**KAPSTONE PAPER AND PACKAGING CORPORATION  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(In thousands, except share and per share amounts)

(unaudited)

**1. Financial Statements**

The accompanying unaudited consolidated financial statements of KapStone Paper and Packaging Corporation (the Company, we, us, our or KapStone ) have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of a normal recurring nature) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. For further information, refer to the consolidated financial statements and related footnotes included in our Annual Report on Form 10-K for the year ended December 31, 2010.

**2. Recent Accounting Pronouncements**

In December 2010, the Financial Accounting Standards Board ( FASB ) issued Accounting Standard Update ( ASU ) No. 2010-29, *Business Combinations: Disclosure of Supplementary Pro Forma Information for Business Combinations*, to clarify the reporting of pro forma financial information related to business combinations of public entities and to expand certain supplemental pro forma disclosures. This guidance is effective prospectively for business combinations that occur on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. No business combinations occurred during the three months ended March 31, 2011. The implementation of this standard did not have a material impact on the consolidated financial statements.

**3. KPB Acquisition Earn-out Payment**

On January 4, 2011, the Company negotiated the early settlement of its final contingent earn-out payment to International Paper Company relating to the Company's previous acquisition of the Kraft Papers Business ( KPB ). The Company paid \$49.7 million to settle this liability in January 2011, approximately \$5.3 million less than the maximum contractual amount that the Company could have been required to pay had it settled the earn-out payment in April 2012 under the original contract terms. The payment, representing additional acquisition consideration, was recorded as an addition to goodwill during the quarter ended March 31, 2011. The Company amended its Senior Credit Agreement to allow for the early settlement of the earn-out and paid an amendment fee of \$0.2 million.

**4. Alternative Fuel Mixture Tax Credit**

The Company recognized \$22.2 million of alternative fuel mixture tax credits in the quarter ended March 31, 2010 as a reduction of cost of goods sold. The tax credit expired on December 31, 2009.

**5. Planned Maintenance Outage**

Cost of sales for the three months ended March 31, 2010 included approximately \$6.5 million for the tri-annual planned maintenance outage for the Company's South Carolina unbleached kraft paper facility. There were no annual planned maintenance outages during the three months ended March 31, 2011.

Table of Contents**6. Inventories**

Inventories consist of the following at March 31, 2011 and December 31, 2010, respectively:

	(Unaudited) March 31, 2011	December 31, 2010
Raw materials	\$ 18,505	\$ 18,988
Work in process	559	967
Finished goods	33,988	33,056
Replacement parts and supplies	21,387	20,313
Inventories	\$ 74,439	\$ 73,324

**7. Debt and Other Borrowings**

Effective January 1, 2011, the Company entered into a financing agreement of \$2.3 million at an annual interest rate of 1.75 percent for its annual property insurance premiums. The agreement requires the Company to pay consecutive monthly payments of \$0.2 million through the term of the financing agreement ending on December 1, 2011. As of March 31, 2011, \$1.7 million was outstanding.

At March 31, 2011 the carrying amount and fair value of the Company's debt was \$107.2 million and \$97.7 million, respectively. At December 31, 2010 the carrying amount and fair value of the Company's debt was \$111.7 million and \$95.2 million, respectively. The fair value of the Company's long-term debt was estimated using an income approach based on current interest rates available to the Company for debt of similar terms and maturities. The debt was valued using Level 3 inputs in the fair value hierarchy which are significant unobservable inputs for similar assets and liabilities in active markets.

**8. Income Taxes**

The Company's U.S. federal statutory income tax rate is 35 percent for 2011 and 2010. The Company's effective tax rate for the three months ended March 31, 2011 and 2010 was 38.6 percent and 35.9 percent, respectively. The effective tax rate increased in 2011 due to a lower expected benefit from the domestic manufacturing deduction. The differences between the effective tax rate and the federal statutory tax rate for the quarters ended March 31, 2011 and 2010 are due to the impact of state tax net of the federal benefit and the domestic manufacturing deduction.

The gross unrecognized tax benefits, including interest, as of March 31, 2011 increased by \$0.3 million to \$68.0 million from December 31, 2010. Unrecognized tax benefits of \$68.0 million are included in other long-term liabilities in the accompanying Consolidated Balance Sheets.

Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

In the normal course of business, the Company is subject to examination by taxing authorities. The Company's open tax years are 2006 through 2009. The Company's Federal income tax returns for 2007, 2008 and 2009 are currently under examination by the Internal Revenue Service.

#### **Defined Contribution Plans**

For the three months ended March 31, 2011 and 2010, the Company recognized expense of \$1.4 million and \$1.0 million, respectively, for matching contributions.

The Company's Retirement Savings Plan ( Savings Plan ), which covers all eligible salaried and non-bargained hourly employees, provides for an annual contribution based on an employee's salary and age. The Company contributions vest 100 percent after three years. For the three months ended March 31, 2011 and 2010, the Company recognized expense of \$0.6 million and \$0.5 million, respectively.

Table of Contents**11. Stock-Based Compensation**

On March 3, 2011, the Compensation Committee of the board of directors approved stock awards to executive officers, certain employees and directors. The 2011 awards included 285,461 stock option grants and 114,199 restricted stock units.

The Company accounts for stock awards in accordance with ASC 718, *Compensation - Stock Compensation*, which requires that the cost resulting from all share-based payment transactions be recognized as compensation cost over the vesting period based on the fair value of the instrument on the date of grant.

Total stock-based compensation expense related to the stock option and restricted stock unit grants for the three months ended March 31, 2011 and 2010 is as follows:

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2011</b>	<b>2010</b>
Stock option compensation expense	\$ 951	\$ 369
Restricted stock unit compensation expense	807	268
Total stock-based compensation expense	\$ 1,758	\$ 637

Total unrecognized stock-based compensation cost related to the stock option grants and restricted stock units as of March 31, 2011 and December 31, 2010 is as follows:

	<b>March 31,</b>	<b>December 31,</b>
	<b>2011</b>	<b>2010</b>
Unrecognized stock option compensation cost	\$ 2,869	\$ 1,742
Unrecognized restricted stock compensation cost	2,577	1,557
Total stock-based compensation cost	\$ 5,446	\$ 3,299

As of March 31, 2011, total unrecognized compensation cost related to non-vested stock options and restricted stock units is expected to be recognized over a weighted average period of 2.0 years and 2.4 years, respectively.

**Stock Options**

Stock option awards vest as follows: 50% after two years and the remaining 50% after three years or upon the retirement of a grantee of such stock options who has reached the age 65. The stock options awarded in 2011 have a contractual term of ten years and are subject to forfeiture

## Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

should the recipient terminate his or her employment with the Company for certain reasons prior to vesting in his or her awards, or the occurrence of certain other events such as termination with cause. The exercise price of these stock options is based on the closing market price of our common stock on the date of grant (\$16.61 for the 2011 awards described above) and compensation expense is recorded on an accelerated basis over the awards' vesting periods.

The weighted average fair value of the KapStone stock options granted in March 2011 was \$7.65. The fair value was calculated using the Black-Scholes option-pricing model based on the market price at the grant date and the weighted average assumptions specific to the underlying options. The expected volatility assumption is based on volatility of related industry stocks. The Company uses the simplified method, defined in SEC Staff Accounting Bulletin (SAB) No. 107, to determine the expected life assumption for all of its options. The Company uses the simplified method, as permitted by SAB No. 110, as it does not have historical exercise data to provide a reasonable basis upon which to estimate expected life due to the limited time its equity shares have been publicly traded. The risk-free interest rate was selected based upon yields of U.S. Treasury issues with a term similar to the expected life of the stock options.

Table of Contents

The assumptions utilized for calculating the fair value of stock options during the period are as follows:

	<b>Three Months Ended March 31, 2011</b>
KapStone Stock Options Black-Scholes assumptions (weighted average):	
Expected volatility	45.24%
Expected life (years)	5.94
Risk-free interest rate	2.47%
Expected dividend yield	%

The following table summarizes stock options amounts and activity:

	Options		Weighted Average Exercise Price		Weighted Average Remaining Life (Years)		Intrinsic Value (dollars in Thousands)
<b>Outstanding at January 1, 2011</b>	2,420,476	\$	6.62		7.3	\$	21,004

<b>Exercisable at March 31, 2011</b>	834,039	\$	6.69		5.0	\$	8,742

For the three months ended March 31, 2011, exercises of stock options totaled 25,907 shares with cash proceeds to the Company of \$0.2 million.

Restricted Stock

Restricted stock units are restricted as to transferability until they vest three years from the grant date or upon the retirement of the grantee who has reached the age 65. These restricted stock units are subject to forfeiture should these employees terminate their employment with the Company for certain reasons prior to vesting in their awards, or the occurrence of certain other events. The value of these restricted stock units is based on the closing market price of our common stock on the date of grant and compensation expense is recorded on a straight-line basis over the awards' vesting periods.

The following table summarizes restricted stock units amounts and activity:

	Units		Weighted Average Grant Price
<b>Outstanding at January 1, 2011</b>	577,673	\$	7.00

## 12. Contingencies

We are subject to various legal proceedings arising from our operations. We are party to two legal proceedings arising from an accident which occurred during our 2009 annual planned maintenance outage. We establish reserves for claims and proceedings when it is probable that liabilities exist and where reasonable estimates can be made. While it is not possible to predict the outcome of this matter, based on our assessment of the facts and circumstances now known, we do not believe that this matter will have a material adverse effect on our financial position. However, actual outcomes may be different from those expected and could have a material effect on our results of operations or cash flows in a particular period. There have been no changes since December 31, 2010.

Provision for income taxes	9,511	3,581	5,930
Net income	\$ 15,131	\$ 6,391	\$ 8,740

Net sales for the quarter ended March 31, 2011 were \$206.7 million compared to \$176.5 million for the first quarter of 2010, an increase of \$30.2 million or 17.1 percent. The increase in net sales was driven by \$25.5 million of higher average selling prices in the first quarter of 2011 compared to the first quarter of 2010, mainly due to full realization of price increases announced in 2010. Average selling price per ton for the quarter ended March 31, 2011 was \$618 compared to \$535 for the prior year's quarter. Net sales also increased by \$3.7 million due to higher unit sales and \$1.3 million reflecting a more favorable product mix. Exchange rates negatively impacted net sales by \$0.3 million.

Kraftpak ®	24,535	21,017	3,518	16.7
Tons of paper sold	323,373	316,305	7,068	2.2

Tons of paper sold for the quarter ended March 31, 2011 were 323,373 tons compared to 316,305 tons for the quarter ended March 31, 2010, an increase of 7,068 tons or 2.2 percent. The 16.7 percent increase in Kraftpak® sales volume reflects a combination of new customers and new product applications with existing customers.

Cost of sales, excluding depreciation and amortization expense, for the quarter ended March 31, 2011 was \$142.7 million compared to \$130.3 million for the first quarter of 2010, an increase of \$12.4 million, or 9.5 percent. The increase in cost of sales was mainly due to a \$22.2 million decrease in alternative fuel mixture tax credits (which expired on December 31, 2009) and higher sales volume. Partially offsetting the increase in cost of sales was \$6.5 million related to the 2010 Charleston mill planned maintenance outage and \$2.5 million due to deflation on input costs.

Freight and distribution expenses for the quarter ended March 31, 2011 totaled \$17.8 million compared to \$16.1 million for the quarter ended March 31, 2010. The increase of \$1.7 million was primarily due to \$0.7 million due to inflation on fuel costs, \$0.6 million for higher sales volume and \$0.4 million as a result of a lower percentage of export linerboard shipments in which freight costs are paid by the customer.

Selling, general and administrative expenses for the quarter ended March 31, 2011 totaled \$9.3 million compared to \$7.1 million for the quarter ended March 31, 2010. The increase of \$2.2 million reflects \$1.0 million related to higher stock compensation expense as the 2011 stock award grants occurred in March compared to May in 2010, \$0.4 million for management incentive expense and \$0.3 million for sales incentive expense due to higher earnings in 2011, and \$0.5 million for other changes. For the quarter ended March 31, 2011, selling, general and administrative expenses as a percentage of net sales increased to 4.5 percent from 4.0 percent in the quarter ended March 31, 2010.

Foreign exchange gains for the quarter ended March 31, 2011 were \$0.3 million compared to a foreign exchange loss of \$0.4 million for the quarter ended March 31, 2010. The change reflects the weakening of the U.S. dollar compared to the Euro in the quarter ended March 31, 2011.

Interest expense for the quarters ended March 31, 2011 and 2010 was \$1.1 million and \$1.6 million, respectively. Interest expense reflects interest on the Company's senior credit agreement and amortization of debt issuance costs. Interest expense was \$0.5 million lower in the quarter ended March 31, 2011 primarily due to \$0.3 million of lower amortization of debt issuance costs and \$0.2 million due to lower term loan balances.

## Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

Provision for income taxes for the quarters ended March 31, 2011 and 2010 was \$9.5 million and \$3.6 million, respectively, reflecting an effective tax rate of 38.6 percent for the quarter ended March 31, 2011 compared to 35.9 percent for the similar period in 2010. The higher provision for income taxes in 2011 primarily reflects a \$14.7 million increase in pre-tax income and a higher effective tax rate. The effective tax rate increased in 2011 due to a lower expected benefit from the domestic manufacturing deduction.

*Sources and Uses of Cash*

Three months ended March 31 (\$000 s)	2011		2010	
Operating activities	\$	12,454	\$	22,995
Investing activities		(54,378)		(6,610)
Financing activities		(2,956)		(14,974)

Cash and cash equivalents decreased by \$44.9 million from December 31, 2010, reflecting \$12.5 million of net cash provided by operating activities, \$54.4 million of net cash used in investing activities and \$3.0 million of net cash used in financing activities.

Net cash provided by operating activities was \$12.5 million primarily due to net income for the quarter of \$15.1 million and \$21.2 million of non-cash charges. Changes in operating assets and liabilities required \$23.8 million of cash. expenses and an \$8.4 million decrease of accrued compensation costs partially offset by \$8.7 million of increased net income. The decrease in accrued expenses is due to \$6.4 million of property tax payments made in the first quarter of 2011. The decrease in accrued compensation costs is due to \$9.7 million of incentive compensation paid in the first quarter of 2011. No incentive compensation payment was made in 2010.

Net cash used in investing activities was \$54.4 million reflecting a \$49.7 million contingent earn-out payment made to International Paper and \$4.7 million of capital expenditures. For the quarter ended March 31, 2011, capital expenditures were mainly spent on equipment upgrades and replacements at the paper mills. Net cash used in investing activities increased by \$47.8 million in the quarter ended March 31, 2011 compared to the quarter ended March 31, 2010 mainly due to the \$49.7 million contingent earn-out payment.

*Future Cash Needs*

We expect that cash generated from operating activities, and if needed, the ability to draw from our revolving credit facility, which has a current availability of \$88.4 million, will be sufficient to meet the anticipated 2011 cash needs. The Company expects to spend approximately \$34.0 to \$36.0 million on capital expenditures for the balance of 2011. In addition, the Company has \$14.1 million of required long-term debt repayments for the balance of 2011 and expects to fund an additional \$3.4 million to its pension plan.

**QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Market risk is the sensitivity of income to changes in interest rates, commodity prices, equity prices, and other market-driven rates or prices.

## Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

Under KapStone Kraft's Senior Credit Facilities, we have two term loans totaling \$110.2 million outstanding at March 31, 2011. The maturity date is June 12, 2013 with respect to the term A loan facility and the revolving credit facility, and June 12, 2015 with respect to the term B loan facility, provided that the maturity date will not be so accelerated if, among other things, the total leverage ratio as of the end of the then most recent fiscal quarter, is less than 2.0 to 1.0.

Changes in market rates may impact the base rate in our Senior Credit Agreement. For instance, if the bank's LIBOR rate was to increase or decrease by one percentage point (1.0%), our annual interest expense would change by approximately \$1.0 million based upon our expected future monthly loan balances per our existing repayment schedule.

We are exposed to price fluctuations of certain commodities used in production. Key raw materials and energy used in the production process include roundwood and woodchips, fuel oil, electricity and caustic soda. We purchase these raw materials and energy at market prices, and do not use forward contracts or other financial instruments to hedge our exposure to price risk related to these commodities. We have two contracts to purchase coal at fixed prices with one expiring on December 31, 2011 and the other on December 31, 2012.

We are exposed to price fluctuations in the price of our finished goods. The prices we charge for our products are primarily based on market conditions.

Table of Contents

We are exposed to currency fluctuations as we invoice certain European customers in Euros. The Company did not use forward contracts to reduce the impact of currency fluctuations during the quarter ended March 31, 2011. No such contracts were outstanding at March 31, 2011.
