## BANNER CORPORATION AND SUBSIDIARIES SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### Note 1: BASIS OF PRESENTATION AND CRITICAL ACCOUNTING POLICIES

Banner Corporation (Banner or the Company) is a bank holding company incorporated in the State of Washington. We are primarily engaged in the business of planning, directing and coordinating the business activities of our wholly owned subsidiaries, Banner Bank and Islanders Bank. Banner Bank is a Washington-chartered commercial bank that conducts business from its main office in Walla Walla, Washington and, as of June 30, 2009, its 84 branch offices and eight loan production offices located in Washington, Oregon and Idaho. Islanders Bank is also a Washington-chartered commercial bank that conducts business from three locations in San Juan County, Washington. Banner Corporation is subject to regulation by the Board of Governors of the Federal Reserve System. Banner Bank and Islanders Bank (the Banks) are subject to regulation by the Washington State Department of Financial Institutions, Division of Banks and the Federal Deposit Insurance Corporation (FDIC).

In the opinion of management, the accompanying consolidated statements of financial condition and related interim consolidated statements of operations, comprehensive income (loss), changes in stockholders' equity and cash flows reflect all adjustments (which include reclassifications and normal recurring adjustments) that are necessary for a fair presentation in conformity with Generally Accepted Accounting Principles (GAAP). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements. Various elements of our accounting policies, by their nature, are inherently subject to estimation techniques, valuation assumptions and other subjective assessments. In particular, management has identified several accounting policies that, because of the judgments, estimates and assumptions inherent in those policies, are critical to an understanding of our financial statements. Those policies relate to (i) the methodology for the recognition of interest income, (ii) determination of the provision and allowance for loan and lease losses, (iii) the valuation of financial assets and liabilities recorded at fair value, (iv) the valuation of intangibles, such as goodwill and core deposit intangibles and mortgage servicing rights and (v) the valuation of real estate held for sale. These policies and the judgments, estimates and assumptions are described in greater detail below in Management's Discussion and Analysis of Financial Condition and Results of Operations (Critical Accounting Policies) and in the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2008 filed with the Securities and Exchange Commission (SEC). Management believes that the judgments, estimates and assumptions used in the preparation of our consolidated financial statements are appropriate based on the factual circumstances at the time. However, given the sensitivity of the financial statements to these critical accounting policies, the use of other judgments, estimates and assumptions could result in material differences in our results of operations or financial condition. Further, subsequent changes in economic or market conditions could have a material impact on these estimates and our financial condition and operating results in future periods. There have been no significant changes in our application of accounting policies since December 31, 2008 (for additional information, see Note 3, Accounting Standards Recently Adopted or Issued, of the Selected Notes to Consolidated Financial Statements).

Certain information and disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. Certain reclassifications have been made to the 2008 Consolidated Financial Statements and/or schedules to conform to the 2009 presentation. These reclassifications may have affected certain ratios for the prior periods. The effect of these reclassifications is considered immaterial. All significant intercompany transactions and balances have been eliminated.

The information included in this Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC. Interim results are not necessarily indicative of results for a full year.

Subsequent Events: We evaluated subsequent events for reporting and disclosure in these financial statements through August 7, 2009, which is the dare this June 30, 2009 Form 10-Q was available to be issued.

#### Note 2: RECENT DEVELOPMENTS AND SIGNIFICANT EVENTS

FDIC Special Assessment: On May 22, 2009, the FDIC adopted a final rule imposing a five basis point special assessment on each insured depository institution's total assets minus Tier 1 capital as of June 30, 2009, with the maximum amount of the special assessment for any institution not to exceed ten basis points times the institution's assessment base for the second quarter 2009 risk-based assessment. The special assessment will be collected on September 30, 2009 at the same time the regular quarterly risk based assessment for the second quarter of 2009 is collected. For Banner Corporation, this assessment was \$2.1 million, which was recognized in other operating expenses during the quarter ended June 30, 2009. The FDIC has indicated an additional special assessment of up to five basis points later in 2009 is probable, but the amount is uncertain. The FDIC Board may vote to impose such an additional special assessment if the FDIC estimates that the Deposit Insurance Fund reserve ratio will fall to a level that the Board believes would adversely affect public confidence or to a level that will be close to or below zero.

FDIC Temporary Liquidity Guarantee Program: Banner Corporation, Banner Bank and Islanders Bank have chosen to participate in the FDIC's Temporary Liquidity Guarantee Program (the "TLGP"), which applies to all U.S. depository institutions insured by the FDIC and all United States bank holding companies, unless they have opted out. Under the TLGP, the FDIC guarantees certain senior unsecured debt of insured institutions and their holding companies, as well as non-interest-bearing transaction account deposits. Under the transaction account guarantee component of the TLGP, all non-interest-bearing and certain interest-bearing transaction accounts maintained at Banner Bank and Islanders Bank are insured in full by the FDIC until December 31, 2013, regardless of the standard maximum deposit insurance amounts. The Banks are required to pay a 10 basis point fee (annualized) on balances of each covered account in excess of \$250,000 while the extra deposit insurance is in place. On March 31, 2009, Banner Bank completed an offering of \$50 million of qualifying senior bank notes covered by the TLGP at a fixed rate of 2.625% which mature on March 31, 2012. Under the debt guarantee component of the TLGP, the FDIC will pay the

11

unpaid principal and interest on an FDIC-guaranteed debt instrument upon the uncured failure of the participating entity to make a timely payment of principal or interest. Under the terms of the TLGP, the Bank is not permitted to use the proceeds from the sale of securities guaranteed under the TLGP to prepay any of its other debt that is not guaranteed by the FDIC. Banner Bank is required to pay a 1.00% fee (annualized) on this debt, which will result in a total fee of \$1.5 million over three years. Subject to FDIC approval, we have remaining capacity under the TLGP to issue approximately \$30 million of additional guaranteed notes. None of the senior notes are redeemable prior to maturity.

Participation in the U.S. Treasury's Capital Purchase Program: On November 21, 2008, we received \$124 million from the U.S. Treasury Department as part of the Treasury's Capital Purchase Program. We issued \$124 million in senior preferred stock, with a related warrant to purchase up to \$18.6 million in common stock, to the U.S. Treasury. The warrant provides the Treasury the option to purchase up to 1,707,989 shares of Banner Corporation common stock at a price of \$10.89 per share at any time during the next ten years. The preferred stock will pay a 5% dividend for the first five years, after which the rate will increase to 9% if the preferred shares are not redeemed by the Company. The terms and conditions of the transaction and the preferred stock conform to those provided by the U.S. Treasury. A summary of the Capital Purchase Program can be found on the Treasury's web site at www.financialstability.gov/roadtostability/capitalpurchaseprogram.html. The additional capital enhances our capacity to support the communities we serve through expanded lending activities and economic development. This capital also creates additional flexibility in considering strategic opportunities that may be available to us as the financial services industry continues to consolidate.

Goodwill write-off: As a result of the significant decline in our stock price and market capitalization over the course of 2008 and in conjunction with similar declines in the value of most financial institutions and the ongoing disruption in related financial markets, we determined it was appropriate to reduce the carrying value of goodwill in our Consolidated Statements of Financial Condition by recording a \$50 million write-down in the second quarter of 2008 and, in response to worsening economic indicators and further price declines, an additional \$71 million write-down in the fourth quarter of 2008. The total \$121 million write-off of goodwill was a non-cash charge that did not affect the Company's or the Banks' liquidity or operations. The adjustment brought our book value and tangible book value more closely in line with each other and more accurately reflected current market conditions. Also, since goodwill is excluded from regulatory capital, the impairment charge (which was not deductible for tax purposes) did not have an adverse effect on the regulatory capital ratios of the Company or either of our subsidiary banks, each of which continues to remain "well capitalized" under the regulatory requirements. (See Note 10 of the Selected Notes to Consolidated Financial Statements for additional information with respect to our valuation of intangible assets.)

#### Note 3: ACCOUNTING STANDARDS RECENTLY ADOPTED OR ISSUED

Recently Adopted Accounting Standards: On April 9, 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSB) Financial Accounting Standard (FAS) 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly. FSP FAS 157-4 provides guidance to help an entity determine whether the market for an asset is not active and when a price for a transaction is not distressed. In this two-step model, an entity must first determine whether there are factors present that indicate that the market for the asset is not active at the measurement date. Second, an entity must evaluate whether a quoted price is representative of a transaction that is not orderly. If determined that a quoted price is distressed (not orderly), and thereby not representative of fair value under SFAS 157, the entity must make adjustments to the quoted price or utilize an alternative valuation technique (e.g., income approach or multiple valuation techniques) to determine fair value. Additionally, an entity must incorporate appropriate risk premium adjustments, reflective of an orderly transaction under current market conditions, due to uncertainty in cash flows. This FSP is effective for interim reporting periods ending after June 15, 2009. We adopted FSP FAS 157-4 for the quarter ended June 30, 2009 and the effect of the adoption on the consolidated financial statements was not material.

On April 9, 2009, FASB issued FSP FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairments ("OTTI"), that changes the OTTI model for debt securities. Under previous guidance, an entity was required to assess whether it has the intent and ability to hold a security to recovery in determining whether an impairment of that security is other-than-temporary. If the impairment was deemed other-than temporarily impaired, the investment was written-down to fair value through earnings. Under the new guidance, OTTI is triggered if an entity has the intent to sell the security, it is more likely than not that it will be required to sell the security before recovery, or if the entity does not expect to recover the entire amortized cost basis of the security. If the entity intends to sell the security or it is more likely than not that it will be required to sell the security before recovering its cost basis, the entire impairment loss would be recognized in earnings as an OTTI. If the entity does not intend to sell the security and it is not likely that the entity will be required to sell the security before recovering its cost basis, only the portion of the impairment loss representing credit losses would be recognized in earnings as an OTTI. The remaining impairment loss would be recognized as a charge to other comprehensive income ("OCI"). The FSP also results in a new category within OCI for the portion of the OTTI that is unrelated to credit losses for securities held to maturity. The impairment recognized in OCI would be amortized over the remaining life of the debt security prospectively based on the amount and timing of future estimated cash flows, unless there is an indication of additional credit losses. The amortization of the OTTI amount recorded in OCI will increase the carrying value of the investment, and would not affect earnings. Upon adoption of the FSP, the noncredit portion of previously recognized OTTI shall be reclassified to accumulated OCI by a cumulative-effect adjustment to the opening balance of retained earnings. This FSP is effective for interim reporting periods ended after June 15, 2009. We adopted FSP FAS 115-2 and FAS 124-2 for the quarter ended June 30, 2009 and the effect of the adoption on the consolidated financial statements was not material.

On April 9, 2009, FASB issued FSP FAS 107-1 and Accounting Principles Board Opinion (APB) 28-1, Interim Disclosures about Fair Value of Financial Instruments. This FSP requires SFAS 107, Disclosures about Fair Value of Financial Instruments, disclosures in the notes of an entity's interim financial statements for all financial instruments, whether or not recognized in the statement of financial position. This FSP is effective for interim reporting periods ending after June 15, 2009. We adopted FSP 107-1 and APB 28-1 for the quarter ended June 30, 2009 and the effect of the adoption on the consolidated financial statements was not material.

<u>12</u>

On January 12, 2009, FASB issued FSP Emerging Issues Task Force (EITF) 99-20-1, Amendments to the Impairment Guidance of EITF Issue No. 99-20. FSP EITF 99-20-1 addresses certain practical issues in EITF No. 99-20, Recognition of Interest Income and Impairment on Purchased Beneficial Interests and Beneficial Interests That Continue to Be Held by a Transferor in Securitized Financial Assets, by making its other-than-temporary impairment assessment guidance consistent with Statement of Financial Accounting Standard (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities. FSP EITF 99-20-1 removes the reference to the consideration of a market participant's estimates of cash flows in EITF 99-20, and instead requires an assessment of whether it is probable, based on current information and events, that the holder of the security will be unable to collect all amounts due according to the contractual terms. If it is probable that there has been an adverse change in estimated cash flows, an other-than-temporary impairment is deemed to exist, and a corresponding loss shall be recognized in earnings equal to the entire difference between the investment's carrying value and its fair value at the balance sheet date of the reporting period for which the assessment is made. This FSP is effective for interim and annual reporting periods ending after December 15, 2008, and shall be applied prospectively. We adopted FSP 99-20-1 for the quarter ended March 31, 2009 and the effect of the adoption on our consolidated financial statements was not material.

In October 2008, the FASB issued FSP No. FAS 157-3, Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active (FSP 157-3). FSP 157-3 clarifies the application of FAS 157 in a market that is not active. The FSP is intended to address the following application issues: (a) how the reporting entity's own assumptions (that is, expected cash flows and appropriately risk-adjusted discount rates) should be considered when measuring fair value when relevant observable inputs do not exist; (b) how available observable inputs in a market that is not active should be considered when measuring fair value; and (c) how the use of market quotes (for example, broker quotes or pricing services for the same or similar financial assets) should be considered when assessing the relevance of observable and unobservable inputs available to measure fair value. FSP 157-3 was effective on issuance, including prior periods for which financial statements had not been issued. We adopted FSP 157-3 for the quarter ended December 31, 2008 and the effect of adoption on the consolidated financial statements was not material.

Recently Issued Accounting Pronouncements: In June 2009, the FASB issued FAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162 (FAS 168), which pertains to the authority of United States generally accepted accounting standards. With the issuance of FAS 168, the FASB Accounting Standards Codification (Codification) will become the source of authoritative U.S. generally accepted accounting principles recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. On the effective date of this Statement, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification will become non-authoritative. FAS 168 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. We plan to adopt FAS 168 in the third quarter; however, we do not expect the adoption to have a material effect on the results of operations or consolidated financial statements of the Company.

### Note 4: BUSINESS SEGMENTS

The Company is managed by legal entity and not by lines of business. Each of the Banks is a community oriented commercial bank chartered in the State of Washington. The Banks' primary business is that of a traditional banking institution, gathering deposits and originating loans for its portfolio in its respective primary market areas. The Banks offer a wide variety of deposit products to its consumer and commercial customers. Lending activities include the origination of real estate, commercial/agriculture business and consumer loans. Banner Bank is also an active participant in the secondary market, originating residential loans for sale on both a servicing released and servicing retained basis. In addition to interest income on loans and investment securities, the Banks receive other income from deposit service charges, loan servicing fees and from the sale of loans and investments. The performance of the Banks is reviewed by the Company's executive management and Board of Directors on a monthly basis. All of the executive

officers of the Company are members of Banner Bank's management team.

Generally accepted accounting principles establish standards to report information about operating segments in annual financial statements and require reporting of selected information about operating segments in interim reports to stockholders. The Company has determined that its current business and operations consist of a single business segment.

<u>13</u>

#### Note 5: ADDITIONAL INFORMATION REGARDING INTEREST-BEARING DEPOSITS AND SECURITIES

The following table sets forth additional detail on our interest-bearing deposits and securities at the dates indicated (includes securities—trading, available-for-sale and held-to-maturity, all at carrying value) (dollars in thousands):

\$	3,658	\$	3,948	\$ 7,642	\$	7,828	

#### Note 6: LOANS RECEIVABLE

We originate residential mortgage loans for both portfolio investment and sale in the secondary market. At the time of origination, mortgage loans are designated as held for sale or held for investment. Loans held for sale are stated at lower of cost or estimated fair value determined on an aggregate basis. Net unrealized losses on loans held for sale are recognized through a valuation allowance by charges to income. We also originate construction and land, commercial and multifamily real estate, commercial business, agricultural and consumer loans for portfolio investment. Loans receivable not designated as held for sale are recorded at the principal amount outstanding, net of allowance for loan losses, deferred fees, discounts and premiums. Premiums, discounts and deferred loan fees are amortized to maturity using the level-yield methodology.

Interest is accrued as earned unless management doubts the collectability of the loan or the unpaid interest. Interest accruals are generally discontinued when loans become 90 days past due for scheduled interest payments. All previously accrued but uncollected interest is deducted from interest income upon transfer to nonaccrual status. Future collection of interest is included in interest income based upon an assessment of the likelihood that the loans will be repaid or recovered. A loan may be put on nonaccrual status sooner than this policy would dictate if, in management's judgment, the loan may be uncollectable. Such interest is then recognized as income only if it is ultimately collected.

<u>14</u>

Our loans receivable, including loans held for sale, at June 30, 2009 and 2008 and December 31, 2008 are summarized as follows (dollars in thousands):

	June 30 2009		December 2008	r 31	June 3 2008	0
		Percent		Percent		Percent
	Amount	of Total	Amount	of Total	Amount	of Total

loans							

As noted in the tables above, substantially all of our loans are to borrowers in the states of Washington, Oregon and Idaho. Accordingly, their ultimate collectability is particularly susceptible to, among other things, changes in market and economic conditions within these states.

The amount of impaired loans, net of any charge-offs recorded as a result of specific impairment analysis, and the related allocated reserve for loan losses were as follows (dollars in thousands):

		June 30		December 31, 2008				
	Loan		Alloc	ated	Loan		Allo	cated
	amour	nt	reser	ves	amou	ınt	resei	ves
Impaired loans:								
Non-accrual	\$	223,444	\$	19,303	\$	186,978	\$	13,053
Accrual		56,655		821		23,635		1,195
	\$	280,099	\$	20,124	\$	210,613	\$	14,248

The Company originates both adjustable- and fixed-rate loans. The maturity and repricing composition of those loans, less undisbursed amounts and deferred fees, were as follows (dollars in thousands):

	June 30		December 31			June 30
Fixed-rate (term to maturity):		2009		2008		2008
Due in one year or less	\$	\$ 155,756		130,958	\$	88,318
Due after one year through three years		204,129		206,455		184,977
Due after three years through five years		221,595		246,897		208,773
Due after five years through ten years		165,129		157,621		230,831
Due after ten years		497,054		425,213		420,040
	\$	1,243,663	\$	1,167,144	\$	1,132,939
Adjustable-rate (term to rate adjustment):						
Due in one year or less	\$	1,802,578	\$	1,912,755	\$	1,921,983
Due after one year through three years		375,608		402,482		394,703
Due after three years through five years		454,586		440,555		359,500
Due after five years through ten years		36,646		38,472		164,174

	2,669,418	2,794,264	2,840,360
\$	3,913,081	\$ 3,961,408	\$ 3,973,299

The adjustable-rate loans may have interest rate adjustment limitations and are generally indexed to various Prime or LIBOR rates, or One to Five Year Constant Maturity Treasury Indices or FHLB borrowing rates. Future market factors may affect the correlation of the interest rate adjustment with the rates the Banks pay on the short-term deposits that primarily have been utilized to fund these loans.

#### Note 8: GOODWILL AND OTHER INTANGIBLE ASSETS AND MORTGAGE SERVICING RIGHTS

Goodwill and Other Intangible Assets: Goodwill and other intangible assets consists primarily of goodwill, which represents the excess of the purchase price over the fair value of net assets acquired in a business combination accounted for under the purchase method, and core deposit intangibles (CDI), which are amounts recorded in business combinations or deposit purchase transactions related to the value of transaction-related deposits and the value of the customer relationships associated with the deposits.

We account for goodwill and other intangible assets in accordance with SFAS No. 142, Goodwill and Other Intangible Assets. Goodwill is not amortized but is reviewed annually for impairment. During 2008, we engaged an independent valuation consultant to review goodwill for impairment and, as a result of the significant decline in the Company's stock price and market capitalization over the course of 2008 and in conjunction with similar declines in the value of most financial institutions and the ongoing disruption in related financial markets, we wrote off all previously recognized goodwill. We amortize core deposit intangibles over their estimated useful life and review them at least annually for events or circumstances that could impact their recoverability. The core deposit intangible assets shown in the table below represent the value ascribed to the long-term deposit relationships acquired in three separate bank acquisitions during 2007. These intangible assets are being amortized using an accelerated method over an estimated useful life of eight years. The core deposit intangible assets are not estimated to have a significant residual value. Other intangible assets are amortized over their useful lives and are also reviewed for impairment.

The following table summarizes the changes in the Company's goodwill and other intangibles for the six months ended June 30, 2008 and 2009 (dollars in thousands):

	Goodwill	Core Deposit ntangibles	Other		Total
Balance, December 31, 2007	\$ 121,108	\$ 16,529	\$ 17	\$	137,654
