MASCO CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

A. Accounting Policies

- A. In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments, of a normal recurring nature, necessary to present fairly its financial position as at September 30, 2011 and the results of operations for the three months and nine months ended September 30, 2011 and 2010 and cash flows and shareholders' equity for the nine months ended September 30, 2011 and 2010. The condensed consolidated balance sheet at December 31, 2010 was derived from audited financial statements.

Recently Issued Accounting Pronouncements

Effective January 1, 2011, the Company adopted new accounting guidance which addresses how to determine whether a sales arrangement involves multiple deliverables or contains more than one unit of accounting, and how the sales arrangement consideration should be allocated among the separate units of accounting. The Company evaluated this new guidance and the adoption did not have an impact on the Company's financial position or its results of operations.

In June 2011, new accounting guidance was issued regarding the presentation and disclosure of comprehensive income. The new guidance will require presentation of other comprehensive income items in the Company's consolidated statement of income; such items will no longer be included in the statement of shareholders' equity. The new guidance will also require additional disclosure for reclassification of items from other comprehensive income to the Company's statement of income. The new guidance will be effective for the Company January 1, 2012. The Company does not expect this guidance to have a material impact on the Company's financial condition or its results of operations.

In September 2011, new accounting guidance was issued regarding impairment testing of goodwill. The new guidance would allow the Company to make a qualitative determination regarding potential goodwill impairment before performing the quantitative impairment test. The new guidance will be effective for the Company January 1, 2012. The Company does not anticipate utilizing the qualitative provisions of the new guidance.

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

B. Goodwill and Other Intangible Assets

B. The changes in the carrying amount of goodwill for the nine months ended September 30, 2011, by segment, were as follows, in millions:

	Gross Goodwill At Sep. 30, 2011	Accumulated Impairment Losses	Net Goodwill At Sep. 30, 2011
Cabinets and Related Products	\$ 588	\$ (364)	\$ 224
Plumbing Products	539	(340)	199
Installation and Other Services	1,819	(762)	1,057
Decorative Architectural Products	294		294
Other Specialty Products	980	(367)	613
Total	\$ 4,220	\$ (1,833)	\$ 2,387

	Gross Goodwill At Dec. 31, 2010	Accumulated Impairment Losses	Net Goodwill At Dec. 31, 2010	Other(A)	At Sep. 30, 2011
Cabinets and Related Products	\$ 587	\$ (364)	\$ 223	\$ 1	\$ 224
Plumbing Products	536	(340)	196	3	199
Installation and Other Services	1,819	(762)	1,057		1,057
Decorative Architectural Products	294		294		294
Other Specialty Products	980	(367)	613		613
Total	\$ 4,216	\$ (1,833)	\$ 2,383	\$ 4	\$ 2,387

(A) Other principally includes the effect of foreign currency translation.

Other indefinite-lived intangible assets were \$185 million at both September 30, 2011 and December 31, 2010, respectively, and principally included registered trademarks. The carrying value of the Company's definite-lived intangible assets was \$71 million (net of accumulated amortization of \$80 million) at September 30, 2011 and \$84 million (net of accumulated amortization of \$75 million) at December 31, 2010, and principally included customer relationships and non-compete agreements.

As a result of continued losses in the commercial businesses in the Installation and Other Services segment, at September 30, 2011, the Company recorded a pre-tax impairment charge of \$7 million related to certain intangible assets for these businesses. The Company then assessed the goodwill associated with these businesses and determined no impairment was necessary at September 30, 2011.

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)****C. Depreciation and Amortization Expense**

C. Depreciation and amortization expense was \$188 million and \$209 million for the nine months ended September 30, 2011 and 2010, respectively.

D. Fair Value of Financial Investments and Liabilities

D. The Company has maintained investments in available-for-sale securities and a number of private equity funds, principally as part of its tax planning strategies, as any gains enhance the utilization of any current and future tax capital losses. Financial investments included in other assets were as follows, in millions:

	September 30, 2011	December 31, 2010
Auction rate securities	\$ 22	\$ 22
TriMas Corporation common stock		40
Total recurring investments	22	62
Private equity funds	92	106
Other investments	5	13
Total non-recurring investments	97	119
Total	\$ 119	\$ 181

The Company's investments in available-for-sale securities at September 30, 2011 and December 31, 2010 were as follows, in millions:

	Cost Basis	Pre-tax Unrealized Gains	Pre-tax Unrealized Losses	Recorded Basis
September 30, 2011	\$ 19	\$ 3	\$	\$ 22
December 31, 2010	\$ 22	\$ 40	\$	\$ 62

Recurring Fair Value Measurements. Financial assets and (liabilities) measured at fair value on a recurring basis at each reporting period and the amounts for each level within the fair value hierarchy were as follows, in millions:

	Fair Value Measurements Using Significant			
	Quoted Market Prices (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	Sep. 30, 2011			
Auction rate securities	\$ 22	\$	\$	\$ 22
Total	\$ 22	\$	\$	\$ 22

	Dec. 31, 2010	Fair Value Measurements Using		
		Quoted Market Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Auction rate securities	\$ 22	\$	\$	\$ 22
TriMas Corporation	40	40		
Total	\$ 62	\$ 40	\$	\$ 22

7

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note D continued:

The fair value of the auction rate securities held by the Company have been estimated, on a recurring basis, using a discounted cash flow model (Level 3 input). The significant inputs in the discounted cash flow model used to value the auction rate securities include: expected maturity of auction rate securities, discount rate used to determine the present value of expected cash flows and the assumptions for credit defaults, since the auction rate securities are backed by credit default swap agreements.

The following tables summarize the changes in Level 3 financial assets measured at fair value on a recurring basis for the nine months ended September 30, 2011 and the year ended December 31, 2010, in millions:

	Auction Rate Securities
Fair value January 1, 2011	\$ 22
Total losses included in earnings	
Unrealized (losses)	
Purchases	
Settlements	
Transfer from Level 3 to Level 2	
Fair value at September 30, 2011	\$ 22

During 2010, the Company converted all of its holdings in Asahi Tec preferred stock into common stock, which was sold in its entirety in 2010 in open market transactions.

	Asahi Tec Preferred Stock	Auction Rate Securities	Total
Fair value January 1, 2010	\$ 71	\$ 22	\$ 93
Total losses included in earnings	(28)		(28)
Unrealized losses	(23)		(23)
Purchases, issuances, settlements			
Transfers from Level 3 to Level 2	(20)		(20)
Fair value at December 31, 2010	\$	\$ 22	\$ 22

Non-Recurring Fair Value Measurements. For the nine months ended September 30, 2011 and 2010, the Company did not measure any financial investments on a non-recurring basis, as there was no other-than-temporary decline in the estimated value of private equity funds. Financial investments measured at fair value on a non-recurring basis during 2010 and the amounts for each level within the fair value hierarchy were as follows, in millions:

Fair Value Measurements Using Significant			
Quoted Market	Other Observable	Significant Unobservable	Total

	Dec. 31, 2010	Prices (Level 1)	Inputs (Level 2)	Inputs (Level 3)	Gains (Losses)
Private equity funds	\$ 2	\$	\$	\$ 2	\$ (4)
Other private investments					(2)
	\$ 2	\$	\$	\$ 2	\$ (6)

8

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note D concluded:

The Company did not have any transfers between Level 1 and Level 2 financial assets in the first nine months of 2011 or in the full-year 2010.

Income and impairment charges for financial investments were as follows, in millions:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2011	2010	2011	2010
Realized gains (losses)				
from:				
TriMas Corporation common stock	\$	\$	\$ 41	\$
Private equity funds	19		28	
Other financial investments		(3)		(2)
Total realized gains	\$ 19	\$ (3)	\$ 69	\$ (2)
Impairment charges:				
Asahi Tec Preferred Stock	\$	\$	\$	\$ (28)
Private equity funds				(3)
Other private investments				(2)
Total impairment charges	\$	\$	\$	\$ (33)

The fair value of the Company's short-term and long-term fixed-rate debt instruments is based principally upon quoted market prices for the same or similar issues or the current rates available to the Company for debt with similar terms and remaining maturities. The aggregate estimated market value of short-term and long-term debt at September 30, 2011 was approximately \$3.9 billion, compared with the aggregate carrying value of \$4.0 billion. The aggregate estimated market value of short-term and long-term debt at December 31, 2010 was approximately \$4.2 billion, compared with the aggregate carrying value of \$4.1 billion.

E. Derivatives

E. In August 2011, the Company entered into new interest rate swap agreements to hedge the volatility in interest payments associated with the expected debt issuance planned to occur in 2012. These interest rate swaps are designed as cash flow hedges and effectively fix interest rates on the forecasted debt issuance based on 3-month LIBOR. The average fixed rate on the interest rate swaps is 2.8%. At September 30, 2011, the interest rate swap agreements covered a notional amount of \$400 million, which we expect to issue in connection with the maturity of the Company's \$791 million fixed-rate debt due July 15, 2012 with an interest rate of 5.875%. At September 30, 2011, the interest rate swaps are considered 100 percent effective; therefore, the market valuation of \$17 million is recorded in other comprehensive income in the Company's statement of shareholders' equity with a corresponding increase to accrued liabilities in the Company's condensed consolidated balance sheet at September 30, 2011.

Table of Contents

MASCO CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)

Note E concluded:

During 2011 and 2010, the Company entered into foreign currency exchange contracts to hedge currency fluctuations related to intercompany loans denominated in non-functional currencies. Based upon period-end market prices, the Company had recorded assets (liabilities) of \$5 million and \$(2) million to reflect contract prices at September 30, 2011 and December 31, 2010, respectively. Such gains (losses) are partially offset by gains (losses) related to the translation of loans and accounts denominated in non-functional currencies. Gains (losses) related to these contracts are recorded in the Company's consolidated statements of income in other income (expense), net. For the nine months ended September 30, 2011 and 2010, the Company had recorded gains net of \$1 million and \$2 million, respectively, related to these foreign currency exchange contracts. For the three months ended September 30, 2011 and 2010, the Company had recorded gains (losses) net of \$8 million and \$(8) million, respectively, related to these foreign currency exchange contracts.

During 2011 and 2010, the Company, including certain of its European operations, also entered into foreign currency forward contracts to manage a portion of its exposure to currency fluctuations in the European euro and the U.S. dollar. Based upon period-end market prices, the Company had recorded liabilities of \$ million and \$3 million to reflect contract prices at September 30, 2011 and December 31, 2010, respectively. Gains (losses) related to these contracts are recorded in the Company's consolidated statements of income in other income (expense), net. For the nine months ended September 30, 2011 and 2010, the Company had recorded gains (losses) net of \$3 million and \$(1) million, respectively, related to these foreign currency exchange contracts. For the three months ended September 30, 2011 and 2010, the Company had recorded gains net of \$2 million and \$1 million, respectively, related to these foreign currency exchange contracts.

In the event that the counterparties fail to meet the terms of the foreign currency forward contracts, the Company's exposure is limited to the aggregate foreign currency rate differential with such institutions.

During 2011 and 2010, the Company entered into several contracts to manage its exposure to increases in the price of copper and zinc. Based upon period-end market prices, the Company had recorded (liabilities) assets of \$(5) million and \$7 million to reflect contract prices at September 30, 2011 and December 31, 2010, respectively. Gains (losses) related to these contracts are recorded in the Company's consolidated statements of income in cost of goods sold. For the nine months ended September 30, 2011 and 2010, the Company had recorded (losses) gains net of \$(10) million and \$3 million, respectively, related to these commodity contracts. For the three months ended September 30, 2011 and 2010, the Company had recorded (losses) gains net of \$(11) million and \$4 million, respectively, related to these commodity contracts.

The fair value of these derivative contracts is estimated on a recurring basis, quarterly, using Level 2 inputs (significant other observable inputs).

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

F. Warranty

F. Changes in the Company's warranty liability were as follows, in millions:

	Nine Months Ended September 30, 2011	Twelve Months Ended December 31, 2010
Balance at January 1	\$ 107	\$ 109
Accruals for warranties issued during the period	20	42
Accruals related to pre-existing warranties	7	(4)
Settlements made (in cash or kind) during the period	(29)	(37)
Other, net	(2)	(3)
Balance at end of period	\$ 103	\$ 107

G. Debt

G. Based on the limitations of the debt to total capitalization covenant, at September 30, 2011, the Company had additional borrowing capacity, subject to availability, of up to \$979 million. Additionally, at September 30, 2011, the Company could absorb a reduction to shareholders' equity of approximately \$527 million, and remain in compliance with the debt to total capitalization covenant.

In order to borrow under the Credit Agreement, there must not be any default in the Company's covenants in the credit agreement (i.e., in addition to the two financial covenants, principally limitations on subsidiary debt, negative pledge restrictions, legal compliance requirements and maintenance of properties and insurance) and the Company's representations and warranties in the credit agreement must be true in all material respects on the date of borrowing (i.e., principally no material adverse change or litigation likely to result in a material adverse change, since December 31, 2009, and, in each case, no material ERISA or environmental non-compliance and no material tax deficiency). The Company was in compliance with all covenants and no borrowings have been made at September 30, 2011.

At September 30, 2011, no principal amount at maturity of Zero Coupon Convertible Senior Notes due 2031 (Notes) was outstanding. During the third quarter of 2011, holders of \$108.1 million principal amount at maturity with an accreted value of \$58.1 million of Notes required the Company to repurchase the Notes for cash of \$57.9 million; the remaining Notes were retired.

H. Stock-Based Compensation

H. The Company's 2005 Long Term Stock Incentive Plan (the 2005 Plan) provides for the issuance of stock-based incentives in various forms to employees and non-employee Directors of the Company. At September 30, 2011, outstanding stock-based incentives were in the form of long-term stock awards, stock options, phantom stock awards and stock appreciation rights. Pre-tax compensation expense and the related income tax benefit, for these stock-based incentives, were as follows, in millions:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Long-term stock awards	\$ 9	\$ 9	\$ 28	\$ 28
Stock options	6	6	17	17
Phantom stock awards and stock appreciation rights	(5)	1	(3)	

Edgar Filing: MASCO CORP /DE/ - Form 10-Q

Total	\$ 10	\$ 16	\$ 42	\$ 45
Income tax benefit (before valuation allowance)	\$ 4	\$ 6	\$ 16	\$ 17

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note H continued:

Long-Term Stock Awards

Long-term stock awards are granted to key employees and non-employee Directors of the Company and do not cause net share dilution inasmuch as the Company continues the practice of repurchasing and retiring an equal number of shares on the open market.

The Company's long-term stock award activity was as follows, shares in millions:

	Nine Months Ended September 30,	
	2011	2010
Unvested stock award shares at January 1	10	9
Weighted average grant date fair value	\$19	\$21
Stock award shares granted	2	3
Weighted average grant date fair value	\$13	\$14
Stock award shares vested	2	2
Weighted average grant date fair value	\$20	\$23
Stock award shares forfeited		
Weighted average grant date fair value	\$18	\$19
Unvested stock award shares at September 30	10	10
Weighted average grant date fair value	\$17	\$19

At September 30, 2011 and 2010, there was \$122 million and \$136 million, respectively, of total unrecognized compensation expense related to unvested stock awards; such awards had a weighted average remaining vesting period of five years in both periods.

The total market value (at the vesting date) of stock award shares which vested during the nine months ended September 30, 2011 and 2010 was \$28 million and \$22 million, respectively.

Stock Options

Stock options are granted to key employees of the Company. The exercise price equals the market price of the Company's common stock at the grant date. These options generally become exercisable (vest ratably) over five years beginning on the first anniversary from the date of grant and expire no later than 10 years after the grant date.

The Company granted 2,372,500 of stock option shares in the nine months ended September 30, 2011 with a grant date exercise price approximating \$13 per share. In the first nine months of 2011, 2,830,000 stock option shares were forfeited (including options that expired unexercised).

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note H continued:

The Company's stock option activity was as follows, shares in millions:

	Nine Months Ended September 30,	
	2011	2010
Option shares outstanding, January 1	37	36
Weighted average exercise price	\$ 21	\$ 23
Option shares granted, including restoration options	2	5
Weighted average exercise price	\$ 13	\$ 14
Option shares exercised		
	\$1	
Aggregate intrinsic value on date of exercise (A)	million	\$1 million
Weighted average exercise price	\$ 8	\$ 8
Option shares forfeited	3	4
Weighted average exercise price	\$ 22	\$ 23
Option shares outstanding, September 30	36	37
Weighted average exercise price	\$ 21	\$ 21
Weighted average remaining option term (in years)	6	6
Option shares vested and expected to vest, September 30	36	37
Weighted average exercise price	\$ 21	\$ 22
Aggregate intrinsic value (A)	\$ million	\$15 million
Weighted average remaining option term (in years)	6	6
Option shares exercisable (vested), September 30	24	22
Weighted average exercise price	\$ 24	\$ 25
Aggregate intrinsic value (A)	\$ million	\$3 million
Weighted average remaining option term (in years)	4	4

(A) Aggregate intrinsic value is calculated using the Company's stock price at each respective date, less the exercise price (grant date price) multiplied by the number of shares.

At September 30, 2011 and 2010, there was \$39 million and \$50 million, respectively, of unrecognized compensation expense (using the Black-Scholes option pricing model) related to unvested stock options; such options had a weighted average vesting period of three years in both 2011 and 2010.

Table of Contents**MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note H concluded:

The weighted average grant date fair value of option shares granted and the assumptions used to estimate those values using a Black-Scholes option pricing model, were as follows:

	Nine Months Ended September 30,	
	2011	2010
Weighted average grant date fair value	\$ 5.10	\$ 5.30
Risk-free interest rate	2.72%	2.77%
Dividend yield	2.34%	2.17%
Volatility factor	49.00%	46.01%
Expected option life	6 years	6 years

I. Employee Retirement Plans

I. The Company sponsors qualified defined-benefit or defined-contribution retirement plans for most of its employees. In addition to the Company's qualified defined-benefit pension plans, the Company has unfunded non-qualified defined-benefit pension plans covering certain employees, which provide for benefits in addition to those provided by the qualified pension plans. Substantially all salaried employees participate in non-contributory defined-contribution retirement plans, to which payments are determined annually by the Organization and Compensation Committee of the Board of Directors.

During the nine months ended September 30, 2011, the Company adjusted certain employee expense related accruals which resulted in a \$5 million reduction to expenses related to the fourth quarter of 2010. The effect was not material to the previously issued financial statements.

Effective January 1, 2010, the Company froze all future benefit accruals under substantially all of the Company's domestic qualified and non-qualified defined-benefit pension plans. Future benefit accruals related to the Company's foreign non-qualified plans were frozen several years ago.

Net periodic pension cost for the Company's defined-benefit pension plans was as follows, in millions:

	Three Months Ended September 30,			
	2011		2010	
	Qualified	Non-Qualified	Qualified	Non-Qualified
Service cost	\$ 1	\$	\$ 2	\$
Interest cost	12	2	11	3
Expected return on plan assets	(9)		(9)	
Amortization of prior service cost				
Amortization of net loss	2	1	3	
Net periodic pension cost	\$ 6	\$ 3	7	3

	Nine Months Ended September 30,

MASCO CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)

Note I concluded:

At December 31, 2010, the Company reported a net liability of \$522 million, of which \$163 million was related to our non-qualified, supplemental retirement plans, which are not subject to the funding requirements of the Pension Protection Act. In accordance with the Pension Protection Act of 2006, the Adjusted Funding Target Attainment Percentage (AFTAP) for the various defined-benefit pension plans ranges from 62 percent to 86 percent. At December 31, 2010, the Company had one plan that offered accelerated benefits (i.e., lump sum distributions) and the AFTAP for that plan is less than 80 percent; therefore, the plan is prohibited from allowing participants to receive any lump sum distribution in excess of 50 percent of the benefit value. In addition, plan amendments increasing benefits or liabilities for that plan are also prohibited.

K. Other Income (Expense), Net

K. Other, net, which is included in other income (expense), net, was as follows, in millions:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2011	2010	2011	2010
Income from cash and cash investments	\$ 2	\$ 2	\$ 5	\$ 4
Other interest income	1		1	1
Income (loss) from financial investments (Note D)	19	(3)	69	(2)
Other items, net			(1)	(5)
Total other net	\$ 22	\$ (1)	\$ 74	\$ (2)

Other items, net, included \$1 million and \$ million of currency gains for the three months and nine months ended September 30, 2011, respectively. Other items, net, included \$4 million and \$(2) million of currency gains (losses) for the three months and nine months ended September 30, 2010, respectively.

L. Earnings Per Common Share

L. Reconciliations of the numerators and denominators used in the computations of basic and diluted earnings per common share were as follows, in millions:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2011	2010	2011	2010
Numerator (basic and diluted):				
Net income (loss)	\$ 36	\$ (5)	\$ (2)	\$ (9)
Allocation to unvested restricted stock awards	(1)	(1)	(2)	(2)
Net income (loss) attributable to common shareholders	35	(6)	(4)	(11)
Net income (loss) available to common shareholders	\$ 35	\$ (6)	\$ (4)	\$ (11)
Denominator:				
Basic common shares (based upon weighted average)	348	349	348	349
Add:				
Contingent common shares				
Stock option dilution				
Diluted common shares	348	349	348	349

For the three months and nine months ended September 30, 2011 and 2010, the Company allocated dividends to the unvested restricted stock awards (participating securities).

Additionally, 37 million common shares for the three months and nine months ended September 30, 2011 and 2010 related to stock options were excluded from the computation of diluted earnings per common share due to their antidilutive effect.

Table of Contents

MASCO CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)

Note L concluded:

In the first nine months of 2011, the Company granted 2 million shares of long-term stock awards; to offset the dilutive impact of these awards, the Company also repurchased and retired approximately 2 million shares of Company common stock, for cash aggregating \$30 million. At September 30, 2011, the Company had 25 million shares of its common stock remaining under the July 2007 Board of Directors repurchase authorization.

On the basis of amounts paid (declared), cash dividends per common share were \$.075 (\$.075) and \$.225 (\$.225), respectively, for the three months and nine months ended September 30, 2011 and the three months and nine months ended September 30, 2010.

M. Other Commitments and Contingencies

M. The Company is subject to lawsuits and pending or asserted claims with respect to matters generally arising in the ordinary course of business.

As previously disclosed, a lawsuit was brought against the Company and a number of its insulation installation companies alleging that certain of their practices violated provisions of the federal antitrust laws. The case was filed in October 2004 in the United States District Court for the Northern District of Georgia by Columbus Drywall & Insulation, Inc., Leo Jones Insulation, Inc., Southland Insulators, Inc., Southland Insulators of Maryland, Inc. d/b/a Devere Insulation, Southland Insulators of Delaware LLC d/b/a Delmarva Insulation, and Whitson Insulation Company of Grand Rapids, Inc. against the Company, its subsidiaries Masco Contractors Services Group Corp., Masco Contractor Services Central, Inc. (MCS Central) and Masco Contractor Services East, Inc., and several insulation manufacturers (the Columbus Drywall case). In February 2009, the court certified a class of 377 insulation contractors. Another suit was filed in March 2003 in the United States District Court for the Northern District of Georgia by Wilson Insulation Company, Wilson Insulation of Augusta, Inc. and The Wilson Insulation Group, Inc. against the Company, Masco Contractor Services, Inc., and MCS Central that alleged anticompetitive conduct. This case has been removed from the court's active docket. In March 2007, Albert Von Der Werth and Valerie Good filed suit in the United States District Court for the Northern District of California against the Company, its subsidiary Masco Contractor Services, and several insulation manufacturers seeking class action status and alleging anticompetitive conduct. This case was subsequently transferred to the United States District Court for the Northern District of Georgia and has been administratively stayed by the court. An additional suit, which was filed in September 2005 and alleged anticompetitive conduct, was dismissed with prejudice in December 2006.

The Company is vigorously defending the Columbus Drywall case. Based upon the advice of its outside counsel, the Company believes that the conduct of the Company and its insulation installation companies, which is the subject of the above-described lawsuits, has not violated any antitrust laws. The Company is unable at this time to reliably estimate any potential liability which might occur from an adverse judgment. There cannot be any assurance that the Company will ultimately prevail in these lawsuits, or, if unsuccessful, that the ultimate liability would not be material and would not have a material adverse effect on its businesses or the methods used by its insulation installation companies in doing business.

Table of Contents

MASCO CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (concluded)

N. Income Taxes

N. The effective tax rate was 64 percent for the nine months ended September 30, 2011 primarily due to an increase in the valuation allowance related to net operating losses and losses in certain jurisdictions providing no tax benefit.

As a result of tax audit closings, settlements and expiration of applicable statutes of limitations in various jurisdictions within the next 12 months, the Company anticipates that it is reasonably possible that the liability for uncertain tax positions could be reduced by approximately \$6 million.

O. Subsequent Events

O. In October 2011, the Company determined that several businesses in the Installation and Other Services segment related to commercial drywall installation, millwork and framing are not core to the Company's long-term growth strategy and, accordingly, has embarked on a plan of disposition. The businesses had combined 2010 net sales of approximately \$100 million and aggregate operating losses of \$10 million (excluding any impairment charges). The Company expects proceeds from the dispositions will be less than the net book value of the businesses. The dispositions are expected to be completed within the next twelve months.

Table of Contents**MASCO CORPORATION****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

We report our financial results in accordance with generally accepted accounting principles (GAAP) in the United States. However, we believe that certain non-GAAP performance measures and ratios, used in managing the business, may provide users of this financial information with additional meaningful comparisons between current results and results in prior periods. Non-GAAP performance measures and ratios should be viewed in addition to, and not as an alternative for, our reported results.

NET SALES

Net sales increased three percent and decreased one percent, respectively, for the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010. Excluding the positive effect of currency translation, net sales were flat and decreased three percent, respectively, for the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010. The following table reconciles reported net sales to net sales excluding acquisitions and the effect of currency translation, in millions:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Net sales, as reported	\$ 2,006	\$ 1,957	\$ 5,800	\$ 5,857
Acquisitions (none)				
Net sales, excluding acquisitions	2,006	1,957	5,800	5,857
Currency translation	(40)		(94)	
Net sales, excluding acquisitions and the effect of currency translation	\$ 1,966	\$ 1,957	\$ 5,706	\$ 5,857

North American net sales were negatively affected by the planned exit of certain cabinet product lines, which decreased sales by two percent and three percent, respectively, for the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010. North American net sales for the nine-month period ended September 30, 2011 were also negatively affected by lower sales volume of installation and other services, cabinets, paints and stains, builders hardware and windows, which, in the aggregate, decreased sales by five percent from the comparable period of 2010. Such declines were partially offset by selling price increases, which increased sales by three percent and two percent, respectively, for the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010.

In local currencies, net sales from International operations increased four percent and five percent, respectively, for the three-month and nine-month periods ended September 30, 2011, primarily due to increased sales volume and selling prices of International plumbing products, offset by lower sales volume related to International cabinets and windows. A weaker U.S. dollar increased International net sales by eight percent and six percent, respectively, in the three-month and nine-month periods ended September 30, 2011, compared to the same periods of 2010.

Table of Contents

MASCO CORPORATION

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Net sales of Cabinets and Related Products decreased in the three-month and nine-month periods ended September 30, 2011, due to the planned exit of ready-to-assemble and other non-core in-stock cabinet product lines, which decreased net sales in this segment by 11 percent and 12 percent, respectively, from the comparable periods of 2010. Net sales in this segment were also negatively affected by lower sales volumes of both North American and International cabinets, which decreased sales in this segment by six percent and nine percent, respectively, in the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010. A weaker U.S. dollar increased sales in this segment by two percent and one percent, respectively, for the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010. Such declines were partially offset by selling price increases.

Net sales of Plumbing Products increased, due to increased sales volume in North America, which increased sales by three percent and one percent, respectively, in the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010. In local currencies, net sales of International operations increased sales in this segment by three percent and four percent, respectively, in the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010. Such increases in International sales were due to increased sales volume and increased selling prices. A weaker U.S. dollar increased sales in this segment by five percent and three percent, respectively, for the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010.

Net sales of Installation and Other Services for the third quarter of 2011 were positively affected by increased sales volume and increased selling prices in the new home construction market and increased retrofit sales. Net sales in this segment decreased for the nine-month period ended September 30, 2011, due to lower sales volume, partially offset by increased selling prices in the new home construction market.

Net sales of Decorative Architectural Products decreased for the three-month period ended September 30, 2011, due to lower sales volume of paints and stains. Net sales in this segment decreased for the nine-month period ended September 30, 2011 due to lower sales volume of paints and stains and builders' hardware. Such declines were partially offset by increased selling prices of paints and stains and increased sales of paint products to the professional paint market.

Net sales of Other Specialty Products decreased for the nine-month period ended September 30, 2011 primarily due to lower sales volume of windows in North America and the U.K., partially offset by increased selling prices and a more favorable product mix of windows in North America. A weaker U.S. dollar increased sales in this segment by one percent for both the three-month and nine-month periods ended September 30, 2011 from the comparable periods of 2010.

OPERATING MARGINS

Our gross profit margins were 24.7 percent and 25.0 percent, respectively, for the three-month and nine-month periods ended September 30, 2011 compared with 25.2 percent and 26.2 percent, respectively, for the comparable periods of 2010. Results for the three-month and nine-month periods ended September 30, 2011 reflect a less favorable relationship between selling prices and commodity costs, increased litigation settlement expenses and increased expenses related to growth initiatives.

Table of Contents

MASCO CORPORATION

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Selling, general and administrative expenses, as a percentage of sales, were 19.6 percent and 21.3 percent, respectively, for the three-month and nine-month periods ended September 30, 2011, compared to 20.0 percent and 21.1 percent, respectively, for the comparable periods of 2010.

We have been focused on the strategic rationalization of our businesses, including business consolidations, plant closures, headcount reductions, system implementations and other initiatives. Operating profit for the three-month and nine-month periods ended September 30, 2011 includes \$13 million and \$60 million, respectively, of costs and charges related to our business rationalizations and other initiatives. For the three-month and nine-month periods ended September 30, 2010, we incurred costs and charges of \$39 million and \$104 million, respectively, related to these initiatives.

We anticipate that full-year 2011 rationalization charges for the entire Company will aggregate approximately \$100 million. In October 2011, we announced several plant closures related to our Milgard Window manufacturer in the Western U.S.; the additional cost is currently estimated at approximately \$30 million, primarily related to accelerated depreciation expense, and has been included in our full-year estimate of rationalization charges. We continue to evaluate our businesses and the impact of market conditions on our businesses, which may result in additional rationalization charges including severance, plant closure costs and asset impairments.

In October 2011, we determined that several businesses in the Installation and Other Services segment related to commercial drywall installation, millwork and framing are not core to our long-term growth strategy and, accordingly, we embarked on a plan of disposition. The businesses had combined 2010 net sales of approximately \$100 million and aggregate operating losses of \$10 million (excluding any impairment charges). We expect proceeds from the dispositions will be less than the net book value of the businesses. The dispositions are expected to be completed within the next twelve months.

As a result of continued losses in the commercial businesses in the Installation and Other Services segment, at September 30, 2011, the Company recorded a pre-tax impairment charge of \$7 million related to certain intangible assets for these businesses. The Company then assessed the goodwill associated with these businesses and determined no impairment was necessary at September 30, 2011.

Operating margins in the Cabinets and Related Products segment for the three-month and nine-month periods ended September 30, 2011 were positively affected by lower costs and charges associated with business rationalizations and the benefits associated with business rationalizations and other cost savings initiatives. Such benefits were offset by lower sales volume and the related under-absorption of fixed costs and a less favorable relationship between selling prices and commodity costs in both periods.

Operating margins in the Plumbing Products segment for the three-month and nine-month periods ended September 30, 2011 were negatively affected by a less favorable relationship between selling prices and commodity costs, a less favorable product mix and increased expenses related to growth initiatives. Such declines were partially offset by increased sales volume and the benefits associated with business rationalizations and other cost savings initiatives.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Operating margins in the Installation and Other Services segment for the third quarter of 2011 were positively impacted by increased sales volume, offset by a less favorable relationship between selling prices and commodity costs and a \$7 million impairment charge related to the intangible assets of certain businesses that will be sold. Operating margins in this segment for the nine-month period ended September 30, 2011 were negatively affected by lower sales volume and the related under-absorption of fixed costs. Both the three-month and nine-month periods ended September 30, 2011 were positively affected by the benefits associated with business rationalizations and other cost savings initiatives.

Operating margins in the Decorative Architectural Products segment for the three-month and nine-month periods ended September 30, 2011 reflect lower sales volume of paints and stains, a less favorable relationship between selling prices and commodity costs, and increased expenses related to growth initiatives.

Operating margins in the Other Special Products segment for the third quarter of 2011 were positively affected by a favorable relationship between selling prices and commodity costs. Operating margins in this segment for the nine-month period ended September 30, 2011 reflect lower sales volume and the related under-absorption of fixed costs and increased expenses related to growth initiatives. Both the three-month and nine-month periods ended September 30, 2011 were positively affected by the benefits associated with business rationalizations and other cost savings initiatives.

OTHER INCOME (EXPENSE), NET

Other items, net, for the three-month and nine-month periods ended September 30, 2011 included \$1 million and \$ million, respectively, of currency transaction gains. Other items, net, for the three-month and nine-month periods ended September 30, 2010 included \$4 million and \$(2) million, respectively, of currency transaction gains (losses).

For the nine-month period ended September 30, 2011, we recognized gains of \$41 million related to the sale of TriMas common stock. For the three-month and nine-month periods ended September 30, 2011 we also recognized gains of \$19 million and \$28 million, respectively, related to distributions from private equity funds.

For the nine-month period ended September 30, 2010, we recognized non-cash, pre-tax impairment charges of \$33 million related to financial investments (\$28 million related to Asahi Tec preferred stock and \$5 million related to private equity funds and other private investments).

INCOME (LOSS) PER COMMON SHARE

Income (loss) (attributable to Masco Corporation) for the three-month and nine-month periods ended September 30, 2011 was \$36 million and \$(2) million, respectively, compared with \$(5) million and \$(9) million, respectively, for the comparable periods of 2010. Diluted income (loss) per common share (attributable to Masco Corporation) for the three-month and nine-month periods ended September 30, 2011 was \$.10 per common share and \$(.01) per common share, respectively, compared with \$(.02) per common share and \$(.03) per common share, respectively, for the comparable periods of 2010.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The effective tax rates were 20 percent and 64 percent, respectively, for the three-month and nine-month periods ending September 30, 2011. The tax rate for the nine-month period ended September 30, 2011 is higher than our normalized tax rate of 36 percent primarily due to an increase in the valuation allowance related to net operating losses and losses in certain jurisdictions providing no tax benefit.

The effective tax rates were 82 percent and 70 percent, respectively, for the three-month and nine-month periods ending September 30, 2010. The tax rates were higher than our normalized tax rate of 36 percent primarily due to certain plant closure costs and other losses in certain jurisdictions providing no tax benefit.

OTHER FINANCIAL INFORMATION

Our current ratio was 1.5 to 1 and 2.3 to 1, respectively, at September 30, 2011 and December 31, 2010. The change in the current ratio is due to the reclassification of \$791 million of 5.875% notes due July 15, 2012 to short-term notes payable.

For the nine months ended September 30, 2011, cash of \$95 million was provided by operating activities.

Net cash used by financing activities was \$190 million. Financing activities include \$80 million for the payment of cash dividends, \$58 million for the re-purchase of the Zero Coupon Notes, and \$30 million for the acquisition of Company common stock in open-market transactions to offset the dilutive impact of long-term stock awards granted in 2011. Net cash used for investing activities was \$9 million and included \$49 million of proceeds related to the sale of TriMas common stock, \$43 million of net proceeds related to sale of other financial investments and \$19 million of net proceeds related to the sale of fixed assets, partially offset by \$106 million for capital expenditures.

For 2011, we anticipate capital expenditures, excluding any potential 2011 acquisitions, to be approximately \$170 million.

Our cash and cash investments were \$1.6 billion and \$1.7 billion at September 30, 2011 and December 31, 2010, respectively. Our cash and cash investments consist of overnight interest bearing money market demand and time deposit accounts, money market mutual funds and government securities.

Of the \$1.6 billion and the \$1.7 billion of cash and cash investments held at September 30, 2011 and December 31, 2010, respectively, \$544 million and \$493 million, respectively, is held in foreign subsidiaries. If these funds were needed for our operations in the U.S., their repatriation into the U.S. may result in additional U.S. income taxes or foreign withholding taxes. The amount of such taxes is dependent on the income tax laws and circumstances at the time of distribution.

The Company has \$791 million of fixed-rate debt due July 15, 2012 (Notes) with an interest rate of 5.875%. The Company plans to re-finance a portion of the Notes in 2012 and therefore has entered into new forward interest rate swap agreements to hedge the volatility in interest payments associated with this planned debt issuance. The interest rate swaps are intended to cover a notional amount of \$400 million; the Company anticipates that it will redeem the remaining Notes for cash.

We were in compliance with all covenants and had no borrowings under our credit agreement at September 30, 2011.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We are subject to lawsuits and claims pending or asserted with respect to matters generally arising in the ordinary course of business. Note M to the condensed consolidated financial statements discusses certain specific claims pending against us.

We believe that our present cash balance, cash flows from operations and, to the extent necessary, bank borrowings and future financial market activities, are sufficient to fund our working capital and other investment needs.

OUTLOOK FOR THE COMPANY

The foreclosure process, credit availability, declining home values, and consumer confidence continue to dampen the U.S. economy and hinder any housing recovery. We continue to believe that housing start levels in 2011 will be flat with 2010. Longer-term, however, we are confident about the fundamentals for the new home construction and home improvement markets and we are optimistic about the future.

We have several new programs that we are funding today that will drive future growth opportunities across our businesses. We are very encouraged with the progress we are making to increase our penetration with the North American cabinet dealer and with the professional painter. We also have exciting new programs that will launch later this year in plumbing, cabinets and builders hardware and we continue to invest in the development of international opportunities for paint and plumbing. We expect that improvements in our markets and in consumer spending, together with the changes we are driving across Masco and our financial strength, will create significant value for our shareholders.

FORWARD-LOOKING STATEMENTS

Statements contained in this report that reflect our views about our future performance constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as believe, anticipate, appear, may, will, intend, plan, estimate, expect, assume, and references to future periods. These views involve risks and uncertainties that are difficult to predict and, accordingly, our actual results may differ materially from the results discussed in our forward-looking statements. We caution you against relying on any of these forward-looking statements. Our future performance may be affected by our reliance on new home construction and home improvement, our reliance on key customers, the cost and availability of raw materials, shifts in consumer preferences and purchasing practices, and our ability to achieve cost savings through the Masco Business System and other initiatives. These and other factors are discussed in detail in Item 1A, Risk Factors in our most recent Annual Report on Form 10-K. Our forward-looking statements in this report speak only as of the date of this report. Factors or events that cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. Unless required by law, we undertake no obligation to update publicly any forward-looking statements as a result of new information, future events or otherwise.

Item 4. CONTROLS AND PROCEDURES

a. Evaluation of Disclosure Controls and Procedures.

The Company, with the participation of the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of its disclosure controls and procedures as required by Exchange Act Rules 13a-15(b) and 15d-15(b) as of September 30, 2011. Based on this evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective.

b. Changes in Internal Control over Financial Reporting.

In connection with the evaluation of the Company's internal control over financial reporting that occurred during the quarter ended September 30, 2011, which is required under the Securities Exchange Act of 1934 by paragraph (d) of Exchange Rules 13a-15 or 15d-15 (as defined in paragraph (f) of Rule 13a-15), management determined that there was no change that materially affected or is reasonably likely to materially affect internal control over financial reporting.
