Edgar Filing: AULT INC - Form 10-Q

AULT INCORPORATED AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FIRST QUARTER ENDED SEPTEMBER 2, 2001

1. Summary of Consolidation Principles

The accompanying consolidated financial statements include the accounts of Ault Incorporated, its wholly owned subsidiaries, Ault Shanghai and Ault Korea Corporation, including its wholly owned subsidiary, Ault Xianghe Co. Ltd. All significant intercompany transactions have been eliminated. The foreign currency translation adjustment represents the translation into United States dollars of the Company's investment in the net assets of its foreign subsidiary in accordance with the provisions of FASB Statement No. 52.

Effective May 29, 2000 the company changed its fiscal year end for its Korean subsidiary from May 31 to April 30 and will consolidate the subsidiary for financial reporting purposes on a one-month lag basis. This change was done to facilitate timely and accurate consolidation and in order to meet financial reporting deadlines of the Company. The result of operations for the subsidiary for May 2000 (\$61,000 net loss) was included in the consolidated results of operations for the first quarter of fiscal 2001. Retained earnings were adjusted during the first quarter of fiscal 2001 to eliminate the subsidiary net loss for May 2000, which was included in operations for the year-ended May 28, 2000. The effect of the change in year-end for future periods is expected to be insignificant.

In December 1999, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) No. 101 REVENUE RECOGNITION IN FINANCIAL STATEMENTS. SAB No. 101 summarizes certain of the SEC staff's views in applying generally accepted accounting principles to selected revenue recognition issues. As a result, the Company changed the method of accounting for certain sales transactions. Historically, the Company recognized revenue upon shipment of products to certain customers because, even though some products were shipped FOB destination, we used a common carrier and thus gave up substantially all the risks of ownership. Under the new accounting method adopted retroactive to May 29, 2000, the Company now recognizes revenue upon delivery of products to these customers. The cumulative effect of the change on prior years resulted in a non-cash charge to income of \$50,000 (net of taxes of \$27,000) for the year ended June 3, 2001.

For the three months ended August 27, 2000, the Company recognized \$234,000 in revenue that was included in the cumulative effect adjustment as of May 29, 2000. The effect of the revenue in the first quarter was to increase income by \$50,000 (after reduction for income taxes of \$27,000).

The balance sheet of the Company as of September 2, 2001, and the related statements of income and cash flows for the three months ended September 2, 2001 have been prepared without being audited. In the opinion of the management, these statements reflect all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the position of Ault Incorporated and subsidiaries as of September 2, 2001, and the results of operations and cash flows for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. Therefore, these statements should be read in conjunction with the financial statements and notes thereto included in the Company's June 3, 2001 Form 10-K.

The results of operations for the interim periods are not necessarily indicative of results that will be realized for the full fiscal year.

Basic Income (Loss) per Share	(.14)	.13
Diluted Income (Loss) per Share	(.14)	.13

6. Accounting Pronouncements

On June 4, 2001 the Company adopted Statement of Financial Accounting Standard (SFAS) No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES, as amended by SFAS No. 138, ACCOUNTING FOR CERTAIN DERIVATIVE INSTRUMENTS AND CERTAIN HEDGING ACTIVITIES. SFAS No. 133 establishes accounting and reporting standards for derivative instruments and for hedging activities. It requires that all derivatives, including those embedded in other contracts, be recognized as either assets or liabilities and that those financial instruments be measured at fair value. The accounting for changes in the fair value of derivatives depends on their intended use and designation. Management has reviewed the requirements of SFAS No. 133 and has determined that the Company has no freestanding or embedded derivatives. All agreements that contain provisions meeting the definition of a derivative also meet the requirements of, and have been designated as normal purchases or sales. The Company's policy is to not use

Edgar Filing: AULT INC - Form 10-Q

freestanding derivatives and to not enter into contracts with terms that cannot be designated as normal purchases or sales.

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 141, BUSINESS COMBINATIONS and No. 142 GOODWILL AND OTHER INTANGIBLE ASSETS. SFAS No. 141 will require that the purchase method of accounting be used for all business combinations initiated after June 30, 2001 and that the use of the pooling-of-interest method is no longer allowed. SFAS No. 142 requires that upon adoption, amortization of goodwill will cease and instead, the carrying value of goodwill will be evaluated for impairment on an annual basis. Identifiable intangible assets will continue to be amortized over their useful lives and reviewed for impairment in accordance with SFAS No. 121 ACCOUNTING FOR THE IMPAIRMENT OF LONG-LIVED ASSETS AND FOR LONG-LIVED ASSETS TO BE DISPOSED OF. SFAS No. 142 is effective for the Company in its fiscal year beginning June 3, 2002. The Company is evaluating the impact of the adoption of these standards and has not yet determined the effect of adoption on its financial position and results of operations.

Page 8

ITEM 2 - MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

First Quarter Ended September 2, 2001

(\$000)	Fiscal 2002	Fiscal 2001	Increase / (Decrease)	
			----- Amount	Percent -----
Net Sales	\$10,301	\$21,918	(\$11,617)	(53%)
Operating Income (Loss)	(410)	885	(1,295)	(146%)

Net sales were \$10,301,000 for the first quarter of fiscal 2002 down 53% from \$21,918,000 for the first quarter of fiscal 2001. The decrease is due to the economic slowdown that has affected our largest customers.

Operating income (loss) totaled (\$410,000) for the first quarter of fiscal 2002 and \$885,000 for the same period in fiscal 2001. Margins for the first quarter of fiscal 2002 were 23.4% of sales compared to 21.4% of sales for the same period in fiscal 2001. During the first quarter of fiscal 2002, the Korean subsidiary moved a new facility. The move resulted in business interruption income from the Korean government and was the primary cause of the margin percent increase. Operating expenses decreased in the first quarter of fiscal 2002 to \$2,819,000 from \$3,814,000 in the first quarter of fiscal 2001. Commission expenses decreased by \$330,000 due to lower revenue in the first three months of fiscal 2002. The Company also reduced expenses and increased efficiencies during the first quarter of 2002. This resulted in a savings of \$665,000 for the first quarter of 2002.

ORDER BACKLOG: The Company's order backlog at September 2, 2001 totaled \$9,662,000 compared to \$10,792,000 at June 3, 2001. The order backlog represents sales for approximately eight weeks. Many OEMs limit their contractual commitments to the best lead-times of their suppliers.

NON-OPERATING INCOME AND EXPENSE: Other expense was \$184,000 for the first quarter of fiscal 2002 and other income was \$200,000 for the same period in fiscal 2001. The difference is represented by the first quarter of fiscal 2002

Edgar Filing: AULT INC - Form 10-Q

having a currency exchange rate loss while the same period of fiscal 2001 had a currency exchange rate gain by the Korean subsidiary. The Company had interest income of \$31,000 in the first quarter of fiscal 2002 and \$27,000 for the same period in fiscal 2001. The Company incurred interest expenses of \$148,000 in the first three months of fiscal 2002 and \$152,000 in the same period of fiscal 2001, paid on bank credit facilities and long-term borrowings

INCOME TAX: The Company had pre-tax loss of \$711,000 for the three-month period in fiscal 2002 on which it accrued a consolidated income taxes benefit of \$65,000. For the three-month period in fiscal 2001 the Company had pre-tax income of \$960,000 on which US and Korean income taxes totaling \$325,000 were accrued. The effective tax rate was a benefit of 9.1% for the first quarter of 2002, and a charge of 33.9% for the same period in fiscal 2001. In the first quarter of fiscal 2002 the Company has not taken benefit from the foreign loss carryforwards the loss generated because it is not more likely than not they will be able to use such losses.

NET INCOME: The Company reported a basic per share loss of \$(0.14) for the first quarter of fiscal 2002 based on 4,536,000 outstanding weighted average shares, compared to basic per share income of \$0.13 for the first quarter of fiscal 2001, based on 4,455,000 outstanding weighted average shares. For the three months of fiscal 2002 the Company reported a diluted per share loss of \$(0.14) based on 4,536,000 outstanding weighted average shares, compared to diluted per share income of \$0.13 for the same period in fiscal 2001, which were based on 4,656,000 outstanding weighted average shares.

Page 9

LIQUIDITY AND CAPITAL RESOURCES

The following table describes the Company's liquidity and financial position on September 2, 2001, and on June 3, 2001:

	September 2, 2001	June 3, 2001
	-----	-----
	(\$000)	(\$000)
Working capital	\$16,409	\$17,840
Cash	3,010	3,723
Unutilized bank credit facilities	4,775	4,767
Cash provided by (used in) operations	1,025	(1,953)

CURRENT WORKING CAPITAL POSITION

As of September 2, 2001, the Company had current assets of \$25,301,000 and current liabilities of \$8,892,000 representing working capital of \$16,409,000 and a current ratio of 2.8. This represents a decrease in working capital from \$17,840,000 at June 3, 2001. The Company relies on its credit facilities and cash flows from operations as sources of working capital to support normal growth in revenue, capital expenditures and attainment of profit goals. The Company has not committed any funds to capital expenditures as of September 2, 2001.

CASH AND INVESTMENTS: As of September 2, 2001, the Company had cash and securities totaling \$3,010,000, down from \$3,723,000 as of June 3, 2001. This decrease in cash was primarily due to payments on the Company's lines of credit.

CREDIT FACILITIES: The Company maintains two credit facilities, its primary

Edgar Filing: AULT INC - Form 10-Q

credit facility is with US Bank and a credit facility with The Korea Exchange Bank, which supports the South Korean subsidiary.

CASH FLOWS FOR FISCAL 2002

OPERATIONS: Operations provided \$1,025,000 of cash during the three months of fiscal 2002 due principally to the following activities:

- (a) The loss net of depreciation, and amortization used cash of \$354,000.
- (b) Decreases in trade receivables mainly due to the decreased net sales in fiscal 2002 provided \$2,705,000 of cash.
- (c) Decreases in inventories provided \$605,000 of cash. The decrease is due to the decrease in net sales in fiscal 2002.
- (d) Decreases in accrued expenses and accounts payable used \$2,177,000 of cash. The decrease is due to the decrease in net sales for fiscal 2002.

INVESTING ACTIVITIES: Investing activities used net cash of \$887,000 relating to the completion of the new Korean facility.

FINANCING ACTIVITIES: Financing activities used net cash of \$853,000, primarily comprised of payments on the line of credit in Korea.

EFFECT OF FOREIGN CURRENCY EXCHANGE RATE FLUCTUATIONS: The effect of translating the Korean financial statements, which were prepared in Won to US dollars, had an increase effect on cash of approximately \$2,000 during the first three months of the year. The effect of translating the Chinese financial statements, which were prepared in Yuan to US dollars, had minimal effect on cash for the first three months of the year.

SUMMARY: The Company's cash and working capital positions are sound and, together with its credit facilities, adequate to support the Company's strategies for the remainder of fiscal 2002.

INFORMATION ABOUT PRODUCTS AND SERVICES: The Company's business operations are comprised of one activity--the design, manufacture and sale of equipment for converting electric power to a level used by OEMs in data

Page 10

communications/telecommunications and medical markets to charge batteries, and/or power equipment. The Company supports these power requirements by making available to the OEM products that have various technical features. These products are managed as one product segment under the Company's internal organizational structure and the Company does not consider any financial distinctive measures, including net profitability and segmentation of assets to be meaningful to performance assessment.

INFORMATION ABOUT REVENUE BY GEOGRAPHY

Distribution of revenue from the US, from each foreign country that is the source of significant revenue and from all other foreign countries as a group are as follows:

THREE MONTHS ENDED	
September 2, 2001	August 27, 2000
-----	-----
(\$000)	(\$000)

Edgar Filing: AULT INC - Form 10-Q

US	\$ 7,382	\$13,597
Korea	1,121	2,933
Belgium	22	1,247
UK	529	1,101
China	347	783
Canada	416	654
Other Foreign	484	1,603
	-----	-----
Total	\$10,301	\$21,918
	=====	=====

The Company considers a country to be the geographic source of revenue if it has contractual obligations, including an obligation to pay for trade receivable invoices.

IMPACT OF FOREIGN OPERATIONS AND CURRENCY CHANGES:

Products manufactured by the Korean subsidiary contributed a large portion of total sales. The Company will experience normal valuation changes as the Korean and Chinese currency fluctuate. The effect of translating the Korean and Chinese financial statements resulted in a net asset increase of \$65,000.

FORWARD LOOKING STATEMENTS

From time to time, in reports filed with the Securities and Exchange Commission, in press releases, and in other communications to shareholders or the investing public, the Company may make forward-looking statements concerning possible or anticipated future results of operations or business developments which are typically preceded by the words "believes", "expects", "anticipates", "intends" or similar expressions. For such forward-looking statements, the Company claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Shareholders and the investing public should understand that such forward-looking statements are subject to risks and uncertainties which could cause results or developments to differ significantly from those indicated in the forward-looking statements. Such risks and uncertainties include, but are not limited to, the overall level of sales by original equipment manufacturers (OEMs) in the telecommunications, data communications, computer peripherals and the medical markets; buying patterns of the Company's existing and prospective customers; the impact of new products introduced by competitors; delays in new product introductions; higher than expected expense related to sales and new marketing initiatives; availability of adequate supplies of raw materials and components; fuel prices; and other risks affecting the Company's target markets.

ACCOUNTING PRONOUNCEMENTS - On June 4, 2001 the Company adopted Statement of Financial Accounting Standard (SFAS) No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES, as amended by SFAS No. 138, ACCOUNTING FOR CERTAIN DERIVATIVE INSTRUMENTS AND CERTAIN HEDGING ACTIVITIES. SFAS No. 133 establishes accounting and reporting standards for derivative instruments and for hedging activities. It requires that all derivatives, including those embedded in other contracts, be recognized as either assets or liabilities and that those financial instruments be measured at fair value. The accounting for changes in the fair value of derivatives depends on their intended use and designation. Management has reviewed the requirements of SFAS No. 133

and has determined that the Company has no freestanding or embedded derivatives. All agreements that contain provisions meeting the definition of a derivative

Edgar Filing: AULT INC - Form 10-Q

also meet the requirements of, and have been designated as normal purchases or sales. The Company's policy is to not use freestanding derivatives and to not enter into contracts with terms that cannot be designated as normal purchases or sales.

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 141, BUSINESS COMBINATIONS and No. 142 GOODWILL AND OTHER INTANGIBLE ASSETS. SFAS No. 141 will require that the purchase method of accounting be used for all business combinations initiated after June 30, 2001 and that the use of the pooling-of-interest method is no longer allowed. SFAS No. 142 requires that upon adoption, amortization of goodwill will cease and instead, the carrying value of goodwill will be evaluated for impairment on an annual basis. Identifiable intangible assets will continue to be amortized over their useful lives and reviewed for impairment in accordance with SFAS No. 121 ACCOUNTING FOR THE IMPAIRMENT OF LONG-LIVED ASSETS AND FOR LONG-LIVED ASSETS TO BE DISPOSED OF. SFAS No. 142 is effective for the Company's fiscal year beginning June 3, 2002. The Company is evaluating the impact of the adoption of these standards and has not yet determined the effect of adoption on its financial position and results of operations.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company experiences foreign currency gains and losses, which are reflected in the financial statements, due to the strengthening and weakening of the U.S. dollar against currencies of the Company's foreign subsidiaries. The Company anticipates that it will continue to have exchange gains or losses in the future.

As of September 2, 2001, the Company only had fixed rate debt outstanding. Thus, interest rate fluctuations would not impact interest expense or cash flows. If the Company were to undertake additional debt, interest rate changes could impact earnings and cash flows.
