PART I

INFORMATION REQUIRED IN THE SECTION 10(a) PROSPECTUS

This registration statement relates to separate prospectuses.

Items 1 and 2 of this Part I, and the documents incorporated herein by reference pursuant to Item 3 of Part II of this Form S-8, constitute the first prospectus relating to issuances to our employees, directors, consultants and others of up to 8,150,000 shares of common stock pursuant to our 2011 Equity Compensation Plan, or 2011 Plan. Pursuant to the requirements of Form S-8 and Rule 428, we will deliver or cause to be delivered to plan participants any required information as specified by Rule 428(b)(1). The second prospectus, referred to as the reoffer prospectus, relates to the reoffer or resale of any shares that are deemed to be control securities or restricted securities under the Securities Act of 1933, as amended.

Item 1. Plan Information.

We established the 2011 Plan effective January 17, 2011 covering 8,250,000 shares of our common stock to permit us to offer to our employees, officers, directors and consultants whose past, present and/or potential contributions to our company have been, are or will be important to our success, an opportunity to acquire a proprietary interest in our company. The issuance of grants under the plan will be made to persons who are closely related to us and who provide bona fide services to us in connection with our business which are not in connection with the offer or sale of our securities in a capital raising transaction and do not directly or indirectly promote or maintain a market for our securities. Grants of options or shares may be awarded under the plan pursuant to individually negotiated compensation contracts or as determined and/or approved by our board of directors. The eligible participants include our directors, officers, employees and non-employee consultants and advisors. The 2011 Plan places an annual limit on stock-denominated awards of 3,000,000 shares per year, plus any unused shares, up to 3,000,000, from the previous year's annual limit, on any single participant.

The 2011 Plan does not require restrictions on the transferability of securities issued thereunder. However, such securities may be restricted as a condition to their issuance where the board of directors deems such restrictions appropriate. The 2011 Plan is not subject to the Employee Retirement Income Securities Act of 1974. Restricted shares awarded under the 2011 Plan are intended to be fully taxable to the recipient as earned income. As of the date hereof, we have made restricted stock grants or granted options to purchase a total of 8,037,172 shares of common stock under our plan and are registering the shares underlying options to purchase 7,060,000 shares underlying outstanding options in the registration statement of which this prospectus forms a part, together with 877,172 shares granted as restricted stock grants, and 212,828 shares available for grant under future options under the plan.

Item 2. Registrant Information and Employee Plan Annual Information.

We will provide without charge, upon written or oral request, the documents incorporated by reference in Item 3 of Part II of this registration statement. These documents are incorporated by reference in the Section 10(a) prospectus.

Investing in our securities involves risk. Our business, financial condition, operating results and cash flows can be impacted by a number of factors, any of which could cause our results to vary materially from recent results or from our anticipated future results. See the risk factors described in our Annual Report on Form 10-K for fiscal 2012, as

amended, together with any material changes thereto contained in subsequent filed Quarterly Report on Form 10-Q, and those contained in our other filings with the SEC for our most recent fiscal year, which are incorporated by reference in this prospectus and any accompanying prospectus supplement. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus and any prospectus supplement. These risks could materially affect our business, results of operations or financial condition and cause the value of our securities to decline. You could lose all or part of your investment.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

We have made forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 concerning our operations, economic performance and financial condition in this prospectus and our Annual Report on Form 10-K for fiscal 2012, as amended, and in our subsequent filings with the SEC, and may make other forward-looking statements from time to time in other public filings, press releases and discussions with our management. These forward-looking statements include information concerning future production and reserves, schedules, plans, timing of development, contributions from oil and gas properties, marketing and midstream activities, and also include those statements preceded by, followed

by or that otherwise include the words may, could, believes, expects, anticipates, intends, estimates, project, goal, plans, objective, should or similar expressions or variations on such expressions. For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that our expectations will prove to be correct. We undertake no obligation to publicly update or revise any forward-looking statements whether as a result of new information, future events or otherwise. These forward-looking statements involve risk and uncertainties. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following risks and uncertainties:

.

the potential for Miller to experience additional operating losses;

.

high debt costs under our existing senior credit facility;

.

potential limitations imposed by debt covenants under our senior credit facility on our growth and our ability to meet our business objectives;

.

our need to enhance our management, systems, accounting, controls and reporting performance;

.

litigation risks;

.

our ability to perform under the terms of our oil and gas leases, and exploration licenses with the Alaska DNR, including meeting the funding or work commitments of those agreements;

.

our ability to successfully acquire, integrate and exploit new productive assets in the future;

.

our ability to recover proved undeveloped reserves and convert probable and possible reserves to proved reserves;

.

risks associated with the hedging of commodity prices;

.

our dependence on third party transportation facilities;

.

concentration risk in the market for the oil we produce in Alaska;

.

the impact of natural disasters on our Cook Inlet Basin operations;

.

adverse effects of the national and global economic downturns on our profitability;

.

the imprecise nature of our reserve estimates;

.

drilling risks;

.
fluctuating oil and gas prices and the impact on our results from operations;

.
the need to discover or acquire new reserves in the future to avoid declines in production;

.
differences between the present value of cash flows from proved reserves and the market value of those reserves;

.
the existence within the industry of risks that may be uninsurable;

.
constraints on production and costs of compliance that may arise from current and future environmental, FERC and other statutes, rules and regulations at the state and federal level;

.
the impact that future legislation could have on access to tax incentives currently enjoyed by Miller;

.
that no dividends may be paid on our common stock for some time;

.
cashless exercise provisions of outstanding warrants;

.
market overhang related to restricted securities and outstanding options, and warrants;

.
the impact of non-cash gains and losses from derivative accounting on future financial results; and

.
risks to non-affiliate shareholders arising from the substantial ownership positions of affiliates.

Most of these factors are difficult to predict accurately and are generally beyond our control. You should consider the areas of risk described in connection with any forward-looking statements that may be made herein. Readers are cautioned not to place undue reliance on these forward-looking statements, and readers should carefully review our Annual Report on Form 10-K for fiscal 2012, as amended, in its entirety, including the risks described in Item 1A. Risk Factors, as well as our subsequent filings with the SEC. Except for our ongoing obligations to disclose material information under the Federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. These forward-looking statements speak only as of the date of this prospectus, and you should not rely on these statements without also considering the risks and uncertainties associated with these statements and our business.

USE OF PROCEEDS

We will not receive any proceeds upon the sale of shares by the selling security holders. Any proceeds we may receive from the exercise of options granted under the 2011 Plan will be used for general working capital.

2011 EQUITY COMPENSATION PLAN

On January 17, 2011, our board of directors approved the 2011 Plan, and recommended the adoption of the 2011 Plan by our stockholders. On March 11, 2011 at our 2011 Annual Meeting of Shareholders, our shareholders approved and adopted the 2011 Plan.

The purpose of the 2011 Plan is to advance the interests of our company by providing an incentive to attract, retain and motivate highly qualified and competent persons who are important to us and upon whose efforts and judgment the success of our company is largely dependent. We believe that the 2011 Plan provides an incentive to such persons to continue in our service, to perform at and above targeted levels, and to give them a greater interest as shareholders in our success. We have reserved 8,250,000 shares of our common stock for issuance under this plan. Options and restricted stock awards may be granted under the 2011 Plan only to our employees, officers, directors, or consultants. As of September 24, 2012, we have granted options and restricted stock awards in the amount of 8,028,638 shares of our common stock under the plan, with exercise prices ranging from \$3.24 per share to \$6.00 per share.

Administration and Eligibility

The 2011 Plan is administered by the Compensation Committee of our board of directors. The Compensation Committee determines, from time to time, those of our employees, officers, directors or consultants to whom options, stock appreciation rights, restricted stock, other stock-based awards or cash incentive awards will be granted, the terms and provisions of each such grant, the dates such grants will become exercisable or be settled, the number of shares subject to each equity grant, the exercise price or base price of awards, where applicable, vesting and performance terms and conditions, and all other terms and conditions, subject to the specific requirements of the 2011 Plan. All other questions relating to the administration of the 2011 Plan and the interpretation of its provisions are to be resolved at the sole discretion of the Compensation Committee.

Amendment and Termination of the 2011 Plan

The board of directors may amend, suspend, discontinue or terminate the 2011 Plan or the Compensation Committee's authority to grant awards thereunder without shareholder approval, except as required by law or regulation or under applicable New York Stock Exchange Rules or rules of any stock exchange on which our common stock may then be listed. New York Stock Exchange Rules require shareholder approval of material modifications to plans such as the 2011 Plan, including increases in the number of shares reserved for awards. Under these rules, however, shareholder approval will not necessarily be required for all amendments which might increase the cost of the 2011 Plan or broaden eligibility. The Compensation Committee is authorized to amend the 2011 Plan, to the extent within the scope of its authority under its charter, subject to the same restrictions that apply to the Board.

Unless the plan is suspended or terminated by the board of directors, the 2011 Plan will terminate on January 17, 2021, and the 2011 Plan will terminate when no shares remain available and we have no further obligation with respect to any outstanding award. Any termination of the 2011 Plan will not affect the validity of any options previously granted thereunder.

Grants under the 2011 Plan

The 2011 Plan provides for the grant of incentive stock options, or ISOs, qualifying as ISOs under Section 422 of the Internal Revenue Code and non-statutory stock options, or NSOs, that do not so qualify. Any option granted under the 2011 Plan must provide for an exercise price of not less than 100% of the fair market value of the underlying shares on the date of such grant, but the exercise price of any ISO granted to an eligible employee owning more than 10% of our common stock must be at least 110% of such fair market value as determined on the date of the grant.

Options may be exercised by payment of the exercise price in cash or, if permitted by the Compensation Committee, shares having a fair market value equal to the exercise price. This may include withholding of option shares to pay the exercise price. The Compensation Committee also is permitted to establish procedures for broker-assisted cashless exercises.

Stock appreciation rights may be granted under the 2011 Plan. Such awards entitle a holder to receive, upon exercise, the spread between the exercise-date fair market value of a share of common stock and the base price specified for the SAR, with payment in either cash or shares as determined by the Compensation Committee. The base price must be at least 100% of the fair market value of the underlying shares on the date of grant.

The maximum term of options and stock appreciation rights is ten years from the date of grant.

Full-value awards that may be granted under the 2011 Plan include restricted stock and other stock-based awards. Other stock-based awards are awards denominated or payable in, valued in whole or in part by reference to, or

otherwise based on or related to common stock. Typically, other stock-based awards are contractual commitments to deliver shares at a future date, subject to specified conditions such as service requirements or performance conditions. These types of awards may be designated as restricted stock units.

The 2011 Plan also authorizes cash incentive awards. We have implemented annual incentive awards to executive officers under this authorization, in order that amounts earned under the awards will be fully tax deductible by us.

The Compensation Committee has discretion in setting the vesting schedule of options, stock appreciation rights, restricted stock, other stock-based awards, and cash incentive awards, the circumstances resulting in forfeiture of awards, the post-termination exercise periods of options and stock appreciation rights, and the events resulting in acceleration of the right to exercise and the lapse of restrictions, or the expiration of any deferral period, on any award.

Shares used for stock grants and plan options may be authorized and unissued shares or shares reacquired by us, including shares purchased in the open market.

Per-Person Award Limitations

The 2011 Plan includes a limitation on the amount of awards that may be granted to any one participant in a given fiscal year in order to qualify awards as performance-based compensation not subject to the limitation on deductibility under Section 162(m) of the Internal Revenue Code. Under this annual per-person limitation, no participant may in any year be granted share-denominated awards under the 2011 Plan relating to more than his or her "annual limit". The annual limit equals 3.0 million shares plus the amount of the participant's unused annual limit relating to share-based awards as of the close of the previous year, subject to adjustment for splits and other extraordinary corporate events. In the case of cash-denominated awards, the 2011 Plan limits the granting of such awards so that they do not authorize the earning by a participant during any fiscal year in excess of the participant's defined annual limit, which for this purpose equals \$6 million plus the amount of the participant's unused cash annual limit as of the close of the previous year. The per-person limit for cash-denominated performance awards does not operate to limit the amount of share-based awards, and vice versa. These limits apply only to awards under the 2011 Plan, and do not limit our ability to enter into compensation arrangements outside of the 2011 Plan.

Performance-Based Awards

The Compensation Committee may grant performance awards, which may be awards of a specified cash amount or may be share-based awards. Generally, performance awards require satisfaction of pre-established performance goals, consisting of one or more business criteria and a targeted performance level with respect to such criteria, as a condition of awards being granted or becoming exercisable or settleable, or as a condition to accelerating the timing of such events. Performance may be measured over a period of any length specified by the Compensation Committee. If so determined by the Compensation Committee, in order to avoid the limitations on tax deductibility under Section 162(m), the business criteria used by the Compensation Committee in establishing performance goals applicable to performance awards to the named executive officers will be selected from among the following:

net sales or revenues;

oil or gas production, or increases in proven reserves, or other measures of discovery or recovery of oil, gas and other natural resources;

earnings measures, including earnings from operations, earnings before or after taxes, earnings before or after interest, depreciation, amortization, or extraordinary or special items;

net income or net income per common share, basic or diluted;

return measures, including return on assets, gross or net, return on investment, return on capital, or return on equity;

cash flow, free cash flow, cash flow return on investment, discounted or otherwise, net cash provided by operations, or cash flow in excess of cost of capital;

interest expense after taxes;

net economic profit, which means our operating earnings minus a charge for capital, or economic value created;

operating margin or profit margin;

shareholder value creation measures, including stock price or total shareholder return;

dividend payout levels, including as a percentage of net income;

expense targets, working capital targets, or operating efficiency; and

strategic business criteria, consisting of one or more objectives based on meeting specified market penetration, geographic business expansion goals, cost targets, total market capitalization, agency ratings of financial strength, completion of capital and borrowing transactions, business retention, new product development, customer satisfaction, employee satisfaction, management of employment practices and employee benefits, supervision of litigation and information technology, and goals relating to acquisitions or divestitures of subsidiaries, affiliates or joint ventures.

The Compensation Committee retains discretion to set the level of performance for a given business criteria that will result in the earning of a specified amount under a performance award. These goals may be set with fixed, quantitative targets, targets relative to our past performance, targets compared to the performance of other companies, such as a published or special index or a group of companies selected by the Compensation Committee for comparison, or in such other way as the Compensation Committee may determine. The Compensation Committee may specify that these performance measures will be determined before payment of bonuses, capital charges, non-recurring or extraordinary income or expense, or other financial and general and administrative expenses for the performance period.

Nothing in the 2011 Plan precludes the Compensation Committee from authorizing payment of other compensation, including bonuses based upon performance, to officers and employees, including the executive officers, outside of the 2011 Plan.

Adjustment Upon Changes in Capitalization or other Corporate Events

The 2011 Plan provides that, in the event of any dividend, other than a cash dividend, payable on shares of our common stock, stock split, reverse stock split, combination or exchange of shares, or other similar event occurring after the grant of an award which results in a change in the shares of our common stock as a whole:

.

the number of shares issuable in connection with any such award and the purchase price thereof, if any, will be proportionately adjusted to reflect the occurrence of any such event, and

.

the Compensation Committee will determine whether such change requires an adjustment in the aggregate number and kind of shares reserved for issuance under the 2011 Plan.

If any person is or becomes the beneficial owner of 30% or more of the combined voting power of our outstanding securities and the Board does not authorize or otherwise approve such acquisition, then outstanding awards under the 2011 Plan will become vested. The Compensation Committee may, in the event of an acquisition of substantially all of our assets or at least 50% of the combined voting power of our outstanding common stock, including by way of merger or reorganization, which has been approved by the Board accelerate the vesting of any or all outstanding awards and compel the participant to relinquish any outstanding award in exchange for payment of the fair market value of the underlying shares.

Assignability of Plan Options and Termination of Employment

All awards are nonassignable and nontransferable, except by will or by the laws of descent and distribution, and in the case of exercisable awards, during the lifetime of the participant, may be exercised only by the participant, except as provided by the Compensation Committee. The 2011 Plan contains default provisions specifying the post-termination exercise period of options in the event of death, disability, retirement and certain other terminations of employment. The Compensation Committee retains discretion, however, regarding all vesting and post-termination exercise terms of awards under the 2011 Plan.

Summary of Federal Tax Consequences

The following is only a brief summary of the effect of federal income taxation on an optionee under the 2011 Plan. Effective January 1, 2006, we adopted Financial Accounting Standards Board, or FASB, ASC Topic 718. This Statement requires that compensation costs related to share-based payment transactions, such as stock options or restricted stock award, be recognized in the financial statements. Under ASC Topic 718, an optionee,

recipient of a restricted stock award and our company will be subject to certain tax consequences and accounting charges, regardless of the type of option or restricted stock award.

Options granted under the 2011 Plan may be either ISOs which satisfy the requirements of Section 422 of the Internal Revenue Code or NSOs which do not meet such requirements. The federal income tax treatment for the two types of options differs, as summarized below.

· *ISOs.* No taxable income is recognized by an optionee at the time of the grant of an ISO, and no taxable income is generally recognized at the time an ISO is exercised. However, the excess of the fair market value of the common stock received upon the exercise of an ISO over the exercise price is includable in the employee's alternative minimum taxable income and may be subject to the alternative minimum tax, or AMT. For AMT purposes only, the basis of the common stock received upon exercise of an ISO is increased by the amount of such excess.

An optionee will recognize taxable income in the year in which the purchased shares acquired upon exercise of an ISO are sold or otherwise disposed. For federal tax purposes, dispositions are divided into two categories - qualifying and disqualifying. An optionee will make a qualifying disposition of the purchased shares if the sale or disposition is made more than two years after the grant date of the option and more than one year after the exercise date. If an optionee fails to satisfy either of these two holding periods prior to sale or disposition, then a disqualifying disposition of the purchased shares will result.

Upon a qualifying disposition, an optionee will recognize long-term capital gain or loss in an amount equal to the difference between the amount realized upon the sale or other disposition of the purchased shares and the exercise price paid for the shares except that, for AMT purposes, the gain or loss would be the difference between the amount realized upon the sale or other disposition of the purchased shares and the employee's basis increased as described above. If there is a disqualifying disposition of the shares, then the optionee will generally recognize ordinary income to the extent of the lesser of the difference between the exercise price and the fair market value of the common stock on the date of exercise, or the amount realized on such disqualifying disposition. Any additional gain recognized upon the disposition will be capital gain. If the amount realized is less than the exercise price, the optionee will, in general, recognize a capital loss. If the optionee makes a disqualifying disposition of the purchased shares, we are required to report such ordinary income on form W-2, and we will then be entitled to an income tax deduction, for the taxable year in which such disposition occurs, to the extent the optionee recognizes ordinary income. In no other instance will we be allowed a deduction with respect to the optionee's disposition of the purchased shares.

· *NSOs.* No taxable income is recognized by an optionee upon the grant of an NSO. The optionee will in general recognize ordinary income, in the year in which an NSO is exercised, equal to the excess of the fair market value of purchased shares on the date of exercise over the exercise price paid for such shares, and the optionee will be required to satisfy the tax withholding requirements applicable to such income. Upon a subsequent sale of the purchased shares, the optionee will generally recognize either a capital gain or a capital loss depending on whether the amount realized is more or less than the exercise price. We are required to report such ordinary income on form W-2 or 1099 as appropriate, and we will then be entitled to a business expense deduction equal to the amount of ordinary income recognized by the optionee with respect to an exercised NSO. The deduction will in general be allowed for our taxable

year in which ordinary income is recognized by the optionee in connection with the acquisition of the option shares.

· *Restricted Stock.* Unless the recipient of a restricted stock grant elects to treat such grant as ordinary income at the time the grant is made, the recipient does not recognize taxable income upon the grant of restricted stock. Instead, the recipient will recognize ordinary income at the time of vesting, *i.e.* when the restrictions on the grant lapse, equal to the fair market value of the restricted shares on the vesting date minus any amount paid for the restricted shares. At the time that the recipient recognizes ordinary income in respect of the restricted stock grant, we are required to report such ordinary income on form W-2 or 1099 as appropriate and we will then be entitled to a tax deduction for compensation expense equal to the amount of ordinary income recognized by the recipient except as discussed below.

Other Stock-Based Awards and Incentive Awards. In many cases a stock-based award or an incentive award will be granted in a form in which we make a contractual commitment to deliver shares or pay cash to the recipient at a future date, subject to specified conditions such as performance or other vesting terms. The recipient will recognize ordinary income at the time he or she actually or constructively receives the payment of shares or cash, with the amount of ordinary income relating to shares to the fair market value of the shares at the time they are received by the recipient. At the time that the recipient recognizes ordinary income in respect of such an award, we would be entitled to a tax deduction for compensation expense equal to the amount of ordinary income recognized by the recipient, except as discussed below.

Any award that is deemed to be a deferral arrangement, that is, not excluded or exempted under the tax regulations, will be subject to Internal Revenue Code Section 409A. The establishment of the timing of any distribution of cash or shares under such an award, including any right of a participant to elect to defer compensation under such an award, must meet requirements under Section 409A in order for income taxation to be deferred upon vesting of the award and tax penalties avoided by the participant.

Compensation that qualifies as "performance-based" compensation is excluded from the \$1 million deductibility cap of Internal Revenue Code Section 162(m), and therefore would remain fully tax deductible by the company that pays it. Under the 2011 Plan, options and stock appreciation rights granted with an exercise price or base price at least equal to 100% of fair market value of the underlying stock at the date of grant, performance awards to employees the Compensation Committee expects to be named executive officers, other than the Chief Financial Officer, at the time compensation is received and certain other awards which are conditioned upon achievement of performance goals generally will be intended to qualify as such "performance-based" compensation. A number of requirements must be met in order for particular compensation to so qualify, however, so there can be no assurance that such compensation under the 2011 Plan will be fully deductible under all circumstances. In addition, other awards under the 2011 Plan, such as non-performance-based restricted stock and restricted stock units, generally will not so qualify, so that compensation paid to certain executives in connection with such awards may, to the extent it and other compensation subject to Section 162(m)'s deductibility cap exceed \$1 million in a given year, not be deductible by us as a result of Section 162(m). Compensation to certain employees resulting from vesting of awards in connection with a change in control or termination following a change in control also may be non-deductible by us under Internal Revenue Code Sections 4999 and 280G.

The foregoing is only a summary of the effect of federal income taxation upon us and the participants under the 2011 Plan. This discussion is not intended as tax guidance to participants in the 2011 Plan, as the consequences may vary with the types of awards made, the identity of the recipients and the method of payment or settlement. Different tax rules may apply, including in the case of variations in transactions that are permitted under the 2011 Plan, such as payment of the exercise price of an option by surrender of previously acquired shares, or in the event of the participant's death. The summary does not address in any detail the effects of other federal taxes, including possible "golden parachute" excise taxes, or taxes imposed under the tax laws of any state, municipality, or foreign country in which the participants may reside.

Restrictions Under Securities Laws

The sale of all shares issued under the 2011 Plan must be made in compliance with federal and state securities laws. Our officers, directors and 10% or greater stockholders, as well as certain other persons or parties who may be deemed to be "affiliates" of ours under federal securities laws, should be aware that resales by affiliates can only be made pursuant to an effective registration statement, Rule 144 or other applicable exemption. Our officers, directors and 10% and greater stockholders may also become subject to the "short swing" profit rule of Section 16(b) of the Securities Exchange Act of 1934.

SELLING SECURITY HOLDERS

At September 24, 2012 there were 43,168,837 shares of our common stock issued and outstanding. The information under this heading relates to resales of shares covered by this prospectus by persons who are our "affiliates" as that term is defined under federal securities laws. These persons will be members of our board of directors, executive officers and/or employees of our company. Shares issued pursuant to this prospectus to our affiliates are "control" shares under federal securities laws.

The following table sets forth:

.

the name of each affiliated selling security holder,

.

the amount of common stock owned beneficially, directly or indirectly, by each affiliated selling security holder,

.

the maximum amount of shares to be offered by the affiliated selling security holders pursuant to this prospectus, and

.

the amount of common stock to be owned by each affiliated selling security holder following sale of the shares.

Beneficial ownership is determined in accordance with the rules of the SEC and generally includes voting or investment power with respect to securities and includes any securities which the person has the right to acquire within 60 days through the conversion or exercise of any security or other right. The information as to the number of shares of our common stock owned by each affiliated selling security holder is based upon our books and records and the information provided by our transfer agent.

We may amend or supplement this prospectus from time to time to update the disclosure set forth in the table.

Because the selling security holders identified in the table may sell some or all of the shares owned by them which are included in this prospectus, and because there are currently no agreements, arrangements or understandings with

respect to the sale of any of the shares, no estimate can be given as to the number of shares available for resale hereby that will be held by the affiliated selling security holders upon termination of the offering made hereby. We have therefore assumed, for the purposes of the following table, that the affiliated selling security holders will sell all of the shares owned by them, which are being offered hereby, but will not sell any other shares of our common stock that they presently own.

Persons who receive stock grants under the 2011 Plan and/or the non-plan employee options and are deemed affiliates, may effect sales of shares of common stock covered hereby not in excess of 1% of our outstanding common stock in any three-month period.

Grants may be made to affiliates in the future which we are not able to identify at this time. Before any of our affiliates sell any of his shares received under the 2011 Plan and/or the non-plan employee options, we will supplement this prospectus with the required information regarding the names of the persons selling, the total number of shares owned by these persons and the number of shares proposed to be sold under this prospectus.

PLAN OF DISTRIBUTION

The information under this heading includes resales of shares covered by this prospectus by persons who are our "affiliates" as that term is defined under federal securities laws.

The shares covered by this prospectus may be resold and distributed from time to time by the selling security holders in one or more transactions, including ordinary broker's transactions, privately-negotiated transactions or through sales to one or more broker-dealers for resale of these shares as principals, at market prices existing at the time of sale, at prices related to existing market prices, through Rule 144 transactions or at negotiated prices. The selling security holders in connection with sales of securities may pay usual and customary, or specifically negotiated, brokerage fees or commissions.

The selling security holders may sell shares in one or more of the following methods, which may include crosses or block transactions:

- on the New York Stock Exchange or on such exchange or in over-the-counter market on which our shares may be listed or quoted from time-to-time, in transactions which may include special offerings, exchange distributions and/or secondary distributions, pursuant to and in accordance with the rules of such exchanges, or through brokers, acting as principal or agent;
- in transactions other than on such exchanges or in the over-the-counter market, or a combination of such transactions, including sales through brokers, acting as principal or agent, sales in privately negotiated transactions, or dispositions for value, subject to rules relating to sales by affiliates; or
- through the writing of options on our shares, whether or not such options are listed on an exchange, or other transactions requiring delivery of our shares, or the delivery of our shares to close out a short position.

Any such transactions may be effected at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices.

In making sales, brokers or dealers used by the selling security holders may arrange for other brokers or dealers to participate. The selling security holders who are affiliates of our company and others through whom such securities are sold may be "underwriters" within the meaning of the Securities Act of 1933 for the securities offered,

and any profits realized or commission received may be considered underwriting compensation. Information as to whether an underwriter(s) who may be selected by the selling security holders, or any other broker-dealer, is acting as principal or agent for the selling security holders, the compensation to be received by underwriters who may be selected by the selling security holders, or any broker-dealer, acting as principal or agent for the selling security holders and the compensation to be received by other broker-dealers, in the event the compensation of other broker-dealers is in excess of usual and customary commissions, will, to the extent required, be set forth in a supplement to this prospectus. Any dealer or broker participating in any distribution of the shares may be required to deliver a copy of this prospectus, including the supplement, if any, to any person who purchases any of the shares from or through a dealer or broker.

We have advised the selling security holders that, at the time a resale of the shares is made by or on behalf of a selling security holder, a copy of this prospectus is to be delivered.

We have also advised the selling security holders that during the time as they may be engaged in a distribution of the shares included herein they are required to comply with Regulation M of the Securities Exchange Act of 1934. With certain exceptions, Regulation M precludes any selling security holders, any affiliated purchasers and any broker-dealer or other person who participates in the distribution from bidding for or purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of the distribution until the entire distribution is complete. Regulation M also prohibits any bids or purchase made in order to stabilize the price of a security in connection with the distribution of that security.

Sales of securities by us and the selling security holders or even the potential of these sales may have an adverse effect on the market price for shares of our common stock.

INDEMNIFICATION

The Tennessee Business Corporation Act provides that a corporation may indemnify any of its directors and officers against liability incurred in connection with a proceeding if:

.
the director or officer acted in good faith;

.
in the case of conduct in his or her official capacity with the corporation, the director or officer reasonably believed such conduct was in the corporation's best interest;

.
in all other cases, the director or officer reasonably believed that his or her conduct was not opposed to the best interest of the corporation; and

.
in connection with any criminal proceeding, the director or officer had no reasonable cause to believe that his conduct was unlawful.

In actions brought by or in the right of the corporation, however, the Tennessee Business Corporation Act provides that no indemnification may be made if the director or officer was adjudged to be liable to the corporation. In cases where the director or officer is wholly successful, on the merits or otherwise, in the defense of any proceeding instituted because of his or her status as an officer or director of a corporation, the Tennessee Business Corporation Act mandates that the corporation indemnify the director or officer against reasonable expenses incurred in the proceeding. The Tennessee Business Corporation Act also provides that in connection with any proceeding charging improper personal benefit to an officer or director, no indemnification may be made if the officer or director is adjudged liable on the basis that personal benefit was improperly received. Notwithstanding the foregoing, the Tennessee Business Corporation Act provides that a court of competent jurisdiction, upon application, may order that an officer or director be indemnified for reasonable expenses if, in consideration of all relevant circumstances, the court determines that the individual is fairly and reasonably entitled to indemnification, notwithstanding the fact that:

the officer or director was adjudged liable to the corporation in a proceeding by or in the right of the corporation;

.

the officer or director was adjudged liable on the basis that personal benefit was improperly received by him or her; or

.

the officer or director breached his or her duty of care to the corporation.

Our board of directors has adopted these provisions to indemnify our directors, executive officers and agents.

The Tennessee Business Corporation Act also provides that a corporation may limit the liability of a director for monetary damages in the event of a breach of fiduciary duty. Our shareholders approved an amendment to our charter to provide for this limitation on our directors' liability.

Insofar as the limitation of, or indemnification for, liabilities arising under the Securities Act of 1933 may be permitted to directors, officers, or persons controlling us pursuant to the foregoing, or otherwise, we have been advised that, in the opinion of the Securities and Exchange Commission, such limitation or indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.

Item 4. Description of Securities.

A description of the registrant's securities is set forth in the prospectus incorporated as a part of this registration statement.

Item 5. Interests of Named Experts and Counsel.

Not applicable.

Item 6. Indemnification of Directors and Officers.

The Tennessee Business Corporation Act provides that a corporation may indemnify any of its directors and officers against liability incurred in connection with a proceeding if:

.
the director or officer acted in good faith;

.
in the case of conduct in his or her official capacity with the corporation, the director or officer reasonably believed such conduct was in the corporation's best interest;

.
in all other cases, the director or officer reasonably believed that his or her conduct was not opposed to the best interest of the corporation; and

.
in connection with any criminal proceeding, the director or officer had no reasonable cause to believe that his conduct was unlawful.

In actions brought by or in the right of the corporation, however, the Tennessee Business Corporation Act provides that no indemnification may be made if the director or officer was adjudged to be liable to the corporation. In cases where the director or officer is wholly successful, on the merits or otherwise, in the defense of any proceeding instituted because of his or her status as an officer or director of a corporation, the Tennessee Business Corporation Act mandates that the corporation indemnify the director or officer against reasonable expenses incurred in the proceeding. The Tennessee Business Corporation Act also provides that in connection with any proceeding charging improper personal benefit to an officer or director, no indemnification may be made if the officer or director is adjudged liable on the basis that personal benefit was improperly received. Notwithstanding the foregoing, the Tennessee Business Corporation Act provides that a court of competent jurisdiction, upon application, may order that an officer or director be indemnified for reasonable expenses if, in consideration of all relevant circumstances, the court determines that the individual is fairly and reasonably entitled to indemnification, notwithstanding the fact that:

.
the officer or director was adjudged liable to the corporation in a proceeding by or in the right of the corporation;

.
the officer or director was adjudged liable on the basis that personal benefit was improperly received by him or her; or

.
the officer or director breached his or her duty of care to the corporation.

Our board of directors has adopted these provisions to indemnify our directors, executive officers and agents.

The Tennessee Business Corporation Act also provides that a corporation may limit the liability of a director for monetary damages in the event of a breach of fiduciary duty. Our shareholders approved an amendment to our charter to provide for this limitation on our directors' liability.

Insofar as the limitation of, or indemnification for, liabilities arising under the Securities Act of 1933 may be permitted to directors, officers, or persons controlling us pursuant to the foregoing, or otherwise, we have been advised that, in the opinion of the Securities and Exchange Commission, such limitation or indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.

Item 9. Undertakings.

The undersigned registrant hereby undertakes:

1. To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:

- i. To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;
- ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the

aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospects filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in the volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

- iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

2. That, for the purpose of determining liability under the Securities Act of 1933, each post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the end of the offering.

4. That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering shall be deemed to be part of an included in the registration statement as of the date it is first used after effectiveness.

The undersigned registration hereby undertakes that, for the purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be in the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
