PROPOSAL ONE

Our Board of Directors consists of seven directors, which are divided into three classes, each of whose members serve for a staggered three-year term. The term of office of one class of directors expires each year in rotation so that one class is elected at each annual meeting for a full three-year term. Our Class I directors, Timothy Williams, Greg Petersen and Mariette Woestemeyer, have been nominated to fill a three-year term expiring in 2011. The two other classes of directors, who were elected or appointed for terms expiring at the annual meetings in 2008 and 2009, respectively, will remain in office.

Unless a proxy is marked to withhold authority to vote, the proxy holders will vote the proxies received by them for the three Class I nominees named below, each of whom is currently a director and each of whom has consented to be named in this proxy statement and to serve if elected. In the event that any nominee is unable or declines to serve as a director at the time of the meeting, the proxies will be voted for any nominee designated by our Board of Directors to fill the vacancy. We do not expect that any nominee will be unable or will decline to serve as a director.

The Board of Directors unanimously recommends voting FOR the three class I nominees listed below.

The name of and certain information regarding each Class I nominee as of March 18, 2008 is set forth below, together with information regarding our Class II and Class III directors remaining in office. This information is based on data furnished to us by the nominees and directors. The business address for each nominee for matters regarding PROS is 3100 Main Street, Suite 900, Houston, TX 77002.

Communications with our board of directors

Edgar Filing: PROS Holdings, Inc. - Form DEF 14A

Stockholders who wish to communicate with members of our Board of Directors, including the independent directors individually or as a group, may send correspondence to them in care of our Corporate Secretary at our principal executive offices. Such communication will be forwarded to the intended recipient(s). We currently do not intend to have our Corporate Secretary screen this correspondence, but we may change this policy if directed by our Board of Directors due to the nature or volume of the correspondence.

PROPOSAL TWO

The audit committee of our Board of Directors has selected the independent registered public accounting firm of PricewaterhouseCoopers LLP to audit our consolidated financial statements for the fiscal year ending December 31, 2008 and recommends that stockholders vote for ratification of such appointment. Notwithstanding the selection and ratification, the audit committee, in its discretion, may appoint a different independent registered public accounting firm at any time, if it believes doing so would be in our best interests and the best interests of our stockholders. In the event of a negative vote on ratification, the audit committee will reconsider, but might not change, its selection.

PricewaterhouseCoopers LLP has audited our financial statements annually since 2002. Representatives of PricewaterhouseCoopers LLP are expected to be present at the meeting with the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

Vote required

Approval of the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm requires the affirmative vote of the holders of at least a majority of the outstanding shares of our common stock entitled to vote and present or represented at the meeting.

In accordance with Delaware law, abstentions will be counted for purposes of determining both whether a quorum is present at the meeting and the total number of shares represented and voting on this proposal. While broker non-votes will be counted for purposes of determining the presence or absence of a quorum, broker non-votes will not be counted for purposes of determining the number of shares represented and voting with respect to the particular proposal on which the broker has expressly not voted and, accordingly, will not affect the approval of this proposal.

The Board of Directors unanimously recommends that stockholders vote FOR the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2008.

Summary of fees

The audit committee has adopted a policy for the pre-approval of all audit and permitted non-audit services that may be performed by our independent registered public accounting firm. Under this policy, each year, at the time it engages the independent registered public accounting firm, the audit committee pre-approves the audit engagement terms and fees and may also pre-approve detailed types of audit-related and permitted tax services, subject to certain dollar limits, to be performed during the year. All other permitted non-audit services are required to be pre-approved by the audit committee on an engagement-by-engagement basis.

The following table summarizes the aggregate fees billed for professional services rendered to us by PricewaterhouseCoopers LLP in 2007 and 2006. A description of these various fees and services follows the table.

	2007	2006
Audit fees	\$ 853,834	\$ 165,000
Tax fees	29,500	25,000
Total fees	\$ 883,334	\$ 190,000

Audit fees

The aggregate fees billed to us by PricewaterhouseCoopers LLP in connection with the annual audit of our financial statements, for the reviews of our financial statements included in the quarterly reports on Form 10-Q, consents related to documents filed with the SEC and accounting and financial reporting consultations and research necessary to comply with generally accepted audit standards, were \$318,484 and \$165,000 for the years ended December 31, 2007 and 2006, respectively. For the year ended December 31, 2007, we incurred \$535,350 of audit fees related to our initial public offering and follow-on offering.

Tax Fees

The aggregate fees billed to us by PricewaterhouseCoopers LLP in connection with tax services were \$29,500 and \$25,000 for the years ended December 31, 2007 and 2006, respectively. Tax Fees are fees for tax compliance, tax advice and tax planning.

The audit committee is authorized by its charter to pre-approve all auditing and permitted non-audit services to be performed by our independent registered public accounting firm. The audit committee reviews and approves the independent registered public accounting firm's retention to perform attest services, including the associated fees. The audit committee also evaluates other known potential engagements of the independent registered public accounting firm, including the scope of the proposed work and the proposed fees, and approves or rejects each service, taking into account whether the services are permissible under applicable law and

the possible impact of each non-audit service on the independent registered public accounting firm's independence from management. At subsequent meetings, the Committee will receive updates on the services actually provided by the independent registered public accounting firm, and management may present additional services for approval. The Committee has delegated to the Chairman of the Audit Committee the authority to evaluate and approve engagements on behalf of the Committee in the event that a need arises for pre-approval between Committee meetings. If the Chairman so approves any such engagements, he will report that approval to the full audit committee at its next meeting. During fiscal 2007, all such services were pre-approved in accordance with the procedures described above.

Our audit committee has reviewed the fees described above and believes that such fees are compatible with maintaining the independence of PricewaterhouseCoopers LLP.

Stockholder ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm is not required by our bylaws or other applicable legal requirement. However, the appointment of PricewaterhouseCoopers LLP is being submitted to the stockholders for ratification. If the stockholders fail to ratify the appointment, the audit committee will reconsider whether or not to retain the firm. Even if the appointment is ratified, the Audit committee at its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be appropriate.

OTHER MATTERS

We do not know of any other matters to be submitted at the annual meeting. If any other matters properly come before the annual meeting, it is the intention of the persons named in the enclosed form of proxy to vote the shares they represent as our Board of Directors recommends.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Since January 1, 2007, there has not been, nor is there currently proposed, any transaction or series of similar transactions to which we were or are a party in which the amount involved exceeded or exceeds \$120,000 and in which any of our directors, executive officers, holders of more than 5% of any class of our voting securities, or any member of the immediate family of any of the foregoing persons, had or will have a direct or indirect material interest, other than compensation arrangements with directors and executive officers, and the transactions described below.

Relationship with management, founders and investors

Ownership. Albert E. Winemiller, our chief executive officer, president and director, and Ronald F. Woestemeyer, our executive vice president, director and one of our founders, each hold more than 5% of our common stock. Mariette Woestemeyer, who is married to Mr. Woestemeyer, serves on our Board of Directors along with her husband. In addition, the funds affiliated with TA Associates are considered holders of more than 5% of our common stock. Kurt Jagers, who is a managing director of TA Associates, serves on our Board of Directors.

Committees. Mr. Jagers and Mrs. Woestemeyer each serve on our nominating and governance committee. Mr. Jagers also serves on our compensation committee.

Registration rights. TA Associates and Mr. and Mrs. Woestemeyer have piggyback registration rights with respect to shares of common stock that they respectively hold. In addition, TA Associates has demand and other registration rights for their shares of our common stock under the Stock Purchase and Stockholders Agreement described further below.

Stock Purchase and Stockholders Agreement. In June 1998, we entered into a Stock Purchase and Stockholders Agreement with TA Associates and other individuals to whom we issued our convertible preferred stock. This agreement provides the investors with registration rights and other rights relating to their investment in us.

Redemption of preferred stock. On August 15, 2005, TA Associates and JMI Equity converted the outstanding shares of our convertible preferred stock into 9,750,000 shares of our common stock and 3,921,312 shares of our redeemable preferred stock. In 2006, TA Associates and JMI Equity, as holders of approximately 75% and 24%, respectively, of our redeemable preferred stock, elected to have us redeem 1,294,030, or 33%, of the then outstanding redeemable preferred stock in accordance with the rights of the redeemable preferred stock. We redeemed those shares for \$8.4 million. In March 2007, we redeemed all 2,627,282 shares of our remaining redeemable preferred stock for a total redemption price of \$17.4 million, including \$5.6 million in accrued and unpaid

dividends on our redeemable preferred stock, in accordance with a redemption agreement between us and the holders of our redeemable preferred stock. In connection with the redemption in 2006, TA Associates and JMI Equity received \$6.4 million and \$2.0 million, respectively. In connection with the redemption in 2007, TA Associates and JMI Equity received \$13.0 million and \$4.0 million, respectively.

Dividend. On March 30, 2007, we declared and paid a one-time cash dividend of \$2.00 per share on our common stock. As a result of such dividend, Messrs. Winemiller, Charles H. Murphy and Mr. and Mrs. Woestemeyer (their relatives and trusts for the benefit of their relatives) and entities associated with TA Associates and JMI Equity received a total of \$3.9 million, \$1.2 million, \$12.3 million, \$14.7 million and \$4.6 million, respectively.

Warrants. On October 16, 2007, Mr. and Mrs. Woestemeyer exercised warrants to purchase an aggregate of 200,000 shares of our common stock at a price of \$2.05 per share.

Indemnification agreements. We have entered into indemnification agreements with each of our current directors and executive officers. These agreements require us, among other things, to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified. We also intend to enter into indemnification agreements with our future directors and executive officers.

Employment arrangements. We have entered into an employment agreement with each of Messrs. Winemiller, Murphy and Woestemeyer, our executive officers, which address, among other things, the terms of their employment.

Procedures for related party transactions

Under our code of business conduct and ethics, our employees and officers are discouraged from entering into any transaction that may cause a conflict of interest for us. In addition, they must report any potential conflict of interest, including related party transactions, to their managers or our compliance officer who then reviews and summarizes the proposed transaction for our audit committee. Pursuant to its charter, our audit committee must then approve any related-party transactions, including those transactions involving our directors. In approving or rejecting such proposed transactions, the audit committee considers the relevant facts and circumstances available and deemed relevant to the audit committee, including the material terms of the transactions, risks, benefits, costs, availability of other comparable services or products and, if applicable, the impact on a director's independence. Our audit committee will approve only those transactions that, in light of known circumstances, are in, or are not inconsistent with, our best interests, as our audit committee determines in the good faith exercise of its discretion.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors and executive officers, among others, to file with the SEC and the NYSE an initial report of ownership of our common stock on a Form 3 and reports of changes in ownership on a Form 4 or a Form 5. Persons subject to Section 16 are required by SEC regulations to furnish us with copies of all Section 16(a) forms that they file related to transactions in our common stock. Under SEC rules, certain forms of indirect ownership and ownership of our common stock by certain family members are covered by these reporting requirements. As a matter of practice, our administrative staff assists our directors and executive officers in preparing initial ownership reports and reporting ownership changes and typically files these reports on their behalf.

Based on a review of the copies of such forms in our possession, and on written representations from reporting persons, we believe that during 2007, all of our executive officers and directors filed the required reports on a timely basis under Section 16(a).

COMPENSATION DISCUSSION AND ANALYSIS

Our mission is to help our customers improve business and financial performance by providing them with our pricing and revenue optimization software products. Implementing our mission relies on delivering these software products successfully and competitively, as well as our ability

to help our customers address their pricing and revenue optimization needs. As a result, it is critical that we are able to attract, motivate and retain highly talented individuals who are committed to us and our mission and are willing to identify and exploit opportunities to grow our business. Consequently, the goals of our executive compensation program are to align our executive officers' compensation with our mission and the interests of our stockholders, to provide incentives and rewards to our executive officers for our success and to reflect the teamwork philosophy of our executive management team.

Our compensation committee did not rely on any benchmark studies of comparable companies in establishing executive compensation. Rather, we relied upon the experience and expertise of management and the members of our compensation committee to adopt executive compensation programs. In particular, Messrs. Jagers and Gruner, each of whom were members of our compensation committee prior to our initial public offering, are partners with venture capital and private equity firms and have served on the Boards of Directors and compensation committees of numerous private technology companies across the country. The compensation committee took into consideration our financial condition and operating results, our operating plan, our geographic location and the objectives of our executive compensation policies described below, and established an executive compensation program that the compensation committee members believed, based on their experience, is the most appropriate to motivate, retain and reward our executive officers.

The objectives of our executive compensation policy

Our executive compensation programs are designed to achieve the following objectives:

- attract and retain talented and experienced executives in the highly competitive and dynamic pricing and revenue software market;
- motivate and reward executives whose knowledge, skills and performance are critical to our success;
- align the interests of our executive officers and stockholders by motivating executive officers to increase stockholder value;
- provide a competitive compensation package which is weighted heavily towards pay for performance, and in which total compensation is primarily determined by company/team and individual results and the creation of stockholder value;
- ensure fairness among the executive management team by recognizing the contributions each executive makes to our success;
- foster a shared commitment among our management team by coordinating their respective teams and individual goals; and
- compensate our executives to manage our business to meet our long-range objectives.

Role of the compensation committee in setting executive compensation

The responsibility for establishing, administering and interpreting our policies governing the compensation and benefits for our executive officers lies with our compensation committee, which consists entirely of non-employee directors.

Edgar Filing: PROS Holdings, Inc. - Form DEF 14A

Our compensation committee has taken the following steps to ensure that our executive compensation and benefit policies are consistent with both our compensation philosophy and our corporate governance guidelines:

- evaluated our compensation practices and assisted in developing and implementing the executive compensation policy;
- established a practice, in accordance with the rules of the New York Stock Exchange, of reviewing the performance and determining the compensation earned, paid or awarded to our chief executive officer independent of input from him; and
- established a policy, in accordance with the rules of the New York Stock Exchange, to review on an annual basis the performance of our other executive officers with assistance from our chief executive officer and determining what we believe to be appropriate total compensation for these executive officers.

Basis of executive compensation

Based on our goals and the experience of our board and management, we established the following elements of executive compensation: base salary, cash incentive bonuses and long-term incentive awards, each as further described below.

We have chosen these components of our executive compensation program because we believe that they reward both long-term and short-term success while providing retention value. We also believe that these components are fairly standard for technology companies generally.

We have not retained a compensation consultant to review our policies and procedures with respect to executive compensation. Our compensation committee typically considers the recommendations of our chief executive officer and/or other members of management and determines the use and weight of each compensation element based on the subjective importance of each element in meeting our overall objectives. We elect to put a significant amount of each executive's total potential compensation at risk based on our financial and the executive's performance, which is reflected in our mix of short-term and long-term incentive components.

As we continue to evolve and have different priorities, we will evaluate our compensation packages and these components on a quantitative and qualitative basis to determine if they are still appropriate on at least a yearly basis or as circumstances dictate. We anticipate making new awards and adjustments to our compensation elements on an annual basis in connection with our yearly review and the recommendations of our chief executive officer and/or other members of management.

Components of executive compensation

Base salaries

Base salaries for our executive officers are reviewed on a yearly basis. For 2007, our executive officers' base salaries were set by reviewing their then current salaries in light of 2006 company performance and individual performance, scope of their responsibilities, the experience of the members of our compensation committee with similar stage companies and general economic factors. We use base salaries primarily to retain our executives.

In April 2007, our board reviewed the responsibilities and performance of Messrs. Winemiller, Murphy and Woestemeyer, their tenure with us, their existing compensation packages and their expected contributions and responsibilities for 2007. Based on this review and the additional responsibilities of these executives in connection with our plans to become a publicly-traded company, our board approved an increase in the base salary for Mr. Winemiller from \$275,000 to \$300,000 and for Mr. Murphy from \$245,000 to \$275,000 effective January 1, 2007.

Cash incentive bonus

We have an annual cash incentive bonus plan for our executive officers under which bonuses may be paid shortly after the end of each year based on our performance against meeting our corporate objectives for the year. Bonuses are intended to compensate our executive officers for achievement of our corporate financial goals. The bonuses are paid in cash and are generally paid in the first quarter following completion of a given year. Our compensation committee does not have the discretion to increase the targets or decrease the amounts payable to any of our executives, but it does have the discretion to lower the targets and increase the amounts payable under this cash incentive plan. Traditionally, the committee has not exercised this discretion nor did it exercise it in 2007.

Each component of this bonus is independent of the other components and has minimum target and maximum target levels. The target bonus amounts are payable under this cash bonus plan if we hit our target levels for each component. Actual results between the minimum, target and the maximum goal levels would be pro-rated. We use our annual cash incentive bonus plan to align our executive's performance with our financial results and to motivate our executives to achieve annual goals.

Long-term incentive award programs

Our base salary and cash incentive bonus plans are intended to compensate and motivate for the short-term. We believe that providing our executive officers with an ownership stake through participation in our long-term incentive plans will encourage long-term performance and help align their interests with those of our stockholders. We have granted stock options since we believe that these types of equity awards are competitive in our industry and are best understood by our executives and employees.

1999 equity incentive plan. Our 1999 equity incentive plan authorized us to grant options to purchase shares of common stock to our employees, directors and consultants. Our compensation committee was the administrator of this plan. Stock option grants under this plan were usually made at the commencement of employment and, occasionally, following a significant change in job responsibilities or to meet other special retention or performance objectives. The compensation committee reviewed and approved stock option awards to executive officers based upon a review of competitive compensation data, its assessment of individual performance, a review of each executive's existing long-term incentives and retention considerations. Periodic stock option grants were made at the discretion of the compensation committee to eligible employees and, in appropriate circumstances, the compensation committee considered the recommendations of our Chief Executive Officer and other members of management. Stock options granted by us have an exercise price equal to the fair market value of our common stock on the day of grant. The compensation committee, as plan administrator, can determine vesting for option grants which generally expire ten years after the date of grant. Incentive stock options also include certain other terms necessary to assure compliance with the Internal Revenue Code. Our 1999 equity incentive plan was terminated in March 2007 for purposes of granting any future equity awards under this plan. There were issued and outstanding stock options to purchase 306,242 shares of our common stock under this plan on December 31, 2007. None of these options were held by our executive officers.

2007 equity incentive plan. Our 2007 equity incentive plan, or 2007 plan, was adopted in March 2007. The purpose of the 2007 plan is to promote our long-term growth and profitability. The 2007 plan is intended to make available incentives that will help us to attract, retain and reward employees whose contributions are essential to our success. We may provide these incentives through the grant of: (i) restricted stock awards; (ii) restricted stock unit awards; (iii) stock options; (iv) stock appreciation rights; (v) phantom stock; and (vi) performance awards.

A total of 1,870,000 shares have been reserved for issuance under the 2007 plan with an evergreen provision that allows for an annual increase equal to the lesser of (a) 3.5% of our outstanding shares (b) 900,000 shares or (c) any lesser amount determined by our Board of Directors. As of December 31, 2007, 114,000 shares remain available for grant or award under the 2007 plan. The compensation committee of our board has been designated to administer the 2007 plan. Under the 2007 plan, our employees, officers, directors and other individuals providing services to us or any of our affiliates are eligible to receive awards. The committee has the authority, consistent with the provisions of the 2007 plan, to determine which eligible participants will receive awards, the form of the awards and the number of shares of our common stock covered by each award. The committee may impose terms, limits, restrictions and conditions upon awards, and may modify, amend, extend or renew awards, accelerate or change the timing of exercise of awards or waive any restrictions or conditions of an award. As of December 31, 2007, we had outstanding equity awards to acquire 1,756,000 shares of our common stock held by our executive officers, employees and consultants under the 2007 plan. In February 2008, the compensation committee approved an increase in the total shares reserved for issuance by 900,000 shares in accordance with the evergreen provision.

Stock options. Our 2007 plan permits the granting of options to purchase shares of our common stock intended to qualify as incentive stock options, under Section 422 of the Internal Revenue Code, and nonqualified stock options. The option exercise price and the term of each option are determined by the compensation committee. The compensation committee also determines at what time or times each option may be exercised and the period of time, if any, after retirement, death, disability or termination of employment during which options may be exercised. The compensation committee, as plan administrator, can determine vesting for grants which generally expire ten years after the date of the grant.

Stock appreciation rights. The compensation committee may grant a right to receive a number of shares or, in the discretion of the compensation committee, an amount in cash or a combination of shares and cash, based on the increase in the fair market value of the shares underlying the right during a stated period specified by the compensation committee.

Restricted stock awards and units. The compensation committee may award shares of our common stock to participants at no cost or for a purchase price or restricted stock units that are settled in shares of our common stock. These restricted stock and restricted stock unit awards may be subject to restrictions or may be free from any restrictions under our 2007 plan. The purchase price of the shares, if any, and any applicable restrictions, are determined by the compensation committee.

Phantom stock. The compensation committee may grant stock equivalent rights, or phantom stock, which entitles the recipient to receive credits which are ultimately payable in the form of cash, shares of our common stock or a combination of both. Phantom stock does not entitle the holder to any rights as a stockholder.

Performance awards. The compensation committee may grant performance awards to participants entitling the participants to receive cash, shares of our common stock or a combination of both, upon the achievement of performance goals and other conditions determined by the compensation committee. The performance goals may be based on our operating income or on one or more other business criteria selected by the compensation committee.

Edgar Filing: PROS Holdings, Inc. - Form DEF 14A

In the event of any stock split, stock dividend or similar transaction, the shares subject to the 2007 plan and any outstanding awards will automatically be adjusted. The 2007 plan will continue in effect until the tenth anniversary of its approval by our board, unless earlier terminated earlier. The compensation committee may amend, terminate or modify the plan at any time.

In the event of certain significant corporate transactions, including a change in control of the Company, any then-outstanding equity award or option under the 2007 plan may be assumed, continued or substituted for by any surviving or acquiring entity (or its parent company). If the surviving or acquiring entity (or its parent company) elects to assume, continue or substitute for such awards or options and the holder of such award or option is terminated without cause or resigns for good reason within 18 months of a change of control of the Company, such awards or options shall vest in full. If the surviving or acquiring entity (or its parent company) elects not to assume, continue or substitute for the equity awards or options under the 2007 plan, all outstanding equity awards and options under the 2007 plan will vest in full and become fully exercisable.

The compensation committee believes that the use of stock options and equity awards offers the best approach to achieve our compensation goals with respect to long-term incentives and currently provides tax and other advantages to our employees relative to other forms of equity compensation. We believe that our equity incentive program is an important retention tool for our employees.

At the beginning of 2007, the compensation committee conducted an annual review of the compensation packages of our executive officers, including the retention value of their compensation components, their contributions to our business and their ability to continue to provide leadership to us and to maintain our success. The compensation committee believed it was in our best interests to provide additional stock options to our executive officers to incentivize them and to provide additional retention value. We issued no stock options in 2006 and only Mr. Murphy had stock options that remained subject to vesting. In April 2007, we granted to each of our Chief Executive Officer and Chief Financial Officer a stock option under our 2007 plan to purchase 150,000 shares of our

common stock at \$6.00 per share. Mr. Woestemeyer was not granted any stock options at this time because the compensation committee believed that his significant equity ownership was sufficient for motivation and retention.

These stock options provide for the full acceleration of the vesting upon our change in control, the officer's termination without cause or resignation for good reason and otherwise vest as to 25% of the shares in April 2008 and monthly thereafter based on continued employment over the following three years. These stock options also allow our executives to exercise them prior to the vesting of such options, which allows our executives to begin their tax holding period. If the executive officer exercises and holds the underlying shares for over a year after such exercise and over two years after the date of grant, the executive officer may be able to take advantage of the long-term capital gain tax rate. The long-term capital gain rate is lower than the short-term capital gain tax rate that may otherwise be applicable. Our standard stock options to our non-executive employees do not contain the immediate exercise feature. We believe the practice of granting immediately exercisable options for executive officers is fairly standard across our industry and, as a result, is another mechanism to assist us in retaining our executives and ensure that their compensation packages are competitive. These grants were made because our compensation committee believes it is an appropriate incentive mechanism to encourage retention for the long-term. In determining the number of shares subject to stock options granted to the executive officers, the compensation committee took into account each executive officer's position, scope of responsibility, ability to affect stockholder value and historic and recent performance.

Benefits. We provide our executive officers the following benefits, generally on the same terms as we provide our other employees.

- health, dental, travel, accident insurance and vision;
- life insurance;
- employee assistance plan;
- medical and dependant care flexible spending account;
- short-and long-term disability, accidental death and dismemberment;
- a 401(k) plan;
- paid time off and vacations;

- sick days; and
- tuition reimbursement.

We believe these benefits are consistent with companies with which we compete for employees.

401(k) Plan. In May 1996, we adopted a tax-qualified employee savings and retirement plan, or 401(k) plan, which generally covers our full-time employees. The plan is intended to qualify under Section 401(a) of the Internal Revenue Code. Contributions, and income earned thereon, are not taxable to employees until withdrawn from this plan. Under this plan, employees may elect to reduce their current compensation up to the statutorily prescribed annual limit and have the amount of the reduction contributed to the plan. This plan also permits us to make matching contributions to the plan on behalf of participants. Since January 2000, we have matched up to 50% of an employee's contribution up to 6% of the employee's eligible income contributed to our 401(k) plan.

Severance and termination provisions

We provide our executive officers severance packages if they are terminated without cause (as defined in their employment or severance agreements) in order to attract and retain them. The amount of severance benefits is described below. The Compensation committee reviews the potential payouts to ensure their market-competitiveness in order to incentivize our executive officers to maintain focus on both daily and long-term efforts.

We entered into employment agreements with Mr. Winemiller, our Chief Executive Officer, and Mr. Murphy, our Chief Financial Officer, on September 30, 2005. Both of these agreements were originally for a two year term and automatically renew for one year terms unless the Company decides not to renew them. The base salaries payable to each of Messrs. Winemiller and Murphy are subject to periodic review by our compensation committee. Both Messrs. Winemiller and Murphy are entitled to 12 months of severance, up to 12 months of health benefits and 12 months of acceleration of the vesting on their stock options granted prior to April 2, 2007 if their employment with us is terminated without cause or they resign with good reason as defined in those agreements. On April 2, 2007, our board amended these employment agreements to also provide for the full acceleration of vesting, or lapse of all

repurchase rights, of any options or other equity awards granted to these executive officers on or after April 2, 2007, if any of these officers is terminated without cause, resigns for good reason or if a change of control of the Company occurs. In addition, the amended employment agreements provide for 18 months of severance and 18 months of health benefits if such officer is terminated without cause or if such officer resigns for good reason within six months prior to or any time after a change in control transaction of the Company. Messrs. Winemiller and Murphy are subject to non-competition and non-solicitation restrictions during the term of their employment and for the 12-month period following the termination of their employment.

In January 1999, we entered into an employment agreement with Mr. Woestemeyer, our Executive Vice President. This agreement was originally for a two-year term and automatically renews for one year terms unless the Company decides not to renew. Under this agreement, Mr. Woestemeyer's salary is subject to periodic review by our compensation committee, and he is entitled to 12 months of severance if he is terminated without cause as defined in his agreement or we decide not to renew his agreement without giving him notice. If we decide not to renew this agreement and we provide 60-days notice of non-renewal to Mr. Woestemeyer, he is entitled to 10 months of severance. In addition, Mr. Woestemeyer is subject to non-competition and non-solicitation restrictions during the term of his employment and for the severance period following the termination of his employment.

Cause is defined in these employment agreements as a breach by our officer of his duties of confidentiality which causes a material harm to us, his conviction of, or a plea of guilty or no contest to, a felony or his failure to perform his duties after notice and a cure period. In addition, for Messrs. Winemiller and Murphy, cause also includes an intentional wrongdoing by them that adversely affects us. Messrs. Winemiller and Murphy can resign for good reason and be entitled to severance. Good reason is defined in their employment agreements as the assignment of duties to them that are substantially inconsistent with their current roles with us, the relocation of their offices to more than 50 miles from our present location, a material reduction in their base salaries and our failure to provide them with similar benefits that we provide to our other employees.

Components of executive compensation for 2007 and 2008

Executive compensation activities in 2007. In April 2007, our compensation committee adopted our 2007 cash incentive bonus plan and applied an analysis to setting components and targets similar to the analysis the committee applied in 2006. The committee reviewed our financial performance for the prior year, management's performance against prior year targets, our plan for the next fiscal year and the total compensation potential afforded the executive officers considering all elements of the executive officers' compensation.

The compensation committee replaced the year end sales backlog component with sales during the period because year end sales backlog can include prior period sales, and the committee believed that focusing the bonus plan on sales during the relevant period was a more accurate measurement of our executive officers' performance during the period. Sales are contracted license and implementation service fees.

The potential payouts under the bonus plan were based on our performance as a company within a range of each component's target. No bonus was to be earned below the target threshold and the maximum bonus was to be earned at the target maximum. The ranges for each component are set forth in the following table:

Component	Target threshold	Target maximum
-----------	------------------	----------------

Edgar Filing: PROS Holdings, Inc. - Form DEF 14A

			(in millions)
Revenue	90% of Target	\$	62.0
Operating income	90% of Target		10.5
Sales	90% of Target		48.0

Sales has a higher maximum target range than revenue and operating income because the committee believed that emphasizing sales growth is critically important to building the long-term growth of our business.

Following the growth of our business in 2006 versus 2005, the committee sought to set 2007 targets consistent with our operating plan for the 2007 fiscal year and at sufficiently high levels to motivate the executive officers to continue to grow the business and manage expenses, with an emphasis on increasing sales. The following table sets forth our revenue, operating income and sales targets for 2007:

Component (In millions)	Target (GAAP)(1)
Revenue	\$ 61.0
Operating income	9.5
Sales	40.0

- (1) The targets set forth in this table were established and are disclosed only as performance objectives for our executive officers, and do not constitute guidance regarding our expected future operating results. Our actual operations results are subject to significant risks, uncertainties and contingencies, including those risks set forth in Item 1A Risk factors in our annual report on Form 10-K for the year ended December 31, 2007.

Each of the components are independent of the others, but the weighting of the components as they relate to potential bonus payouts are set forth in the following table:

Component	Weighting of component as a % of bonus payment
Revenue	33.3%
Operating income	33.3%
Sales	33.3%

The committee weighted the components equally because the committee sought to retain the motivational benefits of growing the sales and customer base but also determined that the executive officers should be equally motivated to manage the business in such a way to achieve high operating income.

The committee set the amount of each bonus payment as a percentage of the base salary of each executive officer as set forth in the following table:

Executive officer	At target threshold	At target	At target maximum
Albert E. Winemiller	50%	100%	146%
Charles H. Murphy	40%	80%	117%
Ronald F. Woestemeyer	22.5%	45%	66%

The committee increased these percentages in 2007 compared with those used in the 2006 Plan based on its analysis and observations of competitive market pay levels for the respective officers and in consideration of the total compensation of each executive officer. Under the 2007 cash incentive bonus plan, each executive officer achieved the target maximum as presented above.

Executive compensation activities in 2008. The 2008 Executive and Key Employees Incentive Bonus Plan sets target bonus amounts and performance criteria for participants. The performance criteria, the criteria's weighting and the general terms of the 2008 Executive and Key Employees Incentive Bonus Plan are consistent with the Company's 2007 Executive and Key Employee Incentive Plan as described above, except that the performance targets under the 2008 Executive and Key Employees Incentive Bonus Plan based upon the Company's 2008 operating plan.

Tax considerations

We are subject to Internal Revenue Code Section 162(m), which limits the amount that we may deduct for compensation paid to our chief executive officer and to each of our four most highly compensated officers to \$1,000,000 per person per year, unless certain exemption requirements are met. Exemptions to this deductibility limit may be made for various forms of performance-based compensation approved by our stockholders. In addition to salary and bonus compensation that is not performance-based, the exercise of stock options may cause an officer's total compensation to exceed \$1,000,000. However, compensation from options that meet certain requirements will be exempt from the \$1,000,000 cap on deductibility. In the past, annual cash compensation to our executive officers has not exceeded \$1,000,000 per person. Although we do not currently anticipate such compensation to exceed the \$1,000,000 limit, our officer compensation could in the future exceed this limit, and we may not be able to deduct the compensation amount in excess of \$1,000,000. While the compensation committee cannot predict how the deductibility limit may impact our

compensation program in future years, the compensation committee intends to maintain an approach to executive compensation that strongly links pay to performance.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the preceding Compensation Discussion and Analysis section of this proxy statement with our management. Based on this review and discussion, the compensation committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in our proxy statement and incorporated by reference into our Annual Report on Form 10-K for the year ended December 31, 2007.

Outstanding equity awards at fiscal 2007 year-end

The following table presents information, as of December 31, 2007, concerning unexercised options that have not vested for each Named Executive Officer:

Name	Number of Securities underlying Unexercised Options (#) Exercisable	Number of Securities underlying Unexercised Options (#) Unexercisable	Option Awards Equity Incentive Plan Awards: Number of Securities underlying Unexercised Unearned Options (#)	Option Exercise Price (\$)	Option Expiration Date
Albert E. Winemiller	150,000			6.00	4/2/2017
Charles H. Murphy	150,000			6.00	4/2/2017

The option awards for both Messrs. Winemiller and Murphy awarded on April 2, 2007 are immediately exercisable and which vest as to 25% on April 2, 2008 and the remaining monthly thereafter based on continued employment through April 2, 2011.

Option exercises and stock vested for 2007

In 2007, our executive officers did not exercise any options. In April 2007, Messrs. Winemiller and Murphy were each granted options to purchase 150,000 shares of our common stock. None of the options issued to either Messrs. Winemiller or Murphy have vested as of December 31, 2007. We have not granted Mr. Woestemeyer any stock options because of his equity position in us.

In September 2005, Mr. Murphy was granted an immediately exercisable stock option for 100,000 shares. In 2006, Mr. Murphy exercised 100,000 shares at an exercise price of \$0.43 per share. Of these shares, 75,000 shares of this option grant were vested at December 31, 2007. We would have had the right on December 31, 2007 to repurchase 25,000 shares if Mr. Murphy had been terminated for cause or resigned without good reason on December 31, 2007. Mr. Murphy's 25,000 shares will vest on December 31, 2008 and our right of repurchase lapses, at a rate of approximately 2,083 shares per month through that date.

Potential payments upon termination or change in control*Termination events*

Our employment agreements with each of our Named Executive Officers provide that in the case of a termination of employment by us without cause, as defined in the agreement, or by the Named Executive Officer for Good Reason, as defined in the agreement, the Named Executive Officer would be entitled to a payment equal to one year of his then current base salary. In addition to the one year of his then current base salary, Messrs. Winemiller and Murphy would be entitled to; (i) up to 12 months of health benefits; (ii) 12 months of acceleration of the vesting of their stock option awards and equity awards granted prior to April 2, 2007; and (iii) full acceleration on the vesting of any stock option award or equity award granted on or after April 2, 2007.

The following table presents the amounts of such severance payments to Messrs. Winemiller, Murphy and Woestemeyer assuming the event that triggered the payment occurred December 31, 2007:

Name	Severance (\$)	Health Benefits (\$)	SFAS 123R Fair Value of Vesting Acceleration (\$)	Total (\$)
Albert E. Winemiller	300,000	9,866	1,904,857	2,214,723
Charles H. Murphy	275,000	11,476	2,384,607	2,671,083
Ronald F. Woestemeyer	233,750			233,750

Termination events after a change-in-control

Our employment agreements with Messrs. Winemiller and Murphy provide that in the event of a termination of employment without cause or for Good Reason within six months of or anytime after a change-in-control, Messrs. Winemiller and Murphy would be entitled to a payment equal to 18 months of his then current base salary. In addition to the 18 months of base salary Messrs. Winemiller and Murphy would be entitled to: (i) 18 months of health benefits, (ii) 12 months of acceleration of the vesting of their stock option awards and equity awards granted prior to April 2, 2007 and (iii) full acceleration on the vesting of any stock option award or equity award granted on or after April 2, 2007.

The amounts presented below assume a termination effective as of December 31, 2007, as well as a closing price of our common stock on Monday, December 31, 2007 (the last trading day of our fiscal year) of \$19.62 per share, and thus include amounts earned through such time and are estimates of amounts that would be paid out to the Named Executive Officers upon their separation or termination. The actual obligation can only be determined at the time of the Named Executive Officer's separation from us.

The following table presents potential payments to the Messrs. Winemiller and Murphy in the event of a termination without cause or termination for Good Reason by Messrs. Winemiller and Murphy within six months of a change-in-control, in each case assuming the event that triggered the payment occurred December 31, 2007:
