In the presentation that follows and in related comments by management of GM, our use of the words expect, anticipate, estimate, forecast, objective, plan, goal, project, priorities/targets, and similar expressions is to identify forward-looking statements.

While these statements represent our current judgement on what the future may hold, and we believe these judgements are reasonable, actual results may differ materially due to numerous important factors that are described below and other factors that may be described in subsequent reports which GM may file with the SEC on Form 10-Q and filed or furnished on Form 8-K. Such factors include, among others, the following: changes in economic conditions, currency exchange rates or political stability; shortages of and price increase for fuel, labor strikes or work stoppages, market acceptance of the Corporation's new products; significant changes in the competitive environment; changes in the laws, regulations and tax rates; and the ability of the Corporation to achieve reductions in cost and employment levels, to realize production efficiencies, and to implement capital expenditures, all at the levels and times planned by management.
