Edgar Filing: ARMOR HOLDINGS INC - Form 8-K

the Registrant's financial results for the first quarter ended March 31, 2003

Item 9. Regulation FD Disclosure

The information included in this section is intended to be furnished under "Item 12. Disclosure of Results of Operations and Financial Condition" and is included under this Item 9 in accordance with SEC Release No. 33-8216. The information in this Form 8-K and the Exhibit attached hereto shall not be deemed "filed" for purposes of Section 18 of the Securities Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

On May 5, 2003, Armor Holdings, Inc. (the "Registrant") announced financial results for the first quarter ended March 31, 2003. A copy of the press release announcing the Registrant's earnings results for the first quarter ended March 31, 2003 is attached hereto as Exhibit 99.1.

The earnings press release contains financial measures that are not in accordance with generally accepted accounting principles in the United States ("GAAP"). The Registrant has provided reconciliations within the earnings release of the non-GAAP financial measures to the most directly comparable GAAP financial measures. Net income from continuing operations before integration and other non-recurring charges is presented in the earnings release because management believes it to be useful to investors to focus on the Registrant's continuing operations. Integration and other non-recurring charges are significantly influenced by the Registrant's acquisition program, may vary significantly from period to period and may not be indicative of the Registrant's ongoing operating expenses excluding acquisition related expenses. EBITDA is presented in the earnings release because management believes that EBITDA, which represents the Registrant's results from operations before interest, income taxes, and certain non-cash items, including depreciation and amortization, is a common alternative measure of operating performance used by investors and financial analysts to measure value, cash flow and performance. The non-GAAP financial measures described above should be considered in addition to, but not as a substitute for, measures of financial performance prepared in accordance with GAAP that are presented in the earnings release.
