PROPOSAL

RECAPITALIZATION OF THE ISSUED AND OUTSTANDING SHARES OF COMMON STOCK THROUGH A REVERSE SPLIT; CHANGE IN THE NAME OF THE COMPANY; INCREASE IN AUTHORIZED.

1. Reverse Split of the Common Stock.

Edgar Filing: SICLONE INDUSTRIES INC - Form DEF 14C

The Company currently has little or no public market for its common stock. Based upon current market conditions and limited brokerage firm interest in low priced securities, the Board of Directors has determined that it is in the Company's and the shareholders' best interest to effectuate a reverse split on a

basis of up to 136 to 1. The recapitalization will reduce on a 136 to 1 basis the issued and outstanding shares of the Company's common stock, par value \$.001 per share, through a reverse split or consolidation, so that shareholders will receive one (1) share of Common Stock for every one hundred thirty-six (136) shares of Common Stock now held by the shareholder.

In an effort to preserve shareholders in "round lots", which is of benefit to the shareholders and the Company, no certificate below one hundred shares will be reversed and no certificate greater than one hundred shares will be reversed below one hundred shares. No fractional shares will be issued in connection with such recapitalization and only fractional shares will be rounded up to the nearest whole number. This transaction is not intended to be a "going private" transaction.

The rights of existing shareholders will not be altered and no shareholder will be eliminated as a result of the reverse split.

The Company cannot predict the effect of any reverse stock split upon the market price over an extended period and, in many cases the market value of a company's common stock following a reverse split declines. The Company cannot assure you that the trading price of the common stock after the reverse stock split will rise in inverse proportion to the reduction in the number of shares of the common stock outstanding as a result of the reverse stock split. Also, the Company cannot assure you that a reverse stock split would lead to a sustained increase in the trading price of our common stock. The trading price of our common stock may change due to a variety of other factors, most proximately our lack of profitability or business.

The following table represents the number of common shares after the reverse stock split that will be:

(I) Issued and Outstanding	(ii) Authorized and reserved for issuance	(iii) Authorizedbut unreserved result of the adoption of t reverse stock split (total un
175,074	0	99,824,926

The Company currently has no definitive plans to issue the authorized but unissued shares available due to the reverse split.

2. Change in the Name of the Company.

Shareholders holding a majority of the Company's common stock have consented to give the Board of Directors authority to change the name of the

Edgar Filing: SICLONE INDUSTRIES INC - Form DEF 14C

Company to be determined at a later date.

3. Change in the Authorized Shares of Common Stock.

Shareholders holding a majority of the Company's common stock have consented increase the authorized shares of the Company's Common Stock from 30,000,000 to 100,000,000.

Share information.

As of the Record Date there were approximately 23,810,000 shares of common stock outstanding. Each outstanding share of Common Stock is entitled to one vote.

In order to effectuate the reverse split, each shareholder will be entitled to submit his or her old stock certificate (any certificate issued prior to the effective date of the Recapitalization and name change), to the Company's transfer agent, OTC Stock Transfer Company, 231 East 2100 South, Salt Lake City, Utah 84115,

and be issued in exchange therefor, one new certificate in the new name of the Company representing the Common Stock on a 136 for 1 basis, rounded up to the nearest whole share. The Company shall pay the cost of such issuance, if presented to OTC Stock Transfer Company, within 60 days of July13, 2007. After 60 days from the effective date, all exchange requests must be accompanied by a check payable to OTC Stock Transfer Company in the amount of \$20 per certificate to be issued. The Company will not pay for any additional certificates requested or for the transfer of certificates into names other than those in which the certificates are in presently. To eliminate confusion regarding the Common Stock, the Board of Directors urges the shareholders to surrender their certificates for exchange; however, shareholders are not required to do so.

Changes in Control.

The Company is currently seeking business opportunities to acquire or merge with. The Company has investigated several opportunities, but has not entered into a definitive agreement to date. Changes in the composition of the Board of Directors, as well as changes in controlling ownership of the Company's voting stock, could be possible, if not likely, in the future as the Company seeks business venture acquisitions or mergers. In the event of an acquisition or merger, the shareholders have previously authorized the Company to change its name to a name to be determined at a later date by the Board of Directors.

Vote Required for Approval

Approval of the proposed above action requires a majority vote of the shareholders of shares as of the Record Date. Because shareholders holding a majority of the shares are in favor of the proposed actions, proxies are not being solicited in this matter and the corporate action will be approved by written shareholder consent.

Pursuant to Section 14(a) of the Securities Exchange Act of 1934, no other corporate events are taking place to be voted on.

Recommendation of the Board of Directors

Edgar Filing: SICLONE INDUSTRIES INC - Form DEF 14C

The Board of Directors of the Company unanimously recommended a vote "FOR" the approval of the reverse split reducing the issued and outstanding shares.
