AULT INCORPORATED AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 FIRST QUARTER ENDED SEPTEMBER 1, 2002

1. Summary of Consolidation Principles

The accompanying consolidated financial statements include the accounts of Ault Incorporated, its wholly owned subsidiaries, Ault Shanghai, Ault Xianghe Co. Ltd, and Ault Korea Corporation. All significant intercompany transactions have been eliminated. The foreign currency translation adjustment represents the translation into United States dollars of the Company's investment in the net assets of its foreign subsidiaries in accordance with the provisions of FASB Statement No. 52.

The balance sheet of the Company as of September 1, 2002, and the related statements of operations and cash flows for the three months ended September 1, 2002 and September 2, 2001 have been prepared without being audited. In the opinion of the management, these statements reflect all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the position of Ault Incorporated and subsidiaries as of September 1, 2002, and the results of operations and cash flows for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. Therefore, these statements should be read in conjunction with the financial statements and notes thereto included in the Company's June 2, 2002 Form 10-K.

The results of operations for the interim periods are not necessarily indicative of results that will be realized for the full fiscal year.

2. Inventories

The components of inventory (in thousands) at September 1, 2002 and June 2, 2002 are as follows:

The Company has a \$4,000,000 revolving line-of-credit agreement through February 28, 2003. The financing agreement contains certain financial covenants related to the Company's consolidated net worth, EBITDA, working capital, and fixed coverage ratio covenants. On September 1, 2002, the Company was not in compliance with the EBITDA and fixed coverage ratio covenants. The Company is currently in negotiations with the financial institution and expects to receive a waiver or renegotiate the covenants. There were no advances outstanding on the revolving line-of-credit at September 1, 2002 and the Company does not expect a need to utilize this line of credit in the current fiscal year.

6. Acquisition

On July 16, 2002, the Company purchased a portion of the operating assets of the Power General division of Nidec America Corporation. The Power General division developed, manufactured, and sold high efficiency DC/DC converters and custom power supplies at various power levels up to 1200 watts under the Power General brand name. Pursuant to the Purchase Agreement, the Company paid the Seller \$366,000 in cash and issued \$2,074,000 face amount of the Company's newly-created Series B 7% Convertible Preferred Stock, no par value (the "Preferred Stock"). The Preferred Stock issued to Seller is convertible into 488,000 shares of the Company's Common Stock. The Company has filed a registration statement covering the shares of Common Stock issuable upon conversion of the Preferred Stock with the Securities and Exchange Commission. The Company will maintain Power General's engineering group in Massachusetts and intends to move Power General's manufacturing operations and related functions to Ault's other facilities in North America and Asia.

AULT INCORPORATED AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 FIRST QUARTER ENDED SEPTEMBER 1, 2002

The addition of Power General will benefit Ault in a number of ways. First, the additional engineering capabilities will enhance product development. Second, the acquisition brings greater product breadth to Ault through the addition of AC/DC power supplies and DC/DC converter products. This broader offering affords Ault new business opportunities.

Ault filed a Form 8-K with the Securities and Exchange Commission on July 31, 2002 to announce the acquisition and filed a Form 8-K/A on September 30, 2002 which included audited financial statement and pro forma financials.

The total cost of the acquisition, which closed on July 16, 2002, was \$2,521,778 and was accounted for under the purchase method of accounting. Accordingly, the acquired assets and liabilities assumed have been recorded at their respective fair values as of the date of acquisition. The results of operations of the

Edgar Filing: AULT INC - Form 10-Q

acquired business is included in the financial statements since the date of the acquisition. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed from Nidec on the date of the acquisition:

| | | |
|------------------------|----|-----------|
| Inventories | \$ | 1,048,675 |

Pro-forma results of the Company, assuming the acquisition had been made at the beginning of each period presented, are:

Included in the period ended September 1, 2002 are approximately \$353,000 of nonrecurring expenses for transition services relating to the transfer of Power General operations out of the Nidec facility and into an Ault facility.

7. Goodwill

The Company adopted Statement of Financial Accounting Standards ("SFAS") No. 142, Goodwill and Other Intangible Assets, effective June 3, 2002. Under SFAS No. 142, goodwill is no longer amortized but reviewed for impairment annually, or more frequently if certain indicators arise. Based on the initial impairment test, it was determined that none of the goodwill recorded was impaired.

Edgar Filing: AULT INC - Form 10-Q

Impairment adjustments recognized after adoption, if any, generally are required to be recognized as operating expenses. Had the Company been accounting for its goodwill under SFAS No. 142 for all periods presented, the Company's net loss and loss per share would have been as follows:

Amounts in thousands, except per share amounts

| | Period Ending | |
|---|------------------|------------------|

8. Redeemable Convertible Preferred Stock

During the quarter, in connection with the purchase of certain assets and liabilities of Power General, the Company issued 2,074 shares of redeemable 7% convertible preferred stock at \$1,000 face value. The preferred stock shares are convertible into common stock at the holders' option at a conversion price of \$4.25 per share and has a mandatory redemption of one-third of the outstanding shares of unconverted preferred stock on July 16, 2006, one-half of the remaining outstanding on July 16, 2007, and the rest on July 16, 2008. The dividends on the preferred stock are cumulative and payable quarterly beginning October 15, 2002, and can be paid in cash; however, during the first three years the Company can pay dividends in shares of common stock in lieu of cash.

9. Accounting Pronouncements

In August 2001, the FASB issued SFAS No. 144, ACCOUNTING FOR THE IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS. SFAS 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supercedes SFAS 121, ACCOUNTING FOR THE IMPAIRMENT OF LONG-LIVED ASSETS AND ASSETS TO BE DISPOSED OF, and the accounting and reporting provisions of Accounting Principles Board Opinion No. 30, REPORTING THE RESULTS OF OPERATIONS--REPORTING THE EFFECTS OF DISPOSAL OF A SEGMENT OF A BUSINESS AND EXTRAORDINARY, UNUSUAL AND INFREQUENTLY OCCURRING TRANSACTIONS. SFAS 144 requires that long-lived assets to be disposed of be measured at the lower of carrying amount or fair value less cost to sell. The Company adopted SFAS 144 on June 3, 2002 and it did not have an effect on its financial position or results of operations.

Edgar Filing: AULT INC - Form 10-Q

ITEM 2 - MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of the financial condition and results of operations are based on the consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those involving significant judgments and uncertainties which could potentially result in materially different results under different assumptions and conditions. Application of these policies is particularly important to the portrayal of the financial condition and results of operations. The Company believes the accounting policies described below meet these characteristics. All significant accounting policies are more fully described in the notes to the consolidated financial statements included in the Company's annual report on Form 10-K.

INVENTORY VALUATION - Inventory is written down for estimated surplus and discontinued inventory items. The amount of the write-down is determined by analyzing historical and projected sales information, plans for discontinued products and other factors. Changes in sales volumes due to unexpected economic or competitive conditions are among the factors that would result in materially different amounts for this item.

ALLOWANCE FOR DOUBTFUL ACCOUNTS - An allowance is established for estimated uncollectible accounts receivable. The required allowance is determined by reviewing customer accounts and making estimates of amounts that may be uncollectible. Factors considered in determining the amount of the reserve include the age of the receivable, the financial condition of the customer, general business, economic and political conditions, and other relevant facts and circumstances. Unexpected changes in the aforementioned factors would result in materially different amounts for this item.

DEFERRED TAXES - The Company accounts for income taxes in accordance with SFAS NO. 109, "Accounting for Income Taxes," which requires that deferred tax assets and liabilities be recognized using enacted tax rates for the effect of temporary differences between book and tax basis of recorded assets and liabilities. SFAS 109 also requires that deferred tax assets be reduced by a valuation allowance if it is likely that some portion or the entire deferred tax asset will not be realized. Based upon prior taxable income and estimates of future taxable income, the Company has determined that it is likely that a portion of the net deferred tax asset will not be fully realized in the future. Thus a valuation allowance has been established. If actual taxable income varies from these estimates, the Company may be required to change the valuation allowance against the deferred tax assets resulting in a change in income tax expense (benefit), which will be recorded in the consolidated statement of operations.

RESULTS OF OPERATIONS

First Quarter Ended September 1, 2002

| (\$000) | Fiscal | Fiscal | Increase / (Decrease) |
|---------|--------|--------|-----------------------|
| | | | ----- |

Edgar Filing: AULT INC - Form 10-Q

| | 2003 | 2002 | Amount | Percent |
|----------------|----------|----------|--------|---------|
| | ----- | | | |
| Net Sales | \$10,848 | \$10,301 | \$547 | 5% |
| Operating Loss | (418) | (410) | (8) | (2%) |

Net sales were \$10,848,000 for the first quarter of fiscal 2003 up 5% from \$10,301,000 for the first quarter of fiscal 2002. The increase is due to the stabilization and slow growth of the economy, and \$369,000 for sales relating to operations from the acquisition of certain assets and certain liabilities of Power General.

Operating loss totaled \$418,000 for the first quarter of fiscal 2003 and \$410,000 for the same period in fiscal 2002. Margins for the first quarter of fiscal 2003 were 26.3% of sales compared to 23.4% of sales for the same period in fiscal 2002. The increase in margin is primarily due to 1) a decrease in the order size of U.S. orders in the first quarter of fiscal 2003. The Company charges a higher price for lower quantities.

Page 10

The Company feels that customers are decreasing the order size due to the uncertainties relating to the economy. The decreased order size contributed higher margins of \$78,000. 2) The increase in the value of orders that were manufactured by the Company's subsidiaries as opposed to the Company's subcontractors. This contributed \$178,000 of higher margins. 3) The volume of orders at the China facility exceeded the fixed cost mark in the first quarter of fiscal 2003 compared to the first quarter of fiscal 2002. This increased margins by \$55,000. The Company is anticipating an increase in order size as the economy improves which will decrease the margin percent. Also the continuation of the weakening dollar against the Korean won will have a negative impact on future margins.

Operating expenses increased in the first quarter of fiscal 2003 to \$3,276,000 from \$2,819,000 in the first quarter of fiscal 2002. The additional expenses in the first quarter of fiscal 2003 are primarily related to 1) the July 2002 acquisition of certain assets and certain liabilities of Power General. These additional costs of \$224,000 are related to the engineering and sales staff hired as a result of the acquisition. These costs will continue in the future. 2) An increase in bad debt expense of \$60,000. 3) Transition costs of \$176,000 for temporary operation in current Power General location.

ORDER BACKLOG: The Company's order backlog at September 1, 2002 totaled \$8,596,000 compared to \$8,365,000 at June 2, 2002. The order backlog represents sales for approximately ten weeks.

NON-OPERATING INCOME AND EXPENSE: Nonoperating expense is \$187,000 for the first quarter of fiscal 2003 compared to \$301,000 for the same period in fiscal 2002. The Company had interest income of \$5,000 in the first quarter of fiscal 2003 and \$31,000 for the same period in fiscal 2002. Other expenses were \$83,000 for the first quarter of fiscal 2003 and \$184,000 in the first quarter of fiscal 2002. Both amounts are primarily related to the currency exchange rate loss in Korea. The Company incurred interest expenses of \$109,000 in the first three months of fiscal 2003 and \$148,000 in the same period of fiscal 2002, paid on bank credit facilities and long-term borrowings.

INCOME TAX: The Company had a pre-tax loss of \$605,000 for the three-month period in fiscal 2003 on which it accrued a consolidated income tax benefit of \$103,000. For the three-month period in fiscal 2002 the Company had a pre-tax

Edgar Filing: AULT INC - Form 10-Q

loss of \$711,000 on which a tax benefit of \$65,000 was accrued. The effective tax rate is a benefit of 17% for the first quarter of 2003, and a benefit of 9% for the same period in fiscal 2002. In the first quarter of fiscal 2003 the Company did not take a benefit from the U.S. loss carryforwards the loss generated because it was likely the Company will be unable to use such losses. The Company has recognized the benefit that will be realized from the loss carrybacks. In the first quarter of fiscal 2002 the Company did not take a benefit from the foreign loss carryforwards the loss generated because it was likely the Company will be unable to use such losses.

NET LOSS: The Company reported a basic and diluted per share loss of \$(0.11) for the first quarter of fiscal 2003 based on 4,572,000 outstanding weighted average shares, compared to basic and diluted per share loss of \$(0.14) for the first quarter of fiscal 2002, based on 4,536,000 outstanding weighted average shares.

LIQUIDITY AND CAPITAL RESOURCES

The following table describes the Company's liquidity and financial position on September 1, 2002, and on June 2, 2002:

| | September 1, 2002 | June 2, 2002 |
|-----------------------------------|----------------------|-----------------|
| | ----- | ----- |
| | (\$000) | (\$000) |
| Working capital | \$14,292 | \$14,083 |
| Cash | 3,191 | 4,775 |
| Unutilized bank credit facilities | 975 | 4,975 |

CURRENT WORKING CAPITAL POSITION

As of September 1, 2002, the Company had current assets of \$23,684,000 and current liabilities of \$9,392,000 representing working capital of \$14,292,000 and a current ratio of 2.5. This represents an increase in working capital from \$14,083,000 at June 2, 2002. The Company relies on its credit facilities and cash flows from operations as sources of working capital to support normal growth in revenue, capital

expenditures and attainment of profit goals. The Company has not committed any funds to capital expenditures as of September 1, 2002.

CASH AND INVESTMENTS: As of September 1, 2002, the Company had cash and securities totaling \$3,191,000, down from \$4,775,000 as of June 2, 2002. This decrease in cash was primarily due to payments for the acquisition of Power General of \$366,000, payments to fund the operations of Power General after the acquisition of \$420,000, and payments to fund operations.

CREDIT FACILITIES: The Company maintains two credit facilities. Its primary credit facility is with US Bank and it has a credit facility with The Korea Exchange Bank, which supports the South Korean subsidiary. The Company has a \$4,000,000 revolving line-of-credit agreement through February 28, 2003. The financing agreement contains certain financial covenants related to the Company's consolidated net worth, EBITDA, working capital, and fixed coverage ratio covenants. On September 1, 2002, the Company was not in compliance with the EBITDA and fixed coverage ratio covenants. The Company is currently in

Edgar Filing: AULT INC - Form 10-Q

negotiations with the financial institution and expects to receive a waiver or renegotiate the covenants. There were no advances outstanding on the revolving line-of-credit at September 1, 2002 and the Company does not expect a need to utilize this line of credit in the current fiscal year.

CASH FLOWS FOR FISCAL 2003

OPERATIONS: Operations used \$1,093,000 of cash during the first three months of fiscal 2003 due principally to the following activities:

- (a) The loss net of depreciation used cash of \$264,000.
- (b) Increases in trade receivables used \$416,000 of cash, primarily related to additional sales from the activities of Power General.
- (c) Increases in inventories used \$294,000 of cash, primarily related to additional purchases for the activities of Power General.

INVESTING ACTIVITIES: Investing activities used net cash of \$473,000 principally relating to the acquisition of Power General.

FINANCING ACTIVITIES: Financing activities used net cash of \$44,000, primarily comprised of payment of debt.

EFFECT OF FOREIGN CURRENCY EXCHANGE RATE FLUCTUATIONS: The effect of translating the Korean financial statements, which were prepared in Won to US dollars, had an increase effect on cash of approximately \$26,000 during the first three months of fiscal 2003. The effect of translating the Chinese financial statements, which were prepared in Yuan to US dollars, had minimal effect on cash for the first three months of fiscal 2003.

SUMMARY: The Company's cash and working capital positions are sound and, together with its credit facilities, adequate to support the Company's strategies for the remainder of fiscal 2003.

INFORMATION ABOUT PRODUCTS AND SERVICES: The Company's business operations are comprised of one activity--the design, manufacture and sale of equipment for converting electric power to a level used by OEMs in data communications/telecommunications and medical markets to charge batteries, and/or power equipment. The Company supports these power requirements by making available to the OEM products that have various technical features. These products are managed as one product segment under the Company's internal organizational structure and the Company does not consider any financial distinctive measures, including net profitability and segmentation of assets to be meaningful to performance assessment.

| | (\$000) | (\$000) |
| US | \$6,977 | \$7,382 |

The Company considers a country to be the geographic source of revenue if it has contractual obligations, including an obligation to pay for trade receivable invoices.

IMPACT OF FOREIGN OPERATIONS AND CURRENCY CHANGES:

Products manufactured by the Korean subsidiary contributed a large portion of total sales. The Company will experience normal valuation changes as the Korean and Chinese currencies fluctuate. The effect of translating the Korean and Chinese financial statements resulted in a net asset increase of \$173,000.

FORWARD LOOKING STATEMENTS

From time to time, in reports filed with the Securities and Exchange Commission, in press releases, and in other communications to shareholders or the investing public, the Company may make forward-looking statements concerning possible or anticipated future results of operations or business developments that are typically preceded by the words "believes", "expects", "anticipates", "intends" or similar expressions. For such forward-looking statements, the Company claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Shareholders and the investing public should understand that such forward-looking statements are subject to risks and uncertainties which could cause results or developments to differ significantly from those indicated in the forward-looking statements. Such risks and uncertainties include, but are not limited to, the overall level of sales by original equipment manufacturers (OEMs) in the telecommunications, data communications, computer peripherals and the medical markets; buying patterns of the Company's existing and prospective customers; the impact of new products introduced by competitors; delays in new product introductions; higher than expected expense related to sales and new marketing initiatives; availability of adequate supplies of raw materials and components; dependence on outside contractors; reliance on third party distribution; successful integration of the Power General assets; dependence on foreign operations; and other risks affecting the Company's target markets generally.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company experiences foreign currency gains and losses, which are reflected

Edgar Filing: AULT INC - Form 10-Q

in the financial statements, due to the strengthening and weakening of the U.S. dollar against currencies of the Company's foreign subsidiaries. The Company anticipates that it will continue to have exchange gains or losses in the future.

As of September 1, 2002, the Company had only fixed rate debt outstanding. Thus, interest rate fluctuations would not impact interest expense or cash flows. If the Company were to undertake additional debt, interest rate changes could impact earnings and cash flows.
