NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all normal, recurring adjustments necessary for a fair statement of results for such periods. The results for any interim period are not necessarily indicative of those for the full year. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes for the year ended December 31, 2007. Certain reclassifications have been made to the prior period financial statements to conform to the current period presentation. Also, we have revised the prior period condensed consolidated statement of financial position at December 31, 2007 to account for sale agreements entered into on to-be-announced (TBA) mortgage-backed securities. These TBA s were previously accounted for as short securities sales and are now recorded as derivative transactions. This revision reduces securities owned by \$5 million, securities sold, not yet purchased, at fair value by \$65 million, increases Payables to brokers, dealers and clearing agencies by \$60 million. There is no impact to the condensed consolidated statement of operations. We do not believe this revision is material to any of the previously issued financial statements, based on our assessment performed in accordance with the SEC s Staff Accounting Bulletin (SAB) No. 99.

In March 2008, the FASB issued FASB 161, Disclosures about Derivative Instruments and Hedging Activities (FASB 161). FASB 161 amends and expands the disclosure requirements of FASB 133, Accounting for Derivative Instruments and Hedging Activities , and requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair values and amounts of gains and losses on derivative contracts and disclosures about credit-risk-related contingent features in derivative agreements. FASB 161 is effective for the fiscal years and interim periods beginning after November 15, 2008. The Company is currently assessing the impact of FASB 161 on the consolidated statement of financial condition and results of operations.

In April of 2008, the FASB issued FSP 142-3, Determination of the Useful Life of Intangible Assets (FSP 142-3). FSP 142-3 is intended to improve the consistency between the useful life of a recognized intangible asset and the period of expected cash flows used to measure the fair value of the asset. The effective date for FSP 142-3 is for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP No. 142-3 on the consolidated statement of financial condition and results of operations.

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles (SFAS No. 162). SFAS No. 162 sets forth the level authority attributed to a given accounting pronouncement. SFAS No. 162 contains no specific disclosure requirements. The effective date for implementation has yet to be determined.

In May 2008, the FASB issued SFAS No. 163, Accounting for Financial Guarantee Contracts (SFAS No. 163). SFAS No. 163 requires disclosure of insurance enterprise s risk-management activities. The effective date for SFAS No. 163 is for fiscal years beginning after December 15, 2008. SFAS No. 163 is not applicable to the Company.

In June 2008, FASB issued EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities (EITF 03-06-1). EITF 03-06-1 applies to the calculation of earnings per share under FASB No. 128 Earnings Per Share for share-based payment awards with rights to dividends or dividend equivalents. Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method. The effective date for EITF 03-6-1 is for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of EITF 03-6-1 on the consolidated statement of financial condition and results of operations.

In October 2008, the FASB issued FSP FAS 157-3, Determining the Fair Value of a Financial Asset When the Market for that Asset is not Active (FSP FAS 157-3). FSP FAS 157-3 is consistent with the joint press release the FASB issued with the Securities and Exchange

Commission on September 30, 2008, which provides general clarification guidance on determining fair value under FASB 157 when markets are inactive. FSP FAS 157-3 specifically addresses the use of judgment in determining whether a transaction in a dislocated market represents fair value, the inclusion of market participant risk adjustments when an entity significantly adjusts observable market data based on unobservable inputs, and the degree of reliance to be placed on broker quotes or pricing services. FSP FAS 157-3 is effective October 10, 2008 and is not expected to have a material effect on our consolidated financial statements.

2. Earnings Per Common Share

The Company calculates its basic and diluted earnings per share in accordance with Statement of Financial Accounting Standards No. 128, *Earnings Per Share*. Basic earnings per share are computed based upon weighted-average shares outstanding during the period. Dilutive earnings per share is computed consistently with the basic computation while giving effect to all dilutive potential common shares that were outstanding during the period. The Company uses the treasury stock method to reflect the potential dilutive effect of unvested stock awards, unexercised options and any contingently issued shares (see Temporary Capital note).

The weighted-average shares outstanding as calculated are as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2008	2007	2008	2007
Weighted average shares for basic earnings per share	70,139,716	20,388,132	67,526,046	17,202,217
Effect of dilutive common equivalent shares				
Weighted average shares and dilutive common stock equivalents for diluted earnings per share	70,139,716	20,388,132	67,526,046	17,202,217

For the three months and nine months ended September 30, 2008, the Company excluded approximately 3.1 million and 2.9 million restricted stock units, respectively, in its computation of dilutive earnings per share because they were anti-dilutive. Had the Company been in a net income situation for the period such restricted stock units would have been included in the computation. Also, for the three months and nine months ended September 30, 2007, the Company excluded approximately 0.3 million restricted stock units in its computation of diluted earnings per share in both periods because they were anti-dilutive. Had the Company been in a net income situation such restricted stock units would have been included in the computation. For the three months and nine months ended September 30, 2008, the Company excluded approximately 2.1 million and 2.3 million of options, respectively, in its computation of dilutive earnings per share because they were anti-dilutive. Had the Company been in a net income situation such options would have been included in the computation. Also, for the three months and nine months ended September 30, 2007, the Company excluded approximately 0.0 million of options in its computation of diluted earnings per share. For the three months and nine months ended September 30, 2008, the Company excluded approximately 3.7 million and 4.7 million of restricted stock awards, respectively, in its computation of dilutive earnings per share because they were anti-dilutive. Had the Company been in a net income situation such options would have been included in the computation. Also, for the three months and nine months ended September 30, 2007, the Company excluded approximately 0.0 million restricted stock units in its computation of diluted earnings. In addition, at September 30, 2008 and September 30, 2007, approximately 6.2 million and 1.9 million shares of restricted stock awards (see Benefit Plans note), which are included in shares outstanding and are excluded from

weighted average shares used in the basic earnings per share computation because they were not vested as of September 30, 2008 and September 30, 2007, respectively.

3. Receivables from and Payables to Brokers, Dealers and Clearing Agencies

Amounts receivable from and payable to brokers, dealers and clearing agencies consist of the following:

<i>(In thousands of dollars)</i>	September 30 2008	December 31 2007
Adjustment to record securities owned on a trade date basis, net	\$	\$ 88
Securities failed-to-deliver		142
Syndicate receivables	955	939

Total receivables	\$ 14,799	\$ 2,921
Payable to clearing agencies	\$318,963	\$144,711
Securities failed-to-receive		3,869
Total payables	\$318,963	\$148,580

Proprietary securities transactions are recorded on trade date, as if they had settled. The related amounts receivable and payable for unsettled securities transactions are recorded net in receivables or payables to brokers, dealers and clearing agencies on the unaudited condensed consolidated statements of financial condition.

4. Receivables from and Payables to Customers

At September 30, 2008 there were no receivables from or payables to customers.

At December 31, 2007, receivables from and payables to customers were mainly comprised of purchases or sales of securities by institutional customers. Delivery or receipt of these securities is made only when the Company is in receipt of the funds or securities from institutional customers.

The Company's broker-dealer subsidiaries are parties to clearing agreements with clearing agents in connection with their securities trading activities. If the clearing agent incurs a loss, it has the right to pass the loss through to such subsidiaries which, as a result, exposes the Company to off-balance-sheet risk. The subsidiaries have retained the right to pursue collection or performance from customers who do not perform under their contractual obligations and monitors customer balances on a daily basis along with the credit standing of the clearing agent. As the potential amount of losses during the term of this contract has no maximum, the Company believes there is no maximum amount assignable to this indemnification.

During 2007 and through the second quarter of 2008, Broadpoint Capital, Inc. (Broadpoint Capital), the Company's broker-dealer subsidiary, was self-clearing for transactions executed with institutional customers. Broadpoint Capital's non-institutional customer securities transactions, including those of officers, directors, employees and related individuals, were cleared through a third party under a clearing agreement. Under this agreement, the clearing agent executed and settled customer securities transactions, collected margin receivables related to these transactions, monitored the credit standing and required margin levels related to these customers and, pursuant to margin guidelines, required the customer to deposit additional collateral with them or to reduce positions, if necessary. In the event the customer was unable to fulfill its contractual obligations, the clearing agent had the option of either purchasing or selling the financial instrument underlying the contract, and as a result might have incurred a loss for which the clearing agent could have sought indemnification from Broadpoint Capital in the manner described in the prior paragraph.

5. Financial Instruments

The company adopted the provisions of SFAS No. 157 Fair Value Measurements (SFAS No. 157) effective January 1, 2008. Under this standard, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (*i.e.*, the exit price) in an orderly transaction between market participants at the measurement date.

Table of Contents

BROADPOINT SECURITIES GROUP, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

SFAS No. 157 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1: Quoted prices in active markets that the reporting entity has the ability to access at the reporting date, for identical assets or liabilities. Prices are not adjusted for the effects, if any, of the reporting entity holding a large block relative to the overall trading volume (referred to as a blockage factor)

Level 2: Directly or indirectly observable prices in active markets for similar assets or liabilities; quoted prices for identical or similar items in markets that are not active; inputs other than quoted prices (e.g., interest rates, yield curves, credit risks, volatilities); or market corroborated inputs

Level 3: Unobservable inputs that reflect management's own assumptions about the assumptions market participants would make.

The availability of observable inputs can vary from product to product and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair Valuation Methodology

Cash Instruments These financial assets represent cash in banks or cash invested in liquid money market funds. These investments are valued at par and are reported as Level 1.

Securities Owned/Securities Sold But Not Yet Purchased These financial assets represent investment in fixed income and equity securities.

Fixed income securities which are traded in active markets include on the run treasuries, investment grade debt, asset and mortgage backed securities including to-be-announced (TBAs), and corporate debt. The treasuries and TBAs are traded in active, highly liquid markets. These assets are classified as Level 1. As there is no quoted market for investment grade debt, asset and mortgage backed securities, and corporate debt, the Company utilizes observable market factors in determining fair value. These financial instruments are reported as Level 2. In certain circumstances, the Company may utilize unobservable inputs that reflect management's own assumptions about the assumptions market participants would make. These financial assets are reported as Level 3.

In determining fair value for Level 2 financial instruments, management utilizes benchmark yields, reported trades as provided by TRACE for comparable trade sizes, issuer spreads, two sided markets, benchmark securities, bids and offers. These inputs relate either directly to the financial asset being evaluated or indirectly to a similar security (for example, another bond of the same issuer or a bond of a different issuer in the same industry with similar maturity, terms and conditions). Additionally for certain mortgage backed securities, management also considers various characteristics such as issuer, underlying collateral, prepayment speeds, cash flows and credit ratings.

In determining fair value for Level 3 financial instruments, management maximizes the use of Level 2 inputs when available. Management utilizes factors such as bids that were received on the last day of the month, spreads to the yield curve on similar offered financial assets, or comparing spreads to similar financial assets that traded and had been priced through an independent pricing source. Management considers these pricing methodologies consistent

with assumptions in how other market participants value certain financial assets. These pricing methodologies involve management judgment and as a result, lead to a Level 3 classification.

Management then evaluates the fair value against other factors and valuation models it deems relevant. These factors may be a recent purchase or sale of the financial asset at a price that differs from the fair value based upon observable inputs or economic events that impact the value of the asset such as liquidity in the market, political events or observations of equity curves related to the issuer. These same factors are utilized to value Level 3 financial assets where no observable inputs are available.

Equity securities are valued at quoted market prices. These financial assets are reported as Level 1. When quoted prices are not available, valuation models are applied to these financial assets. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity. Accordingly, these financial assets are recorded as Level 3.

Derivatives In connection with mortgage-back securities trading, the Company hedges its exposure through the use of to-be-announced (TBA) securities. These derivatives are traded in an active quoted market and therefore are classified as Level 1.

Investments These financial assets represent investments in partnerships.

Valuation models are applied to the underlying investments of the partnership which are important inputs into the valuation of the partnership interests. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity. Accordingly, these investments in partnerships are recorded as Level 3.

Transfers Assets will transfer in and out of Level 3 based upon widening and tightening of spreads due to increased or decreased volumes and liquidity. During the third quarter of 2008, there was a widening of spreads due to increased volumes and increased liquidity. As a result, approximately \$13 million of assets classified as Level 3 in the second quarter of 2008 were transferred out into Level 2.

Investments in privately held companies include an investment of \$15.1 million in FA Technology Ventures L.P. (the Partnership), which represented the Company's maximum exposure to loss in the Partnership at September 30, 2008. The investment in the Partnership at September 30, 2007 was \$14.1 million. The Partnership's primary purpose is to provide investment returns consistent with the risk of investing in venture capital. At September 30, 2008 and September 30, 2007, total Partnership capital for all investors in the Partnership equaled \$57.9 million and \$55.0 million, respectively. The Partnership is considered a variable interest entity. The Company is not the primary beneficiary, due to other investors' level of investment in the Partnership. Accordingly, the Company has not consolidated the Partnership in these financial statements, but has only recorded the fair value of its investment. FA Technology Ventures Corporation (FATV), a wholly-owned subsidiary, is the investment advisor to the Partnership. Revenues derived from the management of this investment and the Employee Investment Funds (as defined below) for the nine-month period ended September 30, 2008 and 2007 were \$0.6 million and \$0.7 million in consolidation, respectively. (See Commitments and Contingencies, Note 10 for further information regarding FATV). The Company has consolidated its Employee Investment Funds (EIF). The EIF are limited liability companies, established by the Company for the purpose of having select employees invest in private equity securities. The EIF is managed by Broadpoint Management Corp., a wholly-owned subsidiary, which has contracted with FATV to act as an investment advisor with respect to funds invested in parallel with the Partnership. The Company's carrying value of the EIF at September 30, 2008 and September 30, 2007 is \$0.1 million and \$0.2 million, respectively, excluding the effects of consolidation. The Company has outstanding loans of \$0.3 million from the EIF and is also committed to loan an additional \$0.2 million to the EIF. The effect of consolidation at September 30, 2008 was to increase Investments by \$1.4 million, decrease Receivable from Others by \$0.3 million and increase payable to others by \$1.1 million. The amounts in payable to others relates to the value of the EIF owned by employees. (See Commitments and Contingencies, Note 10 for further information regarding EIF).

9. Payables to Others

Amounts payable to others consisted of the following at:

	September 30 2008	December 31 2007
<i>(In thousands of dollars)</i>		
Drafts payable	\$ 191	\$ 173
Payable to Employees for the Employee Investment Funds (see Investments, Note 8)	1,096	1,158
Payable to Sellers of Descap Securities, Inc. (see Commitments and Contingencies, Note 10)		1,036
Others	255	570
Total	\$ 1,542	\$ 2,937

The Company maintains a group of zero balance bank accounts which are included in payable to others on the Statement of Financial Condition. Drafts payable represent amounts related to outstanding checks that have not yet been presented for payment at the bank. The Company has sufficient funds on deposit to clear these checks, and these funds will be transferred to the zero-balance accounts upon presentment. The Company maintained one zero balance account which was used as a cash management technique, permitted under Rule 15c3-3 of the Securities and Exchange Commission, to obtain federal funds for a fee, which is lower than prevailing interest rates, in amounts equivalent to amounts in customers segregated funds accounts with a bank. This cash management technique was discontinued in September 2007.

10. Commitments and Contingencies**Commitments:***FA Technology Ventures*

As of September 30, 2008, the Company had a commitment to invest up to an additional \$1.3 million in the Partnership. The investment period expired in July 2006, however, the general partner of the Partnership, FATV GP LLC (the General Partner), may continue to make capital calls up through July 2011 for additional investments in portfolio companies and for the payment of management fees. The Company intends to fund this commitment from operating cash flow. The Partnership's primary purpose is to provide investment returns consistent with risks of investing in venture capital. In addition to the Company, certain other limited partners of the Partnership are officers or directors of the Company. The majority of the commitments to the Partnership are from non-affiliates of the Company.

The General Partner is responsible for the management of the Partnership, including among other things, making investments for the Partnership. The members of the General Partner are George McNamee, a Director of the Company, Broadpoint Enterprise Funding, Inc., a wholly owned subsidiary of the Company, and certain other employees of FATV. Subject to the terms of the partnership agreement, under certain conditions, the General Partner is entitled to share in the gains received by the Partnership in respect of its investment in a portfolio company.

As of September 30, 2008, the Company had an additional commitment to invest up to \$0.1 million in EIF. The investment period expired in July 2006, but the General Partner may continue to make capital calls up through July 2011 for additional investments in portfolio companies and for the payment of management fees. The Company anticipates that this will be funded by the Company through operating cash flow.

On April 30, 2008, the Company entered into a Transition Agreement (the "Transition Agreement") with FATV, FA Technology Holding, LLC ("NewCo"), Mr. McNamee, and certain other employees of FATV (such individuals, collectively, the "FATV Principals"), to effect a restructuring of the investment management arrangements relating to the Partnership, and the formation of FA Technology Ventures III, L.P., a new venture capital fund ("Fund III"). This restructuring will result in FATV ceasing to advise the Partnership and the creation of a new investment advisory company ("NewCo"). Fund III will be sponsored and managed by NewCo (which is independent of the Company and owned by certain of the FATV Principals) and its subsidiaries. The Company's Audit Committee approved of the Transactions pursuant to its Related Party Transactions Policy.

Concurrent with the first closing of Fund III (the "Trigger Date"), FATV will assign all of its rights, interests, obligations and liabilities as investment advisor to the Partnership to NewCo. FATV will continue to operate consistent with current practice (operations, staffing and expenses) for the purpose of performing its duties to the Partnership, and the Company will provide funding for such operations through the date that is the earlier to occur of (i) the Trigger Date and (ii) December 31, 2008.

Pursuant to the Transition Agreement, and subject to certain conditions, the Company will make a capital commitment of \$10 million to Fund III (the "Broadpoint Commitment") at the closing of Fund III at which the total commitments to Fund III (excluding the Broadpoint Commitment) exceed a threshold amount. If such threshold is not met by June 30, 2009, the Company's obligation to make the Broadpoint Commitment shall terminate. The Company will also receive an equity interest in the general partner of Fund III, subject to the making of the Broadpoint Commitment. In addition, the Company will have the right to receive additional compensation for capital commitments made to Fund III from certain investors introduced by its affiliates.

It is also contemplated that, on the Trigger Date, each of the FATV Principals will resign from FATV and/or the Company, as the case may be. The Company has also agreed to assign to NewCo the name "FA Technology."

Mandatory Redeemable Preferred Stock

On June 27, 2008 the Company entered into a Preferred Stock Purchase Agreement (the "Preferred Stock Purchase Agreement") with Mast Credit Opportunities I Master Fund Limited, a Cayman Islands corporation ("Mast") for the issuance and sale of (i) 1,000,000 newly-issued unregistered shares of Series B Mandatory Redeemable Preferred Stock of the Company, par value \$1.00 per share (the "Series B Preferred Stock") and (ii) warrant to purchase 1,000,000 shares of the Company's common stock, par value \$0.01 per share (the "Common Stock"), at an exercise price of \$3.00 per share, for an aggregate cash purchase price of \$25 million (the "Preferred Private Placement"). Cash dividends of 10 percent per annum must be paid quarterly on the Series B Preferred Stock, while an additional dividend of 4 percent per annum accrues and is cumulative, if not otherwise paid quarterly at the option of the Company. The Series B Preferred Stock must be redeemed on or before June 27, 2012. (See "Mandatory Redeemable Preferred Stock, Note 11.")

The redemption prices are as follows:

Date	Premium Call Factor
Prior to and including June 26, 2009	1.07
From June 27, 2009 to December 27, 2009	1.06
From December 28, 2009 to June 27, 2010	1.05

Contingent Consideration: On May 14, 2004, the Company acquired 100 percent of the outstanding common shares of Descap Securities Inc., subsequently known as Broadpoint Securities. Per the stock purchase agreement, the sellers were to receive future contingent consideration based on the following: For each of the three years ending May 31, 2005, May 31, 2006 and May 31, 2007, if Broadpoint Securities' Pre-Tax Net Income (exclusive of certain intercompany charges, as defined) (i) is greater than \$10 million, the Company was to pay to the sellers an aggregate amount equal to fifty percent (50%) of Broadpoint Securities' Pre-Tax Net Income for such period or (ii) is equal to or less than \$10 million, the Company was to pay them an aggregate amount equal to forty percent (40%) of Broadpoint Securities' Pre-Tax Net Income for such period. Based upon Broadpoint Securities' Pre-Tax Net Income from June 1, 2004 through May 31, 2005, \$2.2 million on contingent consideration was paid to the Sellers and from June 1, 2005 through May 31, 2006, \$1.0 million of contingent consideration was paid to the Sellers on May 29, 2008. Based upon Broadpoint Securities' Pre-Tax Net Income from June 1, 2006 to May 31, 2007, no contingent consideration is payable to the Sellers for this period.

On September 14, 2007, the Company consummated the sale of the Municipal Capital Market Group of its subsidiary, Broadpoint Capital to DEPFA Bank plc ("DEPFA"). In connection with such sale, the Company recognized a pre-tax gain on sale in the amount of \$7.9 million. Pursuant to the asset purchase agreement, the Company was required to deliver an estimate of the accrued bonuses at closing and a final accrued bonus calculation thirty days following closing. The Company accrued the bonus consistent with the asset purchase agreement. All items arising from the sale of the Municipal Capital Markets Group were reflected in the Gain on Sale of Discontinued Operations. This includes the closing bonuses paid to employees and the reversal of restricted stock and deferred cash amortization as a result of the employees' termination of employment. On October 30, 2007, DEPFA provided the Company notice that it was exercising its option pursuant to the agreement to appoint an independent accounting firm to conduct a special audit of the final accrued bonus amount. On June 26, 2008, DEPFA provided the Company notice that it was withdrawing its dispute of the final accrued bonus amount.

Leases: The Company's headquarters and sales offices, and certain office and communication equipment, are leased under non-cancelable operating leases, certain of which contain renewal options and escalation clauses, and which expire at various times through 2021. To the extent the Company is provided tenant improvement allowances funded by the lessor, they are amortized over the initial lease period and serve to reduce rent expense. To the extent the Company is provided free rent periods, the Company recognizes the rent expense over the entire lease term on a straightline basis.

On November 2, 2007, the Company entered into a Fifth Amendment to Sub-Lease Agreement (the "Albany Fifth Amendment") with Columbia 677, L.L.C. (the "Albany Landlord") pursuant to which the Company's Sub-lease-Agreement with the Landlord dated August 12, 2003 concerning the lease of certain space in the building located at 677 Broadway, Albany, New York (the "Albany Premises") was amended. The Amendment provided that the Company was to surrender a total of 15,358 square feet (the "Surrender Premises") of the Albany Premises, a portion at a time, on or before three surrender dates: November 15, 2007, December 15, 2007 and April 1, 2008. If the Company failed to vacate the portion of the Surrender Premises on the applicable surrender dates, it would owe the Landlord \$1,667 for each day of such failure. The Company failed to vacate 1,398 square feet of the Surrender Premises by April 1, 2008 and as a result began to incur the daily fee on such date. The Company vacated such portion of the Surrender Premises on April 25, 2008, and paid the Albany Landlord approximately \$42,000. In consideration of the Landlord agreeing to the surrender of the Surrender Premises, the Amendment provided that the Company shall pay the Landlord a surrender fee equal to \$1,050,000 payable in three installments, all of which were paid as of June 30, 2008.

On June 19, 2008, the Company entered into a Sixth Amendment to Sub-Lease Agreement amending a Sub-Lease Agreement dated August 12, 2003, as previously amended, by and between the Company and the Albany Landlord. Pursuant thereto and on certain conditions specified therein, the parties agreed that Tenant shall be entitled to surrender the entire 12th floor of the Building consisting of 6,805 square feet of space (the "12th Floor Surrender

Premises), reducing Tenant's rentable square footage of leased property in the Building to 2,953 square feet. The Company vacated the 12th Floor Surrender Premises by June 30, 2008. In consideration therefore the Company paid the Landlord \$388,703. This amount is included in Restructuring in the Company's Statement of Operations.

On June 23, 2008, the Company entered into a Seventh Amendment of Lease (the NYC Amendment), amending the Agreement of Lease dated March 21, 1996, as previously amended, by and between the Company and One Penn Plaza LLC (NYC Landlord), a New York limited liability company, for the lease of certain property located at One Penn Plaza, New York, New York. Pursuant thereto and on certain conditions specified therein, the parties agree that the term of the Lease for all of the premises currently leased by the Company on the 41st Floor and a portion of the premises on the 40th Floor will expire on October 31, 2008, as provided under existing lease terms, but that the term of the Company s lease of the entire 42nd Floor and the remaining premises on the 40th Floor shall be extended until March 31, 2021, subject to further renewal. Under the NYC Amendment, the NYC Landlord will perform certain base building work, and will also provide a cash contribution of up to \$1,582,848 towards the Company s improvements. At the Company s election, and pursuant to certain conditions, the Company may elect to convert a portion of such cash contribution (up to \$1,000,000) to a rent credit equal to 90 percent of the amount so converted. In connection with the execution and delivery of the Amendment, the Company is required to provide to NYC Landlord a security deposit in the amount of \$2,107,490, either as cash or a letter of credit, to secure the performance of the Company s obligations under the Lease. Under certain conditions, the Company is entitled to reduce the security deposit to \$1,208,708 on April 1, 2014. An irrevocable standby letter of credit in favor of the Landlord was issued in the amount of \$2,107,490 by the Bank of New York Mellon on behalf of the Company. Litigation

In 1998, the Company was named in lawsuits by Lawrence Group, Inc. and certain related entities (the Lawrence Parties) in connection with a private sale of Mechanical Technology Inc. stock from the Lawrence Parties that was approved by the United States Bankruptcy Court for the Northern District of New York (the Bankruptcy Court). The Company acted as placement agent in that sale, and a number of employees and officers of the Company, who have also been named as defendants, purchased shares in the sale. The complaints alleged that the defendants did not disclose certain information to the sellers and that the price approved by the court was therefore not proper. The cases were initially filed in the Bankruptcy Court and the United States District Court for the Northern District of New York (the District Court), and were subsequently consolidated in the District Court. The District Court dismissed the cases, and that decision was subsequently vacated by the United States Court of Appeals for the Second Circuit, which remanded the cases for consideration of the plaintiffs claims as motions to modify the Bankruptcy Court sale order. The plaintiffs claims were referred back to the Bankruptcy Court for such consideration. An evidentiary hearing on the motions to modify the sale order commenced on October 15, 2008, and additional hearing dates are expected to be

scheduled over the next few months. The Bankruptcy Court has indicated that it will hold a separate hearing to consider damages, only if it makes a finding of liability in connection with the motions to modify the sale order, 30 days after it resolves the motions to modify the sale order. The Company believes that it has strong defenses and intends to vigorously defend itself against the plaintiffs' claims, and believes that the claims lack merit. However, an unfavorable resolution could have a material adverse effect on the Company's financial position, results of operations and cash flows in the period resolved.

In early 2008, Broadpoint Capital hired Tim O Connor and 9 other individuals to form a new restructuring and recapitalization group within Broadpoint Capital's Investment Banking division. Mr. O Connor, the new Head of Broadpoint Capital's Investment Banking Division and each of the other employees are former employees of Imperial Capital, LLC (Imperial). Upon Broadpoint Capital's hiring of these employees, Imperial commenced an arbitration proceeding against Broadpoint Capital, Mr. O Connor, another employee hired by Broadpoint Capital and a former employee of Imperial who is not employed by Broadpoint Capital before the Financial Industry Regulatory Authority (FINRA). In the arbitration, Imperial alleged various causes of action against Broadpoint Capital as well as the individuals based upon alleged violations of restrictive covenants in employee contracts relating to the non-solicitation of employees and clients. Imperial claimed damages in excess of \$100 million. Concurrently with the filing of the arbitration proceeding, Imperial sought and obtained a temporary restraining order in New York State Supreme Court, pending the conclusion of the FINRA arbitration hearing, enjoining Broadpoint from disclosing or making use of any confidential information of Imperial, recruiting or hiring any employees of Imperial and seeking or accepting as a client any client of Imperial, except those clients for whom any of the hired individuals had provided services as a registered representative while employed by Imperial. On April 17, 2008, Broadpoint Capital, the other respondents, and Imperial entered into a Partial Settlement whereby Imperial's claims for injunctive relief were withdrawn and it was agreed the temporary restraining order would be vacated. Imperial's remaining claim for damages were to be arbitrated before FINRA at a hearing that was scheduled to commence in September 2008. The Partial Settlement provides, among other things, for the potential future payment of amounts from Broadpoint to Imperial contingent upon the successful consummation of, or receipt of fees in connection with, certain transactions. On September 16, 2008, the Company agreed to a Settlement resolving all remaining claims among the parties. In particular, in exchange for a \$500,000 payment from Broadpoint Capital, Imperial released its claims against the respondents. In addition, the respondents released the claims and defenses raised by them against Imperial (including third-party claims asserted against Imperial by Tim O Connor), and the FINRA case was dismissed. The terms and conditions of the Partial Settlement remain in effect.

Due to the nature of the Company's business, the Company and its subsidiaries are now, and likely in the future will be, involved in a variety of legal proceedings, including the matters described above. These include litigation, arbitrations and other proceedings initiated by private parties and arising from our underwriting, financial advisory or other transactional activities, client account activities and employment matters. Third parties who assert claims may do so for monetary damages that are substantial, particularly relative to the Company's financial position. In addition, the securities industry is highly regulated. The Company and its subsidiaries are subject to both routine and unscheduled regulatory examinations of its business and investigations of securities industry practices by governmental agencies and self-regulatory organizations. In recent years securities firms have been subject to increased scrutiny and regulatory enforcement activity. Regulatory investigations can result in substantial fines being imposed on the Company and/or its subsidiaries. Periodically the Company and its subsidiaries receive inquiries and subpoenas from the SEC, state securities regulators and self-regulatory organizations. The Company does not always know the purpose behind these communications or the status or target of any related investigation. The responses to these communications have in the past resulted in the Company and/or its subsidiaries being cited for regulatory deficiencies, although to date these communications have not had a material adverse effect on the Company's business. The Company has taken reserves in its financial statements with respect to legal proceedings to the extent it believes appropriate. However, accurately predicting the timing and outcome of legal proceedings, including the amounts of any settlements, judgments or fines, is inherently difficult insofar as it depends on obtaining all of the relevant facts (which is sometimes not feasible) and applying to them often-complex legal principles. Based on currently available information, the Company does not believe that any litigation, proceeding or other matter to which it is a party or otherwise involved will have a material adverse effect on its financial position, results of operations and cash flows although an adverse development, or an increase in associated legal fees, could be material in a particular period, depending in part on the Company's operating results in that period.

Other

The Company utilizes various economic hedging strategies to actively manage its market, credit and liquidity exposures. The Company also enters into underwriting commitments to purchase securities as part of its investment banking business and may purchase and sell securities on a when-issued basis. At September 30, 2008, the Company had no outstanding underwriting commitments, had not purchased or sold any securities on a when-issued basis, and had entered into sale agreements on to-be-announced (TBA) mortgage-backed securities in the amount of \$89 million.

11. Mandatory Redeemable Preferred Stock

On June 27, 2008 the Company entered into a Preferred Stock Purchase Agreement (the Preferred Stock Purchase Agreement) with Mast Credit Opportunities I Master Fund Limited, a Cayman Islands corporation (Mast) for the issuance and sale of (i) 1,000,000 newly-issued unregistered shares of Series B Mandatory Redeemable Preferred Stock of the Company, par value \$1.00 per share (the Series B Preferred Stock) and (ii) a warrant to purchase 1,000,000 shares of the Company's common stock, par value \$0.01 per share (the Common Stock), at an exercise price of \$3.00 per share, for an aggregate cash purchase price of \$25 million (the Preferred Private Placement). The mandatory redeemable preferred stock is recorded as a liability per SFAS No. 150, Accounting For Certain Financial Instruments with Characteristics of Both Liabilities and Equity.

The Preferred Stock Purchase Agreement and the Series B Preferred Stock include, among other things, certain negative covenants and other rights with respect to the operations, actions and financial condition of the Company and its subsidiaries so long the Series B Preferred Stock remains outstanding. Cash dividends of 10 percent per annum must be paid on the Series B Preferred Stock quarterly, while an additional dividend of 4 percent per annum accrues and is cumulative, if not otherwise paid quarterly at the option of the Company. The Series B Preferred Stock must be redeemed on or before June 27, 2012.

The redemption prices are as follows:

Date	Premium Call Factor
Prior to and including June 26, 2009	1.07
From June 27, 2009 to December 27, 2009	1.06
From December 28, 2009 to June 27, 2010	1.05
From June 28, 2010 to December 27, 2011	1.04
From December 28, 2011 to June 2012	1.00

The Warrant is subject to customary anti-dilution provisions and expires June 27, 2012. Concurrently with the execution of the Preferred Stock Purchase Agreement, the Company and Mast entered into a Registration Rights Agreement, dated as of June 27, 2008 (the Registration Rights Agreement), with respect to the shares of Common Stock that are issuable to Mast pursuant to the Warrant (the Warrant Shares). Pursuant to the Registration Rights Agreement, Mast has the right to request registration of the Warrant Shares if at any time the Company proposes to register Common Stock for its own account or for another, subject to certain exceptions for underwriting requirements. In addition, under certain circumstances Mast may demand a registration of no less than 300,000 Warrant Shares. The Company must register such Warrant Shares as soon as practicable and in any event within forty-five (45) days after the demand. The Company will bear all of the costs of all such registrations other than underwriting discounts and commissions and certain other expenses.

Concurrently with the execution of the Preferred Stock Purchase Agreement, the Company and Mast entered into a Preemptive Rights Agreement (the Preemptive Rights Agreement). The Preemptive Rights Agreement provides that in the event that the Company proposes to offer or sell any equity securities of the Company below the current market price, the Company shall first offer such securities to Mast to purchase; provided, however, that in the case of equity securities being offered to MatlinPatterson, Mast shall only have the right to purchase its pro rata share of such securities (based upon Common Stock ownership on a fully diluted basis). If Mast exercises such right to purchase the offered securities, Mast must purchase all (but not a portion) of such securities for the price, terms and conditions so proposed. The preemptive rights do not extend to (i) Common Stock issued to employees or directors pursuant to a plan or agreement approved by the Board of Directors, (ii) issuance of securities pursuant to a conversion of convertible securities, (iii) stock splits or stock dividends or (iv) issuance of securities in connection with a bona fide business acquisition of or by the Company, whether by merger, consolidation, sale of assets, sale or exchange of stock

or otherwise.

12. Temporary Capital

In connection with the Company's acquisition of Broadpoint Securities, the Company issued 549,476 shares of stock which provided the Sellers the right (the "put right") to require the Company to purchase back the shares issued, at a price of \$6.14 per share. Accordingly, the Company has previously recognized as temporary capital the amount that it would have been required to pay under the agreement. The Company also had the right to purchase back these shares from the Sellers at a price of \$14.46 (the "call right"). As a result, the Company had classified the shares relating to the put and call rights as temporary capital. The put and call rights were to expire on the date upon which the final earnout payment in connection with the acquisition was required to be made. The earnout period ended on May 31, 2007 and the final earnout payment was made on May 29, 2008. In June 2006, certain of the Sellers of Broadpoint Securities exercised their put rights and the Company repurchased 532,484 shares at \$6.14 per share for the total amount of \$3.3 million. The remaining put rights expired as of May 29, 2008. Subsequently, the Company reclassified the temporary capital to stockholders' equity.

13. Subordinated Debt

A select group of management and highly compensated employees are eligible to participate in the Broadpoint Securities Group, Inc. Deferred Compensation Plan for Key Employees (the "Plan"). The employees enter into subordinated loans with Broadpoint Capital to provide for the deferral of compensation and employer allocations under the Plan. The New York Stock Exchange approved Broadpoint Capital's subordinated debt agreements related to the Plan. Pursuant to these approvals, these amounts are allowable in Broadpoint Capital's computation of net capital. The accounts of the participants of the Plan are credited with earnings and/or losses based on the performance of various investment benchmarks selected by the participants. Maturities of the subordinated debt are based on the distribution election made by each participant, which may be deferred to a later date by the participant. As of February 28, 2007, the Company no longer permits any new amounts to be deferred under the Plan. Principal debt repayment requirements, which occur on or about April 15th of each year, as of September 30, 2008, are as follows:

(In thousands of dollars)

2008 (remaining)	\$
2009	465
2010	287
2011	108
2012	208
2013 to 2016	594

14. Stockholders' Equity**Deferred Compensation and Employee Stock Trust**

The Company has adopted or may hereafter adopt various nonqualified deferred compensation plans (the "Plans") for the benefit of a select group of highly compensated employees who contribute significantly to the continued growth and development and future business success of the Company. Plan participants may elect under the Plans to have the value of their Plans Accounts track the performance of one or more investment benchmarks available under the Plans, including Broadpoint Securities Group Common Stock Investment Benchmark, which tracks the performance of Broadpoint Securities Group, Inc. common stock ("Company Stock"). With respect to the Broadpoint Securities Group Common Stock Investment Benchmark, the Company contributes Company Stock to a rabbi trust (the "Trust") it has established in connection with meeting its related liability under the Plans. As of February 28, 2007, the Company no longer permits any new amounts to be deferred under its current Plans.

Assets of the Trust have been consolidated with those of the Company. The value of the Company's stock at the time contributed to the Trust has been classified in stockholders' equity and generally accounted for in a manner similar to treasury stock.

The deferred compensation arrangement requires the related liability to be settled by delivery of a fixed number of shares of Company stock. Accordingly, the related liability is classified in equity under deferred compensation and changes in the fair market value of the amount owed to the participant in the Plan is not recognized.

Mast Private Placement

On March 4, 2008 the Company entered into a stock purchase agreement (the "Stock Purchase Agreement") with MatlinPatterson, Mast Credit Opportunities I Master Fund Limited, a Cayman Islands corporation ("Mast") and certain Individual Investors listed on the signature pages to the Stock Purchase Agreement (the "Individual Investors", and together with the MatlinPatterson and Mast, the "Investors") for the issuance and sale of 11,579,592 newly-issued unregistered shares of common stock of the Company, par value \$0.01 per share (the "Common Stock"), for an aggregate cash purchase price of approximately \$19.7 million (the "Private Placement").

Concurrently with the execution of the Stock Purchase Agreement, the Company entered into a Registration Rights Agreement, dated as of March 4, 2008 (the "Mast Registration Rights Agreement"), with Mast with respect to the shares that Mast purchased in the Private Placement (the "Mast Shares"). Pursuant to the Mast Registration Rights Agreement, the Company was required to file a registration statement within 30 days following March 4, 2008 with the Securities and Exchange Commission for the registration resale of the Mast Shares in an offering on a delayed or continuous basis pursuant to Rule 415 under the Securities Act (the "Mast Shelf Registration"). The Company agreed to bear all of the costs of the Mast Shelf Registration other than underwriting discounts and commissions and certain other expenses. On April 1, 2008, the Company filed a registration statement on Form S-3 for the registration resale of the Mast Shares and, on April 29, 2008, the Company's registration statement was declared effective.

15. Income Taxes

Income tax expense is recorded using the asset and liability method. Deferred tax assets and liabilities are recognized for the expected future tax consequences attributable to temporary differences between amounts reported for income tax purposes and financial statement purposes, using current tax rates. A valuation allowance is recognized if it is anticipated that some or all of a deferred tax asset will not be realized. The Company must assess the likelihood that its deferred tax assets will be recovered from future taxable income and, to the extent that the Company believes that recovery is not likely, it must establish a valuation allowance. Significant management judgment is required in determining the provision for income taxes, deferred tax assets and liabilities and any valuation allowance recorded against net deferred tax assets. The Company has recorded a full valuation allowance as a result of uncertainties related to the realization of its net deferred tax assets at September 30, 2008 and December 31, 2007. The valuation allowance was established as a result of weighing all positive and negative evidence, including the Company's history of cumulative losses over at least the past three years and the difficulty of forecasting future taxable income. The valuation allowance reflects the conclusion of management that it is more likely than not that the benefit of the deferred tax assets will not be realized. In the event actual results differ from these estimates or these estimates are adjusted in future periods, the valuation allowance may require adjustment which could materially impact the Company's financial position and results of operations.

The Company reported a tax expense of approximately \$0.9 million and a tax benefit of approximately \$3.0 million for the three months ended as of September 30, 2008 and 2007, respectively. The Company reported a tax expense of approximately \$2.4 million and a tax benefit of approximately \$3.5 million for the nine months ended as of September 30, 2008 and 2007, respectively. Included in the three and nine month tax provisions of 2008 are approximately \$0.9 million and \$2.4 million, respectively, of increases in the gross amount of unrecognized tax benefits related to the current year that, if recognized in the future, would affect the effective tax rate.

The Company has an ongoing audit with the State of New York for the tax years ended 2004, 2005, and 2006. The unrecognized tax benefits of the Company recorded pursuant to the company's adoption of FASB interpretation No. 48, *Accounting for Uncertainties in Income Taxes*, could significantly change over the next twelve months due to the expiration of the statute of limitations on approximately \$0.8 million of unrecognized tax benefits.

As a result of the closing of the MatlinPatterson investment transaction on September 21, 2007, the Company underwent a change in ownership within the meaning of Section 382 of the Internal Revenue Code (IRC Section 382). In general, IRC Section 382 places an annual limitation on the use of certain tax attributes such as net operating losses and tax credit carryovers in existence at the ownership change date. The Company has determined that the annual limitation on the use of its net operating loss carryforwards is approximately \$1.1 million per year. As a result, the Company has determined that a significant portion of its net operating loss carryforwards will expire unutilized.

16. Benefit Plans

The Company has established several stock incentive plans through which employees of the Company may be awarded stock options, stock appreciation rights, restricted stock/restricted stock units, which expire at various times through April 25, 2017. The following is a recap of all plans as of September 30, 2008:

Shares authorized for issuance	29,894,137
Share awards used:	
Stock options granted and outstanding	4,045,996
Restricted stock awards granted and unvested	7,093,354
Restricted stock units granted and unvested	6,423,214
Restricted stock units granted and vested	1,882,500
Restricted stock units committed not yet granted	1,125,000
Total share awards used	20,570,064
Shares available for future awards	9,324,073

The 2007 Incentive Compensation Plan (the Incentive Plan) allows awards in the form of incentive stock options (within the meaning of Section 422 of the Internal Revenue Code), nonqualified stock options, stock appreciation rights, performance awards, or other stock based awards. The Incentive Plan imposes a limit on the number of shares of our common stock that may be subject to awards. An award relating to shares may be granted if the aggregate number of shares subject to then-outstanding awards plus the number of shares subject to the award being granted do not exceed 25 percent of the number of shares issued and outstanding immediately prior to the grant. On January 29, 2008, the Board of Directors adopted an amendment to the Incentive Plan, subject to shareholder approval, to increase the maximum number of shares of common stock authorized for issuance under the Incentive Plan to the sum of 10,675,000 shares, subject to adjustment, and 25 percent of the number of shares issued and outstanding immediately prior to the grant of an award. Shareholders of the Company approved the amendment to the Incentive Plan at the Company's 2008 Annual Meeting.

The increase in shares available enabled the Company, among other things, to award restricted stock units and/or shares of restricted stock to certain new employees in connection with the Company's hiring of employees into its new Debt Capital Markets group.

For the nine-month periods ended September 30, 2008 and September 30, 2007, total compensation expense for share based payment arrangements was \$6.5 million and \$4.1 million respectively, the related tax benefit was \$0.0 and \$0.0.

At September 30, 2008, the total compensation expense related to non-vested awards not yet recognized was \$22.6 million, which is expected to be recognized over the remaining weighted average vesting period of 3.8 years.

The restricted stock units committed but not yet granted are based on employment agreements for the Chairman and Chief Executive Officer and the President and Chief Operating Officer. The employment agreements include a set vesting schedule and performance targets as determined by the Board of Directors in consultation with such officer. **Options:** Options granted under the Incentive Plan have been granted at not less than fair market value, vest over a maximum of five years, and expire one to ten years after grant date. Unvested options are typically forfeited upon termination of employment. Option transactions for the nine-month period ended September 30, 2008, under the Incentive Plan were as follows:

	Shares Subject to Option	Weighted Average Exercise Price
Balance at December 31, 2007	1,035,962	\$ 8.24
Options granted	3,750,000	1.43
Options exercised		
Options forfeited	(739,966)	9.43
Balance at September 30, 2008	4,045,996	\$ 1.68

At September 30, 2008, the stock options that were exercisable had a remaining average contractual term of 3.5 years. At September 30, 2008, the intrinsic value of vested options was approximately \$1.9 million for which no tax benefits have been included.

The following table summarizes information about stock options outstanding under the Incentive Plan at September 30, 2008:

Exercise Price Range	Shares	Outstanding		Exercisable	
		Average Life (years)	Average Exercise Price	Shares	Average Exercise Price
\$1.43-\$1.64	3,850,000	3.49	\$1.44	1,283,334	\$1.44
\$4.61-\$5.80	98,359	3.95	5.59	98,359	5.59
\$6.00-\$7.17	12,666	4.75	6.47	12,666	6.47
\$8.23-\$14.98	84,971	.88	9.02	84,971	9.02
	4,045,996	3.45	\$1.68	1,479,330	\$2.19

Restricted Stock Awards/Restricted Stock Units: Restricted stock awards under the Incentive Plan and the 2003 Non-Employee Directors Stock Plan have been valued at the market value of the Company's common stock as of the grant date and are amortized over the period in which the restrictions are outstanding, which is typically 3-5 years. The Incentive Plan also allows for grants of restricted stock units. Restricted stock units give a participant the right to receive fully vested shares at the end of a specified deferral period. Restricted stock units are generally subject to forfeiture conditions similar to those of the Company's restricted stock awards granted under its other stock incentive plans historically. One advantage of restricted stock units, as compared to restricted stock, is that the period during which the award is deferred as to settlement can be extended past the date the award becomes non-forfeitable,

allowing a participant to hold an interest tied to common stock on a tax deferred basis. Prior to settlement, restricted stock units carry no voting or dividend rights associated with the stock ownership.

Balance at September 30, 2008	7,093,354	\$1.87	6,423,214	\$ 1.80

The total fair value of awards vested, based on the fair market value of the stock on the vest date, during the nine month periods ending September 30, 2008 and 2007 was \$4.4 million and \$1.8 million, respectively. The total unamortized value of the unvested awards was \$22.6 million and \$3.8 million at September 30, 2008 and September 30, 2007, respectively.

17. Net Capital Requirements

Broadpoint Capital is subject to the net capital requirements of Rule 15c3-1 of the Securities and Exchange Act of 1934 as amended (the Net Capital Rule), which requires the maintenance of a minimum net capital. Broadpoint Capital has elected to use the alternative method permitted by the rule, which requires it to maintain a minimum net capital amount of 2 percent of aggregate debit balances arising from customer transactions as defined or \$0.25 million, whichever is greater. As of September 30, 2008, Broadpoint Capital had net capital, as defined, of \$10.42 million and \$10.17 million in excess of the \$0.25 million required minimum net capital.

Broadpoint Securities is also subject to the Net Capital Rule which requires the maintenance of minimum net capital of \$100,000 or 6 2/3 percent of aggregate indebtedness, whichever is greater. Aggregate indebtedness to net capital shall not exceed 15:1. At September 30, 2008, Broadpoint Securities had net capital, as defined, of \$17.91 million, which was \$16.66 million in excess of its required minimum net capital of \$1.25 million. Broadpoint Securities ratio of aggregate indebtedness to net capital was 1.05:1.

18. Derivative Financial Instruments**Market Risk**

Derivative financial instruments involve varying degrees of off-balance-sheet market risk, whereby changes in the level or volatility of interest rates, or market values of the underlying financial instruments may result in changes in the value of a particular financial instrument in excess of the amounts currently reflected in the Condensed Consolidated Statements of Financial Condition as Securities owned and Securities sold at fair value, with realized and unrealized gains and losses recognized in principal transactions in the Condensed Consolidated Statements of Operations on a trade date basis.

Derivatives entered into by the Company include sale agreements on to-be-announced (TBA) mortgage-backed securities. The Company enters into derivatives to facilitate proprietary trading and to manage its risk exposures arising from trading assets and liabilities. The settlement of these transactions is not expected to have a material effect upon our consolidated financial statements.

Derivative Financial Instruments

The Company accounts for certain financial assets and liabilities at fair value in accordance with Statement of Financial Accounting Standards, (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities . A derivative is an instrument whose value is derived from an underlying instrument or index.

Acting in a trading capacity, the Company may enter into derivative transactions to satisfy the needs of our clients and to manage our own exposure to market and credit risks resulting from our trading activities.

19. Segment Analysis

In an effort to reflect the Company's segments in a manner more consistent with the way in which they are currently managed, the Company is reflecting five business segments rather than the previously reported three business segments. Beginning in the third quarter of 2008, the Equities segment is now reported as two segments, Equities and Investment Banking and the Fixed Income segment is now reported as two segments, Broadpoint Descap and Debt Capital Markets. Prior period disclosures have been adjusted to conform to the current quarter's presentation. The Company is organized around products and operates through five segments: Equities, Broadpoint Descap, Debt Capital Markets, Investment Banking, and Other. The Company evaluates the performance of its segments and allocates resources to them based on various factors, including prospects for growth, return on investment, and return on revenue.

The Company's Equity Capital Markets business (ECM) consists of Equity Research, Sales, and Trading. Equity Sales and Trading provides equity executions and research to institutional investors and generates revenues primarily through commissions on executing equity transactions.

The Company's Broadpoint Descap division specializes in the primary issuance and secondary trading mortgage-backed and asset backed securities and generates revenues primarily through principal transactions and other trading activities.

The Company's Debt Capital Markets division provides trade executions to institutional investors and generates revenues primarily through commissions on the sale of investment grade and high yield bonds and government bonds.

The Company's Investment Banking business generates revenues by providing financial advisory, capital raising, mergers and acquisitions, and restructuring services to companies and by providing financial advisory and capital raising services in structuring asset-backed securities.

The Company's Other segment includes primarily costs related to corporate overhead and the results from the Company's venture capital investment. The Company's venture capital business generates revenue through the management of and investment in FA Technology Ventures, Inc. Other also includes Restructuring expenses from the Company's plan announced on October 17, 2007 whereby the Company determined that it would outsource certain administrative functions, consolidate certain of such administrative functions in its New York City location, and reduce staff in order to properly size its business consistent with its current level of activity. The Company has completed its restructuring plan to properly size its infrastructure.

During 2007, the Company discontinued its Municipal Capital Markets and Taxable Municipal groups, which were previously included in the Fixed Income segment. Also in 2007 the Company discontinued the Fixed Income Middle Markets group, which was previously included in the Fixed Income Other segment.

Sales and Trading net revenues consist of revenues derived from commissions, principal transactions, net interest, and other fee related revenues. Certain expenses not directly associated with specific reportable business segments were not allocated during 2008 to each reportable business segment's net revenues, these expenses are reflected in the Other segment.

Asset information by segment is not reported since the Company does not produce such information. All assets are primarily

located in the United States of America.

20. Related Party Transactions

Investment banking revenue from related parties disclosed on the Condensed Consolidated Statement Of Operations represents \$2.2 million and \$8.3 million of fees received for the three month and nine month periods ended September 30, 2008, respectively, for advisory engagements performed for the majority shareholder of the Company.

21. Discontinued Operations

On September 14, 2007, the Company completed the asset sale agreement with DEPFA for the sale of the Municipal Capital Markets Group of the Company's subsidiary, Broadpoint Capital, in connection with which the Company recognized a pre-tax gain on sale in the amount of \$7.9 million. In June 2007, the Company closed its Fixed Income Middle Markets division following the departure of the employees of the group. In April 2007, the Company closed its Institutional Convertible Bond Arbitrage Advisory division after committing to a plan to dispose of the group in September 2006.

Additionally, in May 2006, the Company closed its Taxable Fixed Income corporate bond division. In February 2005, the Company sold its asset management operations, other than its institutional convertible arbitrage group, and, in 2000 sold its Private Client Group. The Company continues to report the receipt and settlement of pending contractual obligations related to these transactions as discontinued operations.

lapsed related to a tax reserve that was established when the division was sold in 2000 resulting in a \$0.1 million income tax benefit for the six months ended June 30, 2007.

22. Restructuring

On October 17, 2007, the Company announced a plan whereby the Company determined that it will outsource certain of its administrative functions, consolidate certain of such functions in its New York City location, and reduce staff in order to properly size its business consistent with its current levels of activity. In connection with the plan, the Company recognized approximately \$4.3 million of expense in the first nine months of 2008 of which \$1.1 million relates to termination benefits and \$3.2 million is related to occupancy and other expenses. The Company has completed its restructuring plan to properly size its infrastructure.

A summary of restructuring charges incurred as part of the Plan for the three and nine month periods ended September 30, 2008 follows:

<i>(In thousands of dollars)</i>	Three Months Ended September 30 2008	Nine Months Ended September 30 2008

23. Subsequent Events**American Technology Research Acquisition**

On October 2, 2008, pursuant to the terms of the stock purchase agreement, dated as of September 2, 2008 by and among the Company, American Technology Research Holdings, Inc., a Delaware corporation (AmTech), Richard J. Prati, Curtis L. Snyder, Richard Brown, Robert Sanderson and Bradley Gastwirth (such individuals, together with all other holders of AmTech Common Stock and options to purchase AmTech Common Stock who joined such Stock Purchase Agreement, the Sellers), the Company completed its previously announced acquisition of all of the issued and outstanding shares of common stock, par value \$0.01 per share, of AmTech (the AmTech Common Stock) held by the Sellers and the cancellation of all outstanding options to purchase AmTech Common Stock held by the Sellers.

AmTech, a broker-dealer specializing in institutional research, sales and trading in the information technology, cleantech and defense areas, was founded in 2002 by a team of professionals formerly with SoundView Technology Group, Inc. It consists of 48 professionals, including 20 research professionals (including 11 publishing analysts), 14 institutional sales professionals, 8 trading personnel and 6 management and support staff, substantially all of whom have joined Broadpoint.

Under the terms of the Stock Purchase Agreement, the Company purchased the AmTech Common Stock for a purchase price of \$10.0 million in cash (subject to adjustment), an aggregate of 2,676,437 shares of common stock, par value \$0.01 per share, of the Company (the Company Common Stock), which are subject to transfer restrictions that will lapse ratably over the three years following the closing, and an aggregate of 323,563 shares of restricted stock (the Restricted Stock Consideration) from the Company's 2007 Incentive Compensation Plan (the Plan), subject to vesting over a three year period based on continued employment with AmTech. The Restricted Stock Consideration will be paid on January 2, 2009, pursuant to the terms of the Stock Purchase Agreement. The Sellers will also have the right to receive certain earn-out payments, consisting of 100 percent of the profits earned by AmTech in the fourth quarter of fiscal year 2008 and all of fiscal years 2009, 2010 and 2011, up to an aggregate of \$15 million in profits. The Sellers also will have the right to receive earn-out payments consisting of 50 percent of such profits in excess of \$15 million. All such earn-out payments will be paid 50 percent in cash and, depending on the recipient thereof, either 50 percent in Company Common Stock, which will be subject to transfer restrictions that will lapse ratably over the three years following issuance, or 50 percent in restricted stock from the Plan, subject to vesting based on continued employment with AmTech.

The terms of the Stock Purchase Agreement, including the purchase price paid, were determined on the basis of arm's-length negotiations between the Company and certain of the Sellers. Other than the Stock Purchase Agreement and employment relationships with the Company created by the acquisition, neither the Company nor any of its directors, officers, or, to its knowledge, any of its affiliates or associates of its directors or officers, has any other material relationships with the Sellers.

Broker-Dealer Merger

On October 16, 2008 the Company announced that it completed the merger of two of its principal broker-dealer subsidiaries, Broadpoint Capital, Inc. and Broadpoint Securities, Inc. The two firms were merged into a single broker-dealer under the name Broadpoint Capital, Inc.

Office Lease and Letter of Credit

On October 31, 2008, the Company entered into an Office Lease (the 49th Street Lease), by and between the Company and Kato International LLC (Kato Landlord), a Delaware limited liability company, for the lease of 16,000 rental square feet consisting of the 31st floor (the 49th Street Premises) of 12 East 49th Street, New York, New York 10017. The following is a general summary of the terms of the 49th Street Lease:

The term of the 49th Street Lease is for a term of ten years and two months, commencing on November 1, 2008; however, the obligation to pay rent does not commence until January 14, 2009. The Company has a one time right of early termination as of December 31, 2013, upon the payment of a \$900,000 early termination fee and notice provided to the Kato Landlord not less than fifteen (15) months prior to December 31, 2013.

Under the 49th Street Lease, the Company shall be responsible for the payment of base rent, beginning at \$1,232,000 per annum. The Base Rent will subsequently be adjusted to \$1,296,000 per annum as of the 30th month anniversary date of the Commencement Date, and then, to \$1,384,000 per annum as of the 60th month anniversary date of the Commencement Date. The Company shall also be responsible for the payment, as additional rent, of, among other things, the Company's pro rata share of the increase in operating expenses, including taxes, of the building above the 2009 base year. The Kato Landlord is not performing any work on behalf of the Company. The Company is renting the Premises AS IS. The prior tenant left behind furniture and equipment which were purchased by the Company. In connection with the execution and delivery of the 49th Street Lease, the Company was required to provide to Kato Landlord a security deposit in the amount of \$1,324,000 in the form of an irrevocable letter of credit. Under certain

conditions, the Company has the right to reduce

Business Overview

Broadpoint Securities Group, Inc. (NASDAQ: BPSG) is an independent investment bank that serves the institutional investor and corporate middle market by providing clients with strategic, research-based investment opportunities, and financial advisory services, including merger and acquisition, restructuring, recapitalization and strategic alternative analysis services. The Company offers a diverse range of products through Broadpoint Capital, Inc.'s Equity and Debt Capital Markets divisions, as well as Broadpoint Securities, Inc., its mortgage-backed security/asset-backed security trading subsidiary, and FA Technology Ventures Inc., its venture capital subsidiary.

The Company, a New York corporation, is traded on The NASDAQ Global Market, which we refer to as NASDAQ, under the symbol BPSG. The Company changed its symbol from FACT to BPSG effective November 12, 2007. The Company is organized around products and operates through five segments: Equities, Broadpoint Descap, Debt Capital Markets, Investment Banking, and Other. The Company evaluates the performance of its segments and allocates resources to them based on various factors, including prospects for growth, return on investment, and return on revenue.

The Company believes it has an opportunity to become one of the premier investment banking boutiques serving the middle market, which the Company believes is a largely under-served market.

The Company's Equity Capital Markets business (ECM) consists of Equity Research, Sales, and Trading. Equity Sales and Trading provides equity executions and research to institutional investors and generates revenues primarily through commissions on executing equity transactions.

The Company's Broadpoint Descap division specializes in the trading of primary issuance and secondary trading mortgage-backed and asset backed securities and generates revenues primarily through principal transactions and other trading activities.

The Company's Debt Capital Markets division provides trade executions to institutional investors and generates revenues primarily through commissions on the sale of investment grade and high yield bonds and government bonds.

The Company's Investment Banking business generates revenues by providing financial advisory, capital raising, mergers and acquisitions, and restructuring services to companies and by providing financial advisory and capital raising services in structuring asset-backed securities.

The Company's Other segment includes the results from the Company's investment portfolio, venture capital business, and costs related to corporate overhead and support including various fees associated with legal and settlement expenses. The Company's investment portfolio

generates revenue from unrealized gains and losses as a result of changes in the value of the firm's investments and realized gains and losses as a result of sales of equity holdings. The Company's venture capital business generates revenue through the management of and investment in venture capital funds.

In the second quarter of 2006, the Company ceased operations in its Taxable Fixed Income division due to a changing business environment and continued revenue declines. In the third quarter of 2006, the Company determined that it would dispose of its Institutional Convertible Bond Arbitrage Advisory Group due to a continued decline in assets under management. In April 2007, the Company ceased operations of the Institutional Convertible Bond Arbitrage Advisory Group and currently expects that any ongoing costs related to the shutdown will be immaterial. In the second quarter of 2007, the Company discontinued operations in its Fixed Income Middle Markets Group following the departure of the employees from that group. In the third quarter of 2007 the Company completed the sale of its Municipal Capital Markets division to DEPFA BANK plc, an Irish public limited company.

On September 21, 2007, the Company closed the investment from MatlinPatterson in which the Company received net proceeds of \$45.8 million from the sale of the Company's common stock. Pursuant to the Investment Agreement, MatlinPatterson purchased 41.5 million newly issued shares and two co-investors received a total of 0.5 million newly issued shares which represented approximately 71.7 percent and 0.8 percent, respectively, of the issued and outstanding voting power of the Company immediately following the closing of the investment transaction.

In March 2008, the Company and Broadpoint Capital completed its hiring of 47 employees of the New Jersey-based Fixed Income division of BNY Capital Markets, Inc. and the acquisition of certain related assets. The Company has formed a new Debt Capital Markets group within our Fixed Income segment with the new employees that operates a comprehensive sales and trading platform that specializes in high yield, distressed, investment grade corporate, treasury, government agency, convertible bond, and equity securities.

On March 4, 2008, the Company closed a \$20 million investment private placement whereby investors purchased approximately 11.6 million shares of common stock from the Company at \$1.70 per share. A fund managed by MAST Capital Management, LLC, a Boston-based investment manager that focuses on special situations debt and equity investment opportunities, led the investment purchasing 7.1 million of the approximately 11.6 million shares issued.

On June 27, 2008 the Company entered into a Preferred Stock Purchase Agreement with Mast Credit Opportunities I Master Fund Limited, a Cayman Islands corporation ("Mast"), for the issuance and sale of (i) 1,000,000 newly-issued unregistered shares of Series B Mandatory Redeemable Preferred Stock of the Company, par value \$1.00 per share (the "Series B Preferred Stock"), and (ii) a warrant to purchase 1,000,000 shares of the Company's common stock, par value \$.01 per share, at an exercise price of \$3.00 per share, for an aggregate cash purchase price of \$25 million.

RESTRUCTURING

In 2007, the Company implemented a restructuring plan to properly size the Company's infrastructure with its current level of activity. As a result, the Company incurred approximately \$4.3 million in restructuring costs through the third quarter of 2008 and incurred \$2.7 million in restructuring costs during the fourth quarter of 2007. The plan included a reduction in IT and operations support headcount, outsourcing the Company's clearing operations, and eliminating excess office space. The Company has completed its restructuring plan to properly size its infrastructure. The restructuring costs incurred of \$7.0 million are estimated to save approximately \$7.9 million annually.

Net Revenue

Net revenue increased \$23.6 million, or 272 percent, in the third quarter of 2008 to \$32.3 million. Commissions and principal transactions in the third quarter of 2008 increased \$19.7 million or 370% to \$25.0 million compared to the third quarter of 2007, due to increases in Broadpoint Descap of \$7.3 million and \$14.1 million generated by the Debt Capital Markets division, which commenced operations in March of 2008, partially offset by a decrease in Equities of \$1.5 million. Investment Banking revenues increased \$2.5 million to \$4.0 million due to an increase in advisory fees in the Restructuring and Recapitalization group in the Investment Banking division of \$1.8 million and \$0.7 million in placement fees generated by the Debt Capital Markets division.

Non-Interest Expense

Non-interest expenses for the third quarter of 2008 of \$40.2 million, including restructuring charges of \$2.3 million, increased \$21.7 million, or 117%, compared to \$18.5 million in the third quarter of 2007.

Compensation and benefits expense of \$28.3 million in the third quarter of 2008 increased by \$16.7 million, or 144%, due to an increase in net revenues of 272%. Included in compensation and benefits in the third quarter of 2008 was \$1.1 million related to severance expense for individuals in the legacy Equities business.

Clearing, settlement, and brokerage expense of \$0.8 million increased by \$0.2 million due to a reserve related to services previously utilized by the Company's legacy Equities business.

Communications and data processing expense of \$3.3 million increased by \$1.5 million due to a \$0.6 million reserve related to services previously utilized by the Company's legacy Equities business, the addition of the Debt Capital Markets division and an increase in activity and headcount in both the Broadpoint Descap and Investment Banking divisions.

Occupancy and depreciation expense and Selling expense remained relatively unchanged.

Restructuring costs of \$2.3 million include reserves established for exiting leased space and write-offs of leasehold improvements and fixed assets.

Other expenses of \$2.7 million in the third quarter of 2008 were \$0.9 million higher than the prior year quarter primarily due to legal and settlement expenses.

The Company reported a tax expense of approximately \$0.9 million and a tax benefit of approximately \$3.0 million for the quarters ended September 30, 2008 and 2007, respectively. Included in the tax provision for the three months ended September 30, 2008 are approximately \$0.9 million of increases in the gross amount of the unrecognized tax benefits related to the current year that, if recognized in the future, would affect the effective tax rate.

The Company maintains a full valuation allowance against its net deferred tax asset position. The valuation allowance was recorded as a result of uncertainties as to the realization of the deferred tax asset after weighing all positive and negative evidence, including the Company's history of cumulative losses over at least the past three years and the difficulty of forecasting future taxable income.

Product Highlights

For presentation purposes, net revenue within each of the businesses is classified as commissions and principal transactions, investment banking, investment gains (losses), net interest, and other. Commissions and principal transactions includes commissions on agency trades and gain and losses from sales and trading activities. Investment banking includes revenue from providing execution and placement services, advisory services including public and private equity and debt offerings, mergers and acquisitions, restructuring and recapitalization services. Investment gains (losses) reflects gains and losses on the Company's investment portfolio. Other revenue reflects management fees received from the partnerships the Company manages and research fees. Net interest includes interest income net of interest expense and reflects the effect of funding rates on the Company's inventory levels. Net revenue presented within each category may differ from that presented in the financial statements as a result of differences in categorizing revenue within each of the revenue line items listed below for purposes of reviewing key business performance.

Equities Q3 2008 vs. Q3 2007

Net revenues in Equities decreased \$1.3 million due to a decrease in trading activity and a reduction in Equity division personnel in anticipation of the Company's acquisition of American Technology Research (AmTech , see Subsequent Events footnote). There were no Equity Investment Banking net revenues in the third quarter. In the third quarter of 2008 the Company incurred \$4.4 million in costs associated with transitioning the legacy Equity sales and trading operation to the American Technology Research platform, including \$1.8 million of closedown costs. In addition to these transition costs, the Equities legacy business lost \$2.6 million in the third quarter of 2008.

Broadpoint Descap Q3 2008 vs. Q3 2007

Broadpoint Descap net revenue increased 333 percent or \$10.5 million, to \$13.6 million in the third quarter of 2008. Commissions and principal transactions revenue increased \$7.3 million or 224 percent to \$10.5 million due to increased trading volumes and an overall widening of spreads in their markets. Net interest increased \$3.2 million to \$3.1 million due to decreased funding rates. The Company also allocated additional capital to Descap that was utilized to increase net inventory levels leading to higher net interest income. The increase in net revenues positively impacted the pre-tax contribution, which increased \$5.3 million.

Other net revenue decreased \$2.7 million for the third quarter of 2008 compared to the same period in 2007. Third quarter other net revenue was negatively impacted by a write-off of an investment in Broadpoint's venture capital subsidiary and an increase in net interest expense due to the mandatory redeemable preferred stock cash dividend, and was partially offset by the FATV management fee for managing the Partnership. Profitability was also negatively impacted by costs associated with the previously announced restructuring plan (see Restructuring note).

Net Revenue

Net revenue increased \$54.2 million, or 184 percent, in the first nine months of 2008 to \$83.7 million from \$29.5 million. Commissions and principal transactions for the first nine months of 2008 increased \$41.9 million or 218% to \$61.1 million compared to the prior year period, due to an increase in Broadpoint Descap of \$19.3 million and \$28.6 million generated by the Debt Capital Markets division, which commenced operations in March of 2008, partially offset by a decrease in Equities of \$6.0 million. Investment Banking revenues were \$14.0 million in the first nine months of 2008 compared to \$6.5 million in the prior year period, an increase of \$7.5 million, or 117%. The \$7.5 million increase is primarily due to Debt Capital Market placement fees of \$3.1 million and an increase in advisory fees in the Investment Banking division of approximately \$5.2 million.

Non-Interest Expense

Non-interest expenses for the first nine months of 2008 were \$100.4 million, compared to \$51.6 million in the nine month period ended September 30, 2007.

Compensation and benefits expense was \$71.6 million in the first nine months of 2008, which represents an increase of \$41.0 million, or 134%, due to an increase in net revenues of 184%.

Clearing, settlement and brokerage expense was \$1.9 million in the nine month period ended September 30, 2008 compared to \$2.7 million in the prior year period due to a decrease in equity trading volume, partially offset by volume in the Debt Capital Markets division and increased volume in the Broadpoint Descap division.

Communications and data processing expense of \$7.3 million increased \$1.3 million due to trading volume in the Debt Capital Markets division and increased volume in the Broadpoint Descap division, as well as a \$0.6 million reserve related to services previously utilized by the legacy Equities business, partially offset by reductions in Equity trading volumes.

Occupancy and depreciation expense remained relatively unchanged at \$4.9 million.

Selling expense increased 5 percent, to \$3.1 million in the first nine months of 2008 due primarily to an increase in travel and entertainment expense and dues and fees expenses.

Restructuring costs were \$4.3 million consisting of \$1.1 million related to termination benefits and \$3.2 million related to occupancy and other expenses. The Company has completed its restructuring plan to properly size its infrastructure.

Other expenses of \$7.4 million were \$2.9 million higher than the prior year period primarily due to legal and settlement expenses.

The Company reported a tax expense of approximately \$2.4 million and a tax benefit of approximately \$3.5 million for the nine months ended September 30, 2008 and 2007, respectively. Included in the tax provision for the nine months ended September 30, 2008 are approximately \$2.4 million of increases in the gross amount of unrecognized tax benefits related to the current year that, if recognized in the future, would affect the effective tax rate.

The Company maintains a full valuation allowance against its net deferred tax asset position. The valuation allowance was recorded as a result of uncertainties as to the realization of the deferred tax asset after weighing all positive and negative evidence, including the Company's history of cumulative losses over at least the past three years and the difficulty of forecasting future taxable income.

Product Highlights

For presentation purposes, net revenue within each of the businesses is classified as commissions and principal transactions, investment banking, investment gains (losses), net interest, and other. Commissions and principal transactions includes commissions on agency trades and gain and losses from sales and trading activities. Investment banking includes revenue from providing execution and placement services, advisory services including public and private equity and debt offerings, mergers and acquisitions, restructuring and recapitalization services. Investment gains (losses) reflects gains and losses on the Company's investment portfolio. Other revenue reflects management fees received from the partnerships the Company manages and research fees. Net interest includes interest income net of interest expense and reflects the effect of funding rates on the Company's inventory levels. Net revenue presented within each category may differ from that presented in the financial statements as a result of differences in categorizing revenue within each of the revenue line items listed below for purposes of reviewing key business performance.

Equities YTD 2008 vs. YTD 2007

Net revenues in Equities decreased \$6.0 million, or 56 percent, to \$4.7 million in the first nine months of 2008. During the first nine months of 2008, Equity commissions and principal transactions decreased 62 percent or \$6.0 million from the same period in the previous year due to a decrease in trading activity and a decrease in Equity division personnel in anticipation of the Company's acquisition of AmTech, the new equity sales, trading and research subsidiary, (see Subsequent Events footnote). Equity Investment Banking revenues decreased 19 percent or \$0.1 million versus the same period in the prior year. In the third quarter of 2008 the Company incurred \$4.4 million in costs associated with transitioning the legacy Equity sales and trading operations to the Amtech platform. These costs include \$1.8 million of closedown costs.

Broadpoint Descap net revenue increased 261 percent or \$25.3 million, to \$35.0 million in the first nine months of 2008. Commissions and principal transactions revenue increased \$19.3 million due to increased trading volumes and an overall widening of spreads in their markets. Net interest increased by \$6.6 million due to decreased funding rates. The Company also allocated additional capital to Descap that was utilized to increase net inventory levels leading to higher net interest income. The increase in net revenues positively impacted the pre-tax contribution,

managing the Partnership. Profitability was also negatively impacted by costs associated with the previously announced restructuring plan (see Restructuring footnote) and an increase in compensation and benefit expense associated with payments to a former employee under a previously disclosed employment agreement.

Liquidity and Capital Resources

A substantial portion of the Company's assets are liquid, consisting of cash and assets readily convertible into cash. These assets are financed primarily by the Company's equity on deposit as well as payables to brokers and dealers, net. The level of assets and liabilities will fluctuate as a result of the changes in the level of positions held to facilitate customer transactions and changes in market conditions.

On March 4, 2008, the Company closed a \$20 million investment private placement whereby investors purchased approximately 11.6 million shares of common stock of the Company at \$1.70 per share. A fund managed by MAST Capital Management, LLC, (Mast), a Boston-based investment manager that focuses on special situations debt and equity investment opportunities, led the investment purchasing 7.1 million of the approximately 11.6 million shares issued.

On June 27, 2008 the Company entered into a Preferred Stock Purchase Agreement with Mast for the issuance and sale of (i) 1,000,000 newly-issued unregistered shares of the Series B Preferred Stock and (ii) a warrant to purchase 1,000,000 shares of the Company's common stock at an exercise price of \$3.00 per share, for an aggregate cash purchase price of \$25 million. Cash dividends of 10 percent per annum must be paid quarterly on the Series B Preferred Stock, while an additional dividend of 4 percent per annum accrues and is cumulative, if not otherwise paid quarterly at the option of the Company. The Series B Preferred Stock must be redeemed on or before June 27, 2012. See Note 11 of the Consolidated Financial Statements.

The redemption prices are as follows:

In 2007, the Company implemented a restructuring plan to properly size the Company's infrastructure with its current level of activity. As a result, the Company incurred approximately \$2.7 million in restructuring costs during the fourth quarter of 2007 and incurred an additional \$4.3 million in restructuring costs through the third quarter of 2008. The plan included a reduction in IT and operations support headcount, outsourcing the Company's clearing operations, and eliminating excess office space. The Company has completed its restructuring plan to properly size its infrastructure. The restructuring costs incurred of \$7.0 million are estimated to save \$7.9 million annually.

On November 2, 2007, the Company entered into a Fifth Amendment to Sub-Lease Agreement (the Albany Fifth Amendment) with Columbia 677, L.L.C. (the Albany Landlord) pursuant to which the Company's Sub-lease-Agreement with the Landlord dated August 12, 2003 concerning the lease of certain space in the building located at 677 Broadway, Albany, New York (the Albany Premises) was amended. The Amendment provided that the Company was to surrender a total of 15,358 square feet (the Surrender Premises) of the Albany Premises, a portion at a time, on or before three surrender dates: November 15, 2007, December 15, 2007 and April 1, 2008. If the Company failed to vacate the portion of the Surrender Premises on the applicable surrender dates, it would owe the Landlord \$1,667 for each day of such failure. The Company failed to vacate 1,398 square feet of the Surrender Premises by April 1, 2008 and as a result began to incur the daily fee on such date. The Company vacated such portion of the

Surrender Premises on April 25, 2008, and paid the Albany Landlord approximately \$42,000.

In consideration of the Landlord agreeing to the surrender of the Surrender Premises, the Amendment provided that the Company shall pay the Landlord a surrender fee equal to \$1,050,000 payable in three installments, all of which were paid as of June 30, 2008.

On June 19, 2008, the Company entered into a Sixth Amendment to Sub-Lease Agreement amending a Sub-Lease Agreement dated August 12, 2003, as previously amended, by and between the Company and the Albany Landlord. Pursuant thereto and on certain conditions specified therein, the parties agreed that Tenant shall be entitled to surrender the entire 12th floor of the Building consisting of 6,805 square feet of space (the 12th Floor Surrender Premises), reducing Tenant's rentable square footage of leased property in the Building to 2,953 square feet. The Company vacated the 12th Floor Surrender Premises by June 30, 2008. In consideration therefore the Company paid the Landlord \$388,703. This amount is included in Restructuring in the Company's Statement of Operations.

On June 23, 2008, the Company entered into a Seventh Amendment of Lease (the NYC Amendment), amending the Agreement of Lease dated March 21, 1996, as previously amended, by and between the Company and One Penn Plaza LLC (NYC Landlord), a New York limited liability company, for the lease of certain property located at One Penn Plaza, New York, New York. Pursuant thereto and on certain conditions specified therein, the parties agree that the term of the Lease for all of the premises currently leased by the Company on the 41st Floor and a portion of the premises on the 40th Floor will expire on October 31, 2008, as provided under existing lease terms, but that the term of the Company's lease of the entire 42nd Floor and the remaining premises on the 40th Floor shall be extended until March 31, 2021, subject to further renewal. Under the NYC Amendment, the NYC Landlord will perform certain base building work, and will also provide a cash contribution of up to \$1,582,848 towards the Company's improvements. At the Company's election, and pursuant to certain conditions, the Company may elect to convert a portion of such cash contribution (up to \$1,000,000) to a rent credit equal to 90 percent of the amount so converted. In connection with the execution and delivery of the Amendment, the Company is required to provide to NYC Landlord a security deposit in the amount of \$2,107,490, either as cash or a letter of credit, to secure the performance of the Company's obligations under the Lease. Under certain conditions, the Company is entitled to reduce the security deposit to \$1,208,708 on April 1, 2014. An irrevocable standby letter of credit in favor of the NYC Landlord was issued in the amount of \$2,107,490 by the Bank of New York Mellon on behalf of the Company.

Regulatory

As of September 30, 2008, Broadpoint Capital and Broadpoint Securities were in compliance with the net capital requirements of the Securities and Exchange Commission. The net capital rules restrict the amount of a broker-dealer's net assets that may be distributed. Also, a significant operating loss or extraordinary charge against net capital may adversely affect the ability of the Company's broker-dealer subsidiaries to expand or even maintain their present levels of business and the ability to support the obligations or requirements of the Company. As of September 30, 2008, Broadpoint Capital had net capital, as defined, of \$10.42 million, which was \$10.17 million in excess of the \$0.25 million required minimum net capital. At September 30, 2008, Broadpoint Securities had net capital, as defined, of \$17.91 million, which was \$16.66 million in excess of its required minimum net capital of \$1.25 million. Broadpoint Securities ratio of aggregate indebtedness to net capital was 1.05:1. Broadpoint Capital had been required and did report the level of its net capital to its FINRA representative on a weekly basis. During the third quarter of 2008, Broadpoint Capital was relieved from reporting these amounts to its FINRA representative on such basis.

Derivatives

The Company utilizes various hedging strategies to actively manage its market, credit and liquidity exposures. The Company also enters into underwriting commitments to purchase securities as part of its investment banking business and may purchase and sell securities on a when-issued basis. At September 30, 2008, the Company had no outstanding underwriting commitments, had not purchased or sold any securities on a when-issued basis, and had entered into sale agreements on to-be-announced (TBA) mortgage-backed securities in the amount of \$89 million.

Investments and Commitments

As of September 30, 2008, the Company had a commitment to invest up to an additional \$1.3 million in the Partnership. The investment period expired in July 2006, however, the general partner of the Partnership, FATV GP LLC (the General Partner), may continue to make capital calls up through July 2011 for additional investments in portfolio companies and for the payment of management fees. The Company intends to fund this commitment from operating cash flow. The Partnership's primary purpose is to provide investment returns consistent with risks of investing in venture capital. In addition to the Company, certain other limited partners of the Partnership are officers or directors of the Company. The majority of the commitments to the Partnership are from non-affiliates of the Company.

The General Partner is responsible for the management of the Partnership, including among other things, making investments for the Partnership. The members of the General Partner are George McNamee, a Director of the Company, Broadpoint Enterprise Funding, Inc., a wholly owned subsidiary of the Company, and certain other employees of FATV. Subject to the terms of the partnership agreement, under certain conditions, the General Partner is entitled to share in the gains received by the Partnership in respect of its investment in a portfolio company.

As of September 30, 2008, the Company had an additional commitment to invest up to \$0.1 million in (EIF). The investment period expired in July 2006, but the General Partner may continue to make capital calls up through July 2011 for additional investments in portfolio companies and for the payment of management fees. The Company anticipates that this will be funded by the Company through operating cash flow.

On April 30, 2008, the Company entered into a Transition Agreement (the Transition Agreement) with FATV, FA Technology Holding, LLC (NewCo), Mr. McNamee, and certain other employees of FATV (such individuals, collectively, the FATV Principals), to effect a restructuring of the investment management arrangements relating to the Partnership, and the formation of FA Technology Ventures III, L.P., a new venture capital fund (Fund III). This restructuring will result in FATV ceasing to advise the Partnership and the creation of a new investment advisory company (NewCo). Fund III will be sponsored and managed by NewCo (which is independent of the Company and owned by certain of the FATV Principals) and its subsidiaries. The Company's Audit Committee approved of the Transactions pursuant to its Related Party Transactions Policy.

Concurrent with the first closing of Fund III (the Trigger Date), FATV will assign all of its rights, interest, obligations and liabilities as investment advisor to the Partnership to NewCo. FATV will continue to operate consistent with current practice (operations, staffing and expenses) for the purpose of performing its duties to the Partnership and the Company will provide funding for such operations through the date that is the earlier to occur of (i) the Trigger Date and (ii) December 31, 2008.

Pursuant to the Transition Agreement, and subject to certain conditions, the Company will make a capital commitment of \$10 million to Fund III (the Broadpoint Commitment) at the closing of Fund III at which the total commitments to Fund III (excluding the Broadpoint Commitment) exceed a threshold amount. If such threshold is not met by June 30, 2009, the Company's obligation to make the Broadpoint Commitment shall terminate. The Company will also receive an equity interest in the general partner of Fund III, subject to the making of the Broadpoint Commitment. In addition, the Company will have the right to receive additional compensation for capital commitments made to Fund III from certain investors introduced by its affiliates.

It is also contemplated that, on the Trigger Date, each of the FATV Principals will resign from FATV and/or the Company, as the case may be. The Company has also agreed to assign to NewCo the name FA Technology.

Contingent Consideration

On May 14, 2004, the Company acquired 100 percent of the outstanding common shares of Descap Securities Inc., subsequently known as Broadpoint Securities. Per the stock purchase agreement, the sellers were to receive future contingent consideration based on the following: For each of the three years ending May 31, 2005, May 31, 2006 and May 31, 2007, if Broadpoint Securities' Pre-Tax Net Income (exclusive of certain intercompany charges, as defined)

(i) is greater than \$10 million, The Company was to pay to the sellers an aggregate amount equal to fifty percent (50%) of Broadpoint Securities Pre-Tax Net Income for such period or (ii) is equal to or less than \$10 million, the Company was

to pay them an aggregate amount equal to forty percent (40%) of Broadpoint Securities' Pre-Tax Net Income for such period. Based upon Broadpoint Securities' Pre-Tax Net Income from June 1, 2004 through May 31, 2005, \$2.2 million on contingent consideration was paid to the Sellers and from June 1, 2005 through May 31, 2006, \$1.0 million of contingent consideration was paid to the Sellers on May 29, 2008. Based upon Broadpoint Securities' Pre-Tax Net Income from June 1, 2006 to May 31, 2007, no contingent consideration is payable to the Sellers for this period.

Contingent Liabilities

On September 14, 2007, the Company consummated the sale of the Municipal Capital Market Group of its subsidiary, Broadpoint Capital, Inc. to DEPFA (DEPFA). In connection with such sale, the Company recognized a pre-tax gain on sale in the amount of \$7.9 million. Pursuant to the asset purchase agreement, the Company was required to deliver an estimate of the accrued bonuses at closing and a final accrued bonus calculation thirty days following closing. The Company accrued the bonus consistent with the asset purchase agreement. All items arising from the sale of the Municipal Capital Markets Group were reflected in the Gain on Sale of Discontinued Operations. This includes the closing bonuses paid to employees and the reversal of restricted stock and deferred cash amortization as a result of the employees' termination of employment. On October 30, 2007, DEPFA provided the Company notice that it was exercising its option pursuant to the agreement to appoint an independent accounting firm to conduct a special audit of the final accrued bonus amount. On June 26, 2008, DEPFA provided the Company notice that it was withdrawing its dispute of the final accrued bonus amount.

Legal Proceedings

From time to time the Company and its subsidiaries are involved in legal proceedings or disputes. (See Part I - Item 3 Legal Proceedings). An adverse result or development in respect of these matters, whether in settlement or as a result of litigation or arbitration, could materially adversely affect the Company's consolidated financial condition, results of operations, cash flows and liquidity.

In addition, the securities industry is highly regulated. We are subject to both routine and unscheduled regulatory examinations of our business and investigations of securities industry practices by governmental agencies and self-regulatory organizations. In recent years securities firms have been subject to increased scrutiny and regulatory enforcement activity. Regulatory investigations can result in substantial fines being imposed on us. Periodically we receive inquiries and subpoenas from the SEC, state securities regulators and self-regulatory organizations. We do not always know the purpose behind these communications or the status or target of any related investigation. Our responses to these communications have in the past resulted in our being cited for regulatory deficiencies, although to date these communications have not had a material adverse effect on our business.

Intangible Assets

Intangible assets consist predominantly of customer related intangibles and goodwill related to the acquisitions of Broadpoint Securities and the Debt Capital Markets Group. These intangible assets were allocated to the reporting units within Broadpoint Securities Group, Inc. pursuant to SFAS No. 142, Goodwill and Other Intangible Assets. Goodwill represents the excess cost of a business acquisition over the fair value of the net assets acquired. In accordance with SFAS No. 142, indefinite-life intangible assets and goodwill are not amortized. The Company reviews its goodwill in order to determine whether its value is impaired on an annual basis. In addition to annual testing, goodwill is also tested for impairment at the time of a triggering event requiring re-evaluation, if one were to occur. Goodwill is impaired when the carrying amount of the reporting unit exceeds the implied fair value of the reporting unit. When available, the Company uses recent, comparable transactions to estimate the fair value of the respective reporting units. The Company calculates an estimated fair value based on multiples of revenues, earnings and book value of comparable transactions. However, when such comparable transactions are not available or have become outdated, the Company uses Income and Market approaches to determine fair value of the reporting unit. The Income approach applies a discounted cash flow analysis based on management's projections, while the Market approach analyzes and compares the operating performance and financial

condition of the reporting unit with those of a group of selected publicly-traded companies that can be used for comparison. However, changes in current circumstances or business conditions could result in an impairment of goodwill. As required the Company will continue to perform impairment testing on an annual basis or when an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

As of September 30, 2008, \$17.4 million of goodwill and \$1.1 million of amortizable customer intangibles have been recorded on Broadpoint Securities Group, Inc.'s financial statements. As a result of annual impairment testing at December 31, 2007, the goodwill related to the acquisition of Broadpoint Securities Inc. was determined not to be impaired.

Tax Valuation Allowance

At September 30, 2008, the Company had a valuation allowance against its deferred tax asset. The valuation allowance was established as a result of weighing all positive and negative evidence, including the Company's history of cumulative losses over at least the past three years and the difficulty of forecasting future taxable income. As a result, the Company does not anticipate that the payment of future taxes will have a significant negative impact on its liquidity and capital resources.

OFF-BALANCE SHEET ARRANGEMENTS

Information concerning the Company's off balance sheet arrangements are included in the Contractual Obligations section which follows. Except as set forth in such section, the Company has no off-balance sheet arrangements.

(1) The Company's headquarters and sales offices, and certain office and communication equipment, are leased under non-cancelable operating leases, certain of which contain escalation clauses and which expire at various times through 2021 (see Note 10 to the unaudited Condensed Consolidated Financial Statements.)

- (2) Guaranteed compensation payments primarily include various employment and consulting compensation arrangements as well as various severance agreements.
- (3) The Company has a commitment to invest in FA Technology Ventures L.P. (the Partnership) and an additional commitment to invest in funds that invest in parallel with the Partnership (see Note 10 to the unaudited Condensed Consolidated Financial Statements).
- (4) In connection with the Transition Agreement the Company entered into with FATV, FA Technology Holding, LLC, and the FATV Principals, the Company has a commitment to invest \$10 million in Fund III, subject to certain

conditions (see Note 10 to the unaudited Condensed Consolidated Financial Statements).

- (5) In connection with the Series B Preferred Stock Purchase Agreement on and effective June 27, 2008, the holders of Series B Preferred Stock are entitled to receive cash dividend of 10 percent per annum, payable quarterly, as well as dividends at rate of 4 percent per annum which accrue and are cumulative, if not otherwise paid quarterly at the option of the Company. The Company is required to redeem all of the Series B Preferred Stock on or before June 27, 2012 at the Redemption Price. (see Note 11 to the unaudited Condensed Consolidated Financial Statements.)

- (6) A select group of management and highly compensated employees are eligible to participate in the Broadpoint Securities Group, Inc. Deferred Compensation Plan for Key Employees (the Plan). The employees enter into subordinate loans with the Company to provide for the deferral of compensation and employer allocations under the Plan. The accounts of the participants of the Plan are credited with earnings and/or losses based on the performance of various investment benchmarks selected by the participants. Maturities of the subordinated debt are based on the distribution election made by each participant, which may be deferred to a later date by the participant. As of February 28, 2007, the

Company no longer permits any new amounts to be deferred under the Plan.

- (7) At September 30, 2008, the Company had a reserve for unrecognized tax benefits including related interest of \$3.5 million. The Company is unable at this time to estimate the periods in which potential cash outflows relating to these liabilities would occur because the timing of the cash flows are dependent upon audit by the relevant taxing authorities. The Company presently has an ongoing audit with the State of New York. Management does not expect any significant change in unrecognized tax benefits in the next twelve months.

NEW ACCOUNTING STANDARDS

In March 2008, the FASB issued FASB 161, *Disclosures about Derivative Instruments and Hedging Activities* (FASB 161). FASB 161 amends and expands the disclosure requirements of FASB 133, *Accounting for Derivative Instruments and Hedging Activities*, and requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair values and amounts of gains and losses on derivative contracts and disclosures about credit-risk-related contingent features in derivative agreements. FASB 161 is effective for the fiscal years and interim periods beginning after November 15, 2008. The Company is currently assessing the impact of FASB 161 on the consolidated statement of financial condition and results of operations.

In April of 2008, the FASB issued FSP 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 is intended to improve the consistency between the useful life of a recognized intangible asset and the period of expected cash flows used to measure the fair value of the asset. The effective date for FSP 142-3 is for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP No. 142-3 on the consolidated statement of financial condition and results of operations.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). SFAS No. 162 sets forth the level authority attributed to a given accounting pronouncement. SFAS No. 162 contains no specific disclosure requirements. The effective date for implementation has yet to be determined.

In May 2008, the FASB issued SFAS No. 163, *Accounting for Financial Guarantee Contracts* (SFAS No. 163). SFAS No. 163 requires disclosure of insurance enterprise's risk-management activities. The effective date for SFAS No. 163 is for fiscal years beginning after December 15, 2008. SFAS No. 163 is not applicable to the Company.

In June 2008, FASB issued EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (EITF 03-06-1). EITF 03-06-1 applies to the calculation of earnings per share under FASB No. 128 *Earnings Per Share* for share-based payment awards with rights to dividends or dividend equivalents. Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method. The effective date for EITF 03-6-1 is for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of EITF 03-6-1 on the consolidated statement of financial condition and results of operations.

In October 2008, the FASB issued FSP FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for that Asset is not Active* (FSP FAS 157-3). FSP FAS 157-3 is consistent with the joint press release the FASB issued with the Securities and Exchange Commission on September 30, 2008, which provides general clarification guidance on determining fair value under FASB 157 when markets are inactive. FSP FAS 157-3 specifically addresses the use of judgment in determining whether a transaction in a dislocated market represents fair value, the inclusion of market participant risk adjustments when an entity significantly adjusts observable market data based on unobservable inputs, and the degree of reliance to be placed on broker quotes or pricing services. FSP FAS 157-3 is effective October 10, 2008 and is not expected to have a material effect on our consolidated financial statements.

 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK
 (Unaudited)

Item 3. Quantitative and Qualitative Disclosures about Market Risk**MARKET RISK**

Market risk generally represents the risk of loss that may result from the potential change in the value of a financial instrument as a result of fluctuations in interest rates and equity prices, changes in the implied volatility of interest rates and equity prices and also changes in the credit ratings of either the issuer or its related country of origin. Market risk is inherent to both derivative and non-derivative financial instruments, and accordingly, the scope of the Company's market risk management procedures extends beyond derivatives to include all market-risk-sensitive financial instruments. The Company's exposure to market risk is directly related to its role as a financial intermediary in customer-related transactions and to its proprietary trading.

The Company trades taxable debt obligations, including U.S. Treasury bills, notes, and bonds, U.S. Government agency notes and bonds, bank certificates of deposit, mortgage-backed securities, and corporate obligations. The Company is also an active market maker in the NASDAQ equity markets. In connection with these activities, the Company may be required to maintain inventories in order to facilitate customer transactions. In connection with some of these activities, the Company attempts to mitigate its exposure to such market risk by entering into hedging transactions, which may include U.S. Government and federal agency securities and TBA's.

The following table categorizes the Company's market risk sensitive financial instruments by type of security and maturity date, if applicable (equity securities and other investments with no maturity are being shown in the table under 2008). The fair value of securities are shown net of long and short positions.

amount of derivatives

The following is a discussion of the Company's primary market risk exposures as of September 30, 2008, including a discussion of how those exposures are currently managed.

Interest Rate Risk

Interest rate risk is a consequence of maintaining inventory positions and trading in interest-rate-sensitive financial instruments. These financial instruments include corporate debt securities, mortgage-backed and asset-backed securities, government securities and government agency securities. In connection with trading activities, the Company exposes itself to interest rate risk, arising from changes in the level or volatility of interest rates or the shape and slope of the yield curve. The Company's fixed income activities also expose it to the risk of loss related to changes in credit spreads. Our exposure to residential mortgage-backed agency securities is reduced through the forward sale of such TBA contracts as represented by the notional amount of derivatives.

A sensitivity analysis has been prepared to estimate the Company's exposure to interest rate risk of its net inventory positions. The fair market value of these securities, net of the notional amount of derivatives included in the Company's inventory at September 30, 2008 was \$349.0 million and \$60.7 million at September 30, 2007. Interest rate risk is estimated as the potential loss in fair value resulting from a hypothetical one-half percent change in interest rates. At September 30, 2008, the potential change in fair value using a yield to maturity

(Unaudited)

calculation and assuming this hypothetical change, was \$14.3 million and at September 30, 2007 it was \$3.5 million. The actual risks and results of such adverse effects may differ substantially.

Equity Price Risk

The Company is exposed to equity price risk as a consequence of making markets in equity securities. Equity price risk results from changes in the level or volatility of equity prices, which affect the value of equity securities or instruments that derive their value from a particular stock. The Company attempts to reduce the risk of loss inherent in its inventory of equity securities by monitoring those security positions throughout each day.

Marketable equity securities included in the Company's inventory, which were recorded at a fair value of \$1.0 million in securities owned at September 30, 2008 and \$4.1 million in securities owned at December 31, 2007, have exposure to equity price risk. This risk is estimated as the potential loss in fair value resulting from a hypothetical 10 percent adverse change in prices quoted by stock exchanges and amounts to \$0.1 million at September 30, 2008 and \$0.4 million at December 31, 2007. The Company's investment portfolio excluding the consolidation of the Employee Investment Fund at September 30, 2008 and September 30, 2007, had a fair market value of \$16.5 million and \$14.6 million, respectively. Equity price risk is also estimated as the potential loss in fair value resulting from a hypothetical 10 percent adverse change in equity security prices or valuations and for the Company's investment portfolio excluding the consolidation of the Employee Investment Funds amounted to \$1.7 million at September 30, 2008 and \$1.5 million at September 30, 2007. There can be no assurance that the Company's actual losses due to its equity price risk will not exceed the amounts indicated above. The actual risks and results of such adverse effects may differ substantially.

CREDIT RISK

The Company is engaged in various trading and brokerage activities whose counter parties primarily include broker-dealers, banks, and other financial institutions. In the event counter parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the credit worthiness of the counter party or issuer of the instrument. The Company seeks to control credit risk by following an established credit approval process, monitoring credit limits, and requiring collateral where it deems appropriate.

The Company purchases debt securities and may have significant positions in its inventory subject to market and credit risk. In order to control these risks, security positions are monitored on at least a daily basis. Should the Company find it necessary to sell such a security, it may not be able to realize the full carrying value of the security due to the size of the position sold.

Broadpoint Securities and Broadpoint Capital clear customers' securities transactions through a third party under a clearing agreement. Under these agreements, the clearing agent executes and settles customer securities transactions, collects margin receivables related to these transactions, monitors the credit standing and required margin levels related to these customers and, pursuant to margin guidelines, requires the customer to deposit additional collateral with them or to reduce positions, if necessary.

In the normal course of business Broadpoint Securities and Broadpoint Capital guarantee certain service providers, such as clearing and custody agents, trustees, and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the consolidated financial statements for these indemnifications.

OPERATING RISK

Operating risk is the potential for loss arising from limitations in the Company's financial systems and controls, deficiencies in legal documentation and the execution of legal and fiduciary responsibilities, deficiencies in technology and the risk of loss attributable to

(Unaudited)

operational problems. These risks are less direct than credit and market risk, but managing them is critical, particularly in a rapidly changing environment with increasing transaction volumes. In order to reduce or mitigate these risks, the Company has established and maintains an internal control environment that incorporates various control mechanisms at different levels throughout the organization and within such departments as Finance, Accounting, Operations, Legal, Compliance and Internal Audit. These control mechanisms attempt to ensure that operational policies and procedures are being followed and that the Company's various businesses are operating within established corporate policies and limits.

OTHER RISKS

Other risks encountered by the Company include political, regulatory and tax risks. These risks reflect the potential impact that changes in local laws, regulatory requirements or tax statutes have on the economics and viability of current or future transactions. In an effort to mitigate these risks, the Company seeks to review new and pending regulations and legislation and their potential impact on its business.

Item 4. Controls and Procedures

As a result of the corporate restructuring plan which included a reduction in IT and operations support headcount, and outsourcing the Company's clearing operations, there have been certain changes in the Company's internal controls over financial reporting. The primary change consisted of the outsourcing to the Company's clearing broker of certain internal controls related to the clearing and settlement of securities transactions. Management will continue to evaluate the design and effectiveness of the Company's internal controls including those outsourced to the Company's clearing broker.

As of the end of the period covered by this Form 10-Q, the Company's management, with the participation of the Chief Executive Officer and the Principal Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on that evaluation, the Company's management, including the Chief Executive Officer and the Principal Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

Table of Contents**Part II-Other Information****Item 1. Legal Proceedings**

In 1998, the Company was named in lawsuits by Lawrence Group, Inc. and certain related entities (the Lawrence Parties) in connection with a private sale of Mechanical Technology Inc. stock from the Lawrence Parties that was approved by the United States Bankruptcy Court for the Northern District of New York (the Bankruptcy Court). The Company acted as placement agent in that sale, and a number of persons who were employees and officers of the Company at that time, who have also been named as defendants, purchased shares in the sale. The complaints alleged that the defendants did not disclose certain information to the sellers and that the price approved by the court was therefore not proper. The cases were initially filed in the Bankruptcy Court and the United States District Court for the Northern District of New York (the District Court), and were subsequently consolidated in the District Court. The District Court dismissed the cases, and that decision was subsequently vacated by the United States Court of Appeals for the Second Circuit, which remanded the cases for consideration of the plaintiffs' claims as motions to modify the Bankruptcy Court sale order. The plaintiffs' claims were referred back to the Bankruptcy Court for such consideration. An evidentiary hearing on the motions to modify the sale order commenced on October 15, 2008, and additional hearing dates are expected to be scheduled over the next few months. The Bankruptcy Court has indicated that it will hold a separate hearing to consider damages, only if it makes a finding of liability in connection with the motions to modify the sale order, 30 days after it resolves the motions to modify the sale order. The Company believes that it has strong defenses and intends to vigorously defend itself against the plaintiffs' claims, and believes the claims lack merit. However, an unfavorable resolution could have a material adverse effect on the Company's financial position, results of operations and cash flows in the period which resolved.

In early 2008, Broadpoint Capital, Inc. (Broadpoint Capital) hired Tim O' Connor and 9 other individuals to form a new restructuring and recapitalization group within Broadpoint Capital's Investment Banking division. Mr. O' Connor, the new Head of Broadpoint Capital's Investment Banking Division and each of the other employees are former employees of Imperial Capital, LLC (Imperial). Upon Broadpoint Capital's hiring of these employees, Imperial commenced an arbitration proceeding against Broadpoint Capital, Mr. O' Connor, another employee hired by Broadpoint Capital and a former employee of Imperial who is not employed by Broadpoint Capital before the Financial Industry Regulatory Authority (FINRA). In the arbitration, Imperial alleged various causes of action against Broadpoint Capital as well as the individuals based upon alleged violations of restrictive covenants in employee contracts relating to the non-solicitation of employees and clients. Imperial claimed damages in excess of \$100 million. Concurrently with the filing of the arbitration proceeding, Imperial sought and obtained a temporary restraining order in New York State Supreme Court, pending the conclusion of the FINRA arbitration hearing, enjoining Broadpoint from disclosing or making use of any confidential information of Imperial, recruiting or hiring any employees of Imperial and seeking or accepting as a client any client of Imperial, except those clients for whom any of the hired individuals had provided services as a registered representative while employed by Imperial. On April 17, 2008, Broadpoint Capital, the other respondents, and Imperial entered into a Partial Settlement whereby Imperial's claims for injunctive relief were withdrawn and it was agreed the temporary restraining order would be vacated. Imperial's remaining claim for damages were to be arbitrated before FINRA at a hearing that was scheduled to commence in September 2008. The Partial Settlement provides, among other things, for the potential future payment of amounts from Broadpoint to Imperial contingent upon the successful consummation of, or receipt of fees in connection with, certain transactions. On September 16, 2008, the Company agreed to a Settlement resolving all remaining claims among the parties. In particular, in exchange for a \$500,000 payment from Broadpoint Capital, Imperial released its claims against the respondents. In addition, the respondents released the claims and defenses raised by them against Imperial (including third-party claims asserted against Imperial by Tim O' Connor), and the FINRA case was dismissed. The terms and conditions of the Partial Settlement remain in effect.

Due to the nature of the Company's business, the Company and its subsidiaries are now, and likely in the future will be, involved in a variety of legal proceedings, including the matters described above. These include litigation, arbitrations and other proceedings initiated by private parties and arising from our underwriting, financial advisory or other transactional activities, client account activities and employment matters. Third parties who assert claims may do so for monetary damages that are substantial, particularly relative to the Company's financial position. In addition,

the securities industry is highly regulated. The Company and its subsidiaries are subject to both routine and unscheduled regulatory

Table of Contents

examinations of its business and investigations of securities industry practices by governmental agencies and self-regulatory organizations. In recent years securities firms have been subject to increased scrutiny and regulatory enforcement activity. Regulatory investigations can result in substantial fines being imposed on the Company and/or its subsidiaries. Periodically the Company and its subsidiaries receive inquiries and subpoenas from the SEC, state securities regulators and self-regulatory organizations. The Company does not always know the purpose behind these communications or the status or target of any related investigation. The responses to these communications have in the past resulted in the Company and/or its subsidiaries being cited for regulatory deficiencies, although to date these communications have not had a material adverse effect on the Company's business.

The Company has taken reserves in its financial statements with respect to legal proceedings to the extent it believes appropriate. However, accurately predicting the timing and outcome of legal proceedings, including the amounts of any settlements, judgments or fines, is inherently difficult insofar as it depends on obtaining all of the relevant facts (which is sometimes not feasible) and applying to them often-complex legal principles. Based on currently available information, the Company does not believe that any litigation, proceeding or other matter to which it is a party or otherwise involved will have a material adverse effect on its financial position, results of operations and cash flows although an adverse development, or an increase in associated legal fees, could be material in a particular period, depending in part on the Company's operating results in that period.
