THE MACERICH COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

1. Organization:

The Macerich Company (the "Company") is involved in the acquisition, ownership, development, redevelopment, management and leasing of regional and community shopping centers (the "Centers") located throughout the United States.

The Company commenced operations effective with the completion of its initial public offering on March 16, 1994. As of March 31, 2009, the Company was the sole general partner of and held an 87% ownership interest in The Macerich Partnership, L.P. (the "Operating Partnership"). The interests in the Operating Partnership are known as OP Units. OP Units not held by the Company are redeemable, at the election of the holder, and the Company may redeem them on a one-for-one basis for the Company's stock or cash at the Company's option.

The Company was organized to qualify as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended. The 13% limited partnership interest of the Operating Partnership not owned by the Company is reflected in these consolidated financial statements as noncontrolling interests in permanent equity.

The property management, leasing and redevelopment of the Company's portfolio is provided by the Company's management companies, Macerich Property Management Company, LLC ("MPMC, LLC"), a single member Delaware limited liability company, Macerich Management Company ("MMC"), a California corporation, Westcor Partners, L.L.C., a single member Arizona limited liability company, Macerich Westcor Management LLC, a single member Delaware limited liability company, Westcor Partners of Colorado, LLC, a Colorado limited liability company, MACW Mall Management, Inc., a New York corporation, and MACW Property Management, LLC, a single member New York limited liability company. These last two management companies are collectively referred to herein as the "Wilmore Management Companies." The three Westcor management companies are collectively referred to herein as the "Westcor Management Companies." All seven of the management companies are collectively referred to herein as the "Management Companies."

2. Summary of Significant Accounting Policies:

Basis of Presentation:

The accompanying consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements and have not been audited by independent public accountants.

The accompanying consolidated financial statements include the accounts of the Company and the Operating Partnership. Investments in entities that are controlled by the Company or meet the definition of a variable interest entity in which an enterprise absorbs the majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity are consolidated; otherwise they are accounted for under the equity method and are reflected as "Investments in unconsolidated joint ventures."

(Unaudited)

2. Summary of Significant Accounting Policies: (Continued)

The Company allocates net income to the Operating Partnership based on the weighted average ownership interest during the period. The net income of the Operating Partnership that is attributable to outside third parties is reflected in the consolidated statements of operations as noncontrolling interests. The Company adjusts the noncontrolling interests in the Operating Partnership at the end of each period to reflect its ownership interest in the Company. The Company had an 87% ownership interest in the Operating Partnership as of March 31, 2009 and December 31, 2008. The remaining 13% limited partnership interest as of March 31, 2009 and December 31, 2008 was owned by certain of the Company's executive officers and directors, certain of their affiliates, and other third party investors in the form of OP Units. The OP Units may be redeemed on a one-for-one basis for common shares or cash, at the Company's option. The redemption value for each OP Unit as of any balance sheet date is the amount equal to the average of the closing price per share of the Company's common stock, par value \$.01 per share, as reported on the New York Stock Exchange for the ten trading days ending on the respective balance sheet date. Accordingly, as of March 31, 2009 and December 31, 2008, the aggregate redemption value of the then-outstanding OP Units not owned by the Company was \$79,857 and \$227,091, respectively.

The unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the consolidated financial statements for the interim periods have been made. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The accompanying consolidated balance sheet as of December 31, 2008 has been derived from the audited financial statements, but does not include all disclosures required by GAAP.

All intercompany accounts and transactions have been eliminated in the consolidated financial statements.

Cash and Cash Equivalents and Restricted Cash:

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents, for which cost approximates fair value. Restricted cash includes impounds of property taxes and other capital reserves required under the loan agreements.

Tenant and Other Receivables, net:

Included in tenant and other receivables, net is an allowance for doubtful accounts of \$5,076 and \$3,754 at March 31, 2009 and December 31, 2008, respectively.

THE MACERICH COMPANY

(Dollars in thousands, except per share amounts)

(Unaudited)

2. Summary of Significant Accounting Policies: (Continued)

Included in tenant and other receivables, net are the following notes receivable:

On March 31, 2006, the Company received a note receivable that is secured by a deed of trust, bears interest at 5.5% and matures on March 31, 2031. At March 31, 2009 and December 31, 2008, the note had a balance of \$9,394 and \$9,450, respectively.

On January 1, 2008, as part of the Rochester Redemption (See Note 13 Discontinued Operations), the Company received an unsecured note receivable that bears interest at 9.0% and matures on June 30, 2011. The balance on the note at March 31, 2009 and December 31, 2008 was \$11,763.

Recent Accounting Pronouncements:

In September 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. In February 2008, the FASB issued FASB Staff Position ("FSP") SFAS 157-1, "Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13" ("FSP SFAS 157-1") and FSP SFAS 157-2, "Effective Date of SFAS No. 157" ("FSP SFAS 157-2"). FSP SFAS 157-1 amends SFAS No. 157 to exclude from the scope of SFAS No. 157 certain leasing transactions accounted for under SFAS No. 13, "Accounting for Leases." The adoption of FSP SFAS 157-1, effective January 1, 2008, did not have a material impact on the Company's consolidated financial statements. FSP SFAS 157-2 amended SFAS No. 157 to defer the effective date of SFAS No. 157 for all non-financial assets and non-financial liabilities except those that are recognized or disclosed at fair value in the financial statements on a recurring basis to fiscal years beginning after November 15, 2008. The Company adopted FSP SFAS 157-2 effective January 1, 2008. In addition, in October 2008, the FASB issued FSP SFAS 157-3, "Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active" ("FSP SFAS 157-3") effective upon issuance. FSP SFAS 157-3 clarified the application of SFAS No. 157 to financial instruments in an inactive market. FSP SFAS 157-3 did not have a material impact on the Company's consolidated financial statements. In April 2009, the FASB issued FSP SFAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" ("FSP SFAS 157-4"), which relates to determining fair values when there is no active market or where the price inputs being used represent distressed sales. FSP SFAS 157-4 reaffirmed the need to use judgment to ascertain if a formerly active market has become inactive and in determining fair values when markets have become inactive. FSP SFAS 157-4 will be effective for interim and annual periods after June 15, 2009, and will be applied prospectively. Early adoption is permitted for periods ending after March 15, 2009. The early adoption of FSP SFAS 157-4 on January 1, 2009 did not have a material impact on the Company's consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141(R), "Business Combinations." SFAS No. 141(R) requires an acquiring entity to recognize acquired assets and assumed liabilities in a transaction at fair value as of the acquisition date and changes the accounting treatment for certain items, including acquisition costs, which will be required to be expensed as incurred. 2. Summary of Significant Accounting Policies: (Continued)

SFAS No. 141(R) on January 1, 2009 did not have a material impact on the Company's consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51." SFAS No. 160 requires that noncontrolling interests be presented as a component of consolidated equity and eliminates "minority interest accounting" such that the amount of net income attributable to the noncontrolling interests will be presented as part of consolidated net income on the consolidated statements of operations. The Company adopted SFAS No. 160 on January 1, 2009. See Note 18 - Cumulative Effect of Adoption of Accounting Principles for a summary of the impact of the adoption of SFAS No. 160 on the Company's consolidated financial statements.

In March 2008, FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133." SFAS No. 161 amends and expands the disclosure requirements of SFAS No. 133. SFAS No. 161 requires qualitative disclosures about objectives and strategies for using derivatives and quantitative disclosures about the fair value of and gains and losses on derivative instruments. The Company adopted SFAS No. 161 on January 1, 2009. See Note 5 - Derivative Instruments and Hedging Activities for disclosures in accordance with SFAS No. 161.

In May 2008, the FASB issued FSP APB 14-1, "Accounting for Convertible Debt Instruments That May Be Settled Upon Conversion (Including Partial Cash Settlement)" ("FSP APB 14-1"). This new standard requires the initial proceeds from convertible debt that may be settled in cash to be bifurcated between a liability component and an equity component. The objective of the guidance is to require the liability and equity components of convertible debt to be separately accounted for in a manner such that the interest expense recorded on the convertible debt would not equal the contractual rate of interest on the convertible debt, but instead would be recorded at a rate that would reflect the issuer's conventional non-convertible debt borrowing rate at the date of issuance. This is accomplished through the creation of a discount on the debt that would be accreted using the effective interest method as additional non-cash interest expense over the period the debt is expected to remain outstanding. The Company adopted FSP APB 14-1 on January 1, 2009. See Note 18 - Cumulative Effect of Adoption of Accounting Principles for a summary of the impact of the adoption of FSP APB 14-1 on the Company's consolidated financial statements.

In June 2008, the FASB issued FSP EITF No. 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities." The adoption of FSP EITF No. 03-6-1 on January 1, 2009 did not have a material impact on the Company's consolidated financial statements.

In June 2008, the FASB ratified EITF No. 07-5, "Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity's Own Stock." Paragraph 11(a) of SFAS No. 133, Accounting for Derivatives and Hedging Activities, specifies that a contract that would otherwise meet the definition of a derivative but is both (a) indexed to the Company's own stock and (b) classified in stockholders' equity in the statement of financial position would not be considered a derivative financial instrument. EITF No. 07-5 provided a new two-step model to be applied in determining whether a financial instrument or an embedded feature is indexed to an issuer's own stock and thus able to

qualify for the SFAS No. 133 paragraph 11(a) scope exception. The adoption of EITF No. 07-5 on January 1, 2009 did not have an impact on the Company's consolidated financial statements.

In April 2009, the FASB issued FSP SFAS 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments," which relates to fair value disclosures for any financial instruments that are not currently reflected on the balance sheet at fair value. FSP SFAS 107-1 and APB 28-1 requires disclosures on a quarterly basis that provide qualitative and quantitative information about fair value estimates for all those financial instruments not measured on the balance sheet at fair value. FSP SFAS 107-1 and APB 28-1 will be effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The Company adopted FSP SFAS 107-1 and APB 28-1 on January 1, 2009 and has provided these disclosures in Note 9 Mortgage Notes Payable and Note 10 Bank and Other Notes Payable.

In April 2009, the FASB issued FSP SFAS 115-2 and SFAS 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments." FSP SFAS 115-2 and SFAS 124-2 is intended to bring greater consistency to the timing of impairment recognition and provide greater clarity to investors about the credit and noncredit components of impaired debt securities that are not expected to be sold. It also requires increased and more timely disclosures regarding expected cash flows, credit losses, and an aging of securities with unrealized losses. FSP SFAS 115-2 and SFAS 124-2 will be effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The early adoption of FSP SFAS 115-2 and SFAS 124-2 on January 1, 2009, did not have a significant impact on the Company's consolidated financial statements.

3. Earnings per Share ("EPS"):

The computation of basic earnings per share is calculated by dividing (i) net income available to common stockholders less an allocation to participating securities pursuant to the two-class method by (ii) the weighted average number of common vested shares outstanding for the three months ended March 31, 2009 and 2008. The computation of diluted earnings per share includes the dilutive effect of share and unit-based compensation plans and convertible senior notes calculated using the treasury stock method and the dilutive effect of all other dilutive securities calculated using the "if converted" method. The OP Units and common units of MACWH, LP, a Delaware limited partnership and subsidiary of the Company ("MACWH, LP"), not held by the Company have been included in the diluted EPS calculation since they may be redeemed on a one-for-one basis for stock or cash, at the Company's option.

4. Investments in Unconsolidated Joint Ventures: (Continued)

The Company generally accounts for its investments in joint ventures using the equity method unless the Company has a controlling interest in the joint venture or is the primary beneficiary in a variable interest entity. Although the Company has a greater than 50% interest in Pacific Premier Retail Trust, Camelback Colonnade SPE LLC and Corte Madera Village, LLC, the Company shares management control with the partners in these joint ventures and therefore, accounts for these joint ventures using the equity method of accounting.

The Company has recently made the following investments and dispositions in unconsolidated joint ventures:

On January 10, 2008, the Company, in a 50/50 joint venture, acquired The Shops at North Bridge, a 680,933 square foot urban shopping center in Chicago, Illinois, for a total purchase price of \$515,000. The Company's share of the purchase price was funded by the assumption of a pro rata share of the \$205,000 fixed rate mortgage on the Center and by borrowings under the Company's line of credit. The results of The Shops at North Bridge are included below for the period subsequent to its date of acquisition.

On June 11, 2008, the Company became a 50% owner in a joint venture that acquired One Scottsdale, which plans to develop a luxury retail and mixed-use property in Scottsdale, Arizona. The Company's share of the purchase price was \$52,500, which was funded by borrowings under the Company's line of credit. The results of One Scottsdale are included below for the period subsequent to its date of acquisition.

On December 19, 2008, the Company sold a fee and/or ground leasehold interest in three freestanding Mervyn's department stores to Pacific Premier Retail Trust, one of the Company's joint ventures, for \$43,405, resulting in a gain on sale of assets of \$1,511. The Company's pro rata share of the proceeds were used to pay down the Company's line of credit. See Mervyn's in Note 12 Acquisitions and Note 13 Discontinued Operations.

Combined and condensed balance sheets and statements of operations are presented below for all unconsolidated joint ventures.

December 31, 2008, a total of \$17,099 and \$16,898, respectively, could become recourse debt to the Company.

Included in mortgage notes payable are amounts due to affiliates of Northwestern Mutual Life ("NML") of \$209,494 and \$211,098 as of March 31, 2009 and December 31, 2008, respectively. NML is considered a related party because it is a joint venture partner with the Company in Macerich Northwestern Associates. Interest expense incurred on these borrowings amounted to \$3,298 and \$2,105 for the three months ended March 31, 2009 and 2008, respectively.

- (3) This represents the difference between the cost of an investment and the book value of the underlying equity of the joint venture. The Company is amortizing this difference into income on a straight-line basis, consistent with the lives of the underlying assets. The amortization of this difference was \$3,864 and \$2,489 for the three months ended March 31, 2009 and 2008, respectively.

5. Derivative Instruments and Hedging Activities:

The Company recognizes all derivatives in the consolidated financial statements and measures the derivatives at fair value. The Company uses derivative financial instruments in the normal course of business to manage or reduce its exposure to adverse fluctuations in interest rates. The Company designs its hedges to be effective in reducing the risk exposure that they are designated to hedge. Any instrument that meets the cash flow hedging criteria in SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," is formally designated as a cash flow hedge at the inception of the derivative contract. On an ongoing quarterly basis, the Company adjusts its balance sheet to reflect the current fair value of its derivatives. To the extent they are effective, changes in fair value of derivatives are recorded in comprehensive income. Ineffective portions, if any, are included in net income. No ineffectiveness was recorded in net income during the three months ended March 31, 2009 or 2008. If any derivative instrument used for risk management does not meet the hedging criteria, it is marked-to-market each period in the consolidated statements of operations. As of March 31, 2009, two of the Company's derivative instruments were not designated as cash flow hedges. As of March 31, 2009, the Company's derivative instruments did not contain any credit risk related contingent features or collateral arrangements. Changes in the market value of these derivative instruments are recorded in the consolidated statements of operations.

The Company reclassified \$241 for the three months ended March 31, 2008 related to treasury rate lock transactions settled in prior years from accumulated other comprehensive income to earnings.

Interest rate swap and cap agreements are purchased by the Company from third parties to manage the risk of interest rate changes on some of the Company's floating rate debt. Amounts (paid) received as a result of these agreements are recorded as an addition (reduction) of interest expense. The Company recorded other comprehensive income (loss) of \$32,990 and (\$23,857) related to the marking-to-market of interest rate swap and cap agreements for the three months ended March 31, 2009 and 2008, respectively. The amount expected to be reclassified to interest expense in the next 12 months is immaterial.

The following derivatives were outstanding at March 31, 2009:

Property/Entity	Notional Amount	Product	Rate	Maturity	Fair Value
La Cumbre Plaza(1)(2)	30,000	Cap	7.12%	8/9/2009	
Panorama Mall(1)(2)	50,000	Cap	6.65%	3/1/2010

The fair values of interest rate swap and cap agreements are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates fell below or rose above the strike rate of the interest rate swap and cap agreements. The variable interest rates used in the calculation of projected receipts on the interest rate swap and cap agreements are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. To comply with the provisions of SFAS No. 157, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of March 31, 2009, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

Future contractual maturities of marketable securities at March 31, 2009 are as follows:

1 year or less	\$ 1,283
2 to 5 years	4,155
6 to 10 years	23,670
	\$29,108

The proceeds from maturities and interest receipts from the marketable securities are restricted to the service of the \$26,865 note on which the Company remains obligated following the sale of Greeley Mall in July 2006 (See Note 10 Bank and Other Notes Payable).

The Company accounts for its investments in marketable securities as held-to-maturity debt securities under the provisions of SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," as the Company has the intent and the ability to hold these securities until maturity. Accordingly, investments in marketable securities are carried at their amortized cost. The discount on marketable securities is amortized into interest income on a straight-line basis over the term of the notes, which approximates the effective interest method.

- (a) The mortgage notes payable balances include the unamortized debt premiums (discounts). Debt premiums (discounts) represent the excess (deficiency) of the fair value of debt over (under) the principal value of debt assumed in various acquisitions and are amortized into interest expense over the remaining term of the related debt in a manner that approximates the effective interest method. The interest rate disclosed represents the effective interest rate, including the debt premium (discounts) and deferred finance cost.

- (b) This represents the monthly payment of principal and interest.
- (c) The construction loan on the property provides for total borrowings of up to \$101,000, bears interest at LIBOR plus a spread of 1.10% to 1.35% depending on certain conditions and matures on March 14, 2011, with two one-year extension options. At March 31, 2009 and December 31, 2008, the total interest rate was 1.85% and 3.23%, respectively.
- (d) The Company is in negotiations to extend the loan.
- (e) In addition to monthly principal and interest payments, contingent interest, as defined in the loan agreement, may be due to the extent that 35% of the amount by which the property's gross receipts exceeds a base amount. Contingent interest expense recognized was \$72 and \$80 for the three months ended March 31, 2009 and 2008, respectively.
- (f) The loan bears interest at LIBOR plus 0.88% and matures on August 9, 2009. The loan is covered by an interest rate cap agreement that effectively prevents LIBOR from exceeding 7.12%. See Note 5 Derivative Instruments and Hedging Activities. At March 31, 2009 and December 31, 2008, the total interest rate was 1.94% and 2.58%, respectively.
- (g) The Company has received a commitment for an eighteen-month extension of this loan at a borrowing level of \$72,000, and an interest rate of 7.50%.
- (h) The loan bears interest at LIBOR plus 1.75% and matures on July 10, 2011 with two one-year extension options. At March 31, 2009 and December 31, 2008, the total interest rate was 2.55% and 3.48%, respectively. The loan is covered by an interest rate cap agreement that effectively prevents LIBOR from exceeding 6.25% over the loan term. See Note 5 Derivative Instruments and Hedging Activities.
- (i) The construction loan allows for total borrowings of up to \$135,000, bears interest at LIBOR plus a spread of 1.75% to 2.10%, depending on certain conditions and matures on July 10, 2011, with two one-year extension options. At March 31, 2009 and December 31, 2008, the total interest rate was 3.26% and 4.24%, respectively.
- (j) The loan bears interest at LIBOR plus 0.85% and matures on February 28, 2010, with a one-year extension option. The loan is covered by an interest rate cap agreement that effectively prevents LIBOR from exceeding 6.65%. See Note 5 Derivative Instruments and Hedging Activities. At March 31, 2009 and December 31, 2008, the total interest rate was 1.62%.

- (n) The construction loan on the property that allows for total borrowings of up to \$150,000 and bears interest at LIBOR plus a spread of 2.10% to 2.25%, depending on certain conditions. The loan matures on June 13, 2011, with two one-year extension options. At March 31, 2009 and December 31, 2008, the total interest rate was 3.27% and 3.91%, respectively.
- (o) On March 1, 2009, the interest rate of the loan increased from 7.49% to 9.49% and was extended until March 1, 2029.
- (p) On March 25, 2009, the loan agreement was modified to bear interest at LIBOR plus 3.40% and matures on June 5, 2011, with a one-year extension option. At March 31, 2009 and December 31, 2008, the total interest rate was 5.45% and 2.20%, respectively.
- (q) The loan bears interest at LIBOR plus 1.60% and matures on May 6, 2011, with two one-year extension options. At March 31, 2009 and December 31, 2008, the total interest rate on the loan was 2.37% and 3.74%, respectively.
- (r) The loan bears interest at LIBOR plus 2.00% and matures on June 5, 2011, with two one-year extension options. At March 31, 2009 and December 31, 2008, the total interest rate on the new loan was 3.14% and 4.07%, respectively. The loan is covered by an interest rate cap agreement that effectively prevents LIBOR from exceeding 5.50% until June 1, 2010. See Note 5 Derivative Instruments and Hedging Activities.

Most of the mortgage loan agreements contain a prepayment penalty provision for the early extinguishment of the debt.

The Company expects all 2009 loan maturities will be refinanced, extended and/or paid-off from the Company's line of credit.

Total interest expense capitalized during the three months ended March 31, 2009 and 2008 was \$5,061 and \$7,053, respectively.

Related party mortgage notes payable are amounts due to affiliates of NML. See Note 11 Related Party Transactions, for interest expense associated with loans from NML.

The fair value of mortgage notes payable at March 31, 2009 and December 31, 2008 was \$3,564,929 and \$3,529,762, respectively, based on current interest rates for comparable loans. The method for computing fair value was determined using a present value model and an interest rate that included a credit value adjustment based on the estimated value of the property that serves as collateral for the underlying debt.

10. Bank and Other Notes Payable:

Bank and other notes payable consist of the following:

Convertible Senior Notes ("Senior Notes"):

The Senior Notes bear interest at 3.25%, payable semiannually, are senior unsecured debt of the Company and are guaranteed by the Operating Partnership. Prior to December 14, 2011, upon the occurrence of certain specified events, the Senior Notes will be convertible at the option of holder into cash, shares of the Company's common stock or a combination of cash and shares of the Company's common stock, at the election of the Company, at an initial conversion rate of 8.9702 shares per \$1 principal amount. On and after December 15, 2011, the Senior Notes will be convertible at any time prior to the second business day preceding the maturity date at the option of the holder at the initial conversion rate. The initial conversion price of approximately \$111.48 per share represented a 20% premium over the closing price of the Company's common stock on March 12, 2007, the date of

THE MACERICH COMPANY

10. Bank and Other Notes Payable: (Continued)

issuance of the Senior Notes. The initial conversion rate is subject to adjustment under certain circumstances. Holders of the Senior Notes do not have the right to require the Company to repurchase the Senior Notes prior to maturity except in connection with the occurrence of certain fundamental change transactions.

The Company purchased two capped calls ("Capped Calls") from affiliates of the initial purchasers of the Senior Notes that effectively increased the conversion price to approximately \$130.06, which represents a 40% premium to the March 12, 2007 closing price of \$92.90 per common share of the Company. The Capped Calls are expected to generally reduce the potential dilution upon exchange of the Senior Notes in the event the market value per share of the Company's common stock, as measured under the terms of the relevant settlement date, is greater than the strike price of the Capped Calls. If, however, the market value per share of the Company's common stock exceeds \$130.06 per common share, then the dilution mitigation under the Capped Calls will be capped, which means there would be dilution from exchange of the Senior Notes to the extent that the market value per share of the Company's common stock exceeds \$130.06.

During the three months ended March 31, 2009, the Company repurchased and retired \$56,815 of the Senior Notes for \$30,679 and recorded a gain on extinguishment of \$22,474. The repurchase was funded by borrowings under the Company's line of credit.

The carrying value of the Senior Notes at March 31, 2009 and December 31, 2008 was \$636,728 and \$687,654, respectively, which included unamortized discount of \$33,622 and \$39,511, respectively.

As of March 31, 2009 and December 31, 2008, the effective interest rate was 5.41%. The fair value of the Senior Notes at March 31, 2009 and December 31, 2008 was \$312,383 and \$379,435, respectively, based on the quoted market price on each date.

Line of Credit:

The Company has a \$1,500,000 revolving line of credit that matures on April 25, 2010 with a one-year extension option. The interest rate fluctuates from LIBOR plus 0.75% to LIBOR plus 1.10% depending on the Company's overall leverage. The Company has an interest rate swap agreement that effectively fixed the interest rate on \$400,000 of the outstanding balance of the line of credit at 6.23% until April 25, 2011. See Note 5 Derivative Instruments and Hedging Activities. As of March 31, 2009 and December 31, 2008, borrowings outstanding were \$1,158,500 and \$1,099,500, at an average interest rate, excluding the \$400,000 swapped portion, of 1.78% and 3.19%, respectively. The fair value of the Company's line of credit at March 31, 2009 and December 31, 2008 was \$1,113,037 and \$1,067,631 based on a present value model using current interest rate spreads offered to the Company for comparable debt.

Term Notes:

The Company obtained a five-year term loan that bears interest at LIBOR plus 1.50% and matures on April 26, 2010. The loan is covered by an interest rate swap agreement that effectively fixed the interest rate of the term loan at 6.30% until maturity. See Note 5 Derivative Instruments and

Hedging Activities. As of March 31, 2009 and December 31, 2008, the note had a balance outstanding of \$444,375 and \$446,250, respectively, with an effective interest rate of 6.50%. The fair value of the term loan at March 31, 2009 and December 31, 2008 was \$448,926 and \$452,240 based on a present value model using current interest rate spreads offered to the Company for comparable debt.

On July 27, 2006, concurrent with the sale of Greeley Mall, the Company provided marketable securities to replace Greeley Mall as collateral for the mortgage note payable on the property (See Note 7 Marketable Securities). As a result of this transaction, the debt was reclassified to bank and other notes payable. This note bears interest at an effective rate of 6.34% and matures in September 2013. As of March 31, 2009 and December 31, 2008, the note had a balance outstanding of \$26,865 and \$27,038, respectively. The fair value of the note at March 31, 2009 and December 31, 2008 was \$19,310 and \$19,074 based on current interest rates for comparable loans. The method for computing fair value was determined using a present value model and an interest rate that included a credit value adjustment based on the estimated value of the property that serves as collateral for the underlying debt.

As of March 31, 2009 and December 31, 2008, the Company was in compliance with all applicable loan covenants under its debt agreements.

11. Related-Party Transactions:

Certain unconsolidated joint ventures and third-parties have engaged the Management Companies to manage the operations of the Centers. Under these arrangements, the Management Companies are reimbursed for compensation paid to on-site employees, leasing agents and project managers at the Centers, as well as insurance costs and other administrative expenses.

The following are fees charged to unconsolidated joint ventures and third-party managed properties:

11. Related-Party Transactions: (Continued)

Certain mortgage notes on the properties are held by NML (See Note 9 Mortgage Notes Payable). Interest expense in connection with these notes was \$5,790 and \$3,696 for the three months ended March 31, 2009 and 2008, respectively. Included in accounts payable and accrued expenses is interest payable to these partners of \$2,010 and \$1,609 at March 31, 2009 and December 31, 2008, respectively.

As of March 31, 2009 and December 31, 2008, the Company had loans to unconsolidated joint ventures of \$1,050 and \$932, respectively. Interest income associated with these notes was \$16 and \$12 for the three months ended March 31, 2009 and 2008, respectively. These loans represent initial funds advanced to development stage projects prior to construction loan funding. Correspondingly, loan payables in the same amount have been accrued as an obligation by the various joint ventures.

Due from affiliates of \$6,190 and \$9,124 at March 31, 2009 and December 31, 2008, respectively, represents unreimbursed costs and fees due from unconsolidated joint ventures under management agreements.

12. Acquisitions:

The Company has completed the following recent acquisitions:

Mervyn's:

On December 17, 2007, the Company purchased a portfolio of ground leasehold and/or fee simple interests in 39 Mervyn's department stores for \$400,160. The Company purchased an additional ground leasehold interest on January 31, 2008 for \$13,182 and a fee simple interest on February 29, 2008 for \$19,338. All of the purchased properties are located in the Southwest United States. The purchase price was funded by cash and borrowings under the Company's line of credit. Concurrent with each acquisition, the Company entered into individual agreements to lease back the properties to Mervyn's for terms of 14 to 20 years. In connection with the acquisition of the Mervyn's portfolio and applying SFAS No. 141, the Company recorded intangible assets of \$110.7 million and intangible liabilities of \$59.0 million. The results of operations include these properties since the acquisition date.

Boscov's:

On May 20, 2008, the Company purchased fee simple interests in a 161,350 square foot Boscov's department store at Deptford Mall in Deptford, New Jersey. The total purchase price of \$23,500 was funded by the assumption of the existing mortgage note on the property and by borrowings under the Company's line of credit. The results of operations have included this property since the date of acquisition.

13. Discontinued Operations:

The following operations were recently discontinued:

Mervyn's:

In July 2008, Mervyn's filed for bankruptcy protection and announced in October 2008 its plans to liquidate all merchandise, auction its store leases and wind down its business. The Company had 45 Mervyn's stores in its portfolio. The Company owned the ground leasehold and/or fee simple interest in 44 of those stores and the remaining store was owned by a third party but was located at one of the Centers.

In September 2008, the Company recorded a write-down of \$5,214 due to the anticipated rejection of six of the Company's leases by Mervyn's. In addition, the Company terminated its former plan to sell the 29 Mervyn's stores located at shopping centers not owned or managed by the Company. The Company's decision was based on current conditions in the credit market and the assumption that a better return could be obtained by holding and operating the assets. As a result of the change in plans to sell, the Company recorded a loss of \$5,347 in (loss) gain on sale or write-down of assets in order to adjust the carrying value of these assets for depreciation expense that otherwise would have been recognized had these assets been continuously classified as held and used.

In December 2008, Kohl's and Forever 21 assumed a total of 23 of the Mervyn's leases and the remaining 22 leases were rejected by Mervyn's under the bankruptcy laws. As a result, the Company wrote off the unamortized intangible assets and liabilities related to the rejected and unassumed leases in December 2008. The Company wrote off \$27,655 of unamortized intangible assets related to lease in place values, leasing commissions and legal costs to depreciation and amortization. Unamortized intangible assets of \$14,881 relating to above market leases and unamortized intangible liabilities of \$24,523 relating to below market leases were written off to minimum rents.

On December 19, 2008, the Company sold a fee and/or ground leasehold interest in three freestanding Mervyn's department stores (collectively referred to as the "PPRT Mervyn's") to Pacific Premier Retail Trust, one of the Company's joint ventures, for \$43,405, resulting in a gain on sale of assets of \$1,511. The Company's pro rata share of the proceeds was used to pay down the Company's line of credit.

Rochester Redemption:

On January 1, 2008, a subsidiary of the Operating Partnership, at the election of the holders, redeemed the 3,426,609 participating convertible preferred units ("PCPUs"). As a result of the redemption, the Company received the 16.32% minority interest in the portion of the Wilmorite portfolio that included Danbury Fair Mall, Freehold Raceway Mall, Great Northern Mall, Rotterdam Square, Shoppingtown Mall, Towne Mall, Tysons Corner Center and Wilton Mall, collectively referred to as the "Non-Rochester Properties," for total consideration of \$224,393, in exchange for the Company's ownership interest in the portion of the Wilmorite portfolio that consisted of Eastview Commons, Eastview Mall, Greece Ridge Center, Marketplace Mall and Pittsford Plaza, collectively referred to as the "Rochester Properties," including approximately \$18,000 in cash held at those properties. Included in the redemption consideration was the assumption of the remaining 16.32%

interest in the indebtedness of the Non-Rochester Properties, which had an estimated fair value of \$105,962. In addition, the Company also received additional consideration of \$11,763, in the form of a note, for certain working capital adjustments, extraordinary capital expenditures, leasing commissions, tenant allowances, and decreases in indebtedness during the Company's period of ownership of the Rochester Properties. The Company recognized a gain of \$99,082 on the exchange based on the difference between the fair value of the additional interest acquired in the Non-Rochester Properties and the carrying value of the Rochester Properties, net of minority interest. This exchange is referred to herein as the "Rochester Redemption."

The Company determined the fair value of the debt using a present value model based upon the terms of equivalent debt and upon credit spreads made available to the Company. The following table represents the debt measured at fair value on January 1, 2008:

	Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at January 1, 2008
<i>Liabilities</i>				
Debt on Non-Rochester Properties	\$	\$ 71,032	\$ 34,930	\$ 105,962

The source of the Level 2 inputs involved the use of the nominal weekly average of the U.S. treasury rates. The source of the Level 3 inputs was based on comparable credit spreads on the estimated value of the property that serves as the underlying collateral of the debt.

As a result of the Rochester Redemption, the Company recorded a credit to additional paid-in capital of \$172,805 due to the reversal of adjustments to noncontrolling interests for the redemption value on the Rochester Properties over the Company's historical cost. In addition, the Company recorded a step-up in the basis of approximately \$218,812 in the remaining portion of the Non-Rochester Properties.

The Company has classified the results of operations for the three months ended March 31, 2009 and 2008 for all of the above dispositions as discontinued operations.

14. Commitments and Contingencies:

The Company has certain properties subject to non-cancelable operating ground leases. The leases expire at various times through 2107, subject in some cases to options to extend the terms of the lease. Certain leases provide for contingent rent payments based on a percentage of base rental income, as defined in the lease. Ground rent expenses were \$2,035 and \$1,817 for the three months ended March 31, 2009 and 2008, respectively. No contingent rent was incurred in either period.

As of March 31, 2009 and December 31, 2008, the Company was contingently liable for \$19,699 in letters of credit guaranteeing performance by the Company of certain obligations relating to the Centers. The Company does not believe that these letters of credit will result in a liability to the Company. In addition, the Company has a \$24,000 letter of credit that serves as collateral to a liability assumed in the acquisition of a property.

The Company has entered into a number of construction agreements related to its redevelopment and development activities. Obligations under these agreements are contingent upon the completion of the services within the guidelines specified in the agreement. At March 31, 2009, the Company had \$97,902 in outstanding obligations, which it believes will be settled in 2009.

15. Share and Unit-Based Plans:

The Company has established share and unit-based compensation plans for the purpose of attracting and retaining executive officers, directors and key employees. In addition, the Company has established an Employee Stock Purchase Plan ("ESPP") to allow employees to purchase the Company's common stock at a discount.

On February 25, 2009, the Company reduced its workforce by 142 employees out of a total of approximately 2,845 regular and temporary employees. This reduction in workforce was a result of the Company's review and realignment of its strategic priorities, including its expectation of reduced development and redevelopment activity in the near future. As part of the plan, the Company accelerated the vesting of the share and unit-based awards of certain terminated employees. As a result of the modification of the awards, the Company recorded a reduction in compensation cost of \$487.

On March 6, 2009, the Company granted 1,600,002 restricted stock units ("RSUs") to certain officers of the Company as an additional component of compensation. The outstanding RSUs vest over three years and the compensation cost related to the grants are determined by the market value at the grant date and are amortized over the vesting period on a straight-line basis. RSUs are subject to restrictions determined by the Company's compensation committee.

The Company records compensation expense on a straight-line basis for awards, with the exception of the market-indexed awards granted under the Long-Term Incentive Plan ("LTIP"). The following summarizes the compensation cost under the share and unit-based plans:

	For the Three Months Ended March 31,	
	2009	2008
LTIP units	\$ 1,058	\$ 1,275
Stock awards	2,106	3,348

Stock options	147	148
Stock appreciation rights ("SARs")	626	219
Phantom stock units	170	167
	\$4,377	\$5,157

The Company capitalized share and unit-based compensation costs of \$1,762 and \$2,271 for the three months ended March 31, 2009 and 2008, respectively.

16. Income Taxes:

The Company elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, commencing with its taxable year ended December 31, 1994. To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it distribute at least 90% of its taxable income to its stockholders. It is management's current intention to adhere to these requirements and maintain the Company's REIT status. As a REIT, the Company generally will not be subject to corporate level federal income tax on net income it distributes currently to its stockholders. If the Company fails to qualify as a REIT in any taxable year, then it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income and property and to federal income and excise taxes on its undistributed taxable income, if any.

Each partner is taxed individually on its share of partnership income or loss, and accordingly, no provision for federal and state income tax is provided for the Operating Partnership in the consolidated financial statements.

The Company has made Taxable REIT Subsidiary elections for all of its corporate subsidiaries other than its Qualified REIT Subsidiaries. The elections, effective for the year beginning January 1, 2001 and future years, were made pursuant to section 856(l) of the Internal Revenue Code. The Company's Taxable REIT Subsidiaries ("TRSs") are subject to corporate level income taxes which are provided for in the Company's consolidated financial statements. The Company's primary TRSs include Macerich Management Company and Westcor Partners, L.L.C.

16. Income Taxes: (Continued)

The income tax benefit (provision) of the TRSs is as follows:

	For the Three Months Ended March 31,	
	2009	2008
Current	\$ (90)	\$ (7)
Deferred	891	(294)
Total income tax benefit (provision)	\$801	\$(301)

SFAS No. 109, "Income Taxes," requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The deferred tax assets and liabilities of the TRSs relate primarily to differences in the book and tax bases of property and to operating loss carryforwards for federal and state income tax purposes. A valuation allowance for deferred tax assets is provided if the Company believes it is more likely than not that all or some portion of the deferred tax assets will not be realized. Realization of deferred tax assets is dependent on the Company generating sufficient taxable income in future periods. The net operating loss carryforwards are currently scheduled to expire through 2028, beginning in 2012. Net deferred tax assets of \$14,488 and \$13,830 were included in deferred charges and other assets, net at March 31, 2009 and December 31, 2008, respectively.

The Company had an unrecognized tax benefit, in accordance with FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes," of \$2,417 and \$2,201 at March 31, 2009 and December 31, 2008, respectively. As a result of tax positions taken during the current year, an increase in the unrecognized tax benefit of \$216 was included in the Company's consolidated statement of operations.

The tax years 2005-2008 remain open to examination by the taxing jurisdictions to which the Company is subject. The Company does not expect that the total amount of unrecognized tax benefit will materially change within the next 12 months.

17. Cumulative Convertible Redeemable Preferred Stock:

On February 25, 1998, the Company issued 3,627,131 shares of Series A cumulative convertible redeemable preferred stock ("Series A Preferred Stock") for proceeds totaling \$100,000 in a private placement. The preferred stock was convertible on a one-for-one basis into common stock and paid a quarterly dividend equal to the greater of \$0.46 per share, or the dividend then payable on a share of common stock.

The holder of the Series A Preferred Stock had redemption rights if a change in control of the Company occurred, as defined under the Articles Supplementary. Under such circumstances, the holder of the Series A Preferred Stock was entitled to require the Company to redeem its shares, to the extent

the Company had funds legally available therefor, at a price equal to 105% of its liquidation preference plus accrued and unpaid dividends. The Series A Preferred Stock holder also had the right to require the Company to repurchase its shares if the Company failed to be taxed as a REIT for federal tax purposes at a price equal to 115% of its liquidation preference plus accrued and unpaid dividends to the extent funds were legally available therefor.

No dividends could be declared or paid on any class of common or other junior stock to the extent that dividends on Series A Preferred Stock had not been declared and/or paid.

On October 18, 2007, the holder of the Series A Preferred Stock converted 560,000 shares to common shares. On May 6, 2008, the holder of the Series A Preferred Stock converted 684,000 shares to common shares. On May 8, 2008, the holder of the Series A Preferred Stock converted 1,338,860 shares to common shares. On September 17, 2008, the holder of the Series A Preferred Stock converted the remaining 1,044,271 shares to common shares.

18. Cumulative Effect of Adoption of Accounting Principles:

Retrospective Adjustments Related to Convertible Debt:

On January 1, 2009, the Company adopted FSP APB 14-1. The adoption of FSP APB 14-1 requires the Company to retrospectively allocate the initial proceeds from Senior Notes between a liability component and an equity component based on the fair value calculated based on the present value of contractual cash flows discounted at an appropriate comparable non-convertible debt borrowing rate at the date of issuance of the Senior Notes. As a result, the Company allocated \$869,351 of the initial \$940,500 proceeds to the liability component and the remaining \$71,149 of proceeds to the equity component at the date of issuance of the Senior Notes.

Retrospective Adjustments Related to Noncontrolling Interests:

Effective January 1, 2009, the Company adopted the provisions of SFAS No. 160, which requires a noncontrolling interest in a subsidiary to be reported as equity and the amount of consolidated net income specifically attributable to the noncontrolling interest to be included within consolidated net income. SFAS No. 160 also requires consistency in the manner of reporting changes in the parent's ownership interest and requires fair value measurement of any noncontrolling equity investment retained in a deconsolidation. In connection with the retrospective adoption of SFAS No. 160, the Company also performed a concurrent review and retrospectively adopted the measurement provisions of EITF D-98.

The Company's reassessment of EITF D-98 resulted in the continued classification of its redeemable equity interest in one of its consolidated joint ventures as temporary equity due to the possibility that the Company could be required to redeem this interest for cash upon the occurrence of certain events outside the control of the Company. The carrying amount of the redeemable equity interest is equal to its liquidation value, which is the amount payable upon the occurrence of such event.

18. Cumulative Effect of Adoption of Accounting Principles: (Continued)

The Company's reassessment of EITF D-98 resulted in the reclassification of the OP Units and the common and preferred units of MACWH, LP to permanent equity. The OP Units and the common and preferred units of MACWH, LP are redeemable at the election of the holder and the Company may redeem them for cash or shares of stock at the Company's election. In addition, the Company reclassified outside ownership interests in various consolidated joint ventures to permanent equity.

Further, as a result of the adoption of SFAS No. 160, net income attributable to noncontrolling interests is now excluded from the determination of consolidated net income. In addition, the individual components of other comprehensive income are now presented in the aggregate, with the portion attributable to noncontrolling interests deducted from comprehensive income attributable to common stockholders. Corresponding changes have also been made to the accompanying consolidated statements of cash flows. Such changes result in a net increase to cash flows provided by operating activities with an offsetting increase to cash flows used in financing activities related to distributions to noncontrolling interest holders in properties.

The following is a summary of the impact of adoption of these standards on the financial statements of prior periods and includes reclassifications relating to discontinued operations (See Note 13 Discontinued Operations):

19. Subsequent Events:

On May 1, 2009, the Company announced a quarterly dividend of \$0.60 per share of common stock, consisting of a combination of cash and shares of the Company's common stock. The dividend is payable on June 22, 2009 to stockholders of record at the close of business on May 11, 2009.

In order to comply with REIT taxable income distribution requirements, while retaining capital and enhancing the Company's financial flexibility, the Company has determined that the aggregate cash component of the dividend (other than cash paid in lieu of fractional shares) will not exceed 10% in the aggregate, or \$.06 per share, with the balance payable in shares of the Company's common stock.

In accordance with the provisions of IRS Revenue Procedure 2009-15, stockholders will be asked to make an election to receive the dividend all in cash or all in shares. To the extent that more than 10% of cash is elected in the aggregate, the cash portion will be prorated. Stockholders who elect to receive the dividend in cash will receive a cash payment of at least \$.06 per share. Stockholders who do not make an election will receive 10% in cash and 90% in shares of common stock. The number of shares issued as a result of the dividend will be calculated based on the volume weighted average trading prices of the Company's common stock on the New York Stock Exchange on June 10, June 11 and June 12, 2009.

The Company expects the dividend to be a taxable dividend to stockholders, regardless of whether a particular stockholder receives the dividend in the form of cash or shares. The Company reserves the right to pay the dividend entirely in cash.

19. Subsequent Events: (Continued)

The Company may again in the future distribute taxable dividends that are payable partially in stock. Taxable stockholders receiving such dividends are required to include the full amount of the dividend as income to the extent of the Company's current and accumulated earnings and profits for federal income tax purposes, and may therefore have a tax liability in excess of the cash they received.

On April 21, 2009, the Company repurchased and retired \$25,000 of the Senior Notes for \$17,000, resulting in a gain on early extinguishment of debt of approximately \$6,581. The purchase price was funded by borrowings under the Company's line of credit.

Management's Overview and Summary

The Company is involved in the acquisition, ownership, development, redevelopment, management and leasing of regional and community shopping centers located throughout the United States. The Company is the sole general partner of, and owns a majority of the ownership interests in, the Operating Partnership. As of March 31, 2009, the Operating Partnership owned or had an ownership interest in 72 regional shopping centers and 20 community shopping centers totaling approximately 76 million square feet of gross leasable area. These 92 regional and community shopping centers are referred to hereinafter as the "Centers", unless the context otherwise requires. The Company is a self-administered and self-managed REIT and conducts all of its operations through the Operating Partnership and the Company's Management Companies.

Edgar Filing: MACERICH CO - Form 10-Q

The following discussion is based primarily on the consolidated financial statements of the Company for the three months ended March 31, 2009 and 2008. It compares the results of operations and cash flows for the three months ended March 31, 2009 to the results of operations and cash flows for the three months ended March 31, 2008. This information should be read in conjunction with the accompanying consolidated financial statements and notes thereto.

Management's Discussion and Analysis of Financial Condition and Results of Operations has been updated to reflect the adjustment of the consolidated statements of operations and cash flows for the three months ended March 31, 2008 for the adoption of FSP APB 14-1, "Accounting for Convertible Debt That May Be Settled Upon Conversion (Including Partial Cash Settlement)" and Statement of Financial Accounting Standards ("SFAS") No. 160, "Noncontrolling Interests in Consolidated Financial Statements - An Amendment of ABB No 51." For a more detailed description of the adjustment, see Note 18 Cumulative Effect of Adoption of Accounting Principles, in the Company's Notes to Consolidated Financial Statements.

Acquisitions and Dispositions:

The financial statements reflect the following acquisitions, dispositions and changes in ownership subsequent to the occurrence of each transaction.

On January 1, 2008, a subsidiary of the Operating Partnership, at the election of the holders, redeemed its 3.4 million Class A participating convertible preferred units ("PCPUs"). As a result of the redemption, the Company received the 16.32% noncontrolling interest in the portion of the Wilmore portfolio acquired on April 25, 2005 that included Danbury Fair Mall, Freehold Raceway Mall, Great Northern Mall, Rotterdam Square, Shoppingtown Mall, Towne Mall, Tysons Corner Center and Wilton Mall, collectively, referred to as the "Non-Rochester Properties," for total consideration of \$224.4 million, in exchange for the Company's ownership interest in the portion of the Wilmore portfolio that consisted of Eastview Mall, Eastview Commons, Greece Ridge Center, Marketplace Mall and Pittsford Plaza, collectively referred to as the "Rochester Properties." Included in the redemption consideration was the assumption of the remaining 16.32% interest in the indebtedness of the Non-Rochester Properties, which had an estimated fair value of \$106.0 million. In addition, the Company also received additional consideration of \$11.8 million, in the form of a note, for certain working capital adjustments, extraordinary capital expenditures, leasing commissions, tenant allowances, and decreases in indebtedness during the Company's period of ownership of the Rochester Properties. The Company recognized a gain of \$99.1 million on the exchange. This exchange is referred to herein as the "Rochester Redemption."

On January 10, 2008, the Company, in a 50/50 joint venture, acquired The Shops at North Bridge, a 680,933 square foot urban shopping center in Chicago, Illinois, for a total purchase price of \$515.0 million. The Company's share of the purchase price was funded by the assumption of a pro rata share of the \$205.0 million fixed rate mortgage on the Center and by borrowings under the Company's line of credit.

On January 31, 2008, the Company purchased a ground leasehold interest in a freestanding Mervyn's store located in Hayward, California. The purchase price of \$13.2 million was funded by cash and borrowings under the Company's line of credit.

On February 29, 2008, the Company purchased a fee simple interest in a freestanding Mervyn's store located in Monrovia, California. The purchase price of \$19.3 million was funded by cash and borrowings under the Company's line of credit.

On May 20, 2008, the Company purchased a fee simple interest in a 161,350 square foot Boscov's department store at Deptford Mall in Deptford, New Jersey. The total purchase price of \$23.5 million

was funded by the assumption of the existing \$15.2 million mortgage note on the property and by borrowings under the Company's line of credit.

The Boscov's store and the Mervyn's stores acquired in 2008 are referred to herein as the "2008 Acquisition Properties."

On June 11, 2008, the Company became a 50% owner in a joint venture that acquired One Scottsdale, which plans to develop a luxury retail and mixed-use property in Scottsdale, Arizona. The Company's share of the purchase price was \$52.5 million, which was funded by borrowings under the Company's line of credit.

On December 19, 2008, the Company sold a fee and/or ground leasehold interest in three freestanding Mervyn's department stores to Pacific Premier Retail Trust, one of the Company's joint ventures, for \$43.4 million, resulting in a gain on sale of assets of \$1.5 million. The Company's pro rata share of the proceeds were used to pay down the Company's line of credit.

Mervyn's:

In July 2008, Mervyn's filed for bankruptcy protection and announced in October its plans to liquidate all merchandise, auction its store leases and wind down its business. The Company has 45 former Mervyn's stores in its portfolio. The Company owns the ground leasehold and/or fee simple interest in 44 of those stores and the remaining store is owned by a third party but is located at one of the Centers. In connection with the acquisition of the Mervyn's portfolio (See Note 12-Acquisitions of the Company's Consolidated Financial Statements) and applying SFAS No. 141, the Company recorded intangible assets of \$110.7 million and intangible liabilities of \$59.0 million.

In September 2008, the Company recorded a write-down of \$5.2 million due to the anticipated rejection of six of the Company's leases by Mervyn's. In addition, the Company terminated its former plan to sell the 29 Mervyn's stores located at shopping centers not owned or managed by the Company. (See Note 13 Discontinued Operations of the Company's Consolidated Financial Statements). The Company's decision was based on current conditions in the credit market and the assumption that a better return could be obtained by holding and operating the assets. As a result of the change in plans to sell, the Company recorded a loss of \$5.3 million in order to adjust the carrying value of these assets for depreciation expense that otherwise would have been recognized had these assets been continuously classified as held and used.

In December 2008, Kohl's and Forever 21 assumed a total of 23 of the Mervyn's leases and the remaining 22 leases were rejected by Mervyn's under the bankruptcy laws. As a result, the Company wrote off the unamortized intangible assets and liabilities related to the rejected and unassumed leases in December 2008. The Company wrote off \$27.7 million of unamortized intangible assets related to lease in place values, leasing commissions and legal costs to depreciation and amortization. Unamortized intangible assets of \$14.9 million relating to above market leases and unamortized intangible liabilities of \$24.5 million relating to below market leases were written off to minimum rents.

The Mervyn's stores acquired in 2007 are referred to herein as the "Mervyn's Properties."

Redevelopments and Developments:

Construction continues on Santa Monica Place, a regional shopping center under development in Santa Monica, California. In September, the Company announced that Bloomingdale's will join Nordstrom. Bloomingdale's will open the first of the store's SoHo concept outside of Manhattan. In addition, the Company has announced deals with a variety of retailers and restaurants slated to join the new Santa Monica Place.

Edgar Filing: MACERICH CO - Form 10-Q

At Scottsdale Fashion Square, construction on an approximately 160,000 square foot expansion continues on schedule toward a Fall 2009 opening. The expansion will be anchored by a 60,000 square foot Barneys New York.

Inflation:

In the last three years, inflation has not had a significant impact on the Company because of a relatively low inflation rate. Most of the leases at the Centers have rent adjustments periodically through the lease term. These rent increases are either in fixed increments or based on using an annual multiple of increases in the Consumer Price Index ("CPI"). In addition, about 6%-13% of the leases expire each year, which enables the Company to replace existing leases with new leases at higher base rents if the rents of the existing leases are below the then existing market rate. Additionally, historically the majority of the leases required the tenants to pay their pro rata share of operating expenses. In January 2005, the Company began entering into leases that require tenants to pay a stated amount for operating expenses, generally excluding property taxes, regardless of the expenses actually incurred at any Center. This change shifts the burden of cost control to the Company.

Seasonality:

The shopping center industry is seasonal in nature, particularly in the fourth quarter during the holiday season when retailer occupancy and retail sales are typically at their highest levels. In addition, shopping malls achieve a substantial portion of their specialty (temporary retailer) rents during the holiday season and the majority of percentage rent is recognized in the fourth quarter. As a result of the above, earnings are generally higher in the fourth quarter.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Some of these estimates and assumptions include judgments on revenue recognition, estimates for common area maintenance and real estate tax accruals, provisions for uncollectible accounts, impairment of long-lived assets, the allocation of purchase price between tangible and intangible assets, and estimates for environmental matters. The Company's significant accounting policies are described in more detail in Note 2 Summary of Significant Accounting Policies to the Consolidated Financial Statements. However, the following policies are deemed to be critical.

Revenue Recognition:

Minimum rental revenues are recognized on a straight-line basis over the term of the related lease. The difference between the amount of rent due in a year and the amount recorded as rental income is referred to as the "straight line rent adjustment." Currently, 53% of the mall and freestanding leases contain provisions for CPI rent increases periodically throughout the term of the lease. The Company believes that using an annual multiple of CPI increases, rather than fixed contractual rent increases, results in revenue recognition that more closely matches the cash revenue from each lease and will provide more consistent rent growth throughout the term of the leases. Percentage rents are recognized when the tenants' specified sales targets have been met. Estimated recoveries from certain tenants for their pro rata share of real estate taxes, insurance and other shopping center operating expenses are recognized as revenues in the period the applicable expenses are incurred. Other tenants pay a fixed

rate and these tenant recoveries' revenues are recognized on a straight-line basis over the term of the related leases.

Property:

The Company capitalizes costs incurred in redevelopment and development of properties in accordance with SFAS No. 34 "Capitalization of Interest Cost" and SFAS No. 67 "Accounting for Costs and the Initial Rental Operations of Real Estate Properties." The costs of land and buildings under development include specifically identifiable costs. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. Capitalized costs are allocated to the specific components of a project that are benefited. The Company considers a construction project as completed and held available for occupancy and ceases capitalization of costs when the areas under development have been substantially completed.

Maintenance and repair expenses are charged to operations as incurred. Costs for major replacements and betterments, which includes HVAC equipment, roofs, parking lots, etc., are capitalized and depreciated over their estimated useful lives. Gains and losses are recognized upon disposal or retirement of the related assets and are reflected in earnings.

Property is recorded at cost and is depreciated using a straight-line method over the estimated useful lives of the assets as follows:

	5 -
Buildings and improvements	40 years
Tenant improvements	5 - 7 years
Equipment and furnishings	5 - 7 years

Accounting for Acquisitions:

The Company accounts for all acquisitions in accordance with SFAS No. 141 (R), "Business Combinations." The Company first determines the value of the land and buildings utilizing an "as if vacant" methodology. The Company then assigns a fair value to any debt assumed at acquisition. The balance of the purchase price is allocated to tenant improvements and identifiable intangible assets or liabilities. Tenant improvements represent the tangible assets associated with the existing leases valued on a fair market value basis at the acquisition date prorated over the remaining lease terms. The tenant improvements are classified as an asset under real estate investments and are depreciated over the remaining lease terms. Identifiable intangible assets and liabilities relate to the value of in-place operating leases which come in three forms: (i) leasing commissions and legal costs, which represent the value associated with "cost avoidance" of acquiring in-place leases, such as lease commissions paid under terms generally experienced in the Company's markets; (ii) value of in-place leases, which represents the estimated loss of revenue and of costs incurred for the period required to lease the "assumed vacant" property to the occupancy level when purchased; and (iii) above or below market value of in-place leases, which represents the difference between the contractual rents and market rents at the time of the acquisition, discounted for tenant credit risks. Leasing commissions and legal costs are recorded in deferred charges and other assets and are amortized over the remaining lease terms. The value of in-place leases are recorded in deferred charges and other assets and amortized over the remaining lease terms plus an estimate of renewal of the acquired leases. Above or below market leases are classified in deferred charges and other assets or in other accrued liabilities, depending on whether the contractual terms are above or below market, and the asset or liability is amortized to minimum rents over the remaining terms of the leases.

When the Company acquires a real estate property, the Company allocates the purchase price to the components of these acquisitions using relative fair values computed using its estimates and

assumptions. These estimates and assumptions impact the amount of costs allocated between various components as well as the amount of costs assigned to individual properties in multiple property acquisitions. These allocations also impact depreciation expense and gains or losses recorded on future sales of properties.

Asset Impairment:

The Company assesses whether there has been impairment in the value of its long-lived assets by considering factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other economic factors. Such factors include the tenant's ability to perform their duties and pay rent under the terms of the leases. The Company may recognize impairment losses if the cash flows are not sufficient to cover its investment. Such a loss would be determined as the difference between the carrying value and the fair value of a center.

Fair Value of Financial Instruments:

On January 1, 2008, the Company adopted SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The fair value hierarchy distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity and the reporting entity's own assumptions about market participant assumptions.

Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The Company calculates the fair value of financial instruments and includes this additional information in the notes to consolidated financial statements when the fair value is different than the carrying value of those financial instruments. When the fair value reasonably approximates the carrying value, no additional disclosure is made.

Deferred Charges:

Costs relating to obtaining tenant leases are deferred and amortized over the initial term of the agreement using the straight-line method. Costs relating to financing of shopping center properties are deferred and amortized over the life of the related loan using the straight-line method, which approximates the effective interest method. In-place lease values are amortized over the remaining lease term plus an estimate of the renewal term. Leasing commissions and legal costs are amortized on

a straight-line basis over the individual remaining lease years. The ranges of the terms of the agreements are as follows:

Deferred lease costs	1 - 15 years
Deferred financing costs	1 - 15 years
In-place lease values	Remaining lease term plus an estimate for renewal
Leasing commissions and legal costs	5 - 10 years

Results of Operations

Many of the variations in the results of operations, discussed below, occurred due to the transactions described above including the 2008 Acquisition Properties, the Mervyn's Properties and the Redevelopment Centers. For the comparison of the three months ended March 31, 2009 to the three months ended March 31, 2008, the "Same Centers" include all consolidated Centers, excluding the 2008 Acquisition Properties, the Mervyn's Properties and the Redevelopment Centers.

The "Redevelopment Centers" include The Oaks, Northgate Mall, Santa Monica Place and Shoppingtown Mall.

Unconsolidated joint ventures are reflected using the equity method of accounting. The Company's pro rata share of the results from these Centers is reflected in the Consolidated Statements of Operations as equity in income from unconsolidated joint ventures.

Comparison of Three Months Ended March 31, 2009 and 2008

Revenues:

Minimum and percentage rents (collectively referred to as "rental revenue") decreased by \$3.6 million, or 2.7%, from 2008 to 2009. The decrease in rental revenue is attributed to a decrease of \$2.9 million from the Mervyn's Properties and \$2.1 million from the Same Centers, offset in part by an increase of \$1.0 million from the Redevelopment Centers and an increase of \$0.4 million from the 2008 Acquisition Properties. The decrease in the revenues from the Same Centers is primarily attributable to decreases in lease termination income and amortization of above and below market leases.

Rental revenue includes the amortization of above and below market leases, the amortization of straight-line rents and lease termination income. The amortization of above and below market leases decreased from \$3.5 million in 2008 to \$3.0 million in 2009. The amortization of straight-lined rents decreased from \$1.4 million in 2008 to \$1.3 million in 2009. Lease termination income decreased from \$2.0 million in 2008 to \$1.1 million in 2009.

Tenant recoveries decreased \$2.7 million, or 4.1%, from 2008 to 2009. The decrease in tenant recoveries is attributed to a decrease of \$1.5 million from the Same Centers and a decrease of \$1.5 million from the Mervyn's Properties offset in part by an increase of \$0.2 million from the Redevelopment Centers. The decrease from Same Centers is due to a decrease of recoverable operating expenses, utilities and property taxes.

Management Companies' revenues decreased by \$1.2 million from 2008 to 2009, primarily due to a decrease in leasing and development fees from joint ventures and third-party managed properties.

Shopping Center and Operating Expenses:

Shopping center and operating expenses increased \$0.1 million, or 0.2%, from 2008 to 2009. The increase in shopping center and operating expenses is due to an increase of \$0.2 million from the Mervyn's Properties and \$0.1 million from the 2008 Acquisition Properties offset by a decrease of \$0.1 million from the Same Centers.

Edgar Filing: MACERICH CO - Form 10-Q

Management Companies' Operating Expenses:

The Management Companies' operating expenses increased \$5.1 million in 2009 from 2008 in connection with the implementation of the Company's workforce reduction plan in 2009.

REIT General and Administrative Expenses:

REIT general and administrative expenses increased by \$0.9 million from 2008 to 2009. The increase is primarily due to an increase in compensation expense in 2009.

Depreciation and Amortization:

Depreciation and amortization increased \$4.3 million from 2008 to 2009. The increase in depreciation and amortization is primarily attributed to an increase of \$1.8 million from the Same Centers, \$1.7 million from the Mervyn's Properties and \$0.4 million from the 2008 Acquisition Properties offset in part by a decrease of \$0.3 million from the Redevelopment Centers.

Interest Expense:

Interest expense decreased \$4.4 million from 2008 to 2009. The decrease in interest expense was primarily attributed to a decrease of \$6.1 million from borrowing on the Company's line of credit and \$2.5 million from the convertible senior notes ("Senior Notes") offset in part by an increase of \$2.7 million from the Redevelopment Centers and \$1.3 million from the Same Centers.

The decrease in interest expense on the Company's line of credit was due to a decrease in the weighted average interest rate of 5.36% in 2008 to 3.53% in 2009 due to lower LIBOR rates and spreads. The decrease in interest expense on the Senior Notes is due to the reduction of the Senior Notes outstanding from a weighted-average of \$950.0 million in 2008 to \$670.4 million in 2009.

The above interest expense items are net of capitalized interest, which decreased from \$7.1 million in 2008 to \$5.1 million in 2009 primarily due to a decrease in interest rates.

Gain on Early Extinguishment of Debt:

The Company recorded a gain of \$22.5 million on the early extinguishment of \$56.8 million of the Senior Notes in 2009 (See "Liquidity and Capital Resources".)

Equity in Income of Unconsolidated Joint Ventures:

The equity in income of unconsolidated joint ventures decreased \$6.4 million from 2008 to 2009. The decrease in equity in income of unconsolidated joint ventures is due to decreases of \$1.4 million from the Company's joint venture in Pacific Premier Retail Trust, \$0.9 million from the Company's joint venture in Tysons Corner and \$1.6 million from the Company's other joint ventures.

Gain on Sale or Write-Down of Assets:

The Company recorded a gain on sale of land in 2009 of \$1.3 million compared to \$0.7 million in 2008. Additionally, the Company recorded a write off of development costs of \$0.6 million in 2009.

Discontinued Operations:

Income from discontinued operations decreased \$99.9 million from 2008 to 2009. The decrease is primarily due to the \$99.3 million gain from the Rochester Redemption in 2008. See "Management's Overview and Summary Acquisitions and Dispositions." As a result of the Rochester Redemption, the Company classified the results of operations for these properties to discontinued operations for all periods presented.

Edgar Filing: MACERICH CO - Form 10-Q

Funds From Operations ("FFO"):

Primarily as a result of the factors mentioned above, FFO diluted increased 11.2% from \$92.5 million in 2008 to \$102.8 million in 2009. For disclosure of net income, the most directly comparable GAAP financial measure, for the periods and a reconciliation of FFO and FFO diluted to net income available to common stockholders, see "Funds from Operations."

Operating Activities:

Cash flow from operations decreased from \$35.0 million in 2008 to \$21.6 million in 2009. The decrease was primarily due to changes in assets and liabilities in 2008 compared to 2009 and the results at the Centers as discussed above.

Investing Activities:

Cash used in investing activities decreased from \$244.8 million in 2008 to \$2.2 million in 2009. The decrease in cash used in investing activities was primarily due to decreases in contributions to unconsolidated joint ventures of \$101.5 million and capital expenditures of \$71.2 million and an increase in distributions from unconsolidated joint ventures of \$54.0 million. In addition, the Company incurred \$18.9 million in expenditures for the Rochester Redemption in 2008.

The decrease in contributions to unconsolidated joint ventures is primarily due to the Company's purchase of a pro rata share of The Shops at North Bridge for \$155.0 million in 2008. The decrease in capital expenditures is primarily due to the purchase of a ground leasehold and fee simple interest in two Mervyn's freestanding stores in 2008 and the decrease in development activity in 2009. See "Management's Overview and Summary Acquisitions and Dispositions for a discussion of the acquisition of The Shops at North Bridge and Mervyn's. The increase in distributions from unconsolidated joint ventures is due to the receipt of the Company's pro rata share of loan proceeds from refinancing activities at various unconsolidated joint ventures in 2009.

Financing Activities:

Cash flow from financing activities decreased \$195.1 million from 2008 to 2009. The decrease in cash from financing activities was primarily attributed to decreases in cash provided by mortgages, bank and other notes payable of \$140.0 million and payments on mortgages, bank and other notes payable of \$23.4 million. In addition, the Company paid \$31.0 million to repurchase and retire \$56.8 million of Senior Notes (see "Liquidity and Capital Resources.")

Liquidity and Capital Resources

Although general market liquidity is constrained, the Company anticipates meeting its liquidity needs for its operating expenses and debt service and dividend requirements through cash generated from operations, working capital reserves and/or borrowings under its unsecured line of credit. Additional liquidity will also be provided as a result of the Company's announced payment of a portion of its quarterly dividend in stock, which is payable on June 22, 2009. (See Note 19 Subsequent Events of the Company's Consolidated Financial Statements). The form, timing and or amount of future dividends will be at the discretion of the Company's Board of Directors.

Edgar Filing: MACERICH CO - Form 10-Q

The following tables summarize capital expenditures incurred at the Centers:

(Dollars in thousands)	For the Three Months Ended March 31,	
	2009	2008
<i>Consolidated Centers:</i>		
Acquisitions of property and equipment	\$ 3,159	\$ 38,057
Development, redevelopment and expansion of Centers	58,853	89,115
Renovations of Centers	2,510	4,992
Tenant allowances	1,566	3,023
Deferred leasing charges	6,617	6,031
	\$72,705	\$141,218
 <i>Joint Venture Centers (at Company's pro rata share):</i>		
Acquisitions of property and equipment	\$ 1,176	\$262,271
Development, redevelopment and expansion of Centers	14,999	6,581
Renovations of Centers	787	5,544
Tenant allowances	844	2,082
Deferred leasing charges	876	1,608
	\$18,682	\$278,086

Management expects levels to be incurred in future years for tenant allowances and deferred leasing charges to be comparable or less than 2008 and that capital for those expenditures will be available from working capital, cash flow from operations, borrowings on property specific debt or unsecured corporate borrowings. The Company expects to incur between \$80 million to \$150 million in 2009 for development, redevelopment, expansion and renovations. Capital for these major expenditures, developments and/or redevelopments has been, and is expected to continue to be, obtained from a combination of equity or debt financings, which include borrowings under the Company's line of credit and construction loans. In addition, the Company has generated additional liquidity in the past through joint venture transactions and the sale of non-core assets, and may do so in the future. Furthermore, equity financing may be available to the Company through a shelf registration statement the Company filed in November 2008, which registered an unspecified amount of common stock, preferred stock, debt securities, warrants, rights and units.

Current turmoil in the capital and credit markets has significantly limited access to debt and equity financing for many companies. As demonstrated by recent activity, the Company was able to access capital throughout 2008 and the three months ended March 31, 2009. However, there is no assurance the Company will be able to do so in future periods or on similar terms and conditions. Many factors impact the Company's ability to access capital, such as its overall debt level, interest rates, interest coverage ratios and prevailing market conditions. As a result of the volatility in the capital and commercial lending markets, the Company may be required to finance more of its business activities with borrowings under its line of credit rather than with public and private unsecured debt and equity securities, fixed-rate mortgage financing and other traditional sources. In addition, in the event that the Company has significant tenant defaults as a result of the overall economy and general market conditions, the Company could have a decrease in cash flow from operations, which could create further borrowings under its line of credit. These events could result in an increase in the Company's proportion of variable-rate debt, which could cause it to become subject to increased interest rate fluctuations in the future.

The Company's total outstanding loan indebtedness at March 31, 2009 was \$8.0 billion (including \$2.2 billion of unsecured debt and \$2.0 billion of its pro rata share of joint venture debt). The majority

of the Company's debt consists of fixed-rate conventional mortgages payable collateralized by individual properties. Assuming the closing of the Company's current loan commitments, approximately \$143.6 million of its indebtedness matures in 2009 (excluding loans with extensions). The Company expects that all 2009 debt maturities will be refinanced, extended and/or paid off from the Company's line of credit.

The Senior Notes bear interest at 3.25%, payable semiannually, are senior unsecured debt of the Company and are guaranteed by the Operating Partnership. Prior to December 14, 2011, upon the occurrence of certain specified events, the Senior Notes will be convertible at the option of the holder into cash, shares of the Company's common stock or a combination of cash and shares of the Company's common stock, at the election of the Company, at an initial conversion rate of 8.9702 shares per \$1 principal amount. On and after December 15, 2011, the Senior Notes will be convertible at any time prior to the second business day preceding the maturity date at the option of the holder at the initial conversion rate. The initial conversion price of approximately \$111.48 per share represented a 20% premium over the closing price of the Company's common stock on March 12, 2007, the date of issuance of the Senior Notes. The initial conversion rate is subject to adjustment under certain circumstances. Holders of the Senior Notes do not have the right to require the Company to repurchase the Senior Notes prior to maturity except in connection with the occurrence of certain fundamental change transactions. During the three months ended March 31, 2009, the Company repurchased and retired \$56.8 million of the Senior Notes for \$30.7 million and recorded a gain on extinguishment of \$22.5 million. The repurchase was funded by borrowings under the Company's line of credit. The carrying value of the Senior Notes at March 31, 2009 and December 31, 2008 was \$636.7 million and \$687.7 million, respectively, which included an unamortized discount of \$33.6 million and \$39.5 million, respectively. On April 21, 2009, the Company repurchased and retired an additional \$25.0 million of the Senior Notes for \$17.0 million, resulting in gain on early extinguishment of debt of approximately \$6.6 million.

The Company purchased two capped calls ("Capped Calls") from affiliates of the initial purchasers of the Senior Notes that effectively increased the conversion price to approximately \$130.06, which represents a 40% premium to the March 12, 2007 closing price of \$92.90 per common share of the Company. The Capped Calls are expected to generally reduce the potential dilution upon exchange of the Senior Notes in the event the market value per share of the Company's common stock, as measured under the terms of the relevant settlement date, is greater than the strike price of the Capped Calls. If, however, the market value per share of the Company's common stock exceeds \$130.06 per common share, then the dilution mitigation under the Capped Calls will be capped, which means there would be dilution from exchange of the Senior Notes to the extent that the market value per share of the Company's common stock exceeds \$130.06.

The Company has a \$1.5 billion revolving line of credit that matures on April 25, 2010 with a one-year extension option. The interest rate fluctuates from LIBOR plus 0.75% to LIBOR plus 1.10% depending on the Company's overall leverage. The Company has an interest rate swap agreement that effectively fixed the interest rate on \$400.0 million of the outstanding balance of the line of credit at 6.23% until April 25, 2011. As of March 31, 2009 and December 31, 2008, borrowings outstanding were \$1.2 billion and \$1.1 billion, at an average interest rate, excluding the \$400.0 million swapped portion, of 1.78% and 3.19%, respectively.

The Company obtained a five-year term loan that bears interest at LIBOR plus 1.50% and matures on April 26, 2010. The loan is covered by an interest rate swap agreement that effectively fixed the interest rate of the term loan at 6.30% until maturity. As of March 31, 2009 and December 31, 2008, the note had a balance outstanding of \$444.4 million and \$446.3 million, respectively, with an effective interest rate of 6.50%.

At March 31, 2009, the Company was in compliance with all applicable loan covenants under its debt agreements.

At March 31, 2009, the Company had cash and cash equivalents available of \$79.5 million.

Off-Balance Sheet Arrangements:

The Company has an ownership interest in a number of unconsolidated joint ventures as detailed in Note 4 to the Company's Consolidated Financial Statements included herein. The Company accounts for those investments that it does not have a controlling interest or is not the primary beneficiary using the equity method of accounting and those investments are reflected on the Consolidated Balance Sheets of the Company as "Investments in Unconsolidated Joint Ventures."

In addition, certain joint ventures also have debt that could become recourse debt to the Company or its subsidiaries, in excess of the Company's pro rata share, should the joint ventures be unable to discharge the obligations of the related debt.

The following reflects the maximum amount of debt principal that could recourse to the Company at March 31, 2009 (in thousands):

Property	Recourse Debt	Maturity Date
Boulevard Shops	\$ 4,280	12/17/2010
Chandler Village Center	4,375	1/15/2011
The Market at Estrella Falls	8,444	6/1/2011
	\$ 17,099	

Additionally, as of March 31, 2009, the Company is contingently liable for \$19.7 million in letters of credit guaranteeing performance by the Company of certain obligations relating to the Centers. The Company does not believe that these letters of credit will result in a liability to the Company.

Long-term Contractual Obligations:

The following is a schedule of long-term contractual obligations as of March 31, 2009 for the consolidated Centers over the periods in which they are expected to be paid (in thousands):

Contractual Obligations	Total	Payment Due by Period			
		Less than 1 year	1 - 3 years	3 - 5 years	More than five years
Long-term debt obligations (includes expected interest payments)	\$6,285,080	\$470,894	\$3,391,604	\$1,535,260	\$ 887,322
Operating lease obligations(1)	778,478	7,501	15,845	15,001	740,131
Purchase obligations(1)	97,902	97,902			
Other long-term liabilities(2)	329,491	329,491			
	\$7,490,951	\$905,788	\$3,407,449	\$1,550,261	\$1,627,453

(1) See Note 14 Commitments and Contingencies of the Company's Consolidated Financial Statements.

(2) Amount includes \$2,417 of unrecognized tax benefits associated with FIN 48. See Note 16 Income Taxes of the Company's Consolidated Financial Statements.

Funds From Operations

The Company uses FFO in addition to net income to report its operating and financial results and considers FFO and FFO-diluted as supplemental measures for the real estate industry and a supplement to GAAP measures. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income (loss) computed in accordance with GAAP, excluding gains (or losses) from extraordinary items and sales of depreciated operating properties, plus real estate

Edgar Filing: MACERICH CO - Form 10-Q

related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO on the same basis. FFO and FFO on a fully diluted basis are useful to investors in comparing operating and financial results between periods. This is especially true since FFO excludes real estate depreciation and amortization as the Company believes real estate values fluctuate based on market conditions rather than depreciate in value ratably on a straight-line basis over time. FFO on a fully diluted basis is one of the measures investors find most useful in measuring the dilutive impact of outstanding convertible securities. FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income as defined by GAAP and is not indicative of cash available to fund all cash flow needs. FFO, as presented, may not be comparable to similarly titled measures reported by other real estate investment trusts. The reconciliation of FFO and FFO-diluted to net income available to common stockholders is provided below.

The following reconciles net income available to common stockholders to FFO and FFO-diluted (dollars in thousands):

	For the Three Months Ended March 31,	
	2009	2008(4)
Net income available to common stockholders	\$ 14,016	\$ 92,610

Convertible preferred stock		3,067
Share and unit-based compensation plans		328
 FFO diluted(3)	 88,551	 88,290

-
- (1) Unconsolidated assets are presented at the Company's pro rata share.
- (2) Calculated based upon basic net income as adjusted to reach basic FFO. As of March 31, 2009 and 2008, 11.7 million and 12.6 million OP Units were outstanding, respectively.
- (3) The computation of FFO diluted shares outstanding includes the effect of share and unit-based compensation plans and the Senior Notes using the treasury stock method. It also assumes the conversion of MACWH, LP common and preferred units to the extent that they are dilutive to the FFO computation. The MACWH, LP preferred units were antidilutive to the calculations at March 31, 2009 and 2008 and were not included in the above calculations.
- (4)

Edgar Filing: MACERICH CO - Form 10-Q

Net income available to common stockholders and FFO have been reduced by \$3.0 million and \$3.5 million, respectively, due to the retrospective application of FSP APB 14-1, which the Company adopted on January 1, 2009.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's primary market risk exposure is interest rate risk. The Company has managed and will continue to manage interest rate risk by (1) maintaining a ratio of fixed rate, long-term debt to total debt such that floating rate exposure is kept at an acceptable level, (2) reducing interest rate exposure on certain long-term floating rate debt through the use of interest rate caps and/or swaps with appropriately matching maturities, (3) using treasury rate locks where appropriate to fix rates on anticipated debt transactions, and (4) taking advantage of favorable market conditions for long-term debt and/or equity.

The following table sets forth information as of March 31, 2009 concerning the Company's long term debt obligations, including principal cash flows by scheduled maturity, weighted average interest rates and estimated fair value ("FV") (dollars in thousands):

	For the years ended March 31,								
	2010	2011	2012	2013	2014	Thereafter	Total	FV

(1) Fixed rate debt includes the \$444.4 million floating rate term note and \$400.0 million of the line of credit balance. These amounts have effective fixed rates over the remaining terms due to swap agreements as discussed below.

The consolidated Centers' total fixed rate debt at March 31, 2009 and December 31, 2008 was \$4.3 billion and \$4.4 billion, respectively. The average interest rate on fixed rate debt at March 31, 2009 and December 31, 2008 was 6.06% and 5.72%, respectively. The consolidated Centers' total floating rate debt at March 31, 2009 and December 31, 2008 was \$1.7 billion and \$1.6 billion, respectively. The average interest rate on floating rate debt at March 31, 2009 and December 31, 2008 was 2.46% and 3.32%, respectively.

The Company's pro rata share of the Joint Venture Centers' fixed rate debt at March 31, 2009 and December 31, 2008 was \$1.8 billion and \$1.8 billion, respectively. The average interest rate on fixed rate debt at March 31, 2009 and December 31, 2008 was 5.83%. The Company's pro rata share of the Joint Venture Centers' floating rate debt at March 31, 2009 and December 31, 2008 was \$198.5 million and \$181.5 million, respectively. The average interest rate on the floating rate debt at March 31, 2009 and December 31, 2008 was 1.86% and 2.36%, respectively.

The Company uses derivative financial instruments in the normal course of business to manage or hedge interest rate risk and records all derivatives on the balance sheet at fair value in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" (See Note 5 Derivative Instruments and Hedging Activities of the Company's Consolidated Financial Statements).

Edgar Filing: MACERICH CO - Form 10-Q

The following are outstanding derivatives at March 31, 2009 (amounts in thousands):

Property/Entity	Notional Amount	Product	Rate	Maturity	Company's Ownership	Fair Value(1)
Camelback Colonnade	\$ 41,500	Cap	8.54%	11/15/2009	75%	\$
Desert Sky Mall	51,500	Cap	7.65%	3/15/2010	50%	
La Cumbre Plaza	30,000	Cap	7.12%	8/9/2009	100%	
Metrocenter Mall	112,000	Cap	7.25%	2/15/2010	15%	
Metrocenter Mall	21,597	Cap	7.25%	2/15/2010	15%	
Panorama Mall	50,000	Cap	6.65%	3/1/2010	100%	
Superstition Springs Center	67,500	Cap	8.63%	9/9/2009	33%	
The Oaks	150,000	Cap	6.25%	7/1/2010	100%	
The Operating Partnership	450,000	Swap	4.80%	4/15/2010	100%	(12,086)
The Operating Partnership	400,000	Swap	5.08%	4/25/2011	100%	(11,354)
Westside Pavilion	175,000	Cap	5.50%	6/1/2010	100%	

(1) Fair value at the Company's ownership percentage.

Interest rate cap agreements ("Cap") offer protection against floating rates on the notional amount from exceeding the rates noted in the above schedule, and interest rate swap agreements ("Swap") effectively replace a floating rate on the notional amount with a fixed rate as noted above.

In addition, the Company has assessed the market risk for its floating rate debt and believes that a 1% increase in interest rates would decrease future earnings and cash flows by approximately \$18.9 million per year based on \$1.9 billion outstanding of floating rate debt at March 31, 2009.

The fair value of the Company's long-term debt is estimated based on discounted cash flows at interest rates that management believes reflect the risks associated with long-term debt of similar risk and duration.

Item 4. Controls and Procedures

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, management carried out an evaluation, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on their evaluation as of March 31, 2009, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is (a) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and (b) is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In addition, there has been no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15(d)-15(f) under the Securities Exchange Act of 1934) that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
