LETTER TO THE SHAREHOLDERS

February 8, 2002

Dear Shareholder,

After a difficult 2001, signs of an upturn in world economic growth are beginning to emerge. The fourth quarter looks increasingly as the low point in the global economic slowdown. The industrial sector is stabilizing and consumer spending has remained strong. The consumer in Germany has remained remarkably resilient, helped by low interest rates and real income growth. Manufacturing orders rose for the first time in three months in December, led by demand from customers overseas. Furthermore, confidence among executives and consumers has improved. Most importantly, however, corporate earnings have begun to improve, and many companies have surpassed earnings expectations. German companies are expected to register the highest earnings growth (+30.7%) in Europe in 2002, according to IBES. The estimated average earnings growth for 2002 is 16.2% in Europe and 13.5% in the US. An export-driven economy, Germany benefits more than most countries during periods of economic upswings as global demand increases. After recording economic growth of 0.6% in 2001, Deutsche Bank estimates that the German economy will grow 1.0% during 2002.

For the year ended December 31, 2001, the net asset value per share of the New Germany Fund declined 35.7% in US dollar terms while its share price declined 33.9%. The Fund's composite index (60% MDAX and 40% NEMAX 50) declined 33.5% during the same period. The Fund's slight underperformance occurred during the last quarter of the year as technology stocks rallied strongly after underperforming the market during the last two years. Not being fully invested in the NEUER MARKT relative to its 40% benchmark weight reversed the 2.7% outperformance the Fund had at the end of the third quarter. The combination of active additions to NEUER MARKT positions and the rally of existing holdings lifted the Fund's exposure in that market segment from 27% to 38% during the last quarter. We expect the outlook for the NEUER MARKT in 2002 to be much better than this past year. The index trades at a price-to-earnings ratio of 17 times based on 2003 earnings with estimated average earnings growth of 35%. The stocks are thus more attractively valued than the DAX 30 or MDAX peers, resulting in a better risk/reward ratio. In selecting stocks from the NEUER MARKT, we remain focused on companies with strong business models supported by positive free cash-flow generation and visible earnings growth. Based on the attractive valuation and the strong earnings momentum, the Fund plans to

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

increase its position in the NEUER MARKT in 2002.

The New Germany Fund continued its open-market purchases of its shares, buying 1,276,000 shares during the year. The Fund's discount to its net asset value declined to an average of 18.2% during the year, compared with 21.1% for 2000. Sincerely,

/S/ Christian Strenger

INTERVIEW WITH THE CHIEF INVESTMENT OFFICER

QUESTION: Do you still believe international equities offer more potential than U.S. equities, especially in light of the past decade of US outperformance?

ANSWER: While it is true that over the past decade U.S. stocks outperformed most other regions, it is important to consider that many times in the past, investors have drawn similar conclusions and assumed that recent trends would continue forever. During the eighties, while the US equity market was stagnant,

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

Japan was in a decade-long bull market. At the end of 1989, Japan accounted for 51% of global equity market capitalization. Everyone spoke of the decline of US competitiveness and the emergence of the "new" global economic power -- Japan. Today, Japan accounts for just 9% of the global equity market capitalization, while the US accounts for 52% of the total. Investors now talk about the decline of Japan and focus on how no one can compete with the US. The point of this analogy is that most investors always assume that trends will continue, when in fact they rarely do. Another trend that investors assume will continue is the strength of the US dollar, which has been remarkably strong over the past 10 years. However, we do not believe that this trend can continue indefinitely, especially as a strong US dollar renders the US economy less competitive. Based on many valuation models, the euro is significantly undervalued relative to the US dollar, and it has been declining ever since it was introduced three years ago. We believe that market sentiment will change in favor of the euro and a new long-term trend may emerge. At this point, investors who are well diversified in European equities will benefit.

QUESTION: What sectors do you see as the winners and losers in 2002?

ANSWER: From the NEUER MARKT, the Fund has recently increased its overweight position in the machinery and industrial sector, which should gain from an anticipated recovery in the second half of this year. We see Sues Microtech and Singulus Technologies being the main beneficiary from this sector. The Fund plans to overweight the biotechnology sector. Valuations have come down over the past year to attractive levels as investors realized it will take longer than expected for successes in genomic research to translate into positive cash flows for the industry. However, given the increased necessity for developed pharmaceutical companies to license drugs from the biotech sector, we remain positive in the long-term prospects of the sector. From the MDAX segment, we favor the healthcare companies, Altana and Fresenius, and expect them to maintain their double-digit earnings momentum. We have increased our weighting in the consumer and retail sector by initiating a position in Puma. Puma should turn out to be a successful restructuring story, evidenced by strong order-intake and earnings recovery during 2001.

QUESTION: Since you are planning to increase your weight in the NEUER MARKT, what are some of your favorite stocks from this segment?

ANSWER: To give you an idea of the attractiveness of the NEUER MARKT, we will highlight three companies that we have recently increased our position in. Singulus Technologies is the world's leading manufacturer of CD and DVD replication equipment. The company was one of the first players to enter the market for re-writable discs. As the world leader, with more than a 50% market share, the company generates the highest operating margin within the industry and has a solid financial situation. Teleplan is a world leader in IT hardware repair and sales services with an estimated market share of 15%. Its strong client base includes the world's nine largest PC manufacturers that represent 60% of the global PC market. GPC Biotech uses genomics and proteomics research to develop drugs in the fields of oncology, infectious diseases and immunology. In addition, it has a very strong alliance network with established pharmaceutical companies. Having already established co-developing agreements on two drugs, Altana recently acquired a stake in GPC Biotech. Altana's long-term commitment, combined with an evolving product pipeline makes GPC Biotech a very attractive investment.

REPORT FROM THE INVESTMENT ADVISER AND MANAGER

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

OUTLOOK FOR THE GERMAN ECONOMY

Recent economic evidence suggests that the German economy reached its trough during the fourth quarter of last year and that a recovery is taking hold. Economic activity is likely to rebound in 2002 as many of the factors that had been responsible for the slump are reversing. Most notably, the slowdown in the US appears to have reached bottom. Also, the excesses of the late-1990's boom are beginning to dissipate, namely the excessive spending in Information Technology. Higher energy prices that precipitated the slowdown have reversed and fiscal policy has turned stimulative, with tax cuts and spending hikes coming on stream. During 2001 the European Central Bank cut interest rates four times, and the effect of those should begin to be felt this year. Furthermore, the inventory cycle is turning. Efforts by firms to pare inventories added considerably to the economy's weakness, but stockpiles have quickly run down and a pick up in manufacturing is now necessary. This was confirmed this month when figures showed that German industrial orders rose a surprisingly strong 5.0% in December, with both foreign and domestic orders being strong. The increase followed a 0.6% increase in November and indicates that Germany has turned the corner and that an economic recovery is under way. The data fits in with other positive indicators, namely the purchasing manager indices and a survey of German business sentiment which indicated confidence among executives is on the rise. The inflation outlook for Germany is also positive, mainly due to the dramatic fall in energy prices. Today, the price of a barrel of WTI oil is \$19.80 compared to \$30 a year ago. The annual inflation rate could reach a low of 0.8% in mid-2002 with an annual average of 1.3%, compared with 2.5% in 2001.

THE NEW GERMANY FUND, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2001

NOTE 1. ACCOUNTING POLICIES

The New Germany Fund, Inc. (the "Fund") was incorporated in Maryland on January 16, 1990 as a non-diversified, closed-end management investment company. The Fund commenced investment operations on January 30, 1990.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

SECURITY VALUATION: Investments are stated at value. All securities for which market quotations are readily available are valued at the last sales price on the primary exchange on which they are traded prior to the time of valuation. If no sales price is available at that time, and both bid and ask prices are available, the securities are valued at the mean between the last current bid and ask prices; if no quoted asked prices are available, they are valued at the last quoted bid price. All securities for which market quotations are not readily available will be valued as determined in good faith by the Board of Directors of the Fund.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded on the trade date. Cost of securities sold is calculated using the identified cost method. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Such dividend income is recorded net of unrecoverable foreign withholding tax.

FOREIGN CURRENCY TRANSLATION: The books and records of the Fund are maintained in United States dollars.

Assets and liabilities denominated in euros and other foreign currency amounts are translated into United States dollars at the 10:00 A.M. mid-point of the buying and selling spot rates quoted by the Federal Reserve Bank of New York. Purchases and sales of investment securities, income and expenses are reported at the rate of exchange prevailing on the respective dates of such transactions. The resultant gains and losses arising from exchange rate fluctuations are identified separately in the Statement of Operations, except for such amounts attributable to investments which are included in net realized and unrealized gains and losses on investments.

Foreign investments may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among others, the possibility of political and economic developments and the level of governmental supervision and regulation of foreign securities markets.

TAXES: No provision has been made for United States Federal income tax because the Fund intends to meet the requirements of the United States Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to shareholders.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS: The Fund records dividends and distributions to its shareholders on the ex-dividend date. Income and capital gain distributions are determined in accordance with Federal income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences, which could be temporary or permanent in nature, may result in reclassification of distributions; however, net investment income, net realized gains and net assets are not affected.

During the year ended December 31, 2001, the Fund reclassified permanent book and tax differences as follows:

	INCREASE (DECREASE)

Undistributed net investment income	\$ 153,404
Undistributed net realized gain on investments	
and foreign currency transactions	281,043
Paid-in capital	(434,447)

NOTE 2. MANAGEMENT AND INVESTMENT
ADVISORY AGREEMENTS

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

The Fund has a Management Agreement with and related undertaking by (collectively, the "Management Agreement") Deutsche Bank Securities Inc. (the "Manager"), and an Investment Advisory Agreement with Deutsche Asset Management International GmbH (the "Investment Adviser"). The Manager and the Investment Adviser are affiliated companies.

13

THE NEW GERMANY FUND, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2001 (CONTINUED)

The Management Agreement provides the Manager with a fee, computed weekly and payable monthly, at the annual rates of .65% of the Fund's average weekly net assets up to \$100 million, .55% of such assets in excess of \$100 million and up to \$500 million, and .50% of such assets in excess of \$500 million. The Investment Advisory Agreement provides the Investment Adviser with a fee, computed weekly and payable monthly, at the annual rates of .35% of the Fund's average weekly net assets up to \$100 million and .25% of such assets in excess of \$100 million.

Pursuant to the Management Agreement, the Manager is the corporate manager and administrator of the Fund and, subject to the supervision of the Board of Directors and pursuant to recommendations made by the Fund's Investment Adviser, determines the suitable securities for investment by the Fund. The Manager also provides office facilities and certain administrative, clerical and bookkeeping services for the Fund. Pursuant to the Investment Advisory Agreement, the Investment Adviser, in accordance with the Fund's stated investment objectives, policies and restrictions, makes recommendations to the Manager with respect to the Fund's investments and, upon instructions given by the Manager as to suitable securities for investment by the Fund, transmits purchase and sale orders and selects brokers and dealers to execute portfolio transactions on behalf of the Fund.

NOTE 3. TRANSACTIONS WITH AFFILIATES

For the year ended December 31, 2001, Deutsche Bank AG, the German parent of the Manager and Investment Adviser, and its affiliates received \$460,881 in brokerage commissions as a result of executing agency transactions in portfolio securities on behalf of the Fund.

Certain officers of the Fund are also officers of either the Manager or Deutsche Bank AG.

NOTE 4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term investments, for the year ended December 31, 2001, were \$212,441,494 and \$213,003,772, respectively.

The cost of investments at December 31, 2001 was \$223,726,064 for United States Federal income tax purposes. Accordingly, as of December 31, 2001, net unrealized depreciation of investments aggregated \$16,837,532, of which \$35,049,943 and \$51,887,475 related to unrealized appreciation and depreciation, respectively.

During the period November 1, 2001 to December 31, 2001, the Fund incurred capital losses and foreign currency losses of \$19,920,341 and \$203,190, respectively. These losses were deferred for federal income tax purposes to January 1, 2002.

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

For United States Federal income tax purposes, the Fund had a capital loss carry forward at December 31, 2001 of approximately \$111.0 million which will expire in 2009. No capital gains distribution is expected to be paid to shareholders until future net gains have been realized in excess of such carry forward.

NOTE 5. CAPITAL

During the years ended December 31, 2001 and 2000, the Fund purchased 1,276,000 and 2,285,900 of its shares of common stock on the open market at a total cost of \$10,278,616 and \$27,648,857, respectively. The weighted average discount of these purchases comparing the purchase price to the net asset value at the time of purchase was 17.1% and 20.8%, respectively. These shares are held in treasury.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Shareholders of
The New Germany Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The New Germany Fund, Inc. (the "Fund") at December 31, 2001, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2001 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN
(UNAUDITED)

The Fund offers stockholders a Voluntary Cash Purchase Program and Dividend Reinvestment Plan ("Plan") which provides for optional cash purchases and for the automatic reinvestment of dividends and distributions payable by the Fund in additional Fund shares. A more complete description of the Plan is provided in the Plan brochure available from the Fund or from Investors Bank & Trust

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

Company, the plan agent (the "Plan Agent"), Shareholder Services, P.O. Box 1537, Boston, Massachusetts 02205 (telephone 1-800-356-2754). A stockholder should read the Plan brochure carefully before enrolling in the Plan.

Under the Plan, participating stockholders ("Plan Participants") appoint the Plan Agent to receive or invest Fund distributions as described below under "Reinvestment of Fund Shares." In addition, Plan Participants may make optional cash purchases through the Plan Agent as often as once a month as described below under "Voluntary Cash Purchases." There is no charge to Plan Participants for participating in the Fund's Plan, although when shares are purchased under the Plan by the Plan Agent on the New York Stock Exchange or otherwise on the open market, each Plan Participant will pay a pro rata share of brokerage commissions incurred in connection with such purchases, as described below under "Reinvestment of Fund Shares" and "Voluntary Cash Purchases."

REINVESTMENT OF FUND SHARES. Whenever the Fund declares a dividend or capital gains distribution payable either in cash or in Fund shares, or payable only in cash, the Plan Agent automatically receives Fund shares for the account of each Plan Participant except as provided in the following paragraph. The number of shares to be credited to a Plan Participant's account shall be determined by dividing the equivalent dollar amount of the dividend or distribution payable to such Plan participant by the lower of the net asset value per share or the market price per share of the Fund's common stock on the payable date, or if the net asset value per share is less than 95% of the market price per share on such date, then by 95% of the market price per share.

Whenever the Fund declares a dividend or capital gains distribution payable only in cash and the net asset value per share of the Fund's common stock exceeds the market value per share on the payable date, the Plan Agent will apply the amount of such dividend or distribution payable to Plan Participants of the Fund in Fund shares (less such Plan Participant's pro rata share of brokerage commissions incurred with respect to open-market purchases in connection with the reinvestment of such dividend or distribution) to the purchase on the open market of Fund shares for such Plan Participant's account. Such purchases will be made on or after the payable date for such dividend or distribution, and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities laws. The Plan Agent may aggregate a Plan Participant's purchases with the purchases of other Plan Participants, and the average price (including brokerage commissions) of all shares purchased by the Plan Agent shall be the price per share allocable to each Plan Participant.

For all purposes of the Plan, the market price of the Fund's common stock on a payable date shall be the last sales price on the New York Stock Exchange on that date, or, if there is no sale on such Exchange on that date, then the mean between the closing bid and asked quotations for such stock on such Exchange on such date. The net asset value per share of the Fund's common stock on a valuation date shall be as determined by or on behalf of the Fund.

The Plan Agent may hold a Plan Participant's shares acquired pursuant to the Plan, together with the shares of other Plan Participants acquired pursuant to this Plan, in non-certificated form in the name of the Plan Agent or that of a nominee. The Plan Agent will forward to each Plan Participant any proxy solicitation material and will vote any shares so held for a Plan Participant only in accordance with the proxy returned by a Plan Participant to the Fund. Upon a Plan Participant's written request, the Plan Agent will deliver to a Plan Participant, without charge, a certificate or certificates for the full shares held by the Plan Agent.

VOLUNTARY CASH PURCHASES. Plan Participants have the option of making investments in Fund shares through the Plan Agent as often as once a month. Plan Participants may invest as little as \$100 in any month and may invest up to

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

\$36,000 annually through the voluntary cash purchase feature of the Plan.

17

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN (UNAUDITED) (CONTINUED)

The Plan Agent will purchase shares for Plan Participants on or about the 15th of each month. Cash payments received by the Plan Agent less than five business days prior to a cash purchase investment date will be held by the Plan Agent until the next month's investment date. Uninvested funds will not bear interest. The Plan Agent will deduct a pro rata share of brokerage commissions incurred in connection with voluntary cash purchases from the cash payments it receives from Plan Participants on whose behalf the purchases were made. Plan Participants may withdraw any voluntary cash payment by written notice received by the Plan Agent not less than 48 hours before such payment is to be invested.

ENROLLMENT AND WITHDRAWAL. In order to become a Plan Participant, stockholders must complete and sign the authorization form included in the Plan brochure and return it directly to the Plan Agent if shares are registered in their name. Stockholders who hold Fund shares in the name of a brokerage firm, bank or other nominee should contact such nominee to arrange for it to participate in the Plan on such stockholder's behalf. Participation in the dividend reinvestment feature of the Plan is effective with the next dividend or capital gains distribution payable after the Plan Agent receives a stockholder's written authorization, provided such authorization is received prior to the record date for such dividend or distribution. A stockholder's written authorization must be received by the Plan Agent at least five business days in advance of the next cash purchase investment date (normally the 15th of every month) in order to make a cash purchase in that month.

Plan Participants may withdraw from the Plan without charge by written notice to the Plan Agent. Plan Participants who choose to withdraw may elect to receive stock certificates representing all of the full shares held by the Plan Agent on their behalf, or to instruct the Plan Agent to sell such full shares and distribute the proceeds, net of brokerage commissions, to such withdrawing Plan Participant. Withdrawing Plan Participants will receive a cash adjustment for the market value of any fractional shares held on their behalf at the time of termination. Withdrawal will be effective immediately with respect to distributions with a record date not less than 10 days later than receipt of such written notice by the Plan Agent.

AMENDMENT AND TERMINATION OF PLAN. The Plan may only be amended or supplemented by the Fund or by the Plan Agent by giving each Plan Participant written notice at least 90 days prior to the effective date of such amendment or supplement, except that such notice period may be shortened when necessary or appropriate in order to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory body.

The Plan may be terminated by the Fund or by the Plan Agent by written notice mailed to each Plan Participant. Such termination will be effective with respect to all distributions with a record date at least 90 days after the mailing of such written notice to the Plan Participants.

FEDERAL INCOME TAX IMPLICATIONS OF REINVESTMENT OF FUND SHARES. Reinvestment of Fund shares does not relieve Plan Participants from any income tax which may be payable on dividends or distributions. For U.S. federal income tax purposes, when the Fund issues shares representing an income dividend or a capital gains dividend, a Participant will include in income the fair market value of the shares received as of the payment date, which will be ordinary dividend income

Edgar Filing: NEW GERMANY FUND INC - Form N-30D

or capital gains, as the case may be. The shares will have a tax basis equal to such fair market value, and the holding period for the shares will begin on the day after the date of distribution. If shares are purchased on the open market by the Plan Agent, a participant will include in income the amount of the cash payment made. The basis of such shares will be the purchase price of the shares, and the holding period for the shares will begin on the day following the date of purchase. State, local and foreign taxes may also be applicable.
