**Item 8.01. Other Events.**

Equitable Resources, Inc. (the Company) is filing this Current Report on Form 8-K to update its historical business segment information contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2007 which was filed with the Securities and Exchange Commission on February 22, 2008 (the Year 2007 10-K), to reflect a change in organizational structure and segment reporting effective for 2008.

In January 2008, to better align the Company to execute its growth strategy for development and infrastructure expansion in the Appalachian Basin, the Company announced a change in its organizational structure and several changes to executive management of the Company. These organizational changes resulted in changes to the Company's reporting segments effective for 2008. The Company's 2008 results will be reported through three business segments: Equitable Production, Equitable Midstream and Equitable Distribution. Under the new reporting structure, the Equitable Production segment will include the Company's exploration for, and development and production of, natural gas and a limited amount of crude oil in the Appalachian Basin. Equitable Midstream's operations will include the natural gas gathering, processing, transportation and storage of natural gas and natural gas liquids. Equitable Distribution's operations will be comprised primarily of the state-regulated distribution activities of the Company.

In Exhibit 99.1 filed with this Current Report on Form 8-K and incorporated herein by reference, the Company updates and supersedes the following Items that are contained in the Year 2007 10-K to reflect the change in segment reporting: Item 1. Business, Item 2. Properties, Item 6. Selected Financial Data, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Item 8. Financial Statements and Supplementary Data and Item 15. Index to Financial Statements Covered by Report of Independent Registered Public Accounting Firm. The historical information in Item 8. Financial Statements and Supplementary Data has been updated from its previous presentation solely to reflect the Company's new operating segment structure in Note 1: Summary of Significant Accounting Policies, Note 2: Financial Information by Business Segment and Note 24: Natural Gas Producing Activities (Unaudited) and references to operating segments and related information in other financial statement footnotes.

The change in the reporting structure, as reflected in the information included in this Form 8-K, only affects the manner in which segment results were previously reported. There is no impact on the Company's previously reported Statements of Consolidated Income, Statements of Consolidated Cash Flows or Statements of Common Stockholders' Equity, and the Company's previously reported Consolidated Balance Sheets were revised only to update the Company's presentation of property, plant and equipment by segment. The previously reported consolidated financial statements have not been updated to reflect any financial results or other changes subsequent to 2007. All other information in the Year 2007 10-K remains unchanged and has not been otherwise updated for events or developments that occurred subsequent to the filing of the Year 2007 10-K with the Securities and Exchange Commission. The information in this Current Report on Form 8-K, including Exhibit 99.1, should be read in conjunction with the Year 2007 10-K.

The information in this Current Report on Form 8-K is deemed incorporated by reference into the Company's registration statements filed under the Securities Exchange Act of 1933, as amended.
