### RISK FACTORS

In addition to the other information contained in this prospectus, any supplement to this prospectus and the registration statement of which this prospectus is a part, you should carefully consider the following risk factors before investing in our company.

Revenues may decline during periods when the demand for our products decreases

Our revenues decrease as the number of real estate transactions in which our products are purchased decreases. We have found that the number of real estate transactions in which our products are purchased decreases in the following situations:

- o when mortgage rates are high;
- o when the mortgage fund supply is limited; and

## Edgar Filing: FIRST AMERICAN FINANCIAL CORP - Form 424B3

- o when the United States economy is weak.

We believe that this trend will recur.

Earnings may be reduced if acquisition projections are inaccurate

Our earnings have improved since 1991 in large part because of our acquisition and integration of non-title insurance businesses. These businesses generally have higher margins than our title insurance businesses. The success or failure of each of these acquisitions has depended in large measure upon the accuracy of our projections. Our projections are not always accurate. Inaccurate projections have historically led to lower than expected earnings.

Changes in government regulation could prohibit or limit our operations

Our title insurance, property and casualty insurance, home warranty, thrift, trust and investment businesses are regulated by various governmental agencies. Many of our other businesses operate within statutory guidelines. Changes in the applicable regulatory environment or statutory guidelines could prohibit or restrict our existing or future operations. Such restrictions may adversely affect our financial performance.

Current legal proceedings may have a material adverse affect on our financial condition or results of operations

On May 19, 1999, the State of California and the controller and insurance commissioner of the State of California filed a class action suit in the state court in Sacramento. Initially, the action sought to certify as a class of defendants all title and escrow companies doing business in California from 1970 to the present, including certain of our subsidiaries. The plaintiffs allege that the defendants:

- o failed to give unclaimed property to the State of California on a timely basis;
- o charged California home buyers and other escrow customers fees for services that were never performed or which cost less than the amount charged; and

-1-

- o devised and carried out schemes, known as earnings credits, with financial institutions to receive interest on escrow funds deposited by defendants with financial institutions in demand deposits.

Since the initial filing of the suit, the California Attorney General's Office, on behalf of the State, the controller and the insurance commissioner, indicated that it would not seek to certify a class of defendants, but would instead amend its suit to name an unspecified number of title underwriters and underwritten title companies. To date, the attorney general has neither amended the suit, nor to our knowledge taken steps to progress with it, including the service of process on any party. The attorney general, however, has entered into settlement discussions with various title insurance underwriters, including certain of our subsidiaries. Additionally, the attorney general indicated that it will address issues pertaining to escheat obligations through routine audits conducted by the controller's office, rather than through litigation.

Subsequent to the filing of this lawsuit, the First American Title Insurance Company, a subsidiary of ours, was named and served as a defendant in two private class actions in California courts. The allegations in those actions

## Edgar Filing: FIRST AMERICAN FINANCIAL CORP - Form 424B3

include some, but not all, of the allegations contained in the lawsuit discussed above. The private class actions independently seek injunctive relief, attorneys' fees, damages and penalties in unspecified amounts. One of the private class actions has been dismissed. The remaining private class action has not progressed beyond limited document production.

An adverse decision in these lawsuits may have a material adverse effect on our financial condition or results of operations.

## Edgar Filing: FIRST AMERICAN FINANCIAL CORP - Form 424B3

All consolidated results reflect the 1999 acquisition of National Information Group accounted for under the pooling-of-interests method of accounting.

- (1) In December 1999, First American adopted Staff Accounting Bulletin No. 101 (SAB), "Revenue Recognition in Financial Statements." The SAB, which became effective January 1, 1999, applies to First American's tax service operations and requires the deferral of the tax service fee and the recognition of that fee as revenue ratably over the expected service period. The amortization rates applied to recognize the revenues assume a 10-year contract life and are adjusted to reflect prepayments. First American periodically reviews its tax service contract portfolio to determine if there have been changes in contract lives and/or changes in the number and/or timing of prepayments. Accordingly, First American may adjust the rates to reflect current trends. The SAB finalizes a series of changes instituted by the Securities and Exchange Commission concerning revenue recognition policies. As a result of adopting the SAB, in 1999, First American reported a charge of \$55.6 million, net of income taxes and minority interests, as a cumulative change in accounting principle, reduced net income by \$10.9 million, or \$0.16 per diluted share and restated its quarterly information. During the year ended December 31, 2000, First American recognized \$38.6 million in revenues that were included in the cumulative effect adjustment. Revenues earned by the other products in the real estate information segment are recognized at the time of delivery, as First American has no significant ongoing obligation after delivery.
- (2) Return on average stockholders' equity for 1999 excludes the cumulative effect of a change in accounting for tax service contracts from both net income and stockholders' equity.
- (3) Per share information relating to net income is based on weighted-average number of shares outstanding for the years presented. Per share information relating to stockholders' equity is based on shares outstanding at the end of each year.
- (4) Title order volumes are those processed by the direct title operations of First American and do not include orders processed by agents.
