MESA AIR GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Business and Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for a complete set of financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the results for the unaudited three-month periods have been made. Operating results for the three-month period ended December 31, 2000, are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2001. These consolidated financial statements should be read in conjunction with the Company's consolidated financial statements and notes thereto included in the Company's annual report on Form 10K for the fiscal year ended September 30, 2000.

The consolidated financial statements include the accounts of Mesa Air Group, Inc. and its wholly owned subsidiaries, Mesa Airlines, Inc., WestAir Holdings, Inc., Air Midwest, Inc., CCAIR, Inc., Mesa Leasing, Inc., MAGI Insurance, Ltd., Regional Aircraft Services, Inc., the Ritz Hotel Management Corporation and MPD, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

2. New Accounting Standards

Effective October 1, 1999, the Company elected to change its method of accounting for engine and airframe maintenance costs on its CRJ aircraft and engine maintenance on its DeHavilland Dash 8-200 aircraft from the accrual method to the direct expense method. Under the accrual method, maintenance costs were accrued to expense on the basis of estimated future

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

costs and estimated cycles or flight hours between major maintenance events. Implementation of the change necessitated the write-off of previously recorded accrued amounts. Effective October 1, 1999, the Company began expensing these maintenance costs as incurred. The cumulative effect of the change for prior years was a favorable adjustment of \$18.1 million, net of tax. Due to the valuation allowance at October 1, 1999, there is no tax effect related to the cumulative effect of the change.

3. Segment Reporting

The Company has adopted SFAS No. 131, "Disclosures About Segments of an Enterprise and Related Information." The statement requires disclosures related to components of a company for which separate financial information is available that is evaluated regularly by a company's chief operating decision maker in deciding the allocation of resources and assessing performance. The Company is engaged in one line of business, the scheduled and chartered transportation of passengers, which constitutes nearly all of its operating revenues.

4. Marketable Securities

The Company has a cash management program that provides for the investment of excess cash balances primarily in short-term money market instruments, intermediate-term debt instruments and common equity securities of companies operating in the airline industry.

SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," requires that all applicable investments be classified as trading securities, available for sale securities or held to maturity securities. All of the Company's investments are classified as trading securities during the periods presented and accordingly, are carried at market value with changes in value reflected in current period operations.

7

8

From time to time, the Company enters into short positions on common equity securities when management believes that the Company may capitalize on downward moves in particular securities. The Company marks short positions to market at each reporting period with changes in value reflected in current period earnings. Included in marketable securities are liabilities related to short positions on common equity securities of \$7.0 million and \$3.0 million at December 31, 2000 and September 30, 2000, respectively. Unrealized gains and (losses) relating to trading securities held at December 31, 2000 and September 30, 2000 were \$1.4 million and (\$0.5) million, respectively.

9

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

Mesa Air Group, Inc. and its subsidiaries (collectively referred to herein as "Mesa") is an independently owned regional airline serving 142 cities in 36 states, the District of Columbia, Canada and Mexico. Mesa operates a fleet of 131 aircraft and has approximately 1,100 daily departures.

Mesa's airline operations are conducted by three regional airlines utilizing hub-and-spoke systems. Mesa Airlines, Inc. ("MAI"), a wholly owned subsidiary of

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

Mesa, operates as America West Express under a code sharing agreement with America West Airlines, Inc. ("America West") and as USAirways Express under code-sharing agreements with USAirways, Inc. ("USAirways") and also operates an independent division, Mesa Airlines, from a hub in Albuquerque, New Mexico. Air Midwest, Inc., a wholly owned subsidiary of Mesa, also operates under a code-sharing agreement with USAirways and flies as USAirways Express. CCAIR, Inc. ("CCAIR"), a wholly owned subsidiary of Mesa, which was acquired during 1999, operates under a code-share agreement with USAirways that permits CCAIR to operate under the name USAirways Express and to charge their joint passengers on a combined basis with USAirways.

Approximately 96% of Mesa's consolidated revenues for the quarter ended December 31, 2000, were derived from operations associated with code-sharing agreements with America West and USAirways. All of MAI's America West Express operations and USAirways Express jet operations are on a fee per departure basis. For the quarter ended December 31, 2000, approximately 61% of Mesa's airline revenues were derived from fee per departure contractual arrangements. The percentage of revenue generated under fee per departure agreements is expected to increase in the future as Mesa adds additional regional jets to its America West Express and USAirways Express operations. The Company's code-sharing agreement with America West expires in 2007. The Company's code-sharing agreements with USAirways expire on various dates from 2003 through 2005, with the regional jet agreement expiring in 2008. Mesa derives the remainder of its passenger revenues from a combination of local fares, through fares and joint fares.

During fiscal 2001 several significant events have occurred:

In October 2000, the Company and US Airways amended the US Airways regional jet service agreement to expand the number of regional jets under contract from 28 to 32 and extend the term to 2008. The Company and US Airways also amended prorate agreements covering Kansas City, Pittsburgh, and Philadelphia, New Orleans, and Tampa/Orlando. The Kansas City agreement was extended from 2000 to 2005 and amended to eliminate the ability of either party to terminate the agreement without cause and permit the Company to add additional code share partners in Kansas City. The other four prorate agreements were extended by one year over their previous expiration dates.

In November 2000, the Company and America West amended their Contract Agreement to expand the number of regional jets operated from 17 to 22 and extend the term of the agreement for regional jets from 2004 to 2007.

In November 2000, the Company entered into a non-binding letter of intent with Midwest Express Airlines, Inc. ("Midwest Express") to add the Midwest Express code to the Company's operations in Kansas City. The anticipated start date for the arrangement is the second quarter of fiscal 2001. The agreement will cover 13 cities already served by ten Beechcraft 1900D aircraft out of Kansas City.

In December 2000, the Company reached agreement with Fleet Capital for a \$35 million line of credit, collateralized by the Company's inventory and receivables. The agreement, which expires in December 2003, has provisions that allow the expansion of available credit to \$50 million by adding new lenders. The Company will use the facility for general working capital purposes.

10

11

RESULTS OF OPERATIONS

Operating Revenues:

Operating revenues increased by \$20.6 million (18.6 %) for the quarter ended December 31, 2000 as compared to the quarter ended December 31, 1999. This increase was primarily due to the increase in capacity, as measured by available seat miles ("ASM's"), in the Mesa system. ASM's increased by 12.7% for the quarter ended December 31, 2000 over the same period in 1999. The increase in ASM's was a result of the number of regional jets added to the fleet, which have additional seats and fly longer stage lengths. Passenger traffic measured by revenue passenger miles ("RPM's"), representing one passenger carried one mile, increased by 21.5%. Passenger load factor increased from 51.5% to 55.5%, yield (passenger revenue per RPM) decreased by 0.7 cents to 29.2 cents in the first

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

quarter of 2001. The airline industry has a history of fare and traffic volatility. The regional jet aircraft, which are generally faster and flown over a longer stage length than the turboprop aircraft, typically generate lower revenue and cost per ASM. Because Mesa expects to operate increasing number of regional jet aircraft in the future, overall revenue per ASM and cost per ASM are expected to decrease in the future.

Operating Expenses

Flight Operations

Flight operations expense increased by 32.8% to \$66.7 million (8.21 cents per ASM) for the quarter ended December 31, 2000, from \$50.3 million (6.97 cents per ASM) from the comparable period in 2000 primarily due to an increase in capacity (ASM's) and higher fuel costs.

Maintenance Expense

Maintenance expense increased by 27.1% to \$24.1 million (2.97 cents per ASM) for the quarter ended December 31, 2000, from \$19.0 million (2.63 cents per ASM) for the comparable period in 1999. Increased maintenance costs are primarily the result of an increase in available capacity, which drives maintenance events.

Aircraft and Traffic Service Expense

Aircraft and traffic servicing costs increased by 4.4% to \$13.8 million (1.70 cents per ASM) for the quarter ended December 31, 2000 from \$13.2 million (1.83 cents per ASM) during the comparable quarter of the previous fiscal year. This change is also a result of an increase in flying activity.

Promotion and Sales

Promotion and sales expense decreased 15.3% to \$7.0 million (0.86 cents per ASM) for the quarter ended December 31, 2000 from \$8.2 million (1.14 cents per ASM) from the prior year's comparable quarter. Mesa's contract with America West and our Jet Contract with USAirways eliminates booking fees and travel agency commissions being charged directly to Mesa and as such, these costs per ASM are expected to decline as the America West Express operation grows.

General and Administrative Expense

General and administrative expenses of \$6.5 million were relatively the same as prior year (0.81 cents per ASM and 0.90 cents per ASM for the quarters ended December 31, 2000 and 1999, respectively). The decrease on an ASM basis is due to increased capacity (ASM's) without a corresponding increase in general and administrative expenses.

11

12

Depreciation and Amortization

Depreciation and amortization decreased by 19.2% to \$3.8 million (0.46 cents per ASM) for the quarter ended December 31, 2000 as compared to \$4.7 million (0.65 cents per ASM) for the quarter ended December 31, 1999. The decrease is primarily due to the disposal of Beech 1900 aircraft in the fourth quarter of Fiscal 2000.

Non-Operating Items

For the quarter ended December 31, 2000, Mesa recognized \$3.1 million in investment related gains.

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

LIQUIDITY AND CAPITAL RESOURCES

Mesa's cash and cash equivalents and marketable securities as of December 31, 2000 totaled \$27.0 million. Mesa's net cash flow from operations totaled approximately \$9.6 million during the three months ended December 31, 2000. Mesa's cash and cash equivalents and marketable securities are intended to be used for working capital, capital expenditures and acquisitions. In addition, the Company has a \$35 million line of credit facility with Fleet Capital. There were no amounts outstanding on the line as of December 31, 2000.

Mesa had receivables of approximately \$38.3 million at December 31, 2000, which consisted primarily of amounts due from code-sharing partners America West and USAirways and passenger ticket receivables due through the Airline Clearing House. Under the terms of the USAirways agreement, Mesa receives a substantial portion of its revenues through the clearing house. Historically, Mesa has generated adequate cash flow to meet its needs.

In October 1999, Mesa settled various disputed claims it had against BRAD regarding Bombardier's obligation to accept trade-in Brasilia aircraft and the availability of 16 additional rolling option CRJs. Under this settlement, Mesa is to receive \$9 million (\$8.5 million cash, \$.5 million credit), \$7.1 million of which has been received to date, the remainder of which was received subsequent to the end of the quarter.

Management's belief that Mesa will have adequate cash flow to meet its operating needs is a forward-looking statement. Actual cash flow could materially differ from this forward looking statement as a result of many factors, including the termination of one or more code-sharing agreements; failure to sell, dispose, or redeploy excess aircraft in a timely manner; a substantial decrease in the number of routes allocated to MAI under its code-sharing agreements with USAirways; reduced levels of passenger revenue, additional taxes or costs of compliance with governmental regulations; fuel cost increases; increases in competition; increases in interest rates and general economic conditions. Mesa has minimal market risk with respect to market risk instruments such as foreign currency exchange risk and commodity price risk. Mesa is subject to interest rate risk with respect to current and future aircraft financing.

In December 1999, the Company's Board of Directors authorized the Company to repurchase up to 10%, approximately 3.4 million shares, of the outstanding shares of its Common Stock. In January 2001, the Board approved the repurchase by the Company of up to an additional one million shares of its Common Stock. As of February 6, 2001, the Company has acquired approximately 2.5 million shares of Common Stock for approximately \$13.6 million leaving approximately 1.9 million shares available for repurchase under the current Board authorizations.

12

13

AIRCRAFT

The following table lists the aircraft owned and leased by Mesa for scheduled operations as of December 31, 2000:

Type of Aircraft -----	Owned -----	Leased -----	Total -----	Operating on December 31, 2000 -----	Passenger Capacity -----

	-----	-----	-----	-----	
	51	97	148	131	

PENDING DEVELOPMENTS

ERJ Program

In January 2000, Mesa entered into an agreement with Empresa Brasileira de Aeronautica SA ("Embraer") to acquire 36 50-passenger Embraer ERJ-145 regional jets. Deliveries began late in the third quarter of fiscal 2000 and will continue through late fiscal 2002. Mesa also has options for an additional 64 aircraft with the right to convert deliveries into 37-seat ERJ 135's. Mesa introduced the ERJ-145 aircraft into revenue service early in the third quarter of fiscal 2000 as USAirways Express. Mesa intends to move the CRJ regional jets currently flying as USAirways Express to America West Express and replace them with the ERJ-145's as deliveries take place. As of February 8, 2001, the Company has taken delivery of 12 of these aircraft, which have been financed as operating leases. In conjunction with this purchase agreement, Mesa has placed an \$11.8 million deposit with Embraer, which is included with lease and equipment deposits.

CRJ Program

In August 1996, the Company entered into an agreement with Bombardier Regional Aircraft Division ("BRAD") to acquire 16 CRJ 50-passenger jet aircraft. The agreement also granted the Company an option to acquire an additional 16 jet aircraft and provided for additional rolling options to acquire a third block of 16 aircraft. In fiscal 1997, the Company exercised options to purchase 16 of the 32 CRJ aircraft reserved under the option provisions of the BRAD purchase agreement. In connection with the 32 CRJ aircraft, all are currently under permanent financing as operating leases with terms of 16-1/2 to 18-1/2 years.

Beechcraft 1900D

During fiscal 1999, the Company announced its intention to dispose of 30 excess B1900 aircraft. As of September 30, 2000, the Company had disposed of 17 of such aircraft, and is actively seeking proposals for the disposition of the remaining 13 B1900 aircraft. Under an agreement with Raytheon Aircraft Corporation, the Company has the right to sell to Raytheon six B1900 aircraft in October 2001 and five B1900 aircraft in October 2002.

This form 10-Q filing, and particularly this Pending Developments section, contains certain statements including, but not limited to, information regarding the replacement, deployment and acquisition of certain

numbers and types of aircraft, and projected expenses associated therewith; costs of compliance with FAA regulations and other rules and acts of Congress; the passing of taxes, fuel costs, inflation, and various expenses to the consumer; the relocation of certain operations of Mesa; the resolution of litigation in a favorable manner, and certain projected financial obligations. These statements, in addition to statements made in conjunction with the words

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

"expect," "anticipate," "intend," "plan," "believe," "seek," "estimate," and similar expressions, are forward-looking statements within the meaning of the Safe Harbor provision of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to future events or the future financial performance of Mesa and only reflect Management's expectations and estimates. The following is a list of factors, among others, that could cause actual results to differ materially from the forward-looking statements: changing business conditions in certain market segments and industries; an increase in competition along the routes Mesa operates or plans to operate; material delays in completion by the manufacturer of the ordered and yet-to-be-delivered aircraft; changes in general economic conditions; changes in fuel prices; changes in regional economic conditions; Mesa's relationship with employees and the terms of future collective bargaining agreements; the impact of current and future laws, Congressional investigations and governmental regulations affecting the airline industry and Mesa's operations; bureaucratic delays; amendments to existing legislation; consumers unwilling to incur greater costs for flights; unfavorable resolution of negotiations with municipalities for the leasing of facilities; and risks associated with litigation outcomes. One or more of these or other factors may cause Mesa's actual results to differ materially from any forward-looking statement. Mesa is not undertaking any obligation to update any forward-looking statements contained in this Form 10-Q.

14

15

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Mesa is a party to legal proceedings and claims, which arise in the ordinary course of business.

Although the ultimate outcome of these pending lawsuits cannot be determined at this time, Mesa believes, based upon currently available information, that the ultimate outcome of all the proceedings and claims pending against Mesa is not expected to have a material adverse effect on Mesa's consolidated financial position. Mesa's belief regarding the outcome of all pending proceedings and claims is a forward-looking statement.

Item 2. Changes in Securities and Use of Proceeds

Not applicable

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes in the Company's market risk since September 30, 2000.

Item 4. Submission of Matters to vote for Security Holders

Not applicable

Item 5. Other Matters

Not applicable

Item 6. Exhibits and Reports on Form 8-K

(A) Exhibits:

Edgar Filing: MESA AIR GROUP INC - Form 10-Q

(10.1) Amendment to the Employment Agreement dated as of March 22, 2000 between Mesa Air Group, Inc. and you Jonathan Ornstein

(10.2) Amendment to the Employment Agreement dated as of March 22, 2000 between Mesa Air Group, Inc. and Michael J. Lotz

(B) Reports on form 8-K

The Company filed a report on Form 8-K dated October 16, 2000 disclosing a definitive agreement with Raytheon Aircraft Company and Raytheon Aircraft Credit Corporation for the sale of sixteen Beechcraft 1900D aircraft to Raytheon on September 29, 2000. No financial statements were filed as a part of the report.

The Company filed a report on Form 8-K dated November 2, 2000 regarding its position in Mesaba Holdings on November 1, 2000. No financial statements were filed as a part of the report.
