Champion Industries, Inc. and Subsidiaries**Notes to Consolidated Financial Statements (Unaudited)****April 30, 2004****1. Basis of Presentation and Business Operations**

The foregoing financial information has been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and rules and regulations of the Securities and Exchange Commission for interim financial reporting. The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. In the opinion of management, the financial information reflects all adjustments (consisting of items of a normal recurring nature) necessary for a fair presentation of financial position, results of operations and cash flows in conformity with GAAP. These interim financial statements should be read in conjunction with the consolidated financial statements for the year ended October 31, 2003, and related notes thereto contained in Champion Industries, Inc.'s Form 10-K dated January 26, 2004. The accompanying interim financial information is unaudited. The balance sheet information as of October 31, 2003 was derived from our audited financial statements.

Certain prior-year amounts have been reclassified to conform to the current year Financial Statement presentation.

2. Earnings per Share

Basic earnings per share is computed by dividing net income by the weighted average shares of common stock outstanding for the period and excludes any dilutive effects of stock options. Diluted earnings per share is computed by dividing net income by the weighted average shares of common stock outstanding for the period plus the shares that would be outstanding assuming the exercise of dilutive stock options. The dilutive effect of stock options was 133,000 and 121,000 shares for the three and six months ended April 30, 2004 and 36,000 and 26,000 shares for the three and six months ended April 30, 2003.

3. Inventories

Inventories are principally stated at the lower of first-in, first-out cost or market. Manufactured finished goods and work in process inventories include material, direct labor and overhead based on standard costs, which approximate actual costs. The Company utilizes an estimated gross profit method for determining cost of sales in interim periods.

Inventories consisted of the following:

	April 30, 2004	October 31, 2003
Printing:		
Raw materials	\$ 2,137,549	\$ 2,203,228
Work in process	1,962,131	2,022,420
Finished goods	3,570,476	3,680,184
Office products and office furniture	3,040,180	3,444,097

\$10,710,336

\$11,349,929

Champion Industries, Inc. and Subsidiaries**Notes to Consolidated Financial Statements (Unaudited) (continue)****4. Long-Term Debt**

Long-term debt consisted of the following:

	April 30, 2004	October 31, 2003
Installment notes payable to banks	\$3,408,423	\$2,848,231
Capital lease obligations	255,958	359,027
	3,664,381	3,207,258
Less current portion	910,523	946,971
Long-term debt, net of current portion	\$2,753,858	\$2,260,287

The Company has an unsecured revolving line of credit with a bank for borrowings to a maximum of \$10,000,000 with interest payable monthly at interest rates at LIBOR plus 1% to 1.5%. This line of credit expires in July 2006 and contains certain restrictive financial covenants. There was \$3,014,000 and \$1,705,668 outstanding under this facility at April 30, 2004 and October 31, 2003.

The Company has an unsecured revolving line of credit with a bank for borrowings to a maximum of \$1,000,000 with interest payable monthly at the Wall Street Journal prime rate. The line of credit expires in October 2005 and contains certain financial covenants. There were no borrowings outstanding under this facility at April 30, 2004.

During the second quarter of 2004 the Company financed a previously funded press purchase with a term note for \$1.0 million at the Wall Street Journal prime rate.

The Company's non-cash activities for the six months ended April 30, 2004 and 2003 included vehicle purchases of approximately \$0 and \$96,000, which were financed by a bank and for the six months ended April 30, 2003 the purchase of a building in Baton Rouge, Louisiana of which \$1,440,000 of the purchase price was financed by a bank.

5. Shareholders' Equity

The Company paid a dividend of five cents per share on March 22, 2004 to stockholders of record on March 5, 2004. Also, the Company declared a dividend of five cents per share to be paid on June 21, 2004 to stockholders of record on June 4, 2004.

6. Commitments and Contingencies

On February 16, 2002, a jury verdict was rendered against the Company in a civil action brought against the Company in state court in Jackson, Mississippi.

The plaintiffs in this civil action asserted that the Company and its Dallas Printing Company, Inc. subsidiary had engaged in unfair competition and other wrongful acts in hiring certain of its employees. The jury awarded the plaintiffs \$1,745,000 in actual damages and \$750,000 in punitive damages.

Champion Industries, Inc. and Subsidiaries**Notes to Consolidated Financial Statements (Unaudited) (continued)**

On March 1, 2002, the plaintiffs in the civil action filed a motion for attorney's fees and costs in the amount of \$889,401. On July 16, 2002, the court entered an order granting plaintiff \$645,119 in attorney fees and expenses, and ordered that interest on the amount of the jury award accrue from February 22, 2002.

On July 17, 2002, the Company filed a notice of appeal from the jury verdict. The appeal involves both the jury award and the attorney's fee and expense award. If the Company is not successful on appeal, Mississippi law provides that it is liable for an additional 15% of the total award.

The Company was advised on February 3, 2004 that the Court of Appeals of the State of Mississippi has reversed the aforementioned judgment and jury verdict rendered against the Company and has remanded the case for new trial. As a result of this action plaintiffs had 14 days from February 3, 2004 to petition the appeals court for rehearing of its ruling. The plaintiffs filed their petition for rehearing on February 17, 2004. The Company had 7 days to respond to such a petition and the Company's response was filed on February 24, 2004. Unless the appeals court reverses its order upon petition, the effect of the appeals court is to negate the lower court's award of damages and attorney's fees previously granted against the Company, and grant a new trial on plaintiff's claims. If the appeals court does not reverse its order, plaintiffs may seek an appeal to the Mississippi Supreme Court. Similarly, if the appeals court reverses its order, the Company may seek an appeal to the Mississippi Supreme Court.

The Company has been advised that it has no insurance coverage for this award. If upon final resolution of the appeals process, the verdict is not overturned, the impact on the operating results of the Company could be material.

As of April 30, 2004 the Company had contractual obligations in the form of leases and debt as follows:

Contractual Obligations	Payments Due by Fiscal Year						Residual	Total
	2004	2005	2006	2007	2008			
Non-cancelable operating leases	\$ 546,826	\$ 838,513	\$ 751,053	\$ 555,103	\$399,594	\$ 6,000	\$3,097,089

7. Accounting for Stock-Based Compensation

In December 2002, the FASB issued SFAS No. 148 *Accounting for Stock-Based Compensation Transition and Disclosure*. Statement 148 amends FASB Statement No. 123, *Accounting for Stock-Based Compensation*, to provide alternative methods of transition to Statement 123's fair value method of accounting for stock-based employee compensation.

The Company has elected to follow the intrinsic value method in accounting for its employee stock options. Accordingly, because the exercise price of the Company's employee stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized.

The fair value of these options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions for 2004 and 2003, respectively: risk-free interest rates of 4.03% and 3.97%; dividend yields of 4.21% and 7.22%; volatility factors of the expected market price of the Company's common stock of 54.0% and 46.4%; and a weighted-average expected life of the option of 4 years.

The following pro forma information has been determined as if the Company had accounted for its employee stock options under the fair value method. For purposes of pro forma disclosures, the estimated fair value of the options is expensed in the year granted since the options vest immediately. The Company's pro forma information for the quarters and six months ended April 30 are as follows:

	Three Months Ended April 30		Six Months Ended April 30

Three Months Ended April 30, 2004 Compared to Three Months Ended April 30, 2003

Revenues

Total revenues increased 4.0% in the second quarter of 2004 compared to the same period in 2003 to \$30.5 million from \$29.3 million. Printing revenue increased 1.0% in the second quarter of 2004 to \$24.1 million from \$23.9 million in the second quarter of 2003. Office products and office furniture revenue increased 17.3% in the second quarter of 2004 to \$6.4 million from \$5.4 million in the second quarter of 2003. The revenue increase was primarily attributable to strategic acquisitions completed in the third quarter of 2003 in both segments.

Cost of Sales

Total cost of sales increased 3.7% in the second quarter of 2004 to \$21.6 million from \$20.8 million in the second quarter of 2003. Printing cost of sales in the second quarter of 2004 increased \$207,000 and increased slightly as a percentage of printing sales from 72.3% in 2003 to 72.4% in 2004. Office products and office furniture cost of sales increased 16.0% or

approximately \$569,000 in 2004 to \$4.1 million from \$3.6 million in 2003. The increase in office products and office furniture cost of sales is attributable to the higher sales discussed above. The decrease in office products and office furniture cost of sales as a percent of sales is reflective of reduced costs resulting from an import program, margin enhancements on sales growth and new pricing programs for the calendar year.

Operating Expenses

In the second quarter of 2004, selling, general, and administrative expenses increased on a gross dollar basis to \$8.6 million from \$7.6 million in 2003, an increase of \$1,039,000 or 13.7%. This increase resulted in selling, general and administrative expenses as a percentage of sales increasing to 28.2% in 2004 from 25.8% in 2003.

The increase in selling, general and administrative expenses is primarily due to acquisitions completed in the third quarter of 2003, costs incurred in the consolidation of facilities, higher payroll costs to support sales initiatives and increased professional fees for accounting and legal costs. Selling, general and administrative expenses were favorably impacted during the second quarter of 2003 as a result of a decrease in bad debt expense resulting from a customer in bankruptcy who subsequently paid in full.

Income from Operations and Other Income and Expenses

Income from operations decreased 69.9% in the second quarter of 2004 to \$276,000 from \$919,000 in the second quarter of 2003. This decrease is the result of increased selling, general and administrative expenses partially offset by increased gross profit contributions as discussed above.

Income Taxes

The Company's effective income tax rate was 40.5% for the second quarter of 2004 and 41.8% for the second quarter of 2003. The effective income tax rate approximates the combined federal and state, net of federal benefit, statutory income tax rate.

Net Income

Net income for the second quarter of 2004 was \$161,000 compared to net income of \$517,000 in the second quarter of 2003. Basic and diluted earnings per share for the three months ended April 30, 2004 and 2003 were \$0.02 and \$0.05.

Six Months Ended April 30, 2004 Compared to Six Months Ended April 30, 2003

Revenues

Total revenues increased 3.2% in the first six months of 2004 compared to the same period in 2003 to \$59.8 million from \$57.9 million. Printing revenue increased 1.3% in the six month period ended April 30, 2004 to \$47.1 million from \$46.5 million in the same period in 2003. Office products and office furniture revenue increased 10.9% in the six month period ended April 30, 2004 to \$12.7 million from \$11.4 million in the same period in 2003. The revenues in the printing and office products and office furniture segment increased primarily due to strategic acquisitions completed during the third quarter of 2003 in both segments.

Cost of Sales

Total cost of sales increased 3.4% in the six months ended April 30, 2004 to \$43.0 million from \$41.5 million in the six months ended April 30, 2003. Printing cost of sales increased 2.1% in the six months ended April 30, 2004 to \$34.5 million from \$33.8 million in the six months ended April 30, 2003, due primarily to the increase in printing sales noted above and gross margin compression resulting from increased material and outside purchase costs. Office products and office furniture cost of sales increased 9.4% in the six months ended April 30, 2004 to \$8.5 million from \$7.7 million in the six months ended April 30, 2003 but decreased as a percent of sales from 67.6% in 2003 to 66.7% in 2004. The increase in office products and office furniture cost of sales is attributable to an increase in office products and office furniture sales. The decrease in office products and office furniture cost of sales as a percent of sales is reflective of reduced costs resulting from an import program, margin enhancements on sales growth and new pricing programs for the calendar year, of which four months are included in the six months ended April 30, 2004.

Operating Expenses

During the six months ended April 30, 2004 compared to the same period in 2003, selling, general and administrative expenses increased as a percentage of sales to 27.6% from 25.9%. Total selling, general and administrative expenses increased \$1.5 million. The increase in selling, general and administrative expenses is primarily due to acquisitions completed in the third quarter of 2003, costs incurred in the consolidation of facilities during the second quarter of 2004, higher payroll costs to support sales initiatives and increased professional fees for accounting and legal costs. Selling, general and administrative expenses were favorably impacted during the second quarter of 2003 as a result of a decrease in bad debt expense resulting from a customer in bankruptcy who subsequently paid in full.

Income from Operations and Other Income and Expenses

Income from operations decreased 76.8% in the six month period ended April 30, 2004 to \$321,000 from \$1.4 million in the same period of 2003. This decrease is the result of increased selling, general and administrative expenses partially offset by increased gross profit contributions as discussed above.

Income Taxes

The Company's effective income tax rate was 40.5% for the six months ended April 30, 2004, down from 41.8% in the same period of 2003. The effective income tax rate approximates the combined federal and state, net of federal benefit, statutory income tax rate and is partially impacted by the geographic profitability mix of our operations.

Net Income

Net income for the first six months of 2004 decreased 77.3% to \$175,000 from \$771,000 in the same period of 2003 due to the reasons discussed above. Basic and diluted earnings per share for the six months ended April 30, 2004 and 2003, were \$0.02 and \$0.08.

Inflation and Economic Conditions

Management believes that the effect of inflation on the Company's operations has not been material and will continue to be immaterial for the foreseeable future. The Company does not have long-term sales and purchase contracts; therefore, to the extent permitted by competition, it has the ability to pass through to the customer most cost increases resulting from inflation, if any.

Seasonality

Historically, the Company has experienced a greater portion of its profitability in the second and fourth quarters than in the first and third quarters. The second quarter generally reflects increased orders for printing of corporate annual reports and proxy statements. A post-Labor Day increase in demand for printing services and office products coincides with the Company's fourth quarter.

Liquidity and Capital Resources

Net cash provided by operations for the six months ended April 30, 2004, was \$2.8 million compared to net cash provided by operations of \$2.3 million during the same period in 2003. This change in net cash from operations is due primarily to timing changes in assets and liabilities including a reduction in inventories in 2004 versus a slight increase in 2003 and an increase in cash generated from accounts receivable collections representing \$2.3 million in 2004 compared to \$1.2 million in 2003. These items were partially offset by increases in other current assets compared to decreases in other current assets in 2003, resulting from a deposit refund in 2003 to purchase a fractional ownership in an aircraft from an entity controlled by its Chief Executive Officer in the amount of \$875,000.

Net cash used in investing activities for the six months ended April 30, 2004 was \$3.7 million compared to \$1.8 million during the same period in 2003. The net cash used in investing activities during the first six months of 2004 and 2003 primarily relates to equipment purchases and expenditures for buildings and improvements.

Net cash provided by financing activities for the six months ended April 30, 2004 was \$849,000 compared to net cash used in financing activities of \$898,000 during the same period in 2003. This change is primarily due to \$300,000 in net additional borrowings on the Company's line of credit, an additional \$400,000 of net proceeds from term debt borrowings secured by equipment, and lower principal payments in 2004.

Working capital on April 30, 2004 was \$26.4 million, a decrease of \$567,000 from October 31, 2003. Management believes that working capital and operating ratios remain at acceptable levels.

During the second quarter of 2004, the Company entered into a purchase agreement with an equipment manufacturer for the purchase of a printing press for approximately \$479,000. As a result of this commitment the Company paid this manufacturer a deposit of \$96,000.

The Company expects that the combination of funds available from working capital, borrowings available under the Company's credit facilities and anticipated cash flows from operations will provide sufficient capital resources for the foreseeable future. In the event the Company seeks to accelerate internal growth or make acquisitions beyond these sources, additional financing would be necessary.

Environmental Regulation

The Company is subject to the environmental laws and regulations of the United States, and the states in which it operates, concerning emissions into the air, discharges into the waterways and the generation, handling and disposal of waste materials. The Company's past expenditures relating to environmental compliance have not had a material effect on the Company. These laws and regulations are constantly evolving, and it is impossible to predict accurately the effect they may have upon the capital expenditures, earnings, and competitive position of the Company in the future. Based upon information currently available, management believes that expenditures relating to environmental compliance will not have a material impact on the financial position of the Company.

Special Note Regarding Forward-Looking Statements

Certain statements contained in this Form 10-Q, including without limitation statements including the word believes, anticipates, intends, expects or words of similar import, constitute forward-looking statements within the meaning of section 27A of the Securities Act of 1933, as amended (the Securities Act), and section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements of the Company expressed or implied by such forward-looking statements. Such factors include, among others, general economic conditions, changes in business strategy or development plans, and other factors referenced in this Form 10-Q. Given these uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the results of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

ITEM 3a. Quantitative and Qualitative Disclosure About Market Risk

The Registrant is currently financing primarily with equity capital. Therefore, changes in interest rates do not have a material impact on the Company's Financial Statements.

ITEM 4. Controls and Procedures

Company management, including the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer, has conducted an evaluation of the effectiveness of disclosure controls and procedures pursuant to Exchange Act Rule 13a-15c as of the end of the period covered by this annual report. Based on that evaluation, the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective in ensuring that all material information required to be filed in this annual report has been made known to them in a timely fashion. There were no changes in internal controls over financial reporting during the last fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.
