CERTIFIED SHAREHOLDER REPORT OF REGISTERED MANAGEMENT INVESTMENT COMPANIES

Investment Company Act file number: (811-05498)

Putnam Master Intermediate Income Exact name of registrant as specified in charter: Trust

Address of principal executive offices: One Post Office Square, Boston, Massachusetts 02109

Name and address of agent for service:

Beth S. Mazor, Vice President One Post Office Square Boston, Massachusetts 02109

Copy to:

John W. Gerstmayr, Esq. Ropes & Gray LLP One International Place Boston, Massachusetts 02110

Registrant stelephone number, including area code: (617) 292-1000

Date of fiscal year end: September 30, 2009

Date of reporting period: October 1, 2008 - September 30, 2009

Item 1. Report to Stockholders:

The following is a copy of the report transmitted to stockholders pursuant to Rule 30e-1 under the Investment Company Act of 1940:

A BALANCED APPROACH

Since 1937, when George Putnam created a diverse mix of stocks and bonds in a single, professionally managed portfolio, Putnam has championed the balanced approach.

A WORLD OF INVESTING

Today, we offer investors a world of equity, fixed-income, multi-asset, and absolute-return portfolios to suit a range of financial goals.

A COMMITMENT TO EXCELLENCE

Our portfolio managers seek superior results over time, backed by original, fundamental research on a global scale. We believe in the value of experienced financial advice, in providing exemplary service, and in putting clients first in all we do.

Message from the Trustees

Dear Fellow Shareholder:

The nearly 60% advance in the S&P 500 Index from March through September ranks as the most concentrated period of growth in the stock market since just after the Great Depression. Aggressive stimulus efforts by governments worldwide appear to have saved the financial system from collapse and helped foster this historic market rebound.

Investors, however, should prepare for the possibility of this rapid ascent leveling off in coming quarters. The U.S. economy is improving, but headwinds remain. High public and private debt levels, as well as consumer spending held back by high unemployment and still-low housing prices, may result in a slower economic rebound.

We are pleased to report that many Putnam mutual funds have delivered significantly better results over the past year. This reflects the intense efforts of an investment team infused with new talent, new leadership, and a determination to excel. Leading that team is industry veteran Walter C. Donovan, who joined Putnam in April of this year and oversees an investment organization strengthened by the arrival of several senior portfolio managers, research analysts, and traders.

In another development, after several years of steady leadership, Charles E. [Ed] Haldeman, Jr. has stepped down as President of the Putnam Funds and as a member of the Board of Trustees of the Funds. Effective July 2009, Robert L. Reynolds, President and Chief Executive Officer of Putnam Investments and a Trustee of the Putnam Funds, replaced Mr. Haldeman as President of the Putnam Funds.

We would like to take this opportunity to welcome new shareholders to the fund and to thank all our investors for your continued confidence in Putnam.

Respectfully yours,

About the fund

Seeking broad diversification across bond markets

When Putnam Master Intermediate Income Trust was launched in 1988, its three-pronged focus on U.S. investment-grade bonds, high-yield corporate bonds, and non-U.S. bonds was considered innovative. Lower-rated, higher-yielding corporate bonds were relatively new, having just been established in the late 1970s. Additionally, at the time of the fund s launch, few investors were venturing outside the United States for fixed-income opportunities.

The bond investment landscape has undergone a transformation in the two decades since. New sectors like mortgage- and asset-backed securities now make up a sizable portion of the U.S. investment-grade market. The high-yield corporate bond sector has also grown significantly. Outside the United States, the popularity of the euro has resulted in a large market of European government bonds. There are also growing opportunities to invest in the debt of emerging-market countries.

The fund s investment perspective has been broadened to keep pace with the market expansion over time. To respond to the market s increasing complexity, Putnam s fixed-income group aligns teams of specialists with varied investment opportunities. Each team identifies compelling strategies within its area of expertise. The fund s

managers select from among these strategies, striving to systematically build a diversified portfolio that carefully balances risk and return.

We believe the fund s multi-strategy approach is well suited to the expanding opportunities of today s global bond marketplace. As different factors drive the performance of the various fixed-income sectors, the fund s diversified strategy seeks to take advantage of changing market leadership in pursuit of high current income and relative stability of net asset value.

Consider these risks before investing: International investing involves certain risks, such as currency fluctuations, economic instability, and political developments. Additional risks may be associated with emerging-market securities, including illiquidity and volatility. Lower-rated bonds may offer higher yields in return for more risk. Funds that invest in government securities are not guaranteed. Mortgage-backed securities are subject to prepayment risk. Funds that invest in bonds are subject to certain risks, including interest-rate risk, credit risk, and inflation risk. As interest rates rise, the prices of bonds fall. Long-term bonds are more exposed to interest-rate risk than short-term bonds. Unlike bonds, bond funds have ongoing fees and expenses. The use of derivatives involves special risks and may result in losses. The fund shares trade on a stock exchange at market prices, which may be lower than the fund networks.

How do closed-end funds differ from open-end funds?

More assets at work While open-end funds need to maintain a cash position to meet redemptions, closed-end funds are not subject to redemptions and can keep more of their assets invested in the market.

Traded like stocks Closed-end fund shares are traded on stock exchanges, and their market prices fluctuate in response to supply and demand, among other factors.

Net asset value vs. market price Like an open-end fund s net asset value (NAV) per share, the NAV of a closed-end fund share is equal to the current value of the fund sasets, minus its liabilities, divided by the number of shares outstanding. However, when buying or selling closed-end fund shares, the price you pay or receive is the market price. Market price reflects current market supply and demand and may be higher or lower than the NAV.

Putnam Master Intermediate Income Trust

Putnam believes that building a diversified portfolio with multiple income-generating strategies is the best way to pursue your fund sobjectives. The fund sportfolio is composed of a broad spectrum of government, credit, and securitized debt instruments.

Weightings are shown as a percentage of the fund is total investment portfolio. Allocations and holdings in each sector will vary over time. For more information on current fund holdings, see pages 16[47.

Performance and portfolio snapshots

2

Average annual total return (%) comparison as of 9/30/09

Data is historical. Past performance does not guarantee future results. More recent returns may be less or more than those shown. Investment return and net asset value will fluctuate, and you may have a gain or a loss when you sell your shares. Performance assumes reinvestment of distributions and does not account for taxes. Fund

returns in the bar chart are at NAV. See pages 5 and 8 for additional performance information, including fund returns at market price. Index and Lipper results should be compared to fund performance at NAV. Lipper calculates performance differently than the closed-end funds it ranks, due to varying methods for determining a fund_s monthly reinvestment NAV.

Liquidity has improved substantially throughout

the credit markets.

D. William Kohli, Portfolio Manager, Putnam Master Intermediate Income Trust

Credit qualities are shown as a percentage of portfolio value as of 9/30/09. A bond rated Baa or higher (Prime-3 or higher, for short-term debt) is considered investment grade. The chart reflects Moody[]s ratings; percentages may include bonds not rated by Moody[]s but considered by Putnam Management to be of comparable quality. Ratings will vary over time.

4

Interview with your fund s portfolio manager

D. William Kohli

Bill, how did Master Intermediate Income Trust perform during its most recent annual period?

The fund posted a solid return and displayed strong performance for the past six months, overcoming the market turmoil of 2008. For the 12-month period ended September 30, 2009, the fund returned 13.32% at net asset value, versus a return of 11.46% for the more narrowly focused Barclays Capital Government/Credit Bond Index and a 13.39% return for the fund s Lipper peer group. For the past six months ended September 30, the fund posted a 44.70% return.

A year ago, the credit markets were in turmoil. What factors turned the markets around from their low point in late 2008?

During the financial crisis last year, yield []spreads,[] or differences in yield between credit instruments and safe-haven Treasuries, widened dramatically, as prices of many credit instruments plummeted.

Following a wave of bad news concerning the U.S. housing market, the collapse of Bear Stearns, and the Lehman Brothers bankruptcy in 2008, the credit markets essentially seized up for a time, reducing credit access for businesses and individuals. This wave of events plunged the United States and all major European countries into severe recession.

In response, the U.S. government took a number of actions to ease the crisis and restore global credit flows: The Fed [the Federal Reserve Board] lowered short-term rates in an effort to restart the economy. The Fed and U.S.

Treasury also created a number of credit facilities designed to generate lending. In February, Congress approved a large stimulus package, and other federal initiatives, such as TALF [Term Asset-Backed Securities Loan Facility] and PPIP [Public-Private Investment Program] as well as the [cash for clunkers] automobile program, have worked to increase liquidity in credit markets and boost consumer spending to jumpstart the economy. The U.S. economy has begun to show signs of a turnaround, but unemployment continues to hover around 10%, and analysts have expressed concern over how the economy will fare once the government]s massive interventions are removed.

What has been your portfolio strategy over the past 12 months?

Over the past year [] and particularly in 2009 [] the fund has responded extremely well as we engaged in a wide variety

Broad market index and fund performance

This comparison shows your fund s performance in the context of broad market indexes for the 12 months ended 9/30/09. See the previous page and page 8 for additional fund performance information. Index descriptions can be found on page 9.

5

of strategies while looking forward to a gradual turnaround in fixed-income markets. Because strategies among major central banks around the world on how best to deal with the downturn have diverged somewhat over the past 12 months, the fund has strongly benefited from our decision regarding the term structure of interest rates, or the overall level of rates and/or the shape of the yield curve. Government policy intervention, net borrowing levels, quantitative easing, and artificially low central bank rates have opened up significant opportunities in term structure strategies, an area that has been relatively dormant for years.

IN THE NEWS

It is an interest rate for the record books. The Federal Reserve Board, which is responsible for implementing U.S. monetary policy, sets short-term interest rates through changes to the federal funds rate, the interest rate at which banks loan funds to other banks, usually on an overnight basis. Since December 2008, the federal funds rate has been resting at an all-time low of near 0% as the government works to restore liquidity to the credit market. The federal funds rate began at 1.13% in 1954 and hit a high of 22.36% in 1981. The Federal Reserve Bank of New York began experimenting in October with reverse repurchase agreements, which would, in effect, raise rates, but stressed that []no inference should be drawn about the timing of monetary policy tightening.[]

The fund also profited from our prior decision to position the portfolio for yield-curve steepening [] a strategy based on our view that the yield curve will in fact continue to steepen, with longer-term yields rising as central banks keep short-term rates low and concern grows over government budget deficits and longer-term inflation.

We also have an ongoing strategy of focusing on high-quality credit instruments that we believe carry minimal fundamental credit risk. Over the past two years, we have identified compelling opportunities among what we believed were severely undervalued securitized debt. These included commercial and residential mortgage-backed securities and collateralized mortgage obligations markets [] particularly interest-only securities. While interest-only securities are highly sensitive to non-credit-related risks, including the risk of prepayment, we believed these risks were more than offset by the potential opportunities. At various points during the past two years, we have purchased large amounts of these securities, and these purchases have contributed substantially to performance.

Master Intermediate Income Trust has the mandate to invest both in the United States and around the world, and across a broad spectrum of fixed-income securities, including Treasuries, as well as in securitized, investment-grade, and high-yield bonds. This ability to target the global bond marketplace

6

benefited the fund during the period. For example, the fund semerging-market investments in countries such as Argentina, Brazil, and Russia have contributed to returns as those countries have bounced back strongly from the severe downturn.

With the rapid swings in the market over the past year, what have you done to dampen volatility and risk in the portfolio?

In terms of portfolio positioning, we have increased exposure to collateralized mortgage obligations, which are benefiting from slow prepayment rates. In addition, we are holding more short-dated residential mortgage-backed securities, whose prices are more depressed than can be justified by mortgage market fundamentals, including foreclosure rates. In general, we have reduced risk by shortening duration, or interest-rate exposure, and diversifying exposures across much of the portfolio.

With the intent of decreasing the fund s price volatility, we have also reduced the overall level of commercial mortgage assets in the fund, shifting to short-duration commercial and residential mortgages. In the residential mortgage area, we have emphasized hybrid adjustable-rate mortgages. These are securities that combine features of both fixed-rate and adjustable-rate mortgages. We have also acquired Alt-A considered riskier than securities backed by prime mortgages but higher quality than securities backed by subprime mortgages at what we feel are very depressed prices.

What is your outlook?

We believe that the U.S. economy is recovery from this severe recession will be muted, with economic progress curtailed by U.S. debt levels, lingering high unemployment rates, and weak housing prices. In contrast, the credit markets have rebounded from the depths of the crisis. For most credit issues, prices remain appealing, even if we factor in worst-case assumptions regarding mortgage defaults and the pace of economic recovery. Although bank lending remains weak, the markets for securitized debt such as commercial mortgage-backed securities have stabilized. Moreover, liquidity has improved substantially throughout the credit markets.

In early October, Master Intermediate Income Trust increased its monthly dividend payment. What factors drove the increase?

After the close of the period, on October 8, 2009, the Trustees of the Putnam Funds approved an \$0.008 increase in the dividend of Master Intermediate Income Trust, from \$0.045 to \$0.053. This represents an 18% increase in the fund s dividend and will boost the fund s yield at NAV to roughly 10.55% (based on the October 8 NAV of \$6.03 per share). The increase will be reflected in the next dividend, which has a record date of October 15 and a payable date of October 21. The committee approved raising the dividend because the fund significantly over-earned its distribution rate due to increased yield from asset-backed and commercial mortgage-backed securities.

Putnam is currently estimating Master Intermediate Income Trust will pay an extra taxable income distribution of between 30 and 40 cents per share in December 2009 in addition to the dividend increase.

Thank you, Bill, for your time and insights.

Portfolio Manager **D. William Kohli** is Team Leader of Portfolio Construction at Putnam. He has an M.B.A. from the Haas School of Business at the University of California, Berkeley, and a B.A. from the University of California, San Diego. Bill joined Putnam in 1994 and has been in the investment industry since 1987.

In addition to Bill, your fund s portfolio managers are Michael Atkin, Rob Bloemker, Kevin Murphy, and Paul Scanlon.

This chart shows how the fund s top weightings have changed over the past six months. Weightings are shown as a percentage of net assets. Holdings will vary over time.

7

Your fund s performance

This section shows your fund s performance for periods ended September 30, 2009, the end of its most recent fiscal year. Performance should always be considered in light of a fund s investment strategy. Data represents past performance. Past performance does not guarantee future results. More recent returns may be less or more than those shown. Investment return, net asset value, and market price will fluctuate, and you may have a gain or a loss when you sell your shares.

Fund performance Total return for periods ended 9/30/09

| | NAV | Market price |
|------------------------------|-------|--------------|
| Annual average | 7.03% | 6.71% |
| Life of fund (since 4/29/88) | | |
| 10 years | 74.43 | 106.84 |
| Annual average | 5.72 | 7.54 |
| 5 years | 20.75 | 29.01 |

| Annual average | 3.84 | 5.23 |
|---------------------------|--------------|---------------|
| 3 years Annual average | 7.73 2.51 | 25.07 7.74 |
| 1 year | 13.32 | 24.66 |

Performance assumes reinvestment of distributions and does not account for taxes.

Comparative index returns For periods ended 9/30/09

| | Barclays Capital Government/Credit Bond Index | Citigroup Non-U.S. World Government Bond Index | JPMorgan Global High Yield Index | Lipper Flexible Income Funds (closed-end) category average* |
|-------------------------------|---|---|-------------------------------------|---|
| Annual average (life of fund) | 7.41% | 7.08% | | 6.79% |
| 10 years | 84.60 | 90.52 | 90.43% | 63.56 |
| Annual average | 6.32 | 6.66 | 6.65 | 4.99 |
| 5 years | 27.13 | 40.64 | 35.01 | 22.89 |
| Annual average | 4.92 | 7.06 | 6.19 | 4.20 |
| 3 years | 19.94 | 33.65 | 17.47 | 11.42 |
| Annual average | 6.25 | 10.15 | 5.51 | 3.65 |
| 1 year | 11.46 | 16.07 | 20.35 | 13.39 |

Index and Lipper results should be compared to fund performance at net asset value. Lipper calculates performance differently than the closed-end funds it ranks, due to varying methods for determining a fund s monthly reinvestment NAV.

* Over the 1-year, 3-year, 5-year, 10-year, and life-of-fund periods ended 9/30/09, there were 5, 5, 5, 4, and 2 funds, respectively, in this Lipper category.

□ The inception date of the JPMorgan Global High Yield Index was 12/31/93.

Fund price and distribution information For the 12-month period ended 9/30/09

8

Terms and definitions

Important terms

Total return shows how the value of the fund s shares changed over time, assuming you held the shares through the entire period and reinvested all distributions in the fund.

Net asset value (NAV) is the value of all your fund sassets, minus any liabilities, divided by the number of outstanding shares.

Market price is the current trading price of one share of the fund. Market prices are set by transactions between buyers and sellers on exchanges such as the New York Stock Exchange.

Current yield is the annual rate of return earned from dividends or interest of an investment. Current yield is expressed as a percentage of the price of a security, fund share, or principal investment.

Comparative indexes

Barclays Capital Aggregate Bond Index is an unmanaged index of U.S. investment-grade fixed-income securities.

Barclays Capital Government/Credit Bond Index is an unmanaged index of U.S. Treasuries, agency securities, and investment-grade corporate bonds.

BoA Merrill Lynch U.S. 3-Month Treasury Bill Index is an unmanaged index that seeks to measure the performance of U.S. Treasury bills available in the marketplace.

Citigroup Non-U.S. World Government Bond Index is an unmanaged index generally considered to be representative of the world bond market excluding the United States.

JPMorgan Global High Yield Index is an unmanaged index of global high-yield fixed-income securities.

S&P 500 Index is an unmanaged index of common stock performance.

Indexes assume reinvestment of all distributions and do not account for fees. Securities and performance of a fund and an index will differ. You cannot invest directly in an index.

Lipper is a third-party industry-ranking entity that ranks mutual funds. Its rankings do not reflect sales charges. Lipper rankings are based on total return at net asset value relative to other funds that have similar current investment styles or objectives as determined by Lipper. Lipper may change a fund scategory assignment at its discretion. Lipper category averages reflect performance trends for funds within a category.

9

Trustee approval of management contract

General conclusions

The Board of Trustees of the Putnam funds oversees the management of each fund and, as required by law, determines annually whether to approve the continuance of your fund s management contract with Putnam Investment Management ([Putnam Management]) and the sub-management contract, with respect to your fund, between Putnam Management and its affiliate, Putnam Investments Limited ([PIL]).

In this regard, the Board of Trustees, with the assistance of its Contract Committee consisting solely of Trustees who are not [interested persons] (as such term is defined in the Investment Company Act of 1940, as amended) of the Putnam funds (the [Independent Trustees]), requests and evaluates all information it deems reasonably necessary under the circumstances. Over the course of several months ending in June 2009, the Contract Committee met several times to consider the information provided by Putnam Management and other information developed with the assistance of the Board]s independent counsel and independent staff. The Contract Committee reviewed and discussed key aspects of this information with all of the Independent Trustees. At the Trustees[] June 12, 2009 meeting, the Contract Committee recommended, and the Independent Trustees approved, the continuance of your fund]s management and sub-management contracts, effective July 1, 2009. (Because PIL is an affiliate of Putnam Management and Putnam Management remains fully responsible for all services provided by PIL, the Trustees have not evaluated PIL as a separate entity, and all subsequent references to Putnam Management below should be deemed to include reference to PIL as necessary or appropriate in the context.)

The Independent Trustees[] approval was based on the following conclusions:

That the fee schedule in effect for your fund represented reasonable compensation in light of the nature and quality of the services being provided to the fund, the fees paid by competitive funds and the costs incurred by Putnam Management in providing such services, and

That such fee schedule represented an appropriate sharing between fund shareholders and Putnam Management of such economies of scale as may exist in the management of the fund at current asset levels.

These conclusions were based on a comprehensive consideration of all information provided to the Trustees and were not the result of any single factor. Some of the factors that figured particularly in the Trustees deliberations and how the Trustees considered these factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors. It is also important to recognize that the fee arrangements for your fund and the other Putnam funds are the result of many years of review and discussion between the Independent Trustees and Putnam Management, that certain aspects of the arrangements may receive greater scrutiny in some years than others, and that the Trustees conclusions may be based, in part, on their consideration of these same arrangements in prior years.

Management fee schedules and categories; total expenses

The Trustees reviewed the management fee schedules in effect for all Putnam funds, including fee levels and breakpoints, and the assignment of funds to particular fee categories. The general fee structure has been carefully developed over the years and re-examined on many occasions and adjusted where appropriate. In this regard, the Trustees noted that shareholders of all funds voted by overwhelming majorities in 2007 to approve new management contracts containing identical fee schedules.

In reviewing fees and expenses, the Trustees generally focused their attention on material changes in circumstances [] for example, changes in a fund[]s size or investment style, changes in Putnam Management[]s operating costs, or changes in competitive practices in the mutual fund industry [] that suggest that consideration of fee changes might be warranted. The Trustees concluded that the circumstances did not warrant changes to the management fee structure of your fund. The Trustees focused on two areas of particular interest, as discussed further below:

Competitiveness The Trustees reviewed comparative fee and expense information for competitive funds, which indicated that, in a custom peer group of competitive funds selected by Lipper Inc., your fund ranked in the 67th percentile in management fees and in the 33rd percentile in total expenses as of December 31, 2008 (the first percentile being the least expensive funds and the 100th percentile being the most expensive funds).

The Trustees noted that expense ratios for a number of Putnam funds, which show the percentage of fund assets used to pay for management and administrative services, distribution (12b-1) fees (as applicable) and other expenses, had been increasing recently as a result of declining net assets and the natural operation of fee breakpoints. The Trustees expressed their intention to monitor the funds percentile rankings in management fees and in total expenses to ensure that fees and expenses of the funds continue to meet evolving competitive standards.

Economies of scale. Your fund currently has the benefit of breakpoints in its management fee that provide shareholders with significant economies of scale, which means that the effective management fee rate of the fund (as a percentage of fund assets) declines as the fund grows in size and crosses specified asset thresholds. Conversely, as the fund shrinks in size [] as has been the case for many Putnam funds in recent years [] these breakpoints result in increasing fee levels. In recent years, the Trustees have examined the operation of the existing breakpoint structure during periods of both growth and decline in asset levels. The Trustees concluded that the fee schedule in effect for your fund represented

10

an appropriate sharing of economies of scale at that time.

In connection with their review of the management fees and total expenses of the Putnam funds, the Trustees also reviewed the costs of the services provided and profits realized by Putnam Management and its affiliates from their contractual relationships with the funds. This information included trends in revenues, expenses and profitability of Putnam Management and its affiliates relating to the investment management and distribution services provided to the funds. In this regard, the Trustees also reviewed an analysis of Putnam Management_s revenues, expenses and profitability with respect to the funds. The funds contracts, allocated on a fund-by-fund basis.

Investment performance

The quality of the investment process provided by Putnam Management represented a major factor in the Trustees evaluation of the quality of services provided by Putnam Management under your fund[]s management contract. The Trustees were assisted in their review of the Putnam funds[] investment process and performance by the work of the Investment Oversight Coordinating Committee of the Trustees and the Investment Oversight Committees of the Trustees, which had met on a regular monthly basis with the funds[] portfolio teams throughout the year. The Trustees concluded that Putnam Management generally provides a high-quality investment process [] as measured by the experience and skills of the individuals assigned to the management of fund portfolios, the resources made available to such personnel, and in general the ability of Putnam Management to attract and retain high-quality personnel [] but also recognized that this does not guarantee favorable investment results for every fund in every time period. The Trustees considered the investment performance of each fund over multiple time periods and considered information comparing each fund[]s performance with various benchmarks and with the performance of competitive funds.

The Trustees noted the disappointing investment performance of many of the funds for periods ended March 31, 2009. They discussed with senior management of Putnam Management the factors contributing to such underperformance and the actions being taken to improve performance. The Trustees recognized that, in recent years, Putnam Management has taken steps to strengthen its investment personnel and processes to address areas of underperformance, including Putnam Management[]s continuing efforts to strengthen the equity research function, recent changes in portfolio managers including increased accountability of individual managers rather than teams, recent changes in Putnam Management[]s approach to incentive compensation, including emphasis on top quartile performance over a rolling three-year period, and the recent arrival of a new chief investment officer. The Trustees also recognized the substantial improvement in performance of many funds since the implementation of those changes. The Trustees indicated their intention to continue to monitor performance trends to assess the effectiveness of these efforts and to evaluate whether additional changes to address areas of underperformance are warranted.

In the case of your fund, the Trustees considered that your fund s common share cumulative total return performance at net asset value was in the following percentiles of its Lipper Inc. peer group (Lipper Flexible Income Funds (closed-end)) for the one-year, three-year and five-year periods ended March 31, 2009 (the first percentile being the best-performing funds and the 100th percentile being the worst-performing funds):

| One-year period | 86th |
|-------------------|------|
| Three-year period | 86th |
| Five-year period | 86th |

Over the one-year, three-year and five-year periods ended March 31, 2009, there were 6, 6 and 6 funds, respectively, in your fund s Lipper peer group. Past performance is no guarantee of future results.

The Trustees noted the disappointing performance for certain funds, as well as certain circumstances that may have contributed to that performance and the actions taken by Putnam Management to address these funds[] performance. The Trustees also considered the four broad initiatives that Putnam Management has implemented to improve its investment approach, to reduce the likelihood of fourth quartile results, and to deliver on its long-term investment goals. Specifically, Putnam Management has:

1. Increased accountability and reduced complexity in the portfolio management process for the Putnam equity funds by replacing a team management structure with a decision-making process that vests full authority and responsibility with individual portfolio managers;

2. Clarified Putnam Management is investment process by affirming a fundamental-driven approach to investing, with quantitative analysis providing additional input for investment decisions;

3. Strengthened Putnam Management s large-cap equity research capability by adding multiple new investment personnel to the team and by bringing U.S. and international research under common leadership; and

4. Realigned compensation structure for portfolio managers and research analysts so that only those who achieve top-quartile returns over a rolling three-year basis are eligible for full bonuses.

The Trustees noted the disappointing performance for your fund for the one-year, three-year and five-year periods ended March 31, 2009. The Trustees considered Putnam Management[]s belief that significant volatility and illiquidity in the markets contributed to the fund[]s relative underperformance during these periods. In addition, the Trustees considered Putnam Management[]s decision to implement initiative 4 described above. The Trustees also considered Putnam Management[]s continued belief that the fund[]s investment strategy and process are designed to produce attractive relative performance over longer periods, and noted improvements in the fund[]s recent year-to-date performance as

```
11
```

of March 31, 2009 as the markets began to show signs of stabilizing.

As a general matter, the Trustees believe that cooperative efforts between the Trustees and Putnam Management represent the most effective way to address investment performance problems. The Trustees noted that investors in the Putnam funds have, in effect, placed their trust in the Putnam organization, under the oversight of the funds[] Trustees, to make appropriate decisions regarding the management of the funds. Based on the responsiveness of Putnam Management in the recent past to Trustee concerns about investment performance, the Trustees concluded that it is preferable to seek change within Putnam Management to address performance shortcomings. In the Trustees[] view, the alternative of engaging a new investment adviser for an underperforming fund would entail significant disruptions and would not provide any greater assurance of improved investment performance.

Brokerage and soft-dollar allocations; other benefits

The Trustees considered various potential benefits that Putnam Management may receive in connection with the services it provides under the management contract with your fund. These include benefits related to brokerage and soft-dollar allocations, whereby a portion of the commissions paid by a fund for brokerage may be used to acquire research services that may be useful to Putnam Management in managing the assets of the fund and of other clients. The Trustees considered a change made, at Putnam Management[]s request, to the Putnam funds[] brokerage allocation policy commencing in 2009, which increased the permitted soft dollar allocation to third-party services over what had been authorized in previous years. The Trustees noted that a portion of available soft dollars continue to be allocated to the payment of fund expenses, although the amount allocated for this purpose has declined in recent years. The Trustees indicated their continued intent to monitor regulatory developments in this area with the assistance of their Brokerage Committee and also indicated their continued intent to monitor the potential benefits associated with the allocation of fund brokerage and trends in industry practice to ensure that the principle of seeking best price and execution remains paramount in the portfolio trading process.

The Trustees[] annual review of your fund[]s management contract also included the review of the investor servicing agreement with Putnam Fiduciary Trust Company, which agreement provides benefits to an affiliate of Putnam Management.

Comparison of retail and institutional fee schedules

The information examined by the Trustees as part of their annual contract review has included for many years information regarding fees charged by Putnam Management and its affiliates to institutional clients such as defined benefit pension plans, college endowments, etc. This information included comparisons of such fees with fees charged to the funds, as well as a detailed assessment of the differences in the services provided to these two types of clients. The Trustees observed, in this regard, that the differences in fee rates between institutional clients and mutual funds are by no means uniform when examined by individual asset sectors, suggesting that differences in the pricing of investment management services to these types of clients reflect to a substantial degree historical competitive forces operating in separate market places. The Trustees considered the fact that fee rates across different asset classes are typically higher on average for mutual funds than for institutional clients, as well as the

differences between the services that Putnam Management provides to the Putnam funds and those that it provides to institutional clients of the firm, but did not rely on such comparisons to any significant extent in concluding that the management fees paid by your fund are reasonable.

12

Other information for shareholders

Important notice regarding share repurchase program

In September 2009, the Trustees of your fund approved the renewal of a share repurchase program that had been in effect since 2005. This renewal will allow your fund to repurchase, in the 12 months beginning October 8, 2009, up to 10% of the fund s common shares outstanding as of October 7, 2009.

Putnam_[]s policy on confidentiality

In order to conduct business with our shareholders, we must obtain certain personal information such as account holders addresses, telephone numbers, Social Security numbers, and the names of their financial representatives. We use this information to assign an account number and to help us maintain accurate records of transactions and account balances. It is our policy to protect the confidentiality of your information, whether or not you currently own shares of our funds, and, in particular, not to sell information about you or your accounts to outside marketing firms. We have safeguards in place designed to prevent unauthorized access to our computer systems and procedures to protect personal information from unauthorized use. Under certain circumstances, we share this information with outside vendors who provide services to us, such as mailing and proxy solicitation. In those cases, the service providers enter into confidentiality agreements with us, and we provide only the information necessary to process transactions and perform other services related to your account. We may also share this information with our Putnam affiliates to service your account or provide you with information about other Putnam products or services. It is also our policy to share account information with your financial representative, if you ve listed one on your Putnam account. If you would like clarification about our confidentiality policies or have any questions or concerns, please don the situate to contact us at 1-800-225-1581, Monday through Friday, 8:30 a.m. to 8:00 p.m., or Saturdays from 9:00 a.m. to 5:00 p.m. Eastern Time.

Proxy voting

Putnam is committed to managing our mutual funds in the best interests of our shareholders. The Putnam funds proxy voting guidelines and procedures, as well as information regarding how your fund voted proxies relating to portfolio securities during the 12-month period ended June 30, 2009, are available in the Individual Investors section at putnam.com, and on the SEC[]s Web site, www.sec.gov. If you have questions about finding forms on the SEC[]s Web site, you may call the SEC at 1-800-SEC-0330.

You may also obtain the Putnam funds proxy voting guidelines and procedures at no charge by calling Putnam shareholder Services at 1-800-225-1581.

Fund portfolio holdings

The fund will file a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Shareholders may obtain the fund[]s Forms N-Q on the SEC[]s Web site at www.sec.gov. In addition, the fund[]s Forms N-Q may be reviewed and copied at the SEC[]s Public Reference Room in Washington, D.C. You may call the SEC at 1-800-SEC-0330 for information about the SEC[]s Web site or the operation of the Public Reference Room.

Trustee and employee fund ownership

Putnam employees and members of the Board of Trustees place their faith, confidence, and, most importantly, investment dollars in Putnam mutual funds. As of September 30, 2009, Putnam employees had approximately \$308,000,000 and the Trustees had approximately \$40,000,000 invested in Putnam mutual funds. These amounts

include investments by the Trustees[] and employees[] immediate family members as well as investments through retirement and deferred compensation plans.

13

Financial statements

These sections of the report, as well as the accompanying Notes, preceded by the Report of Independent Registered Public Accounting Firm, constitute the fund s financial statements.

The fund s portfolid ists all the fund s investments and their values as of the last day of the reporting period. Holdings are organized by asset type and industry sector, country, or state to show areas of concentration and diversification.

Statement of assets and liabilities shows how the fund is net assets and share price are determined. All investment and noninvest-ment assets are added together. Any unpaid expenses and other liabilities are subtracted from this total. The result is divided by the number of shares to determine the net asset value per share. (For funds with preferred shares, the amount subtracted from total assets includes the liquidation preference of preferred shares.)

Statement of operations shows the fund s net investment gain or loss. This is done by first adding up all the fund s earnings from dividends and interest income and subtracting its operating expenses to determine net investment income (or loss). Then, any net gain or loss the fund realized on the sales of its holdings as well as any unrealized gains or losses over the period is added to or subtracted from the net investment result to determine the fund s net gain or loss for the fiscal year.

Statement of changes in net assets shows how the fund s net assets were affected by the fund s net investment gain or loss, by distributions to shareholders, and by changes in the number of the fund s shares. It lists distributions and their sources (net investment income or realized capital gains) over the current reporting period and the most recent fiscal year-end. The distributions listed here may not match the sources listed in the Statement of operations because the distributions are determined on a tax basis and may be paid in a different period from the one in which they were earned.

Financial highlights provide an overview of the fund s investment results, per-share distributions, expense ratios, net investment income ratios, and portfolio turnover in one summary table, reflecting the five most recent reporting periods. In a semian-nual report, the highlight table also includes the current reporting period.

14

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders Putnam Master Intermediate Income Trust:

We have audited the accompanying statement of assets and liabilities of Putnam Master Intermediate Income Trust (the [fund]), including the fund]s portfolio, as of September 30, 2009, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the fund[]s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2009 by correspondence with the custodian and brokers or by other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Putnam Master Intermediate Income Trust as of September 30, 2009, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Boston, Massachusetts November 16, 2009

* Percentages indicated are based on net assets of \$383,388,420.

□ Non-income-producing security.

□ The interest rate and date shown parenthetically represent the new interest rate to be paid and the date the fund will begin accruing interest at this rate.

Restricted, excluding 144A securities, as to public resale. The total market value of restricted securities held at September 30, 2009 was \$22,255, or less than 0.1% of net assets.

II Income may be received in cash or additional securities at the discretion of the issuer.

This security, in part or in entirety, was pledged and segregated with the broker to cover margin requirements for futures contracts at September 30, 2009.

These securities, in part or in entirety, were pledged and segregated with the custodian for collateral on certain derivative contracts at September 30, 2009.

[Forward commitments, in part or in entirety (Note 1).

^c Senior loans are exempt from registration under the Securities Act of 1933, as amended, but contain certain restrictions on resale and cannot be sold publicly. These loans pay interest at rates which adjust periodically. The interest rates shown for senior loans are the current interest rates at September 30, 2009. Senior loans are also subject to mandatory and/or optional prepayment which cannot be predicted. As a result, the remaining maturity may be substantially less than the stated maturity shown (Notes 1 and 7).

^e See Note 6 to the financial statements regarding investments in Putnam Money Market Liquidity Fund.

F Is valued at fair value following procedures approved by the Trustees. Securities may be classified as a Level 2 or Level 3 for Accounting Standards Codification ASC 820 Fair Value Measurements and Disclosures ([ASC 820]) disclosures based on the securities valuation inputs.

ⁱ Securities purchased with cash or received, that were pledged to the fund for collateral on certain derivative contracts (Note 1).

R Real Estate Investment Trust.

At September 30, 2009 liquid assets totaling \$177,094,749 have been segregated to cover open forward commitments, swap contracts and futures contracts.

Debt obligations are considered secured unless otherwise indicated.

144A after the name of an issuer represents securities exempt from registration under Rule 144A under the Securities Act of 1933, as amended. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

See Note 1 to the financial statements regarding TBA \Box s.

The rates shown on FRB and FRN are the current interest rates at September 30, 2009.

The dates shown on debt obligations are the original maturity dates.

IFB are securities that pay interest rates that vary inversely to changes in the market interest rates. As interest rates rise, inverse floaters produce less current income. The interest rates shown are the current interest rates at September 30, 2009.
