**Global Industries, Ltd. Announces Operating Results for the Fourth Quarter and Year Ended December 31, 2005**

*Carlyss, Louisiana*, (February 15, 2006) **Global Industries, Ltd.** (NASDAQ: **GLBL**) announced results for the quarter and year ended December 31, 2005. Revenues were \$174.0 million for the fourth quarter of 2005 compared to revenues of \$171.2 million for the same period in 2004. Gross profit was \$29.5 million for the fourth quarter of 2005 compared to \$43.2 million for the same period in 2004. The Company reported diluted earnings per share from continuing operations of \$0.09 per share for the fourth quarter of 2005 compared to \$0.05 per share for the

comparable period in 2004. Additionally, results for the fourth quarter of 2004 included diluted earnings per share from discontinued operations of \$0.14 per share, primarily resulting from the sale of our Liftboat Division.

The \$13.7 million decline in gross profit between comparable quarters was primarily due to lower utilization in our Latin America and Asia Pacific segments. In Latin America, major projects which were started in 2004 and 2005 were substantially completed during the fourth quarter of 2005, and the OCD and GDMC Latin America segments prepared for new projects set to commence in earnest in early 2006. In OCD Asia Pacific, the working season for 2005 in China came to an end during the quarter, and additional equipment which had been relocated to this region during 2005 became temporarily idle. Additionally, the gross profit margin of our OCD Gulf of Mexico segment was negatively impacted by lower margins on intercompany services and the unscheduled release and demobilization of a vessel in Trinidad.

Income from continuing operations before income taxes for the fourth quarter of 2004 included the negative effect of \$7.1 million of asset impairment costs, or \$0.02 per diluted share, related to the impairment of two vessels and one facility.

Revenues for the year ended December 31, 2005 increased \$225.3 million, or 49%, from 2004 to \$688.6 million. Gross profit was \$116.8 million for the year ended December 31, 2005, an improvement of \$52.4 million compared to the year ended December 31, 2004. Income from continuing operations, net of taxes, was \$34.8 million, an improvement of \$28.2 million over 2004. Diluted earnings per share from continuing operations were \$0.30 for the year ended December 31, 2005 compared to \$0.06 per share for 2004. Additionally, results for 2004 included diluted earnings per share from discontinued operations of \$0.14 per share, primarily resulting from the sale of our Liftboat Division.

During the fourth quarter of 2005, we booked \$175.0 million of new work resulting in a December 31, 2005 backlog of \$576.1 million as compared to a backlog of \$262.0 million at the end of 2004.

William J. Dore', Global's Chairman and Chief Executive Officer, said, "We are entering a phase in the cycle where there is robust demand for offshore construction services across all of our regions. Our long-term positive outlook is supported by record levels of inquiries and bidding activity. We anticipate backlog to continue on an upward trend.

In the Gulf of Mexico, we see strong demand for offshore construction services, including diving, based on the amount of damage which occurred from last year's hurricane season. In addition, our worldwide major construction barge utilization for fiscal 2005 was 54% up 22% from fiscal year 2004. As of December 31, 2005, our backlog in international regions was \$537.8 million. Given this promising situation, we intend to redouble our efforts to address productivity issues and to take full advantage of this opportunity."
