DIANA SHIPPING INC. REPORTS FINANCIAL RESULTS
FOR THE FOURTH QUARTER AND YEAR ENDED DECEMBER 31, 2018

ATHENS, GREECE, February 26, 2019 – Diana Shipping Inc. (NYSE: DSX), (the “Company”), a global shipping company specializing in the ownership of dry bulk vessels, today reported net income of \$2.9 million and net income attributed to common stockholders of \$1.5 million for the fourth quarter of 2018, compared to a net loss of \$436.9 million and a net loss attributed to common stockholders of \$438.4 million, including a \$422.5 million impairment loss, reported in the fourth quarter of 2017.

Time charter revenues were \$62.9 million for the fourth quarter of 2018, compared to \$48.9 million for the same quarter of 2017. The increase in time charter revenues was due to increased average time charter rates that the Company achieved for its vessels during the quarter and was partly offset by decreased ownership days resulting from the sale of two vessels in December 2018.

Net income and net income attributed to common stockholders for the year ended December 31, 2018 amounted to \$16.6 million and \$10.8 million, respectively. This compares to a net loss and net loss attributed to common stockholders of \$511.7 million and \$517.5 million, respectively, including a \$422.5 million impairment loss, for the same period of 2017. Time charter revenues were \$226.2 million for the year ended December 31, 2018, compared to \$161.9 million for the same period of 2017.

Time charter equivalent rates, or TCE rates, are defined as our time charter revenues less voyage expenses during a period divided by the number of our available days during the period, which is consistent with industry standards.

Voyage expenses include port charges, bunker (fuel) expenses, canal charges and commissions. TCE is a (1) non-GAAP measure. TCE rate is a standard shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charter hire rates for vessels on voyage charters are generally not expressed in per day amounts while charter hire rates for vessels on time charters are generally expressed in such amounts.

Daily vessel operating expenses, which include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance, the costs of spares and consumable stores, tonnage taxes and other (2) miscellaneous expenses, are calculated by dividing vessel operating expenses by ownership days for the relevant period.

The words "believe," "anticipate," "intends," "estimate," "forecast," "project," "plan," "potential," "may," "should," "expect," "pending" and similar identify forward-looking statements.

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, Company management's examination of historical operating trends, data contained in the Company's records and other data available from third parties. Although the Company believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies that are difficult or impossible to predict and are beyond the Company's control, the Company cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in the Company's view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, changes in demand for dry bulk shipping capacity, changes in the Company's operating expenses, including bunker prices, drydocking and insurance costs, the market for the Company's vessels, availability of financing and refinancing, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to

accidents or political events, vessel breakdowns and instances of off-hires and other factors. Please see the Company's filings with the U.S. Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties. The Company undertakes no obligation to revise or update any forward-looking statement, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise.
