INFORMATION CONCERNING SOLICITATION AND VOTING

Solicitation

We will bear the entire cost of the solicitation, including the preparation, assembly, printing and mailing of this proxy statement, including the proxy card and any additional solicitation materials furnished to our shareholders. Copies of solicitation materials will be furnished to brokerage houses, fiduciaries and custodians holding shares in their names that are beneficially owned by others so that they may forward this solicitation material to such beneficial owners. We may reimburse these persons for their reasonable expenses in forwarding solicitation materials to beneficial owners. The original solicitation of proxies by mail may be supplemented by a solicitation by personal contacts, telephone, facsimile, electronic mail or any other means by our directors, officers or employees. No additional compensation will be paid to our directors, officers or employees for performing these services. Except as described above, we do not presently intend to solicit proxies other than by mail.

This proxy statement and the accompanying solicitation materials are being sent to our shareholders on or about October 29, 2007.

Revocation of Proxies

You may revoke your proxy at any time prior to the close of the polls at 23h00, Johannesburg time, on November 29, 2007 by (1) delivering a written notice of revocation or a duly executed proxy with a later date by mail to our corporate secretary at Net 1 UEPS Technologies, Inc., P O Box 2424, Parklands 2121, Gauteng, South Africa, or (2) attending the meeting and voting in person. If you hold shares through a bank or brokerage firm, you must contact that firm to revoke any prior voting instructions. However, if you are a shareholder whose shares are not registered in your own name, you will need documentation from your record holder stating your ownership as of October 19, 2007 in order to vote personally at the annual meeting.

Record Date, Quorum and Voting Requirements

Each holder of shares of our common stock and special convertible preferred stock outstanding on the close of business on October 19, 2007, the record date, is entitled to notice of and vote at the annual meeting or any adjournment thereof. There were 52,339,194 shares of common stock and 5,389,140 shares of special convertible preferred stock outstanding on the record date. The presence at the annual meeting, in person or by a proxy, of a majority of the total number of outstanding shares of common stock and special convertible preferred stock, or 28,864,168 shares, is necessary to constitute a quorum. Each share of common stock and special convertible preferred stock is entitled to one vote on all matters to be acted upon at the annual meeting. The common stock and the special convertible preferred stock vote together as one class. For purposes of the quorum and the discussion below regarding the vote necessary to take shareholder action, holders of record of common stock and special convertible preferred stock who are present at the annual meeting in person or by proxy and who abstain, including brokers holding customers' shares of record who cause abstentions to be recorded at the annual meeting, are considered shareholders who are present and entitled to vote and they count toward the quorum. In the event that there are not sufficient votes for a quorum or to approve any proposal at the annual meeting, the annual meeting may be adjourned in order to permit the further solicitation of proxies.

Brokers holding shares of record for customers generally are not entitled to vote on certain matters unless they receive voting instructions from their customers. Broker non-votes mean the votes that could have been cast on the matter in question if the brokers had received instructions from their customers, and as to which the brokers have notified us on a proxy form in accordance with industry practice or have otherwise advised us that they lack voting authority.

Table of Contents

Under the rules that govern brokers who are voting with respect to shares held in a fiduciary capacity, brokers have the discretion to vote shares on routine matters, but not on non-routine matters. Routine matters include the election of directors and ratification of independent registered public accountants.

Broker non-votes are not considered shares entitled to vote on the matter and therefore will not be taken into account in determining the outcome of the vote on the matter.

All outstanding shares of common stock and special convertible preferred stock represented by valid and unrevoked proxies received in time for the annual meeting will be voted. Shares will be voted as instructed in the accompanying proxy on each matter submitted to shareholders. A shareholder may, with respect to the election of directors (1) vote for the election of the named director nominees, (2) withhold authority to vote for all such director nominees or (3) vote for the election of all such director nominees other than any nominee(s) with respect to whom the shareholder withholds authority to vote by writing such nominee's name on the proxy in the space provided. A shareholder may, with respect to each other matter specified in the notice of meeting (1) vote **FOR** the matter, (2) vote **AGAINST** the matter or (3) **ABSTAIN** from voting on the matter. If no instructions are given on a properly completed and returned proxy, the shares will be voted **FOR** the election of the named director nominees and **FOR** the ratification of the selection of Deloitte & Touche (South Africa) as our independent registered public accounting firm for the fiscal year ending June 30, 2008.

Our seven nominees will be elected by a plurality of votes. Withholding a vote as to any nominee is the equivalent of abstaining. In an uncontested election such as this, abstentions have no effect, since approval by a specific percentage of the shares present or outstanding is not required. With respect to the proposal to ratify the selection of Deloitte & Touche (South Africa) as our independent registered public accounting firm, the proposal will be approved if the votes cast in favor of the proposal exceed the number of votes cast against the proposal, and abstentions will not be taken into account in determining the outcome of the vote on this proposal.

The Board knows of no additional matters that will be presented for consideration at the annual meeting. Return of a valid proxy, however, confers on the designated proxy holders the discretionary authority to vote the shares in accordance with their best judgment on such other business, if any, that may properly come before the meeting or any adjournment or postponement thereof. Proxies solicited hereby will be tabulated by inspectors of election designated by the Board.

PROPOSALS TO BE VOTED ON AT THE ANNUAL MEETING

PROPOSAL NO. 1: ELECTION OF DIRECTORS

The terms of office of each of our current directors will expire at the annual meeting or at such time as their successors shall be elected and qualified. The Board has determined to nominate for re-election each of our current directors (see **Information Regarding the Board and Board Committees** for information on all directors) for a one-year term expiring at the annual meeting of shareholders in 2008 or until their successors shall be duly elected and qualified.

The persons named in the enclosed proxy intend to vote properly executed and returned proxies **FOR** the election of all nominees proposed by the Board unless authority to vote is withheld. In the event that any nominee is unable or unwilling to serve, the persons named in the proxy will vote for such substitute nominee or nominees as they, in their discretion, shall determine. The Board has no reason to believe that any nominee named herein will be unable or unwilling to serve.

The Board recommends that you vote **FOR election of each of its director nominees.**

PROPOSAL NO. 2: RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board has proposed that the firm of Deloitte & Touche (South Africa), or Deloitte, be selected to serve as independent registered public accounting firm for the fiscal year ending June 30, 2008. A representative of Deloitte is expected to be present at the annual meeting. Such representative will have an opportunity to make a statement if he or she desires to do so and is expected to be available to respond to appropriate questions from shareholders. Deloitte currently serves as our independent registered public accounting firm.

We are asking our shareholders to ratify the selection of Deloitte as our independent registered public accounting firm. Although ratification is not required by our by-laws or otherwise, the Board is submitting the selection of Deloitte to our shareholders for ratification as a matter of good corporate practice. In the event our shareholders fail to ratify the appointment, the Audit Committee may reconsider this appointment. Even if the selection is ratified, the Audit Committee in its discretion may select a different registered public accounting firm at any time during the year if it determines that such a change would be in our best interests and the best interests of our shareholders.

The Board recommends a vote FOR ratification of Deloitte.

REMUNERATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Our Remuneration Committee consists of Messrs. Alasdair J. K. Pein, the committee's chairperson, Christopher S. Seabrooke, Florian P. Wendelstadt and Antony C. Ball. None of the members of our Remuneration Committee has at any time been one of our officers or employees. Pursuant to the common stock purchase agreement, dated January 30, 2004, between us and SAPEF, SAPEF is entitled to designate three nominees to our Board. SAPEF informally agreed to reduce the number of its designated nominees from three to two due to the reduction in the number of our shares that SAPEF holds. Messrs. Ball and Pein currently serve on our Board as SAPEF's designees.

Pursuant to the stock purchase agreement, dated July 18, 2005, among the investment entities affiliated with GA, us and certain other parties, GA is entitled to designate one nominee to our Board. This designee is currently Mr. Wendelstadt. In addition, pursuant to the stock purchase agreement, we granted rights, under certain circumstances and subject to certain limitations, with respect to the registration of our shares held by investment entities affiliated with GA.

NOMINATIONS PROCESS AND DIRECTOR QUALIFICATIONS

The Nominating and Corporate Governance Committee reviews with the Board the skills and characteristics required of Board members. The committee will consider a candidate's independence, as well as the perceived needs of the Board and the candidate's background, skills, business experience and expected contributions. At a minimum, members of the Board must possess the highest professional ethics, integrity and values, and be committed to representing the long-term interests of our shareholders. They must also have an inquisitive and objective perspective, practical wisdom and mature judgment. The committee may also take into account the benefits of diverse viewpoints, as well as the benefits of constructive working relationships among directors.

The Nominating and Corporate Governance Committee also reviews and determines whether existing members of the Board should stand for re-election, taking into consideration matters relating to the number of terms served by individual directors and the changing needs of the Board. We do not have a limit on the number of terms an individual may serve as a director on our Board.

The Nominating and Corporate Governance Committee utilizes a variety of methods for identifying and evaluating nominees for director. The committee regularly assesses the appropriate composition, size and independence of the Board, and whether any vacancies are expected due to change in employment or otherwise. In the event that vacancies are anticipated, or otherwise arise, the committee considers various potential candidates for director. Candidates are evaluated at regular or special meetings of the Nominating and Corporate Governance Committee, and may be considered at any point during the year. The committee will consider shareholder recommendations for candidates for the Board that are properly submitted in accordance with our by-laws in the same manner it considers nominees from other sources. In evaluating such recommendations, the committee will use the qualifications standards described above and will seek to achieve a balance of knowledge, experience and capability on the Board.

Mr. Seabrooke received annual compensation of USD74,300 (ZAR 525,000) for his services as a non-executive director and chairman of various of our Board committees for the year ended June 30, 2007. The Remuneration Committee has approved annual compensation of USD100,000 for Mr. Seabrooke's services for the year ending June 30, 2008. Upon his appointment to the Board in 2005, Mr. Seabrooke received options to purchase 41,667 shares of our common stock.

Table of Contents

Mr. Edwards received annual compensation of USD51,300 (ZAR 367,500) for his services as non-executive director for the year ended June 30, 2007. The Remuneration Committee has approved annual compensation of USD65,000 for Mr. Edwards' services for the year ending June 30, 2008. Upon his appointment to the Board in 2005, Mr. Edwards received options to purchase 41,667 shares of our common stock.

Compensation paid to Messrs. Seabrooke and Edwards was determined after analyzing the annual compensation of non-executive directors of U.S.-listed transaction processor companies with market capitalizations comparable to ours. The analysis for the 2008 fiscal year was performed in August 2007 and the peer group comprised: Moneygram International, Heartland Payments, Global Payments, Inc., Wright Express Corp., and Euronet Worldwide, Inc. The peer group composition used for determining our non-executive directors' compensation is different from the peer group used to determine our executive officers' compensation as discussed in the Compensation Discussion and Analysis portion of this proxy statement because of the consolidation in the payment processor sector which has occurred since February 2007 when our executive officers' compensation was determined. Messrs. Seabrooke and Edwards receive a fixed annual fee for their services.

Messrs. Ball and Pein serve as directors pursuant to an agreement between us and investment entities affiliated with Brait S.A. Upon their appointment to the Board in 2005, each of Mr. Ball and Mr. Pein received options to purchase 41,667 shares of our common stock.

Mr. Wendelstadt serves as a director pursuant to an agreement between us and investment entities affiliated with GA. Under this agreement, we are required to reimburse Mr. Wendelstadt's travel and accommodation expenses incurred in connection with his attendance at our Board and committee meetings. Although Mr. Wendelstadt traveled regularly to attend meetings, he did not claim any reimbursements in the fiscal 2007 year.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

The goal of our executive compensation program is the same as our goal for operating the company to create long-term value for our shareholders. To achieve this goal, we seek to reward our executive officers for sustained financial and operating performance and leadership excellence, to align their interests with those of our shareholders and to encourage them to remain with us for long and rewarding careers. This section of the proxy statement explains how our compensation program is designed and operates in practice with respect to the four individuals who comprise our executive officers: our Chief Executive Officer, our Chief Financial Officer, our Senior Vice President-Marketing and Sales and our Senior Vice President-Information Technology. Our executive officers have the broadest job responsibilities and are the only individuals who have policy-making authority.

Each element of our executive compensation program is designed to fulfill one or more of our performance, alignment and retention objectives. These elements consist of salary, bonus and both equity and non-equity incentive compensation. In determining the type and amount of compensation for each executive officer, we focus on both current pay and the opportunity for future compensation and seek to combine compensation elements so as to optimize his or her contribution to us. We adjust the mix of our compensation components from year to year based on our overall performance, an executive's individual contributions and compensation practices of other US and South African public companies including companies in our peer group described below. We do not have an exact formula for allocating between cash and non-cash compensation. We do, nonetheless, provide for a balanced mix of compensation components that are designed to encourage and reward behavior that promotes shareholder value in both the short and long-term.

Table of Contents

Compensation Objectives

Performance. Each of our executive officers has had a long and distinguished career with us. We reward excellent performance by our executive officers and motivate them to continue to produce superior, long-term results through a combination of cash bonuses, incentive payments that depend on achievement of pre-defined levels of financial and operating goals and equity awards in the form of stock options or restricted stock that derive their value from increases in our share price and/or satisfaction of other financial performance goals. Base salary, bonus and non-equity incentive compensation are designed to reward annual achievements and be commensurate with each executive officer's scope of responsibility, demonstrated ingenuity, dedication and leadership and management effectiveness. Equity incentive compensation focuses on achievement of longer term results.

Alignment. We seek to align the interests of our executive officers with our shareholders by evaluating them on the basis of financial and non-financial measurements that we believe correlate to long-term shareholder value. Financial measures include growth in revenues, EBITDA and earnings per share (on both a South African rand and U.S. dollar basis), while non-financial measures include international expansion of our UEPS technology and the achievement of strategic operational goals. The elements of our compensation package that we believe align these interests most closely are stock option awards which increase in value as our stock price increases and restricted stock awards which vest over time and upon the satisfaction of our performance goals.

Retention. Management and the Remuneration Committee recognize that the talent pool in South Africa is more limited than in other more developed countries. Therefore, retention is a key objective of our executive compensation program. We attempt to retain our key employees, including our executive officers, by seeking to provide a competitive pay package and using continued service as a condition to receipt of full compensation. The extended vesting terms of stock options and restricted stock awards have the effect of tying this element of compensation to continued service with us.

Implementing our Objectives

Process for Determining Compensation. A substantial amount of the Remuneration Committee's responsibilities and efforts relate to the determination of compensation for our executive officers. The Remuneration Committee obtains compensation data compiled from executive compensation surveys as well as data gathered from annual reports and proxy statements of companies that it selects as a peer group for executive compensation analysis purposes. The Remuneration Committee's goal is that the total cash compensation for our executive officers be at the 75th percentile and the overall equity compensation for executive officers should be within the range of the 50th to 75th percentiles when our financial performance equals the average of our peer group companies. Because of the high proportion of cash compensation that is at risk, the Remuneration Committee reserves the right to adjust total cash compensation to be higher or lower, when our financial performance exceeds that of our peer group companies or is lower than that of our peer group companies, as the case may be. Our peer group consists of payment processing companies generally considered comparable to us as well other companies within the information technology sector and those engaged in emerging markets. The Remuneration Committee's intent generally is to choose peer group members that have one or more attributes significantly similar to us, such as that of being a payment systems provider. Our peer group, which includes both United States and United Kingdom listed companies, consists of the following companies: Ceridian Corporation, Checkfree Services Corp., Global Payments, Inc., MoneyGram International, Datatec Ltd. and Dimension Data Holdings Plc.

Table of Contents

The Remuneration Committee's process for determining compensation includes an analysis, for each executive officer, of all elements of compensation. The Remuneration Committee compares these compensation components separately and in total to compensation at the peer group companies. The Remuneration Committee sets the compensation of our Chief Financial Officer based on the total compensation package of our Chief Executive Officer. Specifically, the Remuneration Committee's goal is to set our Chief Financial Officer's compensation at approximately 35-40% of our Chief Executive Officer's total compensation package. Each of our other executive officers' compensation is then set at approximately 50% of the compensation of our Chief Financial Officer. Because the Remuneration Committee considers international comparables in its compensation analysis for both our Chief Executive Officer and Chief Financial Officer, their total compensation packages are denominated in U.S. dollars but paid in South African Rand at the exchange rate in effect at the time of payment. Our other executive officers' compensation packages are also denominated in U.S. dollars and paid in South African Rand at the exchange rate in effect at the time of payment. In the first and second quarters of each year, the Remuneration Committee establishes base salaries and sets the short term variable bonus remuneration targets and payment criteria, as well as how the achievement of such criteria affects the achievement of variable compensation. Following the end of each fiscal year, the Remuneration Committee determines the annual incentive cash payments and bonuses, if any, to be made to each executive officer based on their and our performance during the fiscal year.

Before the Remuneration Committee makes decisions on compensation for the year, it discusses with our Chief Executive Officer each executive officer's performance during the year, his or her accomplishments and specific areas of progress. Our Chief Executive Officer bases his evaluation on his knowledge of each executive officer's performance (with due regard to the operational environment) and targets that have been set for a particular performance period. The executive officers are then evaluated based on their individual performance during the fiscal year. The Chief Executive Officer makes a recommendation to the Remuneration Committee on each executive officer's compensation, except for his own and the Chief Financial Officer's compensation. Executive officers do not propose or seek approval for their own compensation. Our Chief Executive Officer's and Chief Financial Officer's annual performance review is developed by the Remuneration Committee as a whole. For our Chief Executive Officer's and Chief Financial Officer's reviews, formal feedback is received from the independent directors.

The independent directors perform reviews, which are completed and presented to the Chief Executive Officer before the Remuneration Committee determines base salary, bonus and incentive award targets and equity awards. In determining base salary, target bonus amounts and equity awards, the Remuneration Committee reviews our performance as well as individual performance information and our peer group executive compensation data.

The Remuneration Committee also consults with management regarding non-executive officer employee compensation and is responsible for approving all awards under our Amended and Restated 2004 Stock Incentive Plan.

Table of Contents

Equity Grant Practices. We believe that long-term performance is achieved through a culture that encourages such performance by our executive officers through the use of stock and stock-based awards. Accordingly, awards of stock options and restricted stock are a fundamental element in our executive compensation program because they emphasize long-term performance, as measured by creation of shareholder value, and foster a commonality of interest between shareholders and employees. We have granted equity awards primarily through our Amended and Restated 2004 Stock Incentive Plan, which was adopted by our Board of Directors and approved by our shareholders, to permit the grant of stock options and other stock-based awards to our employees, directors and consultants. Options granted under the said plan vest ratably over a period of five years after grant unless otherwise provided in a particular award agreement and have ten-year terms from the date of grant. In determining the size of an equity award to an executive officer, the Remuneration Committee considers the executive's then current total compensation package (which includes salary, potential bonus and cash incentive plan compensation), any previously received equity awards, the value of the grant at the time of award and the number of grants available for executive compensation pursuant to our Amended and Restated 2004 Stock Incentive Plan. As discussed in more detail below under *Elements of 2007 Compensation*, the Remuneration Committee has not yet established a regular cycle of equity grants. Since we became a Nasdaq-listed company in August 2005, the Remuneration Committee has approved one grant of options to executive officers and other employees (in August 2006) and one grant of restricted stock to executive officers and other employees (in August 2007).

We adopted FASB Statement No. 123 (revised 2004), *Share-Based Payments* (FAS 123R) at the beginning in fiscal 2006 and, therefore, record stock-based compensation charges over the vesting term of the equity award. When awarding equity compensation, management and the Remuneration Committee seek to weigh the cost of these grants with their potential benefits as a compensation tool. We believe that combining grants of stock options and restricted stock effectively balances our objective of focusing our employees, including our executive officers, on delivering long-term value to our shareholders, with our objective of providing value to our employees with the equity awards. Stock options have value only to the extent that our stock price on the date of exercise exceeds the stock price on the date of grant, and thus are an effective compensation tool only if the stock price appreciates during the vesting term. In this sense, stock options are a motivational tool. Awards of restricted stock that include financial performance-based vesting over a stated period of time not only serve to encourage retention and motivate our employees for superior performance but also mitigate the effects of share price volatility and changes in the currency exchange rates. Such changes in the currency exchange rates affect our reported results of operations because our functional currency is the South African Rand and we report in U.S. dollars.

No Employment Agreements. Our executive officers are employed on an at will basis, without employment agreements, severance payment arrangements (except as required by local labor laws), or payment arrangements that would be triggered by a change in control. The absence of such arrangements enables us to terminate the employment of our executive officers with discretion as to the terms of any severance arrangement. This is consistent with our performance-based employment and compensation philosophy. We do have restraint of trade agreements with each of our executive officers. The terms of these agreements provide that upon the termination of the executive's employment, the executive is restricted, for a period of 24 months, from soliciting business from certain customers, working for or holding interests in our competitors or participating in a competitive activity within the territories where we do business.

Table of Contents

Considerations Regarding Tax Deductibility of Compensation. Section 162(m) of the U.S. tax code places a limit of \$1 million on the amount of compensation that we may deduct in any one year with respect to each of its executive officers (other than the Chief Financial Officer, to whom these limits do not currently apply). Certain qualified performance-based compensation is not subject to this deduction limit. Our stock option awards under the Amended and Restated 2004 Stock Incentive Plan have been structured with the intention that the compensation the executives will realize when the stock options are exercised will be qualified performance-based compensation not subject to the limitations imposed by Section 162(m). However, to maintain flexibility in compensating our executive officers in a manner designed to promote our various corporate goals, it is not a policy of the Remuneration Committee that all executive compensation must be tax-deductible. For example, the bonuses and non-equity incentive compensation payments made to our executive officers are not qualified performance-based compensation and may be subject to the tax deduction limitations imposed by Section 162(m). Similarly, the restricted stock granted to our executive officers, the vesting of which is conditioned upon satisfaction our performance goals, may be subject to the tax deductibility limitations imposed by Section 162(m) because the Remuneration Committee retained flexibility to adjust the performance goals to reflect extraordinary events. The Remuneration Committee believes that the importance of retaining this flexibility outweighs the benefits of tax deductibility.

Compensation Consultants. Neither we nor the Remuneration Committee have any contractual arrangement with any compensation consultant or used the services of any compensation consultant who has a role in determining or recommending the amount or form of executive officer compensation.

Elements of 2007 Compensation

There are four elements that comprised our compensation program in fiscal 2007: (i) base salary; (ii) cash incentive awards for our Chief Executive Officer and Chief Financial Officer; (iii) bonus and (iv) equity incentive awards. In addition, we cover all costs for security guards for our Chief Executive Officer. We did not provide any other type of compensation, retirement, healthcare, or welfare benefits to any of our executive officers.

Base Salary. Salaries for fiscal 2007 were set in November 2006 after a review of our peer group companies described above. The 2007 base salaries were set in accordance with the peer group analysis discussed above. However, in January 2007, the Remuneration Committee approved an increase in our Chief Executive Officer's base salary after reviewing compensation data of chief executive officers of comparable companies, including those in our peer group.

Table of Contents

Cash Incentive Awards. During fiscal 2007, the Remuneration Committee established a cash incentive plan for the Chief Executive Officer and the Chief Financial Officer pursuant to which these officers became eligible to receive a cash incentive payment of up to 100% and 75%, respectively, of their respective annual salaries upon the achievement of certain performance targets with respect to the 2007 fiscal year. In determining the cash incentive awards for the Chief Executive Officer and Chief Financial Officer, the Remuneration Committee set certain separate quantitative and qualitative criteria for each such executive officer. With respect to the Chief Executive Officer, 60% of the cash incentive award was based on pure EPS growth of 20% - 25% (after reversing the stock-based compensation charge, amortization of intangible assets and costs related to an acquisition that we ultimately decided not to pursue) with a weighting between USD and ZAR, respectively, of 60%/40%. The Remuneration Committee determined that 40% of the cash incentive award to be granted to the Chief Executive Officer would be based on the achievement of certain qualitative goals including: (i) achievement of operational milestones, (ii) the successful integration of key staff, (iii) appointment of a chief operating officer and (iv) further international progress. Likewise, with respect to the Chief Financial Officer, 70% of the cash incentive award was based on pure EPS growth of 20% - 25% (after reversing the stock-based compensation charge, amortization of intangible assets and costs related to an acquisition that we ultimately decided not to pursue) with a weighting between USD and ZAR, respectively, of 60%/40%. The Remuneration Committee also determined that 30% of the cash incentive award to be granted to the Chief Financial Officer would be based on the achievement of certain qualitative goals including: (i) integration of Prism Holdings senior accounting staff into our operations, and (ii) the successful performance of such tasks as the Chief Executive Officer may reasonably require of the Chief Financial Officer.

Following the end of fiscal 2007, the Remuneration Committee determined that the quantitative requirements had been satisfied and that the qualitative requirements had been sufficiently achieved by each of the Chief Executive Officer and the Chief Financial Officer to justify full cash incentive awards, which were subsequently paid in September 2007. Aside from our achieving the required EPS growth, the Remuneration Committee also considered certain qualitative achievements in the 2007 fiscal year in its decision to grant the full cash incentive awards to the Chief Executive Officer and the Chief Financial Officer which included (i) advancements in international growth such as the implementation of new UEPS systems, particularly in developing economies outside our current markets in South Africa, (ii) operational efficiencies in South Africa, (iii) guidance and input provided in the SASSA tender response and (iv) time spent by our executives on the acquisition we ultimately decided not to pursue.

The Remuneration Committee has tentatively agreed to similar quantitative requirements for the 2008 fiscal year and is in the process of finalizing the qualitative requirements for the 2008 fiscal year.

Bonus. Bonuses may be awarded for accomplishments during the previous fiscal year and are designed to be commensurate with the executive's scope of responsibilities, demonstrated leadership abilities, management experience and effectiveness. Likewise, with respect to the Chief Executive Officer and the Chief Financial Officer, bonuses may be paid for performance based on factors external to the ones considered in determining the payment of the cash incentive awards described above. Bonuses are determined by the Remuneration Committee with advice from management, based upon the Remuneration Committee's assessment of the individual's contributions during the year, compared to, but not limited to, a list of individualized goals previously approved by management and the Remuneration Committee. The goal of this element of compensation focuses on motivating and challenging the executive to achieve superior, longer term, sustained results. The Remuneration Committee did not grant any bonus awards in the 2007 fiscal year to our Chief Executive Officer and Chief Financial Officer as it is of the opinion that the cash incentive awards adequately compensated these executives. Our Vice-President - Sales and Marketing and Vice-President - Information Technology received bonuses as a result of their contributions to our advancements in international growth and development of new innovative products.

Table of Contents

Equity Incentive Awards. On August 24, 2006, our executive officers were awarded stock options to purchase an aggregate of 160,000 shares of our stock under the Plan in the amounts indicated in the section below entitled Grants of Plan-Based Awards in 2007 Fiscal Year. In addition, employees who were not executive officers received grants of stock options to purchase 409,120 shares. All of these awards were contingent upon shareholder approval, which was obtained, of an amendment and restatement of our 2004 Stock Incentive Plan, which, among other things, increased the number of shares available for grant thereunder. The August 2006 grants represented the first equity awards granted since June 2004 when we completed the acquisition of Aplitec. After the 2004 grants, there remained no additional shares available for grant under the 2004 Stock Incentive Plan. The August 2006 grants were approved at a regularly scheduled meeting of the Remuneration Committee at which time the Committee also approved an increase in the number of shares available under the 2004 Stock Incentive Plan, subject to shareholder approval.

The stock options granted in August 2006 vest in 20% increments on May 8th of 2007, 2008, 2009, 2010 and 2011, so long as the recipient remains employed with us through the applicable vesting date. In August 2007, the Remuneration Committee approved grants of 591,500 shares of restricted stock (145,000 shares of which were granted to the executive officers). The primary purpose of these grants was to encourage retention and reward our positive financial performance. One-third of the award shares will vest on each of September 1, 2009, 2010 and 2011. Vesting of the award shares is conditioned upon each recipient's continuous service through the applicable vesting date and our achieving the financial performance target set for that vesting date. The vesting provisions of the August 2006 stock option awards and the August 2007 restricted stock awards are described more fully below the Grants of Plan-Based Awards Table on page 19 of this proxy statement.

REMUNERATION COMMITTEE REPORT

The following narrative, tables and footnotes describe the total compensation earned during fiscal 2007 by our executive officers. The total compensation presented below in the Summary Compensation Table does not reflect the actual compensation received by our executive officers in fiscal 2007 or the target compensation of our executive officers in fiscal 2007. The actual value realized by our executive officers in fiscal 2007 from long-term equity incentives (options and restricted stock) is presented in the Options Exercised and Stock Vested Table on page 22 of this proxy statement. Target annual incentive awards for fiscal 2007 are presented in the Grants of Plan-Based Awards table on page 19 of this proxy statement. The amounts reflected in the Summary Compensation Table for stock awards and option awards are the non-cash expense recognized by us for financial statement reporting purposes with respect to fiscal 2007 for all such awards, including those granted in prior fiscal years, in accordance with FAS 123R.

providing for a
payment of
100% of annual

following
quantitative and

requirements
were met by
Dr. Belamant
during our fiscal
2007 year:

Quantitative: 60% of the cash incentive award based on pure EPS growth of 20% - 25% (after reversing the stock-based compensation charge, amortization of intangible assets and costs related to an acquisition that we ultimately decided not to pursue) with a weighting between USD and ZAR, respectively, being 60%/40%.

Qualitative: 40% of the cash incentive award was awarded at the discretion of the Remuneration Committee having regard to the following:

achievement of operational milestones;

integration of key staff;

appointment of a chief operating officer; and

further international progress.

The achievement of the qualitative requirement only represents the minimum amount payable (Threshold \$ 000) for a certain level of performance. Our Remuneration Committee determined that Dr. Belamant satisfied the quantitative requirements and that the qualitative requirements had been sufficiently achieved to justify his full cash incentive award which was paid in September 2007.

Table of Contents

(3) The Remuneration Committee approved a cash incentive plan providing for a payment of 75% of base annual salary, or \$350,000, if the following quantitative and qualitative requirements were met by Mr. Kotzé during our fiscal 2007 year:

Quantitative: 70% of the cash incentive award based on pure EPS growth of 20% - 25% (after reversing the stock-based compensation charge, amortization of intangible assets and costs related to an acquisition that we ultimately decided not to pursue) with a weighting between USD and ZAR, respectively, being 60%/40%.

Qualitative: 30% of the cash incentive award was awarded at the discretion of the Remuneration Committee having regard to the following:

integration of Prism senior accounting into our operations; and

performance of such tasks as Dr. Belamant may reasonably require.

The achievement of the qualitative requirement only represents the minimum amount payable (Threshold \$ 000) for a certain level of performance. Our Remuneration Committee determined that Mr. Kotzé met all quantitative and qualitative requirements and his full cash incentive award was paid in September 2007.

(4) Represents the grant date fair value of stock options granted on August 24, 2006 computed in accordance with FAS 123R.

(5) The exercise price of these option awards differs from the closing market price on the date of grant. The exercise price was determined based on the average of the high and low price of our common stock on the date of grant.

The stock options granted in August 2006 have a ten-year term and vest in 20% increments on May 8th of 2007, 2008, 2009, 2010 and 2011, so long as the recipient remains employed with us through the applicable vesting date. In determining the vesting dates of equity-based awards granted in 2006, the Remuneration Committee was mindful of current South African tax law, which applies to substantially all of our employees, and which subjects employees to taxation when their options become exercisable, regardless of whether the options have been exercised. Therefore, the Remuneration Committee believes that it is important to provide employees, especially non-executive officer employees, with the ability to exercise their options and sell the underlying shares shortly after vesting in order to provide the employees with cash to pay their income taxes. However, since most non-executive officer employees do not as a practical matter have access to brokers who can assist them in a sale of their shares, the Remuneration Committee believes that it would be beneficial for employees if we were to facilitate annual block trades of shares acquired upon exercise. Thus, the Remuneration Committee selected May 8 as the annual vesting date because it was anticipated to be several days after release of our third quarter earnings report and therefore, sales of shares at or about that time would not be subject to restrictions on trading under our insider trading policy.

Table of Contents

In August 2007, the Remuneration Committee approved grants of 591,500 shares of restricted stock (145,000 shares of which were granted to the executive officers). The primary purpose of these grants was to encourage retention and reward our positive financial performance. One-third of the award shares will vest on each of September 1, 2009, 2010 and 2011. Vesting of the award shares is conditional upon each recipient's continuous service through the applicable vesting date and our achieving the financial performance target set for that vesting date. Specifically, the financial performance targets were set based on a 20% increase, compounded annually, in fundamental earnings per share (diluted) (expressed in South African rand) above the fundamental EPS for the fiscal year ended June 30, 2007; provided, however, that in the case of Dr. Belamant and Mr. Kotzé, the annual required increase is 25% rather than 20%. For this purpose, fundamental EPS are calculated by adjusting GAAP earnings per share (diluted) (as reflected in our audited consolidated financial statements) to exclude the effects related to the amortization of intangible assets, stock-based compensation charges, one-time, large, unusual expenses as determined in the discretion of the Remuneration Committee, and assuming a constant tax rate of 30%. If the fundamental EPS for the specified fiscal year does not equal or exceed the fundamental EPS target for such year, no award shares will vest or become nonforfeitable on the corresponding vesting date. Any award shares that do not vest and become nonforfeitable because the fundamental EPS target is not met for the specified fiscal year remain outstanding and are available to vest and become nonforfeitable as of a subsequent vesting date if the fundamental EPS target for a subsequent fiscal year is met; provided that the recipient's service continues through such subsequent vesting date. Any outstanding award shares that have not vested and become nonforfeitable as of September 1, 2011, will be forfeited by the recipient on September 1, 2011 and transferred to us for no consideration.

The fundamental EPS targets will be proportionately adjusted by the Remuneration Committee for any stock split, reverse stock split, stock dividend, share combination, recapitalization or similar event effected subsequent to the date of grant. The Remuneration Committee, in its sole discretion, may adjust the targets as it considers in good faith to be appropriate to reflect extraordinary items including, without limitation, the charges or costs associated with our restructuring, discontinued operations, other unusual or nonrecurring items, and the cumulative effects of accounting changes.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

As described above under Compensation Discussion and Analysis , we do not have employment, severance or change of control agreements with our employees, including the executive officers. Accordingly, there would be no compensation, other than that prescribed by local labor laws in the case of unfair dismissal or retrenchment, that would become payable under the existing plans and arrangements if the employment of any of our executive officers had terminated on June 30, 2007. We do not have any on-going obligation to provide post-termination benefits to our employees after termination of employment.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Review and Approval of Related Person Transactions

We review all relationships and transactions in which we and our directors and executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest. Our management is primarily responsible for the development and implementation of processes and controls to obtain information from the directors and executive officers with respect to related person transactions and for then determining, based on the facts and circumstances, whether we or a related person has a direct or indirect material interest in the transaction. As required under SEC rules, transactions that are determined to be directly or indirectly material to us or a related person are disclosed in our proxy statement. In addition, our Audit Committee reviews and approves or ratifies any related person transaction that is required to be disclosed. In the course of its review and approval or ratification of a disclosable related party transaction, our Audit Committee considers:

the nature of the related person's interest in the transaction;

the material terms of the transaction, including, without limitation, the amount and type of transaction;

the importance of the transaction to the related person;

the importance of the transaction to us;

whether the transaction would impair the judgment of a director or executive officer to act in our best interest; and

any other matters the committee deems appropriate.

Any member of the Audit Committee who is a related person with respect to a transaction under review may not participate in the deliberations or vote respecting approval or ratification of the transaction, provided, however, that such director may be counted in determining the presence of a quorum at a meeting of the committee that considers the transaction.

Related Party Transactions

Pursuant to the common stock purchase agreement, dated January 30, 2004, between us and SAPEF, SAPEF is entitled to designate three nominees to our Board. SAPEF has informally agreed to reduce the number of its designated nominees from three to two due to the recent reduction in the number of our shares that SAPEF holds. Messrs. Ball and Pein currently serve on our Board as SAPEF's designees.

Table of Contents

Pursuant to the stock purchase agreement, dated July 18, 2005, among the investment entities affiliated with GA, us and certain other parties, GA is entitled to designate one nominee to our Board. We are currently negotiating a registration rights agreement with SAPEF and GA.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board consists of three independent directors, as required by Nasdaq listing standards. The Audit Committee operates under a written charter adopted by the Board and available on our website at www.net1ueps.com. The Audit Committee is responsible for overseeing our financial reporting process on behalf of the Board. The members of the Audit Committee are Messrs. Seabrooke, Pein and Edwards. The committee selects, subject to shareholder ratification, our independent registered public accounting firm.

Management is responsible for our financial statements and the financial reporting process, including internal controls. The independent registered public accounting firm is responsible for performing an independent audit of our consolidated financial statements in accordance with auditing standards generally accepted in the United States and of our internal control over financial reporting and for issuing a report thereon. The committee's responsibility is to monitor and oversee these processes.

In this context, the Audit Committee has met and held discussions with management and Deloitte & Touche (South Africa), or Deloitte, our independent registered public accounting firm. Management represented to the Audit Committee that the consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the committee reviewed and discussed the consolidated financial statements with management and Deloitte. The Audit Committee discussed with Deloitte the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements of Auditing Standards AU §380), as may be modified or supplemented. These matters included a discussion of Deloitte's judgments about the quality (not just the acceptability) of our accounting principles as applied to our financial reporting.

Deloitte also provided the Audit Committee with the written disclosures and letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Audit Committee discussed with Deloitte the firm's independence. The committee further considered whether the provision by Deloitte of the non-audit services described above is compatible with maintaining the auditors' independence.

Based upon the Audit Committee's discussion with management and Deloitte and the Audit Committee's review of the representations of management and the disclosures by Deloitte to the Audit Committee, the committee recommended to the Board that our audited consolidated financial statements be included in our Annual Report on Form 10-K for the year ended June 30, 2007, for filing with the SEC.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS**

The following table presents, as of October 19, 2007, information about beneficial ownership of our common stock by:

each person or group of affiliated persons who or which, to our knowledge, owns beneficially more than 5% of our outstanding shares of common stock;

each of our directors and named executive officers; and

all of our directors and executive officers as a group.

Beneficial ownership of shares is determined in accordance with SEC rules and generally includes any shares over which a person exercises sole or shared voting or investment power. The beneficial ownership percentages set forth below are based on 52,339,194 shares of common stock and 5,389,140 shares of special convertible preferred stock outstanding as of October 19, 2007. All shares of common stock into which any named person can cause to be converted their special convertible preferred stock and all shares of common stock underlying stock options that are presently exercisable or exercisable within 60 days after October 19, 2007 by each person are deemed to be outstanding and beneficially owned by that person for the purpose of computing the ownership percentage of that person, but are not considered outstanding for the purpose of computing the percentage ownership of any other person. Each share of our outstanding special convertible preferred stock votes together with our common stock on a one vote per share basis. Voting power percentage is based on an aggregate 57,728,334 shares of common stock and special convertible preferred stock outstanding as of October 19, 2007.

Unless otherwise indicated, to our knowledge, each person listed in the table below has sole voting and investment power with respect to the shares shown as beneficially owned by such person, except to the extent applicable law gives spouses shared authority. Except as otherwise noted, each shareholder's address is c/o Net 1 UEPS Technologies, Inc., President Place, 4th Floor, Cnr. Jan Smuts Avenue and Bolton Road, Rosebank, Johannesburg, South Africa.

Section 16(a) of the Exchange Act requires that our executive officers and directors, and persons who own more than ten percent of a registered class of our equity securities, file reports of ownership and changes in ownership with the SEC and provide us with copies of such reports.
