The notice of annual general meeting and Proxy Statement accompanying this letter provide an outline of the business to be conducted at the meeting. At the meeting, the financial statements for the year ended December 31, 2016 and the auditor's report thereon will be laid before the shareholders in accordance with Bermuda law, and you will be asked to (i) elect four Class I directors to serve three-year terms on the Board of Directors until the 2020 annual general meeting of shareholders, (ii) appoint Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2017 and to authorize the Company's Audit Committee of the Board of Directors to determine their remuneration, (iii) provide a nonbinding, advisory vote to approve named executive officer compensation and (iv) consider such other business as may properly come before the annual general meeting. I will also report on our progress during the past year and respond to shareholders' questions.

It is important that your shares be represented at the annual general meeting, as a quorum of the shareholders must be present, either in person or by proxy, in order for the annual general meeting to take place. Even if you plan to attend the annual general meeting, we recommend that you vote your shares in advance as described above so that your vote will be counted if you later decide not to attend the annual general meeting. Your vote and participation in our governance are very important to us. Returning the proxy does not deprive you of your right to attend the meeting and to vote your shares in person.

BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Board Composition

As of the date of this Proxy Statement, our Board has 11 directors. Our bye-laws provide that the Board shall consist of not less than five directors and not more than 15 directors, and the number of directors may be changed only by resolution adopted by the affirmative vote of a majority of the entire Board. No decrease in the number of directors may shorten the term of any incumbent director.

On January 18, 2017, our former financial sponsors (consisting of funds affiliated with Warburg Pincus LLC and The Blackstone Group) completed an offering and sale of our

common shares that resulted in them no longer controlling a majority of the voting power of our outstanding common shares (the "January Offering"). On March 8, 2017, pursuant to the terms of our bye-laws, our Board was divided into three classes of directors as a result of this event. Directors are now elected by shareholders for terms of three years and hold office until their successors are elected and qualified. One of the three classes is elected each year to succeed the directors whose terms are expiring.

The current composition of our three classes of directors is set forth below.

Class I Directors (term expires in 2017)

Andrew G. Inglis

Brian F. Maxted

Chris Tong

Sir Richard Dearlove

Class II Directors (term expires in 2018)

Board Leadership Structure

The Board recognizes that one of its key responsibilities is to evaluate and determine its optimal leadership structure so as to provide independent oversight of management. The Board understands that the optimal Board leadership structure may vary as circumstances warrant. Consistent with this understanding, non-management directors consider the Board's leadership structure on an annual basis.

The Board has determined that the optimal Board leadership structure for us is served by the role of Chairman of the Board being held by our

Chief Executive Officer, Mr. Inglis, because it believes that having one leader serving as both the Chairman and Chief Executive Officer provides decisive, consistent and effective leadership.

The Board does not currently have a standing presiding director, though it may designate a director as the presiding director to lead the meetings of the independent directors, if it deems appropriate, in accordance with the principles set out in our Corporate Governance Guidelines.

Committees of the Board of Directors

As of March 29, 2017, our Board has an Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee, Health, Safety and Environmental Committee, External Affairs and Political Risk Committee and Exploration Assurance Committee, and may have such other committees as the Board shall determine from time to time.

As a result of the January Offering, we no longer qualify as a "controlled company" for purposes of certain exemptions from NYSE corporate governance standards. Pursuant to the phase-in periods stipulated by the NYSE rules, we are required to have at least one independent director on each of our Compensation and Nominating and Corporate Governance Committees as of the date we ceased to qualify as a controlled company, a majority of

independent directors on those committees by April 18, 2017, which is 90 days after the date we ceased to qualify as a controlled company, and fully independent Compensation and Nominating and Corporate Governance Committees by January 18, 2018, which is one year after the date we ceased to qualify as a controlled company. We are also now required to perform an annual performance evaluation of our Compensation and Nominating and Corporate Governance Committees (although we have historically been voluntarily conducting such an evaluation for the Compensation Committee). As of the date hereof, we are in compliance with these additional requirements.

As of March 29, 2017, each of the standing Committees of the Board had the composition and responsibilities described below.

Table of Contents

Tong and Darricarrère and Sir Richard Dearlove are "independent directors" as defined by the NYSE rules and Rule 10A-3 of the Exchange Act. Our Audit Committee is authorized to:

Meetings of the Board of Directors and Committees

The Board held five meetings during 2016 and did not take any actions by unanimous written consent. During 2016, no incumbent director (other than Mr. Landy) attended fewer than 75% of the aggregate total number of meetings of the Board held during the period in

which he was a director and of the total number of meetings held by all of the Committees of the Board on which he served. We expect, but do not require, our directors to attend our annual general meetings of shareholders.

The following table shows the membership of, and number of meetings held by, the Board and each standing Committee during 2016:

Director Independence

As a result of the January Offering, we no longer qualify as a "controlled company" for purposes of certain exemptions from the NYSE corporate governance standards, including director independence. Pursuant to the phase-in periods stipulated by the NYSE rules, we are required to have a majority independent Board by January 18, 2018, which is one year after the date we ceased to qualify as a controlled company.

The Board has reviewed the materiality of any relationship that each of our directors has with us, either directly or indirectly. Based on this review, the Board has determined that Dr. Wright, Sir Richard Dearlove and Messrs. Darricarrère, Foley, Krieger, Landy, Melwani, Ogunlesi and Tong are "independent directors" as defined by the NYSE rules and Rule 10A-3 of the Exchange Act. Accordingly, as of the date hereof, we are in compliance with the NYSE's majority independent Board requirement.

There are no family relationships among any of our executive officers, directors or nominees for director.

Board's Role in Risk Oversight

Assessing and managing risk is the responsibility of the management of the Company. However, the Board has an active role, as a whole, and also at the committee level, in overseeing management of the Company's risks. The Board regularly reviews information regarding the Company's credit, liquidity and operations, as well as the risks associated with each.

Under its charter, the Audit Committee of the Board of the Company reviews and discusses with management the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures, including the Company's risk assessment and risk management policies. In addition, the Audit Committee oversees risks related to the Company's financial statements, the financial reporting process, accounting, tax and legal matters as well as liquidity risks and guidelines and policies and procedures for monitoring and mitigating risks.

Because overseeing risk is an ongoing process and inherent in our strategic decisions, the Board also discusses risk throughout the year in relation to specific proposed actions. The Board's other standing Committees oversee risks associated with their respective areas of responsibility. For example, the Compensation Committee considers the risks associated with our compensation policies and practices with respect to both executive compensation and compensation generally. See "Executive Compensation Compensation Risk Assessment" below. The Board is kept abreast of its Committees' risk oversight and other activities through reports of the Committee chairmen to the full Board.

Specifically relating to enterprise risk management during 2016, the Company performed an enterprise risk assessment to identify key risks and assess procedures for managing, monitoring and mitigating risks.

Nomination of Directors

The nominees for election to the Board at the annual general meeting were formally nominated by the Nominating and Corporate Governance Committee and such nominations were approved by the full Board. Although the Board will consider nominees recommended by

Table of Contents

shareholders, the Board has not established any specific procedures for shareholders to follow to recommend potential director nominees for consideration. At this time, the Board has not established any specific written procedures for identifying and evaluating potential director nominees or any minimum qualifications or skills for directors, although we generally consider a nominee's diversity, experience, industry knowledge and background. To ensure we have a diverse group of potential director nominees for

consideration, our nominee search includes candidates from both corporate positions beyond the executive suite and from non-corporate environments (e.g., government, academia and non-profit organizations), and includes both male and female candidates. The Nominating and Corporate Governance Committee has adopted a resolution to consider gender diversity as one of the factors in identifying qualified candidates for membership on the Board.

Compensation Committee Interlocks and Insider Participation

The current members of our Compensation Committee are Messrs. Landy, Melwani and Ogunlesi. Mr. Melwani is the Chairman of the Committee. No member of the Compensation Committee has been at any time an employee or an officer of ours. None of our executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of our Board or Compensation Committee.

Messrs. Landy and Melwani have directed that the fees they are entitled to receive as compensation for serving on our Board be paid or remitted to our former financial sponsors. See "Certain Relationships and Related Transactions" and "Director Compensation 2016 Director Compensation" below.

Code of Business Conduct and Ethics

The Board has adopted a Code of Business Conduct and Ethics applicable to our employees, directors and officers, in accordance with applicable U.S. federal securities laws and the corporate governance rules of the NYSE. Any waiver of this Code may be made only by the Board. In accordance with applicable U.S. federal securities laws and the corporate governance rules of the NYSE, we will provide any person, without charge and upon request, with a copy of our Code of Business Conduct and Ethics. Shareholders Agreement

In 2011, we entered into a shareholders agreement with affiliates of our former financial sponsors pursuant to which our former financial sponsors, collectively, have the right to currently designate six members of our Board. Each former financial sponsor has the right to designate: (i) up to three directors (or 25% of the Board, rounded to the nearest whole number) if it owns 20% or more of the issued and outstanding common shares eligible to vote at an annual general meeting of shareholders and 50% or more of the common shares owned by such former financial sponsor immediately prior to the consummation of the IPO; and (ii) one director (or 12.5% of the Board, rounded to the nearest whole number) if it owns 7.5% or more of the issued and outstanding

common shares eligible to vote at an annual general meeting of shareholders. Following the January Offering, after our former financial sponsors no longer constituted a group beneficially owning more than 50% of the Company's voting power, each former financial sponsor entitled to designate a director has the right to nominate one of its director designees to each of the Compensation Committee and the Nominating and Corporate Governance Committee. A former financial sponsor will cease to have the right to designate committee members in the event that the former financial sponsor holds less than 7.5% of the issued and outstanding common shares eligible to vote at an annual general meeting of shareholders.

Messrs. Foley, Krieger, Landy and Melwani have directed that the fees they are entitled to receive as compensation for serving on our Board be paid or remitted to our former financial sponsors. Procedures for Review of Transactions with Related Persons

We have adopted a set of written related-party transaction policies designed to minimize potential conflicts of interest arising from any dealings we may have with our affiliates and to provide appropriate procedures for the

disclosure, approval and resolution of any real or potential conflicts of interest which may exist from time to time. Such policies provide, among other things, that all related-party transactions, including any loans between us, our former financial sponsors and our affiliates, but excluding compensation arrangements, require approval by our Nominating and Corporate Governance Committee, after considering all relevant facts and circumstances, including, without limitation, the commercial reasonableness of the terms, the benefit and perceived benefit, or lack thereof, to us, opportunity costs of alternative transactions, the materiality and character of the related party's direct or indirect interest, and the actual or apparent conflict of interest of the related party, and after determining that the transaction is in, or not inconsistent with, our and our shareholders' best interests. There have been no related-party transactions since the adoption of related-party transaction policies where such policies were not followed.

STOCK OWNERSHIP MATTERS

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, officers and persons who beneficially own more than 10% of our common shares to file initial reports of ownership on Form 3 and reports of changes of ownership on Forms 4 and 5 with the SEC. These officers, directors and 10% beneficial owners are also required to furnish us with copies of all Section 16(a) forms that they file. Specific due dates for these reports have been established by regulation, and we are required to report in this Proxy Statement any failure to file by these dates during 2016.

To our knowledge, based solely on our review of the copies of such forms received by us, we believe that all Section 16(a) filing requirements applicable to our officers, directors and 10% beneficial owners have been complied with for 2016, with the exception of the following Forms 4 filed late: (i) one Form 4 relating to one transaction for each of Messrs. Doughty, Haas and Garrett and (ii) one Form 4 relating to one transaction for each of our executive officers (other than Mr. Anderson).

Table of Contents**EXECUTIVE COMPENSATION****Compensation Discussion and Analysis**

This Compensation Discussion and Analysis ("CD&A") describes our executive compensation philosophy, process and objectives and the elements of our 2016 compensation program for our named executive officers and gives the context for understanding and evaluating the compensation information contained in the tables and related disclosures that follow. The table below sets forth our named executive officers for 2016:

Name	Title
Andrew G. Inglis	Chairman and Chief Executive Officer
Thomas P. Chambers	Senior Vice President and Chief Financial Officer
Brian F. Maxted	Chief Exploration Officer
Christopher J. Ball	Senior Vice President, Planning and Business Development
Michael J. Anderson	Senior Vice President, External Affairs, Government Relations and Security

Executive Summary

Our executive compensation program is designed to attract, motivate and retain highly experienced individuals who are critical to successfully delivering on our business plan. In 2016, consistent with our historical practice, we continued to emphasize performance-based compensation by awarding a majority of the compensation for our executives in the form of annual cash bonuses and long-term equity incentive awards, both of which are designed to tie our executives' pay directly to Company performance.

The incentive compensation that we granted to our named executive officers for 2016 was weighted more toward annual rather than long-term incentives relative to prior years. This departure from our historical practice resulted from the different circumstances existing at the times at which the Committee granted the long-term incentive awards (early 2016) versus the annual bonuses (early 2017). Given the widespread commodity price volatility in early 2016, and to avoid undue dilution to our shareholders, the Committee took a disciplined approach to long-term incentives in 2016 and granted our named executive officers annual equity awards having a grant date value that was significantly lower than in recent years.

The annual bonuses that the Committee granted in January 2017 to our named executive

officers for 2016 were higher than in recent years, which reflected the significant performance successes achieved for the year, including consummating a transaction with BP p.l.c. ("BP") that represented a transformational accomplishment for Kosmos.

Despite this departure from prior years' practice, we believe that our compensation program for 2016 effectively incentivized our executives to lead the Company to achieve the significant exploration and operating successes we experienced this year. We are strategically well-positioned among our competitors (notwithstanding the volatility in worldwide oil prices that continued during 2016) in large part due to our strong balance sheet, our unique portfolio of exploration prospects, production and development assets and the significant experience and expertise of our executive management team.

Going forward, we expect to return to our historical practice of delivering a more significant portion of our executive's overall incentive compensation in the form of long-term equity incentive awards, which we believe are a critical tenet of our pay-for-performance philosophy and align our executives' interests with those of our shareholders.

Table of Contents

2016 Business Highlights

Below we have highlighted some of our key financial, operating and strategic performance results for 2016 that are focused on positioning the Company successfully for ongoing value creation and that informed our executive compensation decisions in 2016.

We experienced no lost time incidents in 2016 (fourth year in a row) and achieved a "total recordable incident rate" of 1.3 (15% below our stretch goal).

In the third quarter, we commenced first oil from the TEN Project in August 2016, our second major development in Ghana. This project was completed on time and on budget.

In the first-half of 2016, we successfully drilled the Teranga exploration well in Senegal and identified approximately 5 trillion cubic feet of gas resource. We also successfully executed an appraisal program which proved up 15 trillion cubic feet (TCF) of gas in the Tortue discovery. This bolsters our view that we have opened one of the largest new petroleum systems on the Atlantic Margin in the last 15 years. Additionally, with this discovery, we continue our 100% exploration success rate offshore Mauritania and Senegal.

In the fourth-quarter of 2016, we entered into a partnership with BP to continue to efficiently explore and develop our current and potential future Mauritania and Senegal discoveries (which we refer to as the "BP Transaction"). The BP Transaction will combine our exploration expertise with the financial capability and deepwater development and liquefied natural gas (LNG) expertise of BP. As consideration for the BP Transaction, we will receive \$916 million in fixed consideration as well as a contingent bonus of up to \$2 per barrel, for up to 1 billion barrels of liquids, structured as a production royalty, subject to a future liquids discovery and oil price. The fixed consideration by itself represents an approximate 2.5 times return on our proportional investment. This transaction will enable us to deliver on the development of the Greater Tortue gas project as well as to accelerate the second phase of exploration in Mauritania and Senegal.

We mitigated the financial impact resulting from lower production from the Jubilee field due to failure of the FPSO turret bearing, through active engagement with our partners, stakeholders and insurers. Based on the confirmation of coverage of the claims under both Hull and Machinery (H&M) and Loss of Production Insurance (LOPI) policies, the value of the Jubilee field is intact and the impact to Kosmos is substantially mitigated through a combination of the reestablishment of field production, the LOPI coverage of the revenue shortfall and additional costs and expenses covered by our LOPI and H&M policies. As a result of these efforts, we ended the year with approximately \$1.2 billion in liquidity and were able to exceed our revenue projections by \$85 million.

We delivered a net reserve replacement ratio of 105%, representing the fourth consecutive year with greater than 100% reserve replacement.

With a focus on balance sheet strength and preserving liquidity in a low price cycle, we were able to execute our capital program under budget and manage our administrative expense to also achieve significant cost savings. Our capital spending program came at \$647 million versus a budget of \$799 million and a stretch target of \$659 million. Net cash G&A expense came in at approximately 30% below budget, the third consecutive year we were able to reduce net G&A costs. This financial discipline enabled us to become free cash flow positive in the fourth quarter.

In 2016, our shareholders saw an increase of approximately 31% in the value of our shares, which we attribute in large part to our operational achievements, disciplined investment

strategy and focus on providing significant long-term value opportunities. Despite this increased share value and our exploration, safety and operational successes over the past year, we

Table of Contents

remain focused on translating this value into our share price over the long term.

In our effort to increase long-term value for our shareholders, we intend to continue our business strategy which focuses on achieving four key objectives: (1) maximize the value of our Ghana assets; (2) develop our discovered resources offshore Mauritania and Senegal; (3) continue to explore, appraise and develop the deepwater basin offshore Mauritania and Senegal with our partners to further grow value;

and (4) increase value further through a high-impact exploration program designed to unlock new petroleum systems. We are committed to strengthening our performance-driven, team-based culture and attracting and retaining top talent that is intensely focused on optimizing shareholder value. We believe that our compensation philosophy and approach will continue to retain and motivate our executives to position us for future growth and success in both the short and long term.

2016 Key Compensation Decisions

We believe our executive compensation program provides effective incentives to our named executive officers to lead the Company to achieve industry-leading strategic and operational performance and to position the Company for future growth and success in spite of the challenging current external environment.

With the help of its external compensation consultant, Meridian Compensation Partners, LLC ("Meridian"), our Compensation Committee carefully considered the relevant external and internal economic and business factors affecting named executive officer pay for 2016.

Recognizing the evolution of the Company and taking into account the current state of the oil and gas industry, as well as the competitive market for talented executives, our Compensation Committee took a measured approach to our executive compensation program in 2016, focusing on supporting the Company's strategic objectives and further aligning our named executive officer's long-term interests with those of our shareholders, as described below.

After a comprehensive review and evaluation of our executive compensation program, and in light of the prolonged volatility in worldwide oil and gas prices and its effect on our share price, we made the following key executive compensation decisions for 2016:

Base Salaries: The Compensation Committee determined not to increase the base salaries of our named executive officers for 2016, except for an increase in Mr. Anderson's base salary from \$350,000 to \$425,000 to reflect his significant contributions as a member of the Company's senior leadership team and the expansion of his role to include overseeing all of our local exploration offices.

Annual Cash Bonuses: Following the end of the 2016 performance year, based on the Company's strong achievement of KPIs and significant operational and exploration successes (including the BP Transaction, a transformational accomplishment for Kosmos), we awarded 2016 annual cash bonuses to our named executive officers above the target performance levels. See " Analysis of 2016 Executive Compensation Decisions Annual Cash Bonus" below for more details.

Annual Equity Awards: In early 2016, the Compensation Committee reduced the grant date value of annual long-term incentive awards by more than 50% relative to the 2015 awards. The Committee held the number of shares constant across the 2015 and 2016 annual equity awards, with the 2016 awards being granted at a lower stock price. This action recognized the dilutive impact on our shareholders of equity awards granted at low stock prices. Since the beginning of 2016, our shareholders saw an increase of approximately 31% in the value of our shares, which we attribute in large part to the successful efforts of our senior leadership team to navigate us through

Table of Contents

the difficult prevailing commodity price environment. The 2016 annual equity awards granted to our named executive officers were awarded 50% in the form of service awards and 50% in the form of performance awards. The 2016 annual performance awards are scheduled to vest based on the Company's achievement of a specified relative total shareholder return ("TSR") goal, which further links our named executive officers' interests with those of our shareholders. See " Analysis of 2016 Executive Compensation Decisions Equity Incentive Awards" below.

2017 Key Compensation Decisions

In early 2017, after a comprehensive review and evaluation of our executive compensation program, our Compensation Committee approved the following:

Compensation Clawback Policy: A recoupment (or "clawback") policy permitting the Committee to recoup certain executive compensation in the event of a material financial restatement or certain acts of misconduct (as described in more detail in " Recoupment Policy" below).

Share Ownership Guidelines: Robust share ownership guidelines requiring our executive officers and directors to maintain significant ownership in our common shares (as described in more detail in " Share Ownership Guidelines" below).

Deferred Compensation Plan: A deferred compensation plan pursuant to which the members of our senior management team may defer base and cash bonus compensation on a pre-tax basis, with the Company providing a matching contribution on the first 8% deferred by each executive.

We believe that the compensation clawback policy and the share ownership guidelines will further align the interests of our executives and our shareholders and ensure that our executives are exposed to the same downside risk and upside potential as our shareholders. In addition, we believe that the deferred compensation plan provides another tool for us to attract and retain talented executives.

Compensation Philosophy

Compensation Objectives

Our executive compensation program is designed to:

attract, retain and motivate talented and experienced executives in the highly competitive oil and gas industry;

reward individual and corporate performance;

align the interests of our executives and shareholders by providing a substantial portion of the executives'

compensation in the form of long-term equity-based awards granted under our Long Term Incentive Plan ("LTIP"); and

motivate our executives to manage our business to meet our long-term objectives, create and increase shareholder value and reward the executives when shareholder value increases.

Table of Contents

Compensation Practices

We follow sound compensation practices to support our compensation objectives and align our executive compensation program with the interests of our shareholders.

What We Do

What We Don't Do

Pay-for-Performance we align pay and performance by awarding a majority of the compensation paid to our executives in the form of "at-risk" performance-based compensation linked to Company and individual performance. For 2016, variable compensation comprised approximately 75% of the total compensation paid to our Chief Executive Officer and, on average, 73% of the total compensation paid to our other named executive officers

No Excise Tax Gross-Ups we do not provide our executives with gross-ups for the excise tax that would be imposed on the executives under Section 4999 of the Internal Revenue Code, if they received "excess" payments and benefits in connection with a change in control

Balanced Short-Term and Long-Term Compensation we grant compensation to our executives that discourages short-term risk taking at the expense of long-term results

No Special Executive Defined Benefit Retirement Programs we do not provide special executive defined benefit retirement programs

Independent Compensation Consultant our Compensation Committee engages an independent compensation consultant

No Excessive Perquisites consistent with our pay-for-performance philosophy, we do not provide our executives with excessive perquisites

Share Ownership Guidelines our executive officers are subject to robust share ownership guidelines, further aligning their interests with our shareholders

No Guaranteed Payouts we do not grant cash or equity incentive compensation with guaranteed payouts

Clawback Policy we maintain a compensation recoupment policy applicable to our executive officers

No Hedging Shares we do not permit our employees, including our named executive officers, to engage in hedging transactions in the Company's securities, unless our General Counsel provides prior written authorization

Risk Mitigation we have strong risk and control policies, we take risk management into account in making executive compensation decisions, and we perform an annual risk assessment of our executive compensation programs

Elements of Our Executive Compensation Program

Since our inception, our executive compensation program has consisted primarily of base salaries, annual cash bonuses and long-term equity incentive awards. For each of these elements, we take into account the practices of our industry peers. We expect that these will remain the principal elements of our executive compensation program going forward although the relative proportions of each element, and the specific plan and award designs, will continue to evolve to support the strategy of the Company. Each element of our 2016 executive compensation program is described in more detail as follows:

Edgar Filing: Kosmos Energy Ltd. - Form DEF 14A

Table of Contents

Element	Objective and Basis
Equity incentive awards	<p>Link interests of executive officers and shareholders, as ultimate value realized depends on share price performance over the long term.</p> <p>Performance-vesting awards require comparable or superior share performance relative to industry peers.</p> <p>Encourage retention due to the multi-year service condition.</p>
<p>Variable Compensation</p> <p>Annual cash bonus</p>	<p>Motivate and reward Company and individual performance for the year.</p> <p>Bonus amounts payable to our named executive officers are based on the Compensation Committee's quantitative and qualitative assessment of the achievement of "key performance indicators", general Company performance and individual performance goals.</p>
<p>Fixed Compensation</p> <p>Base salary</p>	<p>Competitive for each role, taking into account experience and level of responsibility in companies of similar size, complexity and stage of development.</p> <p>A basic fixed component, which comprises a relatively modest portion of overall compensation.</p>
Retirement Plans	<p>We do not provide any supplemental executive defined benefit retirement plans.</p> <p>Our executive officers are eligible to participate in our 401(k) plan on the same basis as our employees generally. In 2017, we implemented a voluntary nonqualified deferred compensation program pursuant to which the Company matches the first 8% of compensation deferred by the executive.</p>
<p>Employee Benefits</p> <p>Health and Welfare Benefits</p>	

Our named executive officers (along with other employees at the level of Vice President and above) are entitled to the same health and welfare benefits during employment that are offered to U.S.-based employees generally, except that they are also entitled to executive long-term care, executive supplemental disability income insurance, up to \$5,000 reimbursement for financial planning services and payment of premiums for executive life insurance. Our Senior Vice Presidents and above (which includes our named executive officers) are also entitled to annual executive physicals.

Table of Contents

Base salaries represent a modest percentage of total compensation. Our executives have the opportunity to earn a significant portion of their compensation in the form of annual cash bonuses and long-term equity incentive awards. We refer to the cash bonus and long-term equity incentive awards collectively as variable compensation. The portion of each compensation element as a percentage of total compensation paid in 2016 to our CEO and the average of such compensation paid to our other named executive officers was as follows:

The incentive compensation that we granted to our named executive officers for 2016 was weighted more toward annual cash bonuses rather than long-term equity awards relative to prior years, which resulted from the different circumstances existing at the times at which our Compensation Committee granted the awards:

At the beginning of 2016, our Compensation Committee took a disciplined approach to the long-term incentive awards (both service and performance awards) granted to our executives by holding the number of total shares awarded constant in 2016 relative to 2015. As a result of the Company's reduced share price at the grant date, the annual equity awards granted to our named executive officers in 2016 had a significantly lower value relative to their 2015 annual equity awards. For more information on the long-term incentive awards granted to our named executive officers in 2016, see " Analysis of 2016 Executive Compensation Decisions 2016 Annual Equity Awards" on page 27.

In early 2017, our Compensation Committee awarded annual cash bonuses for 2016 performance that exceeded target bonus opportunities, based on the Company's operating, financial, safety and exploration performance (including the consummation of the BP Transaction, which represents a significant achievement for Kosmos). For more information on the 2016 annual cash bonus payments see " Analysis of 2016 Executive Compensation Decisions Annual Cash Bonuses" on page 30.

Executive Compensation Procedures
Role of the Compensation Committee

Our Compensation Committee is responsible for the approval, evaluation and oversight of our executive officer compensation and equity incentive compensation plans, policies

and programs. Compensation Committee members discuss compensation matters with each other outside regularly scheduled meetings. The Compensation Committee may delegate its

Table of Contents

authority to subcommittees or the Chairman of the Compensation Committee when it deems it appropriate and in the best interests of the Company. The Compensation Committee may also delegate to one or more officers of the Company the authority to make equity grants to employees other than our executive officers under the LTIP. As Chairman of the Compensation Committee, Mr. Melwani reports to the full Board regarding compensation matters.

The Compensation Committee meets outside the presence of our Chief Executive Officer and our other named executive officers to consider the appropriate compensation for our Chief Executive Officer. The Compensation Committee analyzes the performance of our Chief Executive Officer and determines his base

salary, any annual cash bonus and any grant of equity-based awards. For all other named executive officers, the Compensation Committee meets outside the presence of the named executive officers, except our Chief Executive Officer. Our Chief Executive Officer reviews the performance of each named executive officer (other than himself) with the Compensation Committee and makes recommendations to the Compensation Committee on the appropriate base salary, any annual bonus and any grant of equity-based awards. Our Chief Executive Officer has no role in the decision-making process for determining his compensation. For more on the Compensation Committee's responsibilities, see "Board of Directors, Board Meetings and Committees Committees of the Board of Directors Compensation Committee" above.

Role of Compensation Consultant

Since our IPO, the Compensation Committee has engaged Meridian to provide independent advice on executive compensation trends and issues, compensation practices within the oil and gas industry, and the design and structure of our executive compensation programs. Meridian has also provided similar information and input regarding outside director compensation.

Meridian reports directly and exclusively to the Compensation Committee, and at the Compensation Committee's direction Meridian works with management to review or prepare materials for the Compensation Committee's consideration. Meridian did not provide any other services to the Company or our management in 2016. Meridian participated in several conversations with the Compensation Committee and Committee Chairman in 2016 and early 2017 and developed materials for the Compensation Committee's consideration at meetings.

Meridian provided current information on industry compensation trends and practices and their application to Kosmos for the Company and the Compensation Committee to consider regarding compensation levels and incentive compensation design. Meridian updated the Compensation Committee on recent executive compensation trends in the oil and gas exploration and production industry as context for the Compensation Committee's annual compensation review.

For 2016, Meridian provided the Compensation Committee with information necessary for an evaluation of its independence in accordance with Section 10C-1 of the Exchange Act to determine whether a potential conflict of interest might arise in connection with advising the Compensation Committee. After reviewing the information provided, the Compensation Committee concluded that the advice provided by Meridian is independent and no conflicts or potential conflicts of interest exist.

Table of Contents

Compensation Benchmarking

The Compensation Committee occasionally uses industry peer compensation data as a reference for pay levels and practices and considers such data relevant to, but not determinative of, its consideration of overall executive compensation matters.

In 2016, Meridian referenced compensation data collected in its proprietary industry survey of 44 North American exploration and production companies, and policies and practices researched across the industry in general. For a list of the surveyed companies, see Annex A to this proxy statement.

The Compensation Committee has noted that surveyed industry companies vary in size and scope, operate in different geological basins and generally have less focus on deepwater exploration than does Kosmos. In general, Kosmos competes with these companies for talent, and the Committee believes that they are currently appropriate for executive compensation comparison. When considering executive compensation decisions, the Committee takes into consideration the differences and similarities between Kosmos and any data from the surveyed companies.

Advisory Vote to Approve Named Executive Officer Compensation

At our 2016 annual general meeting of shareholders, approximately 95% of votes were cast, on an advisory basis, in favor of our named executive officer compensation. As such, the Compensation Committee believes that our shareholders are largely satisfied with our existing named executive officer compensation program. Based on this result and our ongoing review of our compensation policies and decisions, we believe that our existing compensation program effectively aligns the interests of our named executive officers with shareholder interests and our long-term goals.

Nevertheless, we continually consider ways to modify our executive compensation program to strengthen this alignment of interests. As discussed above, in early 2017, the

Compensation Committee approved a "clawback" recoupment policy and robust share ownership requirements for executive officers and directors.

Our shareholders will have an opportunity again this year to vote, on an advisory basis, on our named executive officer compensation. The Compensation Committee will carefully consider the results of this year's shareholder vote, along with all shareholder views on our compensation programs that are communicated to us, when making future compensation decisions for our named executive officers. In addition, at our 2018 annual general meeting, our shareholders will have the opportunity to vote on an advisory basis on the frequency of the advisory vote on our named executive officer compensation.

**Analysis of 2016 Executive Compensation Decisions
Equity Incentive Awards**

Equity Compensation Overview

Our equity compensation program is designed to align our executives' interests with those of our shareholders by motivating our executives to contribute significantly to our success and to create long-term shareholder value. We believe that a performance-driven,

team-based culture is crucial to our future success. Therefore, we grant equity awards to all of our U.S.-based employees to align their interests with those of our shareholders and to expose them to the same upside and downside risks as our shareholders.

Table of Contents

We have historically granted equity awards under our LTIP in the form of service-vesting restricted shares or units (which we refer to as "service awards") and performance-vesting restricted shares or units (which we refer to as "performance awards"). We believe that these equity awards incentivize our employees to work toward our continued success, and motivate their retention with the Company. The awards align the interests of our employees with those of our shareholders, as the ultimate value received depends on the share price on the vesting date and, in the case of the performance awards, the level of attainment of the specified relative TSR goal. In addition, while grants of service awards do not have explicit performance-vesting conditions, due to the nature of our industry and the high-risk environment in which we operate, the ultimate value realized from service awards depends significantly on our future operating performance.

We typically grant equity awards as part of our annual and new hire equity grant process. Since 2015, we have granted annual equity awards in January, which was a departure from our historical practice prior to 2015 of granting annual equity awards in June of each year. We expect to continue to grant annual equity awards each January, which is consistent with prevailing industry practice and is intended to enable our Compensation Committee to make comprehensive compensation decisions for our executives after the end of each year (contemporaneous with decisions regarding the payment of annual bonuses and any base salary adjustments).

All of the outstanding equity awards held by our named executive officers are subject to our compensation clawback policy (discussed in more detail in "Recoupment Policy" below).

2016 Annual Equity Awards

In 2016, we granted annual equity awards to our named executive officers, 50% in the form of service awards and 50% in the form of performance awards. In light of the continued impact of the volatility in worldwide oil and gas prices on our share price, and in recognition of the dilutive impact of equity incentive awards at low share prices on our shareholders, management recommended that the 2016 annual equity awards be granted with respect to the same number of shares as the 2015 annual equity awards. Our Compensation Committee accepted this recommendation, and based on a closing price of \$3.72 on January 22, 2016, the 2016 annual equity awards granted to our named executive officers had a grant date value of less than half that of the 2015 annual equity awards.

The annual service awards granted to our named executive officers in 2016 vest one-third each year over three years based on continued service. Vesting of the performance awards

granted in 2016 requires attainment of both a service and a performance condition. The service condition is attained one-third each year over three years, and the performance condition is attained after three years based on a specified relative TSR performance goal. The attainment of the performance condition will be determined on the last day of the three-year performance period (as specified below) based on our TSR as compared to the TSR of a specified group of industry "performance peer" companies (listed below). TSR will be calculated as the percentage by which the average closing price of a share of Kosmos or a share of a peer company on each of the 30 trading days ending on the last day of the performance period is more or less than the average closing price of the share on each of the 30 trading days ending on the first day of the performance period, plus the amount of any dividends or distributions that are declared during the performance period.

Table of Contents

The performance condition for the performance awards granted to our named executive officers in 2016 will be attained based on the percentile ranking of our TSR relative to the TSR of each of the peer companies during the performance period commencing January 4, 2016 and ending January 4, 2019, as follows:

TSR Ranking	Attainment of Performance Condition
75th percentile and above	200%
50th percentile (target)	100%
25th percentile	25%
Below 25th percentile	0%

The percentage of the performance condition attained will be interpolated for performance between the percentiles shown above. To the extent that the performance condition is attained above the target performance level, our Compensation Committee, in its sole discretion, may provide for settlement of any such above-target portion of the performance awards in cash in lieu of shares. This discretion to settle the performance awards in cash is intended to provide our Compensation Committee flexibility to preserve shares under the LTIP for future new hire and annual equity awards and to reduce dilution to shareholders.

The 11 industry performance peer companies for performance awards granted to our named executive officers in 2016 are listed below. If a peer company is no longer publicly traded on the last day of the performance period, it will be removed from the group of performance peers and will not be replaced. These companies were selected because they are the oil and gas exploration and production companies most like Kosmos in terms of geographic reach and development stage.

Africa Oil Corp.	Lundin Petroleum AB
Anadarko Petroleum Corp.	Noble Energy, Inc.
BG Group plc*	Ophir Energy plc
Cairn Energy plc	Premier Oil plc
Cobalt International Energy, Inc.	Tullow Oil plc
Genel Energy plc	

*

On February 15, 2016, BG Group plc was acquired by Royal Dutch Shell plc.

To receive any payout under the service and performance awards, our named executive officers and other employees generally must remain employed with us through the vesting date and, in the case of performance awards, the TSR performance condition must be satisfied. However, the awards are subject to accelerated vesting under specified circumstances (see "2016 Compensation Potential Payments Upon Termination or Change in Control" below).

Historically, the service and performance awards granted to our executives generally

provided for accelerated vesting on the first anniversary of a "change in control" of Kosmos (if earlier than the regularly scheduled vesting date). However, commencing with the service and performance awards granted in 2015 to our executives (other than Mr. Inglis), the vesting of the service and performance awards will only accelerate in connection with a change in control if a qualifying termination of employment occurs on or within one year after the change in control. We believe this practice further aligns our equity compensation program with the interests of our shareholders.

Table of Contents

For details on the outstanding equity awards granted to our named executive officers in 2016 and prior years, including the numbers of shares, dollar values, vesting schedules and acceleration and forfeiture provisions, see the tables and narrative under "2016 Compensation" below.

Annual Cash Bonuses

Annual cash bonuses approved by the Compensation Committee for our named executive officers for 2016 were based on Company and individual performance. In early 2016, the Board of Directors, in consultation with our Chief Executive Officer, established stretch "key performance indicators" (which we refer to as "KPIs") for 2016 that are derived from our strategic and business growth plan and demonstrate year-over-year improvement. The Board of Directors also approved the bonus opportunities for our named executive officers. The bonus range for each named executive officer was 0% - 200% of his target bonus opportunity.

The base bonus pool for each performance year (which we refer to as the "Base Bonus Pool") is determined with reference to the aggregate target bonus of all bonus eligible employees. The actual bonus pool available for bonus payments with respect to all employees of the Company for the applicable performance year (which we refer to as the "Actual Bonus Pool") ranges between 80% - 120% of the Base

Bonus Pool, as determined by our Compensation Committee based on its quantitative and qualitative assessment of the level of achievement of the KPIs and overall Company financial and operating performance. Actual individual bonus amounts payable to our named executive officers were then determined based on the Compensation Committee's review and assessment of the individual performance (taking into account our Chief Executive Officer's assessment of individual performance of each executive, other than himself). The actual aggregate amount of cash bonuses paid to all of our employees, including our named executive officers, for any performance year cannot exceed the Actual Bonus Pool approved by our Compensation Committee for such year.

In December 2016 and January 2017, the Compensation Committee reviewed a comprehensive report prepared by management summarizing the Company's performance against the pre-established 2016 KPIs and the Company's strategic, financial, exploration, development and production performance.

Table of Contents

The KPIs for the 2016 performance year, as well as the Compensation Committee's certification of achievement of the performance goals, are set forth in the table below.

2016 Key Performance Indicators

	KPI	Level of Achievement	Commentary
Deliver Operational Milestones			
Exploration	Drill one exploration well in Senegal and progress at least one other oil prospect to drill-ready status by third-quarter 2016	Achieved	Exploration success at Teranga resulted in an approximately 5 trillion cubic feet discovery with a condensate gas ratio of 30 barrels per million cubic feet (equivalent to a 150 million barrel liquids discovery) and added significant value for the BP Transaction
	Mature four exploration or appraisal well locations to be geologically drill-ready for 2017	Achieved	Four prospects in Mauritania and Senegal announced for the 2017 drilling program
	Greater Jubilee Production of 103,000 - 108,000 barrels of oil per day (BOPD)	Not Achieved	Reductions in production resulted from the Jubilee FPSO turret bearing failure that caused unplanned downtime and lower production levels during 2016. In response, we implemented revised operating procedures to resume normal production rates and a remediation program to effect a long-term solution, and we aggressively pursued measures to mitigate the financial impact of lower production and additional operating costs through successful engagement with our partners, stakeholders and insurers. As a result, while the production target was not achieved, there was no impact on the Company's liquidity and our revenue targets were exceeded
Ghana	Commence production at Tweneboa, Enyenra, and Ntomme (TEN) in the third-quarter 2016 and on-budget	Achieved	The TEN project delivered first oil in August 2016 on-budget
	Obtain government approvals for Greater Jubilee Full Field Development	Not Applicable*	* This KPI was not executed due to a change in our operational needs during 2016
Monetize Greater Tortue	Execute minimum appraisal required to prove 15+ Trillion Cubic Feet	Achieved	
	Deliver the inter-governmental cooperation agreement (ICA)	Achieved	We finalized the ICA with both national oil companies, and are now awaiting final government approvals in Senegal and Mauritania
	Establish the Greater Tortue conceptual development plan	Achieved	We worked with numerous stakeholders to advance a development solution to monetize the Greater Tortue gas. This solution has been agreed with our new partner, BP
	Secure project partner and funding	Exceeded	Through successful efforts around marketing our assets and highly focused data rooms we ran a successful farm-out process attracting interest from a number of super-major oil companies. We have now partnered with BP in Mauritania and Senegal which will not only deliver development of the Greater Tortue gas project, but also accelerates and funds the second phase of exploration in Mauritania and Senegal
			Given the transformational nature of this transaction, achievement of this KPI was weighted more heavily in the determination of the 2016 Actual Bonus Pool and the

individual bonuses awarded to our named executive officers
for 2016

Grow Organizational Capability

Enhance the role of leadership in supporting the personal development of employees	Achieved	We implemented personal development succession plans for direct reports to our senior leadership team members
Continue to sharpen performance through greater accountability and clear process	Achieved	Demonstrated through the scale of the activity set undertaken in 2016 and the high-level of delivery with a greater than 30% savings in G&A relative to budget

Maintain Long-Term Financial Liquidity

Maintain long-term financial strength through continuing a disciplined hedging program, maximizing Reserve Based Lending (RBL) capacity and maintaining at least \$500 million in prospective liquidity	Exceeded	Our active hedging program added \$188 million of additional cash flow in 2016 (and approximately \$425 million in the last two years) Liquidity at the end of 2016 was \$1.2 billion and as of the fourth quarter we were free cash flow positive

In determining the Actual Bonus Pool for the 2016 performance year, the Compensation Committee considered the Company's financial, organizational, operating and strategic performance, with particular emphasis placed on operational and cost performance. A key driving factor in determining the Actual Bonus Pool for 2016 was the Company's transformational completion of the BP Transaction, the achievement of which was weighted more heavily than the other KPIs for 2016. As a result, the

Committee approved the Actual Bonus Pool for 2016 at 120% of the Base Bonus Pool.

In determining the individual bonus award for each of our named executive officers for 2016 payable from the 2016 Actual Bonus Pool, the Compensation Committee considered each executive's individual contributions, including financial performance, operating performance, significant strategic initiatives, organizational leadership and investor and Board relations.

The following table summarizes the most significant achievements for each named executive officer in 2016 that were taken into account by the Compensation Committee in determining his bonus amount:

The amounts in this column represent 200% of each named executive officer's target bonus opportunity.

Base Salary

Base salary is the sole fixed component of our executive compensation program and represents a relatively small portion of our named executive officers' total compensation package, offering them a measure of certainty and predictability. We generally review salary ranges and individual salaries for our named executive officers annually. We establish the base salary for each named executive officer based on our review of pay levels across industry peers and business requirements for certain skills, individual experience and contributions and the roles and responsibilities of the executive. We believe competitive base salaries are necessary to attract and retain an executive management team with the appropriate abilities and experience required to lead us and execute our strategy.

Our named executive officer salaries are intended to be competitive with those of our industry peers. We do not have a prescribed policy or broadly applied guideline for how salaries should compare to external survey data. Base salaries are subject to change if, among other reasons, the executive's experience or responsibilities change materially or there are changes in the competitive market environment.

Based on the Compensation Committee's review of peer data in early 2016, the Compensation Committee approved an increase

in the base salary paid to Mr. Anderson, effective as of January 1, 2016, to reflect his significant contributions as a member of the Company's senior leadership team and the expansion of his role to include oversight of all of our local offices. The Compensation Committee determined not to increase the base salaries of any of our other named executive officers in 2016.

In early 2017, the Compensation Committee reviewed the base salaries paid to each of our named executive officers. In light of the challenging external environment, the Compensation Committee deemed the base salaries to be competitive with those paid for similar positions at companies in our peer group, and as such, in early 2017, the Compensation Committee did not approve any increases in the base salaries of our named executive officers.

As indicated in the table below, other than an increase in Mr. Anderson's base salary in 2016 due to the expansion of his responsibilities, our named executive officers base salaries have not been increased, which reflects the Compensation Committee's pay for performance philosophy and its intention to award a majority of the compensation paid to our executives in the form of "at-risk" performance-based compensation linked to Company and individual performance.

Benefits and Perquisites			

Our named executive officers are entitled to the same health and welfare benefits as our employees generally, including medical, prescription drug, dental and vision insurance, and are also entitled to annual executive physicals, financial and tax planning services, relocation benefits and payments of premiums for supplemental health and welfare benefits. Our named executive officers are eligible to participate in our tax-qualified 401(k) plan on the same basis as our employees generally and are not entitled to any supplemental executive retirement benefits. Under the 401(k) plan, the Company matches 100% of an employee's

elective deferrals up to a specified percentage of eligible compensation (8% in 2016), subject to applicable limitations under the Internal Revenue Code. Commencing in 2017, members of our senior management team may also defer base and cash bonus compensation on a pre-tax basis under our deferred compensation plan, with the Company providing a matching contribution equal to 8% of the amount deferred by each executive.

For details and the amounts of such benefits, see the "All Other Compensation" column of the 2016 Summary Compensation Table and the accompanying footnotes below.

Termination and Change in Control Benefits

Equity Awards: The vesting of the equity awards held by our named executive officers accelerates in connection with specified terminations of employment or a change in control. See "2016 Compensation Potential Payments Upon Termination or Change in Control" below.

Offer Letters: The offer letter agreements we have entered into with each of our named executive officers (other than Mr. Maxted) provide for specified termination payments and benefits. See "2016 Compensation Potential Payments Upon Termination or Change in Control Offer Letters" below.

Severance Policy: We maintain a change in control severance policy that is designed to encourage continuity of management and other employees after a "change in control" (as defined in the LTIP). The policy provides severance benefits to regular full-time U.S. employees whose employment is terminated in connection with a change in control. Our named executive officers are not covered by any severance policy or program for terminations that occur other than in connection with a change in control. For more information on our change in control severance policy, see "2016 Compensation Potential Payments Upon Termination of Change in Control Severance Policy" below.

Recoupment Policy

Under our compensation recoupment (or "clawback") policy adopted by the Compensation Committee in January 2017, in the event the Company is required to restate its financial results in order to correct a material

error, our Compensation Committee may recoup, on a pre-tax basis, certain incentive-based compensation from our executive officers to the extent the amount of such compensation actually paid to the executive exceeds the

Table of Contents

amount that would have been paid if calculated based on the financial restatement. In addition, in the event an executive officer engages in certain specified acts of misconduct, the Compensation Committee may recoup, on a pre-tax basis, certain incentive-based compensation and other compensation (including service-vesting equity awards and discretionary cash bonuses) that was paid to such executive within three years prior to the date of

such misconduct (or, if later, the date the Compensation Committee discovers such misconduct).

The Compensation Committee reviews this policy from time to time, and the Committee will review it following the SEC's adoption of a final rule under the Dodd-Frank Act regarding incentive-based compensation recoupment.

Share Ownership Guidelines

We have long believed that our executive officers and directors should have a substantial stake in the Company to align their interests with those of the shareholders. Therefore, the Compensation Committee has historically made equity awards a substantial component of our executive and director compensation programs.

In addition, in early 2017, the Compensation Committee established share ownership guidelines for our executive officers and directors to ensure that they face the same downside risk and upside potential as our shareholders.

Under our share ownership guidelines, each of our executive officers is required to own, within five years following his hire or promotion date (or, if later, by January 1, 2022), common shares of the Company having an aggregate value at least equal to the multiple of his annual base salary, as follows:

	Position	Multiple of Annual Base Salary
Chief Executive Officer		6x
Other Executive Officers		3x

In addition, each of our directors is required to own, within five years following his first election/appointment to our Board (or, if later, by January 1, 2022), common shares of the Company having an aggregate value at least equal to five times the value of the annual cash board retainer that such director receives for his service on our Board. Until such time as the director has satisfied his minimum ownership requirements, the director is required to retain 100% of the "net shares" received from the settlement of all equity-based awards (i.e., those shares that remain outstanding after the payment of taxes at an assumed 40% tax rate).

Shares owned directly or indirectly (including shares received upon settlement of an equity award) and time-based vesting restricted shares and share-settled RSUs are counted for purposes of satisfying our share ownership guidelines. However, shares underlying unexercised options (whether vested or unvested) and restricted shares or RSUs that are subject to performance-based vesting conditions that have not yet been satisfied will not be counted for purposes of satisfying the ownership guidelines.

Policy Prohibiting Hedging Transactions

Our Insider Trading Policy prohibits our employees, including our named executive officers, from engaging in speculative transactions in the Company's securities, including short sales and, unless our General Counsel provides prior written authorization, publicly traded options and margin accounts.

During the past five years, none of our named executive officers have engaged in any such hedging transactions with respect to any Company securities.

Table of Contents

Compensation Risk Assessment

Our management team has reviewed our compensation policies and practices for all of our employees with our Compensation Committee. We believe that the following factors mitigate any potential risks: balanced pay mix; diversified performance metrics; emphasis on long-term equity incentive compensation tied to service and performance conditions; the overall amount of

compensation and internal control and oversight by the Compensation Committee and our Board.

The Compensation Committee has determined, based on this review, that our compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code generally limits the federal income tax deduction for compensation paid to each of the chief executive officer and the three other most highly compensated executive officers (other than the chief financial officer) of a publicly held corporation to \$1 million per year, with an exception for performance-based compensation

paid based on the attainment of pre-established performance goals. We consider deductibility under Section 162(m) of the Internal Revenue Code when structuring our compensation arrangements for our executive officers. However, depending on the relevant circumstances at the time, we may determine to award compensation that may not be deductible.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the CD&A with our management. Based on this review and discussion, the Compensation Committee recommended to the Board that the CD&A be included in this Proxy Statement and incorporated by reference into the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Respectfully submitted by the Compensation Committee of the Board,

Prakash A. Melwani, Chairman

Joseph P. Landy

The amounts for the performance awards were calculated based on the probable outcome of the performance condition as of the grant date, consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures. For these amounts, see the "Grant Date Fair Value of Stock and Option Awards" column of the "2016 Grants of Plan-Based Awards" table below. (1) The amounts reported are the target and maximum annual bonuses that our named executive officers were eligible to receive for performance in respect of 2016 pursuant to our annual incentive plan. For additional information on these bonuses, see "Compensation Discussion and Analysis Analysis of 2016 Executive Compensation Decisions Annual Cash Bonus" above.

(2) These amounts reflect the performance awards, which are scheduled to vest between 0% and 200% of the number of shares shown in the "Target" sub-column based on attainment of both a service condition that will lapse one-third each year over three years and the specified relative TSR performance condition that will be measured on January 4, 2019. The amounts in the "Threshold" sub-column reflect the 25% of the shares shown in the "Target" sub-column that will vest on attainment of the service condition and the threshold performance level. If either the service condition or the threshold performance level is not attained, the awards will be forfeited. The amounts in the "Target" sub-column reflect the 100% of the shares that will vest on attainment of the service condition and the target performance level. The amounts in the "Maximum" sub-column reflect the 200% of the shares that will vest on attainment of the service condition and the maximum performance level. For more on the terms of these awards, see "Compensation Discussion and Analysis Analysis of 2016 Executive Compensation Decisions Equity Awards" above.

(3) These amounts reflect service awards that are scheduled to vest one-third each year over three years, based solely on service.

(4) The amounts in this column for the service awards reflect their aggregate grant date fair values, calculated in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures.

The amounts in this column for the performance awards were calculated based on the probable outcome of the performance condition as of the grant date, consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures. For the values of these awards, assuming attainment of the maximum level of performance, see footnote 4 to the "2016 Summary Compensation Table" above. The actual value, if any, that

each named executive officer will realize for these performance awards is a function of the value of the shares if and when the awards vest.

For additional information on how we account for equity-based compensation, see Note 11 to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2016.

(2) The number of shares underlying performance awards reflected in this table assumes maximum attainment of the specified relative TSR goal, except for the performance awards granted to our named executive officers in 2016, which are reflected in this table assuming attainment of the specified relative TSR goal at the target performance level. The actual number of shares, if any, that will vest will be based on (i) the level of achievement of the relative TSR goal as of the actual end of the performance period and (ii) satisfaction of the applicable service condition, in each case, as indicated in the footnotes below, plus the amount of any dividends or distributions that are declared on the shares during the applicable performance period. For more on the terms of these awards, see "Compensation Discussion and Analysis Analysis of 2016 Executive Compensation Decisions Equity Awards" above.

Each named executive officer holds service and performance awards that were unvested as of December 31, 2016. Under the terms of the applicable award agreements, and, in the case of Mr. Inglis, the terms of his offer letter, these awards are subject to accelerated vesting under specified circumstances. The amounts in the table are based on the \$7.01 closing price of a share on December 30, 2016. For performance awards, if (i) the awards remain subject to the satisfaction of the specified relative TSR goal following such termination of employment or (ii) the specified relative TSR goal is calculated based on actual achievement as of a change in control, these amounts assume maximum attainment of such goal as of December 31, 2016. See "Equity Awards" and "Offer

Letters" below for more details on the circumstances under which the vesting of these awards would have accelerated.

- (2) Represents the payment of two times Mr. Inglis' annual base salary and annual target bonus as of December 31, 2016, payable in equal monthly installments over 24 months under Mr. Inglis' offer letter. For additional details, see " Offer Letters" below.
- (3) Represents a cash payment in an amount equal to the premium cost of continued healthcare coverage for 24 months under our severance policy (or, for Mr. Inglis, under his offer letter).
- (4) Represents the cost of outplacement services for 18 months under our severance policy.
- (5) Represents payouts of unused vacation time under our severance policy.
- (6) Represents a lump-sum cash severance payment under our severance policy equal to 24 months of base salary plus four additional weeks of base salary for each year of service (for Mr. Chambers, eight additional weeks; for Mr. Maxted, 52 additional weeks; for Mr. Ball, 12 additional weeks; and for Mr. Anderson, four additional weeks) and any additional amounts payable for any partial year of service.
- (7) Under our severance policy, each of our named executive officers is entitled to a prorated portion of his annual target bonus for the year of termination, if not paid prior to the date of termination.
- (8) Represents the payment to Messrs. Chambers and Anderson under their respective offer letters of (i) an amount equal to 12 months' base salary and target annual bonus and (ii) continued medical and dental coverage for him and his eligible dependents for 12 months. For additional details, see " Offer Letters" below.
- (9) Represents payments of (i) an amount equal to 12 months' base salary and (ii) reimbursement of the cost of medical and dental insurance for Mr. Ball and his dependents for 18 months, in each case, pursuant to his offer letter. For additional details, see " Offer Letters" below.
- (10) Represents reasonable and customary costs that we estimate would be incurred in moving Mr. Ball back to his former residence location if, solely as a result of a "change in control" (as defined in the LTIP and summarized below under " Equity Awards Definitions"), Mr. Ball is required to relocate to a location outside of the Dallas/Fort Worth area. This estimate is based on the costs incurred in moving Mr. Ball to the Dallas/Fort Worth area.

Offer Letters

The offer letter agreements we have entered into with each of our named executive officers (other than Mr. Maxted) provide for specified termination payments and benefits, as follows:

On termination of Mr. Inglis' employment by us without "cause" or by him for "good reason" (as such terms are defined in his offer letter and summarized below under " Equity Awards Definitions"), Mr. Inglis is entitled to (i) cash severance in an amount equal to two times the sum of his base salary and target bonus (payable in equal monthly installments over 24 months), (ii) continued medical and dental coverage for him and his dependents for 24 months and (iii) accelerated vesting of the service awards granted to him on April 1, 2014.

If the employment of each of Messrs. Chambers, Anderson and Ball is terminated through no fault of his own or his position is eliminated and he is not offered a comparable position in Dallas, Texas (in the case of Mr. Anderson, other than in connection with a change in control), then (i) Messrs. Chambers and Anderson will receive (a) cash severance in amount equal to the sum of 12 months' base salary *plus* target annual bonus and (b) continued medical and dental coverage for him

Edgar Filing: Kosmos Energy Ltd. - Form DEF 14A

and his eligible dependents for 12 months and (ii) Mr. Ball will receive (a) his annual base salary and (b) reimbursement of the cost of medical and dental insurance for him and his dependents, in each case for 18 months.

Table of Contents

Mr. Ball is also entitled to payment of reasonable and customary expenses associated with his moving back to the United Kingdom under the circumstances described in footnote 10 to the "Potential Payments Upon Termination or Change in Control" table above.

The entitlement of each of Messrs. Inglis, Chambers and Anderson to these payments is conditioned on his execution and non-revocation of a general release of claims against the Company.

Severance Policy

Our severance policy is designed to encourage continuity of management and other employees after a change in control. The policy provides severance benefits to regular full-time U.S. employees whose employment is terminated in connection with a "change in control" (as defined in the LTIP and summarized below) as a result of:

work force reduction;

departmental reorganization that results in job elimination;

departmental reorganization that results in a material diminution of the skills, requirements, aptitudes or other criteria of the position, if the employee declines an offer of continued employment in the altered position or in another position that the Company deems comparable in its reasonable discretion; or

relocation of the job functions outside of a 50-mile radius, if the employee is not offered employment at the new location or declines an offer of employment at the new location.

The severance policy provides for the following termination benefits:

a lump-sum cash severance payment in an amount determined based on the employee's title, years of service and base salary (for our named executive officers, this amount equals 24 months of base salary plus four additional weeks of base salary for each year of service);

a prorated portion of the employee's target bonus for the current year, if not paid prior to the date of termination;

a cash payment in an amount equal to the premium cost of continued healthcare coverage for a specified period (24 months for our named executive officers);

outplacement services for a specified period (18 months for our named executive officers); and

payout of unused vacation time.

Employees, including our named executive officers, who have a separate severance agreement may receive benefits under that agreement or the severance policy, but not both. To receive severance benefits under the severance policy, an employee must sign and not revoke a separation and release agreement in the form prescribed by the Company.

Equity Awards

Service Awards

Edgar Filing: Kosmos Energy Ltd. - Form DEF 14A

Service awards held by each of our named executive officers are scheduled to vest based solely on service and would have fully vested on December 31, 2016, if on that date their employment had terminated due to their death or "disability", or in the case of the service award granted to Mr. Inglis in April 2014, if his employment was terminated by us without "cause" or by him for "good reason". Had we

Table of Contents

undergone a change in control on December 31, 2016, these awards would have become fully vested on the earliest to occur of:

the regularly scheduled vesting date, if the executive remained employed through the vesting date;

for all service awards granted to Mr. Inglis, and for service awards granted to the other named executive officers before 2015, the first anniversary of the change in control, if the executive remained employed through the anniversary date;

termination of the executive's employment due to his death or "disability";

for our named executive officers other than for Mr. Inglis, termination of the executive's employment by us or the acquiror without cause or by him for good reason (for service awards granted in 2015 and 2016, such termination must occur within one year after such change in control); and

for Mr. Inglis, the later of the date of termination or the change in control, if Mr. Inglis' employment is terminated by us without "cause" or by him for "good reason" during the period beginning three months before, and ending one year after, such change in control, provided that any termination during the period beginning three months before such change in control was at the request of a third party that had taken steps reasonably calculated to effectuate such change in control or that otherwise arose in connection with or anticipation of such change in control.

These service awards would have been forfeited on termination of employment under any other circumstances.

Performance Awards

For performance awards held by our named executive officers, the service condition would have been fully attained on December 31, 2016, if on that date the executive's employment had terminated due to his death or disability, had his employment been terminated by us without cause or by him for good reason, and such awards would have remained subject to the performance condition.

Had the executive terminated his employment without good reason at any time, or had his employment been terminated by us without cause or by him for good reason at any time other than on, or within one year after, a change in control, then any portion of the performance award for which the applicable service condition had been satisfied as of such termination date would have remained subject to the applicable performance condition, and any remaining portion of the award would have been forfeited without any payment to the executive.

Had we undergone a change in control on December 31, 2016, the performance condition would have been treated as set forth below, and the awards would have remained subject to the service condition to the extent not yet met:

for performance awards granted to our named executive officers (other than Mr. Inglis) prior to 2015, the performance condition would have been deemed attained at the target performance level;

for performance awards granted to our named executive officers (other than Mr. Inglis) in 2015 and 2016, the performance condition would have been determined based on actual performance as of the date of such change in control; and

for performance awards granted to Mr. Inglis, the performance condition would have been deemed attained at the maximum performance level.

Table of Contents

In connection with the change in control, the performance awards would have vested or been forfeited under the same circumstances as are described above for service awards.

These performance awards would have been forfeited on termination of employment under any other circumstances.

Definitions

For purposes of the accelerated vesting of the named executive officers' equity awards under the circumstances described above, "cause," "change in control," "disability" and "good reason" are defined in the LTIP (or, for Mr. Inglis, in his offer letter) as follows:

"Cause" generally means the named executive officer's:

- (i) failure (or, in the case of Mr. Inglis, material failure) to perform his duties (other than any such failure resulting from his physical or mental incapacity);
- (ii) having engaged in misconduct, negligence or a breach of fiduciary duty (or, in the case of Mr. Inglis, having engaged in serious misconduct, gross negligence or a material breach of a fiduciary duty);
- (iii) having been convicted of, or having entered a plea bargain or settlement admitting guilt or the imposition of unadjudicated probation for, any crime of moral turpitude or felony under any applicable law;
- (iv) breach (or, in the case of Mr. Inglis, material breach) of any restrictive covenant (and, in the case of Mr. Inglis, any notice requirement, garden leave provision or similar requirement) to which he is subject;
- (v) breach (or, in the case of Mr. Inglis, material breach) of any of our policies, including any policy that relates to expense management, human resources or the Foreign Corrupt Practices Act;
- (vi) unlawful use or possession of illegal drugs on our premises or while performing his duties to us; or
- (vii) commission of an act of fraud, embezzlement or misappropriation, in each case, against us.

In the case of Mr. Inglis, if the Company believes that he has committed an act giving rise to cause under clauses (i), (ii), (iv) or (v) above, then, if such act or omission is reasonably susceptible of cure, we must provide Mr. Inglis written notice specifying the circumstances alleged to constitute cause within 90 days of the Board's first obtaining knowledge of such circumstances. Mr. Inglis then has 30 days to cure the circumstances. If he has not cured the circumstances within such 30-day period, we may terminate Mr. Inglis' employment within 60 days after the end of such 30-day period.

"Change in Control" generally means the occurrence of one or more of the following events:

- (i) the acquisition of 50% or more of the combined voting power of our outstanding securities (other than by our former financial sponsors);
- (ii) the replacement of the majority of our directors during any 12-month period (other than by directors approved by a majority of our remaining directors);

Table of Contents

- (iii) the consummation of our merger, amalgamation or consolidation with another entity (unless our voting securities outstanding immediately before such transaction continue to represent more than 50% of the combined voting power of the surviving or resulting entity outstanding immediately after such transaction); or
- (iv) the transfer of our assets having a gross fair market value of 50% or more of the total gross market value of our assets immediately before such transfer (other than any such transfer immediately after which such assets are owned directly or indirectly by our shareholders in substantially the same proportions as their ownership of our common shares immediately before such transfer), and the subsequent distribution of the proceeds from such transfer to our shareholders having a fair market value that is greater than 50% of our fair market value immediately before such transfer.

"Disability" generally means "disability" as defined in our long-term disability plan for the purpose of determining eligibility for benefits. If such plan contains multiple definitions of disability, then "disability" refers to that definition of disability which, if the named executive officer qualified for such benefits, would provide coverage for the longest period.

"Good Reason" generally means the occurrence of any of the following events without the named executive officer's consent:

- (i) a reduction in his base salary or target bonus, other than any such reduction that applies generally to similarly situated employees (or, in the case of Mr. Inglis, that applies to senior executives of the Company);
- (ii) relocation of his principal place of employment by more than 50 miles; or
- (iii) a material reduction in his duties or responsibilities (in the case of our named executive officers other than Mr. Inglis, that occurs within two years after a change in control).

In each case, the executive must provide us with written notice specifying the circumstances alleged to constitute good reason within 90 days after the circumstances first occur. We then have 30 days to cure the circumstances. If we have not cured the circumstances within such 30-day period, the executive is required to resign within 60 days after the end of such 30-day period.

The vesting of the service awards granted in 2016 will accelerate on death or disability.

The amounts in this column reflect the aggregate grant date fair values of such service awards, calculated in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures. The actual value, if any, realized by the directors for these awards is a function of the value of the shares if and when they vest. AUDIT COMMITTEE REPORT

The Audit Committee of the Board currently consists of three non-employee independent directors: Messrs. Tong and Darricarrère and Sir Richard Dearlove.

Management is responsible for the Company's system of internal controls and the financial reporting process. The independent accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report thereon. The Audit Committee is responsible for monitoring (1) the integrity of the Company's financial statements, (2) the Company's compliance with legal and regulatory requirements and (3) the independence and performance of the Company's auditors.

The Audit Committee has reviewed and discussed with the Company's management and the independent accountants the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the consolidated financial statements. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America. The Audit Committee discussed with the independent accountants matters required to be discussed by Statement of Auditing Standards No. 61, "*Communications with Audit Committees*," as amended (AICPA, Professional Standards, Vol. 1 AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

The Company's independent accountants also provided to the Audit Committee the written disclosure required by applicable requirements of the Public Company Accounting Oversight Board regarding independent accountant's communications with the Audit Committee concerning independence. The Audit Committee discussed with the independent accountants that firm's independence.

Based on the Audit Committee's discussions with management and the independent accountants, and the Audit Committee's review of the representation of management and the report of the independent accountants to the Audit Committee, the Audit Committee recommended that the Board include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, filed with the SEC.

Respectfully submitted by the Audit Committee of the Board,

PROPOSAL 1 ELECTION OF DIRECTORS

The Board currently consists of 11 directors, and the Board has nominated four Class I directors for election at the Annual General Meeting to serve until the 2020 Annual General Meeting of Shareholders, and until their respective successors are duly elected and qualified. Our bye-laws provide that our Board shall consist of not less than five and not more than 15 directors, as determined by the Board, and our directors are divided into three classes, with directors elected by stockholders for staggered terms of three years each. Our shareholders do not have cumulative voting rights and, accordingly, the holders of a plurality of the shares voted can elect all of the directors then standing for election. Shareholders are not entitled to cumulate votes in the election of directors and may not vote for a greater number of persons than the number of nominees named.

We are soliciting proxies in favor of the re-election of each of the four Class I director nominees identified below under the heading "Nominees (Current Class I Directors with Terms Expiring in 2017)". We intend that all

properly executed proxies will be voted for these four nominees unless otherwise specified. All nominees have consented to serve as directors, if elected. If any nominee is unwilling to serve as a director at the time of the Annual General Meeting, the persons who are designated as proxies intend to vote, in their discretion, for such other persons, if any, as may be designated by the Board.

As of the date of this Proxy Statement, the Board has no reason to believe that any of the persons named below will be unable or unwilling to stand as a nominee or serve as a director, if elected. The Board believes that each nominee has valuable individual skills and experiences that, taken together, provide us with the knowledge, judgment and strategic vision necessary to provide effective oversight of the Company. The biographies below reflect the particular experience, qualifications, attributes and skills that led the Board to conclude that each nominee should serve on the Board. Ages are correct as of March 29, 2017.

PROPOSAL 3 ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

At our 2012 annual general meeting of shareholders, a majority of our shareholders voted, on a nonbinding, advisory basis, to hold a nonbinding, advisory vote on named executive officer compensation every year. Consistent with this recommendation by our shareholders, the Company intends to submit an annual nonbinding, advisory vote on the compensation of the Company's named executive officers until the next vote on the frequency of the shareholder nonbinding, advisory vote on named executive officer compensation. Accordingly, as required by Section 14A of the Exchange Act, we are providing our shareholders with the opportunity to cast a nonbinding, advisory vote on the 2016 compensation of our named executive officers as disclosed in this Proxy Statement, including the Compensation Discussion and Analysis, the compensation tables and other narrative executive compensation disclosures.

As described in detail above in this Proxy Statement under "Compensation Discussion and Analysis," we seek to pay our named executive officers for performance, to closely align the interests of our named executive officers with the interests of our shareholders and to attract, retain and motivate top talent. Please refer to the Compensation Discussion and Analysis, the compensation tables and the other narrative compensation-related disclosures of this Proxy Statement for a detailed discussion of our executive compensation principles and practices and the 2016 compensation of our named executive officers. This vote is not intended to address any specific item of compensation, but rather our overall executive compensation principles and practices and the 2016 compensation of our named executive officers.

To help ensure that all shareholder views are well understood by the Board, we also encourage shareholders to use any of a number of direct communication mechanisms to effectively raise specific issues or concerns regarding our executive compensation principles and practices (see "Board of Directors, Board Meetings and Committees Communications with the Board" above).

Vote Required

The affirmative vote of a majority of the votes cast at the annual general meeting, at which a quorum is present, is required to approve Proposal 3. Abstentions shall not be treated as votes cast.

Shareholders are being asked to vote on the following resolution:

"RESOLVED, that the Company's shareholders approve, on a nonbinding, advisory basis, the compensation of the Company's executive officers named in the Summary Compensation Table, as disclosed pursuant to Item 402 of Regulation S-K (which disclosure includes the Compensation Discussion and Analysis, the accompanying compensation tables and related narrative)."

Although the vote on this proposal is advisory and, therefore, is not binding, the Compensation Committee will carefully consider the shareholder vote on this matter, including whether any actions will be necessary to address the concerns, if any, of our shareholders.

Recommendation

The Board recommends a vote "FOR" the approval of the compensation of our named executive officers as disclosed in this Proxy Statement. If not otherwise specified, proxies will be voted "FOR" Proposal 3.
