MANAGEMENT STATEMENT

Edgar Filing: DANA CORP - Form 10-K/A

We have prepared the accompanying consolidated financial statements and related information included herein for the three years ended December 31, 1999.

The management of Dana Corporation is primarily responsible for the accuracy of the financial information that is presented in this annual report. These statements were prepared in accordance with generally accepted accounting principles and, where appropriate, we used our estimates and judgment with consideration to materiality.

To meet management's responsibility for financial reporting, we have established internal control systems which we believe are adequate to provide reasonable assurance that our assets are protected from loss. These systems produce data used for the preparation of financial information.

We believe internal control systems should be designed to provide accurate information at a reasonable cost which is not out of line with the benefits to be received. These systems and controls are reviewed by our internal auditors in order to ensure compliance, and by our independent accountants to support their audit work.

The Audit Committee of the Board of Directors meets regularly with management, internal auditors and our independent accountants to review accounting, auditing and financial matters. Our Audit Committee is composed of only outside directors. This committee and the independent accountants have free access to each other with or without management being present.

We believe people are Dana's most important asset. The proper selection, training and development of our people is a means of ensuring that effective internal controls and fair, uniform reporting are maintained as standard practice throughout the Corporation.

[PricewaterhouseCoopers Logo]

To the Board of Directors and Shareholders
of Dana Corporation

In our opinion, the accompanying consolidated balance sheet and the related consolidated statements of income, of shareholders' equity and of cash flows, including pages 22 through 39, present fairly, in all material respects, the financial position of Dana Corporation and its subsidiaries at December 31, 1998 and 1999, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 1999 in conformity with accounting principles generally accepted in the United States. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States, which require that

Edgar Filing: DANA CORP - Form 10-K/A

we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.
