## Section 8 - Other Events

### Item 8.01 Other Events

On January 12, 2012, PPL Corporation's indirect wholly owned subsidiary, Western Power Distribution (South West) plc ("WPD"), entered into a £245 million five-year revolving credit facility with the lenders party thereto and Lloyds TSB Bank Plc and Mizuho Corporate Bank, Ltd. as Joint Coordinators (the "Credit Facility").

Borrowings under the Credit Facility bear interest at a percentage rate per annum which is equal to the sum of (a) the applicable margin plus (b) the LIBOR rate, plus (c) any mandatory cost. The applicable margin varies from 75 basis points to 125 basis points based upon the long-term credit rating of WPD as determined by Standard & Poor's Ratings Services and Moody's Investors Service.

The Credit Facility is voluntarily prepayable from time to time without premium or penalty, and is mandatorily prepayable upon certain events, including upon a change of control.

In addition, the Credit Facility is subject to certain financial covenants, which require the borrower to ensure that (i) its total net debt does not exceed 85% of its regulatory asset base, and (ii) its consolidated EBITDA to interest payable is no less than 3.0 to 1.0, in each case as calculated pursuant to the Credit Facility. The Credit Facility will replace WPD's existing £210 million three-year revolving credit facility due to expire in July 2012. WPD intends to use borrowings under the Credit Facility for general corporate purposes.

The Credit Facility also contains customary representations, covenants and events of default. Failure to meet the covenants beyond applicable grace periods and certain other events could result in acceleration of the loans and/or termination of the Credit Facility.

The foregoing summary of the Credit Facility does not purport to be complete and is subject to, and qualified in its entirety by, the full text of the Credit Facility, which is filed as Exhibit 10.1 hereto and incorporated herein by reference.
