**EXPLANATORY NOTE**

Shareholders' equity and net loss for the year based on U.S. GAAP as at, and for the year ended September 30, 2002 differ from the amounts previously reported by the Company in its Annual Report on Form 20-F dated February 17, 2003, constituting its Annual Information Form. Previously, the Company expensed the beneficial conversion associated with its convertible debentures, and described in note 20(e), totalling \$1,188,356, immediately. However, this amount should have been amortized over the two-year term of the debentures which would reduce the charge in 2002 to \$168,541, resulting in a decrease to net loss for the year based on U.S. GAAP of \$1,019,815. Accordingly, note 20 to the Company's consolidated financial statements included in this amended filing has been restated to correct for this matter. This amended filing should be read in conjunction with the Company's Annual Report on Form 20-F dated February 17, 2003.

**AUDITORS REPORT TO THE SHAREHOLDERS**

We have audited the consolidated balance sheets of Envoy Communications Group Inc. as at September 30, 2002 and 2001 and the consolidated statements of operations, retained earnings (deficit) and cash flows for each of the years in the three-year period ended September 30, 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards and United States generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at September 30, 2002 and 2001 and the results of its operations and its cash flows for each of the years in the three-year period ended September 30, 2002 in accordance with Canadian generally accepted accounting principles.

**COMMENTS BY AUDITORS FOR U.S. READERS ON CANADA-U.S REPORTING DIFFERENCES**

In the United States, reporting standards for auditors require the addition of an explanatory paragraph (following the opinion paragraph) when the financial statements are affected by conditions and events that cast substantial doubt on the Company's ability to continue as a going concern, such as those described in note 1 to the consolidated financial statements, and when there is a retroactive adjustment such as that described in note 20(1) to the consolidated financial statements. Our report to the shareholders dated January 9, 2003, except as to note 20(1) which is as of February 2, 2004, is expressed in accordance with Canadian reporting standards, which do not permit a reference to such events and conditions and which do not require a reference to such retroactive adjustment in the auditors' report when such events and conditions and such adjustments are adequately disclosed in the financial statements.

Notes to Consolidated Financial Statements

(Expressed in Canadian dollars)

Years ended September 30, 2002, 2001 and 2000

The Company, continued under the Business Corporations Act (Ontario), has operations in the United States, the United Kingdom and Canada and provides integrated marketing and communication services. The core disciplines are: advertising, branding and digital professional services, which include strategy, creative design and technology infrastructure services necessary to build and maintain successful e-businesses.

**1. Basis of presentation:**

- (a) These consolidated financial statements have been prepared on the going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and satisfy its liabilities in the normal course of business. Certain conditions exist and events have occurred, as further described below that provide uncertainty regarding the Company's ability to continue as a going concern, with its existing operations.

During the year, the Company entered into a Forebearance Agreement with the lenders, which requires the Company to make monthly principal payments from December 31, 2002 through to March 31, 2003 and repay the balance of the loan by April 30, 2003. Consequently, the loan is classified as a current liability and the working capital shortfall is approximately \$7.7 million as at September 30, 2002.

The Company's ability to repay its bank borrowings is dependent upon its ability to generate positive cash flow from operations, secure additional debt or equity financing under private placements, refinance or renegotiate its debt facility and/or sell all of, or a part of, its operating businesses. There can be no assurances that the Company will be successful in doing so. In the event the Company is unable to repay or refinance the bank loans from the above sources, then the application of the going concern principle for financial statement reporting purposes may no longer be appropriate. These consolidated financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that may be necessary.

- (b) The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in Canada, which vary in certain significant respects from generally accepted accounting principles in the United States. A description of the significant differences, as applicable to the Company, is included in note 20.
- (c) Certain 2001 comparative figures have been reclassified to conform to the financial statement presentation adopted for 2002.

**Table of Contents****ENVOY COMMUNICATIONS GROUP INC.**

Notes to Consolidated Financial Statements (continued)  
(Expressed in Canadian dollars)

Years ended September 30, 2002, 2001 and 2000

**2. Significant accounting policies:**

## (a) Principles of consolidation:

The consolidated financial statements include the accounts of the Company and its subsidiaries, collectively known as Envoy Communications Group Inc. Intercompany balances and transactions are eliminated on consolidation.

Significant subsidiaries as at September 30, 2002 are as follows:

<u>Company</u>	<u>% of ownership</u>	<u>Jurisdiction of incorporation</u>
Communique Incentives Inc.	100	Ontario
Hampel Stefanides, Inc.	100	Delaware
Devlin Multimedia Inc.	100	Ontario
Watt International Inc.	100	Ontario
Sage Information Consultants Inc.	100	Ontario
Gilchrist Brothers Limited	100	United Kingdom
International Design Group	100	Ontario
John Street Inc.	70	Ontario

## (b) Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Actual results could differ from those estimates.

**Table of Contents****ENVOY COMMUNICATIONS GROUP INC.**

Notes to Consolidated Financial Statements (continued)  
(Expressed in Canadian dollars)

Years ended September 30, 2002, 2001 and 2000

**2. Significant accounting policies (continued):**

## (c) Capital assets:

Capital assets are recorded at cost and are depreciated over their estimated useful lives as follows:

<u>Asset</u>	<u>Basis</u>	<u>Rate</u>
Audiovisual equipment	Straight line	2 - 5 years
Computer equipment and software	Declining balance	30% - 50%
Furniture and equipment	Declining balance	20%
Leasehold improvements	Straight line	Over term of leases
Equipment under capital leases	Straight line	3 - 5 years

## (d) Revenue recognition:

The Company presents as net revenue its net commission and fee income earned as compensation for its services. Further, the balance sheet reflects the following:

- (i) deferred revenue representing only fees billed and collected in advance of such fees being earned; and
- (ii) the reimbursable pass-through costs which are included in unbilled accounts receivable.

Net revenue represents the Company's compensation for its agency and non-agency services and is recognized only when collection of such net revenue is probable. Agency services are those that require the Company to incur external media and production costs on behalf of its clients and for which it is entitled to pass through the costs for reimbursement from its clients. The reimbursement of pass-through costs are not included in net revenue. The Company's agency and non-agency projects are short-term in nature.

Fees earned for non-agency services are recognized either upon the performance of the Company's services when the Company earns a per-diem fee, or in the case of a fixed fee, when the Company's services are substantially complete and accepted by the client. Fees earned but not yet billed are included in accounts receivable. Fees billed to clients in excess of fees recognized as net revenue are classified as deferred revenue.

**2. Significant accounting policies (continued):**

When the Company's compensation for its agency services is based on commissions, net revenue is comprised of: (i) commissions earned from media expenditures, which are recognized at the time the advertising appears or is broadcast, or in respect of on-line advertising, either ratably over the period of time the advertising appears or based on the actual impressions delivered at the contractual rate per impression, depending upon the terms of the arrangement; and (ii) commissions earned on expenditures for the production of advertisements, which are recognized upon the completion of the Company's services and acceptance by the client, being the time at which the Company has no further substantial obligations with respect thereto.

When the Company's compensation for its agency services is fee-based, net revenue is comprised of non-refundable monthly agency fees, which are recognized in the month earned.

Pass-through costs related to production are accrued and recorded in accounts receivable, as unbilled reimbursable costs, at the time the third party suppliers render their services. Pass-through costs related to media are accrued at the time the advertisement appears or is broadcast.

(e) Goodwill:

Goodwill acquired prior to July 1, 2001 is initially stated at cost with amortization being provided on a straight-line basis over periods ranging from 7 to 25 years.

As further described in notes 2(i)(ii) and 20(k)(ii), in accordance with new accounting standards, goodwill acquired after July 1, 2001 is not amortized but is tested at least annually for impairment.

Annually, the Company assesses the recoverability of the carrying value of its goodwill and the related amortization period. As part of the evaluation, the Company considers several factors, including the operating results and trends, movement in major clients and key client service personnel, changes in client relationships and general economic conditions. Significant changes in these factors could result in a permanent impairment of goodwill.

**2. Significant accounting policies (continued):**

Goodwill is considered to be impaired if the future anticipated undiscounted operating cash flows from the acquired businesses are less than the carrying value of the goodwill. These cash flow projections require management to make certain assumptions regarding future revenue and expenses. When impairment is determined, the related loss is charged to earnings and is measured by the excess of the carrying value of the goodwill over its fair value based on estimated discounted future operating cash flows. The impact of such write-downs on the amortization period is simultaneously assessed.

(f) Foreign currency translation:

The financial statements of the Company's foreign subsidiaries, all of which are self-sustaining operations, are translated using the current rate method, whereby the assets and liabilities of such foreign operations are translated at the exchange rate in effect at the balance sheet date. Revenue and expenses are translated at the average exchange rate for the year. Translation gains or losses are deferred and included as a separate component of shareholders' equity.

In respect of the Company's and its subsidiaries' foreign currency transactions, at the transaction date, each asset, liability, revenue and expense is translated into Canadian dollars by the use of the exchange rate in effect at that date. At the year-end date, monetary assets and liabilities are translated into Canadian dollars by using the exchange rate in effect at that date. The resulting foreign exchange gains and losses are included in earnings in the current year. However, unrealized gains or losses on long-term debt that is designated as a hedge of investments in foreign subsidiaries are deferred and recorded as a separate component of shareholders' equity.

(g) Income taxes:

The Company accounts for income taxes using the asset and liability method. Under this method, future income taxes are recognized at the enacted or substantially enacted tax rate expected to be applicable at the date of reversal for all significant temporary differences between the tax and accounting bases of assets and liabilities and for certain tax carryforward items. Future income tax assets are recognized only to the extent that, in the opinion of management, it is more likely than not that the future income tax assets will be realized. Future income tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of the substantive enactment of the change.

(h) Stock-based compensation:

The Company has a stock option plan for key employees and officers. All stock options issued under this plan have an exercise price equal to or greater than the fair market value of the underlying common shares on the date of the grant. The Company does not record compensation expense on the grant or modification of options under the Plan. Consideration paid by employees on the exercise of stock options is recorded as share capital. The stock option plan is described in note 12(d).

(i) Changes in accounting policies:

- (i) The Company adopted the new provisions of The Canadian Institute of Chartered Accountants ( CICA ) Handbook Section 3500, Earnings per Share. Basic earnings per share is computed using the weighted average number of common shares that are outstanding during the year. Diluted earnings per share is computed using the weighted average number of common and potential common shares outstanding during the year. Potential common shares consist of the incremental common shares issuable upon the exercise of stock options using the treasury stock method.

Previously, the Company calculated fully diluted earnings per share using the imputed earnings method. The change in accounting policy has been applied retroactively and the diluted earnings per share figures presented for the comparative periods have been restated.

- (ii) The Company adopted the new provisions of the CICA Handbook Section 1581, Business Combinations . All business combinations are accounted for using the purchase method of accounting. The value of shares issued in a business combination are measured using the average share price for a reasonable period before and after the date the terms of the acquisition are agreed to and announced. Effective July 1, 2001, goodwill acquired in business combinations completed after June 30, 2001 was not amortized and is subject to impairment testing. Intangible assets that meet specific criteria are recognized and reported apart from goodwill.

**3. Acquisition of subsidiaries:**

- (a) Effective October 1, 2001, the Company acquired 100% of the outstanding shares of Commodore Conference Planners Inc. (Commodore), a conference and event marketing company. Under the terms of the acquisition, the initial purchase price consisted of \$611,113 in cash consideration excluding acquisition costs. Of this cash consideration, \$50,000 is included in accounts payable at September 30, 2002 and will be paid upon the receipt of income taxes recoverable as provided in the purchase agreement. Additional consideration, to a maximum of \$475,000 cash, may be paid over a two-year period if certain performance milestones are achieved for the 12-month periods ending September 30, 2002 and 2003. For the twelve months ended September 30, 2002, an earn-out payment of \$193,000 is owing and is included in accounts payable. As additional milestones are met, the amounts will be accounted for as additional goodwill.

The acquisition of Commodore has been accounted for using the purchase method of accounting. The fair value of the net assets acquired at October 1, 2001 and consideration accounted for to date was as follows:

Capital assets	\$ 11,160
Non-compete agreement	72,590
Non-cash working capital	(517,544)
	<hr/>
Net liabilities	(433,794)
Consideration, less cash acquired of \$919,200, October 1, 2001	(171,187)

	<hr/>
Excess of purchase price over fair value of net assets acquired allocated to goodwill	\$ 455,607
	<hr/>

The amount assigned to the non-compete agreement is amortized over the term of the agreement. As a result of the adoption of new accounting standards for business combinations, the goodwill arising in connection with this acquisition is not amortized (note 2(i)(ii)).

**3. Acquisition of subsidiaries (continued):**

- (b) Effective January 1, 2001, the Company acquired 100% of the outstanding shares of International Design Group, a Toronto-based international retail planning and design firm. Under the terms of the acquisition, the initial purchase price, which consisted of \$1,090,000 in cash consideration and 61,728 common shares of the Company with a fair value of \$284,332, was paid upon closing. Additional consideration may be paid over a three-year period if certain performance milestones are achieved for the 12-month periods ending December 31. The earn-out amounts earned will be satisfied by a maximum of \$2,000,000 in cash and a maximum of 154,321 common shares of the Company. No amounts were owing by the Company in 2002 under the earn-out agreements. The acquisition has been accounted for using the purchase method of accounting.

The fair value of the net assets acquired was \$1,198,684, excluding cash acquired of \$214,179. The net assets acquired consisted of working capital and capital assets. The resulting excess purchase price over the fair value of the net assets acquired of \$336,382 was allocated to goodwill and is being amortized over 25 years.

- (c) Effective July 1, 2000, the Company acquired 100% of the outstanding shares of Gilchrist Brothers Limited ( Gilchrist ), a United Kingdom-based digital imaging and design firm, in exchange for cash consideration of \$3,235,798 (£1,460,000) and a \$5,325,215 (£2,402,750) non-interest bearing promissory note, repayable in semi-annual instalments over the next two years to June 30, 2002. The present value of the promissory note of \$5,067,763 (£2,261,486), together with the initial cash consideration, represent the total purchase price. At September 30, 2002, \$295,615 (£118,749) (2001 - \$2,689,781 (£1,156,200)) is included in long-term debt (note 10). The acquisition has been accounted for using the purchase method of accounting and the resulting goodwill is being amortized over 20 years.

- (d) Effective June 1, 2000, the Company, acquired 100% of the outstanding shares of Sage Information Consultants Inc. ( Sage ), a digital professional service firm operating in the United States and Canada, in exchange for cash consideration of \$6,750,000 and the issuance of 503,145 common shares of the Company with a fair value of \$4,000,000.

In June 2001, the Company determined that additional consideration was payable based on Sage s operating results for the 12 months ended May 31, 2001 and agreed to amend the terms of the purchase agreement with respect to the payment of the earn-out for this period. Under the amended terms, the Company agreed to pay \$1,392,154 in cash consideration, rather than the issuance of cash and shares under the original terms. The excess of the cash consideration payable over the fair value of the cash and shares otherwise issuable amounted to \$362,485 and is required to be expensed under generally accepted accounting principles. As a result, only \$1,029,669 of the amount payable has been recorded as additional goodwill.

In March 2002, a settlement of the Company s obligations under the earn-out agreements was reached and a final payment of \$225,000 in cash and 150,000 common shares with a value of \$213,000 was made by the Company.

The acquisition has been accounted for using the purchase method of accounting and the resulting goodwill is being amortized over 10 years.

- (e) Effective October 1, 1998, the Company acquired 100% of the outstanding shares of Hampel Stefanides, Inc. (Hampel Stefanides), a full-service advertising and commercial design agency operating in the United States, in exchange for initial cash consideration of \$5,587,349 (U.S. \$3,649,000) and the issuance of 581,395 common shares with a fair value of \$2,296,800 (U.S. \$1,500,000). In September 1999, the Company recorded additional consideration of \$4,134,002. The consideration was paid on November 4, 1999 by way of a cash payment of \$1,703,802 and the issuance of 450,040 common shares of the Company with a fair value of \$2,430,200. During fiscal 2000, additional cash consideration of \$554,788 (U.S. \$375,000) was paid. Additional cash consideration of \$375,875 (U.S. \$250,000) is included in accounts payable and accrued liabilities as at September 30, 2001 and has been included as part of total consideration.

In September 2000, the Company determined that additional consideration was owing, in the form of cash and shares of the Company, based on Hampel Stefanides' operating results for the year ended September 30, 2000 and such amount has been recorded as at September 30, 2000. The aggregate consideration of \$5,348,600 was paid on November 1, 2000 by way of a cash payment of \$1,724,776, which is included in accounts payable and accrued liabilities, and the issuance of 444,641 common shares of the Company with a fair value of \$3,623,824, which were included in share capital as at September 30, 2000.

**3. Acquisition of subsidiaries (continued):**

In December 2001, the Company determined that additional consideration was owing in the form of cash and shares, based on Hampel Stefanides' operating results for the year ended September 30, 2001 and such amount has been recorded as at September 30, 2001. The aggregate consideration of \$2,909,150 consists of cash consideration of \$1,900,929, which is included in accounts payable and accrued liabilities, and the issuance of 466,769 common shares of the Company with a fair value of \$1,008,221, which were included in share capital as at September 30, 2001 as shares to be issued (note 12(a)). Subsequent to September 30, 2001, 34,626 common shares related to the 2001 earn-out were not issued. Correspondingly, the share capital of the Company has been reduced by \$34,626.

The Company has no remaining obligations under the earn-out agreement in connection with Hampel Stefanides.

The acquisition has been accounted for using the purchase method of accounting and the resulting goodwill is being amortized over 25 years. The fair value of the net liabilities acquired on October 1, 1998 and consideration accounted for to date was as follows:

The Company performed an assessment of the carrying values of goodwill recorded in connection with its various businesses. The assessment was performed because a number of factors indicated that an impairment had arisen commencing in the period ending March 31, 2002. The main indicators of impairment were significant negative industry and economic trends impacting both current operating results and expected future growth rates and loss of significant clients. Based on these factors, the Company concluded that significant permanent impairment existed with respect to the Company's goodwill and other assets, which primarily related to the goodwill associated with the businesses of Sage, Promanad and Hampel Stefanides.

**8. Goodwill (continued):**

In quantifying the impairment charge, the Company compared the expected future cash flows of each acquisition, to the respective carrying value of the assets of the business, including assigned goodwill. The cash flow periods used ranged between 5 and 25 years, consistent with the remaining goodwill amortization period.

As a result of the review, the Company determined that the carrying values of certain acquired businesses were not fully recoverable. Accordingly, the Company recorded two write-downs: \$28,426,266 in the second quarter of 2002 and \$9,508,445 in the fourth quarter of 2002 based on the amount by which the goodwill exceeded the expected future cash flows of the respective operation.

**10. Bank credit facility and other debt (continued):**

- (a) During the year, the Company was in violation of certain provisions under its bank credit facility. As at September 30, 2002, the Company has entered into a Forebearance Agreement with the lenders under its bank credit facility, under which the Company is required to maintain certain financial tests. Under the Forebearance Agreement, unless there are further violations or defaults by the Company, the lenders have agreed not to enforce their rights or remedies under security agreements. The lenders still have the right to demand repayment of the borrowings at any time. The terms of the Forebearance Agreement require the Company to make a principal repayment of \$2,000,000 in December 2002 and \$1,000,000 in each of January, February and March 2003, with the balance due on April 30, 2003.

As permitted under the Forebearance Agreement, and subsequent amendments, the Company has letters of credit available to be issued in the amount of £250,000 and U.S. \$500,000. The letters of credit expire on April 30, 2003.

Interest rates on the facility are variable based on certain leverage ratios and, at September 30, 2002, the effective interest rate was 8.50% (2001 4.25%). The facility is secured by a general security agreement guarantee against the Company and all of its subsidiaries.

Of the outstanding borrowings, \$3,178,691 (U.S. \$2,002,704) is denominated in U.S. dollars.

- (b) During the third quarter, the Company negotiated new repayment terms for a promissory note originally due on June 30, 2002 in respect of the Gilchrist acquisition (note 3(c)) (the Gilchrist note). Under the revised terms, the Gilchrist note is to be repaid in five monthly instalments commencing July 1, 2002 with interest on the principal balance charged at 8% per annum.

The debentures are convertible until the maturity date into 2,500,000 units of the Company at a conversion price of \$0.72 per unit. Each unit consists of one common share in the capital of the Company and one purchase warrant of the Company. Each purchase warrant entitles the holder to purchase one common share (2.5 million common shares in aggregate) within the earlier of (a) 12 months of the date of conversion of the debenture, and (b) the maturity date at a price of \$0.90 per common share. Holders also have the right to require the Company to purchase all or a portion of their debentures on or after April 29, 2004 at the issue price plus accrued and unpaid interest. In addition, upon a change in control occurring on or before April 29, 2004, the Company will be required to offer to purchase the debentures at a purchase price equal to 101% of the issue price plus accrued and unpaid interest to the repurchase date. The debentures are secured by a charge over the Company's assets and undertakings, which charge will be subject only to security interests in favour of the Company's bankers, equipment leases and non-consensual liens. The net proceeds from the sale of the debentures were used for general corporate purposes.

The debentures are bifurcated into a debt component, representing a yield to maturity of 25.4% per annum over the five-year life, and an equity component with proceeds allocated as \$1,017,770 to long-term debt and \$782,230 to shareholders' equity. That portion of offering expenses related to the debt component, being \$60,587 has been recorded as deferred financing fees which are classified in prepaid expenses, and the remaining \$46,565 applied to reduce the equity component.

**11. Convertible debentures (continued):**

The principal amount of the debentures will increase as interest is compounded using an effective interest rate method over two years, being the earliest date at which they are redeemable at the option of the holder.

On September 12, 2002, the Company issued \$2,000,000 in 10% convertible debentures which mature on September 12, 2007. The debentures are convertible until the maturity date into 5,882,353 units of the Company at a conversion price of \$0.34 per unit. Each unit consists of one common share in the capital of the Company and one purchase warrant of the Company. Each purchase warrant entitles the holder to purchase one common share (5.9 million common shares in aggregate) within the earlier of (a) twelve months of the date of conversion of the debenture, and (b) the maturity date at a price of \$0.34 per common share. Holders also have the right to require the Company to purchase all or a portion of their debentures on or after September 12, 2004 at the issue price plus accrued and unpaid interest. In addition, upon a change in control occurring on or before September 12, 2004, the Company will be required to offer to purchase the debentures at a purchase price equal to 101% of the issue price plus accrued and unpaid interest to the repurchase date. The debentures are secured by a charge over the Company's assets and undertakings, which charge will be subject only to security interests in favour of the Company's bankers, equipment leases and non-consensual liens. The net proceeds from the sale of the debentures were used for general corporate purposes.

The debentures are bifurcated into a debt component, representing a yield to maturity of 31.5% per annum over the five-year life, and an equity component with proceeds allocated as \$931,858 to long-term debt and \$1,068,142 to shareholders' equity. That portion of the offering expenses related to the debt component, being \$72,365, has been recorded as deferred financing fees which are classified in prepaid expenses, and the remaining \$82,948 applied to reduce the equity component.

The principal amount of the debentures will increase as interest is compounded using an effective interest rate method over two years, being the earliest date at which they are redeemable at the option of the holder.

As at September 30, 2002, the aggregate debt component carrying values of all of the Company's convertible debentures is \$2,083,498. Principal repayments, based on scheduled maturity dates, is \$3,800,000 in 2007. However, this date may be accelerated to 2004, at the option of the holders of the debentures.

(c) Repurchase of shares:

During 2002, pursuant to a normal course issuer bid, the Company repurchased and cancelled 299,400 common shares at an average price of \$2.10 per common share for total cash consideration of \$628,083. As a result of these purchases, \$146,706 was recorded in retained earnings as a gain on redemption.

During 2001, pursuant to a normal course issuer bid, the Company repurchased and cancelled 535,000 common shares at an average price of \$2.42 per common share for total consideration of \$1,295,475. As a result of these repurchases, \$95,205 was recorded as a gain on redemption of shares in retained earnings. Under the terms of the normal course issuer bid, the Company may repurchase and cancel up to 10% of the public float to July 26, 2002.

(d) Stock option plan:

The Company has reserved 4,000,000 common shares under its stock option plan. Under the plan, the options are exercisable for one common share and the exercise price of the option must equal the market price of the underlying share at the grant date. Options granted after November 1997 have vesting periods ranging from date of grant and up to five years. Options granted prior to November 1997 vested upon grant. Once vested, options are exercisable at any time until expiry. Expiry dates range between 2002 and 2007.

In 2002, the Company obtained approval to re-price options. All employees, excluding insiders and U.S. employees, were given the opportunity to cancel their existing stock options with an exercise price greater than \$6 per share and replace them with new stock options. Options were cancelled on January 31, 2002 and new options to acquire 50% of the number of options cancelled were granted on August 2, 2002 at an exercise price of \$3.05.

**14. Unusual items:**

During 2002, as a result of changes in the banking loan arrangements, the Company was no longer allowed to fully utilize its line of credit and, accordingly, the remaining unamortized portion of deferred financing charges totalling \$750,648 were written off.

During 2001, the Company announced that it was terminating its discussions in connection with the proposed acquisition of Leagas Delaney. Generally accepted accounting principles require that the \$1,917,334 of costs incurred in connection with the proposed acquisition and the related equity financing be expensed in full as of the date of abandonment. Costs include legal, accounting, consulting and other out-of-pocket expenses incurred in the negotiation and preparation of legal documents and preparation of long-form prospectus materials prepared in connection with the abandoned acquisition.

**15. Restructuring costs:**

In response to a general economic downturn impacting the Company's business, management implemented a restructuring plan during the first half of this fiscal year in order to bring costs more in line with expected revenues. The restructuring involved downsizing its workforce, exiting excess office space and writing off redundant fixed assets. Accordingly, the Company has recorded a restructuring expense of \$10,857,534. The restructuring includes a reduction of staff, as well as the abandonment of leased office space in New York City. As part of the settlement with the landlord, the Company issued 250,000 common shares with a cost of \$52,500.

Total restructuring costs accrued at September 30, 2002 are classified as:

Accounts payable and accrued liabilities	\$ 1,702,345
Long-term portion of restructuring costs	792,275
	<u>2,494,620</u>
	<u>\$ 2,494,620</u>

**16. Commitments and contingencies:**

- (a) The Company has entered into operating lease agreements for office premises and equipment with minimum annual lease payments over the next five years as follows:

2003	\$ 4,402,963
2004	4,036,683
2005	3,840,998

- (b) The Company has letters of credit outstanding of Cdn. \$150,000, U.S. \$500,000 and £250,000 all of which expire on April 30, 2003.
- (c) The shares held by the minority shareholders of John Street Inc., representing a 30% interest, are mandatorily redeemable by the Company at September 30, 2004 for cash consideration and as such represents a financial liability of the Company. No amount has been accrued in the financial statements as the purchase price will be determined and paid over a three-year period based on certain performance milestones.
- (d) In the ordinary course of business, the Company and its subsidiaries have legal proceedings brought against them. Management does not expect the outcome of these proceedings, in aggregate, to have a material adverse effect on the Company's consolidated financial position or results of operations.

**17. Financial instruments:**

The estimated fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than a forced or liquidation sale. These estimates, although based on the relevant market information about the financial instrument, are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

(a) The carrying values and estimated fair values of the Company's financial instruments are as follows:

- (i) The carrying amounts of cash, restricted cash, accounts receivable, accounts payable and accrued liabilities and promissory note approximate their fair values due to the short-term nature of these instruments.
- (ii) The fair value of the Company's bank credit facility approximates its carrying value as it bears an interest rate that is at the current market rate.
- (iii) The fair values of the Company's long-term obligations and convertible debentures are estimated using discounted cash flow analysis which is based on the Company's current incremental borrowing rates for similar types of borrowing arrangements. The carrying values of the capital leases and convertible debentures are not significantly different from their fair values.

As at September 30, 2002, the carrying value of the loans payable to landlords was \$900,959 (2001 \$1,083,323) and their fair value was \$671,000 (2001 \$1,083,323).

**17. Financial instruments (continued):**

(iv) The fair value of foreign currency contracts are estimated by obtaining quotes of the amount that the Company would have to pay counterparties to terminate agreements. As at September 30, 2001, the carrying amounts of the contracts were (\$104,218) and their fair values were (\$189,224). The Company had no such contracts as at September 30, 2002.

(b) Risk management activities:

(i) Currency risk:

The Company is subject to currency risk through its activities in the United States and the United Kingdom. Unfavourable changes in the exchange rate may affect the operating results of the Company. The Company does not actively use derivative instruments to reduce its exposure to foreign currency risk. However, dependent on the nature, amount and timing of foreign currency receipts and payments, the Company may enter into foreign currency contracts to mitigate the associated risks. As at September 30, 2002, there were no foreign currency contracts outstanding.

At September 30, 2002, the Company had U.S. \$2,002,704 (Cdn. \$3,178,691) outstanding on the U.S. portion of the bank credit facility. Prior to June 30, 2002, the U.S. dollar borrowings were designated as a hedge against the Company's investment in its U.S. operations, managing exposure to foreign currency risk. Commencing July 1, 2002, the Company no longer hedged Watt's U.S. dollar receivables with foreign currency contracts and thus, the Company's U.S. dollar borrowings are now a hedge of such receivables.

The Company's promissory note payable issued in connection with its acquisition of Gilchrist (note 3(c)) serves as a hedge against the Company's investment in its U.K. operations, managing exposure to foreign currency risk.

**17. Financial instruments (continued):**

## (ii) Credit risk:

The Company manages its credit risk with respect to accounts receivable by acting as an agent for its customers, by dealing primarily with large creditworthy customers and by billing whenever possible in advance of rendering services. As at September 30, 2002, the Company has one customer, which represents 11% of accounts receivable (2001 – one customer which represents 18% of accounts receivable).

The Company is exposed to credit risk in the event of non-performance by counterparties in connection with its foreign currency contracts. The Company does not obtain collateral or other security to support financial instruments subject to credit risk but mitigates this risk by dealing with financially sound counterparties only and, accordingly, does not anticipate loss for non-performance.

**18. Segmented information:**

The Company provides integrated marketing communication services to its clients. While the Company has subsidiaries in Canada, the United States, the United Kingdom and Continental Europe, it operates as an international business and has no distinct reportable business segments.

The tables below set out the following information:

Years ended September 30, 2002, 2001 and 2000

**19. Subsequent events:**

- (a) In October and November 2002, the Company sold the operations of Devlin and Sage to certain executives of the respective subsidiaries in exchange for cash proceeds of approximately \$330,000. In addition to the cash payment on the sale of Sage, the Company is entitled to a fee on sales to certain former customers of Sage.
- (b) In December 2002, the Company established a \$500,000 line of credit with a new lender and borrowed the full amount of the facility. The loan is repayable on June 30, 2003 and bears interest at a rate of 15% per annum. The net proceeds of the loan were used for purposes of providing working capital. The loan is secured by a general security agreement against the assets of the Company subordinated to the borrowings under the existing bank credit facilities, capital leases and the convertible debentures.

**20. Reconciliation to United States generally accepted accounting principles:**

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles ( GAAP ) as applied in Canada. Set out below are the material adjustments to net earnings (loss) for the years ended September 30, 2002, 2001 and 2000 required in order to conform to U.S. GAAP.

**20. Reconciliation to United States generally accepted accounting principles (continued):**

The following adjustments are required in order to conform shareholders' equity based on Canadian GAAP to shareholders' equity based on U.S. GAAP:

	<u>2002</u>	<u>2001</u>
	<b>(Restated - note 20(1))</b>	
Shareholders' equity based on Canadian GAAP	\$9,779,169	\$61,319,385
Foreign currency contracts, net of income tax recovery of \$35,703 (d)		(49,303)
Convertible debentures (e)	(578,603)	
Shareholders' equity based on U.S. GAAP	<u>\$9,200,566</u>	<u>\$61,270,082</u>

Summary of accounting policy differences:

The areas of material difference between Canadian and U.S. GAAP and their impact on the consolidated financial statements of the Company are set out below:

## (a) Stock-based compensation expense:

U.S. GAAP requires the Company to record compensation expense when modifications are made which extend the lives of options. During the year ended September 30, 2001, the Company extended the life of an individual's option award and has therefore recorded the intrinsic value of the option at the date of the extension as compensation expense.

## (b) Business combinations:

U.S. GAAP requires the disclosure of the unaudited pro forma U.S. GAAP consolidated results of operations for the year ended September 30, 2000 giving effect to the acquisition of Gilchrist as if it had occurred as of October 1, 1999 which are as follows:

Net revenue	\$68,242,235
Net earnings	2,602,527
Basic net earnings per share	0.14
Diluted net earnings per share	0.13

**Table of Contents****ENVOY COMMUNICATIONS GROUP INC.**

Notes to Consolidated Financial Statements (continued)

**20. Reconciliation to United States generally accepted accounting principles (continued):**

U.S. GAAP requires the disclosure of the unaudited pro forma U.S. GAAP consolidated results of operations for the year ended September 30, 2000 giving effect to the acquisition of Sage as if it had occurred as of October 1, 1999 which are as follows:

Net revenue	\$ 63,102,395
Net earnings	950,950
Basic net earnings per share	0.05
Diluted net earnings per share	0.05

## (c) Stock-based compensation disclosures:

The Company measures compensation expense relating to employee stock option plans for U.S. GAAP purposes using the intrinsic value method specified by APB Opinion No. 25, which in the Company's circumstances would not be materially different from compensation expense as determined under Canadian GAAP, except as disclosed in note 20(a).

Had the Company determined compensation costs based on the fair value at the grant date of its stock options consistent with the method prescribed under Financial Accounting Standards Board ( FASB ) Statement of Financial Accounting Standards No. 123 ( SFAS 123 ), the Company's net earnings (loss) and earnings (loss) per share would have been reported as the pro forma amounts indicated below:

	<u>2002</u>	<u>2001</u>	<u>2000</u>
	<b>(Restated - note 20(1))</b>		
Net earnings (loss) in accordance with U.S. GAAP as reported	\$ (53,376,232)	\$ (3,830,675)	\$ 2,910,427
Pro forma net earnings (loss)	(54,353,655)	(4,719,780)	1,853,385
Pro forma basic earnings (loss) per share	\$ (2.59)	\$ (0.22)	\$ 0.10
Pro forma diluted earnings (loss) per share	(2.59)	(0.22)	0.09

Notes to Consolidated Financial Statements (continued)  
(Expressed in Canadian dollars)

Years ended September 30, 2002, 2001 and 2000

**20. Reconciliation to United States generally accepted accounting principles (continued):**

Pro forma net earnings (loss) reflect only those options granted during the seven years ended September 30, 2002. Therefore, the full impact of calculating compensation costs for stock options under SFAS 123 is not reflected in the pro forma net earnings amounts presented above because compensation cost is reflected over the expected lives of the options and the compensation cost for options granted prior to October 1, 1995 is not considered. The notional compensation expense associated with the Company's options is not deductible for Canadian income tax purposes. Accordingly, the full amount of compensation expense is reflected in the pro forma figures above, without any related tax recovery.

The weighted average estimated fair value at the date of the grant, as defined by SFAS 123, for options granted in fiscal 2002 was \$0.16 per share (2001 - \$2.39; 2000 -\$3.07).

The fair value of each option granted was estimated on the date of the grant using the Black-Scholes fair value option pricing model with the following assumptions:

	<u>2002</u>	<u>2001</u>	<u>2000</u>
Risk-free interest rate	4.00%	4.70%	4.70%
Dividend yield			
Volatility factor of the future expected market price of the Company's common shares	76%	65%	60%
Weighted average expected life of the options	1.36 years	2.33 years	2.56 years

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected price volatility. Because the Company's employee share options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee share options.

For the purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting period on a straight-line basis.

(d) Derivative financial instruments:

The Company enters into forward contracts to manage its exposure to fluctuations in foreign exchange rates. Effective October 1, 2000, the Company adopted the provisions of FASB Statement No. 133, Accounting For Derivatives and Hedging Activities. SFAS No. 133 requires that all derivatives be recognized as assets and liabilities on the balance sheet and measured at fair value. Hedge accounting is only applied to derivatives if the hedging relationship has been identified, and the Company has formally documented the designation of the hedging relationship and the method for assessing the effectiveness of the hedging relationship. Both at inception of the hedging relationship and throughout its term, the relationship must be effective in achieving offsetting changes in the cash flows of the hedged item.

Under SFAS No. 133 for derivatives designated and effective as hedges of future cash flows, changes in the fair value of the derivative are recognized in other comprehensive income, with no impact on net earnings until the hedged item is recognized in earnings. To the extent the hedge is ineffective, or not designated or documented as a hedge, the change in fair value of the hedge would be recognized in earnings each period. During 2001, the Company had not designated and documented its foreign exchange contracts as a hedge of future cash flows and, therefore, must record the change in fair value as a charge against earnings.

Under Canadian GAAP, no accounting recognition is given to the fair value of those forward contracts which are a hedge of future cash flows. As at September 30, 2001, the fair value of foreign exchange forward contracts, which were otherwise designated as a hedge of future cash flows for Canadian GAAP, totalled (\$85,006). This amount represents an additional liability under U.S. GAAP, and this amount net of the related tax recovery is recorded as a charge to U.S. GAAP net earnings.

As at September 30, 2002, there were no foreign currency contracts outstanding.

(e) Convertible debentures:

During 2002, the Company issued \$3.8 million in convertible debentures. The debentures are convertible at any time at the option of the holder into common shares and common share purchase warrants of the Company (note 11). Under Canadian GAAP, the debentures are bifurcated into a debt component and an equity component, based on relative fair values, which resulted in aggregate proceeds of \$1,949,628 allocated to long-term debt and \$1,850,372 to shareholders' equity, respectively for the aggregate \$3.8 million debentures. Under Canadian GAAP, the discount resulting from allocating proceeds to the equity component must be recorded as an additional interest expense, using an effective yield method, over the minimum period to redemption being two years. As a result of accreting the debentures, \$133,870 has been charged as interest expense for 2002. Under Canadian GAAP, issue costs are allocated between the debt and equity components which resulted in \$129,513 of the aggregate \$262,465 issue costs being applied to reduce the equity allocation.

Under U.S. GAAP, any excess of the fair value of the shares over the proceeds allocated to the common share portion of the conversion price is considered a beneficial conversion feature. For the two debentures issued during 2002, an aggregate beneficial conversion feature of \$1,188,356 must be recorded as interest expense over the minimum period to the earliest redemption date. Although the debentures have a five-year life, the holder has the option to demand repayment at the second anniversary date, therefore such amount must be expensed over the two-year term. Accordingly, \$168,541 is recorded as interest expense under U.S. GAAP. Under U.S. GAAP, costs associated with issuance of the debentures cannot be apportioned between the debt and equity components. Accordingly, deferred financing fees under U.S. GAAP would be \$129,513 higher, for which \$11,429 would be amortized in the current period.

## (f) Comprehensive income:

The Company's comprehensive income represents U.S. GAAP net earnings plus the change in the cumulative translation adjustment account in respect of foreign operations as follows:

	2002	2001	2000
	(Restated - note 20(1))		
Net earnings (loss) for the year in accordance with U.S. GAAP	\$(53,376,232)	\$(3,830,675)	\$2,910,427
Change in cumulative translation adjustment account	515,569	1,147,208	180,516
	<u>\$(52,860,663)</u>	<u>\$(2,683,467)</u>	<u>\$3,090,943</u>

## (g) Reduction of capital:

In 1997, the share capital of the Company was reduced by \$9,886,961 pursuant to a special resolution of its shareholders and was applied against the deficit. This reduction in capital is not permitted under U.S. GAAP. While the adjustment has no impact on shareholders' equity, under U.S. GAAP, capital stock would be increased by \$9,886,961 and retained earnings would be decreased by \$9,886,961 as at September 30, 2002 and 2001.

## (h) Statements of cash flows:

The Company has disclosed cash flows from operations per share, which is not permitted under U.S. GAAP.

## (i) Other disclosures:

U.S. GAAP and the United States Securities and Exchange Commission require the Company to disclose the following items, for which disclosure is not required under Canadian GAAP:

- (i) The allowance for doubtful accounts as at September 30, 2002 was \$226,037 (2001 - \$1,432,668).

**Table of Contents**

**20. Reconciliation to United States generally accepted accounting principles (continued):**

- (ii) As at September 30, 2002, the Company had a nil (2001 - \$32,158,672) unused line of credit.
- (iii) U.S. GAAP requires the disclosure of accrued liabilities. Accrued liabilities included in accounts payable and accrued liabilities as at September 30, 2002 were \$4,779,517 (2001 - \$6,330,821). As at September 30, 2002, Envoy had accrued \$1,122,745 for the termination of certain leased premises of Hampel Stefanides. At September 30, 2001, accrued liabilities include \$2,263,266 related to additional consideration for the acquisition of Hampel Stefanides (note 3(e)).

At September 30, 2002, there were no other accrued liabilities that exceeded 5% of current liabilities.

- (iv) The Company has disclosed both net earnings before goodwill amortization and net earnings per share before goodwill amortization, which are not permitted disclosures under U.S. GAAP.
- (j) Restructuring charges:  
  
Under U.S. GAAP restructuring charges would be included as operating expenses in the consolidated statement of operations.
- (k) Recent accounting pronouncements:
  - (i) In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets. This statement supersedes SFAS No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of and related literature and establishes a single accounting model, based on the framework established in SFAS No. 121, for long-lived assets to be disposed of by sale. The Company is required to adopt SFAS No. 144 for its fiscal year beginning October 1, 2002. The Company has not determined the impact of the adoption of SFAS No. 144 on its consolidated financial statements.

**20. Reconciliation to United States generally accepted accounting principles (continued):**

- (ii) In September 2001, the CICA issued Handbook Sections 1581, Business Combinations and 3062, Goodwill and Other Intangible Assets. The new standards mandate the purchase method of accounting for business combinations and require that goodwill no longer be amortized but instead be tested for impairment at least annually. The standards also specify criteria that intangible assets must meet to be recognized and reported apart from goodwill. The standards require that the value of the shares issued in a business combination be measured using the average share price for a reasonable period before and after the date the terms of the acquisition are agreed to and announced. Previously, the consummation date was used to value the shares issued in a business combination. The new standards are substantially consistent with United States GAAP.

Under the new standards for Business Combinations, effective July 1, 2001, goodwill acquired in business combinations completed after June 30, 2001 is not amortized. In addition, the criteria for recognition of intangible assets apart from goodwill and the valuation of the shares issued in a business combination must be applied to business combinations completed after June 30, 2001.

The Company is required to adopt the new standards for goodwill and other intangible assets effective October 1, 2002, at which time, the Company will discontinue amortization of all existing goodwill and test for impairment in accordance with the new standards.

In connection with transitional goodwill impairment evaluation, as specified in the new standard, the Company is required to assess whether goodwill is impaired as of October 1, 2002. The Company has up to six months to determine the fair value of its reporting units and compare that to the reporting units' carrying amounts. To the extent a reporting unit's carrying amount exceeds its fair value, the Company must perform a second step to measure the amount of impairment in a manner similar to a purchase price allocation. This second step is to be completed no later than September 30, 2003. Any transitional impairment will be recognized as an effect of a change in accounting principle which under Canadian GAAP, is recorded as a charge to opening retained earnings as of October 1, 2002.

**20. Reconciliation to United States generally accepted accounting principles (continued):**

As of September 30, 2002, the Company had unamortized goodwill of \$11,421,498, other than \$455,607, resulting from an acquisition during 2002 which is not being amortized and is subject to the transitional provisions of Sections 1581 and 3062. Amortization expense related to goodwill was \$2,211,509 for 2002. Because of the extensive effort required to comply with the remaining provisions of Sections 1581 and 3062, the Company has not estimated the impact of these provisions on its financial statements, beyond discontinuing goodwill amortization.

- (iii) In August 2001, the FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. This statement addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and for the associated asset retirement costs. SFAS No. 143 is effective for the Company's fiscal year beginning October 1, 2002. The Company does not believe that the adoption of SFAS No. 143 will have a material impact on its consolidated financial statements.
- (iv) Effective October 1, 2002, the Company will adopt the new Canadian accounting standard for stock-based compensation and other stock-based payments. The new standards will require additional disclosures for options granted to employees and that a compensation cost be recorded for the fair value of options granted to non-employees and awards to employees that call for settlement in cash or other assets, including stock appreciation rights. The new standards for non-employees will be similar in many respects to SFAS No. 123. The Company does not believe that the adoption of these standards will have a material impact on its consolidated financial statements.
- (v) Effective October 1, 2003, the Company will be required to adopt the new Canadian Accounting Guideline, *Hedging Relationships*, that establishes standards for the documentation and effectiveness of hedging relationships that are substantially similar to the corresponding requirements in SFAS No. 133. The Company does not believe that the adoption of these standards will have a material impact on its consolidated financial statements.

- (vi) In December 2002, the CICA issued Handbook Section 3063, Impairment of Long-Lived Assets, and revised Section 3475, Disposal of Long-Lived Assets and Discontinued Operations. These new rules supersede the write-down and disposal provisions of CICA Handbook Section 3061, Property, Plant and Equipment, as well as current Handbook Section 3475, Discontinued Operations. The new standards are based on SFAS 144. Under revised Handbook Section 3475, new standards are established for the recognition, measurement, presentation and disclosure of the disposal of long-lived assets as well as for the presentation and disclosure of discontinued operations. New Handbook Section 3063 establishes standards for the recognition, measurement and disclosure of the impairment of long-lived assets held for use. Under the new standards, an impairment loss is recognized when the carrying amount of an asset held for use exceeds the sum of the undiscounted cash flows expected from its use and eventual disposition. An impairment loss is measured as the amount by which the asset's carrying amount exceeds its fair value.

The new accounting recommendations contained in Handbook Section 3063 on the impairment of long-lived assets held for use should be applied for years beginning on or after April 1, 2003. The revised accounting recommendations contained in Handbook Section 3475 on disposal of long-lived assets and discontinued operations should be applied to disposal activities initiated by a company's commitment to a plan on or after May 1, 2003. The Company has not determined the impact of the adoption of these standards on its consolidated financial statements.

## (l) Restatement:

Shareholders' equity and net loss for the year based on U.S. GAAP as at, and for the year ended September 30, 2002 differ from the amounts previously reported as the Company previously expensed the beneficial conversion associated with its convertible debentures, as described in note 20(e), totalling \$1,188,356, immediately. However, this amount should have been amortized over the two-year term of the debentures which would reduce the charge in 2002 to \$168,541, resulting in a decrease to net loss for the year based on U.S. GAAP of \$1,019,815. The effect of this restatement to basic and diluted loss per share for the year ended September 30, 2002 was as follows:

U.S. GAAP basic loss per share:	
As previously reported	\$(2.59)
Restated	(2.54)
U.S. GAAP diluted loss per share:	
As previously reported	\$(2.59)
