FORWARD-LOOKING STATEMENTS

Discussions and statements in this Annual Report on Form 10-K that are not statements of historical fact, including, without limitation, statements that include terms such as will, may, should, believe, expect, anticipate, estimate, project, intend, and plan, and statements about future financial and operating results, plans, objectives, expectations, and intentions and other statements that are not historical facts, are forward-looking statements. Forward-looking statements express management's current expectations, forecasts of future events, or long-term goals and, by their nature, are subject to assumptions, risks, and uncertainties. Although management believes that the expectations, forecasts, and goals reflected in these forward-looking statements are reasonable, actual results could differ materially for a variety of reasons, including the risks and uncertainties detailed under Risk Factors set forth below. The key risks are summarized as follows:

If we are unable to successfully raise new equity capital and otherwise implement our capital restoration plan, it will be extremely difficult for us to withstand current economic conditions and any further deterioration in our loan portfolio;

Future loan losses could exceed the reserves we maintain for such losses;

Economic conditions in Michigan are worse in many cases than national economic conditions and the ability of the Michigan economy to recover, and the pace of such recovery, is expected to have a material impact on our future financial success;

Conditions in regional and local real estate markets are expected to have a material impact on our future financial success;

Current turmoil in the vehicle service contract industry has increased the credit risk and reputation risk for our subsidiary, Mepco Finance Corporation, have led and may continue to lead to significant losses for Mepco, and will contribute to a decrease in the average earning assets of Mepco, which has historically operated at a profit and decreased the size of the losses we have incurred in recent periods;

Legislative and regulatory changes could increase our expenses, decrease our income, and otherwise have a negative impact on our results of operations;

Our use of wholesale funding sources exposes us to liquidity risk and potential earnings volatility;

The continued services of our management team are critical as we work through our asset quality issues and the implementation of our capital restoration plan, yet our ability to compensate our executives is subject to restrictions that do not apply to many of our competitors;

Media reports regarding ongoing bank failures and any negative publicity regarding our capital position could result in our loss of core deposits;

Our capital raising initiatives will result in significant dilution to our current shareholders;

Implementation of our capital restoration plan could result in the U.S. Treasury or another large investor owning a significant percentage of our common stock, and such investor's interests could be different than the interests of our smaller shareholders;

Our common stock may be delisted from the Nasdaq Global Stock Market;

We have suspended all quarterly payments on our preferred stock and our trust preferred securities and we do not know if or when such payments will resume;

We are currently prohibited from paying cash dividends on our common stock and will, for the foreseeable future, be subject to material restrictions on our ability to pay cash dividends;

The liquidity and market price of our common stock may be materially and adversely affected by our current financial condition and the capital raising initiatives we are pursuing.

You are urged to read the Risk Factors section below carefully and not rely on the above summary.

In addition, other factors not currently anticipated may also materially and adversely affect our results of operations, cash flows, financial position, and prospects. We cannot assure you that our future results will meet expectations.

While we believe the forward-looking statements in this Annual Report on Form 10-K are reasonable, you should not place undue reliance on any forward-looking statement. In addition, these statements speak only as of the date made.

We do not undertake, and expressly disclaim, any obligation to update or alter any statements, whether as a result of new information, future events, or otherwise, except as required by applicable law.

Table of Contents**PART I****ITEM 1. BUSINESS**

Independent Bank Corporation was incorporated under the laws of the State of Michigan on September 17, 1973, for the purpose of becoming a bank holding company. We are registered under the Bank Holding Company Act of 1956, as amended, and own the outstanding stock of Independent Bank (the "Bank") which is organized under the laws of the State of Michigan. During 2007, we consolidated our existing four bank charters into one.

Aside from the stock of our Bank, we have no other substantial assets. We conduct no business except for the collection of dividends from our Bank and the payment of dividends to our shareholders. Certain employee retirement plans (including employee stock ownership and deferred compensation plans) as well as health and other insurance programs have been established by us. The costs of these plans are borne by our subsidiaries.

We have no material patents, trademarks, licenses or franchises except the corporate franchise of our Bank which permits it to engage in commercial banking pursuant to Michigan law.

Our Bank's main office location is Ionia, Michigan and it had total loans (excluding loans held for sale) and total deposits of \$2.299 billion and \$2.566 billion, respectively, at December 31, 2009.

Our Bank transacts business in the single industry of commercial banking. Most of our Bank's offices provide full-service lobby and drive-thru services in the communities they serve. Automatic teller machines are also provided at most locations.

Our Bank's activities cover all phases of banking, including checking and savings accounts, commercial lending, direct and indirect consumer financing, mortgage lending and safe deposit box services. Our Bank's mortgage lending activities are primarily conducted through a separate mortgage bank subsidiary. Mepco Finance Corporation, a subsidiary of our Bank, acquires (on a full recourse basis) and services payment plans used by consumers to purchase vehicle service contracts and similar products provided and administered by third parties. In addition, our Bank offers title insurance services through a separate subsidiary and provides investment and insurance services through a third party agreement with PrimeVest Financial Services, Inc. Our Bank does not offer trust services. Our principal markets are the rural and suburban communities across Lower Michigan that are served by our Bank's branch network. Our Bank serves its markets through its main office and a total of 105 branches, 4 drive-thru facilities and 5 loan production offices. The ongoing economic stress in Michigan has adversely impacted many of our markets which is manifested in higher levels of loan defaults and lower demand for credit.

Our Bank competes with other commercial banks, savings banks, credit unions, mortgage banking companies, securities brokerage companies, insurance companies, and money market mutual funds. Many of these competitors have substantially greater resources than we do and offer certain services that we do not currently provide. Such competitors may also have greater lending limits than our Bank. In addition, non-bank competitors are generally not subject to the extensive regulations applicable to us.

Price (the interest charged on loans and/or paid on deposits) remains a principal means of competition within the financial services industry. Our Bank also competes on the basis of service and convenience in providing financial services.

The principal sources of revenue, on a consolidated basis, are interest and fees on loans, other interest income and non-interest income. The sources of revenue for the three most recent years are as follows:

	2009	2008	2007
Interest and fees on loans	71.8%	80.0%	74.8%
Other interest income	4.5	7.3	7.7
Non-interest income	23.7	12.7	17.5
	100.0%	100.0%	100.0%

As of December 31, 2009, we had 1,034 full-time employees and 297 part-time employees.

Table of Contents**ITEM 1. BUSINESS** (Continued)**Recent Developments**

On December 18, 2009, the Board of Directors of our subsidiary Bank adopted resolutions requiring our Bank to achieve certain minimum capital ratios. Set forth below are the actual capital ratios of our subsidiary Bank as of December 31, 2009, the minimum capital ratios imposed by our Bank's Board, and the minimum ratios necessary to be considered well capitalized under federal regulatory standards:

	Actual as of	Ratios Established	Required to be Well Capitalized
	12/31/09	by Bank's Board	
Total Capital to Risk-Weighted Assets	10.36%	11.0%	10.0%
Tier 1 Capital to Average Total Assets	6.72%	8.0%	5.0%

Although our Bank's regulatory capital ratios remain at levels above federal regulatory well capitalized standards, because of the losses we have incurred in recent quarters, our elevated levels of non-performing loans and other real estate, and the ongoing economic stress in Michigan, our Bank's Board has determined that we should maintain capital in excess of such levels and has, by resolution, established the minimum ratios set forth above. These resolutions were adopted in conjunction with discussions with our Bank's federal and state regulators and in response to issues highlighted in the most recent exam report issued by the Federal Reserve Board, our Bank's primary federal regulator. We may not rescind or materially modify any of these resolutions without notice to the federal and state bank regulators.

Beginning in December of 2009, we exercised our right to defer all quarterly payments on the outstanding trust preferred securities issued by our trust subsidiaries and all quarterly dividends payable on the preferred stock we issued to the United States Department of Treasury (UST) in December of 2008. We have also stopped paying any cash dividend on our common stock. These actions will preserve cash at IBC as we do not expect Independent Bank, our Bank subsidiary, to be able to pay any cash dividends in the near term.

In addition, we held a special meeting of shareholders on January 29, 2010, pursuant to which our shareholders approved (i) an amendment to our Articles of Incorporation to increase the number of shares of common stock our Board of Directors is authorized to issue, (ii) our issuance of shares of our common stock in exchange for certain of our trust preferred securities and in exchange for the preferred shares held by the UST, and (iii) an option exchange program pursuant to which our employees (excluding our named executive officers and excluding any directors) are eligible to exchange underwater options for new options at approximately a value-for-value exchange.

In connection with the stock option exchange program described in the preceding paragraph, we will file a Schedule TO with the SEC and will provide holders of eligible options with written materials explaining the terms and timing of the program. Persons who are eligible to participate in the stock option exchange program should read these written materials carefully when they become available because they will contain important information about the stock option exchange program. When filed, persons can obtain the tender offer statement and other filed documents for free by visiting the SEC's Web site at www.sec.gov or by visiting the Investor Relations tab of the Company's web site at www.IndependentBank.com.

In January of 2010, our Board of Directors adopted a Capital Restoration Plan (the Capital Plan) that outlines certain actions to be pursued in order to strengthen our capital position. Due to recent events affecting the national economy and particularly the Michigan economy, we believe that additional capital is necessary to maintain and strengthen our capital base as the effects of these events impact our business over the coming months and years. Our Bank began to experience rising levels of non-performing loans and higher provisions for loan losses in 2006. Our Bank remained profitable through the second quarter of 2008. However, since the third quarter of 2008, our Bank has incurred six consecutive quarterly losses, which have pressured its capital ratios. In response to these losses, continuing economic stress in Michigan, and elevated levels of non-performing assets, our Board adopted the Capital Plan. The Capital Plan

documents our objectives for increasing our capital ratios and the various methods to be employed to reach these objectives.

Table of Contents

ITEM 1. BUSINESS (Continued)

The primary objective of our Capital Plan is to achieve and thereafter maintain the minimum capital ratios adopted by the Board of Directors of our subsidiary bank on December 18, 2009, and set forth above. The Capital Plan outlines three primary transactions that are being or will be pursued in order to meet those capital ratios, as follows:

First, in December of 2009, we made a proposal to the UST to issue shares of our common stock in exchange for up to the entire \$72 million in aggregate liquidation value of CPP preferred shares held by the UST. Since making the proposal, we have continued to supply the UST with additional information to assist it in evaluating our proposal. Negotiations with the UST are ongoing.

Second, we intend to offer to issue shares of our common stock in exchange for outstanding trust preferred securities issued by our trust subsidiaries. If completed, this exchange offer would result in a reduction in our obligation to make quarterly distributions to holders of trust preferred securities and would result in an increase to our tangible common shareholders equity. We expect to commence this exchange offer as soon as our registration statement filed with the SEC has been declared effective.

Third, after the completion of the exchange offer for trust preferred securities described in the preceding paragraph, and subject to market conditions, we currently intend to raise additional capital in a public offering of our common stock for cash, in which we currently intend to seek to raise gross proceeds of between \$50 million and \$150 million.

We filed a registration statement (including a preliminary prospectus and related exchange offer materials) on Form S-4 with the SEC on January 27, 2010, in connection with our proposed offer to issue our common stock in exchange for certain of our outstanding trust preferred securities, described above. This registration statement has not yet become effective. Before any person decides whether to participate in such exchange offer (if and when it is commenced by us), the preliminary prospectus in that registration statement and the other documents we have filed with the SEC and may file with the SEC prior to commencement of the exchange offer should be read for more complete information about IBC and the exchange offer. You may obtain these documents for free by visiting the SEC's Web site at www.sec.gov or by visiting the Investor Relations tab of the Company's web site at www.IndependentBank.com.

Supervision and Regulation

The following is a summary of certain statutes and regulations affecting us. This summary is qualified in its entirety by reference to the particular statutes and regulations. A change in applicable laws or regulations may have a material effect on us and our Bank.

General

Financial institutions and their holding companies are extensively regulated under federal and state law. Consequently, our growth and earnings performance can be affected not only by management decisions and general and local economic conditions, but also by the statutes administered by, and the regulations and policies of, various governmental regulatory authorities. Those authorities include, but are not limited to, the Board of Governors of the Federal Reserve System (the "Federal Reserve"), the Federal Deposit Insurance Corporation (the "FDIC"), the Michigan Office of Financial and Insurance Regulation (the "OFIR"), the Internal Revenue Service, and state taxing authorities. The effect of such statutes, regulations and policies and any changes thereto can be significant and cannot be predicted.

Federal and state laws and regulations generally applicable to financial institutions and their holding companies regulate, among other things, the scope of business, investments, reserves against deposits, capital levels, lending activities and practices, the nature and amount of collateral for loans, the establishment of branches, mergers, consolidations and dividends. The system of supervision and regulation applicable to us establishes a comprehensive framework for our operations and is intended primarily for the protection of the FDIC's deposit insurance funds, our depositors, and the public, rather than our shareholders.

Table of Contents

ITEM 1. BUSINESS (Continued)

Federal law and regulations establish supervisory standards applicable to the lending activities of our Bank, including internal controls, credit underwriting, loan documentation and loan-to-value ratios for loans secured by real property.

Regulatory Developments

Emergency Economic Stabilization Act of 2008. On October 3, 2008, Congress enacted the Emergency Economic Stabilization Act of 2008 (EESA). EESA enables the federal government, under terms and conditions developed by the Secretary of the UST, to insure troubled assets, including mortgage-backed securities, and collect premiums from participating financial institutions. EESA includes, among other provisions: (a) the \$700 billion Troubled Assets Relief Program (TARP), under which the Secretary of the UST is authorized to purchase, insure, hold, and sell a wide variety of financial instruments, particularly those that are based on or related to residential or commercial mortgages originated or issued on or before March 14, 2008; and (b) an increase in the amount of deposit insurance provided by the FDIC. Both of these specific provisions are discussed below.

Troubled Assets Relief Program (TARP). Under TARP, the UST authorized a voluntary capital purchase program (CPP) to purchase senior preferred shares of qualifying financial institutions that elected to participate. Participating companies must adopt certain standards for executive compensation, including (a) prohibiting golden parachute payments (as defined in EESA) to senior executive officers; (b) requiring recovery of any compensation paid to senior executive officers based on criteria that is later proven to be materially inaccurate; and (c) prohibiting incentive compensation that encourages unnecessary and excessive risks that threaten the value of the financial institution. The terms of the CPP also limit certain uses of capital by the issuer, including repurchases of company stock and increases in dividends.

On December 12, 2008, we participated in the CPP and issued \$72 million in capital to the UST in the form of non-voting cumulative preferred stock that pays cash dividends at the rate of 5% per annum for the first five years, and then pays cash dividends at the rate of 9% per annum thereafter. In addition, the UST received a warrant to purchase 3,461,538 shares of our common stock at a price of \$3.12 per share. Of the total proceeds, \$68.4 million was initially allocated to the preferred stock and \$3.6 million was allocated to the warrant (included in capital surplus) based on the relative fair value of each. The exercise price for the warrant was determined based on the average of closing prices of our common stock during the 20-trading day period ended November 20, 2008, the last trading day prior to the date the UST approved our participation in the CPP. The warrant is exercisable, in whole or in part, over a term of 10 years.

The securities purchase agreement, dated December 12, 2008, pursuant to which the securities issued to the UST under the CPP were sold, limits the payment of dividends on our common stock; limits our ability to repurchase shares of common stock (with certain exceptions); grants the holders of the preferred stock, the warrant and our common stock to be issued under the warrant certain registration rights; and subjects us to the executive compensation limitations included in the EESA. Beginning in November 2009, we suspended quarterly dividends on the preferred stock issued to the UST in order to preserve capital. As a result of this suspension of dividends, we are currently prohibited from paying any dividends on our common stock until all accrued and unpaid dividends have been paid on the preferred stock issued to the UST. Even after all such accrued dividends have been paid, the securities purchase agreement we entered into with the UST prohibits us from paying more than a \$0.01 per share quarterly dividend without the prior approval of the UST until the earlier of December 12, 2011, the date we redeem all of such preferred stock from the UST, or the date the UST transfers all such preferred stock to a transferee that is not affiliated with the UST.

Federal Deposit Insurance Coverage. The EESA temporarily raised the limit on federal deposit insurance coverage from \$100,000 to \$250,000 per depositor and on May 20, 2009, this temporary increase in the insurance limit was extended until December 31, 2013. Separate from the EESA, in October 2008, the FDIC also announced the Temporary Liquidity Guarantee Program. Under one component of this program, the FDIC temporarily provides unlimited coverage for noninterest bearing transaction deposit accounts through June 30, 2010.

Table of Contents

ITEM 1. BUSINESS (Continued)

Financial Stability Plan. On February 10, 2009, the UST announced the Financial Stability Plan (FSP), which is a comprehensive set of measures intended to shore up the U.S. financial system and earmarks the balance of the unused funds originally authorized under the EESA. The major elements of the FSP include: (i) a capital assistance program that will invest in convertible preferred stock of certain qualifying institutions, (ii) a consumer and business lending initiative to fund new consumer loans, small business loans and commercial mortgage asset-backed securities issuances, (iii) a new_public-private investment fund that will leverage public and private capital with public financing to purchase up to \$500 billion to \$1 trillion of legacy toxic assets from financial institutions, and (iv) assistance for homeowners by providing up to \$75 billion to reduce mortgage payments and interest rates and establishing loan modification guidelines for government and private programs.

Financial institutions receiving assistance under the FSP going forward will be subject to higher transparency and accountability standards, including restrictions on dividends, acquisitions and executive compensation and additional disclosure requirements. We cannot predict at this time the effect that the FSP may have on us or our business, financial condition or results of operations.

American Recovery and Reinvestment Act of 2009. On February 17, 2009, Congress enacted the American Recovery and Reinvestment Act of 2009 (ARRA). In enacting the ARRA, Congress intended to provide a stimulus to the U.S. economy in light of the significant economic downturn. The AARA includes federal tax cuts, expansion of unemployment benefits and other social welfare provisions, and numerous domestic spending efforts in education, healthcare and infrastructure. The ARRA also includes numerous non-economic recovery related items, including a limitation on executive compensation in federally-aided financial institutions, including banks that have received or will receive assistance under TARP.

Under the ARRA, a financial institution will be subject to the following restrictions and standards throughout the period in which any obligation arising from financial assistance provided under TARP remains outstanding:

Limits on compensation incentives for risk-taking by senior executive officers;

Requirement of recovery of any compensation paid based on inaccurate financial information;

Prohibition on golden parachute payments (as defined in the AARA);

Prohibition on compensation plans that would encourage manipulation of reported earnings to enhance the compensation of employees;

Establishment of board compensation committees by publicly-registered TARP recipients comprised entirely of independent directors, for the purpose of reviewing employee compensation plans;

Prohibition on bonuses, retention awards, and incentive compensation, except for payments of long-term restricted stock; and

Limitation on luxury expenditures.

In addition, TARP recipients will be required to permit a separate shareholder vote to approve the compensation of executives. The chief executive officer and chief financial officer of each TARP recipient will be required to provide a written certification of compliance with these standards to the SEC.

The foregoing is a summary of requirements to be included in standards to be established by the Secretary of the UST.

Homeowner Affordability and Stability Plan. On February 18, 2009, President Obama announced the Homeowner Affordability and Stability Plan (HASP). The HASP is intended to support a recovery in the housing market and ensure that workers can continue to pay off their mortgages through the following elements:

Access to low-cost refinancing for responsible homeowners suffering from falling home prices;

A \$75 billion homeowner stability initiative to prevent foreclosure and help responsible families stay in their homes; and

Support of low mortgage rates by strengthening confidence in Fannie Mae and Freddie Mac.

Table of Contents

ITEM 1. BUSINESS (Continued)

In addition, the U.S. Government, the Federal Reserve, the UST, the FDIC and other governmental and regulatory bodies have taken, or may be considering taking, other actions to address the financial crisis. There can be no assurance, however, as to the actual impact of these actions on the financial markets and their potential impact on our business.

Independent Bank Corporation

General. We are a bank holding company and, as such, are registered with, and subject to regulation by, the Federal Reserve under the Bank Holding Company Act, as amended (the "BHCA"). Under the BHCA, we are subject to periodic examination by the Federal Reserve, and are required to file periodic reports of operations and such additional information as the Federal Reserve may require.

In accordance with Federal Reserve policy, a bank holding company is expected to act as a source of financial strength to its subsidiary banks and to commit resources to support the subsidiary banks in circumstances where the bank holding company might not do so absent such policy.

In addition, if the OFIR deems a bank's capital to be impaired, the OFIR may require a bank to restore its capital by special assessment upon a bank holding company, as the bank's sole shareholder. If the bank holding company failed to pay such assessment, the directors of that bank would be required, under Michigan law, to sell the shares of bank stock owned by the bank holding company to the highest bidder at either public or private auction and use the proceeds of the sale to restore the bank's capital.

Any capital loans by a bank holding company to a subsidiary bank are subordinate in right of payment to deposits and to certain other indebtedness of such subsidiary bank. In the event of a bank holding company's bankruptcy, any commitment by the bank holding company to a federal bank regulatory agency to maintain the capital of a subsidiary bank will be assumed by the bankruptcy trustee and entitled to a priority of payment.

Investments and Activities. In general, any direct or indirect acquisition by a bank holding company of any voting shares of any bank which would result in the bank holding company's direct or indirect ownership or control of more than 5% of any class of voting shares of such bank, and any merger or consolidation of the bank holding company with another bank holding company, will require the prior written approval of the Federal Reserve under the BHCA. In acting on such applications, the Federal Reserve must consider various statutory factors including the effect of the proposed transaction on competition in relevant geographic and product markets, and each party's financial condition, managerial resources, and record of performance under the Community Reinvestment Act.

In addition and subject to certain exceptions, the Change in the Bank Control Act ("Control Act") and regulations promulgated thereunder by the Federal Reserve, require any person acting directly or indirectly, or through or in concert with one or more persons, to give the Federal Reserve 60 days' written notice before acquiring control of a bank holding company. Transactions which are presumed to constitute the acquisition of control include the acquisition of any voting securities of a bank holding company having securities registered under Section 12 of the Securities Exchange Act of 1934, as amended, if, after the transaction, the acquiring person (or persons acting in concert) owns, controls or holds with power to vote 10% or more of any class of voting securities of the institution. The acquisition may not be consummated subsequent to such notice if the Federal Reserve issues a notice within 60 days, or within certain extensions of such period, disapproving the acquisition.

The merger or consolidation of an existing bank subsidiary of a bank holding company with another bank, or the acquisition by such a subsidiary of the assets of another bank, or the assumption of the deposit and other liabilities by such a subsidiary requires the prior written approval of the responsible Federal depository institution regulatory agency under the Bank Merger Act, based upon a consideration of statutory factors similar to those outlined above with respect to the BHCA. In addition, in certain cases an application to, and the prior approval of, the Federal Reserve under the BHCA and/or OFIR under Michigan banking laws, may be required.

Table of Contents**ITEM 1. BUSINESS** (Continued)

With certain limited exceptions, the BHCA prohibits any bank holding company from engaging, either directly or indirectly through a subsidiary, in any activity other than managing or controlling banks unless the proposed non-banking activity is one that the Federal Reserve has determined to be so closely related to banking as to be a proper incident thereto. Under current Federal Reserve regulations, such permissible non-banking activities include such things as mortgage banking, equipment leasing, securities brokerage, and consumer and commercial finance company operations. Well-capitalized and well-managed bank holding companies may, however, engage *de novo* in certain types of non-banking activities without prior notice to, or approval of, the Federal Reserve, provided that written notice of the new activity is given to the Federal Reserve within 10 business days after the activity is commenced. If a bank holding company wishes to engage in a non-banking activity by acquiring a going concern, prior notice and/or prior approval will be required, depending upon the activities in which the company to be acquired is engaged, the size of the company to be acquired and the financial and managerial condition of the acquiring bank company.

Eligible bank holding companies that elect to operate as financial holding companies may engage in, or own shares in companies engaged in, a wider range of nonbanking activities, including securities and insurance activities and any other activity that the Federal Reserve Board, in consultation with the Secretary of the Treasury, determines by regulation or order is financial in nature, incidental to any such financial activity or complementary to any such financial activity and does not pose a substantial risk to the safety or soundness of depository institutions or the financial system generally. The Bank Holding Company Act generally does not place territorial restrictions on the domestic activities of non-bank subsidiaries of bank or financial holding companies. As of the date of this filing, we have not applied for approval to operate as a financial holding company and have no current intention to do so.

Capital Requirements. The Federal Reserve uses capital adequacy guidelines in its examination and regulation of bank holding companies. If capital falls below minimum guidelines, a bank holding company may, among other things, be denied approval to acquire or establish additional banks or non-bank businesses.

The Federal Reserve's capital guidelines establish the following minimum regulatory capital requirements for bank holding companies: (i) a leverage capital requirement expressed as a percentage of total assets, and (ii) a risk-based requirement expressed as a percentage of total risk-weighted assets. The leverage capital requirement consists of a minimum ratio of Tier 1 capital (which consists principally of shareholders' equity) to total assets of 3% for the most highly rated companies with minimum requirements of 4% to 5% for all others. The risk-based requirement consists of a minimum ratio of total capital to total risk-weighted assets of 8%, of which at least one-half must be Tier 1 capital.

The risk-based and leverage standards presently used by the Federal Reserve are minimum requirements, and higher capital levels will be required if warranted by the particular circumstances or risk profiles of individual banking organizations.

Included in our Tier 1 capital is \$41.9 million of trust preferred securities (classified on our balance sheet as

Subordinated debentures). The Federal Reserve Board has issued rules regarding trust preferred securities as a component of the Tier 1 capital of bank holding companies. The aggregate amount of trust preferred securities and certain other capital elements is limited to 25 percent of Tier 1 capital elements, net of goodwill (net of any associated deferred tax liability). The amount of trust preferred securities and certain other elements in excess of the limit could be included in the Tier 2 capital, subject to restrictions.

The Federal bank regulatory agencies are required biennially to review risk-based capital standards to ensure that they adequately address interest rate risk, concentration of credit risk and risks from non-traditional activities.

Dividends. Most of our revenues are received in the form of dividends paid by our Bank. Thus, our ability to pay dividends to our shareholders is indirectly limited by statutory restrictions on the ability of our Bank to pay dividends, as discussed below. Further, in a policy statement, the Federal Reserve has expressed its view that a bank holding company experiencing earnings weaknesses should not pay cash dividends exceeding its net income or which can only be funded in ways that weaken the bank holding company's financial health, such as by borrowing. Additionally, the Federal Reserve possesses enforcement powers over bank holding companies and their non-bank subsidiaries to prevent or remedy actions that represent unsafe or unsound practices or violations of applicable statutes and

regulations. Among these powers is the ability to proscribe the payment of dividends by banks and bank

Table of Contents**ITEM 1. BUSINESS** (Continued)

holding companies. The prompt corrective action provisions of federal law and regulation authorizes the Federal Reserve to restrict the amount of dividends that an insured bank can pay which fails to meet specified capital levels. In addition to the restrictions on dividends imposed by the Federal Reserve, the Michigan Business Corporation Act provides that dividends may be legally declared or paid only if after the distribution, a corporation can pay its debts as they come due in the usual course of business and its total assets equal or exceed the sum of its liabilities plus the amount that would be needed to satisfy the preferential rights upon dissolution of any holders of preferred stock whose preferential rights are superior to those receiving the distribution.

Finally, dividends on our common stock must be paid in accordance with the terms and restrictions of the CPP. Beginning in November 2009, we suspended quarterly dividends on the preferred stock issued to the UST pursuant to the CPP. As a result of this suspension of dividends, we are currently prohibited from paying any dividends on our common stock until all accrued and unpaid dividends have been paid on the preferred stock issued to the UST. Even after all such accrued dividends have been paid, the consent of the UST will be required for us to declare or pay any dividend or make any distribution on common stock other than (i) regular quarterly cash dividends of not more than \$0.01 per share, as adjusted for any stock split, stock dividend, reverse stock split, reclassification or similar transaction, (ii) dividends payable solely in shares of our common stock, and (iii) dividends or distributions of rights or junior stock in connection with any shareholders' rights plan. The restrictions set forth in the preceding sentence apply until the earlier of December 12, 2011, the date we redeem all of such preferred stock from the UST, or the date the UST transfers all such preferred stock to a transferee that is not affiliated with the UST.

Federal Securities Regulation. Our common stock is registered with the Securities and Exchange Commission (SEC) under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended (the Exchange Act). We are therefore subject to the information, proxy solicitation, insider trading and other restrictions and requirements of the SEC under the Exchange Act. The Sarbanes-Oxley Act of 2002 provides for numerous changes to the reporting, accounting, corporate governance and business practices of companies as well as financial and other professionals who have involvement with the U.S. public markets.

Our Bank

General. Our Bank is a Michigan banking corporation, is a member of the Federal Reserve System and its deposit accounts are insured by the Deposit Insurance Fund (DIF) of the FDIC. As a member of the Federal Reserve System, and a Michigan chartered bank, our Bank is subject to the examination, supervision, reporting and enforcement requirements of the Federal Reserve Board as its primary federal regulator, and OFIR, as the chartering authority for Michigan banks. These agencies and the federal and state laws applicable to our Bank and its operations, extensively regulate various aspects of the banking business including, among other things, permissible types and amounts of loans, investments and other activities, capital adequacy, branching, interest rates on loans and on deposits, the maintenance of non-interest bearing reserves on deposit accounts, and the safety and soundness of banking practices.

Deposit Insurance. As an FDIC-insured institution, our Bank is required to pay deposit insurance premium assessments to the FDIC. Under the FDIC's risk-based assessment system for deposit insurance premiums, all insured depository institutions are placed into one of four categories and assessed insurance premiums based primarily on their level of capital and supervisory evaluations.

The FDIC is required to establish assessment rates for insured depository institutions at levels that will maintain the DIF at a Designated Reserve Ratio (DRR) selected by the FDIC within a range of 1.15% to 1.50%. The FDIC is allowed to manage the pace at which the reserve ratio varies within this range. The DRR is currently established at 1.25%.

Under the FDIC's prevailing rate schedule, assessments are made and adjusted based on risk. Premiums are assessed and collected quarterly by the FDIC. Beginning as of the second quarter of 2009, banks in the lowest risk category paid an initial base rate ranging from 12 to 16 basis points (calculated as an annual rate against the bank's deposit base) for insurance premiums, with certain potential adjustments based on certain risk factors affecting the bank. That base rate is subject to increase to 45 basis points for banks that pose significant supervisory concerns, with certain potential adjustments based on certain risk factors affecting the bank.

Table of Contents**ITEM 1. BUSINESS** (Continued)

FDIC insurance assessments could continue to increase in the future due to continued depletion of the DIF.

On May 22, 2009, the FDIC adopted a final rule imposing a 5 basis point special assessment on each insured depository institution's assets minus Tier 1 capital as of June 30, 2009. This special assessment (which totaled \$1.4 million for our Bank) was paid on September 30, 2009. The FDIC may impose additional special assessments under certain circumstances.

During the fourth quarter of 2009 we prepaid estimated quarterly deposit insurance premium assessments to the FDIC for periods through the fourth quarter of 2012. These estimated quarterly deposit insurance premium assessments were based on projected deposit balances over the assessment periods. The prepaid deposit insurance premium assessments totaled \$22.0 million at December 31, 2009 and will be expensed over the assessment period (through the fourth quarter of 2012). The actual expense over the assessment periods may be different from this prepaid amount due to various factors including variances in actual deposit balances and assessment rates used during each assessment period.

In addition, in 2008, the Bank elected to participate in the FDIC's Transaction Account Guarantee Program (TAGP). Under the TAGP, funds in non-interest bearing transaction accounts, in interest-bearing transaction accounts with an interest rate of 0.50% or less, and in Interest on Lawyers Trust Accounts (IOLTA) will have a temporary (until June 30, 2010) unlimited guarantee from the FDIC. The coverage under the TAGP is in addition to and separate from the coverage available under the FDIC's general deposit insurance rules which insure accounts up to \$250,000. Participation in the TAGP requires the payment of additional insurance premiums to the FDIC.

FICO Assessments. Our Bank, as a member of the DIF, is subject to assessments to cover the payments on outstanding obligations of the Financing Corporation (FICO). FICO was created to finance the recapitalization of the Federal Savings and Loan Insurance Corporation, the predecessor to the FDIC's Savings Association Insurance Fund which was created to insure the deposits of thrift institutions and was merged with the Bank Insurance Fund into the newly formed DIF in 2006. From now until the maturity of the outstanding FICO obligations in 2019, DIF members will share the cost of the interest on the FICO bonds on a pro rata basis. It is estimated that FICO assessments during this period will be approximately 0.011% of deposits.

OFIR Assessments. Michigan banks are required to pay supervisory fees to the OFIR to fund their operations. The amount of supervisory fees paid by a bank is based upon the bank's total assets.

Capital Requirements. The Federal Reserve has established the following minimum capital standards for state-chartered, FDIC-insured member banks, such as our Bank: a leverage requirement consisting of a minimum ratio of Tier 1 capital to total assets of 3% for the most highly-rated banks with minimum requirements of 4% to 5% for all others, and a risk-based capital requirement consisting of a minimum ratio of total capital to total risk-weighted assets of 8%, at least one-half of which must be Tier 1 capital. Tier 1 capital consists principally of shareholders' equity. These capital requirements are minimum requirements. Higher capital levels will be required if warranted by the particular circumstances or risk profiles of individual institutions. For example, Federal Reserve regulations provide that higher capital may be required to take adequate account of, among other things, interest rate risk and the risks posed by concentrations of credit, nontraditional activities or securities trading activities.

Table of Contents**ITEM 1. BUSINESS** (Continued)

Federal law provides the federal banking regulators with broad power to take prompt corrective action to resolve the problems of undercapitalized institutions. The extent of the regulators' powers depends on whether the institution in question is well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, or critically undercapitalized. Federal regulations define these capital categories as follows:

	Total Risk-Based Capital Ratio	Tier 1 Risk-Based Capital Ratio	Leverage Ratio
Well capitalized	10% or above	6% or above	5% or above
Adequately capitalized	8% or above	4% or above	4% or above
Undercapitalized	Less than 8%	Less than 4%	Less than 4%
Significantly undercapitalized	Less than 6%	Less than 3%	Less than 3%
Critically undercapitalized			A ratio of tangible equity to total assets of 2% or less

At December 31, 2009, our Bank's ratios exceeded minimum requirements for the well-capitalized category. In conjunction with its discussions with federal and state regulators, the Board of Directors of our Bank adopted resolutions in December of 2009 requiring our Bank to achieve minimum capital ratios that are higher than the minimum requirements described in the Federal Reserve's capital guidelines. See "Recent Developments" above for more information. Our Bank currently does not meet these higher capital ratios.

Depending upon the capital category to which an institution is assigned, the regulators' corrective powers include: requiring the submission of a capital restoration plan; placing limits on asset growth and restrictions on activities; requiring the institution to issue additional capital stock (including additional voting stock) or to be acquired; restricting transactions with affiliates; restricting the interest rates the institution may pay on deposits; ordering a new election of directors of the institution; requiring that senior executive officers or directors be dismissed; prohibiting the institution from accepting deposits from correspondent banks; requiring the institution to divest certain subsidiaries; prohibiting the payment of principal or interest on subordinated debt; and ultimately, appointing a receiver for the institution.

In general, a depository institution may be reclassified to a lower category than is indicated by its capital levels if the appropriate federal depository institution regulatory agency determines the institution to be otherwise in an unsafe or unsound condition or to be engaged in an unsafe or unsound practice. This could include a failure by the institution, following receipt of a less-than-satisfactory rating on its most recent examination report, to correct the deficiency.

Dividends. Under Michigan law, banks are restricted as to the maximum amount of dividends they may pay on their common stock. Our Bank may not pay dividends except out of its net income after deducting its losses and bad debts. A Michigan state bank may not declare or pay a dividend unless the bank will have a surplus amounting to at least 20% of its capital after the payment of the dividend.

As a member of the Federal Reserve System, our Bank is required to obtain the prior approval of the Federal Reserve Board for the declaration or payment of a dividend if the total of all dividends declared in any year will exceed the total of (a) the Bank's retained net income (as defined by federal regulation) for that year, *plus* (b) the Bank's retained net income for the preceding two years.

Federal law generally prohibits a depository institution from making any capital distribution (including payment of a dividend) or paying any management fee to its holding company if the depository institution would thereafter be undercapitalized. In addition, the Federal Reserve may prohibit the payment of dividends by a bank, if such payment is determined, by reason of the financial condition of the bank, to be an unsafe and unsound banking practice or if the bank is in default of payment of any assessment due to the FDIC.

In addition to these restrictions, in December of 2009, the Board of Directors of our Bank adopted resolutions that prohibit our Bank from paying any dividends to our holding company without the prior written approval of the Federal Reserve and the OFIR. See "Recent Developments" above for more information.

Table of Contents**ITEM 1. BUSINESS** (Continued)

Insider Transactions. Our Bank is subject to certain restrictions imposed by the Federal Reserve Act on covered transactions with us or our subsidiaries, which include investments in our stock or other securities issued by us or our subsidiaries, the acceptance of our stock or other securities issued by us or our subsidiaries as collateral for loans and extensions of credit to us or our subsidiaries. Certain limitations and reporting requirements are also placed on extensions of credit by our Bank to its directors and officers, to our directors and officers and those of our subsidiaries, to our principal shareholders, and to related interests of such directors, officers and principal shareholders. In addition, federal law and regulations may affect the terms upon which any person becoming one of our directors or officers or a principal shareholder may obtain credit from banks with which our Bank maintains a correspondent relationship.

Safety and Soundness Standards. Pursuant to the Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA), the FDIC adopted guidelines to establish operational and managerial standards to promote the safety and soundness of federally insured depository institutions. The guidelines establish standards for internal controls, information systems, internal audit systems, loan documentation, credit underwriting, interest rate exposure, asset growth, compensation, fees and benefits, asset quality and earnings.

Investment and Other Activities. Under federal law and regulations, FDIC-insured state banks are prohibited, subject to certain exceptions, from making or retaining equity investments of a type, or in an amount, that are not permissible for a national bank. FDICIA, as implemented by FDIC regulations, also prohibits FDIC-insured state banks and their subsidiaries, subject to certain exceptions, from engaging as a principal in any activity that is not permitted for a national bank or its subsidiary, respectively, unless the bank meets, and continues to meet, its minimum regulatory capital requirements and the bank's primary federal regulator determines the activity would not pose a significant risk to the DIF. Impermissible investments and activities must be otherwise divested or discontinued within certain time frames set by the bank's primary federal regulator in accordance with federal law. These restrictions are not currently expected to have a material impact on the operations of our Bank.

Consumer Banking. Our Bank's business includes making a variety of types of loans to individuals. In making these loans, our Bank is subject to state usury and regulatory laws and to various federal statutes, including the privacy of consumer financial information provisions of the Gramm Leach-Bliley Act, the Equal Credit Opportunity Act, the Fair Credit Reporting Act, the Truth in Lending Act, the Real Estate Settlement Procedures Act, the Home Mortgage Disclosure Act, and the regulations promulgated under these statutes, which (among other things) prohibit discrimination, specify disclosures to be made to borrowers regarding credit and settlement costs, and regulate the mortgage loan servicing activities of our Bank, including the maintenance and operation of escrow accounts and the transfer of mortgage loan servicing. In receiving deposits, our Bank is subject to extensive regulation under state and federal law and regulations, including the Truth in Savings Act, the Expedited Funds Availability Act, the Bank Secrecy Act, the Electronic Funds Transfer Act, and the Federal Deposit Insurance Act. Violation of these laws could result in the imposition of significant damages and fines upon our Bank and its directors and officers.

Branching Authority. Michigan banks, such as our Bank, have the authority under Michigan law to establish branches anywhere in the State of Michigan, subject to receipt of all required regulatory approvals. Banks may establish interstate branch networks through acquisitions of other banks. The establishment of *de novo* interstate branches or the acquisition of individual branches of a bank in another state (rather than the acquisition of an out-of-state bank in its entirety) is allowed only if specifically authorized by state law.

Michigan permits both U.S. and non-U.S. banks to establish branch offices in Michigan. The Michigan Banking Code permits, in appropriate circumstances and with the approval of the OFIR (1) acquisition of Michigan banks by FDIC-insured banks or savings banks located in other states, (2) sale by a Michigan bank of branches to an FDIC-insured bank or savings bank located in a state in which a Michigan bank could purchase branches of the purchasing entity, (3) consolidation of Michigan banks and FDIC-insured banks or savings banks located in other states having laws permitting such consolidation, (4) establishment of branches in Michigan by FDIC-insured banks located in other states, the District of Columbia or U.S. territories or protectorates having laws permitting a Michigan bank to establish a branch in such jurisdiction, and (5) establishment by foreign banks of branches located in Michigan.

ITEM 1. BUSINESS (Continued)

Mepco Finance Corporation.

Our subsidiary, Mepco Finance Corporation, is engaged in the business of acquiring (on a full recourse basis) and servicing payment plans used by consumers throughout the United States who have purchased a vehicle service contract and choose to make monthly payments for their coverage. In the typical transaction, no interest or other finance charge is charged to these consumers. As a result, Mepco is generally not subject to regulation under consumer lending laws. However, Mepco is subject to various federal and state laws designed to protect consumers, including laws against unfair and deceptive trade practices and laws regulating Mepco's payment processing activities, such as the Electronic Funds Transfer Act.

Mepco purchases these payment plans, on a full recourse basis, from companies (which we refer to as Mepco's counterparties) that provide vehicle service contracts and similar products to consumers. The payment plans (which are classified as finance receivables in our consolidated statements of financial condition) permit a consumer to purchase a service contract by making installment payments, generally for a term of 12 to 24 months, to the sellers of those contracts (one of the counterparties). Mepco does not evaluate the creditworthiness of the individual customer but instead primarily relies on the payment plan collateral (the unearned vehicle service contract and unearned sales commission) in the event of default. When consumers stop making payments or exercise their right to voluntarily cancel the contract, the remaining unpaid balance of the payment plan is normally recouped by Mepco from the counterparties that sold the contract and provided the coverage. The refund obligations of these counterparties are not fully secured. We record losses, included in non-interest expenses, for estimated defaults by these counterparties in their recourse obligations to Mepco.

Our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports are available free of charge through our website at www.IndependentBank.com as soon as reasonably practicable after filing with the SEC.

Table of Contents**ITEM 1. BUSINESS STATISTICAL DISCLOSURE (Continued)****III. LOAN PORTFOLIO**

(A) The following table sets forth total loans outstanding at December 31:

	2009	2008	2007	2006	2005
			(in thousands)		
Loans held for sale	\$ 34,234	\$ 27,603	\$ 33,960	\$ 31,846	\$ 28,569
Real estate mortgage	749,298	839,496	873,945	865,522	852,742
Commercial	840,367	976,391	1,066,276	1,083,921	1,030,095
Installment	303,366	356,806	368,478	350,273	304,053
Finance receivables	406,341	286,836	209,631	160,171	178,286
Total Loans	\$ 2,333,606	\$ 2,487,132	\$ 2,552,290	\$ 2,491,733	\$ 2,393,745

The loan portfolio is periodically and systematically reviewed, and the results of these reviews are reported to the Board of Directors of our Bank. The purpose of these reviews is to assist in assuring proper loan documentation, to facilitate compliance with consumer protection laws and regulations, to provide for the early identification of potential problem loans (which enhances collection prospects) and to evaluate the adequacy of the allowance for loan losses.

(B) The following table sets forth scheduled loan repayments (excluding 1-4 family residential mortgages and installment loans) at December 31, 2009:

	Due Within One Year	Due After One But Within Five Years	Due After Five Years	Total
				(in thousands)
Real estate mortgage	\$ 39,153	\$ 18,145	\$ 6,068	\$ 63,366
Commercial	393,732	386,879	59,756	840,367
Finance receivables	119,119	287,222		406,341
Total	\$ 552,004	\$ 692,246	\$ 65,824	\$ 1,310,074

The following table sets forth loans due after one year which have predetermined (fixed) interest rates and/or adjustable (variable) interest rates at December 31, 2009:

	Fixed Rate	Variable Rate	Total
		(in thousands)	
Due after one but within five years	\$ 674,252	\$ 17,994	\$ 692,246
Due after five years	60,089	5,735	65,824
Total	\$ 734,341	\$ 23,729	\$ 758,070

Table of Contents**ITEM 1. BUSINESS STATISTICAL DISCLOSURE (Continued)****III. LOAN PORTFOLIO (Continued)**

(C) The following table sets forth loans on non-accrual, loans ninety days or more past due and troubled debt restructured loans at December 31:

	2009	2008	2007 (in thousands)	2006	2005
(a) Loans accounted for on a non-accrual basis (1, 2)	\$ 105,965	\$ 122,639	\$ 72,682	\$ 35,683	\$ 11,546
(b) Aggregate amount of loans ninety days or more past due (excludes loans in (a) above)	3,940	2,626	4,394	3,479	4,862
(c) Loans not included above which are troubled debt restructurings as defined by accounting guidance	71,961	9,160	173	60	84
Total	\$ 181,866	\$ 134,425	\$ 77,249	\$ 39,222	\$ 16,492

(1) The accrual of interest income is discontinued when a loan becomes 90 days past due and the borrower's capacity to repay the loan and collateral values appear insufficient. Non-accrual loans may be restored to accrual status when interest and principal payments are current and the loan appears otherwise collectible.

(2) Interest in the amount of

\$11,201,000
would have
been earned in
2009 had loans
in categories
(a) and
(c) remained at
their original
terms; however,
only \$3,817,000
was included in
interest income
for the year with
respect to these
loans.

Other loans of concern identified by the loan review department which are not included as non-performing totaled approximately \$24,264,000 at December 31, 2009. These loans involve circumstances which have caused management to place increased scrutiny on the credits and may, in some instances, represent an increased risk of loss.

At December 31, 2009, there was no concentration of loans exceeding 10% of total loans which is not already disclosed as a category of loans in this section Loan Portfolio (Item III(A)).

There were no other interest-bearing assets at December 31, 2009, that would be required to be disclosed above (Item III(C)), if such assets were loans.

Total loans include \$1.7 million of finance receivables from customers domiciled in Canada. There were no other foreign loans outstanding at December 31, 2009.

Table of Contents**ITEM 1. BUSINESS STATISTICAL DISCLOSURE (Continued)****IV. SUMMARY OF LOAN LOSS EXPERIENCE**

(A) The following table sets forth loan balances and summarizes the changes in the allowance for loan losses for each of the years ended December 31:

	2009		2008		2007	
			(dollars in thousands)			
Total loans outstanding at the end of the year (net of unearned fees)	\$2,333,606		\$2,487,132		\$2,552,290	
Average total loans outstanding for the year (net of unearned fees)	\$2,470,568		\$2,569,368		\$2,541,305	
	Loan Losses	Unfunded Commitments	Loan Losses	Unfunded Commitments	Loan Losses	Unfunded Commitments
Balance at beginning of year	\$ 57,900	\$ 2,144	\$ 45,294	\$ 1,936	\$ 26,879	\$ 1,881
Loans charged-off						
Real estate mortgage	22,869		11,942		6,644	
Commercial	51,840		43,641		14,236	
Installment	7,562		6,364		5,943	
Finance receivables	25		49		213	
Total loans charged-off	82,296		61,996		27,036	
Recoveries of loans previously charged-off						
Real estate mortgage	791		318		381	
Commercial	731		1,800		328	
Installment	1,271		1,340		1,629	
Finance receivables	2		31		8	
Total recoveries	2,795		3,489		2,346	
Net loans charged-off	79,501		58,507		24,690	
Additions to allowance charged to operating expense	103,318	(286)	71,113	208	43,105	55
Balance at end of year	\$ 81,717	\$ 1,858	\$ 57,900	\$ 2,144	\$ 45,294	\$ 1,936

Net loans charged-off as a percent of average loans outstanding (includes loans held for sale) for the year	3.22%	2.28%	.97%
Allowance for loan losses as a percent of loans outstanding (includes loans held for sale) at the end of the year	3.50	2.33	1.77
		18	

Further discussion of the provision and allowance for loan losses (a critical accounting policy) as well as non-performing loans, is presented in Management's Discussion and Analysis of Financial Condition and Results of Operations in our annual report, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders (filed as exhibit 13 to this report on Form 10-K), and is incorporated herein by reference.

Table of Contents**ITEM 1. BUSINESS STATISTICAL DISCLOSURE (Continued)****IV. SUMMARY OF LOAN LOSS EXPERIENCE (Continued)**

(B) We have allocated the allowance for loan losses to provide for the possibility of losses being incurred within the categories of loans set forth in the table below. The amount of the allowance that is allocated and the ratio of loans within each category to total loans at December 31 follows:

	2009		2008		2007	
	Allowance	Percent of Loans to Total Loans	Allowance	Percent of Loans to Total Loans	Allowance	Percent of Loans to Total Loans
	Amount		Amount		Amount	
			(dollars in thousands)			
Commercial	\$ 41,259	36.1%	\$ 33,090	39.3%	\$ 27,829	41.8%
Real estate mortgage	18,434	33.5	8,729	34.9	4,657	35.6
Installment	6,404	13.0	4,264	14.3	3,224	14.4
Finance receivables	754	17.4	486	11.5	475	8.2
Unallocated	14,866		11,331		9,109	
Total	\$ 81,717	100.0%	\$ 57,900	100.0%	\$ 45,294	100.0%

	2006		2005	
	Allowance	Percent of Loans to Total Loans	Allowance	Percent of Loans to Total Loans
	Amount		Amount	
			(dollars in thousands)	
Commercial	\$ 15,010	43.5%	\$ 11,735	43.0%
Real estate mortgage	1,645	36.0	1,156	36.8
Installment	2,469	14.1	2,835	12.7
Finance receivables	292	6.4	293	7.5
Unallocated	7,463		6,401	
Total	\$ 26,879	100.0%	\$ 22,420	100.0%

Table of Contents**ITEM 1. BUSINESS STATISTICAL DISCLOSURE (Continued)****V. DEPOSITS**

The following table sets forth average deposit balances and the weighted-average rates paid thereon for the years ended December 31:

	2009		2008		2007	
	Average Balance	Rate	Average Balance	Rate	Average Balance	Rate
	(dollars in thousands)					
Non-interest bearing demand	\$ 321,802		\$ 301,117		\$ 300,886	
Savings and NOW	992,529	0.58%	968,180	1.06%	971,807	1.93%
Time deposits	1,019,624	2.91	917,403	3.97	1,439,177	4.88
Total	\$ 2,333,955	1.52%	\$ 2,186,700	2.14%	\$ 2,711,870	3.28%

The following table summarizes time deposits in amounts of \$100,000 or more by time remaining until maturity at December 31, 2009:

	(in thousands)
Three months or less	\$ 25,646
Over three through six months	29,463
Over six months through one year	45,756
Over one year	66,797
Total	\$ 167,662

VI. RETURN ON EQUITY AND ASSETS

The ratio of net income (loss) to average shareholders equity and to average total assets, and certain other ratios, for the years ended December 31 follow:

	2009	2008	2007	2006	2005
Income (loss) from continuing operations as a percent of ⁽¹⁾					
Average common equity	(90.72)%	(39.01)%	3.96%	13.06%	18.63%
Average total assets	(3.17)	(2.88)	0.31	0.99	1.42
Net income (loss) as a percent of ⁽¹⁾					
Average common equity	(90.72)	(39.01)	4.12	12.82	19.12
Average total assets	(3.17)	(2.88)	0.32	0.97	1.45
Dividends declared per share as a percent of diluted net income per share	NM	NM	186.67	54.55	36.04
Average shareholders equity as a percent of average total assets	5.80	7.50	7.72	7.60	7.61

(1) For 2009 and 2008, these amounts are

VII. **SHORT-TERM BORROWINGS**

Short-term borrowings are discussed in note 9 to the consolidated financial statements incorporated herein by reference to Item 8, Part II of this report.

Table of Contents

ITEM 1A. RISK FACTORS

Our results of operations, financial condition, and business may be materially and adversely affected if we are unable to successfully implement our Capital Plan. Our Capital Plan, which is described in more detail under Item 1

Business above, contemplates three primary initiatives that have been or will be undertaken in order to increase our common equity capital, decrease our expenses, and enable us to withstand and better respond to current market conditions and the potential for worsening market conditions. Those three initiatives are (1) an offer we have made to the UST to issue shares of our common stock in exchange for up to the entire \$72 million in aggregate liquidation value of the shares of preferred stock held by the UST; (2) an offer to exchange shares of our common stock for our outstanding trust preferred securities; and (3) a public offering of our common stock for cash. We cannot be sure we will be able to successfully execute on these identified initiatives in a timely manner or at all. The successful implementation of our Capital Plan is, in many respects, largely out of our control and depends on factors such as the willingness of the UST to exchange the shares of our preferred stock it holds for shares of our common stock, the willingness of holders of our trust preferred securities to exchange such securities for shares of our common stock, and our ability to sell our common stock or other securities for cash. These factors, in turn, may depend on factors outside of our control such as the stability of the financial markets, other macro economic conditions, and investors' perception of the ability of the Michigan economy to recover from the current recession.

If we are unable to achieve the minimum capital ratios set forth in our Capital Plan in the near future, it would likely materially and adversely affect our business, financial condition, and the value of our securities. An inability to improve our capital position would make it very difficult for us to withstand continued losses that we may incur and that may be increased or made more likely as a result of continued economic difficulties and other factors, as described elsewhere in this Risk Factors section.

In addition, we believe that if we are unable to achieve the minimum capital ratios set forth in our Capital Plan by or within a reasonable time after the April 30, 2010 deadline imposed by our Board and if our financial condition and performance otherwise fail to improve significantly, it is likely we will not be able to remain well-capitalized under federal regulatory standards. In that case, we also expect our primary bank regulators would impose additional regulatory restrictions and requirements on us through a regulatory enforcement action. If we fail to remain well-capitalized under federal regulatory standards, we will be prohibited from accepting or renewing brokered deposits without the prior consent of the FDIC, which would likely have a material adverse impact on our business and financial condition. If our regulators take enforcement action against us, we could be required to take affirmative steps in an effort to improve our overall condition and we would likely be required to perform additional reporting to our banking regulators. We believe such additional reporting would increase our expenses and divert management attention and other resources from the operation of our Bank. Any regulatory enforcement action could also limit our ability to develop new business lines and/or could require the sale of certain assets. There could be other expenses associated with a continued deterioration of our capital, such as increased deposit insurance premiums payable to the FDIC.

These additional restrictions would make it increasingly difficult for us to withstand the current economic conditions and any continued deterioration in our loan portfolio. In that case, we may be required to engage in a sale or other transaction with a third party or our subsidiary Bank could be placed into receivership by bank regulators. Any such event could be expected to result in a loss of the entire value of our outstanding shares of common stock and could also result in a loss of the entire value of our outstanding trust preferred securities and preferred stock.

We have credit risk inherent in our asset portfolios, and our allowance for loan losses may not be sufficient to cover actual loan losses. Our loan customers may not repay their loans according to their respective terms, and the collateral securing the payment of these loans may be insufficient to assure repayment. We have experienced and may continue to experience significant credit losses which could have a material adverse effect on our operating results. We make various assumptions and judgments about the collectability of our loan portfolio, including the creditworthiness of our borrowers and the value of the real estate and other assets serving as collateral for the repayment of many of our loans. In determining the size of the allowance for loan losses, we rely on our experience and our evaluation of current economic conditions. If our assumptions or judgments prove to be incorrect, our current allowance for loan

Table of Contents

losses may not be sufficient to cover certain loan losses inherent in our loan portfolio, and adjustments may be necessary to account for different economic conditions or adverse developments in our loan portfolio. Material additions to our allowance would adversely impact our operating results.

In addition, federal and state regulators periodically review our allowance for loan losses and may require us to increase our provision for loan losses or recognize additional loan charge-offs. Any increase in our allowance for loan losses or loan charge-offs required by these regulatory agencies could have a material adverse effect on our results of operations and financial condition.

Our business has been and may continue to be adversely affected by current conditions in the financial markets and economic conditions generally, and particularly by the continued economic slowdown in Michigan. Our success depends to a great extent upon the general economic conditions in Michigan's Lower Peninsula. We have in general experienced a slowing economy in Michigan since 2001. Unlike larger banks that are more geographically diversified, we provide banking services to customers primarily in Michigan's Lower Peninsula. Our loan portfolio, the ability of the borrowers to repay these loans, and the value of the collateral securing these loans will be impacted by local economic conditions. The continued economic difficulties faced in Michigan has had and may continue to have many adverse consequences, including the following:

Loan delinquencies may increase;

Problem assets and foreclosures may increase;

Demand for our products and services may decline; and

Collateral for our loans may decline in value, in turn reducing customers' borrowing power and reducing the value of assets and collateral associated with existing loans.

Additionally, the overall capital and credit markets have been experiencing unprecedented levels of volatility and disruption during the past two years. In some cases, the markets have produced downward pressure on stock prices and credit availability for certain issuers without regard to those issuers' underlying financial strength. As a consequence of the U.S. recession, business activity across a wide range of industries faces serious difficulties due to the lack of consumer spending and the extreme lack of liquidity in the global credit markets. Unemployment has also increased significantly and may continue to increase. In particular, according to data published by the federal Bureau of Labor Statistics, Michigan's unemployment rate in December 2009 of 14.6% was the worst among all states. During the past year, the general business environment has continued to have an overall adverse effect on our business, and this environment is not expected to improve in the near term. Until conditions improve, we expect our businesses, financial condition and results of operations to continue to be adversely affected.

Current market developments, particularly in real estate markets, may adversely affect our industry, business and results of operations. Dramatic declines in the housing market in recent years, with falling home prices and increasing foreclosures and unemployment, have resulted in, and may continue to result in, significant write-downs of asset values by us and other financial institutions. These write-downs have caused many financial institutions to seek additional capital, to merge with larger and stronger institutions and, in some cases, to fail. As a result of these conditions, many lenders and institutional investors have reduced, and in some cases, ceased to provide funding to borrowers including financial institutions.

This market turmoil and tightening of credit have led to an increased level of commercial and consumer delinquencies, lack of consumer confidence, increased market volatility and widespread reduction of business activity generally. The resulting lack of available credit, lack of confidence in the financial sector, increased volatility in the financial markets and reduced business activity could materially and adversely affect our business, financial condition and results of operations.

Further negative market developments may continue to negatively affect consumer confidence levels and may continue to contribute to increases in delinquencies and default rates, which may impact our charge-offs and

Table of Contents

provisions for credit losses. A worsening of these conditions would likely exacerbate the adverse effects of these difficult market conditions on us and others in the financial services industry.

Recent events in the vehicle service contract industry have increased our credit risk and reputation risk and could expose us to significant losses. One of our subsidiaries, Mepco Finance Corporation, is engaged in the business of acquiring (on a full recourse basis) and servicing payment plans for consumers who purchase vehicle service contracts and similar products. The receivables generated in this business involve a different, and generally higher, level of risk of delinquency or collection than generally associated with the loan portfolios of our Bank. Upon cancellation of the payment plans acquired by Mepco (whether due to voluntary cancellation by the consumer or non-payment), the third party entities that provide the service contracts or other products to consumers become obligated to refund Mepco the unearned portion of the sales price previously funded by Mepco. The refund obligations of these counterparties are not fully secured.

In addition, several of these providers, including the counterparty described in the next risk factor below and other companies from which Mepco has purchased payment plans, have been sued or are under investigation for alleged violations of telemarketing laws and other consumer protection laws. The actions have been brought primarily by state attorneys general and the Federal Trade Commission (FTC) but there have also been class action and other private lawsuits filed. In some cases, the companies have been placed into receivership or have discontinued business. In addition, the allegations, particularly those relating to blatantly abusive telemarketing practices by a relatively small number of marketers, have resulted in a significant amount of negative publicity that has adversely affected and may in the future continue to adversely affect sales and customer cancellations of purchased products throughout the industry, which have already been negatively impacted by the economic recession. It is possible these events could also cause federal or state lawmakers to enact legislation to further regulate the industry.

These events have had and may continue to have an adverse impact on Mepco in several ways. First, we face increased risk with respect to certain counterparties defaulting in their contractual obligations to Mepco which could result in additional charges for losses if these counterparties go out of business. In 2009, we recorded a \$31.2 million charge related to estimated potential losses for vehicle service contract counterparty contingencies. We may incur similar charges in the future. Second, these events have negatively affected sales and customer cancellations in the industry, which has had and is expected to continue to have a negative impact on the profitability of Mepco's business. Largely as a result of these events, we recently wrote down all of the \$16.7 million of goodwill associated with Mepco that was being carried on our balance sheet. In addition, if any federal or state investigation is expanded to include finance companies such as Mepco, Mepco will face additional legal and other expenses in connection with any such investigation. An increased level of private actions in which Mepco is named as a defendant will also cause Mepco to incur additional legal expenses as well as potential liability. Finally, Mepco has incurred and will likely continue to incur additional legal and other expenses, in general, in dealing with these industry problems.

Mepco also faces unique operational and internal control challenges due to the relatively rapid turnover of its portfolio and high volume of new payment plans. Mepco's business is highly specialized, and its success will depend largely on the continued services of its executives and other key employees familiar with its business. In addition, because financing in this market is conducted primarily through relationships with unaffiliated automobile service contract direct marketers and administrators and because the customers are located nationwide, risk management and general supervisory oversight is generally more difficult than in our bank. The risk of third party fraud is also higher as a result of these factors. Acts of fraud are difficult to detect and deter, and we cannot assure investors that the risk management procedures and controls will prevent losses from fraudulent activity. Although we have an internal control system at Mepco, we may be exposed to the risk of significant loss in this business.

As of December 31, 2009, the net finance receivables held by Mepco represented approximately 13.7% of our consolidated assets.

Mepco has significant exposure to a single counterparty that is experiencing extreme financial difficulties. The failure of this counterparty is likely to have a material adverse effect on our financial condition and results of operations.

Over 40% of Mepco's current outstanding receivables were purchased from a single counterparty. Beginning in the second half of 2009, this counterparty experienced decreased sales (and ceased all new sales in December of

Table of Contents

2009) and significantly increased levels of customer cancellations. Customer cancellations trigger an obligation of this counterparty to us to repay the unearned portion of the sales price for the payment plan previously advanced by us to the counterparty. In addition, this counterparty is subject to a multi-state attorney general investigation regarding certain of the counterparty's business practices and multiple civil lawsuits. These events have increased costs for the counterparty, putting further pressure on its cash flow and profitability. In December of 2009, we were advised that this counterparty plans to wind down its business operations and is contemplating a bankruptcy filing in the near future.

Mepco is actively working to reduce its credit exposure to this counterparty. The amount of payment plans (finance receivables) purchased from this counterparty and outstanding at December 31, 2009 totaled approximately \$206.1 million. In addition, as of December 31, 2009, this counterparty owed Mepco \$16.2 million for previously cancelled payment plans. The wind down of operations by this counterparty is likely to lead to substantial potential losses as this entity will not be in a position to honor its recourse obligations on payment plans that Mepco has purchased which are cancelled prior to payment in full. In that event, Mepco will seek to recover amounts owed by the counterparty from various co-obligors and guarantors and through the liquidation of certain collateral held by Mepco. However, we are not certain as to the amount of any such recoveries. In 2009, Mepco recorded an aggregate \$19.0 million expense (as part of vehicle service contract counterparty contingencies that is included in non-interest expense) to establish a reserve for losses related to this counterparty.

Mepco has historically contributed a meaningful amount of profit to our consolidated results of operations, but we expect the size of its business to shrink significantly beginning in 2010. For 2008 and 2007, Mepco had net income of \$10.7 million and \$5.5 million, respectively. With the counterparty losses experienced by Mepco late in 2009 (including those related to the counterparty described above) and a \$16.7 million goodwill impairment charge, Mepco incurred an \$11.7 million loss in 2009. As of December 31, 2009, the net finance receivables held by Mepco represented approximately 13.7% of our consolidated assets. However, as a result of the loss of business with the counterparty described above as well as our desire to reduce finance receivables as a percentage of total assets, we expect Mepco's total earning assets to decrease by approximately 50% in 2010. As a result, the reduction in the size of Mepco's business could adversely affect our financial results and make it more difficult for us to be profitable on a consolidated basis in the near future.

We face uncertainty with respect to efforts by the federal government to help stabilize the U.S. financial system. Beginning in the fourth quarter of 2008, the federal government enacted new laws intended to strengthen and restore confidence in the U.S. financial system. See Item 1 Business Regulatory Developments above for additional information regarding these developments. There can be no assurance, however, as to the actual impact that such programs will have on the financial markets, including the extreme levels of volatility and limited credit availability currently being experienced. The failure of these and other programs to stabilize the financial markets and a continuation or worsening of current financial market conditions could materially and adversely affect our businesses, financial condition, results of operations, access to credit or the trading price of our common stock.

In addition, these statutes are relatively new initiatives and, as such, are subject to change and evolving interpretation. There can be no assurances as to the impact that any such changes will have on the effectiveness of the federal government's efforts to stabilize the credit markets or on our business, financial condition or results of operations. These federal initiatives could involve regulatory changes that may have an adverse impact on our business.

We have credit risk inherent in our securities portfolio. We maintain diversified securities portfolios, which include obligations of the UST and government-sponsored agencies as well as securities issued by states and political subdivisions, mortgage-backed securities, and asset-backed securities. We also invest in capital securities, which include preferred stocks and trust preferred securities. We seek to limit credit losses in our securities portfolios by generally purchasing only highly rated securities (rated AA or higher by a major debt rating agency) or by conducting significant due diligence on the issuer for unrated securities. However, we may, in the future, experience additional losses in our securities portfolio which may result in charges that could materially adversely affect our results of operations.

Table of Contents

Our mortgage-banking revenues are susceptible to substantial variations dependent largely upon factors that we do not control, such as market interest rates. A meaningful portion of our revenues are derived from gains on the sale of real estate mortgage loans. For 2009, these gains represented over 4% of our total revenues. These net gains primarily depend on the volume of loans we sell, which in turn depends on our ability to originate real estate mortgage loans and the demand for fixed-rate obligations and other loans that are outside of our established interest-rate risk parameters. Net gains on real estate mortgage loans are also dependent upon economic and competitive factors as well as our ability to effectively manage exposure to changes in interest rates. Consequently, they can often be a volatile part of our overall revenues.

Fluctuations in interest rates could reduce our profitability. We realize income primarily from the difference between interest earned on loans and investments and the interest paid on deposits and borrowings. Our interest income and interest expense are affected by general economic conditions and by the policies of regulatory authorities. While we have taken measures intended to manage the risks of operating in a changing interest rate environment, there can be no assurance that these measures will be effective in avoiding undue interest rate risk. We expect that we will periodically experience gaps in the interest rate sensitivities of our assets and liabilities, meaning that either our interest-bearing liabilities will be more sensitive to changes in market interest rates than our interest-earning assets, or vice versa. In either event, if market interest rates should move contrary to our position, this gap will work against us, and our earnings may be negatively affected.

We are unable to predict fluctuations of market interest rates, which are affected by, among other factors, changes in the following:

- inflation or deflation rates;
- levels of business activity;
- recession;
- unemployment levels;
- money supply;
- domestic or foreign events; and
- instability in domestic and foreign financial markets.

Changes in accounting standards could impact our reported earnings. Financial accounting and reporting standards are periodically changed by the Financial Accounting Standards Board (FASB), the SEC, and other regulatory authorities. Such changes affect how we are required to prepare and report our consolidated financial statements. These changes are often hard to predict and may materially impact our reported financial condition and results of operations. In some cases, we may be required to apply a new or revised standard retroactively, resulting in the restatement of prior period financial statements.

Our operations may be adversely affected if we are unable to secure adequate funding. Our use of wholesale funding sources exposes us to liquidity risk and potential earnings volatility. We rely on wholesale funding, including Federal Home Loan Bank borrowings, brokered deposits, and Federal Reserve Bank borrowings, to augment our core deposits to fund our business. As of December 31, 2009, our use of such wholesale funding sources amounted to approximately \$760 million. Because wholesale funding sources are affected by general market conditions, the availability of funding from wholesale lenders may be dependent on the confidence these investors have in our commercial and consumer banking operations. The continued availability to us of these funding sources is uncertain, and brokered deposits may be difficult for us to retain or replace at attractive rates as they mature. Our liquidity will be constrained if we are unable to renew our wholesale funding sources or if adequate financing is not available in the future at acceptable rates of interest or at all. We may not have sufficient liquidity to continue to fund new loans, and we may need to liquidate loans or other assets unexpectedly, in order to repay obligations as they mature.

In addition, if we fail to remain well-capitalized under federal regulatory standards, which is likely if we are unable to successfully implement our Capital Plan, we will be prohibited from accepting or renewing brokered deposits without the prior consent of the FDIC. As of December 31, 2009, we had brokered deposits of

27

Table of Contents

approximately \$629 million. As a result, any such restrictions on our ability to access brokered deposits is likely to have a material adverse impact on our business and financial condition.

Moreover, we cannot be sure that we will be able to maintain our current level of core deposits. Our deposit customers could move their deposits in reaction to media reports about bank failures in general (as discussed in a separate Risk Factor below) or in reaction to negative publicity we may receive as a result of the pursuit of our capital raising initiatives or, particularly, if we are unable to successfully complete such initiatives. A reduction in core deposits would increase our need to rely on wholesale funding sources, at a time when our ability to do so may be more restricted, as described above.

Our financial performance will be materially affected if we are unable to maintain our access to funding or if we are required to rely more heavily on more expensive funding sources. In such case, our net interest income and results of operations would be adversely affected.

We rely heavily on our management team, and the unexpected loss of key managers may adversely affect our operations and the ability to implement our Capital Plan. The continuity of our operations is influenced strongly by our ability to attract and to retain senior management experienced in banking and financial services. Our ability to retain executive officers and the current management teams of each of our lines of business will continue to be important to the successful implementation of our Capital Plan and our strategies. We do not have employment or non-compete agreements with any of these key employees. In addition, we face restrictions on our ability to compensate our executives as a result of our participation in the UST's Capital Purchase Program under the Troubled Asset Relief Program (TARP). Many of our competitors do not face these same restrictions. The unexpected loss of services of any key management personnel, or the inability to recruit and retain qualified personnel in the future, could have an adverse effect on our business and financial results.

Competition with other financial institutions could adversely affect our profitability. We face vigorous competition from banks and other financial institutions, including savings banks, finance companies, and credit unions. A number of these banks and other financial institutions have substantially greater resources and lending limits, larger branch systems, and a wider array of banking services. To a limited extent, we also compete with other providers of financial services, such as money market mutual funds, brokerage firms, consumer finance companies, and insurance companies, which are not subject to the same degree of regulation as that imposed on bank holding companies. As a result, these non-bank competitors may have an advantage over us in providing certain services, and this competition may reduce or limit our margins on banking services, reduce our market share, and adversely affect our results of operations and financial condition.

Our current capital position and the tough economic climate in Michigan will make future growth in the near term very challenging. We have recently taken certain actions to deleverage our balance sheet, which has had and is expected to continue to have an adverse impact on our net interest income. Although we have also undertaken actions intended to reduce our expenses and continue to do so, we may not be able to reduce our expenses on a basis commensurate with the reduction in our net interest income, which causes a negative impact on our financial results. In addition, even if we are successful in raising additional capital through the initiatives described in our Capital Plan, our ability to achieve future growth in the near term will be very challenging in the current economic environment in Michigan.

We operate in a highly regulated environment and may be adversely affected by changes in federal and local laws and regulations. We are generally subject to extensive regulation, supervision, and examination by federal and state banking authorities. The burden of regulatory compliance has increased under current legislation and banking regulations and is likely to continue to have a significant impact on the financial services industry. Recent legislative and regulatory changes as well as changes in regulatory enforcement policies and capital adequacy guidelines are likely to increase our cost of doing business. In addition, future legislative or regulatory changes could have a substantial impact on us and our Bank and its operations. Additional legislation and regulations may be enacted or adopted in the future that could significantly affect our powers, authority, and operations, increase our costs of doing business and, as a result, give an advantage to our competitors who may not be subject to similar legislative and regulatory

Table of Contents

requirements. Further, regulators have significant discretion and power to prevent or remedy unsafe or unsound practices or violations of laws by banks and bank holding companies in the performance of their supervisory and enforcement duties. The exercise of regulatory power may have a negative impact on our results of operations and financial condition.

There have been numerous media reports about bank failures, which we expect will continue as additional banks fail. These reports have created concerns among certain of our customers, particularly those with deposit balances in excess of deposit insurance limits. We have proactively sought to provide appropriate information to our deposit customers about our organization in order to retain our business and deposit relationships. The outflow of significant amounts of deposits could have an adverse impact on our liquidity and results of operations.

If successful, the initiatives set forth in our Capital Plan will be highly dilutive to our common shareholders. Our Capital Plan contemplates capital raising initiatives that involve the issuance of a significant number of shares of our common stock. The completion of any of these capital raising transactions is likely to be highly dilutive to our common shareholders. The market price of our common stock could decline as a result of the dilutive effect of the capital raising transactions we may enter into or the perception that such transactions could occur.

The capital raising initiatives we are pursuing could result in the UST or one or more private investors owning a significant percentage of our stock and having the ability to exert significant influence over our management and operations. One of the primary capital raising initiatives set forth in our Capital Plan is a proposal to the UST to exchange the shares of our preferred stock it owns for newly issued shares of our common stock. If the UST agrees to participate in such exchange on the terms we have proposed (as described under Item 1 Business Recent Developments above) and if such exchange was completed prior to the completion of any exchange offer for our trust preferred securities or any public offering of our common stock, the UST would end up owning a majority of our outstanding common stock. We do not know whether the UST will be willing to participate in any such exchange or the terms and conditions upon which it may agree to participate. It is possible that we may agree to conditions and restrictions on our business imposed by the UST in order to complete such exchange, including limitations and requirements related to executive compensation and corporate governance. Many of our competitors may not be subject to similar conditions, limitations, and requirements, which could give them a competitive advantage over us. It is also possible that one or more large investors, other than the UST, could end up as the owner of a significant portion of our common stock. This could occur, for example, if the UST agrees to participate in the exchange offer and subsequently transfers the common stock acquired from us. It could also occur if one or more large investors makes a significant investment in our common stock in the public offering of our common stock we currently intend to conduct as part of our Capital Plan. Any such significant shareholder could exercise significant influence on matters submitted to our shareholders for approval, including the election of directors. In addition, having a significant shareholder could make future transactions more difficult or even impossible to complete without the support of such shareholder, whose interests may not coincide with interests of smaller shareholders. These possibilities could have an adverse effect on the market price of our common stock.

It is possible that one or more of the initiatives set forth in our Capital Plan could trigger an ownership change that will negatively affect our ability to utilize net operating loss carryforwards and other deferred tax assets in the future. As of December 31, 2009, we had federal net operating loss carryforwards of approximately \$42.8 million, and such amount may grow significantly in the future. Under federal tax law, our ability to utilize these carryforwards and other deferred tax assets is limited if we are deemed to experience a change of ownership. This would result in our loss of the benefit of these deferred tax assets. The capital raising transactions contemplated by our Capital Plan could cause a change of ownership under these rules, which would likely materially limit our ability to utilize these significant deferred tax assets.

The trading price of our common stock may be subject to continued significant fluctuations and volatility. The market price of our common stock could be subject to significant fluctuations due to, among other things:

Table of Contents

announcements regarding significant transactions in which we may engage, including the capital raising initiatives that are part of our Capital Plan;

market assessments regarding such transactions, including the timing, terms, and likelihood of success of such capital raising initiatives;

operating results that vary from the expectations of management, securities analysts, and investors, including with respect to further loan losses we may incur;

changes or perceived changes in our operations or business prospects;

legislative or regulatory changes affecting our industry generally or our businesses and operations;

the failure of general market and economic conditions to stabilize and recover, particularly with respect to economic conditions in Michigan, and the pace of any such stabilization and recovery;

the possible delisting of our common stock from Nasdaq or perceptions regarding the likelihood of such delisting;

the operating and share price performance of companies that investors consider to be comparable to us;

future offerings of debt, preferred stock, or additional trust preferred securities, each of which would be senior to our common stock upon liquidation and for purposes of dividend distributions; and

other changes in global financial markets, economies, and market conditions, such as interest or foreign exchange rates, stock, commodity, credit or asset valuations or volatility.

Stock markets in general, and our common stock in particular, have experienced significant volatility over approximately the past two years, and continue to experience significant price and volume volatility. As a result, the market price of our common stock may continue to be subject to similar market fluctuations that may or may not be related to our operating performance or prospects. Increased volatility could result in a decline in the market price of our common stock.

Our common stock could be delisted from Nasdaq. Our common stock is currently listed on the Nasdaq GSM. However, on December 21, 2009, we received a letter from The Nasdaq Stock Market notifying us that we no longer meet Nasdaq's continued listing requirements under Listing Rule 5450(a)(1) because the bid price for our common stock had closed below \$1.00 per share for 30 consecutive business days. We have until approximately June 21, 2010, to demonstrate compliance with this bid price rule by maintaining a minimum closing bid price of at least \$1.00 for a minimum of 10 consecutive business days. If we are unable to establish compliance with the bid price rule within such time period, our common stock will be subject to delisting from the Nasdaq GSM. However, in that event, we may be eligible for an additional grace period by transferring our common stock listing from the Nasdaq GSM to the Nasdaq Capital Market. This would require us to meet the initial listing criteria of the Nasdaq Capital Market, other than with respect to the minimum closing bid price requirement. If we are then permitted to transfer our listing to the Nasdaq Capital Market, we expect we would be granted an additional 180 calendar day period in which to demonstrate compliance with the minimum bid price rule.

The delisting of our common stock from Nasdaq, whether in connection with the foregoing or as a result of our future inability to meet any listing standards, would have an adverse effect on the liquidity of our common stock and, as a result, the market price of our common stock might become more volatile. Even the perception that our common stock may be delisted could affect its liquidity and market price. Delisting could also make it more difficult to raise additional capital.

If our common stock is delisted from the Nasdaq, it is likely that quotes for our common stock would continue to be available on the OTC Bulletin Board or on the Pink Sheets. However, these alternatives are generally considered to be less efficient markets and it is likely that the liquidity of our common stock as well as our stock price would be adversely impacted as a result.

We are not currently paying dividends on our common stock, and there are significant restrictions on our ability to do so. Holders of our common stock are only entitled to receive such dividends as our Board of Directors may declare out of funds legally available for such payments. We are currently prohibited from paying any cash dividends on our common stock. Even when such prohibitions end (which we do not expect to occur in the near term), there are restrictions on our ability to pay cash dividends that will likely continue to materially limit our ability to pay cash

Table of Contents

dividends. We cannot provide any assurances of when we may pay cash dividends in the future. Furthermore, our common shareholders are subject to the prior dividend rights of any holders of our preferred stock and to the prior distribution rights of holders of our trust preferred securities.

Our Articles of Incorporation as well as certain banking laws may have an anti-takeover effect. Provisions of our Articles of Incorporation and certain federal banking laws, including regulatory approval requirements, could make it more difficult for a third party to acquire us, even if doing so would be perceived to be beneficial to our shareholders. The combination of these provisions may inhibit a non-negotiated merger or other business combination, which, in turn, could adversely affect the market price of our common stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

We and our Bank operate a total of 120 facilities in Michigan and 1 facility in Chicago, Illinois. The individual properties are not materially significant to us or our Bank's business or to the consolidated financial statements. With the exception of the potential remodeling of certain facilities to provide for the efficient use of work space or to maintain an appropriate appearance, each property is considered reasonably adequate for current and anticipated needs.

ITEM 3. LEGAL PROCEEDINGS

Due to the nature of our business, we are often subject to numerous legal actions. These legal actions, whether pending or threatened, arise through the normal course of business and are not considered unusual or material.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

A Special Meeting of Shareholders was held on January 29, 2010. As described in our proxy statement, dated December 18, 2009, the following matters were considered at that meeting:

- (1) A proposal to amend our Articles of Incorporation to increase the number of authorized shares of common stock from 60 million shares to 500 million shares. Votes for, votes against and abstentions were as follows:

Votes for:	16,934,931
Votes against:	3,294,161
Abstain:	257,871

- (2) A proposed stock option exchange program, under which eligible employees would be able to exchange certain options for a lesser number of new options. Votes for, votes against and abstentions were as follows:

Votes for:	9,714,284
Votes against:	2,623,686
Abstain:	262,159

- (3) A proposal to issue additional shares of our common stock in exchange for certain outstanding trust preferred securities and in exchange for certain outstanding shares of preferred stock. Votes for, votes against and abstentions were as follows:

Votes for:	10,281,873
Votes against:	2,103,219
Abstain:	215,039

Table of Contents**ADDITIONAL ITEM EXECUTIVE OFFICERS**

Our executive officers are appointed annually by our Board of Directors at the meeting of Directors preceding the Annual Meeting of Shareholders. There are no family relationships among these officers and/or our Directors nor any arrangement or understanding between any officer and any other person pursuant to which the officer was elected. The following sets forth certain information with respect to our executive officers at February 26, 2010.

Name (Age)	Position	First elected as an executive officer
Michael M. Magee, Jr. (54)	President, Chief Executive Officer and Director	1993
Robert N. Shuster (52)	Executive Vice President and Chief Financial Officer	1999
Stefanie M. Kimball (50)	Executive Vice President and Chief Lending Officer	2007
William B. Kessel (45)	Executive Vice President and Chief Operating Officer	2004
David C. Reglin (50)	Executive Vice President, Retail Banking	1998
Mark L. Collins (52)	Executive Vice President, General Counsel	2009
Richard E. Butler (58)	Senior Vice President, Operations	1998
Peter R. Graves (52)	Senior Vice President, Chief Information Officer	1999
James J. Twarozynski (44)	Senior Vice President, Controller	2002

Prior to being named Executive Vice President and Chief Lending Officer in 2007, Ms. Kimball was a Senior Vice President at Comerica Incorporated since 1998.

Prior to being named Executive Vice President, General Counsel in 2009, Mr. Collins was a Partner with Varnum LLP, a Grand Rapids, Michigan based law firm, where he specialized in commercial law.

Table of Contents**PART II.****ITEM 5. MARKET FOR OUR COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

The information set forth under the caption Quarterly Summary in our annual report, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders (filed as exhibit 13 to this report on Form 10-K), is incorporated herein by reference.

The following table shows certain information relating to purchases of common stock for the three-months ended December 31, 2009 pursuant to our share repurchase plan:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Plan	Remaining Number of Shares Authorized for Purchase Under the Plan
October 2009 ⁽¹⁾	620	\$ 1.18		7,414
November 2009				7,414
December 2009				7,414
Total	620	\$ 1.18	0	0 ⁽²⁾

(1) Shares purchased to fund our Deferred Compensation and Stock Purchase Plan for Non-employee Directors.

(2) A stock repurchase plan authorizing the purchase of up to 25,000 shares of our common stock expired on December 31, 2009.

ITEM 6. SELECTED FINANCIAL DATA

The information set forth under the caption Selected Consolidated Financial Data in our annual report, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders (filed as exhibit 13 to this report on Form 10-K), is incorporated herein by reference.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information set forth under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations in our annual report, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders (filed as exhibit 13 to this report on Form 10-K), is incorporated herein by reference.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information set forth in Management's Discussion and Analysis of Financial Condition and Results of Operations under the caption Asset/liability management in our annual report, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders (filed as exhibit 13 to this report on Form 10-K), is incorporated herein by reference.

PART II.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The following consolidated financial statements, management's report on internal controls, and the independent auditor's report are set forth in our annual report, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders (filed as exhibit 13 to this report on Form 10-K), and is incorporated herein by reference.

Management's Annual Report on Internal Control Over Financial Reporting Report of Independent Registered Public Accounting Firm

Consolidated Statements of Financial Condition at December 31, 2009 and 2008

Consolidated Statements of Operations for the years ended December 31, 2009, 2008 and 2007

Consolidated Statements of Shareholders' Equity for the years ended December 31, 2009, 2008 and 2007

Consolidated Statements of Comprehensive Income for the years ended December 31, 2009, 2008 and 2007

Consolidated Statements of Cash Flows for the years ended December 31, 2009, 2008 and 2007

Notes to Consolidated Financial Statements

The supplementary data required by this item set forth under the caption "Quarterly Financial Data" in our annual report, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders (filed as exhibit 13 to this report on Form 10-K), is incorporated herein by reference.

The portions of our annual report, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders (filed as exhibit 13 to this report on Form 10-K), which are not specifically incorporated by reference as part of this Form 10-K are not deemed to be a part of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 9A. CONTROLS AND PROCEDURES

1. **Evaluation of Disclosure Controls and Procedures.** With the participation of management, our chief executive officer and chief financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15e and 15d-15e) as of the year ended December 31, 2009 (the "Evaluation Date"), have concluded that, as of such date, our disclosure controls and procedures were effective.
2. Management's Annual Report on Internal Control Over Financial Reporting under Item 8 hereof is included in the 2009 Annual Report under the caption "Management's Annual Report on Internal Control over Financial Reporting" and is incorporated herein by reference. The Company's independent registered public accounting firm's attestation report on our internal control over financial reporting is also included in the 2009 Annual Report under the caption "Report of Independent Registered Public Accounting Firm" under item 8 hereof and is incorporated herein by reference.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES (continued)

3. There were no changes in our internal control over financial reporting during the quarter ended December 31, 2009, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III.

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

DIRECTORS The information with respect to our Directors, set forth under the captions Election of Directors and Section 16(a) Beneficial Ownership Reporting Compliance in our definitive proxy statement, to be delivered to shareholders in connection with the April 27, 2010 Annual Meeting of Shareholders, is incorporated herein by reference.

EXECUTIVE OFFICERS Reference is made to additional item under Part I of this report on Form 10-K.

CODE OF ETHICS We have adopted a Code of Ethics for our Chief Executive Officer and Senior Financial Officers. A copy of our Code of Ethics is posted on our website at www.IndependentBank.com, under Investor Relations, and a printed copy is available upon request by writing to our Chief Financial Officer, Independent Bank Corporation, P.O. Box 491, Ionia, Michigan 48846.
