**Internal Talking Points on Express Scripts Proposed Acquisition of Caremark**

*The following is a set of talking points developed for use when talking to your teams about our proposed acquisition of Caremark.*

***The News...***

Express Scripts has proposed to acquire Caremark in a cash and stock transaction valued at approximately \$26 billion. Combined, the two companies will create the world's preeminent PBM.

***The Background...***

In November, Caremark announced a merger agreement with CVS. We believe our proposal is superior and more compelling for Caremark, its stockholders, plan sponsors and patients. That's our message to Caremark's management, Board and stockholders as we look forward to their support of our proposal.

***The Sequence...***

Ideally, Caremark's management and Board will determine that our proposal is superior to their current merger agreement, enter into discussions with us, and finalize an agreement with Express Scripts. Our strong preference is to work cooperatively with Caremark to complete this transaction. However, if necessary, Express Scripts is prepared to take our proposal directly to Caremark's stockholders and to solicit proxies opposing Caremark's acquisition by CVS.

***The Value...***

Express Scripts and Caremark represent a strong combination because:

The preeminent PBM will be fully aligned with its clients based on a legacy of independence.

We will have the size, scale and financial strength to expand our markets and enhance our value proposition – thus strengthening our competitive position.

The combined experience of Express Scripts and Caremark yields an unmatched ability to make the use of prescription drugs safer and more affordable through greater use of cost-effective generic and lower-cost brand drugs, specialty pharmacy, home delivery and flexible retail networks.

***The Commitment to Quality...***

Express Scripts and Caremark share a strong commitment to providing quality service and benefits to plan sponsors and patients. Our Board and management have great respect for Caremark, including its business, operations and employees.

***The Track Record...***

Express Scripts has a proven track record of acquiring and successfully integrating companies to maximize value for stockholders and clients. We have completed five significant acquisitions since 1998, including ValueRx, Diversified, NPA, CuraScript and Priority Healthcare.

***Business as Usual...***

It is not unusual for a transaction of this nature to take some time to complete, and we will continue to update you accordingly as the process unfolds. While we are working to make this transaction a reality, we need to remain focused on running our business. As always, it is important for the company to speak with one voice, so if you receive any calls from the media, please forward them to Steve Littlejohn at 314.702.7556.
