□ All ratings are by Standard & Poor's Ratings Service, unless otherwise footnoted.

(a) Rating by Moody's Investors Service.

(b) Pre-Refunded bonds are escrowed with government securities and/or U.S. government agency securities and are considered by the manager to be triple-A rated even if issuer has not applied for new ratings.

(c) Income from this issue is considered a preference item for purposes of calculating the alternative minimum tax (AMT).

(d) Variable rate demand obligations have a demand feature under which the fund could tender them back to the issuer on no more than 7 days notice. Date shown is the date of the next interest rate change.

Aggregate cost for federal income tax purposes is substantially the same.

Abbreviations used in this schedule:

- AMBAC - Ambac Assurance Corporation
- DFA - Development Finance Agency
- EDA - Economic Development Authority
- EFA - Educational Facilities Authority
- FGIC - Financial Guaranty Insurance Company
- FSA - Financial Security Assurance
- GO - General Obligation
- HFA - Housing Finance Authority
- IDB - Industrial Development Board
- ISD - Independent School District
- LOC - Letter of Credit
- MBIA - Municipal Bond Investors Assurance Corporation
- PCR - Pollution Control Revenue
- PSFG - Permanent School Fund Guaranty
- TFA - Transitional Finance Authority
- VRDO - Variable Rate Demand Obligation

Bond Ratings

(unaudited)

The definitions of the applicable rating symbols are set forth below:

Standard & Poor's Ratings Service (*Standard & Poor's*) Ratings from [AA] to [CCC] may be modified by the addition of a plus (+) or minus (-) sign to show relative standings within the major rating categories.

- AAA [] Bonds rated [AAA] have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.
- AA [] Bonds rated [AA] have a very strong capacity to pay interest and repay principal and differ from the highest rated issues only in a small degree.
- A [] Bonds rated [A] have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
- BBB [] Bonds rated [BBB] are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for bonds in this category than in higher rated categories.
- BB, B,
CCC,
CC and C [] Bonds rated [BB], [B], [CCC], [CC] and [C] are regarded, on balance, as predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. [BB] represents the lowest degree of speculation and [C] the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.
- D [] Bonds rated [D] are in default and payment of interest and/or repayment of principal is in arrears.

Moody's Investors Service (*Moody's*) Numerical modifiers 1, 2 and 3 may be applied to each generic rating from [Aa] to [Caa], where 1 is the highest and 3 the lowest ranking within its generic category.

- Aaa ☐ Bonds rated [Aaa] are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as [gilt edge]. Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.
- Aa ☐ Bonds rated [Aa] are judged to be of high quality by all standards. Together with the [Aaa] group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in [Aaa] securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in [Aaa] securities.
- A ☐ Bonds rated [A] possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.
- Baa ☐ Bonds rated [Baa] are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
-
- Ba ☐ Bonds rated [Ba] are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate and therefore not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.
- B ☐ Bonds rated [B] are generally lack characteristics of desirable investments. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.
- Caa ☐ Bonds rated [Caa] are of poor standing. These may be in default, or present elements of danger may exist with respect to principal or interest.
- Ca ☐ Bonds rated [Ca] represent obligations which are speculative in a high degree. Such issues are often in default or have other marked short-comings.
- C ☐ Bonds rated [C] are the lowest class of bonds and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.
- NR ☐ Indicates that the bond is not rated by Standard & Poor's or Moody's.

Short-Term Security Ratings

(unaudited)

- SP-1 ☐ Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- A-1 ☐ Standard & Poor's highest commercial paper and variable-rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- VMIG 1 ☐ Moody's highest rating for issues having a demand feature ☐ VRDO.
- P-1 ☐ Moody's highest rating for commercial paper and for VRDO prior to the advent of the VMIG 1 rating.

Notes to Schedule of Investments (unaudited)

1. Organization and Significant Accounting Policies

Edgar Filing: SALOMON BROTHERS MUNICIPAL PARTNERS FUND INC - Form N-Q

The Salomon Brothers Municipal Partners Fund Inc. (the "Fund") was incorporated in Maryland on November 24, 1992 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940 ("1940 Act"), as amended.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles ("GAAP").

(a) Investment Valuation. Securities are valued at the mean between the bid and asked prices provided by an independent pricing service that are based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various relationships between securities. Securities for which market quotations are not readily available or where market quotations are determined not to reflect fair value, will be valued in good faith by or under the direction of the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates value.

(b) Security Transactions. Security Transactions are accounted for on a trade date basis.

2. Investments

At September 30, 2005, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 5,973,926
Gross unrealized depreciation	(440,845)

Net unrealized appreciation	\$ 5,533,081
-----------------------------	--------------

ITEM 2. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934.
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's last fiscal quarter that have materially affected, or are likely to materially affect the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended, are attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly

authorized.
