SPECIAL NOTE ON FORWARD LOOKING STATEMENTS

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

This Quarterly Report on Form 10-QSB, including "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 2 of Part I of this report include forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance, or achievements expressed or implied by forward-looking statements.

In some cases, you can identify forward-looking statements by terminology such as "may," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "proposed," "intended," or "continue" or the negative of these terms or other comparable terminology. You should read statements that contain these words carefully, because they discuss our expectations about our future operating results or our future financial condition or state other "forward-looking" information. There may be events in the future that we are not able to accurately predict or control. Before you invest in our securities, you should be aware that the occurrence of any of the events described in this Quarterly Report could substantially harm our business, results of operations and financial condition, and that upon the occurrence of any of these events, the trading price of our securities could decline and you could lose all or part of your investment. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, growth rates, levels of activity, performance or achievements. We are under no duty to update any of the forward-looking statements after the date of this Quarterly Report to conform these statements to actual results.

5

SYSVIEW TECHNOLOGY, INC
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

NOTE 1 - BACKGROUND AND BASIS OF PRESENTATION

ORGANIZATION

Sysview Technology, Inc. ("Sysview" or "Company") develops, designs and delivers various imaging technology solutions to all types and sizes of enterprises including governmental agencies, large corporations, small corporations, small office-home offices ("SOHO"), professional practices as well as consumers (referred to herein collectively as "Enterprises"). Sysview is a market-leader in providing USB-powered scanning solutions to a wide variety of industries and market applications. The Company's patented and proprietary page-imaging devices facilitate the way information is stored, shared and managed in both business and personal use. In addition, Sysview is involved in the research and development of certain technologies related to the field of high definition ("HD") display.

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

Syscan, Inc., the Company's wholly-owned subsidiary, was incorporated in California in 1995 to develop and manufacture a new generation of contact image sensors ("CIS") that are complementary metal-oxide-silicon ("CMOS") imaging sensor devices. During the late 1990s, the Company established many technical milestones and was granted numerous patents for its linear imaging technology. The Company's patented CIS and mobile imaging scanner technology provides high quality images at extremely low power consumption levels allowing delivery of compact scanners in a form ideally suited for laptop or desktop computer users who need a small light weight device to scan or fax documents.

The Company's business model was developed around intellectual property ("IP") driven products sold primarily to original equipment manufacturers ("OEM"), private label brands and value added resellers ("VAR") and can be found in a variety of applications, including but not limited, to the following:

- o Document and information management;
- o Identification card scanners;
- o Passport security scanners;
- o Bank note and check verification;
- o Business card readers;
- o Barcode scanning; and
- o Optical mark readers used in lottery terminals.

BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Sysview have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-QSB and Article 10 of Regulation S-X. Accordingly, they do not include all information and disclosures necessary for a presentation of the Company's financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States ("GAAP").

In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for all periods presented have been made. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results may differ from these estimates. The results of operations for the period ended September 30, 2007 are not necessarily indicative of the operating results that may be expected for the entire year ending December 31, 2007. The interim financial statements should be read in conjunction with the financial statements in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2006, filed with the Securities and Exchange Commission ("SEC") on April 3, 2007.

The consolidated financial statements include the accounts of Sysview and its subsidiaries. All significant intercompany transactions and balances have been eliminated.

Certain accounts have been reclassified to conform to the current period presentation. Such reclassifications did not affect total net sales, operating income (loss) or net income (loss) available to common stockholders.

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

NOTE 2 - RECENT ACCOUNTING PRONOUNCEMENTS

In February 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard ("SFAS") 155, ACCOUNTING FOR CERTAIN HYBRID FINANCIAL INSTRUMENTS - AN AMENDMENT OF FASB STATEMENTS 133 AND 140, ("SFAS 155"). SFAS 155 permits interests in hybrid financial instruments that contain an embedded derivative that would otherwise require bifurcation to be accounted for as a single financial instrument at fair value, with changes in fair value recognized in earnings. This election is permitted on an instrument-by-instrument basis for all hybrid financial instruments held, obtained, or issued as of the adoption date. Sysview adopted SFAS 155 on January 1, 2007 and will apply the standard to any new hybrid financial instruments issued subsequent to January 1, 2007. However, as allowed by paragraph 4(c) of SFAS 155, Sysview did not elect to apply SFAS 155 to previously existing hybrid financial instruments including the Company's Series A 5% Cumulative Convertible Preferred Stock ("Series A Stock") and Series B Convertible Preferred Stock ("Series B Stock"). As such, the adoption of SFAS 155 had no impact to the Company's consolidated financial position, results of operations or cash flows.

In June 2006, the FASB issued Interpretation 48, ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES -- AN INTERPRETATION OF FASB STATEMENT NO. 109 ("FIN 48"), which clarifies the accounting for uncertainty in tax positions. This Interpretation requires that the Company recognize in its financial statements the impact of a tax position if that position will more likely than not be sustained on audit, based on the technical merits of the position. Sysview adopted FIN 48 on January 1, 2007. The adoption had no impact to the Company's consolidated financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS 157, FAIR VALUE MEASUREMENTS ("SFAS 157"), which provides guidance about how to measure assets and liabilities that use fair value. SFAS 157 will apply whenever another US Generally Accepted Accounting Principle ("GAAP") standard requires (or permits) assets or liabilities to be measured at fair value but does not expand the use of fair value to any new circumstances. This standard also will require additional disclosures in both annual and quarterly reports. SFAS 157 will be effective for financial statements issued for fiscal years beginning after November 15, 2007, and will be adopted by the Company January 1, 2008. The Company is currently evaluating the potential impact this standard may have on its consolidated financial position, cash flows and results of operations, but does not believe the impact of the adoption will be material.

In February 2007, the FASB issued SFAS 159, THE FAIR VALUE OPTION FOR FINANCIAL ASSETS AND FINANCIAL LIABILITIES-INCLUDING AN AMENDMENT OF FASB STATEMENT NO. 115 ("SFAS 159"). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value, with unrealized gains and losses related to these financial instruments reported in earnings at each subsequent reporting date. SFAS 159 will be effective for financial statements issued for fiscal years beginning after November 15, 2007, and will be adopted by the Company January 1, 2008. The Company does not expect the adoption of SFAS 159 to result in a significant impact on its consolidated financial position, cash flows and results of operations.

In June 2007, the FASB ratified the Emerging Issues Task Force ("EITF") Issue No. 07-3, "ACCOUNTING FOR NONREFUNDABLE ADVANCE PAYMENTS FOR GOODS OR SERVICES TO BE USED IN FUTURE RESEARCH AND DEVELOPMENT Activities" ("EITF 07-3"). EITF 07-3 requires non-refundable advance payments for goods and services to be used in future research and development activities to be recorded as an asset and the payments to be expensed when the research and development activities are performed. EITF 07-3 is effective, on a prospective basis, for fiscal years beginning after December 15, 2007 and will be adopted in the first quarter of

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

fiscal 2008. The Company is currently evaluating the potential impact this standard may have on its consolidated financial position, cash flows and results of operations, but does not believe the impact of the adoption will be material.

7

SYSVIEW TECHNOLOGY, INC NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

Other recent accounting pronouncements issued by the FASB (including its EITF), the American Institute of Certified Public Accountants ("AICPA"), and the SEC did not or are not believed by management to have a material impact on the Company's present or future financial statements.

NOTE 3 - RELATED-PARTY TRANSACTIONS

RELATED-PARTY PURCHASES

The Company purchases the majority of its finished scanner imaging products from Syscan Lab Limited ("SLL"), a wholly-owned subsidiary of Syscan Technology Holdings Limited ("STH"), the parent company of Sysview's majority stockholder. The Company's Chairman and CEO, Darwin Hu, was formerly the CEO of STH. He resigned from STH effective December 2004.

Purchases from SLL totaled \$1,780,000 and \$6,101,000 for the three and nine months ended September 30, 2007, respectively, and \$2,669,000 and \$5,923,000 for the three and nine months ended September 30, 2006, respectively. All purchases from SLL were carried out in the normal course of business. As a result of these purchases, the Company was liable to SLL for \$602,000 and \$952,000 at September 30, 2007 and December 31, 2006, respectively.

COMMON STOCK ACQUIRED FROM RELATED PARTY

On March 21, 2007, the Company entered into an agreement with STH whereby the Company agreed to forego any further collection efforts, including legal action, related to loans that were previously made by the Company to STH, which were never repaid by STH. In exchange, STH agreed to the cancellation of 2,600,000 shares of the Company's restricted common stock beneficially owned by STH. In addition, both parties mutually agreed to release and discharge any and all claims that each may have against the other party. The stock certificates were subsequently cancelled by the Company's transfer agent. The Company recorded the stock acquisition as a decrease to common stock with the corresponding offset to additional paid-in capital during the first quarter of fiscal 2007.

NOTE 4 - CONCENTRATION OF CREDIT RISK AND MAJOR CUSTOMERS

Financial instruments that subject the Company to credit risk are cash balances maintained in excess of federal depository insurance limits and trade receivables.

CASH AND CASH EQUIVALENTS

The Company maintains cash balances at several banks. Accounts at each institution are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$100,000. As of September 30, 2007, the Company had consolidated balances of approximately \$1,835,000, which were not guaranteed by the FDIC. The Company has not experienced any losses in such accounts and believes the exposure is minimal.

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

MAJOR CUSTOMERS AND TRADE RECEIVABLES

A relatively small number of customers account for a significant percentage of the Company's sales. Customers that exceeded 10% of total revenues and accounts receivable were as follows:

	THREE MONTHS ENDED SEPTEMBER 30,		NINE MONTHS ENDED SEPTEMBER 30,	
	2007	2006	2007	2006
Customer A	26%	51%	28%	43%
Customer B	23	10	13	10
Customer C	19	*	15	11
Customer D	11	*	*	*
Customer E	*	17	14	16

* Customer accounted for less than 10% for the period indicated.

8

SYSVIEW TECHNOLOGY, INC NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

Trade receivables from these customers totaled \$1,728,000 at September 30, 2007. As of September 30, 2007, all the Company's trade receivables were unsecured.

NOTE 5 - CONCENTRATION OF SUPPLIER RISK

The Company purchases substantially all finished scanner imaging products from one vendor that is also a wholly-owned subsidiary of the parent company of its majority stockholder. See Note 3. If this vendor became unable to provide materials in a timely manner and the Company was unable to find alternative vendors, the Company's business, operating results and financial condition would be materially adversely affected.

NOTE 6 - EMPLOYEE EQUITY INCENTIVE PLANS

STOCK-BASED COMPENSATION

Sysview has several stock-based employee compensation plans, which are more fully described in the Company's 2006 Annual Report on Form 10-KSB.

Effective January 1, 2006 Sysview adopted the fair value recognition provisions of SFAS 123R, SHARE-BASED PAYMENTS ("SFAS 123R"), using the modified prospective application method. Under this transition method, compensation cost recognized for the three and nine months ended September 30, 2007 and 2006, includes the applicable amounts of: (a) compensation expense of all stock-based payments granted prior to, but not yet vested as of January 1, 2006 (based on the grant-date fair value estimated in accordance with the original provisions of SFAS 123 and the Accounting Principles Board ("APB") 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES ("APB 25")), and (b) compensation expense for all stock-based payments granted subsequent to January 1, 2006 (based on the grant-date fair value estimated in accordance with the new provisions of SFAS 123R).

The following table sets forth the total stock-based compensation expense included in the Condensed Consolidated Statements of Operations (IN THOUSANDS):

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

	THREE MONTHS ENDED SEPTEMBER 30,		NINE MONTHS ENDED SEPTEMBER 30,	
	2007	2006	2007	2006
Selling and marketing	\$ 15	\$ 13	\$ 107	\$ 38
General and administrative	71	227	709	788
Research and development	106	96	456	151
Total	\$192	\$336	\$ 1,272	\$977

At September 30, 2007, the Company had approximately \$991,000 of total unrecognized compensation cost related to stock options. This cost is expected to be recognized over a weighted-average period of approximately 18 months.

9

SYSVIEW TECHNOLOGY, INC
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

STOCK OPTIONS

The following table summarizes stock option activity and related information for the nine months ended September 30, 2007:

	OPTIONS	WEIGHTED-AVERAGE EXERCISE PRICE
Outstanding at December 31, 2006	4,890,000	\$0.18
Granted	3,036,000	0.70
Exercised	(300,000)	(0.01)
Cancelled	(163,450)	(0.84)
Outstanding at September 30, 2007	7,462,550	\$0.39

The following table summarizes all options outstanding and exercisable by price range as of September 30, 2007:

RANGE OF EXERCISE PRICES	OPTIONS OUTSTANDING			OPTIONS NUMBER EXERCISABLE
	NUMBER OUTSTANDING	WEIGHTED-AVERAGE REMAINING CONTRACTUAL LIFE (YEARS)	WEIGHTED-AVERAGE EXERCISE PRICE	

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

\$0.01	3,696,550	4.57	\$0.01	3,696,550
\$0.65 - \$0.70	3,186,000	9.43	\$0.70	1,042,833
\$1.01	580,000	8.64	\$1.01	276,667

NOTE 7 - BASIC AND DILUTED NET INCOME (LOSS) PER COMMON SHARE

Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock and common stock equivalents outstanding during the period.

Common stock equivalents were not considered in calculating diluted net loss per common share for the three and nine months ended September 30, 2007 or for the nine months ended September 30, 2006 as their effect would be anti-dilutive. Common stock equivalents were taken into consideration in calculating diluted net income per common share for the three months ended September 30, 2006, but the impact did not change net income per share. As a result, for all periods presented, the Company's basic and diluted net income (loss) per share is the same.

The computation of the Company's basic and diluted earnings per share for the three months ended September 30, 2006 is as follows (IN THOUSANDS, EXCEPT PER SHARE AMOUNTS):

Net income available to common stockholders	\$ 309
Weighted average common shares outstanding	24,093
Dilutive effect of employee equity incentive plans	223

Weighted average common shares outstanding, assuming dilution	24,316
	=====
Basic earnings per common share	\$0.01
	=====
Diluted earnings per common share	\$0.01
	=====

10

SYSVIEW TECHNOLOGY, INC
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

The diluted earnings per share calculation for the three months ended September 30, 2006 excludes the potential dilutive effect of 2,454,000 of the Company's options and warrants as the exercise prices of these stock options and warrants were greater than or equal to the average market value of the common shares and 2,508,000 of the Company's convertible preferred stock as their impact was anti-dilutive.

NOTE 8 - EQUITY

COMMON STOCK ACTIVITY

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

As previously discussed in Note 3, the Company acquired 2,600,000 shares of the Company's restricted common stock during the first quarter of fiscal 2007. The Company's transfer agent subsequently cancelled the shares.

During the second quarter of 2007, the Company issued 300,000 shares of common stock upon the exercise of employee stock options by the Company's principal officers in a cashless exercise.

During the second quarter of 2007, the Company issued 30,927 shares of common stock resulting from the conversion of \$26,500 (265 shares) of Series A 5% cumulative convertible preferred stock ("Series A Stock") and the related accrued dividend shares of 4,427 as discussed below.

During the third quarter of 2007, the Company issued 560,734 shares of common stock resulting from the conversion of (i) \$388,500 (3,885 shares) of Series A Stock and the related accrued dividend shares of 55,527 and penalty shares of 86,707 and (ii) \$30,000 (300 shares) of Series B Stock as discussed below.

During the third quarter of 2007, the Company repurchased 8,000,000 of its restricted common stock from its majority shareholder for \$2,000,000 less related transaction fees. Of the \$2,000,000 consideration, \$500,000 was paid through the Company's newly established credit line with a commercial bank, and the remainder was financed through a \$1,500,000 loan from Montage Capital, LLC a private investment group. See Note 9. Additionally, the Company agreed that if its HD display business is sold to a certain party, specifically identified in the repurchase agreement, and receives stock of the buyer as consideration, then it will transfer a portion of that stock to the majority stockholder. The Company repurchased the 8,000,000 shares for the purpose of retiring the shares. As such, the Company accounted for the repurchase under the Accounting Research Bulletin ("ARB") 43, RESTATEMENT AND REVISION OF ACCOUNTING RESEARCH BULLETINS ("ARB 43") by recording a reduction to common stock and additional paid-in capital. As of the date of this report, the physical stock certificate was being held by the Company's transfer agent and was in the process of being retired.

PREFERRED STOCK ACTIVITY

SERIES A 5% CUMULATIVE CONVERTIBLE PREFERRED STOCK

During the second quarter of 2007, 265 shares of Series A Stock (\$26,500) and the related accrued dividend shares of 4,427 were converted into shares of common stock.

During the third quarter of 2007, 3,885 shares of Series A Stock (\$388,500) and the related accrued dividend shares of 55,527 were converted into shares of common stock.

11

SYSVIEW TECHNOLOGY, INC NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

SERIES B CONVERTIBLE PREFERRED STOCK

During the third quarter of 2007, 300 shares of Series A Stock (\$30,000) were converted into shares of common stock.

SERIES A STOCK DIVIDENDS

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

The Company's Series A Stock accrues cumulative dividends at a rate of 5% per year, payable semiannually on July 1 and January 1. Dividends are payable in cash, by accretion of the stated value or in shares of common stock. Subject to certain terms and conditions, the decision whether to accrete dividends to the stated value of the Series A Stock or to pay for dividends in cash or in shares of common stock, is at the Company's discretion. To date, the Company has not paid any cash dividends. During the three and nine months ended September 30, 2007, Series A Stock dividends were approximately \$20,000 and \$64,000, respectively. During the three and nine months ended September 30, 2006, Series A Stock dividends were approximately \$22,000 and \$59,000, respectively. Series A Stock dividends are included as a non-operating expense on the Company's consolidated statement of operations.

PREFERRED STOCK ACCOUNTING TREATMENT

Pursuant to SFAS 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES ("SFAS 133"), and EITF Abstract No. 00-19, ACCOUNTING FOR DERIVATIVE FINANCIAL INSTRUMENTS ("EITF 00-19"), the Company's Series A Stock and related warrants and the Series B Stock and related warrants, are deemed derivative instruments as a result of the embedded conversion feature. Accordingly, the fair value of these derivative instruments has been recorded in the Company's consolidated balance sheet as a liability with the corresponding amount as a discount to the Series A Stock and Series B Stock, respectively. The discounts are being accreted, on a straight-line basis, from the respective issuance date through the respective redemption date adjusted for conversions and are disclosed as a non-operating expense on the Company's consolidated statement of operations. Accretion of the preferred stock redemption value, for both Series A and Series B, for the three and nine months ended September 30, 2007 was approximately \$217,000 and \$657,000, respectively. Accretion of the Series A preferred stock redemption value for the three and nine months ended September 30, 2006 was approximately \$187,000 and \$445,000, respectively.

The increase (decrease) in the fair value of the liability for derivative contracts, both Series A and Series B, totaled approximately \$464,000 and \$501,000 for the three and nine months ended September 30, 2007, respectively. The decrease in the fair value of the liability for the Series A and Series B derivative contract totaled approximately (\$955,000) and (\$645,000) for the three and nine months ended September 30, 2006, respectively. The offsetting adjustment to the change in the fair value of the liability for derivative contracts is disclosed with other income (expense) in the consolidated statements of operations.

The Company computes fair value of these derivatives using the Black-Scholes valuation model. The Black-Scholes model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected stock price volatility. The Company's derivative instruments have characteristics significantly different from traded options, and the input assumptions used in the model can materially affect the fair value estimate.

The assumptions used in the Black-Scholes valuation model to estimate fair value of each derivative instrument and the resulting weighted average estimated value of the Series A and Series B Stock derivative liabilities as of September 30, 2007 and 2006 are as follows:

	SEPTEMBER 30,	
	2007	2006
Weighted average estimated values per share	\$0.16	\$0.15
Expected life in years	3.0	3.0

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

Expected volatility	32%	42%
Expected dividend yield	0%	0%
Risk free interest rate	5.3%	5.3%

12

SYSVIEW TECHNOLOGY, INC NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

NOTE 9 - COMMITMENTS AND CONTINGENCIES

OPERATING LEASES

The Company is committed under various non-cancelable operating leases which extend through November 2011. Future minimum rental commitments as of September 30, 2007 are as follows (IN THOUSANDS):

YEAR ENDING SEPTEMBER 30,	FUTURE MINIMUM LEASE PAYMENTS
2008	\$ 288
2009	51
2010	1
Total	\$ 340
	=====

BANK LINE OF CREDIT

During September 2007, Sysview replaced its existing \$2,500,000 line of credit at a commercial bank with a similar line of credit ("LOC") at a different commercial bank. The new LOC initial maximum available credit is \$2,000,000 and will automatically increase to \$3,000,000 on the later of (i) December 12, 2007 if the Company remains in compliance with all debt covenants, or (ii) Sysview pays down its subordinate debt (as discussed in the following paragraph) below \$1,000,000. Borrowings under the LOC are limited to 80% of eligible accounts receivable and 40% of eligible inventory, as defined in the LOC agreement. The LOC bears an annual interest rate of prime (7.75% at September 30, 2007) plus 1.25% for advances drawn against accounts receivables and prime plus 2.25% for advances drawn against inventory. Interest payments are due monthly and all unpaid interest and principal is due in full on September 13, 2009. Upon certain events of default, the default variable interest rate increases to prime plus 5%. The Company did not have any borrowing capacity on the LOC at September 30, 2007.

As of September 30, 2007, Sysview was in compliance with all LOC debt covenants.

LONG-TERM LOAN

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

On September 27, 2007 the Company entered into a \$1,500,000 term loan agreement ("Loan Agreement") with Montage Capital, LLC ("Lender") in an arm's length transaction. The Company received \$1,500,000, less closing costs, and was restricted under the Loan Agreement, to use the funds for repurchasing shares of the Company's common stock as previously discussed at Note 8. Sysview granted the Lender a continuing security interest, and pledged to the Lender, all of its assets to secure payment and performance of its obligations under the Loan Agreement. The Loan Agreement and the security interest are subordinate to Sysview's LOC.

The Loan Agreement bears an annual interest rate of 15% with interest-only payments due monthly starting from initial funding through October 31, 2007. Thereafter, principal of \$100,000 per month plus accrued interest is due at the end of each month through the loan's maturity date of November 30, 2008. The remaining principal balance and accrued interest is due on the maturity date. If the Company sells any assets outside the ordinary course of business and receives cash proceeds from such sale, the Lender must be paid 20% of such proceeds as pre-payment of the outstanding principal.

13

SYSVIEW TECHNOLOGY, INC NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

The Lender has the right to declare all of the amounts due under the Loan Agreement immediately due and payable for any of the following reasons:

- o Sysview fails to make any payment of principal or interest on its due date, or pay any other amount due to the Lender within ten days after such amount is due and payable;
- o Sysview fails or neglects to perform, keep, or observe any term, provision, condition, covenant, or agreement contained in the Loan Agreement, subject in some cases to a ten-day grace period;
- o Sysview or any person acting on behalf of Sysview makes any warranty, representation, or other statement that is incorrect in any material respect when made;
- o A default or event of default occurs under any agreement to which Sysview is a party or by which it is bound, including Sysview's LOC (as discussed above) (i) resulting in a right by the other party or parties, whether or not exercised, to accelerate the maturity of any indebtedness in excess of \$50,000 or (ii) the occurrence of a material adverse effect. A material adverse effect is defined as a change in Sysview's business, prospects, operations, results of operations, assets, liabilities, or financial or other condition, (ii) the material impairment of the prospect of repayment of any portion of the amounts due the Lender by Sysview, or (iii) a material adverse change in the value of the collateral securing the amounts due under the Loan Agreement;
- o Any portion of Sysview's assets is attached, seized, or levied upon, or a judgment for more than \$50,000 is awarded against Sysview and is not stayed within ten days;
- o If Sysview dissolves or begins a bankruptcy or other insolvency proceeding;
or

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

- o A bankruptcy or other insolvency proceeding is begun against Sysview and is not dismissed or stayed within sixty days.

In connection with the Loan Agreement, the Company issued warrants ("Loan Warrants") to purchase up to 650,000 shares of Sysview's common stock at an initial exercise price of \$0.60 per share. The Loan Warrants vested immediately and expire September 2012. Subsequent to the initial funding of the Loan Agreement, the warrant holders may require the Company to purchase the warrant for a maximum of \$250,000. And if any amount remains outstanding under the Loan Agreement after March 31, 2008, the warrant repurchase price increases to a maximum of \$350,000.

Under the Black-Scholes pricing model, the fair value of the Loan Warrant on the issuance date was \$399,000. Because the warrants were immediately redeemable for \$250,000 cash at the warrant holder's request, the Company accounted for the \$250,000 warrant redemption value as a current liability and the \$149,000 excess fair value over the warrant redemption value as additional paid-in capital. The Company will accrete the entire \$399,000 debt discount to interest expense over the life of the Loan Agreement. The Company recorded interest expense for the year ended September 30, 2007 of \$2,000 in connection with the Loan Warrants.

Future annual repayment obligations as of September 30, 2007 were as follows (IN THOUSANDS):

Principal payments due less than 12 months	\$ 1,100
Principal payments due more than 12 months	400
Loan Warrants redemption value	250

Total obligations	1,750
Less unamortized debt discount	(397)
Less current portion	(1,350)

Long-term loan, net of current portion	\$ 3
	=====

14

SYSVIEW TECHNOLOGY, INC NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

The Company calculated the initial fair value of all its warrants under the Black-Scholes pricing model with the following assumptions: contractual term of five years, 5.3% risk-free interest rate, expected volatility of 90% and expected dividend yield of 0%.

The Loan Warrant includes registration rights that require the Company to file a registration statement with the Securities and Exchange Commission (the "SEC") registering the shares of common stock underlying the Loan Warrant within 120 days after the issue date and to have such registration statement declared effective within 165 days after the issue date. For any 30 day period during which the registration obligations are unfulfilled, the Lender may acquire an additional 27,500 shares under the Loan Warrant. The Company accounts for the Loan Warrant registrations rights under EITF-00-19-2, ACCOUNTING FOR REGISTRATION PAYMENT ARRANGEMENTS ("EITF-00-19-2"). EITF-00-19-2 requires the contingent liability under the registration payment arrangement to be included in the allocation of proceeds from the related debt financing transaction if payment is probable and can be reasonably estimated at inception. In management's opinion, payment of the Loan Warrant registrations rights contingent liability is not probable, and therefore, not reflected in the

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

Company's financials statements as of September 30, 2007. The Company will continue to evaluate the registration rights contingent liability and the probability of the occurrence of payment under the registration rights at each reporting period to determine if the liability should be reflected in the Company's financial statements.

Upon the occurrence of an event of default under the Loan Agreement, the Lender may acquire 13,750 shares under the Loan Warrant on the date of such occurrence and an additional 13,750 shares on the first day of each 30 day period after such event of default until all amounts under the Loan Agreement have been paid in full.

The Loan Warrant provides for weighted average anti-dilution price adjustments if the Company issues common stock (or securities convertible into common stock) for consideration less than the then-effective exercise price; provided that if the Company sells or issues its equity securities within one year after the issue date in an offering in which the Company receives gross proceeds of at least \$1,000,000 ("Equity Event"), then, at the option of the Lender, the shares into which the Loan Warrant is convertible will be of the type and series of stock issued in the Equity Event, the exercise price shall be equal to the price per share paid in the Equity Event, and the Lender shall have the rights given to the purchasers in the Equity Event.

EMPLOYMENT AGREEMENTS

The Company maintains employment agreements with its executive officers which extend through 2008. The agreements provide for a base salary, annual bonus to be determined by the Board of Directors, termination payments, stock options, non-competition provisions, and other terms and conditions of employment. In addition, the Company maintains employment agreements with other key employees with similar terms and conditions. As of September 30, 2007 termination payments totaling \$484,000 are in effect.

CONSULTING AGREEMENT

The Company entered into an Investor Relations Consulting Agreement dated December 5, 2006, for a term of one year beginning January 1, 2007, payable monthly as follows: (i) \$5,000 for January, February and March; (ii) \$7,500 for April, May and June; (iii) \$8,500 for July, August and September; and (iv) \$9,000 for October, November, and December. Additionally, the Company agreed to pay the consultant 90,000 warrants with an exercise price of \$0.65 per share, expiring in three years, with immediate vesting on January 1, 2007, and exercisable at the rate of 7,500 options the first day of each month during calendar 2007. In April 2007, the Company entered a separate warrant agreement that amended terms of the warrants awarded in the December 5, 2006 agreement. Under the April 2007 agreement, the warrants shall vest 7,500 per month on the first day of each month commencing on January 1, 2007 and are immediately exercisable upon vesting. In the event the consulting agreement is terminated prior to December 1, 2007, all unvested warrants shall be immediately cancelled. The warrants will not be registered under federal or state securities laws. The fair value of these warrants, as determined by the Black-Scholes valuation model, totaled approximately \$18,000 and is amortized ratably over the vesting period. As such, \$5,000 and \$13,000 was charged to general and administrative expense and credited to additional paid-in capital during the three and nine months ended September 30, 2007, respectively.

SYSVIEW TECHNOLOGY, INC
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

SERIES B PREFERRED STOCK REGISTRATION RIGHTS AGREEMENT

Pursuant to the terms of a registration rights agreement ("Agreement") between the investors and the Company, the Company was obligated to file a registration statement on Form SB-2 (which was filed on October 11, 2006) registering the resale of shares of the Company's common stock issuable upon conversion of the Series B Stock and exercise of the related warrants. The Company was required to file the registration statement within 60 days following August 8, 2006 and to have the registration statement declared effective by December 6, 2006, which is 120 days following August 8, 2006. If the registration statement was not timely filed, or declared effective within the timeframe described, or if the registration was suspended other than as permitted in the Registration Rights Agreement, the Company was obligated to pay each investor a fee equal to one percent of such investor's purchase price of the Series B Stock for each 30 day period thereafter (pro rated for partial periods), that such registration conditions are not satisfied, up to a maximum of 12 months. Because the SEC did not declare the SB-2 effective until January 18, 2007, the Company accrued approximately \$7,000, included in general and administrative expense, for damages during the first quarter of fiscal 2007.

LITIGATION, CLAIMS AND ASSESSMENTS

The Company experiences routine litigation in the normal course of its business and does not believe that any pending litigation will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

NOTE 10 - SEGMENT AND GEOGRAPHIC INFORMATION

SEGMENT INFORMATION

Sysview currently operates in one segment, the design, development and delivery of various imaging technology solutions, most notably scanners, as defined by SFAS 131, DISCLOSURES ABOUT SEGMENTS OF AN ENTERPRISE AND RELATED INFORMATION ("SFAS 131").

GEOGRAPHIC INFORMATION

During the three and nine months ended September 30, 2007 and 2006, Sysview recorded net sales throughout the U.S., Asia and Europe as determined by the final destination of the product. The following table summarizes total net sales attributable to significant countries (IN THOUSANDS):

THREE MONTHS ENDED
 SEPTEMBER 30,

NINE MONTHS ENDED
 SEPTEMBER 30,

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

	2007	2006	2007	2006

Asia	7	111	7	111
Europe and other	186	77	470	111
	\$ 3,296	\$ 4,098	\$ 11,119	\$ 8,333

16

SYSVIEW TECHNOLOGY, INC
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (UNAUDITED)

Presented below is information regarding identifiable assets, classified by operations located in the U.S., Europe and Asia (IN THOUSANDS):

	SEPTEMBER 30, 2007	DECEMBER 31, 2006
U.S.	\$ 5,508	\$ 4,986
Asia	119	84
Europe	186	59
	\$ 5,813	\$ 5,129

Assets located in Asia relate to tooling equipment required to manufacture Sysview's product. Assets located in Europe relate to the Company's field service, sales, distribution and inventory management in the Netherlands.

NOTE 11 - SUBSEQUENT EVENT

During October 2007, 50,000 shares of Series B Stock (\$500,000) were converted into 500,000 shares of common stock. As of November 14, 2007, the remaining liquidation value of Series B Stock was \$620,000.

During November 2007, the Company suspended its HD display research and development efforts. The Company does not expect to expend any additional effort or funds to further develop and deploy its HD technology. The Company has been and will continue to evaluate different strategic opportunities related to its in-process HD technology and intellectual property, including but not limited to the sale of all HD-related assets.

17

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with Sysview Technology, Inc.'s ("Sysview" or "Company") unaudited condensed consolidated financial statements and notes included herein. The results described below are not

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

necessarily indicative of the results to be expected in any future period. Certain statements in this discussion and analysis, including statements regarding our strategy, financial performance and revenue sources, are forward-looking statements based on current expectations and entail various risks and uncertainties that could cause actual results to differ materially from those expressed in the forward-looking statements. Readers are referred to Sysview's Annual Report on Form 10-KSB for the year ended December 31, 2006 as filed with the Securities and Exchange Commission on April 3, 2007. We undertake no duty to update any forward-looking statement to conform the statement to actual results or changes in our expectations.

Management's discussion and analysis of financial condition and results of operations ("MD&A") is provided as a supplement to the accompanying unaudited condensed consolidated financial statements and notes to help provide an understanding of our financial condition, changes in financial condition and results of operations. The MD&A section is organized as follows:

- o OVERVIEW. This section provides a general description of the Company's business, as well as recent developments that we believe are important in understanding the results of operations and to anticipate future trends in those operations.
- o CRITICAL ACCOUNTING POLICIES. This section provides an analysis of the significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities.
- o RESULTS OF OPERATIONS. This section provides an analysis of our results of operations for the three and nine months ended September 30, 2007 compared to the three and nine months ended September 30, 2006. A brief description of certain aspects, transactions and events is provided, including related-party transactions that impact the comparability of the results being analyzed.
- o LIQUIDITY AND CAPITAL RESOURCES. This section provides an analysis of our financial condition and cash flows as of and for the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006.

OVERVIEW

We are in the business of designing, developing and delivering imaging technology solutions. Our technology is protected under multiple patents. We focus our research and development toward new deliverable and marketable technologies. We sell our products to customers throughout the world, including the United States, Canada, Europe, South America, Australia and Asia.

Our strategy includes a plan to expand our document/image-capture product line and technology while leveraging our assets in other areas of the imaging industry. We are actively shipping six groups of image-capture products. We have expanded our document/image-capture product offerings, and will continue to expand our product offerings in the future in response to the increased market demand for faster and easier-to-use products as well as increased security to meet the growing need for information protection, including identity and financial transaction protection.

During September 2007, we engaged an independent investment firm to explore and evaluate a range of strategic opportunities to enhance shareholder value, including, but not limited to, combinations, partnerships, sales or mergers of our operations or assets with another entity and/or a recapitalization. As of the date of this filing, we continue to evaluate different strategic opportunities.

During November 2007, we suspended our HD display research and development efforts. We do not expect to expend any additional effort or funds to further develop and deploy our HD technology. We have been and will continue to evaluate different strategic opportunities related to our in-process HD technology and intellectual property, including but not limited to the sale of all HD-related assets.

CRITICAL ACCOUNTING POLICIES

Our MD&A is based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, trade receivables and allowance for doubtful accounts, inventories, intangible and long-lived assets, and income taxes. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used or changes in the accounting estimate that are reasonably likely to occur could materially change the financial statements. We believe the following critical accounting policies reflect our more significant estimates and assumptions used in the preparation of our consolidated financial statements:

REVENUE RECOGNITION

Revenues consist of sales of merchandise, including optical image capturing devices, modules of optical image capturing devices, optical image chips and other optoelectronic products. Revenue is recognized when the product is shipped or delivered and the risks, rewards and title of ownership have transferred to the customer. We recognize some shipping and handling fees as revenue, and the related expenses as a component of cost of sales. All internal handling charges are included with selling and marketing expense. Historically, sales returns have not been significant. As such, we do not record a reduction to revenue for estimated product returns in the same period that the related revenue is recorded.

INVENTORY AND WARRANTY RESERVES

We establish inventory reserves for estimated obsolescence or unmarketable inventory in an amount equal to the difference between the cost of inventory and its estimated realizable value based upon assumptions about future demand and market conditions. If actual demand and market conditions are less favorable than those projected by management, additional inventory reserves could be required. As of September 30, 2007, we had no inventory reserve. Currently, we purchase the majority of our finished scanner imaging products from Syscan Lab Limited ("SLL"), a wholly-owned subsidiary of Syscan Technology Holdings Limited ("STH"), the parent company of our majority stockholder. SLL warrants the products it manufactures for us against defects in material and workmanship for a period of 18 months after the completion of manufacture. After such 18 month

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

period, SLL provides product repair services for us at its customary hourly repair rate plus the cost of any parts, components, or items necessary to repair the products. As a result of the product warranty provided by SLL, Sysview does not record a product warranty reserve.

RELATED-PARTY TRANSACTIONS

We have significant related-party transactions and agreements, which we believe have been accounted for at fair value. We utilized our best estimate of the value of these transactions and agreements. Had alternative assumptions been used, the values obtained may have been different.

RELATED-PARTY PURCHASES

The Company purchases the majority of its finished scanner imaging products from SLL as discussed above. Our Chairman and CEO, Darwin Hu, was formerly the CEO of STH. He resigned from STH effective December 2004.

19

Purchases from SLL totaled \$1,780,000 and \$6,101,000 for the three and nine months ended September 30, 2007, respectively, and \$2,669,000 and \$5,923,000 for the three and nine months ended September 30, 2006, respectively. All purchases from SLL were carried out in the normal course of business. As a result of these purchases, the Company was liable to SLL for \$602,000 and \$952,000 at September 30, 2007 and December 31, 2006, respectively.

COMMON STOCK ACQUIRED FROM RELATED PARTY

On March 21, 2007, we entered into an agreement with STH whereby we agreed to forego any further collection efforts, including legal action, related to loans that we previously made to STH, which were never repaid by STH. In exchange, STH agreed to the cancellation of 2,600,000 shares of our restricted common stock beneficially owned by STH. In addition, both parties mutually agreed to release and discharge any and all claims that each may have against the other party. The stock certificates were subsequently cancelled by the Company's transfer agent.

INTANGIBLE AND LONG-LIVED ASSETS

We evaluate our intangible assets and long-lived assets, long-term investments, and fixed assets, for impairment annually or more frequently if we believe indicators of impairment exist. Significant management judgment is required during the evaluation, including the forecasts of future operating results. The estimates we have used are consistent with the plans and estimates that we use to manage our business. It is possible, however, that the plans and estimates used may be incorrect. If our actual results, or the plans and estimates used in future impairment analyses, are lower than the original estimates used to assess the recoverability of these assets, we could incur additional impairment charges. We had no such asset impairments during the three or nine months ended September 30, 2007.

INCOME TAXES

We utilize the liability method of accounting for income taxes. Deferred income tax assets and liabilities are calculated as the difference between the financial statements and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. We record a valuation allowance to reduce our deferred tax assets to the amount that we believe is more likely than not to be realized. In

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

assessing the need for a valuation allowance, we consider all positive and negative evidence, including scheduled reversals of deferred tax liabilities, projected future taxable income, tax planning strategies, and recent financial performance.

The application of tax laws and regulations is subject to legal and factual interpretation, judgment and uncertainty. Tax laws themselves are subject to change as a result of changes in fiscal policy, changes in legislation, evolution of regulations and court rulings. Therefore, the actual income taxes may be materially different from our estimates. As a result of our analysis, we concluded that a full valuation allowance against our net deferred tax assets is appropriate at September 30, 2007.

CONTINGENCIES

From time to time, we are involved in disputes, litigation and other legal proceedings. We record a charge equal to at least the minimum estimated liability for a loss contingency when both of the following conditions are met: (i) information available prior to issuance of the financial statements indicates that it is probable that an asset had been impaired or a liability had been incurred at the date of the financial statements and (ii) the range of loss can be reasonably estimated. However, the actual liability in any such litigation may be materially different from our estimates, which could result in the need to record additional costs. Currently, we have no outstanding legal proceedings or claims, which require a loss contingency.

ACCOUNTING FOR CERTAIN FINANCIAL INSTRUMENTS WITH CHARACTERISTICS OF BOTH LIABILITIES AND EQUITY

We account for our Series A 5% Cumulative Convertible Preferred Stock ("Series A Stock") and our Series B Convertible Preferred Stock ("Series B Stock") pursuant to SFAS 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES ("SFAS 133") and the Emerging Issues Task Force ("EITF") Abstract 00-19, ACCOUNTING FOR

20

DERIVATIVE FINANCIAL INSTRUMENTS ("EITF 00-19"). Accordingly, the embedded conversion feature associated with our Series A Stock and related warrants and our Series B Stock and related warrants have been determined to be derivative instruments. The fair value of these derivative instruments, as determined by applying the Black-Scholes valuation model, is adjusted quarterly. The Black-Scholes valuation model requires the input of highly subjective assumptions, including the expected stock price volatility. Additionally, although the Black-Scholes model meets the requirements of SFAS 133, the fair values generated by the model may not be indicative of the actual fair values of our Series A Stock and Series B Stock as our derivative instruments have characteristics significantly different from traded options.

ACCOUNTING FOR CERTAIN REGISTRATION RIGHTS RELATED TO WARRANTS ISSUED IN CONNECTION WITH DEBT

We account for certain warrant registrations rights under EITF-00-19-2, ACCOUNTING FOR REGISTRATION PAYMENT ARRANGEMENTS ("EITF-00-19-2"). EITF-00-19-2 requires the contingent liability under the registration payment arrangement to be included in the allocation of proceeds from the related debt financing transaction if payment is probable and can be reasonably estimated at inception. In management's opinion, payment of the Loan Warrant registrations rights contingent liability is not probable, and therefore, not reflected in our financials statements as of September 30, 2007. We will continue to evaluate the registration rights contingent liability and the probability of the occurrence of payment under the registration rights at each reporting period to determine

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

if the liability should be reflected in our financial statements.

STOCK-BASED COMPENSATION EXPENSE

Effective January 1, 2006, we adopted SFAS 123R, SHARE-BASED PAYMENTS ("SFAS 123R"). SFAS 123R requires all share-based payments, including grants of employee stock options and warrants, to be recognized in our financial statements based on their respective grant date fair values. Under this standard, the fair value of each share-based payment award is estimated on the date of grant using an option pricing model that meets certain requirements. We currently use the Black-Scholes option pricing model to estimate the fair value of our share-based payment awards. The Black-Scholes model meets the requirements of SFAS 123R; however, the fair values generated by the model may not be indicative of the actual fair values of our awards as it does not consider certain factors important to our awards, such as continued employment, periodic vesting requirements and limited transferability.

The determination of the fair value of share-based payment awards utilizing the Black-Scholes model is affected by our stock price and a number of assumptions, including expected volatility, expected life, risk-free interest rate and expected dividends. We use the historical volatility for our common stock as the expected volatility assumption required in the Black-Scholes model, which could be significantly different than actual volatility. The expected life of the awards is based on historical and other economic data trended into the future. The risk-free interest rate assumption is based on observed interest rates appropriate for the terms of our awards. The dividend yield assumption is based on our history and expectation of dividend payouts. Forfeitures are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

Stock-based compensation expense recognized in our financial statements beginning January 1, 2006 and thereafter is based on awards that are ultimately expected to vest. We evaluate the assumptions used to value our awards on a quarterly basis. If factors change and we employ different assumptions, stock-based compensation expense may differ significantly from what we have recorded in the past. If there are any modifications or cancellations of the underlying unvested securities, we may be required to accelerate, increase or cancel any remaining unearned stock-based compensation expense. Future stock-based compensation expense and unearned stock-based compensation will increase to the extent that we grant additional equity awards to employees.

21

RESULTS OF OPERATIONS

The following table summarizes certain aspects of our results of operations for the three and nine months ended September 30, 2007 compared to the three and nine months ended September 30, 2006 (IN THOUSANDS):

	THREE MONTHS ENDED SEPTEMBER 30,				NINE M	
	2007	2006	\$	%	2007	
Net sales	\$ 3,296	\$ 4,098	\$ (802)	(20%)	\$ 11,119	\$

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

Cost of sales	1,975	2,700	(725)	(27)	6,609
As a percentage of sales	60%	66%	59%	66%	
Selling and marketing expense	310	307	3	1	1,072
General and administrative expense	610	676	(66)	(10)	2,138
Research and development expense	526	584	(58)	(10)	2,052
Total other income (expense)	(451)	687	NM	NM	(468)
Dividend on 5% convertible preferred stock and accretion of preferred stock redemption value	(237)	(209)	NM	NM	(721)

NM = Not Meaningful

NET SALES

The significant increase in net sales during the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006 was attributable to the following:

- o The overall growth of the document/image-capture market resulting from an increased market demand for products that manage how information is retrieved, stored, shared and disseminated;
- o The increased end-user market penetration, including distribution channel expansion, by both us and our largest customers;
- o The expansion of our customer base;
- o The increased market acceptance of our more recently introduced products, which bear higher margins;
- o We have experienced a more consistent market delivery of our product, which is attributable to (i) the growth of our smaller customers and less dependence on our larger customers, (ii) our management of customer demand and product delivery and (iii) our movement toward a just-in-time inventory management product delivery system;
- o Our increased use of Value Added Reseller ("VAR") channel distributions; and
- o The growth in the small office home office ("SOHO") markets, and the result of our efforts to appeal to customers in the SOHO market.

Our sales decreased during the three months ended September 30, 2007 as compared to the same period during 2006 as a result of the seasonality and abnormally high sales to one of our largest customers during the three months ended September 30, 2006.

During the current fiscal year, we have successfully expanded our significant customer base, which decreases our risk of dependency on a small number of significant customers. During the three months ended September 30, 2007, only 68% of sales were generated from our top three customers as compared to 79% of sales generated from our top three customers during the same period in fiscal 2006. During the nine months ended September 30, 2007, only 57% of sales were generated from our top three customers as compared to 70% of sales generated from our top three customers during the same period in fiscal 2006. Although we will continue to focus on expanding our significant customers, we expect that

our largest customers will continue to account for a substantial portion of our net sales in the remainder of fiscal 2007 and for the foreseeable future. The

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

identities of our largest customer and their respective contributions to our net sales have varied in the past and will likely continue to vary from period to period.

Although we expect net sales to increase as we continue to expand our business and offer additional products in the document/image-capture market, there can be no assurance that our net sales will increase.

COST OF SALES, INCLUDING GROSS PROFIT

Cost of sales includes all direct costs related to the transfer of scanners, imaging modules and services related to the delivery of those items manufactured in China, and to a lesser extent engineering services and software royalties. Cost of sales as a percentage of net sales decreased during both the three and nine months ended September 30, 2007 as compared to the same periods in 2006 as a result of a higher proportion of overall net sales being generated from our most recently introduced and more feature-rich products, including our duplex scanners (scanners that have the ability to scan both sides of a document at once). Our duplex scanners, which bear a higher gross margin than our simplex scanners (scanners that scan only one side of a document) have recently experienced broader market acceptance.

We expect our cost of sales as a percentage of net sales to fluctuate somewhat as our product mix fluctuates. Our average selling price and related material cost used to manufacture our product has been stable and we expect this trend to continue for the foreseeable future.

SELLING AND MARKETING EXPENSE

Selling and marketing expenses consist primarily of salaries and related costs of employees, including stock-based compensation costs, engaged in our sales, marketing and customer account management functions and to a lesser extent, market development and promotional funds for our retail distribution channels, tradeshow, website support, warehousing, logistics and certain sales representative fees. Selling and marketing expense fluctuates depending on the timing of advertising and promotions of our various new products, including our attendance at tradeshow, which are key to promoting our products.

The increase in selling and marketing expense during the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006 was primarily attributable to the stock-based compensation cost (a non-cash charge) as a result of granting stock options to key employees during the first quarter of fiscal 2007 and accounting for such option grants under SFAS 123R. See "Note 6: Employee Equity Incentive Plans" in Part I, Item 1 of this Form 10-QSB. Stock-based compensation cost was \$107,000 for the nine months ended September 30, 2007 as compared to \$38,000 for the nine months ended September 30, 2006.

To a lesser extent, the increase for the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006 was attributable to our increased staff and related marketing activities to support our expanding product offerings and the addition of direct sales personnel in Europe and Asia. Although we expect sales and marketing expenses to fluctuate as a result of the timing of advertising and promotions of our various new products and stock option grants, overall we expect selling and marketing expenses to increase as we continue to expand our marketing efforts and the number of products we offer.

GENERAL AND ADMINISTRATIVE EXPENSE

General and administrative expense consists primarily of costs associated with our executive, financial, human resources and information services functions, including stock-based compensation costs, facilities-related expenses and outside professional services such as legal and accounting. General and

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

administrative expenses increased during the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006 in fiscal 2006 as a result of the following:

23

- o The hiring of an outside investor relations firm to manage and enhance our investor relations function;
- o Increased personnel costs to support our expanding business and related infrastructure; and
- o Increased expenses associated with maintaining our public company status, including the costs of complying with the Sarbanes-Oxley Act.

During the three months ended September 30, 2007 as compared to the three months ended September 30, 2006, the above increased expenses were more than offset by the decrease in our stock-based compensation cost (a non-cash charge). We granted stock options to key employees and directors during the first quarter of fiscal 2007 and accounted for such option grants under SFAS 123R. See "Note 6: Employee Equity Incentive Plans" in Part I, Item 1 of this Form 10-QSB. Stock-based compensation cost was \$71,000 during the three months ended September 30, 2007 as compared to \$227,000 during the three months ended September 30, 2006. We believe this decrease is temporary and we anticipate that general and administrative expenses will continue to increase as our business continues to grow and the costs associated with being a public company continue to increase as a result of our required reporting requirements including, but not limited to, expenses incurred to comply with the Sarbanes-Oxley Act of 2002.

RESEARCH AND DEVELOPMENT EXPENSE

Research and development expense consists primarily of salaries and related costs, including stock-based compensation costs, of employees engaged in product research, design and development activities, compliance testing, documentation, prototypes and expenses associated with transitioning the product to production. The majority of our research and development expense during all periods presented was directly attributable to our future products including our HD display products. The increase during the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006 is primarily attributable to (i) the increased amount of expensed equipment required to support our future HD display product development; and (ii) stock-based compensation cost (a non-cash charge) as a result of granting stock options to key employees during the first quarter of fiscal 2007 and accounting for such option grants under SFAS 123R. See "Note 6: Employee Equity Incentive Plans" in Part I, Item 1 of this Form 10-QSB. Stock-based compensation cost was \$456,000 and \$151,000 for the nine months ended September 30, 2007 and 2006, respectively.

During the three months ended September 30, 2007, we evaluated and refocused our research and development activities. As a result, we right-sized and reduced our staff, which directly reduced our research and development expenses during the three months ended September 30, 2007 as compared to the three months ended September 30, 2006. Although we plan to continue to invest in product innovation and development with respect to our document/image-capture products, management continues to assess research and development efforts, which may result in an offset to future research and development expenses.

TOTAL OTHER INCOME (EXPENSE)

Other income (expense) for the three and nine months ended September 30, 2007 was primarily comprised of the \$464,000 and \$501,000 increase, respectively, in

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

the fair value of the liability for derivative contracts (associated with our Series A Stock and related warrants and Series B Stock and related warrants). Other income (expense) for the three and nine months ended September 30, 2006 was primarily comprised of the \$955,000 and \$645,000 decrease, respectively, in the fair value of the liability for derivative contracts (associated with our Series A Stock and related warrants and Series B Stock and related warrants).

Pursuant to SFAS 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES ("SFAS 133"), and EITF Abstract 00-19, ACCOUNTING FOR DERIVATIVE FINANCIAL INSTRUMENTS ("EITF 00-19"), the increase in the fair value of the liability for derivative contracts is included as other expense in our consolidated statements of operations and the decrease in the fair value of the liability for derivative contracts is included as other income in our consolidated statements of operations.

24

DIVIDEND ON SERIES A STOCK AND ACCRETION OF PREFERRED STOCK REDEMPTION VALUE

During the three and nine months ended September 30, 2007, the total accretion on our preferred stock was \$217,000 and \$657,000, respectively. During the three and nine months ended September 30, 2006 the total accretion on our preferred stock was \$187,000 and \$445,000, respectively. The increases were attributable to our Series B Stock, which was sold during the third quarter of fiscal 2006.

During the three and nine months ended September 30, 2007, Series A Stock dividends were approximately \$20,000 and \$64,000, respectively. During the three and nine months ended September 30, 2006, Series A Stock dividends were approximately \$22,000 and \$59,000, respectively. We do not pay dividends on our Series B Stock.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2007, our principal sources of liquidity included cash and cash equivalents of \$2,137,000. We had no unused borrowing capacity under our bank line of credit.

Operating activities: During the nine months ended September 30, 2007, our operating activities provided \$384,000 of cash. This was primarily a result of our \$1,945,000 net loss, \$2,478,000 of net non-cash expenses and accretion of Series A and Series B preferred stock redemption value, and \$149,000 net cash used by changes in operating assets and liabilities. During the nine months ended September 30, 2006, our operating activities used \$948,000 of cash. This was primarily a result of our \$1,370,000 net loss, \$983,000 of net non-cash expenses and \$561,000 net cash used by changes in operating assets and liabilities. Non-cash items included in net loss available to common shareholders for both the nine months ended September 30, 2007 and 2006 include depreciation expense, stock-based compensation cost of options, fair value of warrants issued for services rendered, change in fair value of derivative instruments and the accretion of our Series A and Series B preferred stock redemption value.

Changes in our operating assets and liabilities are a result of the significant increase in the sales of our product during the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006 and the timing of purchasing our product to support the increase of sales.

A significant use of cash during the nine months ended September 30, 2007 as compared to a significant source of cash during the nine months ended September 30, 2006 was attributable to the timing of paying our contract manufacturer

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

according to normal and customary payment terms. We expect future cash provided (used) by operating activities to fluctuate, primarily as a result of fluctuations in our operating results, timing of product shipments, trade receivables collections, inventory management and timing of vendor payments.

Investing activities: Our investing activities for both the nine months ended September 30, 2007 and 2006 were minimal and consisted of purchasing computer and general equipment during the normal course of business.

Financing activities: During the nine months ended September 30, 2007, our financing activities consisted of (i) a \$500,000 draw against our bank line of credit to meet short-term obligations, including payment on the purchase of our product, and (ii) the replacement of our existing line of credit at a commercial bank with a similar line of credit at a different commercial bank. During the nine months ended September 30, 2006, cash provided by financing activities was attributable to the \$1,150,000 sale of our Series B Stock. Net proceeds of this offering after payment of related commissions, fees and other expenses were approximately \$1,070,000. We used the proceeds for sales, marketing, research and development and for working capital and general corporate purposes.

CASH AND WORKING CAPITAL REQUIREMENTS

During September 2007, we repurchased 8,000,000, or approximately 36% of the then outstanding shares, of our restricted common stock from our majority shareholder for \$2,000,000 less related transaction fees. Of the \$2,000,000 consideration, \$500,000 was paid through our newly established credit line with a commercial bank, and the remainder was financed through a \$1,500,000 loan from Montage Capital, LLC a private investment group. Additionally, we agreed that if we sell our HD display business to a certain party, specifically identified in the repurchase agreement, and receive stock of the buyer as consideration, then we will transfer a portion of that stock to the majority stockholder. We repurchased the 8,000,000 shares for the purpose of retiring the shares. As of the date of this report, the physical stock certificate was being held by the Company's transfer agent and was in the process of being retired. The stock repurchase enhances our strategy of engaging an independent investment firm to explore and evaluate a range of strategic opportunities to enhance shareholder value, as previously discussed.

25

As previously discussed, we suspended our HD display research and development efforts during November 2007. We do not expect to expend any additional effort or funds to further develop and deploy our HD technology. We have been and will continue to evaluate different strategic opportunities related to our in-process HD technology and intellectual property, including but not limited to the sale of all HD-related assets.

With the suspension of the HD display portion of our business, our future expenses will be more aligned with our current and projected revenue. If we successfully re-align our expenses, of which there can be no assurance, management believes that is current cash and other sources of liquidity are sufficient to fund normal operations through the next 12 months.

CONTRACTUAL OBLIGATIONS

The following table summarizes our contractual obligations at September 30, 2007, and the effect such obligations are expected to have on our liquidity and cash flows in future periods (IN THOUSANDS):

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

	TOTAL	LESS THAN ONE YEAR	ONE - THREE YEARS	THREE - FIVE YEARS
	-----	-----	-----	-----
Long-term bank line of credit (1)	\$2,000	\$ --	\$2,000	\$--
Term loan principal payments (2)	1,500	1,100	400	--
Term loan warrant liabilities(3)	250	250	--	--
Operating lease obligations	340	288	52	--
Consulting agreement	27	27	--	--
	-----	-----	-----	-----
Total contractual cash obligations	\$4,117	\$1,665	\$2,452	\$--
	=====	=====	=====	=====

(1) During September 2007, we replaced our existing \$2,500,000 line of credit at a commercial bank with a similar line of credit ("LOC") at a different commercial bank. The new LOC initial maximum available credit is \$2,000,000 and will automatically increase to \$3,000,000 on the later of (i) December 12, 2007 if we remain in compliance with all debt covenants, or (ii) Sysview pays down our subordinate debt (as discussed in the following paragraph) below \$1,000,000. Borrowings under the LOC are limited to 80% of eligible accounts receivable and 40% of eligible inventory, as defined in the LOC agreement. The LOC bears an annual interest rate of prime (7.75% at September 30, 2007) plus 1.25% for advances drawn against accounts receivables and prime plus 2.25% for advances drawn against inventory. Interest payments are due monthly and all unpaid interest and principal is due in full on September 13, 2009. Upon certain events of default, the default variable interest rate increases to prime plus 5%.The Company did not have any borrowing capacity on the LOC at September 30, 2007.

(2) On September 27, 2007, we entered into a \$1,500,000 term loan agreement ("Loan Agreement") with Montage Capital, LLC ("Lender") and used the funds to repurchase 8,000,000 shares of our restricted common stock as previously discussed. We granted the Lender a continuing security interest, and pledged to the Lender, all of our assets to secure payment and performance of its obligations under the Loan Agreement. The Loan Agreement and the security interest are subordinate to our LOC.

The Loan Agreement bears an annual interest rate of 15% with interest-only payments due monthly starting from initial funding through October 31, 2007. Thereafter, principal of \$100,000 per month plus accrued interest is due at the end of each month through the loan's maturity date of November 30, 2008. The remaining principal balance and accrued interest is due on the maturity date.

(3) In connection with the Loan Agreement, the Company issued warrants ("Loan Warrants") to purchase up to 650,000 shares of our common stock at an initial exercise price of \$0.60 per share. The Loan Warrants vested immediately and expire September 2012. Subsequent to the initial funding of the Loan Agreement, the warrant holders may require us to purchase the warrant for a maximum of \$250,000. And if any amount remains outstanding under the Loan Agreement after March 31, 2008, the warrant repurchase price increases to a maximum of \$350,000.

Edgar Filing: SYSVIEW TECHNOLOGY, INC. - Form 10QSB

At September 30, 2007, we did not have any relationship with unconsolidated entities or financial partnerships, which other companies have established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes as defined in Item 303(c)(2) of SEC Regulation S-B. Therefore, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

TRENDS

As of September 30, 2007, to the best of our knowledge, no known trends or demands, commitments, events or uncertainties existed, which are likely to have a material effect on our liquidity, except as described in "Note 9: Commitments and Contingencies" in Part I, Item 1 of this Form 10-QSB.

27

ITEM 3 - CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the end of the period covered by this report (the "Evaluation Date"). Based upon the evaluation, our principal executive officer and principal financial officer concluded as of the Evaluation Date that our disclosure controls and procedures were effective. Disclosure controls are controls and procedures designed to reasonably ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this report, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls include controls and procedures designed to reasonably ensure that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

There were no changes in our internal controls over financial reporting that occurred during the quarterly period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

28

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to various legal proceedings from time to time in the ordinary course of business, none of which is required to be disclosed under this Item 1.
