NOTES TO QUARTERLY PORTFOLIO OF INVESTMENTS (UNAUDITED)

ENERGY INCOME AND GROWTH FUND  
 FEBRUARY 28, 2007

1. VALUATION AND INVESTMENT PRACTICES

A. PORTFOLIO VALUATION:

Energy Income and Growth Fund ("the Fund") determines the net asset value of its Common Shares as of the close of regular session trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, no less frequently than weekly on Friday of each week. Net asset value is computed by dividing the value of all assets of the Fund (including accrued interest and dividends), less all Fund liabilities (including accrued expenses, dividends payable, current and deferred income taxes and any borrowings of the Fund) by the total number of shares outstanding. The Fund will rely to some extent on information provided by the master limited partnerships ("MLPs"), which is not necessarily timely, to estimate taxable income allocable to the MLP units held in the Fund's portfolio and to estimate the associated deferred tax liability. From time to time, the Fund will modify its estimates and/or assumptions regarding its deferred tax liability as new information becomes available. To the extent the Fund modifies

## Edgar Filing: ENERGY INCOME & GROWTH FUND - Form N-Q

its estimates and/or assumptions, the net asset value of the Fund would likely fluctuate.

The Fund's investments are valued at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities traded on the NASDAQ, are valued at the closing bid prices. Fixed income securities with a remaining maturity of 60 days or more will be valued by the Fund using a pricing service. When price quotes are not available, fair market value is based on prices of comparable securities. Short-term investments that mature in less than 60 days are valued at amortized cost.

### B. SECURITIES TRANSACTIONS:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis.

Distributions received from the Fund's investments in MLPs are generally comprised of return of capital and reduce the cost basis of the applicable MLPs.

### C. RESTRICTED SECURITIES:

The Fund may invest up to 35% of its Managed Assets, the average daily gross asset value of the Fund minus accrued liabilities (excluding the principal of any borrowings), in restricted securities. Restricted securities are securities that cannot be offered for public sale without first being registered under the Securities Act of 1933, as amended. The Fund currently holds the restricted securities shown in the following table. The Fund does not have the right to demand that such securities be registered. Restricted securities are valued at fair value in accordance with procedures adopted by the Fund's Board of Trustees.
