Abstentions and broker non-votes will be considered as present at the meeting in determining the presence of a quorum, but will not be counted for or against proposals to be acted on by the Stockholders. An automated system administered by Continental Stock Transfer & Trust Company, the Company's transfer agent, is used to tabulate the votes.

This Proxy Statement and the enclosed proxy card are being sent to Stockholders beginning on October 9, 2002. The Company will also supply brokers or other persons holding stock in their names or in the names of their nominees with such number of proxy cards and proxy materials as they may require for mailing to beneficial owners, and will reimburse them for their reasonable expenses incurred in connection therewith. Proposal No. 1

ELECTION OF DIRECTORS

General Information

The Company's By-Laws provide that the number of Directors, as determined from time to time by the Board of Directors, shall not be less than one or more than nine. The By-Laws further provide that the Board of Directors be divided into three classes (Class I, Class II and Class III) serving staggered three-year terms, with each class to be as nearly equal in number as possible. The Company's By-laws were amended in 2001 to reduce the number of classes from three to two and to reduce the term of each class from three years to two years. The Board has determined to reinstitute the three classes, three-year term structure and has amended the Company's By-laws accordingly. In accordance with this strategy, at the 2003 Annual Meeting the stockholders will elect Class II and Class III directors.

The Board of Directors has nominated Russell C. Chambers, M.D. and James E. Rouse for election as Class I Directors for three-year terms expiring at the 2005 Annual Meeting and until successors are duly elected and qualified. Dr. Chambers is presently a Director of the Company and his term expires at the 2002 Annual Meeting. Mr. Rouse is currently the President and Chief Operating Officer of the Company and has not previously served as a Director of the Company.

The Board of Directors has inquired of the nominees and has ascertained that they will serve, if elected. In the event that either of the nominees should become unavailable for election (which is unexpected), the Board of Directors may designate a substitute nominee, in which event the shares represented by the proxy card will be voted for such substitute nominee unless an instruction to the contrary is indicated on the proxy card. In lieu thereof, the Board of Directors may reduce the number of Directors in accordance with the By-Laws of the Company.

The affirmative vote of the holders of a majority of the shares of Common Stock present (whether in person or by proxy) and entitled to vote is required for the election of Dr. Chambers and Mr. Rouse.

The Board of Directors recommends a vote FOR the election of Dr. Chambers and Mr. Rouse as Class I Directors of the Company.

REPORT OF THE COMPENSATION COMMITTEE

The following report of the Compensation Committee (the "Committee"), as well as the Performance Graph set forth herein, are not soliciting materials, are not deemed filed with the Securities and Exchange Commission (the "SEC") and are not incorporated by reference in any filing of the Company under the Securities Act of 1933, as amended (the "Securities Act"), or the Securities Exchange Act of 1934, as amended (the "Exchange Act"), whether made before or after the date of this Proxy Statement and irrespective of any general incorporation language in any such filing.

The Compensation Committee is responsible for establishing and reviewing the Company's executive compensation policies, advising the full Board of Directors on all compensation matters and administering the Company's Stock Option Plan. The Committee in 2001 was comprised of Russell C. Chambers and Paul F. Walter. All decisions of the Committee relating to compensation of the President and Executive Officer are reviewed and approved by the other non-employee Directors.

Compensation Policy

The Company's executive compensation policies are designed to foster the Company's business goals of achieving profitable growth and premium returns to Stockholders. The principal objectives of these policies are as follows: (1) to attract, motivate and retain executives of outstanding ability and character; (2) to provide rewards that are closely related to the performance of the Company and the individual executive by placing a portion of compensation at risk; and (3) to align the interests of executives and Stockholders through long-term, equity-based incentives and programs to encourage and reward stock ownership.

This report discusses the manner in which base salaries, short-term incentive compensation and long-term, equity-based incentives for the Company's President and Executive Officer were determined for the 2001 fiscal year.

Executive Compensation

The key components of executive compensation are base salary, short-term incentive compensation and long-term, equity-based incentives. Base salaries are generally targeted to be competitive with the salaries paid at other companies of similar size and complexity within and outside the medical device manufacturing industries.

Base Salary

Salary level targets are established so that the Company can attract and retain the most qualified employees. In determining an executive officer's salary, the Compensation Committee considers, but does not assign specific weights to, the following factors: internal factors involving the executive's level of responsibility, experience, individual performance, and equity issues relating to pay for other Company executives, as well as external factors involving competitive positioning, overall corporate performance, and general economic conditions. No specific formula is applied to determine the weight of each factor.

Incentive Compensation Program

The Company maintains an incentive compensation program for substantially all officers and executives designed to reward such individuals for their contributions to corporate and individual objectives. In the past, the programs have provided additional compensation based on performance and profits of those operations for which the various executives have responsibility.

Long-Term Incentive Compensation

The Company also grants stock options and other equity incentives under the Stock Option Plans in order to link compensation to the Company's long-term growth and performance and to increases in Stockholder value. The Committee has broad discretion to establish the terms of such grants to eligible employees of the Company and its subsidiaries. It grants awards to designated employees upon commencement of employment or following a significant change in an employee's responsibility or title. Awards are based on guidelines relating to the employee's position in the Company that are set by the Committee, as well as the employee's current performance and anticipated future contributions. The Committee also considers the amount and terms of stock options previously granted to each of the employees. The Committee individually evaluates these factors with respect to each executive and then the Committee reaches a consensus on the appropriate award. During fiscal year 2001, the Committee recommended the grant of stock options under the 2001 Stock Option Plan, exercisable for 30,000 shares, to each of Mr. Rouse and Mr. Campbell.

Compensation of President and Chief Executive Officer

James E. Rouse was named President of the Company in October 2001. Pursuant to the terms of his employment agreement, his annual rate of compensation in 2001 was \$100,000. In addition, Mr. Rouse was granted a stock option for the purchase of 30,000 shares of the Company's common stock. In making this grant, the Committee took into consideration the Company's established practice of awarding stock options to newly elected officers in order to provide them with stake in the Company, as well as the other factors described above under Long Term Incentive Compensation.

This report on executive compensation is made by and on behalf of the Company's Compensation Committee.
