4.1.2 Convertibility, Type and Form: The Debentures will be simple, non-convertible into shares, registered and book-entry.

4.1.3 Type: The Debentures will be unsecured, in accordance with article 58 of the Brazilian Corporate Law.

4.1.4 Term and Maturity Date: For all legal purposes, the Debentures will be mature in three (3) years after the Issuance Date (“Maturity Date”), with due date on March 16, 2018.

4.1.5 Unit Nominal Value: The unit nominal value of the Debentures will be ten million reais (R\$ 10.000.00) as of the Issuance Date (“Unit Nominal Value”).

4.1.6 Amount of Debentures Issued: Eighty thousand (80,000) Debentures will be issued.

4.2 Interest

4.2.1 Monetary Adjustment. The Unit Nominal Value of the Debentures will not be subject to monetary adjustment.

4.2.2 Interest. The Debentures will bear interest, after Issuance Date, on the unamortized Unit Nominal Value of the Debenture, to be paid at the end of each accrual period (“Accrual Period”), according to the formula below. The interest rate applicable to the Debentures will correspond to the accumulated variation of one hundred and eight point twenty-five percent (108.25%) of the average DI - Interbank Deposit rates for one (1) day, “over extra group” (“DI Rate”), expressed as a percentage per year on the basis of two hundred and fifty-two (252) business days, calculated and published by CETIP at Informativo Diário (Daily Bulletin), as available through its website (<http://www.cetip.com.br>) (“Interest”). Interest will be calculated on an exponential, cumulative, pro rata temporis basis, according to the number of business days elapsed, on the unamortized Unit Nominal Value of the Debentures from the Issuance Date, or the maturity date of the last Accrual Period, as applicable, to the date of actual payment, according to the following formula:

$I = NV_i \times (DI \text{ Factor} - 1)$, where:

“I” corresponds to the unit amount of interest due at the end of each Accrual Period, calculated with eight (8) decimal places with no rounding;

“ NV_i ” corresponds to the Unit Nominal Value at the issuance or the balance of the Unit Nominal Value of the Debenture, informed/calculated with eight (8) decimal places with no rounding;

“DI Factor” corresponds to the multiplication of the DI Rate using a percentage applied from and including the Accrual Period, calculated with eight (8) decimal places with rounding, as defined below:

$$DI \text{ Factor} = \prod_{j=1}^n (1 + DIR_k \times \frac{p}{100})$$

where:

“n” corresponds to the total number of DI-Over Rates considered in the Accrual Period, where “n” is an integer;

“p” corresponds to one hundred and eight point twenty-five (108.25);

“ DIR_k ” corresponds to the daily DI-Over Rate, calculated with eight (8) decimal places, with rounding, calculated as follows:

where:

“ DI_k ” corresponds to the DI-Over Rate published by CETIP, valid for one (1) business day (overnight), used with two (2) decimal places.

4.2.2.1 For the purpose of calculating the Interest:

i) the factor resulting from the expression $(1 + DIR_k \times \frac{p}{100})$ will be considered with sixteen (16) decimal places with no rounding;

ii) the daily factors are multiplied $(1 + DIR_k \times \frac{p}{100})$, where, for each daily factor accumulated, the result is truncated to sixteen (16) decimal places, then the next daily factor is applied, and so on up to the last one considered;

iii) once the factors are accumulated, the factor resulting from the “DI Factor” multiplication is considered with eight (8) decimal places with no rounding; and

iv) the DI Rate will be used considering an identical number of decimal places as published by CETIP.

“Accrual Period” is defined as the time interval beginning on the Issuance Date, in the case of the first period, or on the immediately preceding interest payment date, for the other periods, and ending on the interest payment date corresponding to the period. Each Accrual Period succeeds the previous one without interruption.

4.2.2.2 In case of temporary unavailability of the DI Rate upon the payment of any monetary obligation under this clause, it will be replaced with the same daily rate produced by the last known DI Rate, if any, on the calculation date, and no financial compensation will be due by the Issuer or the Debenture Holders upon the subsequent publication of the respective DI Rate.

4.2.2.3 Failing the setting and/or publication of the DI Rate for a period exceeding twenty (20) days after this date, or, further, in case of discontinuation of such rate or by operation of law, the Trustee shall call a General Meeting of Debenture Holders to define, by mutual agreement with the Issuer, the parameter to be applied. Until the date of the resolution by the General Meeting of Debenture Holders, the same daily rate produced by the last know DI Rate will be used for the calculation of the amount of any obligations under this clause.

4.2.2.4 In case there is no agreement on the substitute rate at the General Meeting of Debenture Holders held as set forth under section 4.2.2.3 above, between the Issuer and the Debenture holders representing at least seventy five percent (75%) of the Outstanding Debentures, Issuer hereby undertakes the obligation to redeem all the Outstanding Debentures, with consequent cancellation thereof, within forty five (45) days as of the date of the General Meeting of Debenture Holders is held, by the debt balance of the Unit Nominal Value of the Outstanding Debentures, increased by the Interest due and payable until the effective redemption date, calculated on pro rata temporis basis, from the Issuance Date or the last date of Payment of Interest, whichever is later. In this case, for calculating the Interest of the Debentures to be purchased, for each day of the period in which rates are absent, the last DI Rate officially disclose shall be used.

4.2.2.5 In case the DI Rate to be disclosed prior to the holding of the General Meeting of Debenture Holders referred to in section 4.2.2.3 above, said meeting shall no longer be held and the DI Rate, from its disclosure date, shall be used again for calculating the Interest.

4.3 Amortization. The Unit Nominal Value of the Debentures under this Offering will be amortized in one single installment due on the Maturity Date.

4.4 Interest Payment. The amounts relating to the Debenture Interest shall be paid on a half-yearly basis, in the months of March and September, as of the Issuance Date, the first payment being due on September 2015 and the subsequent ones consecutively until and including the maturity date.

4.5 Place of Payment. Payments on the Debentures will be made by Issuer with the application of the procedures adopted by CETIP for Debentures electronically held in custody at CETIP. The Debentures that are not electronically held in custody at CETIP shall be paid at the Settlement Bank and by the Designated Bookkeeping Agent or, as the case may be, the financial institution engaged for such purpose or further at the Issuer's head office, if the case may be.

4.6 Deadline Extension. Payment dates relating to any obligations falling on a non-banking business day in the City of Sao Paulo, State of Sao Paulo will be automatically extended to the next following business day, with no additions to the amounts to be paid, except the cases that the payments are to be made through CETIP, in which case the extension shall only apply when the payment date of the respective obligation falls on a Saturday, Sunday or on a holiday declared as national holiday.

4.7 Default Charges. In the event of delay by the Issuer in the payment of any amount due to the Debenture Holders, the overdue amounts will be subject to a non-compensatory default fine equal to two percent (2%) and default interest of one percent (1%) per month, both on the overdue amounts, from the default date to the date of effective payment, regardless of judicial or extrajudicial notice or communication.

4.8 Lapse of the Right to Additions. Without prejudice to the provisions set forth in item 4.7 above, the failure by the Debenture Holder to appear and receive the amount corresponding to any of Issuer's monetary obligations on the dates set forth in this Indenture or in a notice published by the Issuer shall not entitle him to receive interest and/or default charges during the period of the delay in the receipt; however, the Debenture Holder's rights vested up to the respective due date shall be secured.

4.9 Term, Form of Payment and Subscription. The Debentures shall be subscribed for Unit Nominal Value plus Interest, as defined below, calculated on a pro rata temporis basis from the Issuance Date. The Debentures shall be paid at sight, in the Brazilian currency, upon subscription, in compliance with the proceedings adopted by CETIP.

4.10 Renegotiation. There shall be no renegotiation of Debentures.

4.11 **Publicity.** All acts and decisions addressed to the Debenture Holders must be communicated, in the form of notices, through the Valor Economico newspaper, through the official bulletin of the organized over-the-counter market entity where the Debentures are traded, and through Issuer's website (www.ultra.com.br); further, the Issuer shall inform the Trustee in advance of any publication. In case Issuer changes its publication newspapers after the Issuance Date, it shall send a notice to the Trustee providing information on the new vehicle.

4.12 **Debenture Certificates and Proof of Ownership.** No Debenture certificates will be issued by the Issuer. For all legal purposes, the statement issued by the Designated Bookkeeping Agent will prove the ownership of Debentures, where the name of the Debenture Holders will be registered. Furthermore, the statement issued by CETIP in the name of the Debenture Holder, where the Debentures are electronically held in custody at CETIP, will be recognized as proof of ownership of the Debentures.

4.13 **Tax Immunity.** In the event that a Debenture Holder enjoys any kind of tax immunity or exemption, such Debenture Holder shall send to the Settlement Bank, within no more than ten (10) business days before the date scheduled for receipt of amounts relating to the Debentures, documents supporting such tax immunity or exemption, otherwise the amounts due under the prevailing tax laws shall be deducted from the income payable thereto.

9.7.1 The refund referred to in this item will be made within seven (7) business days, counting from the delivery to the Issuer the copy of the documents evidencing the expenses that have been actually incurred and are necessary to protect the rights of the Debenture Holders.

9.7.3 The credit of the Trustee for any expenses it may have incurred to protect the rights and interests or realize the credits of the Debenture Holders, which have not been paid pursuant to item 9.7.1 above, will be added to the Issuer's debt and will be under the same guarantees as those of the Debentures, in preference to them in the order of payment.

9.7.4 If any amount due to the Debenture Holders as a result of this Indenture is paid through a judicial action or if its collection is made through attorneys, the Issuer must pay, in addition to all amounts due under this Indenture and related to the Debentures, attorney's fees and other expenses and costs that may be incurred due to such collection.
