PROXY STATEMENT

**For Annual Stockholders Meeting to be Held
June 25, 2002, at 9:00 a.m. (Pacific Standard Time)**

Voting

This proxy statement is delivered to you by Impac Mortgage Holdings, Inc. (the Company or IMH), a Maryland corporation, in connection with the annual meeting of stockholders to be held on June 25, 2002 at 9:00 a.m. (Pacific Standard Time) at Sutton Place Hotel, 4500 MacArthur Blvd., Newport Beach, California 92660 (the Meeting). The approximate mailing date for this proxy statement and the enclosed proxy is May 8, 2002. If a proxy in the accompanying form is duly executed and returned, the shares represented by the proxy will be voted as directed. If no direction is given, the shares represented by the proxy will be voted for the election of the seven nominees for director named herein, and to amend the Company's articles of incorporation to increase the authorized shares of common stock. Any proxy given may be revoked at any time prior to its exercise by notifying the Secretary of the Company in writing of such revocation, by duly executing and delivering another proxy bearing a later date, or by attending and voting in person at the Meeting.

Solicitations

The cost of this solicitation of proxies will be borne by the Company. Solicitations will be made by mail. In addition, the officers and regularly engaged employees of the Company may, in a limited number of instances, solicit proxies personally or by telephone. The Company will reimburse banks, brokerage firms, other custodians, nominees and fiduciaries for reasonable expenses incurred in sending proxy materials to beneficial owners of common stock of the Company.

Annual Report

The Company's Annual Report to Stockholders for the year ended December 31, 2001, is concurrently being provided to each stockholder.

Quorum

Holders of common stock of record at the close of business on April 2, 2002 (the Record Date) will be entitled to vote at the Meeting. There were 39,422,163 shares of common stock, \$0.01 par value per share, outstanding at that date. Each share of common stock is entitled to one vote and the presence, in person or by proxy of holders of a majority of the outstanding shares of common stock, is necessary to constitute a quorum for the Meeting. The affirmative vote of a plurality of all of the votes cast at a Meeting at which a quorum is present is necessary for the election of a director. For purposes of the election of directors, abstentions and broker non-votes will not be counted as votes cast and will have no effect on the result of the vote, although they will count toward the presence of a quorum. The affirmative vote of two-thirds of all votes entitled to be cast is required for approval of the proposed amendment to the Company's articles of incorporation. For purposes of the vote on the proposal, abstentions and broker non-votes will have the same effect as votes against the proposal, although they will count towards the presence of a quorum.

PROPOSAL NO. 1**ELECTION OF DIRECTORS**

The Company's directors are elected annually to serve until the next annual meeting of stockholders and thereafter until their successors are elected and qualify. The Company's Charter and Bylaws currently provide for a variable board of directors with a range of between three and fifteen members. The Company's bylaws give the board of directors the authority to establish, increase or decrease the number of directors. The size of the Company's board of directors is currently set at seven. No proxy will be voted for more than seven nominees for director.

Unless otherwise directed by stockholders within the limits set forth in the Bylaws, the proxy holders will vote all shares represented by proxies held by them for the election of the maximum number of the following nominees, all of whom are now members of and constitute the Company's board of directors. The Company is advised that all of the nominees have indicated their availability and willingness to serve if elected. In the event that any nominee becomes unavailable or unable to serve as a director of the Company prior to the voting, the proxy holders will refrain from voting for the unavailable nominee or will vote for a substitute nominee in the exercise of their best judgment.

EXECUTIVE COMPENSATION

On November 20, 1995, Joseph R. Tomkinson, William S. Ashmore, and Richard J. Johnson each entered into a five-year employment agreement with a base annual salary, subject to adjustment for inflation, plus bonuses described in footnotes (2) and (3), and in the case of Messrs. Tomkinson and Ashmore, those additional bonuses described in footnote (4). On January 1, 1998, each of these employment agreements was modified and extended to a term expiring on December 31, 2002. In August 1997, these officers modified their employment agreements with IFC to also become officers of RAI Advisors, LLC (RAI), the former manager of ICH, and of ICH and ICC. This arrangement was terminated in May 1999. See Employment Agreements.

Until May 1999, ICH reimbursed RAI, which reimbursed IFC on a dollar-for-dollar basis, including the service charge referenced below, for the actual cost of providing the services of these officers to the Company based upon the compensation payable to them by IFC, plus a 15% service charge. Salary, other annual compensation and all other compensation were allocated to the Company at a rate of two-thirds and to ICH at a rate of one-third for services performed by the executive officers as part of the sub-management agreement among IMH, IFC and RAI. The sub-management agreement with RAI was terminated in May of 1999. Messrs. Tomkinson, Ashmore, Johnson are no longer officers of ICH and ICC.

The following is the amount of compensation paid to Messrs. Tomkinson, Ashmore, Johnson and Morrison and Ms. Verdugo by the Company for the years ended December 31, 2001, 2000 and 1999 (the Named Executive Officers).

Employment Agreements

On November 20, 1995, each of Messrs. Tomkinson, Ashmore and Johnson entered into a five-year employment agreement with IFC. In August 1997, in connection with the public offering of ICH, each officer's employment agreement was amended and restated to allow him or her to become an officer of RAI (and of ICH and ICCG). See Executive Compensation Summary Compensation Table for annual salary and bonus descriptions. RAI agreed to cause each of its officers to devote as much of his or her time to the operations of ICH as was necessary. On January 1, 1998, each of these employment agreements was modified and extended to a term expiring on December 31, 2002. Until May 1999, ICH reimbursed RAI, who reimbursed IFC, on a dollar for dollar basis, including a service charge.

Pursuant to the employment agreements, if the officer is terminated without cause, as defined therein, then the officer will receive (i) his or her base salary for a period of one year following the date of termination, (ii) any bonus or incentive compensation prorated through the date of termination; provided that if the bonus or incentive compensation is discretionary, then the officer will receive a payment at least equal to the last previous payment made to the officer, if any, for the previous year prorated to the date of termination, and (iii) any expense reimbursements. Each officer agreed that during the term of the employment agreement and for a period of one year from the date of termination he or she will not compete with the Company if the agreement is voluntarily terminated by the officer. Upon any merger, transfer of assets, dissolution, liquidation or

consolidation, the surviving corporation or transferee is bound by such employment agreement, and the Company has agreed to take all action to ensure such.

Effective in January 1998 and in lieu of accepting 25% of the fee owed in connection with the termination of the management agreement between the Company and Imperial Credit Advisors, Inc. (ICAI), the Company's former manager, Messrs. Tomkinson, Ashmore and Johnson amended each of their employment agreements so that if the Company's annualized return on equity, as defined therein, during any fiscal quarter is in excess of the ten year U.S. Treasury rate plus 200 basis points, each officer will receive an additional bonus of 4.0875%, 4.25%, and 3.0%, respectively, of such excess (the Incentive Compensation). 18% of each officer's incentive compensation will be deposited in a deferred compensation plan, one-third of which will be released one year from the quarter in which it is deposited plus the applicable accrued interest on such released amount at a rate of the ten year average yield, as defined therein, plus 200 basis points. 80% of the remainder of the incentive compensation will be paid to each officer in cash and 20% will be used by each officer to purchase shares of the Company's common stock pursuant to its dividend reinvestment and stock purchase plan.

Pursuant to an at will employment offer letter dated May 28, 1998, Ronald M. Morrison was hired as General Counsel and Secretary of the Company with a base salary of \$180,000 and an annual discretionary bonus of up to 20% of his base salary based upon performance and corporate profitability objectives. Mr. Morrison is also eligible to stock options under the Company's Stock Option Plans, a monthly car allowance and expense reimbursements.

Stock Option Plans

The Company's 1995 Stock Option, Deferred Stock and Restricted Stock Plan (the 1995 Stock Option Plan) provides for the grant of qualified incentive stock options (ISOs) that meet the requirements of Section 422 of the Internal Revenue Code of 1986, as amended (the Code), options not qualified (NQSOs), deferred stock, restricted stock, stock appreciation rights and limited stock appreciation rights awards. During 2001, the board of directors and stockholders approved a new Stock Option, Deferred Stock and Restricted Stock Plan (the 2001 Stock Option Plan and together with the 1995 Stock Option Plan the Stock Option Plans). The 2001 Stock Option Plan provides for the grant of ISOs that meet the requirements of Section 422 of the Code, NQSOs, deferred stock and restricted stock awards and dividend equivalent rights.

The Stock Option Plans are administered by the board of directors (the Administrator). ISOs may be granted to the officers and key employees of the Company. NQSOs and awards may be granted to the directors, officers and key employees of the Company or any of its subsidiaries, and to the directors, officers and key employees of IFC. The exercise price for any NQSO or ISO granted under either of the Stock Option Plans may not be less than 100% (or 110% in the case of ISOs granted to an employee who is deemed to own in excess of 10% of the outstanding common stock) of the fair market value of the shares of common stock at the time the NQSO or ISO is granted. The purpose of each of the Stock Option Plans is to provide a means of performance-based compensation in order to attract and retain qualified personnel and to provide an incentive to those whose job performance affects the Company.

Under current law, ISOs may not be granted to any individual who is not also an officer or employee of the Company. To ensure that the Company qualifies as a REIT, the Stock Option Plans provide that no options may be granted to any person who, assuming exercise of all options held by such person, would own or be deemed to own more than 9.5% of the outstanding shares of common stock of the Company.

Each option must terminate no more than 10 years from the date it is granted (or 5 years in the case of ISOs granted to an employee who is deemed to own in excess of 10% of the combined voting power of the Company's outstanding common stock). Options may be granted on terms providing for exercise in whole or in part at any time or times during their respective terms, or only in specified percentages at stated time periods or intervals during the term of the option, as determined by the Administrator.

Options granted under the Stock Option Plans will become exercisable in accordance with the terms of the grant made by the Administrator. Awards will be subject to the terms and restrictions of the award made by the Administrator. The Administrator has discretionary authority to select participants from among eligible persons and to determine at the time an option or award is granted and, in the case of options, whether it is intended to be an ISO or a NQSO, and when and in what increments shares covered by the option may be purchased.

The board of directors may from time to time revise or amend either of the Stock Option Plans, and may suspend or discontinue either any time. However, no such revision or amendment may impair the rights of any participant under any outstanding award without his consent or may, without stockholder approval, increase the number of shares subject to either of the Stock Option Plans or decrease the exercise price of a stock option to less than 100% of fair market value on the date of grant, with the exception of adjustments resulting from changes in capitalization, materially modify the class of participants eligible to receive options or awards under the Stock Option Plans, materially increase the benefits accruing to participants under the Stock Option Plans or extend the maximum option term under the Stock Option Plans.

1995 Stock Option Plan

Subject to anti-dilution provisions for stock splits, stock dividends and similar events, the 1995 Stock Option Plan currently authorizes the grant of options to purchase, and awards of, up to 1,200,000 shares. As of March 31, 2002, 67,390 shares underlying options were available for grant under the 1995 Stock Option Plan. If an option granted under the 1995 Stock Option Plan expires or terminates, or an award is forfeited, the shares subject to any unexercised portion of such option or award will again become available for the issuance of further options or awards under the 1995 Stock Option Plan.

The exercise price of any option granted under the 1995 Stock Option Plan is payable in full by (1) cash payment, (2) surrender of shares of the Company's common stock already owned by the option holder having a market value equal to the aggregate exercise price of all shares to be purchased including, in the case of the exercise of NQSOs, restricted stock subject to an award under the 1995 Stock Option Plan, (3) cancellation of indebtedness owed by the Company to the option holder, (4) a full recourse promissory note executed by the option holder, or (5) any combination of the foregoing. The terms of any promissory note may be changed from time to time by the board of directors to comply with applicable United States Internal Revenue Service or Securities and Exchange Commission regulations or other relevant pronouncements.

Under the 1995 Stock Option Plan, the Company made loans available to stock option holders, subject to board of directors' approval, in connection with the exercise of stock options granted under the 1995 Stock Option Plan. See Stock Option Loan Plan. If shares of common stock are pledged as collateral for such indebtedness, such shares may be returned to the Company in satisfaction of such indebtedness. If so returned, such shares shall again be available for issuance in connection with future stock options and awards under the 1995 Stock Option Plan.

Unless previously terminated by the board of directors, no options or awards may be granted under the 1995 Stock Option Plan after August 31, 2005.

In the event of a change in control, all stock options, any stock appreciation rights outstanding for at least six months, restricted stock, deferred stock and performance share awards will fully vest and the value of all such awards will be cashed out by payment of cash or other property, as determined by the Administrator, on the basis of a change of control price. Furthermore, any indebtedness incurred in connection with the 1995 Stock Option Plan will be forgiven. A change of control generally occurs when (i) any person becomes the beneficial owner, directly or indirectly, of 30% or more of the combined voting power of the Company's securities, (ii) during any consecutive two-year period, individuals who at the beginning of such period constitute the board of directors, and any new director, with certain exceptions, who was approved by at least two-thirds of the directors still in office who either were directors at the beginning of the period or whose election or nomination for election was

previously so approved, cease for any reason to constitute at least a majority of the board of directors, (iii) in some circumstances, the stockholders approve a merger or consolidation, or (iv) the stockholders approve the complete liquidation, sale or disposition of all or substantially all of the Company's assets. The change of control price generally means the higher of (i) the highest price per share paid or offered in any transaction related to a change of control or (ii) the highest price per share paid in any transaction reported on the exchange on which the Company's common stock is listed at any time preceding the 60 day period as determined by the Administrator.

2001 Stock Option Plan

Subject to adjustment provisions for stock splits, stock dividends and similar events, the 2001 Stock Option Plan authorizes the grant of options to purchase, and awards of, up to 1,000,000 shares; however, on January 1 of each year beginning January 1, 2002 such maximum aggregate number of shares of stock shall be increased by an amount equal to the lesser (a) 3.5% of the total number of shares of Stock outstanding on such anniversary date, and (b) a lesser amount as determined by the Board; provided, further, that of such amount the maximum aggregate number of ISOs shall be increased on January 1 of each year by an amount equal to the lesser of (a) 3.5% of the total number of shares of Stock outstanding on such anniversary date, and (b) 3.5% of the total number of shares of Stock outstanding on the Effective Date of the Plan. If an option granted under the 2001 Stock Option Plan expires or terminates, or an award is forfeited, the shares subject to any unexercised portion of such option or award will again become available for the issuance of further options or awards under the 2001 Stock Option Plan. As of March 31, 2002, 1,244,319 shares underlying options were available for grant under the 2001 Stock Option Plan.

The exercise price of any option granted under the 2001 Stock Option Plan is payable in full by (1) cash payment, (2) surrender of shares of the Company's common stock already owned by the option holder having a market value equal to the aggregate exercise price of all shares to be purchased including, in the case of the exercise of NQSOs, restricted stock subject to an award under the Stock Option Plan, (3) cancellation of indebtedness owed by the Company to the option holder, (4) a full recourse promissory note executed by the option holder, or (5) any combination of the foregoing. In the case of ISOs, however, the right to make payment in the form of already owned shares of common stock must be authorized at time of grant of such ISOs. The terms of any promissory note may be changed from time to time by the board of directors to comply with applicable United States Internal Revenue Service or Securities and Exchange Commission regulations or other relevant pronouncements.

The 2001 Stock Option Plan permits the Company to make loans available to stock option holders in the same manner as described above for the 1995 Stock Option Plan.

Unless previously terminated by the board of directors, no options or awards may be granted under the 2001 Stock Option Plan after March 27, 2011.

Under the 2001 Stock Option Plan, dividend equivalent rights may accompany awards granted to a participant. These rights entitle a participant to receive cash, Company stock or other awards equal in value to dividends paid for a specified number of shares of Company stock or other periodic payments.

In the event of a change in control, all stock options, restricted stock, and deferred stock may fully vest and be exercisable, the value of all such awards will be cashed out by payment of cash or other property, as determined by the Administrator, on the basis of a change of control price or all unexercised stock options may be terminate. Furthermore, any indebtedness incurred in connection with the 2001 Stock Option Plan may be forgiven. The Administrator may, in the alternative, allow a successor to substitute equivalent awards or provide similar consideration. A change of control generally occurs when (i) any person becomes the beneficial owner, directly or indirectly, of 30% or more of the combined voting power of the Company's securities, (ii) during any consecutive two-year period, individuals who at the beginning of such period constitute the board of directors,

and any new director, with certain exceptions, who was approved by at least two-thirds of the directors still in office who either were directors at the beginning of the period or whose election or nomination for election was previously so approved, cease for any reason to constitute at least a majority of the board of directors, (iii) in some circumstances, the stockholders approve a merger or consolidation, or (iv) the stockholders approve the complete liquidation, sale or disposition of all or substantially all of the Company's assets. The change of control price generally means the higher of (i) the highest price per share paid or offered in any transaction related to a change of control or (ii) the highest price per share paid in any transaction reported on the exchange on which the Company's common stock is listed at any time preceding the 60 day period as determined by the Administrator.

Stock Option Loan Plan

In December 1996, the board of directors adopted the 1996 Stock Option Loan Plan (the Loan Plan) under which loans may be made to officers, directors and key employees of the Company and IFC in connection with the exercise of stock options granted under the 1995 Stock Option Plan. Under the Loan Plan, the principal of any loan may not exceed the sum of (x) the exercise price less the par value of the shares of common stock covered by the stock option exercised by the holder and (y) any federal, state, or local income tax attributable to such exercise. Any loan proceeds must be paid directly to the Company in connection with the exercise of such options. Loans may be extended for a period of five years and can be extended annually for up to two more years, but in no event may the term be longer than seven years, including extensions. The interest rate on each loan is approved by the Compensation Committee, with such interest rate to be at all times at least sufficient to avoid imputed interest under the Code. The loans under the Loan Plan are evidenced by a promissory note, are full recourse and are secured by pledges of the common stock purchased upon the exercise of the stock options to which they relate. In the event of the sale or transfer of any of the shares of the common stock pledged as security, except under certain limited conditions, the unpaid principal balance and accrued interest shall become immediately due and payable to the extent of the proceeds realized from such sale or transfer. The principal and interest on the loans made under the Loan Plan are payable quarterly only upon the payment of dividends by the Company to holders of its common stock. The loans may be prepaid without penalty at any time. The following table sets forth information as of December 31, 2001 relating to loans made by IMH to certain directors of IMH under the Loan Plan in connection with the exercise of stock options under the 1995 Stock Option Plan.

Name	Balance as of December 31, 2001	Highest Balance during 2001	Interest Rate
James Walsh	\$ 205,155	\$ 207,464	4.23%
Frank P. Philipps	\$ 205,188	\$ 207,496	4.23%
Stephan R. Peers	\$ 199,923	\$ 202,314	4.23%
Total	\$ 610,266	\$ 617,274	

In April 2002, these loans were paid in full through the sale of IMH common stock. Currently, the Company has suspended any further loans provided under the Loan Plan.

401(k) Plan

During 2001, the Company participated in the IFC contributory retirement plan (401(k) Plan) for all full time employees with at least six months of service, which is designed to be tax deferred in accordance with the provisions of Section 401(k) of the Code. The 401(k) Plan provides that each participant may contribute from 1% to 15% of his or her salary or up to \$10,500 annually, and the Company will contribute to the participant's plan account at the end of each plan year 50% of the first 4% of salary contributed by a participant. Under the 401(k) Plan, employees may elect to enroll on the first day of any month, provided that they have been employed for at least six months. In 2002, the 401(K) has been modified to allow for contributions up to 25% of his or her salary or up to \$11,000 annually.

Subject to the rules for maintaining the tax status of the 401(k) Plan, an additional Company contribution may be made at the discretion of the Company, as determined by the Unaffiliated Directors. Should a discretionary contribution be made, the contribution would first be allocated to those employees deferring salaries in excess of 4%. The matching contribution would be 50% of any deferral in excess of 4% up to a maximum deferral of 8%. Should discretionary contribution funds remain following the allocation outlined above, any remaining Company matching funds would be reallocated on the first 4% of the employee's deferrals. Company matching contributions will be made as of December 31st of each year. IMH and IFC recorded approximately \$625,000 for matching and discretionary contributions during 2001.

Ten-Year Option/SAR Repricing

The Company relies on the retention and motivation of its key executive officers through the Company's long-term incentive program, which includes the 1995 Stock Option Plan and 2001 Stock Option Plan. A number of the outstanding options issued to executive officers had exercise prices that were significantly higher than the then current market price of the Company's common stock. Accordingly, these options no longer provided the intended long-term incentive and the Company determined it was appropriate to cancel certain options issued to key executive officers and issue new options under the 2001 Stock Option Plan.

On September 25, 2000, the board of directors cancelled stock options granted to Joseph R. Tomkinson, William S. Ashmore, and Richard J. Johnson that were originally granted to each individual under the 1995 Stock Option Plan between August 31, 1995 and November 21, 1997. On March 27, 2001, the board of directors issued stock options under the 2001 Stock Option Plan to Messrs. Tomkinson, Ashmore and Johnson at an exercise price of \$4.18. The following table sets forth, among other things, the date the outstanding options were granted, the number of options that were cancelled and the exercise price of the cancelled options.

Compensation Committee Interlocks and Insider Participation

The Company's Compensation Committee and Audit Committee each consist of Messrs. Walsh, Filippis and Peers. No member of the Compensation Committee was, during the fiscal year, an officer or employee of IMH, nor was any member of the Compensation Committee formerly an officer of IMH.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee of the Company's board of directors administers the policies governing the Company's executive compensation program. All issues pertaining to executive compensation are reviewed by the Compensation Committee and approved by the Company's board of directors. The Compensation Committee is comprised solely of non-employee directors.

The Compensation Committee believes that executive compensation should reward sustained earnings and long-term value created for stockholders and reflect the business strategies and long-range plans of the Company. The guiding principles affecting executive compensation are: (1) to attract and retain key high caliber executives; (2) to provide levels of compensation competitive with those offered by the Company's competitors; and (3) to motivate executives to enhance earnings and long-term stockholder value by linking stock performance (on a total returns basis) with long-term incentive compensation.

The Company's executive compensation philosophy is to set base salary at a conservative market rate and then to provide performance-based variable compensation which allows total compensation to fluctuate according to the Company's earnings as well as to value received by stockholders. Targeted levels of executive compensation are set at levels consistent with others in the Company's industry, determined after comparison, with such compensation increasingly weighted towards programs contingent upon the Company's level of annual and long-term performance.

Each executive officer's compensation is comprised of three principal components: base salary, bonus and stock options or awards granted pursuant to the Company's Stock Option Plans. Base salary and bonus are determined by the executive officer's employment agreement with IFC and are reviewed at least annually by the Compensation Committee. Each named Executive Officer, including the Chief Executive Officer, is entitled to a bonus (excluding Mr. Morrison and Ms. Verdugo) consisting of a quarterly bonus equal to the aggregate dividend such executive officer would have received from the Company on shares of common stock underlying unexercised stock options held by such officer, and the Incentive Compensation as described in Executive Compensation Employment Agreements. None of the officers received these bonuses for 2000 since the criteria was not achieved; however, the officers received both of these bonuses for 2001 since the criteria was met for each one. In addition, Messrs. Tomkinson and Ashmore were entitled to a quarterly performance bonus based on a percentage of the principal amount of loans acquired by IFC each quarter. Each of Messrs. Tomkinson and Ashmore received this quarterly bonus for 2001. The Compensation Committee believes that the total compensation package of the Named Executive Officers should be linked to such factors as return on equity and to the total return of the Company's stock, both on an absolute basis and relative to similar companies, and to the attainment of planned objectives established at the beginning of the year. Since the fourth quarter of 1998, the Company has made a number of strategic changes in its businesses, which has resulted in yearly improvements in its operations. Due to the Company's performance during 2001, the criteria for each of the different bonus programs for the Named Executive Officers were met and, consequently, they received larger bonuses for 2001 than they received in the immediately preceding years.

The Company uses stock options and dividend equivalent rights, or DERs, to align the long-range interest of its Named Executive Officers with the interests of stockholders. The amount of stock options and DERs that is granted to Named Executive Officers is determined by taking into consideration the officer's position with the Company, overall individual performance, the Company's performance and an estimate of the long-term value of the award considering current base salary and any cash bonus awarded.

In March 2001, each of the Named Executive Officers (with the exception of Ms. Verdugo) were granted options accompanied by DERs. See the table entitled "Option Grants During 2001" for a description of the DERs. The Company did not declare any dividends on its common stock during the first and second quarters of 2001; however, it declared dividends on its common stock during the third and fourth quarters of 2001. As a result, the Named Executive Officers received cash payments of an aggregate of \$427,800 based on their DER

awards. As stock dividends is one of the components that the Company uses to measure its performance, the Compensation Committee believes that the grant of DERs align the executive officers' interests with that of the stockholders.

The Compensation Committee applies the foregoing principles and policies in examining the compensation of Joseph R. Tomkinson, the Company's Chief Executive Officer. The Compensation Committee believes that Mr. Tomkinson, as Chief Executive Officer, significantly and directly influences the Company's overall performance.

Section 162(m) was added to the Code as part of the Omnibus Budget Reconciliation Act of 1993. Section 162(m) limits the deduction for compensation paid to the Chief Executive Officer and the other Named Executive Officers to the extent that compensation of a particular executive exceeds \$1,000,000, unless such compensation was based upon performance goals determined by a compensation committee consisting solely of two or more outside directors, the material terms of which are approved by a majority vote of the stockholders prior to the payment of such remuneration, or paid pursuant to a binding contract that was in effect on February 17, 1993. The compensation paid in 2001 to the Named Executive Officers was deductible.

The Committee will review the Company's existing compensation program to determine the deductibility of the future compensation paid or awarded pursuant thereto and will seek guidance with respect to changes to the Company's existing compensation program that will enable the Company to continue to attract and retain key individuals while optimizing the deductibility to the Company of amounts paid as compensation.

The Committee believes that its overall executive compensation program will be successful in providing competitive compensation appropriate to attract and retain highly qualified executives and also to encourage increased performance from the executive group, which will create added stockholder value.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Company's board of directors is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. The Audit Committee is currently comprised of three directors, each of whom is independent as defined by the American Stock Exchange listing standards. The Audit Committee operates under a written Audit Committee charter approved by the board of directors on May 23, 2000. A copy of the charter is attached as Exhibit 1 to the Company's Proxy Statement that was filed with the Securities and Exchange Commission on May 17, 2001.

Company management is responsible for the Company's internal controls and financial reporting process. The independent auditors are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

In connection with these responsibilities, the Audit Committee met with Company management and the independent auditors to review and discuss the December 31, 2001 financial statements. The Audit Committee also discussed with the independent auditors the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees) as may be modified or supplemented. The Audit Committee also received written disclosures from the independent auditors required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) which requires the written disclosure of all relationships between the Company and its independent auditors that, in the independent auditor's professional judgment, may reasonably be thought to bear on independence and confirmation that, in its professional judgment, it is independent of the company that it is auditing.

Based on the Audit Committee's discussions with Company management, review of the independent auditor's letter and discussions with the independent auditors, the Audit Committee has recommended that the board of directors include the audited financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2001, for filing with the Securities and Exchange Commission.

The Audit Committee has reviewed the non-audit fees described below and has concluded that the amount and nature of those fees is compatible with maintaining the independent auditors independence.

SELECTION OF INDEPENDENT AUDITORS

KPMG LLP completed the audits of the financial statements of the Company and IFC for the fiscal year ended December 31, 2001. Representatives of KPMG are expected to be present at the meeting and will have the opportunity to make a statement, if they so desire, and to be available to respond to appropriate questions.

The Company has been very satisfied with the services of KPMG. Currently, KPMG provides the Company with internal and external audit services. The Company has not yet appointed independent accountants for the fiscal year 2002, because the Audit Committee is considering dividing the responsibility for the Company's internal and external audit functions between two independent accounting firms. As a result, the Audit Committee is soliciting proposals from KPMG and other independent accounting firms to provide the internal and external auditor services. The Audit Committee will make a recommendation to the board of directors when its deliberations are completed.

KPMG issued unqualified reports on the Company's and IFC's financial statements for the fiscal years ended December 31, 1995 through December 31, 2001, and to date the Company has had no disagreements with KPMG on any matters of accounting principles or practices, financial statement disclosures, or auditing scope or procedures.

Compliance with Section 16(a) of the Securities Exchange Act of 1934

Section 16(a) of the Securities Act of 1934 requires the Company's directors, executive officers and persons who own more than ten percent of a registered class of the Company's securities to file with the Commission initial reports of ownership and reports of changes in ownership of the Common Stock of the Company. Executive officers, directors and greater than ten percent stockholders are required by the Commission's regulations to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based solely on review of the copies of such reports furnished to the Company during the fiscal year which ended December 31, 2001, all Section 16(a) filing requirements applicable to its executive officers, directors and greater than ten percent stockholders were satisfied by such persons, except for William B. Ashmore and Ronald M. Morrison who each filed a late Form 4 reporting the purchase or sale of shares.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Arrangements with IFC

IMH and IFC have interlocking executive positions and share common ownership. Joseph R. Tomkinson, IMH's Chairman of the Board and Chief Executive Officer and IFC's Chief Executive Officer and a Director is an owner of one-third of the common stock of IFC. William S. Ashmore, IMH's President, Chief Operating Officer and a Director and IFC's President and a Director is an owner of one-third of the common stock of IFC. Richard J. Johnson, IMH's Executive Vice President and Chief Financial Officer and Executive Vice President, Chief Financial Officer and a director of IFC, is an owner of one-third of the common stock of IFC.

In addition, as owners of all of the outstanding shares of voting stock of IFC, Messrs. Tomkinson, Ashmore, and Johnson, have the right to elect all directors of IFC and the ability to control the outcome of all matters for which the consent of the holders of the common stock of IFC is required. Ownership of 100% of the common stock of IFC entitles the owners thereof to an aggregate of 1% of the economic interest in IFC.

During 2001, IMH and IWLG were allocated data processing, executive and operations management, and accounting services that IFC incurred during the normal course of business. IFC charged IMH and IWLG for these services based upon usage, which management believes was reasonable. Total cost allocations charged to IMH and IWLG by IFC for the year ended December 31, 2001 were \$1.7 million.

Lease Agreement

IMH and IFC entered into a premises operating sublease agreement from an unaffiliated third party to rent approximately 74,000 square feet of office space in Newport Beach, California, for a ten-year term, which expires in May 2008. IMH and IFC pay monthly rental expenses and allocate the cost to subsidiaries and affiliated companies on the basis of square footage occupied. The majority of occupancy charges incurred were paid by IFC as most of the Company's employees are employed by IFC. Total rental expense paid by IFC for the year ended December 31, 2001 was \$2.0 million, of which \$121,000 was charged to IWLG.

Sub-Servicing Agreements

IFC acts as a servicer of mortgage loans acquired on a servicing-released basis by the Company in its Long-Term Investment Operations pursuant to the terms of a Servicing Agreement, which became effective on November 20, 1995. IFC subcontracts all of its servicing obligations under such loans to independent third parties pursuant to sub-servicing agreements.

Credit Arrangements

IWLG maintains a warehouse financing facility with IFC. Advances under such warehouse facility bears interest at Bank of America's prime rate minus 0.50%. As of December 31, 2001, finance receivables outstanding to IFC were \$174.1 million. As of March 31, 2002, \$383.8 million was outstanding, excluding pledge accounts. Interest income recorded by IWLG related to finance receivables due from IFC for the year ended December 31, 2001 was \$18.4 million.

During the normal course of business, the Company may advance or borrow funds on a short-term basis with affiliated companies. Advances to affiliates are reflected as Due from affiliates, while borrowings are reflected as Due to affiliates on the Company's balance sheet. These short-term advances and borrowings bear interest at a fixed rate of 8.0% per annum. As of December 31, 2001, due from affiliates was none. Interest income recorded by the Company related to short-term advances due from affiliates for the year ended December 31, 2001 was \$122,000. As of December 31, 2001 due to affiliates was none. Interest expense recorded by the Company related to short-term borrowings due to affiliates for the year ended December 31, 2001 was \$250,000.

Purchase of Mortgage Loans

During the year ended December 31, 2001 the Company purchased from IFC mortgage loans having a principal balance of \$1.5 billion. The loans were purchased with premiums of \$24.4 million. Servicing rights on all mortgages purchased by IMH were retained by IFC.

Purchase of Cumulative Convertible Preferred Stock

On February 20, 2001, IFC purchased \$5.0 million of the Company's Series C 10.5% Cumulative Convertible Preferred Stock from LBP, Inc. at cost plus accrued interest. On March 27, 2001, IFC purchased an additional \$5.0 million of the IMH's Preferred Stock from LBP for \$5.25 million plus accumulated dividends. The Preferred Stock was converted into 2,118,644 shares of IMH common stock in August 2001. Subsequently, IFC sold 1.7 million shares of IMH common stock for a gain of \$3.5 million. As of December 31, 2001, IFC owned 377,028 shares of IMH common stock with a carrying value of \$3.2 million. Leigh J. Abrams, a Director of the Company is President, Chief Executive Officer and a Director of LBP, Inc.

Advances

During 1999, IMH advanced \$14.5 million in cash to IFC at an interest rate of 9.50% per annum due June 30, 2004, in exchange for an interest only note to fund the operations of IFC and other strategic opportunities deemed appropriate by IFC. At December 31, 2001 the amount outstanding on this note was \$14.5 million and the largest amount outstanding during 2001 was \$14.5 million. Interest income recorded by IMH related to this note during 2001 was \$1.4 million.

Indebtedness of Management

In connection with the exercise of stock options by certain directors and employees of the Company, the Company made loans secured by the related stock. The loans were made for a five-year term with a current interest rate of 4.23%. Interest on the loans is payable quarterly upon receipt of the dividend payment and the interest rate is set annually by the compensation committee. At each dividend payment date, 50% of quarterly dividends after applying the dividend payment to interest due, is required to reduce the principal balance outstanding on the loans. The interest rate on these loans adjusts annually at the discretion of the board of directors. As of December 31, 2001, total notes receivable from common stock sales was \$920,000. Interest income recorded by the Company related to the loans for the year ended December 31, 2001, was \$39,000. In April 2002, these loans were paid in full through the sale of IMH common stock. Currently, the Company has suspended any further loans provided under the plan. See Executive Compensation Stock Option Loan Plan.

On December 10, 2001, IFC provided William S. Ashmore, President, Chief Operating Officer and a Director of the Company, with a \$600,000 adjustable rate loan to provide mortgage financing with an initial interest rate of 4.13%. In the opinion of management, the loan was in the ordinary course of business, substantially on the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated persons.

On November 15, 2001, IFC provided Richard J. Johnson, Executive Vice President and Chief Financial Officer of IFC, with a \$140,000 fixed rate loan to provide mortgage financing with an interest rate of 6.50%. In the opinion of management, the loan was in the ordinary course of business, substantially on the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated persons.

Other Arrangements

IFC has entered into an insurance commitment program with Radian Guaranty, Inc. Frank Filippis, a Director of the Company, is the Chairman and Chief Executive Officer of Radian Group, Inc. (NYSE-RDN) and its principal subsidiary, Radian Guaranty, Inc. Radian Guaranty has agreed to insure up to \$2.2 billion worth of mortgage loans acquired or originated by IFC that meet certain credit criteria. IFC pays Radian on a monthly basis. The amount paid depends on the number of mortgage loans insured by Radian and the credit quality of the mortgage loans. For the year ended December 31, 2001, IFC paid an aggregate of \$4.0 million to Radian in connection with the insurance program.

An immediate family member of Joseph R. Tomkinson, the Company's Chairman and Chief Executive Officer, is the president of Real Time Marketing and Duplication. PROPOSAL NO. 2

**AMENDMENT TO COMPANY S ARTICLES OF INCORPORATION
INCREASING AUTHORIZED SHARES OF COMMON STOCK**

The Company is proposing to amend Article VI of its Articles of Incorporation to increase the number of authorized shares of common stock from 50,000,000 shares to 200,000,000 shares. On March 26, 2002, the board of directors approved the amendment to the Articles of Incorporation, subject to approval by the Company s stockholders.

Pursuant to Article VI of its Articles of Incorporation, the Company is presently authorized to issue 50,000,000 shares of common stock, \$0.01 par value per share, of which on the Record Date, 39,422,163 shares were issued and outstanding. Additionally, pursuant to its Charter, the Company is presently authorized to issue 10,000,000 shares of preferred stock, \$0.01 par value per share, of which 2,500,000 shares are designated as Series A Junior Participating Preferred Stock and 1,200,000 are designated as Series C 10.5% Convertible Preferred Stock. As of the Record Date, no shares of preferred stock were issued and outstanding.

It is proposed (the Proposal) to amend Article VI of the Articles of Incorporation of the Company in order to increase the authorized number of shares of common stock of the Company from 50,000,000 shares, \$0.01 par value per share, to 200,000,000 shares, \$0.01 par value per share, as follows:

ARTICLE VI

Section 6.1. Authorized Shares. The Corporation has authority to issue 200,000,000 shares of Common Stock, \$.01 par value per share (Common Stock) and 10,000,000 shares of Preferred Stock, \$.01 par value per share (Preferred Stock). The aggregate par value of all authorized shares of stock having par value is \$2,100,000.

If this proposal is approved by the stockholders, the additional shares of authorized Common Stock will become part of the existing class of Common Stock, and the additional shares, when issued, will have the same rights and privileges as the shares of Common Stock now issued. Pursuant to the Company s rights agreement, as amended, dated October 7, 1998, rights will attach to new issuances of Common Stock until the earlier of the distribution date, redemption or expiration of the rights. There are no preemptive rights relating to the Common Stock. The authorized number of shares of Preferred Stock will not be changed as the result of the Proposal.

The proposed increase in authorized Common Stock will allow the Company to:

- 1) Issue Common Stock in connection with raising additional equity capital or in connection with acquisitions, mergers and other financing transactions involving the issuance of securities.
- 2) Issue Common Stock without the expense and delay of special meetings of stockholders except as otherwise required by applicable law or the American Stock Exchange.
- 3) Issue Common Stock with respect to the granting of securities under the 2001 Stock Option Plan or pursuant to other management compensation arrangements which the board of directors may adopt.
- 4) Issue Common Stock in connection with stock splits or stock dividends.

As of April 2, 2002, approximately 67,390 of the Company s unissued shares are reserved for issuance under the Company s 1995 Stock Option Plan and approximately 1,244,319 of the Company s unissued shares are reserved for issuance under the Company s 2001 Stock Option Plan. Under the 2001 Stock Option Plan, each year the maximum aggregate number of shares of Common Stock reserved and available for issuance under the plan shall be increased by 3.5% of the total number of shares of the Company s Common Stock outstanding, or a lesser amount as determined by the board of directors.

The Company currently has an effective registration statement on Form S-3 filed with the Securities and Exchange Commission that will allow it to sell up to \$300.0 million of securities, which consists of common stock, preferred stock, debt securities and warrants. The Company has not entered into any specific agreements or understandings relating to the issuance of additional shares of common stock. However, the Company is receptive to all methods of financing which may be reasonably available and to other opportunities which may arise from time to time. The board of directors believes that, in the future, occasions may arise where the time required to obtain stockholder approval might adversely delay the Company's ability to enter into a desirable transaction. Authorized but unissued shares of common stock will be issued by the Company from time to time as appropriate and opportune situations arise.

The board of directors recommends a vote for approval of the amendment to the articles of incorporation.
