HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States and applicable rules and regulations of the Securities and Exchange Commission (the Commission) pertaining to interim financial information. Accordingly, these interim financial statements do not include all information or footnote disclosures required by accounting principles generally accepted in the United States for complete financial statements and, therefore should be read in conjunction with the consolidated financial statements and notes thereto in the Company's 2007 Annual Report on Form 10-K and other current filings with the Commission. In the opinion of management, all adjustments, consisting of those of a normal recurring nature, necessary to present fairly the results of the periods presented have been included. The results of operations for the interim periods presented may not necessarily be indicative of the results to be expected for the full year.

Certain amounts in the accompanying consolidated financial statements for prior periods have been reclassified to conform to current year presentation. Specifically, fiscal year 2007 operating revenues for Drilling-Offshore and for Drilling-International Land have been restated to reflect a reclassification between those two segments and the Real Estate segment previously shown separately has been included with all other non-reportable business segments.

2. Earnings per Share

Basic earnings per share is based on the weighted-average number of common shares outstanding during the period. Diluted earnings per share includes the dilutive effect of stock options and restricted stock.

A reconciliation of the weighted-average common shares outstanding on a basic and diluted basis is as follows (in thousands):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2008	2007	2008	2007
Basic weighted average shares	104,530	103,323	103,973	103,292
Effect of dilutive shares:				
Stock options and restricted stock	2,159	1,990	2,157	1,698
Diluted weighted average shares	106,689	105,313	106,130	104,990

For the nine months ended June 30, 2008 and 2007, options to purchase shares of common stock outstanding but not included in the computation of diluted earnings per share were 25,132 and 597,950, respectively. Inclusion of these shares would be antidilutive. For the three months ended

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

June 30, 2008 and 2007 all options were included in the computation of diluted earnings per share.

3. Inventories

Inventories consist primarily of replacement parts and supplies held for use in the Company's drilling operations.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

4. Investments

The following is a summary of available-for-sale securities, which excludes securities accounted for under the equity method of accounting, investments in limited partnerships carried at cost and assets held in a Non-qualified Supplemental Savings Plan.

	Cost	Gross Unrealized Gains (in thousands)	Gross Unrealized Losses	Est. Fair Value
Equity Securities 06/30/08	\$ 7,685	\$ 96,254	\$	\$ 103,939
Equity Securities 09/30/07	\$ 11,329	\$ 117,646	\$	\$ 128,975

The investment in the limited partnership carried at cost was \$12.4 million at June 30, 2008 and September 30, 2007. The estimated fair value of the investments carried at cost was \$19.5 million and \$22.3 million at June 30, 2008 and September 30, 2007, respectively. The assets held in the Non-qualified Supplemental Savings Plan are valued at fair market which totaled \$7.3 million at June 30, 2008 and \$7.8 million at September 30, 2007. The recorded amounts for investments accounted for under the equity method are \$95.3 million and \$74.2 million at June 30, 2008 and September 30, 2007, respectively. During the nine months ended June 30, 2008, the Company increased the equity investment \$2.5 million (\$1.5 million, net of tax) to account for capital transactions of Atwood Oceanics, Inc. (Atwood). At June 30, 2008, the Company owned 4,000,000 shares of Atwood. Subsequent to June 30, 2008, Atwood had a 2-for-1 stock split and the Company received an additional 4,000,000 shares. The additional shares will not have any affect on the Company's recorded investment.

5. Comprehensive Income

Comprehensive income, net of related income taxes, is as follows (in thousands):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2008	2007	2008	2007
Net Income	\$ 125,369	\$ 115,204	\$ 335,253	\$ 332,851

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

The components of accumulated other comprehensive income, net of related income taxes, are as follows (in thousands):

	June 30, 2008	September 30, 2007
Unrealized appreciation on securities, net	\$ 59,677	\$ 72,941
Minimum pension liability	2,938	2,944
Accumulated other comprehensive income	\$ 62,615	\$ 75,885

6. Financial Instruments

During the nine months ended June 30, 2007, the Company liquidated its position in auction rate securities with no realized gains or losses. The proceeds of \$48.3 million were included in the sale of investments under investing activities on the Consolidated Condensed Statements of Cash Flows. There were no purchases or sales of auction rate securities in the nine months ended June 30, 2008.

7. Cash Dividends

The \$0.045 cash dividend declared March 5, 2008, was paid June 2, 2008. On June 4, 2008, a cash dividend of \$0.05 per share was declared for shareholders of record on August 15, 2008, payable September 2, 2008.

8. Stock-Based Compensation

The Company has one plan providing for common-stock based awards to employees and to non-employee Directors. The plan permits the granting of various types of awards including stock options and restricted stock awards. Restricted stock may be granted for no consideration other than prior and future services. The purchase price per share for stock options may not be less than market price of the underlying stock on the date of grant. Stock options expire ten years after the grant date. Vesting requirements are determined by the Human Resources Committee of the Company's Board of Directors. Readers should refer to Note 5 of the consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2007 for additional information related to stock-based compensation.

The Company uses the Black-Scholes formula to estimate the value of stock options granted. The fair value of the options is amortized to compensation expense on a straight-line basis over the requisite service periods of the stock awards, which are generally the vesting periods. The

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Company has the right to satisfy option exercises from treasury shares and from authorized but unissued shares.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

During the nine months ended June 30, 2007, the Company repurchased 681,900 shares of its common stock at an aggregate cost of \$15.9 million. The Company has not repurchased any common stock during fiscal 2008 but may repurchase additional shares if the share price is favorable.

A summary of compensation cost for stock-based payment arrangements recognized in general and administrative expense and cash received from the exercise of stock options is as follows (in thousands, except per share amounts):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2008	2007	2008	2007
Compensation expense				
Stock options	\$ 1,533	\$ 1,372	\$ 4,698	\$ 4,262
Restricted stock	365	347	912	1,017
	\$ 1,898	\$ 1,719	\$ 5,610	\$ 5,279
After-tax stock based compensation	\$ 1,176	\$ 1,066	\$ 3,478	\$ 3,273
Per basic share	\$.01	\$.01	\$.03	\$.03
Per diluted share	\$.01	\$.01	\$.03	\$.03
Cash received from exercise of stock options	\$ 5,983	\$ 2,405	\$ 14,267	\$ 3,277

STOCK OPTIONS

The following summarizes the weighted-average assumptions utilized in determining the fair value of options granted during the nine months ended June 30, 2008 and 2007:

	2008	2007
Risk-free interest rate	3.3%	4.6%
Expected stock volatility	31.1%	35.9%
Dividend yield	.5%	.7%
Expected term (in years)	4.8	5.5

Risk-Free Interest Rate. The risk-free interest rate is based on U.S. Treasury securities for the expected term of the option.

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Expected Volatility Rate. Expected volatility is based on the daily closing price of the Company's stock based upon historical experience over a period which approximates the expected term of the option.

Dividend Yield. The expected dividend yield is based on the Company's current dividend yield.

Expected Term. The expected term of the options granted represents the period of time that they are expected to be outstanding. The Company estimates the expected term of options granted based on historical experience with grants and exercises.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

A summary of stock option activity under the Plan for the nine months ended June 30, 2008 and 2007 is presented in the following table:

	2008		2007	
	Shares (in thousands)	Weighted- Average Exercise Price	Shares (in thousands)	Weighted- Average Exercise Price
Outstanding at October 1,	6,032	\$ 15.80	5,619	\$ 14.24
Granted	742	35.11	731	26.90
Exercised	(1,833)	11.81	(260)	12.62

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Forfeited/Expired	(93)		26.64	(12)		28.84
Outstanding at June 30,	4,848	\$	20.06	6,078	\$	15.81

The weighted-average fair value of options granted in the first quarter of fiscal 2008 was \$10.81. The weighted-average fair value of options granted in the first quarter of fiscal 2007 was \$10.36 and the weighted-average fair value of options granted in the second quarter of fiscal 2007 was \$9.11. No options were granted in the second quarter of fiscal 2008 or in the third quarters of fiscal 2008 and 2007.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

The total intrinsic value of options exercised during the three and nine months ended June 30, 2008 was \$60.7 million and \$80.9 million respectively. The total intrinsic value of options exercised during the three and nine months ended June 30, 2007 was \$4.0 million and \$5.0 million, respectively.

As of June 30, 2008, the unrecognized compensation cost related to the stock options was \$13.2 million. That cost is expected to be recognized over a weighted-average period of 2.7 years.

RESTRICTED STOCK

Restricted stock awards consist of the Company's common stock and are time vested over 3-5 years. The Company recognizes compensation expense on a straight-line basis over the vesting period. The fair value of restricted stock awards is determined based on the closing trading price of the Company's shares on the grant date. The weighted-average grant-date fair value of shares granted for the nine months ended June 30, 2008 and 2007 was \$35.19 and \$26.90, respectively.

A summary of the status of the Company's restricted stock awards as of June 30, 2008 and 2007, and changes during the nine months then ended is presented below:

Restricted Stock Awards	Shares (in thousands)	Nine months ended June 30,		2007	Weighted- Average Grant-Date Fair Value
		2008	Weighted- Average Grant-Date Fair Value		
Unvested at October 1,	240	\$	29.27	213	\$ 29.57
Granted	22		35.19	27	26.90
Vested	(3)		16.01		
Forfeited	(14)		30.24		
Unvested at June 30,	245	\$	29.92	240	\$ 29.27

As of June 30, 2008, there was \$4.0 million of total unrecognized compensation cost related to unvested restricted stock options granted under the Plan. That cost is expected to be recognized over a weighted-average period of 2.75 years.

9. Notes Payable and Long-term Debt

N/A

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

At June 30, 2008, the Company had the following unsecured long-term debt outstanding:

Maturity Date	Interest Rate	
Fixed rate debt:		
August 15, 2009	5.91%	\$ 25,000,000
August 15, 2012	6.46%	75,000,000
August 15, 2014	6.56%	75,000,000
Senior credit facility:		
December 18, 2011	2.74%-2.84%	280,000,000
		\$ 455,000,000

The terms of the fixed rate debt obligations require the Company to maintain a minimum ratio of debt to total capitalization.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

The Company has an agreement with a multi-bank syndicate for a \$400 million senior unsecured credit facility which matures December 2011. While the Company has the option to borrow at the prime rate for maturities of less than 30 days, the Company anticipates that the majority of all of the borrowings over the life of the facility will accrue interest at a spread over LIBOR. The Company pays a commitment fee based on the unused balance of the facility. The spread over LIBOR as well as the commitment fee is determined according to a scale based on a ratio of the Company's total debt to total capitalization. The LIBOR spread ranges from .30 percent to .45 percent depending on the ratios. At June 30, 2008, the LIBOR spread on borrowings was .35 percent and the commitment fee was .075 percent per annum.

Financial covenants in the facility require the Company to maintain a funded leverage ratio (as defined) of less than 50 percent and an interest coverage ratio (as defined) of not less than 3.00 to 1.00. The facility contains additional terms, conditions, and restrictions that the Company believes are usual and customary in unsecured debt arrangements for companies that are similar in size and credit quality. At June 30, 2008, the Company had three letters of credit totaling \$25.9 million under the facility and had \$280 million borrowed against the facility with \$94.1 million available to borrow. The advances bear interest ranging from 2.74 percent to 2.84 percent. Subsequent to June 30, 2008, the debt was reduced \$5.0 million.

The Company also has an agreement with a single bank for an unsecured line of credit for \$5 million. Pricing on the line of credit is prime minus 1.75 percent. The covenants and other terms and conditions are similar to the aforementioned senior credit facility except that there is no commitment fee. At June 30, 2008, the Company had no outstanding borrowings against this line.

The Company maintains an unsecured credit facility with a financial institution which it uses to issue letters of credit in order to obtain surety bonds for its international operations. At June 30, 2008, unsecured letters of credit outstanding totaled \$7.6 million.

At June 30, 2008, the Company had an unsecured note payable to a bank totaling \$2.3 million denominated in a foreign currency. The interest rate of the note is 16.0 percent with a one year maturity payable in quarterly installments. Subsequent to June 30, 2008, the note was reduced \$0.6 million.

10. Acquisition of TerraVici Drilling Solutions

On May 21, 2008, the Company acquired a private limited partnership, TerraVici Drilling Solutions (TerraVici) in a transaction accounted for under the purchase method of accounting. Under the purchase method of accounting, the assets acquired and liabilities assumed of TerraVici are recorded as of the acquisition date, at their respective fair values, and consolidated with those of the Company. TerraVici's results of operations are included in the Company's consolidated financial statements from the date of acquisition. TerraVici is included with all other non-reportable business segments.

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

The Company paid a total purchase price of \$12.2 million to acquire TerraVici and it is now a wholly-owned subsidiary of the Company. The total purchase price included acquisition-related costs of \$1.2 million. The transaction includes future contingency payments up to \$11 million based on specific commerciality milestones plus certain earn-out provisions based on future earnings.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

TerraVici is developing patented rotary steerable technology to enhance horizontal and directional drilling operations. The Company acquired TerraVici to complement technology currently used with the FlexRig. By combining this new technology with the Company's existing capabilities, the Company expects to improve drilling productivity and reduce total well cost to the customer.

The acquisition was accounted for using the purchase method of accounting and the purchase price allocation resulted in the following amounts being allocated to the assets acquired and liabilities assumed at the acquisition date based upon their respective fair values.

Amounts in thousands	May 21, 2008	
Current assets	\$	352
Fixed assets		4,257
Trademark		919
In-process research and development		11,129
Other noncurrent assets		280
Assets acquired		16,937
Liabilities assumed		(5,452)
Net assets acquired		11,485
Goodwill		672
Acquisition cost	\$	12,157

The fair value of the acquired intangible assets consists primarily of trademarks of \$0.9 million and non-compete agreements of \$0.3 million. The weighted average amortization period for the non-compete agreements is 4.0 years.

In-process research and development, or IPR&D, represents rotary steerable system (RSS) tools under development by TerraVici at the date of acquisition that had not yet achieved technological feasibility, and would have no future alternative use. Accordingly, the purchase price allocated to IPR&D was expensed immediately subsequent to the acquisition. This charge will be amortized over 15 years for tax purposes. The \$11.1 million estimated fair value of these intangible assets was derived using the multi-period excess-earnings method.

Detailed pro forma summary financial results for the three and nine months ended June 30, 2008 are not presented because the consolidated results of operations, assuming the acquisition of TerraVici had occurred at the beginning of the reporting period, are not materially different from the Consolidated Condensed Statement of Income as reported.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

The excess of purchase price over the fair value assigned to the assets acquired and liabilities assumed represents the goodwill resulting from the acquisition. The amount allocated to goodwill is preliminary and subject to change, depending on the results of the final purchase price allocation. The Company does not expect any portion of this goodwill to be deductible for tax purposes. The goodwill attributable to the Company's acquisition of TerraVici has been recorded as a noncurrent asset in the Company's June 30, 2008 Consolidated Balance Sheet and will not be amortized, but is subject to review for impairment, on an annual basis, or as indicators of impairment exist.

The allocation of the purchase price is subject to finalization of the Company's management analysis of the fair value of the assets acquired and liabilities assumed of TerraVici as of the acquisition date. The final allocation of the purchase price may result in additional adjustments to the recorded amounts of assets and liabilities and may also result in adjustments to depreciation, amortization and acquired in-process research and development. The final allocation is expected to be completed as soon as practicable but no later than 12 months after the acquisition date.

11. Income Taxes

The Company's effective tax rate for the first nine months of fiscal 2008 and 2007 was 36.9 percent and 36.6 percent, respectively. The effective tax rate for the three months ended June 30, 2008 and 2007 was 36.8 percent and 36.5 percent, respectively. The effective rate differs from the U.S. federal statutory rate of 35.0 percent primarily due to state and foreign taxes.

The Company adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* — an interpretation of FASB Statement No. 109 (FIN 48) on October 1, 2007. FIN 48 clarifies the accounting and disclosure requirements for uncertainty in tax positions. FIN 48 prescribes a recognition threshold of more-likely-than-not, and a measurement attribute for all tax positions taken or expected to be taken on a tax return, in order to be recognized in the financial statements. The cumulative effect of initially applying the Interpretation was reported as an adjustment to the opening balance of retained earnings on October 1, 2007.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

The net impact to the Company of the cumulative effect of adopting FIN 48 was a decrease of approximately \$5.0 million in retained earnings. The liabilities for unrecognized tax benefits and related interest and penalties are included in other noncurrent liabilities on the balance sheet.

At October 1, 2007, the Company's liability for unrecognized tax benefits, after the adoption of FIN 48, was \$4.6 million, of which \$4.3 million represents tax benefits that, if recognized, would favorably impact the effective tax rate. Unrecognized tax benefits increased to \$5.4 million at June 30, 2008, mainly due to the current period impact of tax positions taken in prior years. Included in this balance is \$4.9 million which, if recognized, would favorably affect our effective tax rate.

The Company recognizes accrued interest related to unrecognized tax benefits in interest expense, and penalties in other expense in the consolidated statements of income. At October 1, 2007 and June 30, 2008, the Company had accrued interest and penalties of \$2.0 million and \$2.2 million, respectively.

The Company files a consolidated U.S. federal income tax return, as well as income tax returns in various states and foreign jurisdictions. The tax years that remain open to examination by U.S. federal and state jurisdictions include fiscal years 2004 to 2007. Audits in foreign jurisdictions are generally complete through fiscal year 2001.

It is reasonably possible that the amount of the unrecognized tax benefit with respect to certain unrecognized tax positions will increase or decrease during the next 12 months; however, the Company does not expect the change to have a material effect on results of operations or financial position.

12. Contingent Liabilities and Commitments

In conjunction with the Company's current drilling rig construction program, purchase commitments for equipment, parts and supplies of approximately \$192.5 million are outstanding at June 30, 2008.

Various legal actions, the majority of which arise in the ordinary course of business, are pending. The Company maintains insurance against certain business risks subject to certain deductibles. None of these legal actions are expected to have a material adverse effect on the Company's financial condition, cash flows or results of operations.

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

The Company is contingently liable to sureties in respect of bonds issued by the sureties in connection with certain commitments entered into by the Company in the normal course of business. The Company has agreed to indemnify the sureties for any payments made by them in respect of such bonds.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

13. Segment Information

The Company operates principally in the contract drilling industry. The Company's contract drilling business includes the following reportable operating segments: U.S. Land, Offshore, and International Land. The contract drilling operations consist mainly of contracting Company-owned drilling equipment primarily to major oil and gas exploration companies. The Company's primary international areas of operation include Venezuela, Colombia, Ecuador and other South American countries. The International Land operations have similar services, have similar types of customers, operate in a consistent manner and have similar economic and regulatory characteristics. Therefore, the Company has aggregated its International Land operations into one reportable segment. Each reportable segment is a strategic business unit which is managed separately. Other includes non-reportable operating segments.

The Company evaluates segment performance based on income or loss from operations (segment operating income) before income taxes which includes:

- revenues from external and internal customers
- direct operating costs
- depreciation and
- allocated general and administrative costs

but excludes corporate costs for other depreciation, income from asset sales and other corporate income and expense.

General and administrative costs are allocated to the segments based primarily on specific identification and, to the extent that such identification is not practical, on other methods which the Company believes to be a reasonable reflection of the utilization of services provided.

Segment operating income is a non-GAAP financial measure of the Company's performance, as it excludes general and administrative expenses, corporate depreciation, income from asset sales and other corporate income and expense.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

The Company considers segment operating income to be an important supplemental measure of operating performance by presenting trends in the Company's core businesses. This measure is used by the Company to facilitate period-to-period comparisons in operating performance of the Company's reportable segments in the aggregate by eliminating items that affect comparability between periods. The Company believes that segment operating income is useful to investors because it provides a means to evaluate the operating performance of the segments and the Company on an ongoing basis using criteria that are used by our internal decision makers. Additionally, it highlights operating trends and aids analytical comparisons. However, segment operating income has limitations and should not be used as an alternative to operating income or loss, a performance measure determined in accordance with GAAP, as it excludes certain costs that may affect the Company's operating performance in future periods.

Due to the continued growth of the drilling segments over the past few years, the Company re-evaluated its reportable segments. With the growth of the drilling segments, the Real Estate segment has become a smaller percentage of total segment operating income. In the evaluation of segment reporting, the Company determined that the total of external revenues reported by the three reportable operating segments, U.S. Land, Offshore and International Land, comprised more than 75 percent of total consolidated revenue. As a result, the Real Estate segment previously shown as a reportable segment has been included with all other non-reportable business segments. Revenues included in all other consist primarily of rental income. Prior period balances have been restated to reflect this change.

In the fourth quarter of fiscal 2007, the Company began mobilizing an offshore rig from the U.S. to an international location. Because an offshore rig requires different technology and marketing strategies, the chief operating decision-maker's evaluation of performance and resource allocation for this rig is more appropriately aligned with the Offshore segment. Therefore the Company will continue to include the operations of this rig in the Offshore operating segment. Additionally, the Company determined that a management contract for a customer-owned platform rig located offshore in West Africa was more appropriately aligned with the Offshore segment for purposes of evaluating performance and resource allocation. Therefore, this management contract has been reclassified from the International segment to the Offshore segment for the quarter and year-to-date periods ending June 30, 2007. As a result, the International segment was renamed to International Land. Financial information for reportable segments for fiscal 2007 has been restated to reflect this change.

14. Pensions and Other Post-retirement Benefits

The following provides information at June 30, 2008 and 2007 related to the Company-sponsored domestic defined benefit pension plan.

Components of Net Periodic Benefit Cost

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2008	2007	2008	2007
	(in thousands)			
Service Cost	\$	\$	\$	\$
Interest Cost	1,189	1,216	3,569	3,648
Expected return on plan assets	(1,458)	(1,281)	(4,374)	(3,843)
Recognized net actuarial loss	(3)	35	(9)	105
Net pension expense	\$ (272)	\$ (30)	\$ (814)	\$ (90)

Employer Contributions

The Company does not anticipate that it will be required to fund the Pension Plan in fiscal 2008. However, the Company expects to make discretionary contributions to fund distributions in lieu of liquidating pension assets. The Company estimates contributing \$3.0 million in fiscal 2008. Through June 30, 2008, the Company had contributed \$2.3 million to the Pension Plan.

Foreign Plan

The Company maintains an unfunded pension plan in one of the international subsidiaries. Pension expense was approximately \$115,000 and \$58,000 for the three months ended June 30, 2008 and 2007, respectively. Pension expense was approximately \$247,000 and \$215,000 for the nine months ended June 30, 2008 and 2007, respectively.

15. Risk Factors

N/A

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

The Company derives its revenue in Venezuela from Petroleos de Venezuela, S.A. (PDVSA), the Venezuelan state-owned petroleum company. The Company is exposed to risks of currency devaluation in Venezuela primarily as a result of bolivar fuerte (Bsf) receivable and Bsf cash balances.

The net receivable from PDVSA, as disclosed in the Company's 2007 Annual Report on Form 10-K, was approximately \$50 million at November 1, 2007. At June 30, 2008, the net receivable from PDVSA was approximately \$63 million. As of August 1, 2008, the net receivable from PDVSA was approximately \$61 million. The Company continues to communicate with PDVSA regarding the settlement of the outstanding receivables and at this time, has no reason to believe the amounts will not be paid.

The Company has made applications with the Venezuelan government requesting the approval to convert bolivar fuerte cash balances to U.S. dollars. Upon approval from the Venezuelan government, the Company's Venezuelan subsidiary will remit approximately \$28.4 million as a dividend to its U.S. based parent.

While the Company has been successful in obtaining government approval for conversion of bolivar fuerte to U.S. dollars, there is no guarantee that future conversion to U.S. dollars will be permitted. In the event that conversion to U.S. dollars would be prohibited, then bolivar fuerte cash balances would increase and expose the Company to increased risk of devaluation.

The Venezuelan subsidiary has received notification from PDVSA that reimbursement of U.S. dollar invoices previously paid in Bsf will be made only when supporting documentation has been approved. The supporting documentation has been delivered to PDVSA and is awaiting approval. The approval and subsequent payment would result in reducing the foreign currency exposure by approximately \$44.5 million. The Company is unable to determine the timing of when payment will be received.

Past devaluation losses may not be reflective of the potential for future devaluation losses. Even though Venezuela continues to operate under the exchange controls in place and the Venezuelan bolivar fuerte exchange rate has remained fixed at Bsf 2.150 to one U.S. dollar since the devaluation in March 2005, the

exact amount and timing of devaluation is uncertain. At August 1, 2008, the Company had the equivalent of \$46 million in cash in Bsfs exposed to the risk of currency devaluation.

While the Company is unable to predict future devaluation in Venezuela, if current activity levels continue and if a 10 percent to 20 percent devaluation were to occur, the Company could experience potential currency devaluation losses ranging from approximately \$5.3 million to \$9.5 million.

As disclosed in the Company's 2007 Annual Report on Form 10-K, the Ecuadorian government was negotiating with the Company's customers to resolve contract disputes created by a government decree that modified the original contracts for splitting profits on oil production. The negotiations have resulted in some operators returning to the Ecuadorian market. Currently, the Company has four rigs in Ecuador, and all rigs are working. Two rigs that were previously in Ecuador were transferred from Ecuador to Colombia and began work in the third quarter of fiscal 2008. In June 2008, an agreement was signed to sell two rigs in Ecuador. The rigs were classified as Assets held for sale in the Company's June 30, 2008 Consolidated Balance Sheet. The sale closed in the fourth quarter of fiscal 2008 and the Company recorded a gain from the transaction.

Insurance coverage for named wind storm perils has been limited for the past few years. The Company purchased an aggregate limit of \$100 million of named wind storm coverage and self-insures 10 percent of that limit as well as a \$3.5 million deductible. For other insured perils, the Company insures rigs and related equipment at values that approximate current replacement cost on the inception date of the policy. The Company self-insures 10 percent of the value for offshore rig property and 30 percent of the value for land rig property. The Company also self-insures a \$1.0 million per occurrence deductible. No insurance is carried against loss of earnings or business interruption. The Company is unable to obtain significant amounts of insurance to cover risks of underground reservoir damage; however, the Company is generally entitled to indemnification under its drilling contracts from this risk.

16. Gain Contingencies

In August 2007, the Company experienced a fire on U.S. Land Rig 178, a 1,500 horsepower FlexRig2, when the well it was drilling had a blowout. There were no significant personal injuries although the drilling rig was lost. The rig was insured at a value that approximated replacement cost. At September 30, 2007, the net book value of the rig was removed from property, plant and equipment and a receivable from insurance was recorded, net of a \$1.0 million insurance deductible expensed. During the nine months ended June 30, 2008, gross insurance proceeds of approximately \$8.7 million were received and a gain of approximately \$5.0 million was recorded. The Company anticipates settling the insurance claim in fiscal 2008 and expects to receive additional insurance proceeds of less than \$0.2 million.

In August 2005, the Company's Rig 201, which operates on an operator's tension-leg platform in the Gulf of Mexico, lost its entire derrick and suffered significant damage as a result of Hurricane Katrina. The rig was insured at a value that approximated replacement cost. Capital costs incurred in conjunction with rebuilding the rig were capitalized in fiscal 2007 and are being depreciated in accordance with the Company's

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

accounting policies. Insurance proceeds received through September 30, 2007 totaled approximately \$19.3 million with approximately \$16.7 recorded as a gain from involuntary conversion of long-lived assets. During the nine months ending June 30, 2008, proceeds of approximately \$5.2 million were received and recorded as a gain from involuntary conversion. The Company continues to work with insurance providers to settle remaining claims. Any future proceeds received will continue to be recorded as gain from involuntary conversion of long-lived assets when received. The Company expects to settle this claim in fiscal 2008 and estimates additional proceeds of less than \$0.1 million.

HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

17. Recently Issued Accounting Standards

In June 2008, the Financial Accounting Standards Board (FASB) issued Staff Position (FSP) EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*, to clarify that all outstanding unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are participating securities. An entity must include participating securities in its calculation of basic and diluted earnings per share pursuant to the two-class method pursuant to SFAS No. 128, *Earnings per Share*. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating FSP EITF 03-6-1 to determine the impact, if any, on the Consolidated Financial Statements.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* and SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51*. Both of these standards are effective for financial statements issued for fiscal years beginning after December 15, 2008. SFAS No. 141(R) will be applied prospectively to business combinations occurring after the effective date. Earlier application is prohibited. The Company is currently evaluating the potential impact of adopting SFAS No. 160 but does not expect its adoption to have a significant impact.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company is currently evaluating whether the elective provisions of SFAS No. 159 will be adopted.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In February 2008, the FASB issued FASB Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157* (the FSP). The FSP amends SFAS No. 157, *Fair Value Measurements*, to delay the effective date of SFAS 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (that is, at least annually). For items within its scope, the FSP defers the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The Company is currently evaluating SFAS No. 157 and FAS 157-2 to determine the impact, if any, on the Consolidated Financial Statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

RISK FACTORS AND FORWARD-LOOKING STATEMENTS

The following discussion should be read in conjunction with the consolidated condensed financial statements and related notes included elsewhere herein and the consolidated financial statements and notes thereto included in the Company's 2007 Annual Report on Form 10-K. The Company's future operating results may be affected by various trends and factors, which are beyond the Company's control. These include, among other factors, fluctuations in natural gas and crude oil prices, early termination of drilling contracts, forfeiture of early termination payments under fixed term contracts due to sustained unacceptable performance, unsuccessful collection of receivables, including Venezuelan receivables, inability to procure key rig components, failure to timely deliver rigs within applicable grace periods, disruption to or cessation of business of the Company's limited source vendors or fabricators, currency exchange losses, changes in general economic and political conditions, adverse weather conditions including hurricanes, rapid or unexpected changes in technologies, and uncertain business conditions that affect the Company's businesses. Accordingly, past results and trends should not be used by investors to anticipate future results or trends. The Company's risk factors are more fully described in the Company's 2007 Annual Report on Form 10-K and elsewhere in this Form 10-Q.

With the exception of historical information, the matters discussed in Management's Discussion & Analysis of Financial Condition and Results of Operations include forward-looking statements. These forward-looking statements are based on various assumptions. The Company cautions that, while it believes such assumptions to be reasonable and makes them in good faith, assumptions about future events and conditions almost always vary from actual results. The differences between good faith assumptions and actual results can be material. The Company is including this cautionary statement to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by, or on behalf of, the Company. The factors identified in this cautionary statement are important factors (but not necessarily all important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by, or on behalf of, the Company.

RESULTS OF OPERATIONS

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Three Months Ended June 30, 2008 vs. Three Months Ended June 30, 2007

The Company reported net income of \$125.4 million (\$1.18 per diluted share) from operating revenues of \$522.5 million for the third quarter ended June 30, 2008, compared with net income of \$115.2 million (\$1.09 per diluted share) from operating revenues of \$421.3 million for the third quarter of fiscal year 2007. Net income for the third quarter of fiscal 2008 includes approximately \$10.0 million (\$0.09 per diluted share) of after-tax gains from the sale of available-for-sale securities. Net income for the third quarter of fiscal 2008 includes approximately \$1.0 million (\$0.01 per diluted share) of after-tax gains from the sale of assets and approximately \$3.3 million (\$0.03 per diluted share) of after-tax gains from involuntary conversion of long-lived assets. Net income for the third quarter of fiscal 2007 includes approximately \$3.9 million (\$0.03 per diluted share) of after-tax gains from the sale of assets and approximately \$3.7 million (\$0.03 per diluted share) of after-tax gains from involuntary conversion of long-lived assets. Included in net income for the third quarter of fiscal 2008 is an approximate after-tax charge of \$6.9 million (\$0.07 per diluted share) from in-process research and development.

ACQUISITION OF TERRAVICI DRILLING SOLUTIONS

On May 21, 2008, the Company acquired a private limited partnership, TerraVici Drilling Solutions (TerraVici) in a transaction accounted for under the purchase method of accounting. Under the purchase method of accounting, the assets and liabilities of TerraVici were recorded as of the acquisition date, at their respective fair values, and consolidated with the Company's financial statements. The new segment is included with all other non-reportable business segments.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

TerraVici is developing patented rotary steerable technology to enhance horizontal and directional drilling operations. The Company acquired TerraVici to complement technology currently used with the FlexRig. The process of drilling has become increasingly challenging as preferred well types deviate from simple vertical drilling. By combining this new technology with the Company's existing capabilities, the Company expects to improve drilling productivity and reduce total well cost to the customer.

The Company paid a total purchase price of \$12.2 million, including acquisition related fees of \$1.2 million. The impact of the purchase method of accounting resulted in the Company recording an in-process research and development (IPR&D) charge of \$11.1 million in the three months ended June 30, 2008. The IPR&D represents rotary steerable system (RSS) tools under development by TerraVici at the date of acquisition that had not yet achieved technological feasibility, and would have no future alternative use. The \$11.1 million estimated fair value of the IPR&D was derived using the multi-period excess-earnings method. The transaction includes future contingency payments up to \$11 million based on specific commerciality milestones plus certain earn-out provisions based on future earnings.

The Company paid a total purchase price of \$12.2 million, including acquisition related fees of \$1.2 million. The following tables summarize operations by business segment for the three months ended June 30, 2008 and 2007. The Offshore and International Land segments for the three and nine months ended June 30, 2007 have been restated to reflect a change made to the reportable operating segments in the fourth fiscal quarter of 2007 more fully described in Note 13 to the Consolidated Condensed Financial Statements. Operating statistics in the tables exclude the effects of offshore platform and international management contracts, and do not include reimbursements of out-of-pocket expenses in revenue, expense and margin per day calculations. Per day calculations for international operations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 13 to the consolidated condensed financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS

June 30, 2008

	Three Months Ended June 30,	
	2008	2007
	(in thousands, except days and per day amounts)	
U.S. LAND OPERATIONS		
Revenues	\$ 391,755	\$ 303,514
Direct operating expenses	187,771	157,758
General and administrative expense	4,801	3,625
Depreciation	39,770	27,512
Segment operating income	\$ 159,413	\$ 114,619
Revenue days	15,263	12,371
Average rig revenue per day	\$ 24,543	\$ 23,401
Average rig expense per day	\$ 11,178	\$ 11,619
Average rig margin per day	\$ 13,365	\$ 11,782
Rig utilization	96%	96%

U.S. LAND segment operating income increased to \$159.4 million for the third quarter of fiscal 2008 compared to \$114.6 million in the same period of fiscal 2007. Revenues were \$391.8 million and \$303.5 million in the third quarter of fiscal 2008 and 2007, respectively. Included in U.S. land revenues for the three months ended June 30, 2008 and 2007 are reimbursements for out-of-pocket expenses of \$17.2 million and \$14.0 million, respectively.

The \$1,142 increase in average revenue per day for the third quarter of fiscal 2008 compared to the third quarter of fiscal 2007 is attributable to higher dayrates for new rigs added since the third quarter of fiscal 2007 compared to dayrates on existing rigs working at June 30, 2007. The decrease in average rig expense per day for the third quarter of fiscal 2008 compared to the third quarter of fiscal 2007 is primarily due to reduced training cost associated with a slower delivery schedule of new FlexRigs.

Average U.S. land rig margin per day increased 13.4 percent for the comparable quarters. U.S. land rig utilization was 96 percent for both comparable quarters. U.S. land rig activity days for the third quarter of fiscal 2008 were 15,263 compared with 12,371 for the same period of fiscal 2007, with an average of 167.7 and 135.9 rigs working during the third quarter of fiscal 2008 and 2007, respectively. The increase in rig days and average rigs working is attributable to 31 new rigs entering the fleet since the end of the third quarter of fiscal 2007.

	Three Months Ended June 30,	
	2008	2007
	(in thousands, except days and per day amounts)	
OFFSHORE OPERATIONS		
Revenues	\$ 47,298	\$ 29,626
Direct operating expenses	31,166	21,748
General and administrative expense	1,276	907
Depreciation	2,843	2,418
Segment operating income	\$ 12,013	\$ 4,553
Revenue days	732	546

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Average rig revenue per day	\$	51,309	\$	30,263
Average rig expense per day	\$	31,181	\$	21,734
Average rig margin per day	\$	20,128	\$	8,529
Rig utilization		89%		67%

OFFSHORE revenues include reimbursements for out-of-pocket expenses of \$4.3 million and \$3.6 million for the three months ended June 30, 2008 and 2007, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS

June 30, 2008

Segment operating income increased in the third quarter of fiscal 2008 compared to the third quarter of fiscal 2007, primarily as a result of two rigs beginning work in the third quarter of fiscal 2008 that were not working in the third quarter of fiscal 2007, and Rig 201 returning to full operations late in the third quarter of fiscal 2007. Additionally, the offshore segment experienced increases in dayrates associated with wage increases, producer price index increases and general increases caused by a higher demand for offshore rigs. One of the rigs beginning work in the third quarter of fiscal 2008 is in an international location. The increased rig activity also increased revenue days for the two comparable quarters.

At June 30, 2008, the Company had eight of its nine platform rigs working. The ninth rig is currently in the yard undergoing capital improvement and is expected to return to work with a contract in the third quarter of fiscal 2009.

	Three Months Ended June 30,	
	2008	2007
	in thousands, except days and per day amounts)	
INTERNATIONAL LAND OPERATIONS		
Revenues	\$ 80,585	\$ 85,357
Direct operating expenses	55,093	49,166
General and administrative expense	1,182	670
Depreciation	6,818	6,648
Segment operating income	\$ 17,492	\$ 28,873
Revenue days	1,951	2,235
Average rig revenue per day	\$ 38,709	\$ 34,200
Average rig expense per day	\$ 25,638	\$ 18,246
Average rig margin per day	\$ 13,071	\$ 15,954
Rig utilization	79%	90%

INTERNATIONAL LAND segment operating income for the third quarter of fiscal 2008 was \$17.5 million, compared to \$28.9 million in the same period of fiscal 2007. Rig utilization for international land operations was 79 percent for the third quarter of fiscal 2008, compared with 90 percent for the third quarter of fiscal 2007. During the current quarter, an average of 21.2 rigs worked compared to an average of 24.3 rigs in the third quarter of fiscal 2007. International land revenues decreased to \$80.6 million in the third quarter of fiscal 2008, compared with \$85.4 million in the third quarter of fiscal 2007. The decrease in revenue is attributable to decreased revenue days, primarily in Ecuador, during the third quarter of fiscal 2008. Third quarter average rig expense per day for fiscal 2008 increased 41 percent from the third quarter of fiscal 2007, primarily from labor costs increases and transportation costs and customs fees recognized during the third quarter of fiscal 2008. Additionally, rig utilization decreased and segment operating income decreased as idle rigs continued to incur operating expenses and depreciation. Included in international land revenues for the three months ended June 30, 2008 and 2007 are reimbursements for out-of-pocket expenses of \$5.1 million and \$8.6 million, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

As disclosed in the Company's 2007 Annual Report on Form 10-K, the Ecuadorian government was negotiating with the Company's customers to resolve contract disputes created by a government decree that modified the original contracts for splitting profits on oil production. The negotiations have resulted in some operators returning to the Ecuadorian market. Currently, the Company has four rigs in Ecuador, and all rigs are working. Two rigs that were previously in Ecuador were transferred from Ecuador to Colombia and began work in the third quarter of fiscal 2008. In June 2008, an agreement was signed to sell two rigs in Ecuador. The rigs were classified as Assets held for sale in the Company's June 30, 2008 Consolidated Balance Sheet. The sale closed in the fourth quarter of fiscal 2008 and the Company recorded a gain from the transaction.

RESEARCH AND DEVELOPMENT

For the three months ended June 30, 2008, the Company incurred \$0.5 million research and development expenses related to ongoing development of the RSS. The Company anticipates research and development expenses to be approximately \$2.5 million in the fourth quarter of fiscal 2008 and in each quarter through June 30, 2009.

OTHER

General and administrative expenses increased to \$14.7 million in the third quarter of fiscal 2008 from \$11.5 million in the third quarter of fiscal 2007. The \$3.2 million increase is primarily due to additions in employee count that has resulted in an increase in employee compensation, including taxes and benefits, compared to the same period in 2007.

Interest expense was \$4.7 million and \$3.3 million in the third quarter of fiscal 2008 and 2007, respectively. Capitalized interest, all attributable to the Company's rig construction, was \$0.7 million and \$2.1 million for the three months ended June 30, 2008 and 2007, respectively. With advances on the credit facility, interest expense before capitalized interest increased \$0.1 million during the third quarter of fiscal 2008 compared to the third quarter of fiscal 2007.

Income from the sale of investment securities was \$16.4 million, \$10.0 million after-tax (\$0.09 per diluted share) in the third quarter of fiscal 2008 compared to \$25.3 million, \$15.5 million after-tax (\$0.15 per diluted share) in the third quarter of fiscal 2007. The gain in both periods was from the sale of available-for-sale investments.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

Nine Months Ended June 30, 2008 vs. Nine Months Ended June 30, 2007

The Company reported net income of \$335.3 million (\$3.16 per diluted share) from operating revenues of \$1.5 billion for the nine months ended June 30, 2008, compared with net income of \$332.9 million (\$3.17 per diluted share) from operating revenues of \$1.2 billion for the first nine months of fiscal year 2007. Net income for the first nine months of fiscal 2008 includes \$13.5 million (\$0.13 per diluted share) of after-tax gains from the sale of available-for-sale securities. The proceeds from the sale of securities in the nine months ended June 30, 2008 were used to fund capital expenditures. Net income for the first nine months of fiscal 2007 includes \$31.8 million (\$0.30 per diluted share) of after-tax gains from the sale of available-for-sale securities. The proceeds from the sale were used to repurchase 681,900 shares of Company common stock for approximately \$15.9 million in October 2006 and funding capital expenditures. Also included in net income are after-tax gains from the sale of assets of approximately \$2.8 million (\$0.02 per diluted share) for the nine months ended June 30, 2008, compared to approximately \$24.7 million (\$0.24 per diluted share) for the nine months ended June 30, 2007. Also included in net income for fiscal 2008 is approximately \$6.5 million (\$0.06 per diluted share) of after-tax gains from involuntary conversion of long-lived assets compared to approximately \$7.0 million (\$0.06 per diluted share) of after-tax gains from involuntary conversion of long-lived assets in fiscal 2007. Included in net income for fiscal 2008 is an approximate after-tax charge of \$6.9 million (\$0.07 per diluted share) from in-process research and development. Refer to previous discussion regarding the acquisition of TerraVici Drilling Solutions.

The following tables summarize operations by business segment for the nine months ended June 30, 2008 and 2007. Operating statistics in the tables exclude the effects of offshore platform and international management contracts, and do not include reimbursements of out-of-pocket expenses in revenue, expense and margin per day calculations. Per day calculations for international operations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 13 to the financial statements.

	Nine Months Ended June 30,	
	2008	2007
	(in thousands, except days and per day amounts)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

U.S. LAND segment operating income in the first nine months of fiscal 2008 increased to \$447.0 million from \$342.8 million in the first nine months of fiscal 2007.

Revenues were \$1.1 billion in the first nine months of fiscal 2008, compared with \$842.6 million in the same period of fiscal 2007. Included in U.S. land revenues for the nine months ended June 30, 2008 and 2007 are reimbursements for out-of-pocket expenses of \$48.2 million and \$40.5 million, respectively. The \$104.2 million increase in segment operating income was primarily the result of increased activity days and increased dayrates for new rigs placed in service during fiscal 2008 compared to rigs in service prior to fiscal 2008.

U.S. land rig revenue days for the first nine months of fiscal 2008 were 43,422 compared with 34,075 for the same period of 2007, with an average of 158.5 and 124.8 rigs working during the first nine months of fiscal 2008 and 2007, respectively. The increase in rig days and average rigs working is attributable to new build rigs entering the fleet in fiscal 2007 and 2008.

	Nine Months Ended June 30,	
	2008	2007
	(in thousands, except days and per day amounts)	
OFFSHORE OPERATIONS		
Revenues	\$ 104,368	\$ 94,083
Direct operating expenses	72,295	66,595
General and administrative expense	3,488	3,865
Depreciation	8,855	7,885
Segment operating income	\$ 19,730	\$ 15,738
Revenue days	1,706	1,656
Average rig revenue per day	\$ 45,711	\$ 33,095
Average rig expense per day	\$ 29,483	\$ 21,921
Average rig margin per day	\$ 16,228	\$ 11,174
Rig utilization	70%	67%

U.S. OFFSHORE operating revenues, direct operating expenses and segment operating income increased due to higher activity and a rig beginning work in Trinidad during fiscal 2008. Included in offshore revenues for the nine months ended June 30, 2008 and June 30, 2007 are reimbursements for out-of-pocket expenses of \$10.5 million and \$11.2 million, respectively.

At June 30, 2008, the Company had eight of its nine platform rigs working. The ninth rig is currently in the yard undergoing capital improvement and is expected to return to work with a contract in the third quarter of fiscal 2009.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

	Nine Months Ended June 30,	
	2008	2007
	in thousands, except days and per day amounts)	
INTERNATIONAL LAND OPERATIONS		
Revenues	\$ 234,944	\$ 235,153
Direct operating expenses	156,004	142,530
General and administrative expense	3,420	2,264
Depreciation	24,120	17,538
Segment operating income	\$ 51,400	\$ 72,821
Revenue days	5,727	6,863
Average rig revenue per day	\$ 37,570	\$ 29,583
Average rig expense per day	\$ 23,704	\$ 16,253
Average rig margin per day	\$ 13,866	\$ 13,330
Rig utilization	77%	93%

INTERNATIONAL LAND segment operating income in the first nine months of fiscal 2008 was \$51.4 million, compared to \$72.8 million in the same period of 2007. Depreciation and operating income for the nine months ended June 30, 2008 were negatively impacted by an adjustment of approximately \$5.9 million, related to prior years' depreciation. Rig utilization for international land operations averaged 77 percent for the first nine months of fiscal 2008, compared with 93 percent for the first nine months of fiscal 2007. An average of 20.9 rigs worked during the first nine months of fiscal 2008, compared to 25.1 rigs in the first nine months of fiscal 2007. International revenues were \$234.9 million and \$235.2 million in the first nine months of fiscal 2008 and 2007, respectively. The overall increase in margins per day was primarily the result of dayrate increases in several foreign markets. Included in international land revenues for the nine months ended June 30, 2008 and 2007 are reimbursements for out-of-pocket expenses of \$19.8 million and \$31.6 million, respectively.

Direct operating expenses for the first nine months of fiscal 2008 were up nine percent from the first nine months of fiscal 2007 as several international markets incurred labor cost increases and as idle rigs continued to incur operating expenses.

OTHER

General and administrative expenses increased to \$42.7 million in the first nine months of fiscal 2008 from \$35.5 million in the first nine months of fiscal 2007. The \$7.2 million increase is primarily attributable to additions in employee count that has resulted in an increase in employee compensation, including taxes and benefits, compared to the same period in 2007.

Interest expense was \$14.3 million and \$6.1 million for the nine months ended June 30, 2008 and 2007, respectively. With advances on the credit facility to fund capital expenditures and growth, interest expense before capitalized interest increased \$4.6 million for the nine months ended June 30, 2008, compared to the nine months ended June 30, 2007. During these same comparable periods, capitalized interest related to the Company's rig construction decreased \$3.5 million as fewer new rigs are built in fiscal 2008 compared to fiscal 2007.

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

In the first nine months of fiscal 2008, income from the sale of investment securities was \$22.0 million, \$13.5 million after-tax (\$0.13 per diluted share). Income from the sale of investment securities was \$51.8 million, \$31.8 million after-tax (\$0.30 per diluted share) in the first nine months of fiscal 2007. The gain in both periods was from the sale of available-for-sale investments and the proceeds were used to fund capital expenditures in both fiscal periods. In fiscal 2007, proceeds were also used to repurchase 681,900 shares of Company common stock for approximately \$15.9 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

Income from asset sales decreased to \$4.4 million in the first nine months of fiscal 2008, compared to \$39.0 million for the same period of fiscal 2007. The decrease of \$34.6 million is primarily due to the sale of two domestic offshore rigs and one U.S. land rig in fiscal 2007.

In the first nine months of fiscal 2008, the Company recorded income of approximately \$10.2 million from involuntary conversion of long-lived assets as a result of insurance proceeds on Rig 178 that was lost in a well blowout fire in the fourth quarter of fiscal 2007 and insurance proceeds on Rig 201 that sustained damage as a result of hurricane Katrina in 2005. For the nine months ended June 30, 2007, income from involuntary conversion of long-lived assets was \$11.1 million, all attributable to Rig 201.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Cash and cash equivalents increased to \$99.0 million at June 30, 2008 from \$89.2 million at September 30, 2007. The following table provides a summary of cash flows for the nine-month periods ended June 30 (in thousands):

Net Cash provided (used) by:

	2008	2007
Operating activities	\$ 443,588	\$ 385,399
Investing activities	(475,532)	(511,615)
Financing activities	41,747	162,925
Increase in cash and cash equivalents	\$ 9,803	\$ 36,709

Operating activities

Cash flows from operating activities increased \$58.2 million for the nine months ended June 30, 2008 compared to the same period ended June 30, 2007. The increase is primarily due to the net effect of an increase in depreciation, a decrease in gain on sale of investment securities and sale of assets and a reduction in accounts payable. Depreciation increased \$45.8 million for the nine months ended June 30, 2008 compared to the nine months ended June 30, 2007 as a result of additional rigs being placed into service during the past two fiscal years. In the nine months ended June 30, 2008, the Company had gains from investment securities and sales of assets of \$26.3 million compared to gains of \$90.7 million in the first nine months of fiscal 2007. Accounts payable decreased \$52.7 million at June 30, 2008 as a result of reduced capital spending associated with the construction of FlexRigs.

OTHER

Investing activities

Capital expenditures decreased \$172.1 million as the building of new FlexRigs was at a reduced pace in the first nine months of fiscal 2008 compared to the first nine months of fiscal 2007. Proceeds from sales of investments, sales of assets and involuntary conversion of long-lived assets decreased \$124.0 million. This decrease is primarily due to the sale of available-for-sale securities and auction rate securities in fiscal 2007 that were used to help fund capital expenditures. During the third quarter of fiscal 2008, the Company used \$12.0 million for the acquisition of TerraVici.

Financing activities

The Company's net proceeds from long-term debt and notes payable totaled \$12.3 million in the first nine months of fiscal 2008 compared to \$201.3 million in the first nine months of fiscal 2007. In fiscal 2007, the Company purchased treasury shares for \$17.6 million. Comparing the nine months ended June 30, 2008 to the same period at June 30, 2007, the Company had an increase in proceeds from the exercise of stock options and the excess tax benefit from stock-based compensation of \$23.6 million and \$11.0 million, respectively and increased bank overdraft positions \$15.8 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

Other Liquidity

The Company's operating cash requirements and estimated capital expenditures, including rig construction, for fiscal 2008 will be funded through current cash, cash provided from operating activities, funds available under the credit facilities and, if needed, sales of available-for-sale securities. The Company's indebtedness totaled \$455 million at June 30, 2008, as described in Note 9 to the Consolidated Condensed Financial Statements.

Backlog

The Company's contract drilling backlog, being the expected future revenue from executed contracts with original terms in excess of one year, as of August 1, 2008 and October 31, 2007 was \$2.898 billion and \$1.969 billion, respectively. The increase in the Company's backlog from September 30, 2007 to June 30, 2008 is primarily due to the execution of additional long-term contracts for the operation of new FlexRigs. Approximately 91.7 percent of the August 1, 2008 backlog is not reasonably expected to be filled in fiscal 2008. Term contracts customarily provide for termination at the election of the customer with an early termination payment to be paid to the Company if a contract is terminated prior to the expiration of the fixed term. However, under certain limited circumstances, such as destruction of a drilling rig, bankruptcy, sustained unacceptable performance by the Company, or delivery of a rig beyond certain grace and/or liquidated damage periods, no early termination payment would be paid to the Company. In addition, a portion of the backlog represents term contracts for new rigs that will be constructed in the future. The Company obtains certain key rig components from a single or limited number of vendors or fabricators. Certain of these vendors or fabricators are thinly capitalized independent companies located on the Texas Gulf Coast. Therefore, disruptions in rig component deliveries may occur. Accordingly, the actual amount of revenue earned may vary from the backlog reported. See Fixed Term Contract Risk, Limited Number of Vendors, Thinly Capitalized Vendors and Operating and Weather Risks under Item 1A. Risk Factors of the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on November 26, 2007.

The following table sets forth the total backlog by reportable segment as of August 1, 2008 and October 31, 2007, and the percentage of the August 1, 2008 backlog not reasonably expected to be filled in fiscal 2008:

Reportable Segment	Total Backlog		Percentage Not Reasonably Expected to be Filled in Fiscal 2008
	08/01/2008	10/31/2007	
	(in billions)		
U.S. Land	\$ 2.359	\$ 1.696	90.5%
Offshore	.212	.234	93.6%
International Land	.327	.039	98.9%
	\$ 2.898	\$ 1.969	

Capital Resources

During the nine months ended June 30, 2008, the Company committed to build 32 new FlexRigs. Seven of the new rigs will work in Latin American locations and the remaining 25 will be deployed in locations in the United States. Most of these contracts have minimum term durations of three years, and the remainder have minimum term durations ranging from four to seven years. Subsequent to June 30, 2008, the Company announced contracts had been signed for an additional 18 rigs to be built. These 50, along with the 77 rigs announced in fiscal years 2005, 2006 and 2007 brings the Company's commitment to a total of 127 new FlexRigs. The drilling services are performed on a daywork contract basis. Through June 30, 2008, 92 rigs were completed for delivery, and 90 of the 92 had begun field operations by June 30, 2008. The remaining rigs are expected to be completed by the end of fiscal 2009.

Capital expenditures were \$509.0 million and \$681.1 million for the first nine months of fiscal 2008 and 2007, respectively. Capital expenditures decreased from 2007 primarily due to the Company's current construction program of new FlexRigs being at a reduced pace than the previous year as rigs committed to build were completed.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

The Company anticipates capital expenditures to be approximately \$800 million for fiscal 2008, including construction of new FlexRigs.

There were no other significant changes in the Company's financial position since September 30, 2007.

MATERIAL COMMITMENTS

Material commitments as reported in the Company's 2007 Annual Report on Form 10-K have not changed significantly with the exception of obligations that have been recorded for uncertain tax positions upon adoption of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) as of October 1, 2007. After the adoption of FIN 48 at October 1, 2007, the Company had \$6.6 million of obligations for uncertain tax positions and related interest and penalties. At June 30, 2008, the Company had \$7.6 million recorded for uncertain tax positions and related interest and penalties. However, the timing of such payments to the respective taxing authorities cannot be estimated at this time.

CRITICAL ACCOUNTING POLICIES

The Company's accounting policies that are critical or the most important, to understand the Company's financial condition and results of operations and that require management of the Company to make the most difficult judgments are described in the Company's 2007 Annual Report on Form 10-K. Changes in these critical accounting policies include:

On October 1, 2007 the Company adopted FIN 48. The adoption of FIN 48 resulted in an increase in the Company's liability for unrecognized tax benefits of \$3.3 million and accrued penalties and interest of \$2.0 million. The total \$5.0 million, net of deferred taxes of \$0.3 million, was accounted for as a decrease to the September 30, 2007 retained earnings balance. See Note 11 to the Company's consolidated condensed financial statements for additional information and related disclosures.

The Company accounts for acquired businesses using the purchase method of accounting which requires that the assets acquired and liabilities assumed be recorded at the date of acquisition at their respective fair values. Any excess of the purchase price over the estimated fair values of the net assets acquired is recorded as goodwill. Amounts allocated to acquired in-process research and development are expensed at the date of acquisition. The judgments made in determining the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact results of operations. Accordingly, for significant items, assistance from third party valuation specialists is typically obtained. The valuations are based on information available near the acquisition date and are based on expectations and assumptions that have been deemed reasonable by management.

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Goodwill represents the excess of cost over the fair market value of net assets acquired in business combinations. Indefinite-lived intangibles are comprised of trademarks. At June 30, 2008, goodwill and other indefinite-lived intangibles totaled \$1.2 million, which arose from the acquisition of TerraVici. The Company reviews goodwill and other intangibles at least annually for impairment or more frequently if indicators of impairment warrant additional analysis. Any excess in carrying value over the estimated fair value is charged to the results of operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

June 30, 2008

RECENTLY ISSUED ACCOUNTING STANDARDS

In June 2008, the Financial Accounting Standards Board (FASB) issued Staff Position (FSP) EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*, to clarify that all outstanding unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are participating securities. An entity must include participating securities in its calculation of basic and diluted earnings per share pursuant to the two-class method pursuant to SFAS No. 128, *Earnings per Share*. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating FSP EITF 03-6-1 to determine the impact, if any, on the Consolidated Financial Statements.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* and SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51*. Both of these standards are effective for financial statements issued for fiscal years beginning after December 15, 2008. SFAS No. 141(R) will be applied prospectively to business combinations occurring after the effective date. Earlier application is prohibited. The Company is currently evaluating the potential impact of adopting SFAS No. 160 but does not expect its adoption to have a significant impact.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company is currently evaluating whether the elective provisions of SFAS No. 159 will be adopted.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In February 2008, the FASB issued FASB Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157* (the FSP). The FSP amends SFAS No. 157, *Fair Value Measurements*, to delay the effective date of SFAS 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (that is, at least annually). For items within its scope, the FSP defers the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The Company is currently evaluating SFAS No. 157 and FAS 157-2 to determine the impact, if any, on the Consolidated Financial Statements.

PART I. FINANCIAL INFORMATION

June 30, 2008

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a description of the Company's market risks, see

- Item 7A. Quantitative and Qualitative Disclosures About Market Risk in the Company's 2007 Annual Report on Form 10-K filed with the Securities and Exchange Commission on November 28, 2007;
- Note 9 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof with regard to interest rate risk is incorporated herein by reference; and
- Note 15 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof with regard to credit risk and foreign currency exchange rate risk is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was performed with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of June 30, 2008, at ensuring that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. There have been no changes in the Company's internal controls over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1A. RISK FACTORS

Reference is made to the risk factors entitled Indemnification and Insurance Coverage, Currency Risk, Increased Receivables in Venezuela and Interest Rate Risk in Item 1A of Part 1 of the Company's Form 10-K for the year ended September 30, 2007. In order to update these risk factors for developments that have occurred during the third quarter of fiscal 2008, the risk factors are hereby amended and updated by reference to, and incorporation herein of, Notes 9 and 15 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof.

Except as discussed above, there have been no material changes to the risk factors disclosed in Item 1A of Part 1 in our Form 10-K for the year ended September 30, 2007.

ITEM 6. EXHIBITS

The following documents are included as exhibits to this Form 10-Q. Those exhibits below incorporated by reference herein are indicated as such by the information supplied in the parenthetical thereafter. If no parenthetical appears after an exhibit, such exhibit is filed or furnished herewith.

Exhibit Number	Description
10.1	First Amendment to Lease between ASP, Inc. and Helmerich & Payne, Inc. (incorporated herein by reference to Exhibit 10.1 of Form 8-K filed by the Company on May 29, 2008).
31.1	Certification of Chief Executive Officer, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Chief Financial Officer, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32	Certification of Chief Executive Officer and Chief Financial Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
