edgar Filing: GLASSWORKS OF CHILE - Form 6-K

We have revised the general consolidated balance sheets of Cristalerias de Chile S.A. and subsidiaries as of June 30, 2004 and 2003 and the corresponding consolidated statements of income and cash flows for the six months periods ended on those dates. These financial statements and their corresponding notes are the responsibility of Cristalerias de Chile S.A. and subsidiaries' management. The Ratio Analysis and Relevant Events attached are not part of these financial statements; therefore this report does not extend to them.

We have effected our revisions in accordance with audit norms established in Chile for a revision of interim financial information. A revision of interim financial information consists mainly in applying analytic revision procedures of the financial statements and effect inquiries to the responsible financial and accounting personnel. The extent of this revision is substantially lower than an audit effected according to generally accepted accounting principles in Chile, in which case the objective is to express an opinion on financial statements as a whole. Consequently, the interim consolidated financial statements as of June 30, 2004 and 2003 have not been audited and, therefore, we are not in condition for expressing, nor we express an opinion.

Based on our revision of the interim consolidated financial statements as of June 30, 2004 and 2003, we have no knowledge of significant adjustments needed to be made to them in order for them to be in accordance with generally accepted accounting principles in Chile.

The first stage of the development plan considers the construction of a new plant, equipped with 4 new fabrication lines and a furnace with a production capacity of 360 tons per day, which supposes a US\$ 110 million investment and that would be financed by a combination of internal resources and credits. The interest expenses coverage ratio shows an increase with respect to the previous year, due to higher net income during the first half of 2004.

PROFITABILITY INDICES

Equity and assets profitability indices show an increase with respect to first half 2003, due to a higher net income during the present fiscal year.

In spite of the increase of the operating income of the profitability indices of the operating assets decreases slightly, due to an increase of these assets.

2. DIFFERENCE BETWEEN BOOK VALUE AND MARKET VALUE OF MAIN ASSETS.

The financial statements as of June 30, 2004 have been prepared according to generally accepted accounting principles and general and specific norms of the Securities and Insurance Commission, which is the agency that regulates the Company. We believe the foregoing is a reasonable way to value the Company's permanent investments.

As of June 30, 2004 there were financial investments in stocks recorded in the accounting according to their purchase price at Ch\$ 4,188 million whose market value on the same date was Ch\$ 5,410 million.

3. RESULTS FOR THE PERIOD

3a. Consolidated Result

Cristalerias de Chile S.A. consolidates its results with Vina Santa Rita, CIECSA, Cristalchile Comunicaciones S.A., Cristalchile Inversiones S.A. and Apoger.

Edgar Filing: GLASSWORKS OF CHILE - Form 6-K

Cristalerias' consolidated sales reached Ch\$ 80,299 million, 4.4% over 2003. Higher sales result fundamentally from higher sales at Santa Rita (6.7%) and CIECSA (10.3%), partially compensated by lower sales in the glass container business (-0.7%). Consolidated operating income reached Ch\$ 15,734 million, compared with Ch\$ 15,613 million in 2003, of which the glass container business contributed Ch\$ 10,135 million (Ch\$ 9,685 million in 2003), Santa Rita Ch\$ 4,149 million (Ch\$ 4,997 million in 2003) and CIECSA Ch\$ 1,417 million (Ch\$ 808 million in 2003).

The Company's net income was Ch\$ 7,125 million, compared with Ch\$ 2,958 million in 2003. This result is mainly explained by a better non-operating result.

During 2004 the Company registered a consolidated non-operating loss of Ch\$ 4,239 million, compared with a Ch\$ 9,885 million non-operating loss in 2003. The former is mainly explained by an income from exchange differences of Ch\$ 2,418 million in 2004 vs. a Ch\$ 4,464 million loss in 2003; partially compensated by a higher net loss from subsidiaries that do not consolidate, that passed from Ch\$ 1,920 million in 2003 to Ch\$ 3,166 million in 2004, fundamentally due to lower results at Metropolis-Intercom and Envases CMF. The net loss from subsidiaries includes a Ch\$ 2,088 million charge in 2004 (Ch\$ 2,095 million in 2003) corresponding to goodwill amortization, which does not constitute cash flow.

The following analysis explains Cristalerias' result based on individual financial statements, as well as those of its main subsidiaries.

3b. Individual Result

The Company had non-consolidated sales of Ch\$ 33,298 million, compared to Ch\$ 33,524 million in the previous fiscal year. Volumes sold increased by 7.4%, reaching 120,393 tons., mainly due to higher sales of bottles for wine, the returnable beer and food markets; partially compensated by lower sales to the non-returnable beer, liquor and soft drinks markets. Average prices declined by 7.5%, mainly explained by the strong decrease in the US\$/Peso exchange rate that passed from Ch\$ 723,66 per to dollar on average during the first semester of 2003 to Ch\$ 608,22 per dollar on average during the first semester of 2004. Operating income reached Ch\$ 10,135 million, 4.6% over 2003.

Non-operating result was a Ch\$ 1,449 million loss, which compares to a Ch\$ 5,986 million loss in 2003. The former is mainly explained by an income from exchange differences of Ch\$ 1,391 million in 2004, compared to a Ch\$ 3,617 million loss in 2003. During 2004 a higher loss in Cristalchile Comunicaciones (owner of 50% of Metropolis -Intercom) is registered and a lower income in Envases CMF. The former was partially compensated by higher income in CIECSA and Vina Santa Rita.

3c. Result in Subsidiaries

Santa Rita's net income reached Ch\$ 3,553 million, 23.3% over 2003. In the local market, prices increased by 10.0% in real terms, while volumes increased by 9.5%. Sales in this market increased by 20.4% reaching Ch\$ 17,383 million. During the period, export volume sales increased by 6.6%, representing 50.2% of total revenues, in the amount of US\$ 30.0 million (US\$ 26.8 million in 2003). Operating income reached Ch\$ 4,149 million compared with Ch\$ 4,997 million in 2003, fundamentally due to higher costs of musts and a decrease of the Peso/US\$ exchange rate that affects export returns. Santa Rita's average price in dollars per case for the export market reached US\$ 34.1 (US\$ 32.4 in 2003), while the average price for the industry was US\$ 24.3 per case (US\$ 23.7 in 2003). Santa Rita had a Ch\$ 364 million non-operating income, compared to a Ch\$ 1,385 million loss in

2003, mainly due to a income from exchange differences of Ch\$ 965 million compared with Ch\$ 740 million loss in 2003.

Red Televisiva Megavisión, CIECSA's main subsidiary, registered a Ch\$1,125 million operating income, compared with an Ch\$ 814 million operating income in 2003. MEGA reached the first place in audience with an audience viewership share of 25.4% during the period(1) (22.7% in 2003). Net sales increased by 8.3% reaching Ch\$ 12,341 million, due to an increase in live programming, which has resulted in higher audience levels. MEGA had an Ch\$ 811 million net income (Ch\$ 210 million income in 2003). CIECSA's net income was Ch\$ 927 million, compared to Ch\$ 75 million income the previous year.

Envases CMF S.A. registered a Ch\$ 298 million net income in 2004 compared with a Ch\$1,226 million net income in 2003. This is mainly explained by the non-operating result, which during 2003 registered a net income from price level restatement and exchange differences of Ch\$ 435 million, compared to a Ch\$ 205 million loss during the present period. Sales reached Ch\$ 14,941 million during the period compared with Ch\$ 16,375 million in 2003. Volume sales decreased by 4.1%, reaching 10,557 tons, due to a decline in pre forms exports and lower sales of one-way formats; while average prices decreased by 5.1% influenced by the decrease of the Peso/US\$ rate of exchange. As a result the aforementioned operating income reached Ch\$ 1,191 million, compared with Ch\$ 1,615 million in 2003.

In the cable TV area, Cristalchile Comunicaciones S.A. (99.99% owned by Cristalerías), is the owner of 50% of Cordillera Comunicaciones Ltda., which in turn is the owner of Metropolis-Intercom S.A. During 2004, Metropolis-Intercom S.A. registered sales of Ch\$ 22,186 million, compared with Ch\$ 22,408 million in 2003. Metropolis-Intercom had a net loss of Ch\$ 5,962 million, compared with a net loss of Ch\$ 4,845 million in 2003. This lower result is mainly due to a one-time Ch\$ 775 million charge, that affects the non-operating result of the company. Metropolis-Intercom's EBITDA reached Ch\$3,192 million during the period (Ch\$ 2,944 million in 2003). The latter includes a depreciation charge of Ch\$ 7,338 million (Ch\$ 6,672 million in 2003) corresponding to the HFC network acquired in July 2000. The company ended the period with 223,820 basic subscribers (237,324 in 2003), 28,970 premium service subscribers (33,440 in 2003), 38,503 broadband internet subscribers (31,5% over 2003) and 9,255 IP telephony subscribers.

As a result of the above mentioned and a negative goodwill amortization charge through Cordillera Comunicaciones of Ch\$ 2,088 million during the year (Ch\$ 2,095 million in 2003), Cristalchile Comunicaciones recorded a net loss of Ch\$ 4,041 million (net loss of Ch\$3,468 million in 2003).

The first stage of the development plan considers the construction of a new plant, equipped with 4 new fabrication lines and a furnace with production capacity of 360 tons per day, that supposes US\$ 110 million investment and that would be financed by a combination of internal resources and credits. Start up of operations is scheduled for 2006 and will allow to increase the present production capacity by 35%.

Following stages of the expansion imply adding 7 fabrication lines and 2 furnaces with production capacities over 400 tons per day.

4. CASH FLOW STATEMENT

As of June 30, 2004 a total net positive flow of Ch\$ 5,987 million was generated, which is explained by a positive flow generated by operating activities of Ch\$ 21,112 million which were partially offset by a negative financing flow of Ch\$ 3,929 million, and a negative flow of investment activities of Ch\$11,196 million.

The operating flow corresponds basically to the collection of sales and financial interests and other income received that were reduced in part by payment to suppliers, taxes and interests.

The negative financing flow can be explained mainly by dividends paid of Ch\$ 3,135 million and loans payments for Ch\$ 648 million.

The negative investment flow is mainly explained by the incorporation of fixed assets of Ch\$ 7,253 million, and loans to related companies for Ch\$ 3,804 million.

The foregoing results in an increase in the final balance of cash and cash equivalent, once included the inflationary effect, which passed from Ch\$ 76,214 million as of December 31, 2003 to Ch\$ 82,283 million as of June 30, 2004.
