SINCLAIR BROADCAST GROUP, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Principles of Consolidation

The consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries and variable interest entities (VIEs) for which we are the primary beneficiary. Noncontrolling interest represents a minority owner's proportionate share of the equity in certain of our consolidated entities. All intercompany transactions and account balances have been eliminated in consolidation.

Discontinued Operations

It is our intent to divest a portion of Alarm Funding Associates, LLC (Alarm Funding). In accordance with the Financial Accounting Standards Board's (FASB) guidance on reporting assets held for sale, we reported the financial position and results of operations of this portion of Alarm Funding as assets and liabilities held for sale in the accompanying consolidated balance sheets and income from discontinued operations in the consolidated statements of operations. Discontinued operations have not been segregated in the consolidated statements of cash flows; therefore, amounts for certain captions will not agree with the accompanying consolidated balance sheets and consolidated statements of operations. The operating results of the portion of Alarm Funding which we intend to divest are not included in our consolidated results of operations from continuing operations for the three and six months ended June 30, 2011 and 2010.

Interim Financial Statements

The consolidated financial statements for the three and six months ended June 30, 2011 and 2010 are unaudited. In the opinion of management, such financial statements have been presented on the same basis as the audited consolidated financial statements and include all adjustments, consisting only of normal recurring adjustments necessary for a fair statement of the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows for these periods as adjusted for the adoption of recent accounting pronouncements discussed below.

As permitted under the applicable rules and regulations of the Securities and Exchange Commission (SEC), the consolidated financial statements do not include all disclosures normally included with audited consolidated financial statements and, accordingly, should be read together with the audited consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the year ended December 31, 2010 filed with the SEC. The consolidated statements of operations presented in the accompanying consolidated financial statements are not necessarily representative of operations for an entire year.

Variable Interest Entities

In determining whether we are the primary beneficiary of a VIE for financial reporting purposes, we consider whether we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and whether we have the obligation to absorb losses or the right to receive returns that would be significant to the VIE. We consolidate VIEs when we are the primary beneficiary. The assets of our consolidated VIEs can only be used to settle the obligations of the VIE. All the liabilities including debt held by our VIEs are non-recourse to us. However, our senior secured credit facility (Bank Credit Agreement) contains cross-default provisions with the VIE debt of Cunningham Broadcasting Corporation (Cunningham). See *Note 5, Related Person Transactions* for more information.

We have entered into Local Marketing Agreements (LMAs) to provide programming, sales and managerial services for television stations of Cunningham, the license owner of seven television stations as of June 30, 2011. We pay LMA fees to Cunningham and also reimburse all operating expenses. We also have an acquisition agreement in which we have a purchase option to buy the license assets of the television stations which includes the Federal Communications Commission (FCC) license and certain other assets used to operate the station (License Assets). Our applications to acquire the FCC licenses are pending approval. We have determined that the Cunningham stations are VIEs and that based on the terms of the agreements, we are the primary beneficiary of the variable interests because we have the power to direct the activities which significantly impact the economic performance of the VIE through the sales and managerial services we provide and we absorb losses and returns that would be considered significant to Cunningham. See *Note 5, Related Person Transactions* for more information on our arrangements with Cunningham. Included in the accompanying consolidated statements of operations for the three months ended June 30, 2011 and 2010 are net revenues of \$22.6 million and \$23.3 million, respectively, that relate to LMAs with Cunningham. For the six months ended June 30, 2011 and 2010, Cunningham's stations provided us with approximately \$45.9 million and \$45.3 million, respectively, of total

Table of Contents

revenue.

We have outsourcing agreements with other license owners, under which we provide certain non-programming related sales, operational and administrative services. We pay a fee to the license owner based on a percentage of broadcast cash flow and we reimburse all operating expenses. We also have a purchase option to buy the License Assets. For the same reasons noted above regarding our LMAs, we have determined that the outsourced license station assets are VIEs and we are the primary beneficiary.

As of the dates indicated, the carrying amounts and classification of the assets and liabilities of the VIEs mentioned above which have been included in our consolidated balance sheets were as follows (in thousands):

	As of June 30, 2011	As of December 31, 2010

The amounts above represent the consolidated assets and liabilities of the VIEs related to our LMA and outsourcing agreements and have been aggregated as they all relate to our broadcast business. In addition, the risk and reward characteristics of the VIEs are similar.

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

We have investments in other real estate ventures and investment companies which are considered VIEs. However, we do not participate in the management of these entities including the day-to-day operating decisions or other decisions which allow us to control the entity, and therefore, we are not considered the primary beneficiary of the VIE. We account for these entities using the equity or cost method of accounting.

The carrying amounts of our investments in these VIEs for which we are not the primary beneficiary as of June 30, 2011 and December 31, 2010 were as follows (in thousands):

	As of June 30, 2011		As of December 31, 2010

Total	\$ 35,163	\$ 35,163	\$ 32,641	\$ 32,641

Table of Contents

The carrying amounts above are included in other assets in the consolidated balance sheets. The income and loss related to these investments are recorded in income from equity and cost method investments in the consolidated statement of operations. We recorded income of \$0.9 million and a loss of \$0.4 million in the quarters ended June 30, 2011 and 2010, respectively. We recorded income of \$0.9 million and \$0.5 million for the six months ended June 30, 2011 and 2010, respectively.

Our maximum exposure is equal to the carrying value of our investments. As of June 30, 2011 and December 31, 2010, our unfunded commitments related to private equity investment funds totaled \$12.9 million and \$14.9 million, respectively.

Recent Accounting Pronouncements

In December 2010, the FASB issued amended guidance with respect to goodwill impairment. The amended guidance requires that step two of the goodwill impairment test be performed if the carrying amount of a reporting unit is zero or negative and it is more likely than not that a goodwill impairment exists based on any adverse qualitative factors including an evaluation of the triggering circumstances noted in the guidance. The change is effective for fiscal years and interim changes within those years beginning after December 15, 2010. We do not believe that this guidance will have a material impact on our consolidated financial statements.

In April 2011, the FASB issued a proposed Accounting Standards Update for goodwill impairment testing. The proposal allows an entity to first consider qualitative factors when deciding whether it is necessary to perform the current two-step goodwill impairment test. An entity would need to perform step-one if it determines qualitatively that it is more-likely-than-not that the fair value of a reporting unit is less than its carrying amount. The proposed changes would be effective prospectively for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early application would be permitted. Although we believe that this guidance may have a significant impact on how we perform our annual goodwill impairment testing, we do not believe it will have a material impact on our consolidated financial statements.

In May 2011, the FASB issued new guidance for fair value measurements. The purpose of the new guidance is to have a consistent definition of fair value between U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS). Many of the amendments to GAAP are not expected to have a significant impact on practice; however, the new guidance does require new and enhanced disclosure about fair value measurements. The amendments are effective for interim and annual periods beginning after December 15, 2011 and should be applied prospectively. We do not believe that this guidance will have a material impact on our consolidated financial statements but may require changes to our fair value disclosures.

In June 2011, the FASB issued new guidance on the presentation of comprehensive income in the financial statements. The new guidance does not make any changes to the components that are recognized in net income or other comprehensive income but rather allows an entity to choose whether to present items of net income and other comprehensive income in one continuous statement or in two separate but consecutive statements. Each component of net income and other comprehensive income along with their respective totals would need to be displayed under either alternative. The new guidance is effective for fiscal years beginning after December 15, 2011. We do not believe that this guidance will have a material impact on our consolidated financial statements.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the consolidated financial statements and in the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Restricted Cash

In October 2009, we established a cash collateral account with the proceeds from the sale of 9.25% Senior Secured Second Lien Notes due 2017 (the 9.25% Notes). The cash collateral account restricted the use of cash therein to repurchase the 3.0% Convertible Senior Notes due 2027 (the 3.0% Notes) and our 4.875% Convertible Senior Notes due 2018 (the 4.875% Notes) upon, or prior to, the expiration of the put periods for such notes in May 2010 and January 2011, respectively. Upon expiration of the put period for the 4.875% Notes in January 2011, the unused cash was used to reduce our overall debt balance pursuant to our Bank Credit Agreement. During 2010, we used \$53.6 million of restricted cash to repurchase a portion of the outstanding 3.0% and 4.875% Notes. As of December 31, 2010, all of the restricted cash classified as current related to the 4.875% Notes January 2011 put option. As of June 30, 2011, we had no restricted cash classified as current.

Additionally, under the terms of certain lease agreements, as of June 30, 2011 and December 31, 2010, we were required to hold \$0.2 million of restricted cash related to the removal of analog equipment from some of our leased towers.

Dividends

In February 2011, our Board of Directors reinstated our dividend policy, declaring a quarterly common stock dividend of \$0.12 per share.

In May 2011, our Board of Directors declared a quarterly cash dividend of \$0.12 per share.

Revenue Recognition

In first quarter 2011, we adopted the Emerging Issue Task Force's amended guidance on accounting for revenue arrangements with multiple deliverables. The amended guidance clarifies that each deliverable within our multiple-deliverable revenue arrangements is accounted for as a separate unit of accounting if the delivered item or items have value to the client on a standalone basis and for an arrangement that includes a general right of return relative to the delivered item(s), delivery or performance of the undelivered item(s) is considered probable and substantially in the control of the company. The guidance requires us to determine an estimated selling price (ESP) for all deliverables within an arrangement if vendor-specific objective evidence (VSOE) or third-party evidence does not exist. Application of this guidance has not changed the allocation of the arrangement revenue to the elements in our multiple-deliverable arrangements.

We enter into multiple-deliverable revenue arrangements with multi-channel video programming distributors (MVPD's) that may include a combination of retransmission consent fees, advertising, and other marketing elements. We have determined that the retransmission consent fees and advertising elements have value on a standalone basis. The other marketing elements are not valued on a stand alone basis because they are immaterial to the overall arrangement. We include the value of other marketing elements with the retransmission consent fee element.

Due to the complexities and uniqueness of each arrangement, we have determined that our ESP for the retransmission consent fee element is based upon the market, the MVPD, the network affiliation, the number of subscribers, the length of the contract and other factors. We recognize the revenue applicable to the retransmission consent element of the arrangement ratably over the life of the agreement which is representative of the delivery of our television broadcast signal. Each arrangement's life varies, typically ranging one to five years in length.

The advertising element of our multiple-deliverable arrangements is recognized in the period during which the time spots are aired. The advertising revenue is valued using VSOE which is calculated using the average selling unit rate for the advertising spot in which the commercial aired.

Our arrangements generally do not include any performance, cancellation, or refund provisions. Under certain agreements, the counterparty may terminate the agreement if particular actions occur such as the transmission failure of our broadcast signal for a certain period of time.

Income Taxes

Our income tax provision for all periods consists of federal and state income taxes. The tax provision for the three and six months ended June 30, 2011 and 2010 is based on the estimated effective tax rate applicable for the full year after taking into account discrete tax items and the effects of the noncontrolling interests.

Reclassifications

Certain reclassifications have been made to prior years' consolidated financial statements to conform to the current year's presentation.

2. COMMITMENTS AND CONTINGENCIES:

Litigation

We are party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various preliminary stages and no judgments or decisions have been rendered by hearing boards or courts in connection with such actions. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

Various parties have filed petitions to deny or informal objections against our applications for the following stations' license renewals: KGAN, Cedar Rapids, Iowa; WTTO, Birmingham, Alabama; WBFF, Baltimore, Maryland; WVAH, Charleston, West

The FCC is in the process of considering the renewal applications and we believe the petitions have no merit.

3. NOTES PAYABLE AND COMMERCIAL BANK FINANCING

Bank Credit Agreement

On January 15, 2011, the put right period for the 4.875% Notes, which mature on July 15, 2018, expired and no holders exercised their put rights. Pursuant to our Bank Credit Agreement, the \$5.1 million in restricted cash held to pay for the put of any 4.875% Notes was used towards reducing our debt balance in March 2011. On January 15, 2011, the 4.875% Notes cash interest rate of 4.875% changed to 2.0% through maturity with the difference of 2.875% being accrued and then paid at maturity. As of June 30, 2011, the face amount of the outstanding 4.875% Notes was \$5.7 million.

On March 15, 2011, we entered into an amendment (the Amendment) of our Bank Credit Agreement. The final terms of the Amendment are as follows:

- A new Term Loan A facility (Term Loan A) of \$115.0 million. The Term Loan A bears interest at LIBOR plus 2.25%. The Term Loan A is repayable in quarterly installments, amortizing as follows:
 - 1.875% per quarter commencing March 31, 2012 to December 31, 2012
 - 2.50% per quarter commencing March 31, 2013 to December 31, 2013
 - 3.125% per quarter commencing March 31, 2014 to December 31, 2015
 - remaining unpaid principal due at maturity on March 15, 2016

- We paid down \$45.0 million of the outstanding \$270.0 million Term Loan B facility (Term Loan B). Interest on the Term Loan B was reduced to LIBOR plus 3.00% with a 1.0% LIBOR floor. Principal will continue to amortize at a rate of \$825,000 per quarter through September 30, 2016 ending with a final payment of the remaining unpaid principal due at maturity on October 29, 2016.

- Other amended terms provide us with incremental term loan capacity of \$300.0 million and more flexibility to use our cash balances and the revolving credit facility for restricted payments and television acquisitions, including in certain circumstances the ability to make up to \$100.0 million in unrestricted annual cash payments including but not limited to dividends and other strategic investments.

6.0% Convertible Subordinated Debentures due 2012

On April 15, 2011, we completed the redemption of all \$70.0 million of the 6.0% Convertible Subordinated Debentures, due 2012 (the 6.0% Notes) at 100% of the face value of such notes plus accrued and unpaid interest. The redemption of the 6.0% Notes was effected in accordance with the terms of the indenture governing the 6.0% Notes and was funded from the net proceeds of our new Term Loan A. As a result of this redemption, we recorded a loss on extinguishment of debt of \$3.5 million for the quarter ended June 30, 2011.

Table of Contents**4. EARNINGS PER SHARE**

The following table reconciles income (numerator) and shares (denominator) used in our computations of earnings per share for the three and six months ended June 30, 2011 and 2010 (in thousands):

Potentially dilutive securities representing 1.0 million and 1.4 million shares of common stock for the three months ended June 30, 2011 and 2010, respectively, and 1.0 million and 7.0 million for the six months ended June 30, 2011 and 2010, respectively, were excluded from the computation of diluted earnings per common share for these periods because their effect would have been antidilutive. The decrease in potentially dilutive securities is primarily related to the full redemption of our 6.0% Notes. The net income per share amounts are the same for Class A and Class B Common Stock because the holders of each class are legally entitled to equal per share distributions whether through dividends or in liquidation.

5. RELATED PERSON TRANSACTIONS

David, Frederick, Duncan and Robert Smith (collectively, the controlling shareholders) are brothers and hold substantially all of the Class B Common Stock and some of our Class A Common Stock. Since the end of our last fiscal year, we engaged in the following transactions with them and/or entities in which they have substantial interests.

6. SEGMENT DATA:

We measure segment performance based on operating income (loss). Our broadcast segment includes stations in 35 markets located predominately in the eastern, mid-western and southern United States. Our other operating divisions segment primarily earned revenues from sign design and fabrication; regional security alarm operating and bulk acquisitions and real estate ventures. In 2011, we determined that a portion of the regional security alarm operating and bulk acquisition results should be accounted for as discontinued operations and therefore that portion is not presented in the tables below for the three and six months ended June 30, 2011 and 2010. All of our other operating divisions are located within the United States. Corporate costs primarily include our costs to operate as a public company and to operate our corporate headquarters location. Corporate is not a reportable segment. We had approximately \$168.9 million and \$166.4 million of intercompany loans between the broadcast segment, operating divisions segment and corporate as of June 30, 2011 and 2010, respectively. We had \$4.9 million and \$4.8 million in intercompany interest expense related to intercompany loans between the broadcast segment, other operating divisions segment

and corporate for the three months ended June 30, 2011, and 2010, respectively. For the six months ended June 30, 2011 and 2010, we had \$9.7 million and \$9.5 million, respectively, in intercompany interest expense. Intercompany loans and interest expense are excluded from the tables below. All other intercompany transactions are immaterial.

7. FAIR VALUE MEASUREMENTS:

Accounting guidance provides for valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). A fair value hierarchy using three broad levels prioritizes the inputs to valuation techniques used to measure fair value. The following is a brief description of those three levels:

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

- *Level 1:* Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2:* Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- *Level 3:* Unobservable inputs that reflect the reporting entity's own assumptions.

The carrying value and fair value of our notes, debentures, program contracts payable and non-cancelable commitments as of June 30, 2011 and December 31, 2010 were as follows (in thousands):

(a) On April 15, 2011, we completed the redemption of all \$70.0 million of these debentures at face value. We used the proceeds from the Term Loan A issuance to pay for the redemption.

(b) Future program liabilities reflect a license agreement for program material that is not yet available for its first showing or telecast and is, therefore, not recorded as an asset or liability on our balance sheet.

The fair value of our 8.375% Senior Notes due 2018 (the 8.375% Notes) and 9.25% Notes is determined using quoted prices. The carrying value of our 3.0% and 4.875% Notes approximates their fair value. Our Term Loan A, Term Loan B and Cunningham's bank credit facility are fair valued using Level 2 hierarchy inputs described above.

Our estimates of active program contracts payable and future program liabilities were based on discounted cash flows using Level 3 inputs described above. The discount rate represents an estimate of a market participants return and risk applicable to program contracts.

8. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS:

Sinclair Television Group, Inc. (STG), a wholly-owned subsidiary and the television operating subsidiary of Sinclair Broadcast Group, Inc. (SBG), is the primary obligor under the Bank Credit Agreement, the 8.375% Notes and the 9.25% Notes and was the primary obligor under the 8.0% Senior Subordinated Notes due 2012 (the 8.0% Notes) until they were fully redeemed in 2010. Our Class A Common Stock, Class B Common Stock, the 4.875% Notes and the 3.0% Notes, as of June 30, 2011 were obligations or securities of SBG and not obligations or securities of STG. SBG was the obligor of the 6.0% Notes until they were fully redeemed in 2011. SBG is a guarantor under the Bank Credit Agreement, the 9.25% Notes and the 8.375% Notes. As of June 30, 2011 our consolidated total debt of \$1,187.0 million included \$1,118.7

million of debt related to STG and its subsidiaries of which SBG guaranteed \$1,068.2 million.

SBG, KDSM, LLC, a wholly-owned subsidiary of SBG, and STG's wholly-owned subsidiaries (guarantor subsidiaries), have fully and unconditionally guaranteed all of STG's obligations. Those guarantees are joint and several. There are certain contractual restrictions on the ability of SBG, STG or KDSM, LLC to obtain funds from their subsidiaries in the form of dividends or loans.

The following condensed consolidating financial statements present the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows of SBG, STG, KDSM, LLC and the guarantor subsidiaries, the direct and indirect non-guarantor subsidiaries of SBG and the eliminations necessary to arrive at our information on a consolidated basis. - the impact of reverse network compensation payments made by us to networks pursuant to our affiliation agreements requiring compensation for network programming and the resulting negative effect on our operating results;
- the popularity of syndicated programming we purchase and network programming that we air;
- the strength of ratings for our local news broadcasts including our news sharing arrangements;

RESULTS OF OPERATIONS

In general, this discussion is related to the results of our continuing operations, except for discussions regarding our cash flows, which also include the results of our discontinued operations. Unless otherwise indicated, references in this discussion and analysis to the second quarter of 2011 and 2010 refer to the three months ended June 30, 2011 and 2010, respectively. Additionally, any references to the first, third or fourth quarter are to the three months ended March 31, September 30, and December 31, respectively, for the year being discussed. We have two reportable segments, broadcast and other operating divisions that are disclosed separately from our corporate activities.

SEASONALITY/CYCLICALITY

Our operating results are usually subject to seasonal fluctuations. Usually, the second and fourth quarter operating results are higher than first and third quarters operating results because advertising expenditures are increased in anticipation of certain seasonal and holiday spending by consumers.

Our operating results are usually subject to fluctuations from political advertising. In even numbered years, political spending is usually significantly higher than in odd numbered years due to advertising expenditures preceding local and national elections. Additionally, every four years, political spending is usually elevated further due to advertising expenditures preceding the presidential election.

Table of Contents**BROADCAST SEGMENT****Broadcast Revenue**

(a) Political revenue is not comparable from year to year due to cyclicity of elections. See *Political Revenues* below for more information.

Net broadcast revenues. When comparing the second quarter 2011 to the same period in 2010, we showed increases in advertising revenues generated from the direct response, retail/department stores, automotive and medical sectors. However, advertising revenues in the political, media, home products, telecommunications and services sectors showed a decrease between the second quarter 2011 and the same period in 2010. Automotive, which typically is our largest category, represented 19.6% of the second quarter's net time sales and was up 2.4% in the second quarter 2011 compared to the same period in 2010.

From a network affiliation or program service arrangement perspective, the following table sets forth our affiliate percentages of net time sales which includes any network compensation for the three and six months ended June 30, 2011 and 2010:

	# of Stations	Percent of Net Time Sales for the Three months ended June 30,		Net Time Sales Percent Change	Percent of Net Time Sales for the Six months ended June 30,		Net Time Sales Percent Change

(a) We broadcast programming from network affiliations or program service arrangements with TheCoolTV, The Country Network, MyNetworkTV, This TV and Estrella on 69 channels through our stations' second and third digital signals.

Political Revenues. Political revenues decreased by \$2.6 million to \$1.2 million for the second quarter 2011 when compared to the same period in 2010. For the six months ended June 30, 2011, political revenues decreased by \$3.6 million to \$1.8 million when compared to the same period in 2010. Political revenues are typically higher in election years such as 2010.

Local Revenues. Excluding political revenues, our local broadcast revenues, which include local times sales, retransmission revenues and other local revenues, were up \$6.2 million for the second quarter 2011 when compared to 2010. The increase was primarily driven by increased retransmission revenues from MVPDs. For the six months ended June 30, 2011, our local broadcast revenues, excluding political revenues were up \$14.7 million. The increase is due to an increase in retransmission revenues from MVPDs and an increase in advertising spending particularly in the automotive sector, as well as an increase due to a change in networks for the Super Bowl programming from NBC to FOX.

National Revenues. Our national broadcast revenues, excluding political revenues and including national time sales and other national revenues, were down \$3.0 million for the second quarter 2011 compared to same period in 2010. For the six months ended June 30, 2011 when compared to the same period in 2010, our national broadcast revenues were down \$2.6 million. This was primarily due to a decrease in advertising spending by other media advertisers, such as the telecommunications sector.

Table of Contents**Broadcast Expenses**

The following table presents our significant expense categories in our broadcast segment for the three and six months ended June 30, 2011 and 2010 (in millions):

	For the Three Months Ended June 30,			For the Six Months Ended June 30,		
	2011	2010	Percent Change (Increase/ (Decrease))	2011	2010	Percent Change (Increase/ (Decrease))
Station production expenses	\$ 42.9	\$ 38.6	11.1%	\$ 85.3	\$ 74.6	14.3%
Station selling, general and administrative expenses	\$ 30.2	\$ 30.6	(1.3)%	\$ 60.8	\$ 61.2	(0.7)%
Amortization of program contract costs and net realizable value adjustments	\$ 12.7	\$ 15.3	(17.0)%	\$ 25.3	\$ 31.2	(18.9)%
Corporate general and administrative expenses	\$ 6.2	\$ 6.4	(3.1)%	\$ 13.8	\$ 12.3	12.2%
Gain on insurance settlement	\$	\$	%	\$ 1.7	\$	100.0%

Station production expenses. Station production expenses increased during the second quarter 2011 and six months ended June 30, 2011 compared to the same periods in 2010 primarily due to an increase in fees pursuant to network affiliation agreements, increased compensation expense, increased promotional advertising expenses and increased rating service fees due to annual scheduled rate increases. Additionally, news profit share expenses increased due to better news performance which resulted in higher payments to our news share partners.

Station selling, general and administrative expense. Station selling, general and administrative expenses decreased during the second quarter 2011 compared to the same period in 2010, primarily due to lower executive bonuses, decreases in bad debt expense and decreased national sales agency and local commissions costs.

Station selling, general and administrative expenses decreased during the six months ended June 30, 2011 compared to the same period in 2010 primarily due to lower executive bonuses, decreases in bad debt expense from improved collection efforts and decreased national sales agency costs.

We expect station production and station selling, general and administrative expenses in third quarter 2011 to remain flat compared to second quarter 2011.

Amortization of program contract costs and net realizable value adjustments. The amortization of program contract costs decreased during the second quarter 2011 and for the six months ended June 30, 2011 compared to the same period in 2010. Over the past few years we have purchased barter and short-term program contracts which are less expensive and result in lower contract cost amortization. We expect program contract amortization to trend slightly higher in third quarter 2011 compared to second quarter 2011.

Corporate general and administrative expenses. See explanation under *Corporate and Unallocated Expenses*.

Gain on insurance settlement. In the third quarter 2010, our building for WCGV-TV and WVTV-TV in Milwaukee, Wisconsin flooded due to massive storms. In the first quarter 2011, we recognized a gain on insurance settlement of \$1.7 million related to repairing the building and replacing certain equipment.

OTHER OPERATING DIVISIONS SEGMENT

Triangle Sign & Service, LLC. (Triangle), a sign designer/fabricator, real estate ventures and other nominal businesses make up our other operating divisions segment. Revenues for our other operating divisions increased \$2.3 million to \$8.8 million during the second quarter 2011 compared to \$6.5 million during the same period in 2010. For the six months ended June 30, 2011, revenues for our other operating divisions increased \$3.9 million to \$15.2 million compared to \$11.3 million during the same period in 2010. The increase is primarily due to increases in Triangle's sign and service contract volume and improved leasing activity for our consolidated real estate ventures. Expenses including other operating divisions expenses, depreciation and amortization and applicable other income (expense) items such as interest expense increased \$1.3 million to \$8.7 million during the second quarter 2011 compared to \$7.4 million during the same period in 2010. For the six months ended June 30, 2011, expenses including other operating divisions expense, depreciation and amortization and applicable other income (expense) items such as interest expense increased \$2.1 million to \$16.1 million compared to \$14.0 during the same period in 2010. This increase was in correlation with the increase in revenue activity.

Table of Contents

Income from Equity and Cost Method Investments. Results of our equity and cost method investments in private investment funds and real estate ventures are included in income from equity and cost method investments in our consolidated statements of operations. During the six months ended June 30, 2011, we recorded income of \$0.5 million related to our real estate ventures and income of \$0.3 million related to certain private investment funds. During the six months ended June 30, 2010, we recorded income of \$0.8 million related to certain private investment funds and a loss of \$1.3 million related to our real estate ventures.

A portion of the operating results of Alarm Funding Associates, LLC, a regional security alarm operating and bulk acquisition company, are included in discontinued operations in our consolidated results of operations. The results of Alarm Funding operations on a whole have increased due to the acquisition of new alarm monitoring contracts and the expansion of sales efforts.

CORPORATE AND UNALLOCATED EXPENSES

	2011	2010	Percent Change (Increase/Decrease)	2011	2010	Percent Change (Increase/Decrease)

Income tax provision	\$ (12.5)	\$ (10.5)	19.0%	\$ (20.5)	\$ (17.5)	17.1%

Corporate general and administrative expenses. We allocate most of our corporate general and administrative expenses to the broadcast segment. The explanation that follows combines the corporate general and administrative expenses found in the *Broadcast Segment* section with the corporate general and administrative expenses found in this section, *Corporate and Unallocated Expenses*. These results exclude general and administrative costs from our other operating divisions segment which are included in our discussion of expenses in the *Other Operating Divisions Segment* section.

Corporate general and administrative expenses increased for the six months ended 2011 compared to the same period in 2010. This is primarily due to an increase in employee bonuses, stock-based compensation from the issuance of stock-settled appreciation rights, the issuance of restricted and unrestricted common stock, an increase in workers compensation expense and an increase in legal fees. These increases were partially offset by a decrease in satellite costs and lower health and other insurance costs.

We expect corporate general and administrative expenses to remain flat in the third quarter 2011 compared to second quarter 2011.

Interest expense. Interest expense has decreased primarily due to our amending and restating the Bank Credit Agreement in third quarter 2010 and the first quarter 2011, the redemption of our 8.0% Notes in fourth quarter 2010, our 6.0% Notes in 2010 and second quarter 2011. We expect interest expense to slightly decrease in third quarter 2011 compared to second quarter 2011.

Loss from extinguishment of debt. During the six months ended June 30, 2011, we amended our Bank Credit Agreement and paid down a portion of our Term Loan B resulting in a loss of \$0.9 million from extinguishment of debt. Additionally, we completed the redemption of all \$70.0 million of the 6.0% Notes at 100% of the face value of such notes resulting in a loss of \$3.5 million. We used the proceeds from our Term Loan A to pay for the redemption.

During the six months ended June 30, 2010, through a combination of tender offers and the exercise of holder put rights, we redeemed \$14.3 million and \$22.3 million of our 4.875% and 3.0% Notes, respectively, resulting in a loss on extinguishment of \$0.2 million and \$0.1 million, respectively. Additionally, we repurchased, in the open market, \$6.1 million in principal amount of our 6.0% Notes, resulting in a loss of \$0.1 million from extinguishment of debt.

Income tax provision. The effective tax rate for the three months ended June 30, 2011 including the effects of the noncontrolling interest was a provision of 40.3% as compared to a provision of 38.2% during the same period in 2010. The increase in the effective tax rate for the three months ended June 30, 2011 as compared to the same period in 2010 is primarily due to a greater valuation allowance on deferred tax assets provided for in 2011.

The effective tax rate for the six months ended June 30, 2011 including the effects of the noncontrolling interest was a provision of 38.0% as compared to a provision of 38.1% during the same period in 2010

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

As of June 30, 2011, we had \$50.5 million in cash and cash equivalent balances and working capital of approximately \$69.0 million. Cash generated by our operations and availability under the Revolving Credit Facility are used as our primary source of liquidity. As of June 30, 2011, we had \$75.4 million of borrowing capacity available on our Revolving Credit Facility. We anticipate that existing cash and cash equivalents, cash flow from our operations and borrowing capacity under the Revolving Credit Facility will be sufficient to satisfy our debt service obligations, capital expenditure requirements and working capital needs for the next twelve months. For our long-term liquidity needs, in addition to the sources described above, we may rely upon the issuance of long-term debt, the issuance of equity or other instruments convertible into or exchangeable for equity, or the sale of non-core assets. However, there can be no assurance that additional financing or capital or buyers of our non-core assets will be available, or that the terms of any transactions will be acceptable or advantageous to us.

On April 15, 2011, we completed the redemption of all \$70.0 million of the 6.0% Notes at 100% of the face value of such notes. We used the proceeds from our Term Loan A to pay for the redemption.

Sources and Uses of Cash

Net cash flows used in financing activities	\$	(68.9)	\$	(40.8)	\$	(13.5)	\$	(68.4)

Operating Activities

Net cash flows from operating activities decreased during the second quarter 2011 compared to the same period in 2010. The primary reason for the decrease was due to an increase in cash paid for interest and interest on accretion of debt discount in the second quarter 2011 compared to the same period in 2010.

Net cash flows from operating activities increased during the six months ended June 30, 2011 compared to the same period in 2010. This increase was primarily the result of less cash paid for program contracts.

We expect program payments to decrease in the third quarter 2011 compared to the second quarter 2011. We expect net interest expense to slightly decrease in the third quarter 2011 compared to the second quarter 2011.

Investing Activities

With the exception of restricted cash, net cash flows used in investing activities increased during the second quarter 2011 compared to the same period in 2010. During the second quarter 2011, we increased capital expenditures primarily for news operations and upgrades to our master control systems in order to upgrade these operations to high definition (HD). As of June 30, 2011, four out of the 12 markets with news were broadcasting in HD and 11 out of 35 markets had HD master control

Table of Contents

operations. We are planning to add HD news broadcasts in three additional markets and HD master control operations in 10 additional markets over the next several months.

With the exception of restricted cash, net cash flows used in investing activities increased during the six months ended June 30, 2011 compared to the same period in 2010. We made additional equity investments primarily in real estate and increased capital expenditures primarily for news operations and upgrades to our master control systems. We decreased our investment in restricted cash at the expiration of the put period for the 4.875% Notes and used the cash to pay down our debt balance pursuant to our Bank Credit Agreement.

In third quarter 2011, we anticipate incurring less capital expenditures than incurred in the second quarter 2011.

Financing Activities

Net cash flows used in financing activities increased in the second quarter 2011 compared to the same period in 2010. This was primarily due to an increase in our debt repayments in second quarter 2011 compared to the same period in 2010 and the quarterly stock dividend paid in second quarter 2011.

Net cash flows used in financing activities decreased during the six months ended June 30, 2011 compared to the same period in 2010. In first quarter 2011, we amended our Bank Credit Agreement resulting in a new Term Loan A of \$115.0 million and reducing our Term Loan B by \$45.0 million. In February 2011, our Board of Directors reinstated a quarterly common stock dividend of \$0.12 per share and in May 2011, our Board of Directors declared a \$0.12 per share common stock dividend. Future dividends on our common shares, if any, will be at the discretion of our Board of Directors and will depend on several factors including our results of operations, cash requirements and surplus, financial condition, covenant restrictions and other factors that the Board of Directors may deem relevant.

CONTRACTUAL CASH OBLIGATIONS

As disclosed above under *Liquidity and Capital Resources*, during first quarter 2011, we borrowed \$115.0 million under the Term Loan A and used \$45.0 million to pay down the Term Loan B. On April 15, 2011, we used the remaining net proceeds to complete the redemption of all \$70.0 million of the 6.0% Notes at 100% of the face value of such notes. There were no material changes outside the ordinary course of business to our contractual cash obligations disclosed in our Annual Report on Form 10-K for the year ended December 31, 2010.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

On March 15, 2011, we entered into an amendment of our Bank Credit Agreement. The amendment includes a new Term Loan A of \$115.0 million. Under the amendment, we paid down \$45.0 million of the outstanding \$270.0 million balance under the Term Loan B. The Term Loan

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

B will bear interest at LIBOR plus 3.0% with a 1.0% floor. The Term Loan A will bear interest at LIBOR plus 2.25%. Any outstanding amounts accrue interest with a variable rate and therefore increases our risk to rising interest rates.

On April 15, 2011, we completed the redemption of all \$70.0 million of the 6.0% Notes at 100% of the face value of such notes.

Other than the foregoing, there have been no material changes from the quantitative and qualitative discussion about market risk previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2010.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures and Internal Control over Financial Reporting

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the design and effectiveness of our disclosure controls and procedures and our internal control over financial reporting as of June 30, 2011.

The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to provide reasonable assurance that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's

management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The term internal control over financial reporting, as defined in Rules 13a-15d-15(f) under the Exchange Act, means a process designed by, or under the supervision of our Chief Executive and Chief Financial Officers and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (GAAP) and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and disposition of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that our receipts and expenditures are being made in accordance with authorizations of management or our Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material adverse effect on our financial statements.

Assessment of Effectiveness of Disclosure Controls and Procedures

Based on the evaluation of our disclosure controls and procedures as of June 30, 2011, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

Management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system

must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.
