Generally, rating agencies base their ratings on such material and information, and such of their own investigations, studies and assumptions, as they deem appropriate. Ratio of Earnings to Fixed Charges:

	<b>Fiscal Year Ended September 30, 2009 Pro Forma (3)</b>
<b>Ratio of earnings to fixed charges (1)</b>	11.8x
<b>Ratio of earnings to fixed charges, excluding brokerage interest expense (2)</b>	13.8x

(1) For purposes of calculating our ratio of earnings to fixed charges, earnings consist of earnings from continuing operations before income taxes plus fixed charges. Fixed charges consist of (i) interest on indebtedness, including amortization of capitalized debt issuance costs, (ii) brokerage interest expense, and (iii) the portion of rents representative of interest expense (which the Company estimates to be one-third of rental expense).

(2) Because interest expense incurred in connection with brokerage

activities is completely offset by brokerage interest revenue, the Company considers such interest to be a reduction of net revenues.

Accordingly, the ratio of earnings to fixed charges, excluding brokerage interest expense, reflects the elimination of such interest expense from fixed charges.

- (3) The ratio of earnings to fixed charges for the fiscal year ended September 30, 2009 has been adjusted on a pro forma basis to give effect to the offer and sale of the \$1,250 million aggregate principal amount of the notes offered hereby and the use of the net proceeds to repay our existing senior secured term loan facilities as if such events occurred on October 1, 2008.
