PROPOSED REVERSE STOCK SPLIT

At the Company's Annual Meeting of Shareholders on April 4, 2002, the shareholders approved a 1 for 3.5 reverse split of the outstanding shares of the Company's Common stock in connection with the Company's application to list its Common stock on the American Stock Exchange. One of the requirements for listing on the American Stock Exchange is that the stock be trading at a price of at least \$3.00 per share. Since the time of the shareholder approval of the reverse split at the Annual Meeting, the market price of the Company's stock has declined to a point where the implementation of a reverse split of the magnitude that was approved would not have the desired effect of meeting the minimum price requirements of the American Stock Exchange. Accordingly, the Board of Directors has proposed that the previously authorized 1 for 3.5 share reverse stock split be abandoned in favor of implementing a 1 for 10 share reverse split. There are presently 52,671,128 shares outstanding, and the reverse split would therefore reduce this number to approximately 5,267,113 shares. No fractional shares would be issued and instead a whole share would be issued to any shareholder entitled to a fraction of a share. During the last six months the Company's Common stock has been trading in the approximate range of \$0.51 to \$1.62 per share.

The Board of Directors still believes that it is in the best interests of the Company and its shareholders to pursue a listing on the American Stock Exchange or some other suitable exchange to provide greater exposure for the Company in the investment community and to provide greater liquidity for the Company's shareholders.

In the event that the reverse stock split is not approved by the Company's shareholders, it is likely that the Company's Common stock will not be accepted for listing on the American Stock Exchange. Even if the reverse stock split is approved, there can be no assurance that the Company's application for listing will be accepted. If the application is not accepted, it is expected that the Company's Common stock will continue to be quoted on the OTC Bulletin Board unless it can qualify to be listed on some other suitable exchange.

4

If the reverse stock split is approved, it will not occur until the Company receives approval of its listing application by the American Stock Exchange. If we are advised by the American Stock Exchange that the Company's application for listing will not be approved, then the reverse stock split will not occur.

It is anticipated that the reverse stock split would become effective approximately ten days after the Company receives approval of its listing application by the American Stock Exchange.

A reverse stock split has no federal income tax consequences in that it

Edgar Filing: BION ENVIRONMENTAL TECHNOLOGIES INC - Form PRE 14A

is a non-taxable distribution of the Company's stock under Section 305 of the Internal Revenue Code. A shareholder's basis in each 10 shares held before the reverse split will become the basis in one share after the reverse split.

Since no shareholder will be eliminated as the result of the proposed reverse stock split, shareholders will not be entitled to assert any rights of appraisal or other similar rights of dissenters under applicable state law. All shareholders will be treated equally under the proposed reverse stock split and no member of the Company's management or any of their associates has any substantial interest in its approval.

Shareholders who, after the reverse split, would hold less than 100 shares of the Company's Common Stock may have difficulty in selling their shares, or have to pay additional expenses or commissions when selling their shares.

VOTE REQUIRED FOR APPROVAL; BOARD RECOMMENDATION

The affirmative vote of a majority of the shares represented at the meeting, in person or by proxy, will be required to approve the proposed reverse stock split.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THIS PROPOSAL.

OTHER BUSINESS

As of the date of this Proxy Statement, management of the Company was not aware of any other matter to be presented at the Meeting other than as set forth herein. However, if any other matters are properly brought before the Meeting, the shares represented by valid proxies will be voted with respect to such matters in accordance with the judgment of the persons voting them. A majority vote of the shares represented at the meeting is necessary to approve any such matters.

DEADLINE FOR RECEIPT OF SHAREHOLDER PROPOSALS  
FOR THE ANNUAL MEETING TO BE HELD IN MARCH 2003

Any proposal by a shareholder intended to be presented at the Company's Annual Meeting of Shareholders to be held in March 2003 must be received at the offices of the Company, 18 East 50th Street, 10th Floor, New York, New York 10022, a reasonable amount of time prior to the meeting in order to be included in the Company's proxy statement and proxy relating to that meeting.
